# **UPDATE OF THE NAVY CONTRACT WRITING GUIDE PHASE II**

## **ABSTRACT**

The purpose of this MBA Project is to provide a comprehensive update of the Navy Contract Writing Guide and to offer a useful tool to both new and experienced contract writers and administrators. The project was conducted with the sponsorship and assistance of the Office of the Assistant Secretary of the Navy for Research, Development, and Acquisition. The now out of date guide was originally written in 1996 in an effort to reduce problem disbursements as related to contract wording and organization. It was then updated and reorganized in December 2003. Extensive research, incorporating interviews, and websites, was employed to make the guide relevant in today's acquisition environment. It has been reorganized to address issues and solutions in the relevant sections of a contract. Additionally, a payment instruction guide and a special issue section that includes regulatory issues and financing issues were added to further improve the contract writing guide.

## **ACKNOWLEDGMENTS**

The authors would like to thank several individuals and organizations for their assistance in completing this project. Specifically, Mr. Bruce Lowery (ASN RDA), Ms. Nancy Shacklock (DFAS Columbus), Ms. Roseann Hurst (DFAS Cleveland), Mrs. Sally Smith (DFAS Columbus), Mrs. Rebecca Beck (DFAS Columbus), Mr. Lee Krushinski (DFAS Cleveland), and Mr. Ron Ostrom (Representing the DAR Council). All were extremely helpful in providing research information, interview subjects, and background information.

We would also like to thank our project advisors R. Marshall Engelbeck and Jeffrey Cuskey for the direction and guidance they provided.

## ABOUT THE AUTHORS

**Joseph C. Espino**, Lieutenant Commander, United States Navy, received his Master of Business Administration with a focus in Contract Management at the Naval Postgraduate School, Monterey, CA in June 2004. LCDR Espino completed his undergraduate studies at Texas A&M University in College Station, Texas. Prior to his current assignment, LCDR Espino served as the Branch Assistant of Operations and Maintenance, Navy (O&M,N) for the Comptroller of the Naval Air Systems Command; S-8 Division Officer aboard the USS INCHON (MCS 12); Supply Officer for USS OSPREY (MHC 51); and CBQ/Food Service Officer at NAF Adak, AK. His next Assignment is Supply Officer, NMCB-5 in Port Hueneme, CA

**Chong Hunter**, Lieutenant Commander, United States Navy, is currently a student in the Master of Business Administration (focus on Contracting) at Naval Postgraduate School, Monterey, CA. LCDR Hunter completed his undergraduate studies at University of Colorado in Boulder, Colorado. He received a Master of Business Administration from Johns Hopkins University in June 2001. Prior to his current assignment LCDR Hunter served as the Supply Officer for USS OLDENDORF (DD 972), Business Financial Manager for the Tactical Control Station Program under the Program Executive Office for Strike Weapons and Unmanned Aviation (PEOW), Business Financial Manager for the O&M,N account for Program Executive Office for Tactical Aircraft (PEOT), Aviation Supply Officer for USS TARAHA (LHA-1), and Assistant Supply Officer for Naval Support Activity in Souda Bay, Crete, Greece. His next assignment is at SPAWAR, San Diego, CA.

## **EXECUTIVE SUMMARY**

The purpose of this MBA Project is to provide a comprehensive update of the Navy Contract Writing Guide. The project was conducted with the sponsorship and assistance of the Office of the Assistant Secretary of the Navy for Research, Development, and Acquisition. The first version of the guide was written in 1996 in an effort to reduce problem disbursements as related to contract wording and organization. The first update to the guide, which focused on reorganizing the guide in a more “user friendly” manner, was completed in December 2003. This second update focused on improving the content and value of the guide by adding a payment section, addressing current contract writing issues (as observed from Defense Finance Accounting Service - DFAS and Defense Contract Management Agency - DCMA), and re-emphasizing various regulatory clauses that have not been consistently followed in the writing of contracts. Extensive research, incorporating interviews, websites, periodicals, and texts, was employed to make the second update current.

Additionally, the guide has been reorganized a second time to address new issues and solutions in the same order in which the forms used by contracting officers and administrators have them listed. The new issues were identified through extensive literature research and interviews. The research not only highlighted new issues, but confirmed that old issues had not been resolved since the original distribution of the guide. Individuals new to Naval contracting or those who have decades of experience will find the information provided useful to the efficient and effective writing and administration of government contracts.

## I. BACKGROUND

“Contracting officers are responsible for ensuring performance of all necessary actions for effective contracting, ensuring compliance with the terms of the contract, and safeguarding the interests of the United States in its contractual relationships. In order to perform these responsibilities, contracting officers should be allowed wide latitude to exercise business judgment.”<sup>1</sup> Additionally, according to the Federal Acquisition Regulation (FAR) performance standards, the Federal Acquisition System will minimize administrative operating costs<sup>2</sup>. In keeping with these guiding principles and responsibilities stated by the FAR, the contracting officer must ensure that contracts are written clearly and concisely in order to facilitate their administration and payment.

The Defense Finance Accounting Service-Columbus (DFAS-Columbus) is responsible for the payment of all Defense Contract Management Agency (DCMA) monitored contracts. In an audit of DFAS-Columbus, the Department of Defense Inspector General (DODIG)<sup>3</sup> reported that during October 1994 to September 1995, the value of overdisbursed contracts increased from \$1.19 billion to \$1.59 billion and the number of contracts overdisbursed increased from 2,629 contracts to 3,029 during the same period. As a result, program offices, contract offices, and DFAS are expending significant amounts of time, and program dollars on contracted support to fix payment problems and reconcile problem disbursements.

Problem disbursements include overpayments, violation of the “prompt payment” act (contractors are paid late due to improperly written contracts and/or billing documents submitted incorrectly), or any issue that causes DFAS to withhold payments.

In an effort to improve the contract closeout process and reduce problem disbursements, the Department of Navy and Headquarters published a contract writing guideline. The Navy Contract Writing Guide (NCWG), originally distributed in 1996,

---

<sup>1</sup> Federal Acquisition Regulation, 1.602-2.

<sup>2</sup> Federal Acquisition Regulation, 1.102(b)

<sup>3</sup> Overdisbursed and Unreconciled Contracts... 4 Jun. 1996

was not intended to be directive in nature, but rather to be used as a reference by contracting professionals when writing contracts. In 1999, the DODIG submitted a report that showed that between June 1996 and June 1998 problem disbursements at DFAS-Columbus decreased from \$13 billion to \$11.1 billion, a fifteen percent decrease. While the NCWG may have contributed to the decrease, problem disbursements and contract closeout problems still exist.

After the release of the first version in 1996 of the NCWG, numerous General Accounting Office (GAO) reports have continued to report on the problems that exist within the Department of Defense. In February and April 1997 in a study conducted at DFAS-Columbus, the GAO reported<sup>4</sup> that there were three major factors contributing to payment processing problems: (1) nonintegrated computer systems often require data to be entered manually; (2) multiple documents must be matched before contractors are paid; (3) payments are allocated among numerous accounting classifications. The GAO also stated that other factor that contributed to payment problems were the complexity of contracting requirements for major weapons systems.

In August 2003, the GAO submitted a report that highlighted the continued payment problems at DFAS Columbus<sup>5</sup>. The GAO reported that in an analysis of two major weapons system contracts \$1 of every \$4 in contract payment actions was for adjustments to contracts. The GAO reported that the adjustments were due to complex payment instructions as a result of (1) legal and DOD requirements to track and report on the funds used to finance the contract; (2) substantial number of contract modifications that added goods and/or services; and (3) different pricing provisions for goods and services. Based on this report, it was clear that the NCWG needed to be updated to address this issue. The need for simple payment instructions that would prevent or minimize these additional costs associated with contingency costs being built into these contracts.

Defense Contract Management... GAO Report GAO/HR-97-4

<sup>5</sup> GAO Report GAO-03-727

DFAS reports all contract discrepancies to the contracting office on the DD1716 form. This form identifies the discrepancy and the action to be taken by the contracting office. In the monthly report in March 2004<sup>6</sup>, DFAS reported 269 outstanding DD1716s for the Department of the Navy. This comprised 31 percent of all DD1716s at DFAS-Columbus. DFAS reported that the top five Navy deficiencies through March 2004, which accounted for 59 percent of Navy's total, were:

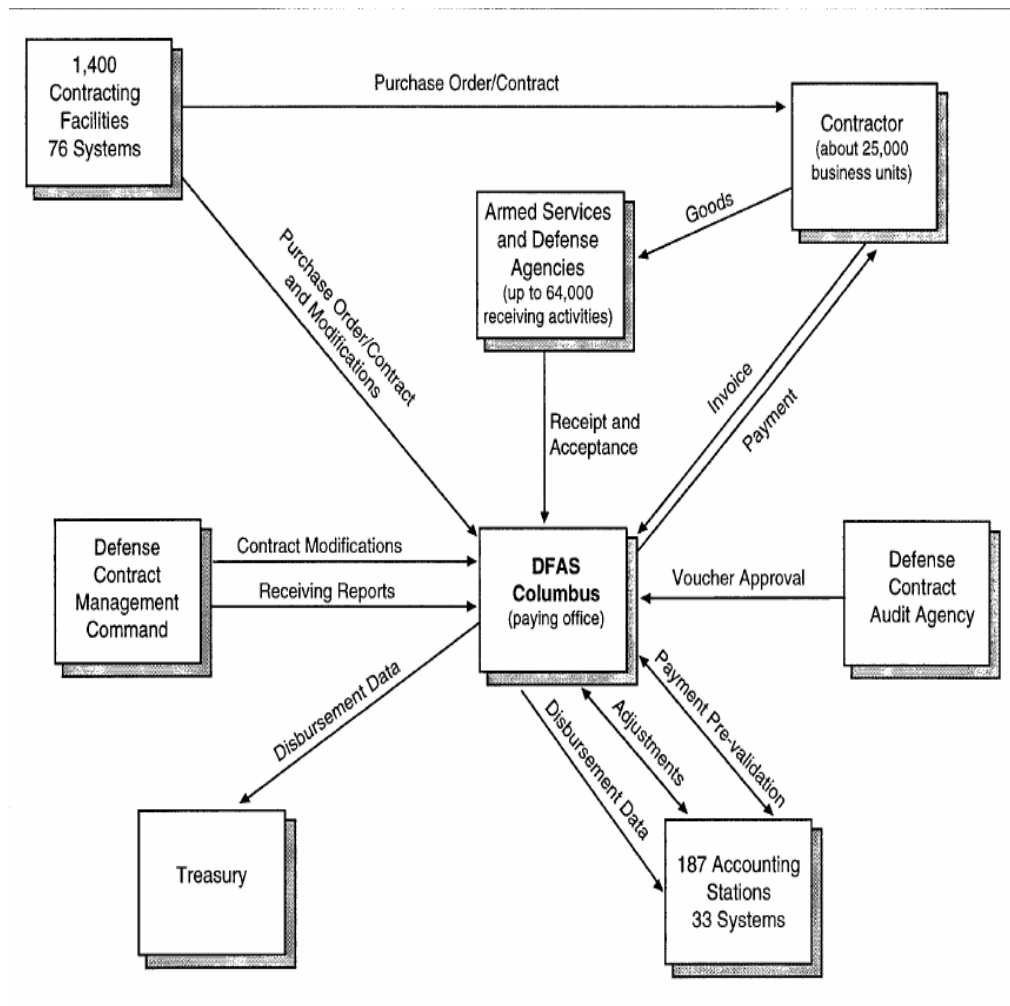

1. Long line of accounting invalid (28%).
2. Contract and supporting documents are late (10%).
3. Contract Line Item Numbers (CLINS) and Sub Contract Line Item Numbers (SUBCLINS) not structured in accordance with regulations (10%).
4. Contract and supporting documents missing pages (6%).
5. Contractor name/address conflicts with CAGE data (6%).

These deficiencies are representative of the reasons payment and contract closeout problems exist at DFAS. As highlighted in numerous GAO and DODIG reports, the complex process created due to nonintegrated computer systems is illustrated in Figure 1. As shown in Figure 1, many of the inputs to DFAS Columbus come from Defense contracting and accounting activities. Due to the inability of computer systems to interface, many of these inputs are

entered manually creating a possibility for input errors. In December 1998, the Under Secretary of Defense issued Department of Defense Reform Initiative Directive #47 – End to End Procurement Process (DRID #47)<sup>7</sup>. It directed the formation of a Department of Defense (DOD) Working Integrated Process Team (WIPT). The WIPT was tasked to develop an end-to-end contract payment process model. Figure 2 shows the contract payment process prior to the development of the end-to-end process model. The end-to-

<sup>7</sup> DRID #47

end process model resulted in the creation of the Defense Procurement Payment System (DPPS) and was

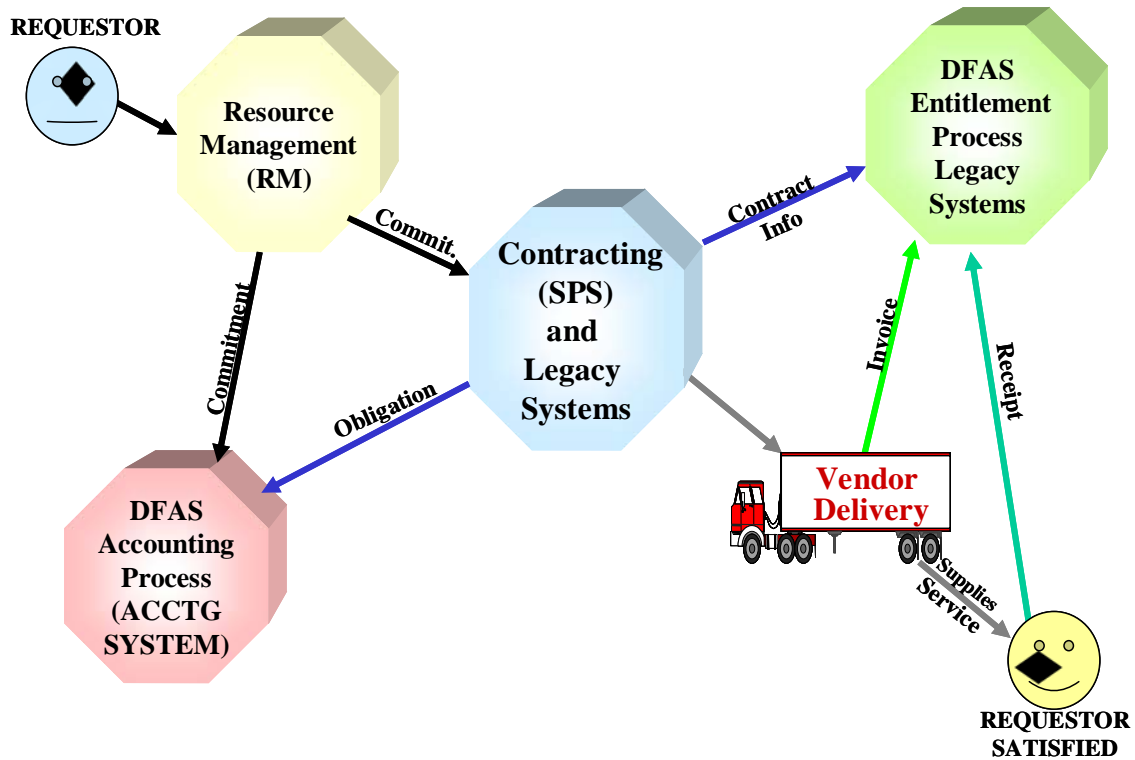

Figure 2. Legacy payment process.

Source: From DFAS

designed to address the problems associated with nonintegration of the various systems. The DPPS was to interface with the Standard Procurement System (SPS) and replace the Mechanization of Contract Administration Services (MOCAS) system. SPS is used by contracting offices for the input of contracts. MOCAS is used by DFAS-Columbus to compute contractor payments, by vendors to view status of their invoice processing, and by DCMA to maintain contract administration and payment data on its contracts. The one major flaw with MOCAS is invoice data must be entered manually, which can lead to inputting errors and eventually problem disbursements. Figure 3 shows the contract payment process with DPPS.

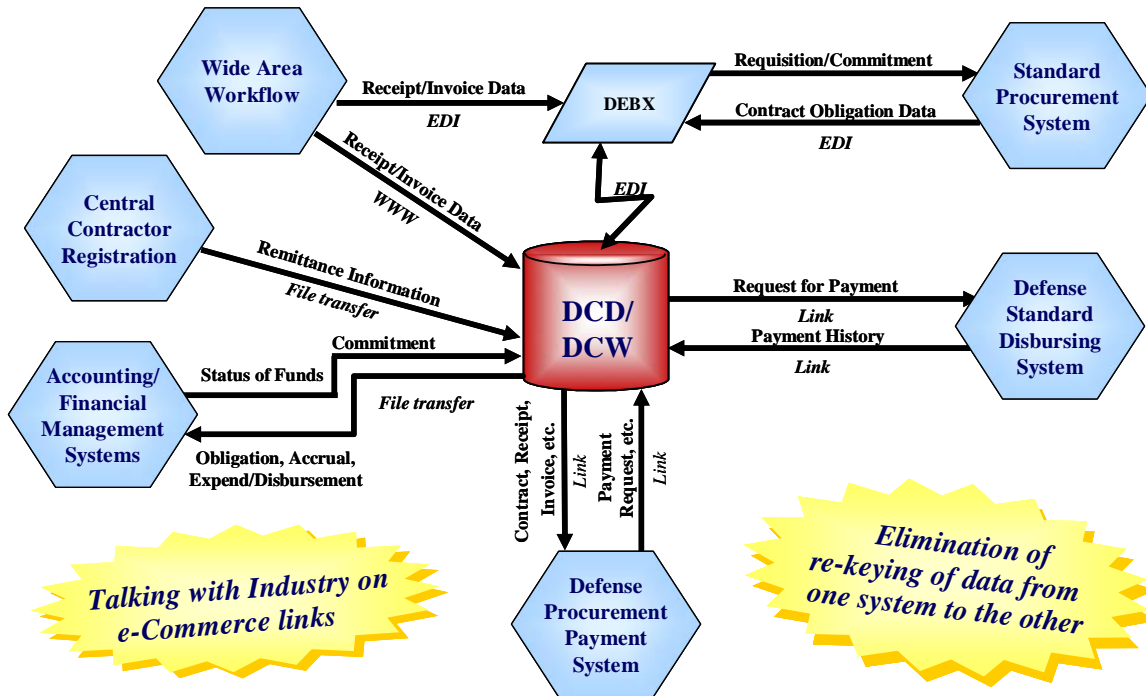

Figure 3. DPPS payment process Source: From DFAS

However, in April 2003, the Department of Defense cancelled the implementation of DPPS citing schedule problems. With the cancellation of DPPS, any integration of the various systems will be delayed until a new system can be developed. That new system has been identified as the Wide Area Work Flow system. It is a web-enabled application that allows Government contractors to create and send electronic receiving reports and/or invoices to Government inspectors/acceptors for approval. It is scheduled to replace all other systems by January 2005.

Since the inception of the first version of the NCWG, numerous regulations and laws have changed in the acquisition community. The NCWG, while a valuable tool in the acquisition process, was outdated and provided solutions that were no longer applicable or correct. This update to the guide is not just an update of the regulatory and legal issues, but also a reorganization in a more presentable format for the contracting professional. This version of the NCWG has been formatted to allow the contracting professional to quickly use as a reference while writing a contract. This should promote

an even more widespread use of the guide and contracts that are easily understood and paid by DFAS.

## **II. RESEARCH METHODS**

### **A. OBJECTIVE**

The overarching goal of this project is to complete a thorough update of the Navy Contract Writing Guide to better aide those individuals who write and administer contracts daily. To help these contracting professionals, a significant amount of time has been spent researching those issues, problems, and concerns that are most prevalent today. Our research concentrated on those issues that have been identified by DFAS, DCMA, and ASN&RDA as crucial to successful contracting in the Navy and throughout the Department of Defense. This includes factors that have already been addressed in the previous version of the guide but still remain as problems, and new issues that have been identified as technological advancements have changed the way in which contracting is done. The benefits resulting from well-written contracts cannot be understated, as this aspect of the military directly correlates to the success of the warfighter. It is with the warfighter in mind that research has been conducted. Well-written contracts can be executed more efficiently, helping to keep programs on target with regard to cost, schedule, and performance. This project will provide the reader with an understanding of the scope of this undertaking in addition to a reorganized and updated guide.

### **B. RESEARCH QUESTIONS**

#### **1. Primary Research Question**

The primary research question shaping the outcome of this project was: What are the current payment and financial issues that need to be addressed in the Navy Contract Writing Guide? This broad question provided the latitude needed to update the guide with more relevant information and issues. Using a variety of research methods, data was collected that aiding in effectively addressing issues that plague contracting personnel.

#### **2. Secondary Research Questions**

Several secondary research questions were identified at the outset of the project to address several smaller, but still important issues. These questions are:

- In what way can the Navy Contract Writing Guide be better organized, in an effort to increase its use by contracting personnel?
- What information contained in the guide is out of date and needs to be removed?
- What are some general lessons learned during the update of the guide that would be important to convey to future users?
- How can updating the Navy Contract Writing Guide, and the knowledge gained from that process contribute to the contracting that takes place in other services and other departments of the federal government?

### **C. SCOPE AND ORGANIZATION**

This project was conceived with the intention of completely updating the Navy Contract Writing Guide. It is with this overarching goal in mind that the scope of the project is defined. In fact, the scope of this project is identified in the title with the word *update*. To the reader, this should mean that the guide will retain the majority of the information that it originally contained. The changes made as result of the work performed will include: 1) an organization that mirrors that of the forms used by contracting professionals; 2) removal of information that has been overcome by events, or has been determined to provide no value; 3) addition of information that has been necessitated by technological advances; 4) and addition of information that has been identified as important by defense finance contracting professionals.

The organization of this project follows the progression of the work completed. Using several chapters and one attachment, the reader will be able to gain an appreciation for the research conducted, the determinations and findings based on this data, and finally see the changes recommended by referencing the updated version of the Navy Contract Writing Guide.

This project is intended for readers of all experience levels. Assuming little background knowledge, but also writing for those who have a very broad background in government contracting, this project should bring a wide variety of individuals to a common understanding and knowledge level regarding the writing of contracts in the U.S. Navy.

An introduction to the project will be found in Chapter I. This provides the reader an overview to the project detailing the research performed and the information conveyed.

In Chapter II, the reader will be provided with a greater understanding of the research objective, scope, and methodology that was employed in the completion of this project.

Chapter III will provide the reader with recommendations for future action to be taken on the rewrite of the Navy Contract Writing Guide. Further, based on the research conducted, conclusions will be drawn about how to better write and administer government contracts. Finally, “next steps” will be provided for those continuing the process of rewriting the guide. When the entire process is complete, the Navy Contract Writing Guide should become an indispensable item on every contracting professional’s desk.

#### **D. METHODOLOGY**

The following steps comprised the methodology used to complete this project:

1. Extensive literature research consisting of Internet sources, periodicals, briefing slides, government publications, and other information obtained from the library such as various GAO reports.
2. Conducted comprehensive interviews in person and via e-mail with several individuals representing a cross-section of the Navy and Department of Defense contracting professional community.
3. Consolidated all of the data acquired, the analysis conducted, and contracting and acquisition principles to form well-reasoned recommendations and conclusions in addition to a completely updated guide.

### **III. FINDINGS AND RECOMMENDATIONS**

#### **A. THE GUIDE**

Numerous GAO reports that have been published since the initial writing of the NCWG, have reported continual payment problems experienced by the personnel staffing DFAS-Columbus. In answer to the primary research question, “What are the current issues that need to be addressed,” the following recurring problems were identified: (1) nonintegrated computer systems often require data to be entered manually; (2) multiple documents must be matched before contractors are paid; (3) payments are allocated among numerous accounting classifications.

In developing the update to the NCWG, research focused on the latter two problems identified by the GAO. The first problem, dealing with nonintegrated computer systems, is not an issue that can be resolved with a contract writing guide. However, this issue does affect the outcome of poorly written contracts due to the lack of automation resulting in an increased human element within the process.

The second issue addressing matching multiple documents was an issue addressed in the first writing of the NCWG. This involves matching the correct CLINS/SLINS with the appropriate accounting data. In response to inquiries, DFAS personnel provided examples of contracts that were not in the correct format and required DFAS personnel to consume an enormous amount of labor in order to match documents within the contract. The FAR and DFARS provide adequate instruction on the proper contract format. This format, if used, can easily correct any discrepancies or differences between DFAS and contracting professionals. Local offices often develop their own standard operating procedures (SOP) in writing contracts. However, there is a risk that these SOPs may contradict regulations or neglect the affect on DFAS and the payment and closeout process.

The allocation of payments among numerous accounting classifications is another issue that was addressed in the first NCWG. Numerous GAO reports and responses from DFAS, still show that contracting offices continue to allocate in this manner. Regulations

specifically state that each CLIN/SLIN will be allocated to only one ACRN. Additionally, the allocation must be stated clearly and concisely. However, payment problems still arise as a result of incorrect allocation of payments.

The implementation of an Electronic Data Access system will address many of the issues related to payment problems. However, with the cancellation of DPPS, it is imperative that contracting professionals proactively work with DFAS to write clear and concise contracts in order to facilitate payment and closeout.

In its initial version (1996), the NCWG appeared to be constructed at random. Issues, problems and their corresponding solutions were grouped on the type of problem, not the order in which a contracting officer or administrator might encounter them. The guide was made more complex by a myriad of other format issues, all of which needed to be addressed in order to make the guide more user friendly. The first update (December 2003) process highlighted the existing deficiencies and naturally brought forth a method of organization that would greatly assist contracting professionals in their use of the guide. The second update (June 2004) further simplified the organization of the guide and added valuable content in the areas of payment instructions and DFAS and DCMA contract writing issues.

Additionally, all government forms frequently used when writing contracts were added to the guide with information on when to use each form. It is the nature of government forms to label each block in which action may be required. Using the numbering of the blocks as an outline, the June 2004 version of the NCWG directly mirrors the layout of the forms. Additionally, other contracting forms that are not as frequently used are also detailed in the guide.

Many of the issues identified in the original guide are still pertinent to the writing of contracts today. Old and new issues alike were then organized based on their relationship to the information blocks on the government forms. In some cases an issue would apply to both documents and/or more than one block in the same document. In such cases the issues were cross referenced to the issues section of the guide under each block to make the guide easier to use – allowing the user to continue with the instructions

for filling out each block. The intention of the new layout of the guide is that one can easily follow along, block-by-block and issue-by-issue, while filling out one of the required forms.

## **B. COMMUNICATION**

*Communication* is a term that, many times, is overused when discussing organizational behavior. Research into contract writing and administration problems lead to the finding that increased levels of communication between contracting officers and DFAS personnel would contribute greatly to facilitating the efficient administration of government contracts. Complaints from contract administrators almost always could be traced back to some form of miscommunication. The primary form of communication between contractor writers and administrators is the written words that comprise the contract itself. Sometimes the clarity of the language used to detail the instructions contained in the contract is vague. This can easily lead to misunderstandings and difficulties for administrators. Further, the intent of the contracting officer needs to be adequately conveyed to all parties involved in the execution of the contract. This includes, but is not limited to government personnel, the contractor, and subcontractors. Occasionally, with large or complex contracts, it may be beneficial for the contracting officer to contact those who will be overseeing the administration of the contract. This one-on-one communication will help to establish a professional relationship, allowing the contracting professionals to communicate any difficulties they may have *before* major problem occurs.

## **C. REGULATIONS**

In some instances the FAR is vague in its description or explanation of a specific clause. With this in mind, the June 2004 guide added valuable examples to various clauses to further explain the intent of the specific clause. The clauses selected were identified by DFAS and DCMA as the ones most often misunderstood or misinterpreted. This was done in an effort to minimize or prevent inventive and creative acquisition and contracting practices that often resulted in problem disbursements to contractors. As

stated earlier, the guiding principals of the FAR detail the responsibilities of the contracting officer. Included in these responsibilities is the duty to follow the regulations outlined in the FAR. With this in mind, all contracting personnel should remember that following FAR guidelines serves two parallel and equally important goals: (1) standardization throughout the acquisition community, and (2) minimization of errors and, in turn, the administrative burden placed on other acquisition professionals. Based on the time and workload demands placed on the contracting community, one can understand why frequent and clear communication may be difficult or impossible. It is because of this that FAR guidelines must be adhered to strictly. The FAR then provides the common language of the community, allowing individuals separated by great distances the luxury of understanding each other's contract actions clearly.

#### **D. STANDARDIZATION**

A great amount of flexibility has been given to contracting officers to write the best contract for the government and the contractor for a specific situation. With this said, some contracting offices begin to "speak their own language." Individuals are able to effectively communicate their intentions in a language that is unique to their situation. While this is good for the individual contracts written at that particular office, it creates problems for those personnel assigned to administer the contract from another location. Some of these local differences can be understood, as they may directly relate to the contract purpose, but other differences are only in place based on habit. Increased communication cannot remedy the problems caused by such habitual "mistakes" and/or deviations on the part of a particular contracting office. Rather, the contracting officers must refresh their knowledge of the regulations detailed in the FAR and DFARS in order to standardize their contracts with those written by others in their service. Not only will such efforts reduce problem disbursements, but they will also contribute to a reduced workload for individuals assigned to DFAS.

## **E. RECOMMENDATIONS**

### **1. Future Research**

Laws enacted by Congress govern the acquisition community and are constantly being updated to address new, pressing issues in the government. Such changes in the laws and regulations have a direct impact on the conduct of acquisitions and contracting in the government. While this revision of the Navy Contract Writing Guide (NCWG) is contemporary, there are already proposals within the Fiscal Year 2004 Defense Appropriations bill that will again alter the conduct of business. As stated earlier, the Defense Procurement Payment System (DPPS) was intended to automate the procurement process. The cancellation of this system will undoubtedly have a significant impact on the procurement payment function. The mandate of an Electronic Data Access (EDA) system will bring about another automated program with the intention of reducing or eliminating paperwork now required in the contracting process. The new Wide Area Work Flow (WAWF) initiative will take the place of DPPS.

In light of the expected changes and the constantly evolving environment, continued research and revision of the NCWG is necessary. In order to keep contracting professionals aware of the impact their actions can have on Defense Financial and Accounting Service (DFAS) personnel, it is recommended that the NCWG is reviewed and revised on a consistent basis. Such updates will not only keep the NCWG current, but also ensure that it remains a useful, relevant document to facilitate effective contract writing and management.

### **2. General Recommendations**

The Defense Financial and Accounting Service (DFAS) is comprised of accounting and finance professionals with little or no experience in the intricacies associated with the acquisition of products or services for the government. Additionally, contracting offices are comprised of contracting professionals with little or no financial or accounting experience. Therefore, problems arise in the payment of contracts because there exists a lack of understanding and shared knowledge between both professional groups. When writing contracts, particularly the payment instructions, contracting professionals should assume that DFAS personnel have no knowledge of the contracting

process. If this assumption is made, the contract language will be simpler and easier to understand. Moreover, DFAS personnel must assume that contracting professionals have no accounting experience. When making a judgment on payment of contract, DFAS personnel should not guess as to what the contracting office is instructing. In order to prevent further problems, clarification should be made before the disbursement of any government funds.

In order to bridge the gap between contracting professionals and DFAS personnel, seminars and conferences should be held that combine the two groups and allow for the discussion of professional issues, problems, and concerns. These meetings should not only be a chance to voice concerns, but also an educational experience whereby DFAS personnel can gain some insight into the contracting community and vice versa. Furthermore, attendance at introductory level schools for both or completion of correspondence courses should be encouraged by senior managers in an effort to increase the professional knowledge of their team. Both DFAS and contracting professionals share a common goal: to efficiently and effectively procure services and supplies for the men and women serving our country. A greater understanding of the challenges faced by their government acquisition counterparts, should streamline contract administration, payment, and closeout.

## BACKGROUND

In September 1996, the first edition of the Navy Contract Writing Guide was distributed to help contracting personnel structure contracts and modifications to avoid payment problems. These problems not only lead to problem disbursements, but also delay the contract closeout process.

Problem disbursements are divided into two major categories: (1) negative unliquidated obligations and (2) unmatched disbursements.

A negative unliquidated obligation (NULO) is basically the same as an overdrawn checking account. Contractor invoices are paid by DFAS Columbus and later, when they are posted by the DFAS accounting office to the Standard Accounting and Reporting System (STARS), the payments match an obligation but the cumulative disbursements exceed the obligation.

An unmatched disbursement (UMD) occurs when an invoice is paid by DFAS Columbus and does not match an obligation when it is posted to STARS. For example, if an invoice was paid at DFAS Columbus and the payment clerk made a typographical error on the accounting classification reference number (ACRN), the payment would not post in STARS.

From 1997 to 2003, the General Accounting Office (GAO) and Department of Defense Inspector General (DODIG) reported that problem disbursements continue to degrade the contract payment process and the contract closeout process. In May 2002, GAO reported that the primary reason for payment discrepancies was progress payment liquidation errors. Additionally, contract administration actions were the primary reason for the \$488 million that contractors were overpaid in FY2001 and this trend was likely to continue because of the complex contract management and payment processes. (Ref: GAO-02-635)

In August 2003, GAO reported that during FY2002 DFAS Columbus showed that \$1 of every \$4 in contract payment transactions was for adjustments to previously recorded payments. DFAS Columbus reported that 35% of the \$97 million spent on contract pay services was for research of payment allocation problems. Some of these problems were the result of errors in accounting for obligations and recording errors on contracts due to complex and changing payment instructions. (Ref: GAO-03-727)

DoD and the Department of Navy remain committed to improving the processes for contract payment and closeout. Working groups have been formed to develop standard methods on how to improve the processes for contract payment and contract closeout.

THIS PAGE INTENTIONALLY LEFT BLANK

## INTRODUCTION

In December, 1992, and later in June 1993, the GAO reported that the Navy's primary accounting system, the Standard Accounting and Reporting System (STARS), contained billions in unmatched disbursements which could possibly conceal violations of law, duplicate payments or fraudulent activity. (Ref: GAO/AIMD-95-7)

At that time, the original version of this Contract Writing Guide was designed, in large part, to instruct and educate contracting personnel on how to write contracts that prevent problem disbursements from occurring. Although this problem may appear to belong solely to the Defense Finance and Accounting Service (DFAS), the Navy's contracting community plays a significant role in stemming the tide of new problem disbursements and resolving existing problems.

There still exists a need for this guide and the information it provides. This version represents a comprehensive update. A reorganization of the guide, incorporating changes in the Federal Acquisition Regulation (FAR), the Defense Federal Acquisition Regulation Supplement (DFARS), and input from various federal and Navy organizations, has resulted in a more comprehensive guide that will be useful to contracting officers and administrators alike.

This guide was originally conceived with two intended purposes: 1) To reduce problem disbursements, and 2) To maintain consistency between Navy agencies. Problem disbursements are caused by a number of things that have been occurring in contract formation, contract administration and the payment process for years. This guide's main objective is to improve our contract writing procedures so that future problem disbursements can be prevented.

Until a standard contract writing system is fully implemented and utilized in the Navy there will be a real need to write our contracts and modifications with some degree of consistency so that we prevent the occurrence of problem disbursements. A consistent contract format will allow DFAS to quickly enter contract data into MOCAS with a higher degree of accuracy.

Currently, DFAS payment technicians encounter many differences in Navy contracts that can be confusing. Although Navy contracts are generally written in a format consistent with DFARS and Navy Acquisition Procedures Supplement (NAPS) requirements, there are fairly substantial differences among the various System Commands (SYSCOM). Since DFAS' payment technicians are untrained in contracting, they are unable to find certain payment related information if it's not in a consistent format.

Maintaining consistency in contract writing:

- 1.) Reduces rework for Navy, Contract Administration Office (CAO), DFAS and contractor personnel
- 2.) Reduces rejected DD Forms 250
- 3.) Reduces late or erroneous shipments
- 4.) Facilitates timely contract close-out.

## TERMS TO KNOW

Accounting Classification Reference Number - is a two position alpha or alpha/numeric control code used a method of relating the accounting classification citation to detailed line item information contained in the schedule.

Allocation - Assigning the obligated amount to CLINs/SLINs.

Automated Payment of Invoices (API) - Is an automated MOCAS process that calculates payment based on the unliquidated obligation amounts of contract's ACRNs. This is also known as proration or proportional payments.

Base Contract Administration Services (BCAS) - Supports the operational contracting community with its small purchase contract writing capability.

Bureau Voucher Notice (BVN) - Also goes by the name of interim vouchers or SF1034, *Public voucher for Purchases and Services Other Than Personal*. They are submitted to DFAS for interim financing/payment on cost reimbursement contracts and for final payment when the service has been completed and accepted.

Closed Account - Funds no longer available for new obligations or available for disbursement. With the exception of SCN funding, funds close five years after their period of availability for obligation purposes.

Commitment - Funds are committed in STARS prior to obligation which occurs at the time of contract award. This term is used to describe an internal accounting procedure only. It should not be used in a contract.

Defense Finance and Accounting Service (DFAS) - The Activity responsible for accounting and payments for DoD services. DFAS - Columbus is the primary payment center for contracts that are administered by DCMC. All other contracts are paid locally at the installation's servicing DFAS operating location (OPLOC). <http://www.dfas.mil/>

Defense Procurement Payment System (DPPS) - The successor to MOCAS.

Deobligation - Decreases the amount available for disbursement -- "Takes money off the contract".

Disbursement - The amount of funds paid out to a contractor.

Electronic Data Access (EDA) - Is an interim internet tool implemented by DFAS to allow on-line access to contracts and other documents. See JEDA. <http://www.dfas.mil/ecedi/edstar/>

Electronic Data Interchange (EDI) - The computer to computer exchange of routine business information in a standard format. The EDI transaction sets eliminate the need to re-enter critical contract data in the contract pay system and financial data in DFAS administered accounting systems.

Financial Management Regulation (FMR) - The DoD FMR is a compendium of financial management and payment information covering all aspects of military and civilian financial matters. <http://www.dtic.mil/comptroller/fmr/>

Joint Electronic Data Access (JEDA) - Is an enhanced version of EDA that will transmit contract attachments to DFAS.

Menu Assisted Data Entry System II (MADES II) - An automated contract writing system that creates contractual documents for Central and Operational Contracting on the Wang Computer using the Federal Acquisition Regulation and its supplements.

MOCAS - Mechanization of Contract Administration Services software. Defense Logistics Agency (DLA) uses it for contract administration and DFAS uses it for payments.

Negative Unliquidated Obligation (NULO) - A NULO is basically the same as an overdrawn checking account. Contractor invoices are paid by DFAS Columbus and later, when they are posted by the DFAS accounting office to STARS, the payments match an obligation but the cumulative disbursements exceed the obligation.

Obligation - Amount authorized for disbursement -- "Puts the money on the contract."

Reallocation - Moving money from one CLIN/SLIN to another CLIN/SLIN.

Standard Procurement System (SPS) - Is the successor to the existing legacy contract writing systems and will consolidate such functions as electronic filing, creating electronic forms, and query capability.

STARS - Standard Accounting and Reporting System (STARS) is the Navy's accounting and reporting system. STARS One-Pay is used for both accounting and bill paying whereas STARS HQ and FL are accounting systems used for SYSCOM headquarters activities and field activities, respectively.

Unliquidated Obligation (ULO) - Represents the unexpended funds on a contract.

Unmatched disbursement (UMD) - A UMD occurs when an invoice is paid by DFAS Columbus and does not match an obligation when it is posted to STARS.

Wide Area Work Flow (WAWF) - is a web-enabled application that allows Government contractors to create and send electronic receiving reports and/or invoices to Government inspectors/acceptors for approval.

## **ABOUT THIS GUIDE**

This guide was developed and organized for use by contracting professionals. It is organized in the order that a contract is written. Issues that relate to a specific section in the contract will have the issue, problem statement, and recommended courses of action. Many issues pertain to more than one section and therefore will be found in all sections which it pertains.

The guide has been organized in this manner to allow the contracting professional to either follow along with the guide as the contract is written or for ease of finding issues related to a specific section of the contract or modification. Additionally, all acronyms have been condensed into one list for easy reference. This guide is not directive in nature but intended to be a desktop reference to enhance the payment and contract closeout processes.

THIS PAGE INTENTIONALLY LEFT BLANK

## CONTRACT FORMS

A contracting office may procure goods or services through the use of one of the following legal instruments:

- Standard Form 26: Award/Contract (see Appendix A)
    - Shall be used in the award of new contracts although the SF 33 is also authorized for award of new contracts and may be preferable for competitive awards.
  
  - Standard Form 30: Amendment of Solicitation/Modification of Contract (see Appendix B)
    - Shall be used in the following situation:
      - Amending solicitations, whether advertised or negotiated.
      - Modifying purchase and delivery orders.
      - Modifying contracts (See FAR 53.243).\*\*
      - Used in connection with novation and change of name agreements (See FAR 53.242-1).
- Note\*\*:**    **The SF 30 is the only approved form for use in modifying contracts based on FAR 53.243.**
- Standard Form 33: Solicitation, Offer and Award (see Appendix C)
    - Can be used for solicitations, purchase and delivery orders, and contracts.
  
  - Standard Form 1447: Solicitation/Contract (see Appendix D)
    - Shall be used for firm-fixed-price or fixed-price with economic price adjustment acquisitions of supplies and services, the contracting officer may use the simplified contract format in lieu of the uniform contract format.
  
  - Department of Defense Form 1155: Order for Supplies or Services (see Appendix F)
    - Shall be used for the following:
      - Purchase order or blanket purchase agreement;
      - Deliver order or task order;
      - Receiving and inspection report;
      - Property voucher;
      - Document for acceptance by the supplier;
      - Public voucher, when used as:
        - A delivery order;
        - The basis for payment of an invoice against blanket purchase agreements or basic ordering agreements when a firm-fixed-price has been established;

- A purchase order for acquisitions using simplified acquisition procedures.
  - Orders placed in accordance with FAR Subparts 8.4, 8.6, 8.7, and 16.5;
  - Classified acquisitions when the purchase is made within the United States, its possessions, and Puerto Rico. Attach the DD Form 254, Contract Security Classification Specification, to the purchase order.
- Department of Defense 1423: Contract Data Requirements List (CDRL) (see Appendix E)
  - Shall be used for listing “Deliverable Data Requirements” and shall identify specific Data Item Descriptions.
  - It is important that the CDRL identifies data requirements prior to the contract being awarded and that the requirements are clearly understood by both parties to the contract; to ensure acquirer expectations and supplier responsibilities.
  - The CDRL is the primary vehicle for acquiring documentation from the contractor. It lists all deliverable data items, provides a delivery schedule, and refers to applicable Data Item Descriptions.
  - Data Item Descriptions provide preparation instructions and formats for data items. DIDs should be tailored to reflect true data delivery needs for any COTS and NDI components.

# STANDARD FORM 26

## AWARD/CONTRACT (SEE APPENDIX A)

### BLOCK 1: Defense Priority and Allocation Rating

Four-position code based on the Defense Priority and Allocation System. (FAR 11.6)

Defense Priority and Allocation System (DPAS): Under Title I of the Defense Production Act of 1950, as amended (50 U.S.C. app. 2061, *et seq.*), the President is authorized-

- To require that contracts in support of the national defense be accepted and performed on a preferential or priority basis over all other contracts, and
- To allocate materials and facilities in such a manner as to promote the national defense.

(a) There are two levels of priority for rated orders established by the DPAS, identified by the rating symbols "DO" and "DX." All DO rated orders have equal priority with each other and take preference over unrated orders. All DX rated orders have equal priority with each other and take preference over DO rated and unrated orders. DX ratings are used for special defense programs designated by the President to be of the highest national priority.

(b) DOC may issue a Directive to compel a contractor or supplier to accept a rated order, to rearrange production or delivery schedules, or to improve shipments against particular rated orders. Directives issued by DOC take precedence over all rated and unrated orders as stated in the Directive.

(c) In addition to any other contractual requirements, a valid rated order must contain (see 15 CFR 700.12) the following:

(1) A priority rating consisting of the appropriate DO or DX rating symbol and a program or identification symbol to indicate the authorized program (see Schedule I of the DPAS).

(2) A required delivery date or delivery dates.

(3) The signature of an individual authorized by the agency to sign rated orders.

(d) The DPAS has the following three basic elements which are essential to the operation of the system:

(1) Mandatory acceptance of rated orders. A rated order shall be accepted by a contractor or supplier unless rejected for the reasons provided for mandatory rejection in 15 CFR 700.13(b), or for optional rejection in 15 CFR 700.13(c).

(2) Mandatory extension of priority ratings throughout the acquisition chain. Contractors and suppliers receiving rated orders shall extend priority ratings to subcontractors or vendors when acquiring items to fill the rated orders (see 15 CFR 700.15).

- (3) Priority scheduling of production and delivery. Contractors and suppliers receiving rated orders shall give the rated orders priority over other contracts as needed to meet delivery requirements (see 15 CFR 700.14).
- (e) Agencies shall provide contracting activities with specific guidance on the issuance of rated orders in support of agency programs.
- (f) Contracting officers shall follow agency procedural instructions concerning the use of rated orders in support of agency programs.
- (g) Contracting officers, contractors, or subcontractors at any tier, that experience difficulty placing rated orders, obtaining timely delivery under rated orders, locating a contractor or supplier to fill a rated order, ensuring that rated orders receive preferential treatment by contractors or suppliers, or require rating authority for items not automatically ratable under the DPAS, should promptly seek special priorities assistance in accordance with agency procedures (see 15 CFR 700.50-55).
- (h) Contracting officers shall report promptly any violations of the DPAS to DOC in accordance with agency procedures.
- (i) Contracting officers shall insert the provision at 52.211-14, Notice of Priority Rating for National Defense Use, in solicitations when the contract to be awarded will be a rated order.
- (j) Contracting officers shall insert the clause at 52.211-15, Defense Priority and Allocation Requirements, in contracts that are rated orders.

**BLOCK 2: Contract Number (Procurement Instruction Identifier.)**

Contract identification number. Ensure contract number is per regulations.

**BLOCK 3: Effective Date**

Enter date in the following manner: (YYMMDD).

\* **Special Note:** If contractor does not sign the signature date block, then this effective date (block 3) will be assumed for the contracting officer's signature date.

**(See DFAS & DCMA ISSUE 1 on page 106)**

**BLOCK 4: Requisition/Purchase Request/Project Number**

**BLOCK 5: Issued By**

DODAAC (Issuing) code (DFARS APP G). This code can be obtained from the original contract or order. Also, for contract modifications, identify the name and telephone number of the contracting officer or purchasing office point of contact (see DFARS 204.170).

**BLOCK 6: Administered By**

DODAAC (Admin Office). This block is applicable only for modifications of contracts/orders. The contract administration activity's name, address, and code can be obtained from the original contract or order.

Production Surveillance Code: identifies the degree of surveillance to be performed by DCMC. Codes found in DLAM 7000.5

Insert complete address and DODAAC for issuing, administration, and payment offices. Check the most recent CAS Component Manual issued by DLA in order to ensure that the most recent payment office is identified on SF26.

**BLOCK 7: Name and Address of Contractor**

Commercial and Government Entity (CAGE) Code. Check CCR for current address information.

Facility Code - another CAGE code if there is a second place of performance (see DFARS 204.7201).

Insert contractor name, address, TIN, CAGE code & facility code (if applicable). Contracting officers should identify the contractor's proper address for the CAGE code identified and not just the "bid and proposal" address.

**(See DFAS & DCMA ISSUE 3 on page 106)**

**BLOCK 8: Delivery**

Delivery - Origin - Other.

**BLOCK 9: Discount for Prompt Payment**

Prompt Payment.

**BLOCK 10: Submit Invoices**

Invoices - Where the review/check occurs - ACO/PCO.

**BLOCK 11: Ship To/Mark For**

Ship to/Mark for - Code (DODAAC). See Section F for additional information.

**(See DFAS & DCMA ISSUE 4 on page 107)**

**BLOCK 12: Payment Will Be Made By**

Payment - DODAAC Code. DFAS Columbus (MOCAS Payment Divisions). All New DCMC Administered Contracts. This includes all new international contracts (administered by DCMCI - International) effective after September 1, 1995, which are to be paid in U.S. currency. However, this does not include orders issued against existing international Basic Ordering Agreements (BOAs).

**BLOCK 13: Authority For Using Other Than Full And Open Competition**

Check appropriate block.

**BLOCK 14: Accounting and Appropriation Data**

The Contracting Officer should annotate that all such information will be noted in Section G. It is **highly recommended** that the contracting officer NOT try to type info herein this block.

Accounting/Appropriation Data - "See FAD Sheet in Section G" (FAR 14.201-2(g) and 15.406-2(g)). Although it is highly encouraged to put the FAD sheet in Section G, the contracting officer still has the option to add it as an attachment to the contract. The main reason for including it in Section G is to standardize the location of the FAD and lessen the likelihood that the FAD will be removed from the contract document while en route to DFAS for entry into MOCAS.

(See DFAS & DCMA ISSUE 16 on page 115)

**BLOCK 15A-15F: Item No., Supplies/Services, Quantity, Unit, Unit Price, and Amount**

Fill in as appropriate.

**BLOCK 15G: Total Amount of Contract**

Total dollar amount of the firm CLINs/SLINs/ELINs.

**BLOCK 16: Table of Contents**

Clearly identify what the contents are in terms of the subject contract. This helps to ensure all parties have all pertinent issues related to the contract file.

**BLOCK 17 & 18: Contractor's negotiated agreement & Award**

Contracting Officer will complete as applicable

**BLOCK 19: Name and Title of Signer**

In accordance with FAR 4.102(c), if the contract is with a corporation, the contract should be signed in the corporate name, followed by the word "by" and the signature and title of the person authorized to sign in block 19.

**BLOCK 20A: Name of Contracting Officer**

Contracting Officer name

**BLOCK 20B: United States of America**

Must be signed.

**BLOCK 20C: Date signed.**

DDMMYY format.

\* **Special Note:** If contractor does not sign the signature date block, then this effective date (block 3) will be assumed for the contracting officer's signature date.

**(See DFAS & DCMA ISSUE 1 on page 106)**

THIS PAGE INTENTIONALLY LEFT BLANK

## STANDARD FORM 30

### AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT (SEE APPENDIX B)

NOTE: The following instructions are in addition to the instructions on the back of the SF 30.

#### **BLOCK 1: Contract ID Code**

The contract type identification code can be found under DFARS 253.204-70(c)(4)(v) (the instructions for completing Block C5 of the DD Form 350) or in block C5 of the DD Form 350. Page X of Y - helps to ensure the package is complete when received.

#### **BLOCK 2: Amendment/Modification No.**

DFARS 204.7004 provides information on the numbering of solicitation amendments, contract modifications, delivery orders, modifications to delivery orders, etc. The modification number for delivery orders should be two digits only, i.e., PCO mod = 01 and ACO mod = 1A. The delivery order number should be inserted in block 10A with the contract number on any SF30 modifying a delivery order.

NOTE: When designating a contract modification number, be sure the proper cards are annotated (i.e. the contract administrator's card file).

(See DFAS & DCMA ISSUE 7 on page 108)

#### **BLOCK 3: Effective Date**

Enter date in the following manner: (YYMMDD).

\* **Special Note**: If contractor does not sign the signature date block, then this effective date (block 3) will be assumed for the contracting officer's signature date.

(See DFAS & DCMA ISSUE 1 on page 106)

#### **BLOCK 4 & 5: See back of form for instructions**

#### **BLOCK 6: Issued By**

DODAAC (Issuing) code (DFARS APP G). This code can be obtained from the original contract or order. Also, for contract modifications, identify the name and telephone number of the contracting officer or purchasing office point of contact (see DFARS 204.170).

### **BLOCK 7: Administered By**

DODAAC (Admin Office). This block is applicable only for modifications of contracts/orders. The contract administration activity's name, address, and code can be obtained from the original contract or order.

Production Surveillance Code: identifies the degree of surveillance to be performed by DCMC. Codes found in DLAM 7000.5

Insert complete address and DODAAC for issuing, administration, and payment offices. Check the most recent CAS Component Manual issued by DLA in order to ensure that the most recent payment office is identified on SF26.

### **BLOCK 8: Name and Address of Contractor**

Commercial and Government Entity (CAGE) Code. Check CCR for current address information.

Facility Code - another CAGE code if there is a second place of performance (see DFARS 204.7201).

Insert contractor name, address, TIN, CAGE code & facility code (if applicable).

Contracting officers should identify the contractor's proper address for the CAGE code identified and not just the "bid and proposal" address.

**(See DFAS & DCMA ISSUE 3 on page 106)**

### **BLOCK 9/10: Amendment of Solicitation No. & Modification of Contract/Order No. and Dates**

Original Solicitation and/or Contract number, and effective dates.

### **BLOCK 11: Solicitation Amendment**

This block must be filled out if Block 9 is checked. In the blank (\_\_\_copies), identify the number of signed copies of the amendment you want returned.

### **BLOCK 12: Accounting and Appropriation Data**

The Contracting Officer should annotate that all such information will be noted in Section G. It is **highly recommended** the contracting officer NOT try to type info herein this block.

Accounting/Appropriation Data - "See FAD Sheet in Section G" (FAR 14.201-2(g) and 15.406-2(g)). Although it is highly encouraged to put the FAD sheet in Section G, the contracting officer still has the option to add it as an attachment to the contract. The main reason for including it in Section G is to standardize the location of the FAD and lessen

the likelihood that the FAD will be removed from the contract document while en route to DFAS for entry into MOCAS.

This block is applicable only to modifications of contracts/orders.

In accordance with DFARS 217.7405 and 243.171, all modifications shall contain one of the following statements and a summary table as follows:

"This modification reflects the total value of the P-mods and increases/decreases the total obligated value as follows:"

or if the value of the A-mods is known,

"This modification reflects the total value of P-mods and A-mods and increases/decreases the total obligated value as follows:"

**SUMMARY TABLE**

<u>Item</u>	<u>From</u>	<u>By</u>	<u>To</u>	
0001	\$500	\$100	\$600	INCREASE
0002	\$500	(\$100)	\$400	DECREASE

"The value of this contract is increased/decreased by \$\_\_\_\_\_ resulting in a total obligated value of \$\_\_\_\_\_.

"This modification results in no obligation/deobligation of funds and/or reallocation of funds between CLINS/SLINS"

If funds are reallocated, a summary table as shown above must be provided. Great care should be taken to ensure that the correct and most current information is reported. Although the summary table only includes those contract line items that are affected, the total obligated value of the contract after the changes are made should be indicated.

**(See DFAS & DCMA ISSUE 14 on page 114)**  
**(See DFAS & DCMA ISSUE 16 on page 115)**

**BLOCK 13: Modifications of Contracts/Orders**

This block must be filled out if Block 10 is checked. In addition to the SF 30 instructions, the following information is provided:

Block 13.A. This is the block to use for a unilateral change order; however, be reminded that:

1. NAPS 5243.201 states that the policies of DFARS 217.74 and NAPS 5217.74 are applicable to the issuance of undefinitized change orders.
2. A unilateral change order that the contracting officer considers definitive (e.g., no-cost) may not be considered so by the contractor. The result could be: an unexpected proposal for equitable adjustment, a potential dispute, and a possible violation of the Anti-Deficiency Act.

Block 13.B. FAR 43.101 defines administrative change as "a unilateral contract change that does not affect the substantive rights of the parties."

Block 13.C. This block is used for:

1. New procurement. Cite the appropriate U.S. Code and "mutual agreement" as the authority.
2. Changes to the contract under the authority of a contract requirement that also include changes that require bilateral agreement, e.g., a change order in which price and delivery schedule changes have been negotiated. Cite the requirement and "mutual agreement" as the authority.

Block 13.D. This block is used for changes to the contract that are incorporated unilaterally under the authority of a contract requirement. Examples are funding provided pursuant to the "Limitation of Funds" clause, or exercising a priced option under an option clause.

#### **BLOCK 14: Description of Amendment/Modification**

Notwithstanding the sentence pre-printed on the form concerning what remains unchanged in the contract, this sentence or similar language should be included separately at the end of every contract modification.

**(See DFAS & DCMA ISSUE 5 on page 107)**

**(See DFAS & DCMA ISSUE 6 on page 108)**

**(See DFAS & DCMA ISSUE 7 on page 108)**

**(See DFAS & DCMA ISSUE 8 on page 111)**

**(See DFAS & DCMA ISSUE 9 on page 111)**

#### **BLOCK 15/16: Signature and Date Blocks**

Must be signed and dated. However, a signature is not required on a solicitation amendment.

# STANDARD FORM 33

## SOLICITATION, OFFER AND AWARD (SEE APPENDIX C)

### **BLOCK 1: Defense Priority and Allocation Rating**

Four-position code. (FAR 11.6)

### **BLOCK 2: Contract Number (Proc. Inst. Ident.)**

Contract identification number. Ensure contract number is per regulations.

### **BLOCK 3: Effective Date**

Enter date in the following manner: (YYMMDD).

\* **Special Note:** If contractor does not sign the signature date block, then this effective date (block 3) will be assumed for the contracting officer's signature date.

(See DFAS & DCMA ISSUE 1 on page 106)

### **BLOCK 4: Requisition/Purchase Request/Project Number**

### **BLOCK 5: Issued By**

DODAAC (Issuing) code (DFARS APP G). This code can be obtained from the original contract or order. Also, for contract modifications, identify the name and telephone number of the contracting officer or purchasing office point of contact (see DFARS 204.170).

### **BLOCK 6: Administered By**

DODAAC (Admin Office). This block is applicable only for modifications of contracts/orders. The contract administration activity's name, address, and code can be obtained from the original contract or order.

Production Surveillance Code: identifies the degree of surveillance to be performed by DCMC. Codes found in DLAM 7000.5

Insert complete address and DODAAC for issuing, administration, and payment offices. Check the most recent CAS Component Manual issued by DLA in order to ensure that the most recent payment office is identified on SF26.

**BLOCK 7: Name and Address of Contractor**

Commercial and Government Entity (CAGE) Code. Check CCR for current address information.

Facility Code - another CAGE code if there is a second place of performance (see DFARS 204.7201).

Insert contractor name, address, TIN, CAGE code & facility code (if applicable).

Contracting officers should identify the contractor's proper address for the CAGE code identified and not just the "bid and proposal" address.

**(See DFAS & DCMA ISSUE 3 on page 106)**

**BLOCK 8: Delivery**

Delivery - Origin - Other.

**BLOCK 9: Discount for Prompt Payment**

Prompt Payment.

**BLOCK 10: Submit Invoices**

Invoices - Where the review/check occurs - ACO/PCO.

**BLOCK 11: Ship To/Mark For**

Ship to/Mark for - Code (DODAAC). See Section F for additional information.

**(See DFAS & DCMA ISSUE 4 on page 107)**

**BLOCK 12: Payment Will Be Made By**

Payment - DODAAC Code. DFAS Columbus (MOCAS Payment Divisions). All New DCMC Administered Contracts. This includes all new international contracts (administered by DCMCI - International) effective after September 1, 1995, which are to be paid in U.S. currency. However, this does not include orders issued against existing international Basic Ordering Agreements (BOAs).

**BLOCK 13: Authority For Using Other Than Full And Open Competition**

Check appropriate block.

**BLOCK 14: Accounting and Appropriation Data**

The Contracting Officer should annotate that all such information will be noted in Section G. It is **highly recommended** that the contracting officer NOT try to type info herein this block.

Accounting/Appropriation Data - "See FAD Sheet in Section G" (FAR 14.201-2(g) and 15.406-2(g)). Although it is highly encouraged to put the FAD sheet in Section G, the contracting officer still has the option to add it as an attachment to the contract. The main reason for including it in Section G is to standardize the location of the FAD and lessen the likelihood that the FAD will be removed from the contract document while en route to DFAS for entry into MOCAS.

**(See DFAS & DCMA ISSUE 16 on page 115)**

**BLOCK 15A-15F: Item No., Supplies/Services, Quantity, Unit, Unit Price, and Amount**

Fill in as appropriate.

**BLOCK 15G: Total Amount of Contract**

Total dollar amount of the firm CLINs/SLINs/ELINs.

**BLOCK 16: Table of Contents**

Clearly identify what the contents are in terms of the subject contract. This helps to ensure all parties have all pertinent issues related to the contract file.

**BLOCK 17 & 18: Contractor's negotiated agreement & Award**

Contracting Officer will complete as applicable

**BLOCK 19: Name and Title of Signer**

In accordance with FAR 4.102(c), if the contract is with a corporation, the contract should be signed in the corporate name, followed by the word "by" and the signature and title of the person authorized to sign in block 19.

**BLOCK 20A: Name of Contracting Officer**

Contracting Officer name

**BLOCK 20B: United States of America**

Must be signed.

**BLOCK 20C: Date signed.**

DDMMYY format.

\* **Special Note:** If contractor does not sign the signature date block, then this effective date (block 3) will be assumed for the contracting officer's signature date.

**(See DFAS & DCMA ISSUE 1 on page 106)**

# STANDARD FORM 1447

## SOLICITATION/CONTRACT (SEE APPENDIX D)

### **BLOCK 1: Defense Priority and Allocation Rating**

Four-position code. (FAR 11.6)

### **BLOCK 2: Contract Number (Proc. Inst. Ident.)**

Contract identification number. Ensure contract number is per regulations.

### **BLOCK 3: Effective Date**

Enter date in the following manner: (YYMMDD).

\* **Special Note:** If contractor does not sign the signature date block, then this effective date (block 3) will be assumed for the contracting officer's signature date.

(See DFAS & DCMA ISSUE 1 on page 106)

### **BLOCK 4: Requisition/Purchase Request/Project Number**

### **BLOCK 5: Solicitation Type**

Check the appropriate block.

### **BLOCK 6: Solicitation Issue Date**

Use YYMMDD format.

### **BLOCK 7: Issued By**

DODAAC (Issuing) code (DFARS APP G). This code can be obtained from the original contract or order. Also, for contract modifications, identify the name and telephone number of the contracting officer or purchasing office point of contact (see DFARS 204.170).

### **BLOCK 8: This Acquisition is**

Check the appropriate block.

### **BLOCK 9: (Agency Use)**

**BLOCK 10: Items to be purchased**

Check the appropriate block and provide a short description.

**BLOCK 11: Contractor agreement**

If left blank, 60 calendar days is the default period.

**BLOCK 12: Administered By**

DODAAC (Admin Office). This block is applicable only for modifications of contracts/orders. The contract administration activity's name, address, and code can be obtained from the original contract or order.

Production Surveillance Code: identifies the degree of surveillance to be performed by DCMC. Codes found in DLAM 7000.5

Insert complete address and DODAAC for issuing, administration, and payment offices. Check the most recent CAS Component Manual issued by DLA in order to ensure that the most recent payment office is identified on SF26.

**BLOCK 13: Name and Address of Contractor**

Commercial and Government Entity (CAGE) Code. Check CCR for current address information.

Facility Code - another CAGE code if there is a second place of performance (see DFARS 204.7201).

Insert contractor name, address, TIN, CAGE code & facility code (if applicable). Contracting officers should identify the contractor's proper address for the CAGE code identified and not just the "bid and proposal" address.

**(See DFAS & DCMA ISSUE 3 on page 106)**

**BLOCK 14: Payment will be made by**

Payment - DODAAC Code. DFAS Columbus (MOCAS Payment Divisions). All New DCMC Administered Contracts. This includes all new international contracts (administered by DCMCI - International) effective after September 1, 1995, which are to be paid in U.S. currency. However, this does not include orders issued against existing international Basic Ordering Agreements (BOAs).

**BLOCK 15: Discount for Prompt Payment**

Prompt Payment.

**BLOCK 16: Authority for using other than full and open competition**

Check the appropriate block.

**BLOCK 17 – 22: Item description**

**BLOCK 23: Accounting and Appropriation Data**

The Contracting Officer should annotate that all such information will be noted in Section G. It is **highly recommended** that the contracting officer NOT try to type info herein this block.

Accounting/Appropriation Data - "See FAD Sheet in Section G" (FAR 14.201-2(g) and 15.406-2(g)). Although it is highly encouraged to put the FAD sheet in Section G, the contracting officer still has the option to add it as an attachment to the contract. The main reason for including it in Section G is to standardize the location of the FAD and lessen the likelihood that the FAD will be removed from the contract document while en route to DFAS for entry into MOCAS.

**(See DFAS & DCMA ISSUE 16 on page 115)**

**BLOCK 24: Total Amount of Contract**

Total dollar amount of the firm CLINs/SLINs/ELINs.

**BLOCK 25 & 26: CONTRACTOR & AWARD OF CONTRACT**

Check blocks as appropriate. Contracting Officer determines how many copies is required.

**BLOCK 27: Signature of contractor**

Name and Title of Signer

In accordance with FAR 4.102(c), if the contract is with a corporation, the contract should be signed in the corporate name, followed by the word "by" and the signature and title of the person authorized to sign in block 19.

**BLOCK 28: United States of America**

Must be signed.

THIS PAGE INTENTIONALLY LEFT BLANK

## **DEPARTMENT OF DEFENSE FORM 1423**

### **CONTRACT DATA REQUIREMENTS LIST (SEE APPENDIX E)**

Ensure appropriate CLIN and SOW paragraph referenced.

Use DDMMYY for all due dates to greatest extent possible.

I&A - DD, DS, SD, SS, LT, NO, or XX. "XX" is used to indicate that DFAS should refer back to the contract to find the applicable I&A code.

If separately priced, insert the price in Block 18.

THIS PAGE INTENTIONALLY LEFT BLANK

# DEPARTMENT OF DEFENSE FORM 1155

## ORDER FOR SUPPLIES OR SERVICES (SEE APPENDIX F)

### **BLOCK 1: CONTRACT/PURCH ORDER/AGREEMENT NO**

Enter the Procurement Instrument Identification (PII) number and, when applicable, the supplementary identification number for contracts, purchase orders, and agreements as prescribed in Subpart 204.70.

### **BLOCK 2: DELIVERY ORDER/CALL NO.**

-Enter the PII number for delivery orders/calls, when applicable, as prescribed in Subpart 204.70.

### **BLOCK 3: DATE OF ORDER/CALL**

Enter the four position numeric year, three position alpha month, and two position numeric day. (YYYYMMDD)

### **BLOCK 4: REQUISITION/PURCH REQUEST NO.**

Enter the number authorizing the purchase. When the number differs by line item, list it in the schedule and annotate this block, "see schedule."

### **BLOCK 5: PRIORITY**

Enter the appropriate Program Identification Code as identified in Schedule I to the Defense Priorities and Allocations System Regulation.

### **BLOCK 6: ISSUED BY**

Enter the name and address of the issuing office. In the code block, enter the DoDAAD code for the issuing office. Directly below the address, enter: Buyer/Symbol: followed by the buyer's name and routing symbol. Directly below the buyer/symbol, enter: Phone: followed by the buyer's phone number and extension.

### **BLOCK 7: ADMINISTERED BY**

Enter the name and address of the contract administration activity. On purchase orders retained by purchasing offices for administration, mark this block, "see block 6." Enter in the code block the DODAAD code of the contract administration activity. In the lower right or left-hand corner, enter the criticality designator code from FAR 42.1105.

### **BLOCK 8: DELIVERY FOB**

Check the applicable box.

### **BLOCK 9: CONTRACTOR**

(1) Enter the full business name and address of the contractor. Enter in the first code block, the CAGE code of the contractor.

(2) If it is known that all the work covered by the order is to be performed at an address different from the address represented by the contractor's code, and any contract administration function will be required at that facility, enter in the facility code block the organizational entity code for that facility, i.e., H8-1/H8-2 code for a non-Government entity or DODAAD code for a Government entity. (Use DODAAD codes only to indicate "performed at" locations for orders specifying services at a Government location.) If it is known that multiple facilities are involved, enter the codes for all facilities at which work is to be performed, including the contractor's code if work is performed at that address, in the Optional Form 336 Continuation Sheet and mark the facility code block with "see schedule."

### **BLOCK 10: DELIVER TO FOB POINT BY (Date)**

If a single date of delivery applies to the entire order, enter date in this block. List multiple delivery dates in the schedule and mark this block "see schedule."

### **BLOCK 11: MARK IF BUSINESS**

Check all applicable blocks.

### **BLOCK 12: DISCOUNT TERMS**

Enter the discount for prompt payment in terms of percentages and corresponding days. Express the percentages in whole numbers and decimals, e.g., 3.25% - 10 days; 0.50% - 20 days.

### **BLOCK 13: MAIL INVOICES TO THE ADDRESS IN BLOCK**

Enter a reference to the block number containing the address to which invoices are to be mailed. When not in Block 6, 7, 14, or 15, insert in Block 13, "see schedule."

### **BLOCK 14: SHIP TO**

If a single ship-to point applies to the entire order, enter the name and address of that point in this block and a DODAAD code in the code block. For FMS shipments, enter the MAPAD code in the code block and an instruction for the contractor to contact the transportation office of the administering activity to obtain a name and a shipping address. Enter multiple ship-to points in the schedule and mark this block, "See Schedule."

## **BLOCK 15: PAYMENT WILL BE MADE BY**

Enter the name and address of the activity making payment. Enter in the code block, the DODAAD code of the paying activity.

## **BLOCK 16: TYPE OF ORDER**

Check the appropriate box. If a purchase order:

- (1) Identify the type of quotation, i.e., oral, letter or TWX, on which the order is based.
- (2) Check the box when acceptance of the purchase order is required and enter the number of copies of the order to be returned to the issuing office.

## **BLOCK 17: ACCOUNTING AND APPROPRIATION DATA/LOCAL USE**

Enter the accounting classification and the accounting classification reference number(s) in accordance with 204.7107.

## **BLOCK 18: ITEM NO.**

Enter an item number for each item of supply or service in accordance with Subpart 204.71.

## **BLOCK 19: SCHEDULE OF SUPPLIES/SERVICES**

The schedule contains several elements of data. The order and arrangement of data in the schedule is mandatory for purchase and delivery orders assigned to the Defense Contract Management Agency or the military departments for administration and is encouraged for all orders.

- (1) National Stock Number (NSN)--Total item quantity for the line or subline item number followed by the appropriate national stock number or the word "none" if an NSN has not been assigned. On the same line and adjacent to NSN, enter the words "Total Item Quantity." This phrase is used in conjunction with the total quantity, unit of issue, unit price, and dollar amount of the stock number or item cited (see entries for Blocks 20, 21, 22, and 23).
- (2) Item Identification--Enter first the most descriptive noun or verb of the supplies or services to be furnished, supplemented by additional description as prescribed in FAR Part 10. If multiple accounting classifications apply to the contract, enter the accounting classification reference number.
- (3) Quantity Variance--Enter the quantity variance permitted for the line item in terms of percentages, indicating whether the percentage is plus or minus and if applicable to each destination.
- (4) Inspection/Acceptance--Enter the point at which inspection/acceptance will take place.

(5) Preservation and Packaging--Enter the preservation requirements for the item described. These requirements may be expressed in terms of MIL-STD-2073-1, DoD Material Procedures for Development and Application of Packaging Requirements, and MIL-STD-2073-2, Packaging Requirements, codes. They may also be expressed by reference to applicable specifications.

(6) Packing--When required, enter the packing level designator and specification, standard, or document in which the requirements are stated or state the specific requirements.

(7) Unitization--When desired by the requiring activity, a requirement for cargo unitization for a particular destination should be specified for shipments involving two or more shipping containers having an aggregate total of not less than 20 cubic feet or 200 pounds.

(8) Ship To--Enter the DODAAD or MILSCAP H8-1/H8-2 (cage) as appropriate for the entity code of the ship-to point on the first line and the corresponding name and address on succeeding lines. If multiple accounting classifications apply to the same line or subline item, enter the accounting classification reference number. When several items are to be shipped to the same point, the code will be listed; but it will not be necessary to repeat the address.

(9) Delivery Date--When multiple delivery dates apply, enter the required date of delivery on the same line with ship-to code.

(10) Mark For--Enter the DODAAD or MILSCAP H8-1/H8-2 (cage) as appropriate for the entity code on the first line and name and address of the ultimate recipient of the supplies and services on succeeding lines.

## **BLOCK 20: QUANTITY ORDERED/ACCEPTED**

Enter the total quantity ordered for the line item. If applicable, enter the breakdown on quantities for each ship-to point within the line item.

## **BLOCK 21: UNIT**

Enter the unit of measure applicable to the line item.

## **BLOCK 22: UNIT PRICE**

Enter the unit price applicable to the line item.

## **BLOCK 23: AMOUNT:**

Enter the extended dollar amount (quantity x unit price) for each line item.

## **BLOCK 24: CONTRACTING/ORDERING OFFICER**

Enter the contracting/ordering officer's signature.

**BLOCK 25: TOTAL AMOUNT**

Enter the total dollar amount for all line items on the order.

**BLOCKS 26 thru 42:** These blocks are used in the receiving and payment functions. Procedures for making entries are prescribed by the respective departments.

THIS PAGE INTENTIONALLY LEFT BLANK

## CONTRACT SECTIONS

After the basic forms, there are contract sections that are attached to the legal documents. Such contract sections include:

- Section A –The Solicitation/Contract Form
- Section B –Supplies or Services and Prices/Costs
- Section C –Description/Specs/Work Statements
- Section D –Packaging and Marking
- Section E – Inspection and Acceptance
- Section F – Deliveries or Performance
- Section G – Contract Administration Data
- Section H – Special Contract Requirements
- Section I – Contract Clauses
- Section J – List of Attachments
- Section K – Representations, Certifications and Other Statements of Offerors
- Section L – Instructions, Conditions, and Notices to Offerors
- Section M – Evaluation Factors for Awards.

This guide has identified some issues for consideration by the contracting officer when preparing such legal documents. Such recommendations are noted per section. At this time, there are some contract sections for which there are no recommendations. Also there are some sections in which DFAS and DCMA have noted some issues to aid in preparing such contractual issues.

**SECTION B: SUPPLIES OR SERVICES AND PRICES/COSTS**

ITEM NUMBER	CONTRACT TYPE	SUPPLIES/SERVICES	QUANTITY	UNIT	UNIT PRICE	AMOUNT	DESCRIPTION
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

(1) CLINs should be numbered in accordance with DFARS 204.7103 and 204.7104. Ensure CLIN numbers are not duplicated. One ACRN per CLIN/SLIN, if at all possible. Where this is not possible, please include specific payment instructions in Section G. See DFARS 204.7103-1 and 204.7104-1.

SLINs to be established IAW DFARS 204.7104-1.

Don't Use "XXX" - write in "intentionally left blank".

List of Spares & CDRLs are Exhibits not Attachments.

List CLINs or SLINs for each deliverable item, different delivery schedule, different source (if contract is with multiple vendors/contractors) and different requirement

(2) Avoid mixing contract types, if at all possible.

(a) If more than one type of contract is used, there is a DFARS requirement (DFARS 215.406-2) to include a table identifying each line item and its contract type.

"Contract Type Summary for the Payment Office: THIS ENTIRE CONTRACT IS COST TYPE."

(b) If the entire contract is fixed price add:

"Contract Type Summary for the Payment Office: THIS ENTIRE CONTRACT IS FIXED PRICE."

(3) Insert Units of Measure after QTY; 2 position data code

Qty must be a whole number.

Qty x Unit Cost/Price must = Total Cost/Price.

CLINs should be numbered in accordance with DFARS 204.7103 and 204.7104. Ensure CLIN numbers are not duplicated.

Ensure the sum of the firm CLINs/SLINs/ELINs = total cost/price.

Option items should not be included as part of the total price until they are exercised and the funds are obligated.

Prices should be in whole dollars. Include ACRN and (for FMS) MILSTRIP # in description.

If NTE or Option Item, clearly state as such.

If CDRLs or Spares priced by ELIN:

- Leave Qty blank.
- Insert "See Exhibit X" under unit and total price.
- Show total price for all CDRLs attributable to that CLIN in parentheses in description.

If CDRLs or Spares priced by LOT, show "1 LO" and unit & total amounts. Also, the billing instructions in Section G should direct the contractor to bill by LOT and not by ELIN.

If CDRLs are not separately priced, the quantity should still be identified as "1 LO" (1 Lot) NSP.

Rule: Dollars reside at deliverable level (CLIN, SLIN, ELIN).

Numeric SLINs do not get entered into MOCAS - established for informational purposes only; they are not to be scheduled separately for delivery or priced separately for payment purposes. Only to be used to identify information that relates directly to the contract line item -- parts of any assembly or kit. (See DFARS 204-7104-1a.)

Separately identified SLINs can have different unit prices (see DFARS 204.7104-1b).

**(See DFAS & DCMA ISSUE 10 on page 112)**

**(See DFAS & DCMA ISSUE 11 on page 113)**

THIS PAGE INTENTIONALLY LEFT BLANK

## **SECTION C: DESCRIPTION/SPECS./WORK STATEMENT**

Ensure all CLINs/SLINs/ELINs are addressed.

Examples:

Data - shall be prepared in accordance with CDRL.

Hardware - item shall be designed, developed, manufactured, and produced, in accordance with statement of work, specification, and product baseline.

Services – services shall be provided in accordance with Statement of Work.

## **SECTION D: PACKAGING AND MARKING**

Ensure all CLINs/SLINs/ELINs are addressed; state if packaging and marking instructions do not apply.

Hardware - Items shall be:

1. Packaged and packed so as to ensure safe delivery, or
2. In accordance with best commercial practices, or
3. Packaging and marking requirements do not apply.

## **SECTION E: INSPECTIONS AND ACCEPTANCE**

Ensure each CLIN/SLIN/ELIN addressed.

Use words "Origin" or "Destination" in beginning of each CLIN description.

Define what constitutes inspection and what constitutes acceptance.

**SECTION F: DELIVERY/PERFORMANCE**

Ensure each CLIN/SLIN/ELIN addressed.

Specify F.O.B. Destination or Origin for each CLIN/SLIN/ELIN.

Use specific dates (DDMMYY) for deliveries, including services. It would be very helpful if the total quantity for each item is identified on the schedule along with the individual deliveries and dates.

Use specific dates for CDRLs wherever possible, unless tied to a milestone (e.g. critical design review or a specific test).

Provide DODAAC and complete address for shipping and marking instructions (MAPAC and complete address for FM shipments).

SECTION F Example -

Item 0001 - Delivery of the supplies to be furnished hereunder shall be F.O.B. origin in accordance with the following schedule:

<u>Yr.</u>	<u>31 Jan</u>	<u>28 Feb</u>	<u>31 Mar</u>	<u>30 Apr</u>	<u>31 May</u>
1996	1	3	2	5	8

Ship and Mark for the following address:

SHIP TO: N00109

Naval Weapons Station

Yorktown, VA 23692-5000

MARK FOR: Code \_\_\_\_\_ (this should be a valid six digit DoDAAC code.)

WEAPONS FY\_\_ PRODUCTION

Items 0002, 0003 and 0004 - The data to be furnished hereunder shall be delivered F.O.B. destination in accordance with Exhibit A (Item 0002), Exhibit B (Item 0003), and Exhibit C (Item 0004), Contract Requirements List, DD Form 1423.

**(See DFAS & DCMA ISSUE 29 on page 120)**

**(See DFAS & DCMA ISSUE 4 on page 107)**

**(See DFAS & DCMA ISSUE 13 on page 113)**

**SECTION G: CONTRACT ADMINISTRATION DATA**

To ensure contracts get paid timely and accurately, Contracting Officers need to be very mindful about the following issues in relation to Section G: 1) required summary financial statements, 2) the recommended usage of the Financial Accounting Data Sheet, 3) ACRN issues and 4) financing issues (progress payments and performance based payments). To ensure clarity, all financing issues have been discussed in detail in the "Financing" section under special clauses in this guide. Therefore, this section will focus on the other issues: the summary statements, the FAD sheet issues and the ACRN issues.

1) In accordance with DFARS 217.7405 and 243.171, all modifications shall contain one of the following statements and a summary table as follows:

"This modification reflects the total value of the P-mods and increases/decreases the total obligated value as follows:" or if the value of the A-mods is known, "This modification reflects the total value of P-mods and A-mods and increases/decreases the total obligated value as follows:"

**SUMMARY TABLE**

<u>Item</u>	<u>From</u>	<u>By</u>	<u>To</u>	
0001	\$500	\$100	\$600	INCREASE
0002	\$500	(\$100)	\$400	DECREASE

"The value of this contract is increased/decreased by \$\_\_\_\_\_ resulting in a total obligated value of \$\_\_\_\_\_.

"This modification results in no obligation/deobligation of funds and/or reallocation of funds between CLINS/SLINS"

If funds are reallocated, a summary table as shown above must be provided. Great care should be taken to ensure that the correct and most current information is reported. Although the summary table only includes those contract line items that are affected, the total obligated value of the contract after the changes are made should be indicated.

**(See DFAS & DCMA ISSUE 14 on page 114)**

2) Financial Accounting Data Sheet (FAD sheet). The Navy fund managers have used the financial accounting data sheets for years but in 1996, the Navy Financial Management Office highly encouraged the Navy community to attach the FAD Sheets to the contracts and note that such has been attached in Section G. The main reason for including it in Section G is to standardize the location of the FAD sheet and lessen the likelihood that the FAD sheet will be removed from the contract document while enroute

to DFAS for entry into MOCAS. (See FAR 14.201-2(g) and 15.406-2(g))  
There are two FAD sheets. One is for Navy (Navy money only) and the other is non-Navy (i.e., Army and Air Force lines of accounting). Both are required to be in the service specific format, (i.e., do not try to force another Service's accounting classification into the fields on the Navy's FAD).

**(See DFAS & DCMA ISSUE 15 on page 115)**

**(See DFAS & DCMA ISSUE 16 on page 115)**

Copies of the FAD sheets are attached to this guide. It is highly recommended that the procurement offices help ensure the fund managers provide their name, title, telephone number and email addresses on such sheets so when a funding issues develops, DFAS has a financial manager POC to contact.

**(3) Note: See Regulatory Clauses under the “Special Clauses” section of this guide (p.g. 71) for ACRN issues (Regulatory Clause 1, 2, and 4):**

Additionally, review the following issues:

**(See DFAS & DCMA ISSUE 11 on page 113)**

**(See DFAS & DCMA ISSUE 12 on page 113)**

**(See DFAS & DCMA ISSUE 13 on page 113)**

**(See DFAS & DCMA ISSUE 16 on page 115)**

**(See DFAS & DCMA ISSUE 17 on page 116)**

**(See DFAS & DCMA ISSUE 18 on page 116)**

**(See DFAS & DCMA ISSUE 19 on page 117)**

**(See DFAS & DCMA ISSUE 20 on page 117)**

**(See DFAS & DCMA ISSUE 21 on page 117)**

**(See DFAS & DCMA ISSUE 27 on page 120)**

**(See DFAS & DCMA ISSUE 28 on page 120)**

**(See DFAS & DCMA ISSUE 31 on page 122)**

**(See DFAS & DCMA ISSUE 32 on page 122)**

## SECTION H: SPECIAL CONTRACT REQUIREMENTS

If applicable, ensure warranty periods and related CLINs are clearly stated.

If applicable, ensure government property is listed including dates for delivery and use.

Ensure proper payment clauses and clauses related to the contract type are checked.

Check Electronic Funds Transfer clause (required except for small and foreign businesses).

Ensure all Exhibits and Attachments are included in the contract or modification (exhibits are for deliverable items, attachments are for information).

If applicable, attach SB/SDB subcontracting plan.

If applicable, attach DD Form 254\*\*.

**Note\*\*:** DD Form 254 (DOD Contract Security Classification Specification): A copy and instructions for filling out this form is located at the following website.

[http://www.classmgmt.com/about\\_NCMS/index\\_page\\_DD254.htm](http://www.classmgmt.com/about_NCMS/index_page_DD254.htm)

An important responsibility of all DoD employees is to safeguard the release of classified information. DoD publications that relate to the release of classified information are:

- DoD 5220.22-4, Industrial Security Regulation
- National Industrial Security Program Operating Manual (NISPOM)

The contracting officer must determine if any classified materials will be provided in the RFP or contract, or if the RFP or contract will require the offeror/contractor to have access to classified information from other agencies, or to develop any classified hardware, software, or material under the contract. Examples include access to information on:

- Classified Hardware or Software Related to the Operational System
- Classified Mission Scenario Materials
- Classified Weapon System Procedures Handbooks

## **SECTION I: CONTRACT CLAUSES**

This Contracting Officer shall include in this section the clauses required by law or by this regulation and any additional clauses that are expected to apply to any resulting contract. (See FAR 14.201-3)

Check the FAR Matrices to determine which clauses are required. (See FAR 52.301)

**(See DFAS & DCMA ISSUE 22 on page 118)**

**(See DFAS & DCMA ISSUE 23 on page 118)**

**(See DFAS & DCMA ISSUE 24 on page 119)**

## SECTION J: LIST OF ATTACHMENTS

If applicable, ensure warranty periods and related CLINs are clearly stated.

If applicable, ensure government property is listed including dates for delivery and use.

Ensure proper payment clauses and clauses related to the contract type are checked.

Check Electronic Funds Transfer clause (required except for small and foreign businesses).

Ensure all Exhibits and Attachments are included in the contract or modification (exhibits are for deliverable items, attachments are for information).

If applicable, attach SB/SDB subcontracting plan.

If applicable, attach DD Form 254.

**Note\*\*:** DD Form 254 (DOD Contract Security Classification Specification): A copy and instructions for filling out this form is located at the following website.

[http://www.classmgmt.com/about\\_NCMS/index\\_page\\_DD254.htm](http://www.classmgmt.com/about_NCMS/index_page_DD254.htm)

An important responsibility of all DoD employees is to safeguard the release of classified information. DoD publications that relate to the release of classified information are:

- DoD 5220.22-4, Industrial Security Regulation
- National Industrial Security Program Operating Manual (NISPOM)

The contracting officer must determine if any classified materials will be provided in the RFP or contract, or if the RFP or contract will require the offeror/contractor to have access to classified information from other agencies, or to develop any classified hardware, software, or material under the contract. Examples include access to information on:

- Classified Hardware or Software Related to the Operational System
- Classified Mission Scenario Materials
- Classified Weapon System Procedures Handbooks

**SECTION L: INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS**

**(See DFAS & DCMA ISSUE 25 on page 119)**

**(See DFAS & DCMA ISSUE 26 on page 119)**

## PAYMENT INSTRUCTIONS

This section of the guide is to aid Contracting Officers to write clear and concise payment instructions. Payment instructions should be included in Section G of the contract in a manner that clearly identifies that such is the payment clauses. Instructions will be provided per the different contracting scenarios that may occur at Navy Contracting Offices. Consider the Line Item Funding arrangement in directing how payment must be made. The following examples are used in preparation of contracts and modifications, including delivery and purchase orders.

<u>Contract Type Scenario</u>	<u>Line Item Funding</u>
#1. Fixed Price (or Cost Reimbursement)	Single ACRN
#2. Fixed Price no progress payments	Multiple ACRNs
#3. Fixed Price (or Cost Reimbursement) progress payments or financing payments authorized	Multiple ACRNs
#4. Mixed Type Contract progress payments authorized	Single ACRN
#5. Mixed Type Contract progress payments authorized	Multiple ACRNs multiple funding sources

Payment Scenario:

### #1. Fixed Price (or Cost Reimbursement)

This is the simplest of scenarios when acquiring services or supplies with a single line of accounting. This is also the easiest for DFAS to pay; Automated Payment Invoices (API) is utilized.

#### Example

#### Contract Administration Data

ACRN AA: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
\$ 10,000

Contractor will invoice via a DD250 (or SF1034 (BVN) for cost reimbursement)

Based on the scenario above, payment instructions are not required since there is a one-to-one relationship between ACRN and the line item or contract (DFARS 204.7107(e)(3)(i)) (**page 103**).

## **#2. Fixed Price with No Progress Payments**

The complexity for payment increases when multiple lines of accounting are involved. However, there are options you may want to consider and discuss with DFAS during the acquisition planning phase. The methodology used to construct line items is a key factor in the payment process.

### **Methodology "A" Automated Payment Invoices (API)**

Whenever feasible, the preferable approach is to create separate deliverable line items or subline items for each line of accounting (ACRN) to allow payments to process by API. Under this methodology, no payment instructions are required.

### **Methodology "B"**

In some circumstances line items and subline items cannot be artificially created to accommodate paying systems. In these instances, informational subline items in accordance with DFARS 204.7104-1(a)(3) are warranted. When multiple lines of accounting fund a single line item, payments are manually processed in MOCAS. DFARS 204.7107(e)(3) (**page 103**) directs the contracting officer to provide payment instructions to adequately assign ACRNs to the line item that represents the work being performed. Without specific paying instructions, the DFAS clerk will pay the easiest way within the system. When specific instructions are desired, consider the following:

Example  
**Contract Administration Data**

**PAYMENT INSTRUCTIONS FOR MULTIPLE ACCOUNTING CLASSIFICATION CITATIONS**

ITEM 0001

ACRN AA: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
\$ 10,000

ACRN AB: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
\$ 20,000

**Paying Instructions: Pay all of funds from ACRN AA before disbursing from ACRN AB.**

Contractor will invoice via a DD250

Under Methodology "A" (API), payment instructions are unnecessary because of the one-to-one line item/ACRN relationship. The Methodology "B" scenario, which requires the program office to specify payment instructions, should be used when necessary to protect funds from canceling or when critical to program expenditure rates. When proportional disbursement across all contract line items and subline items is acceptable, the DFARS still requires payment instructions for multiple funded line items, but the instructions may simply specify "Disbursement should be distributed proportionately." This would allow payments to be made automatically as is the case in Methodology "A" above.

### **#3. Fixed Price (or Cost Reimbursement); Multiple ACRNs and Contract Financing**

Financing payments are treated differently than delivery payments. A progress payment to the contractor is considered a loan and requires "pay back" when the line item is delivered or performance accepted. Unless specific progress payment instructions apply, ACRNs are disbursed proportionately up to the liquidation rate on each ACRN. ACRNs funding a line item authorized for progress payments cannot be fully expended until the line item is delivered. In other words, a contracting officer cannot direct DFAS to pay an ACRN down to zero prior to the item delivering. For example, if the contract's progress payment rate is 85%, then DFAS can only pay work in process up to 85% of the ACRN amount- not the line item total. When the line item is delivered and invoiced, the loan amount is recouped and the remaining amount of the line item is fully expensed. The Methodology "A" template below utilizes API. Methodology "B" provides DFAS and the contractor specific instructions on how to pay and bill disbursements respectively. These payments will be manually processed in MOCAS.

#### **Methodology "A"**

##### Example

##### **Contract Administration Data**

##### **PAYMENT INSTRUCTIONS FOR MULTIPLE ACCOUNTING CLASSIFICATION CITATIONS**

ACRN AA: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
\$ 2,000,000

ACRN AB: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
\$ 2,000,000

ACRN AC: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
\$ 2,000,000

Progress payments apply to the entire contract

or

Cost reimbursement vouchers for partial payment apply to the entire contract

No special payment instructions are required for API. The statements regarding the applicability of progress payments or reimbursement financing payments are not considered payment instructions because they do not instruct DFAS on how to distribute funding.

Methodology "B"

Example  
**Contract Administration Data**

**PAYMENT INSTRUCTIONS FOR MULTIPLE ACCOUNTING CLASSIFICATION  
CITATIONS**

ACRN AA: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
\$ 2,000,000

ACRN AB: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
\$ 2,000,000

ACRN AC: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
\$ 2,000,000

Or

**Special payment instructions apply to Progress Payments (or Cost Reimbursement vouchers for partial payments)**

Pay ACRNs in the order listed below up to the limit required for withhold.  
**AB, AC, AA**

**Billing Instructions to Contractor:** Each request for payment shall be based upon progress/costs incurred and the funding associated with each line item. Include the ACRN and applicable amount on the invoice as shown below:

INVOICE NUMBER: \_\_\_\_\_  
 CONTRACT F \_\_\_\_-\_\_-\_\_-\_\_\_\_\_

ITEM   ACRN   AMOUNT

MOCAS will only allow progress payments on an ACRN up to the permissible progress payment/liquidation percentages cited in the contract.

**#4. Mixed Contract Type (Fixed Price/Cost Reimbursement); one funding source (1 ACRN) and Progress Payments**

This scenario may occur when a single line of accounting covers more than one line item or subline item of differing contract types. The determination of contract type by the contracting officer principally is an indicator of risk and not tied to type of funds. An example is the repair of line replaceable units (LRUs).

<u>ITEM</u>	<u>NOUN</u>	<u>QTY</u>	<u>UNIT PRICE</u>	<u>AMOUNT</u>
0001	Model "A" LRUs	100ea	\$10,000	\$ 1,000,000
	FIRM FIXED PRICE			
	ACRN: AA			

<u>ITEM</u>	<u>NOUN</u>	<u>QTY</u>	<u>UNIT PRICE</u>	<u>EST AMT</u>
0002	Model "B" LRUs	200ea	\$20,000	\$ 4,000,000
	COST PLUS FIXED FEE			
	ACRN: AA			

Example

**Contract Administration Data**

ACRN AA: 1761505 Y1A1 000 CJ231 0 N68342 00 000000 1080000A5PB  
 \$ 5,000,000

**Paying Instructions**

The paying office shall disburse payments in accordance with the following payment requests and the line item amounts:

Progress Payments (IAW SF1443) apply only to line item 0001 up to \$1,000,000  
 BVN (Cost Voucher) (IAW SF1034) apply only to line item 0002 up to \$4,000,000

Typically, payment instructions are not required since only one funding source is present (DFARS 204.7107(e)(3)) (**page 103**). Segregate funding amounts by contract type and financing/non-financing pools and track closely to ensure expenditures including fee for cost reimbursement line items do not exceed funding for that line item.

**#5. Mixed Type Contract (Fixed Price/Cost Reimbursement); Multiple Funding Sources; Multiple Types of Funding with Progress Payments**

Example scenario: NAS Miramar is about to issue a contract for delivery of unmanned aircraft, a research study, and post production support. Funding (procurement, R&D, and operations & maintenance) will be provided by all three military services. The items will be delivered incrementally at destination. The contractor has requested financing in the form of Progress Payments.

ITEM 0001	UNMANNED AIRCRAFT		
0001AA	ARMY at BASE A FIXED PRICE INCENTIVE ACRN: AA	1ea	\$ 1,000,000
0001AB	NAVY at BASE B FIXED PRICE INCENTIVE ACRN: AB	1ea	\$ 1,000,000
0001AC	NAVY at BASE C FIXED PRICE INCENTIVE ACRN: AC	1ea	\$ 1,000,000
ITEM 0002	STUDY COST PLUS FIXED FEE	1lo	\$ 300,000
000201	ACRN: AD		\$ 100,000
000202	ACRN: AE		\$ 100,000
000203	ACRN: AF		\$ 100,000
ITEM 0003	POST PRODUCTION SUPPORT		
0003AA	BASE A (Army) COST PLUS FIXED FEE ACRN: AG	12mo	\$ 600,000
0003AB	BASE B (Navy) COST PLUS FIXED FEE	12mo	\$ 600,000

0003AC	ACRN: AH BASE C (Navy) COST PLUS FIXED FEE ACRN: AJ	12mo	\$ 600,000
--------	--	------	------------

Example  
**Contract Administration Data**

**PAYMENT INSTRUCTIONS FOR MULTIPLE ACCOUNTING CLASSIFICATION CITATIONS**

ACRN AA: 219XXXX ARMY PROCUREMENT PR/MIPR: HDHDG-99-12345	\$ 1,000,000
ACRN AB: 179XXXX NAVY PROCUREMENT PR/MIPR: DJDJYG-99-45678	\$ 1,000,000
ACRN AC: 5793010 NAVY PROCUREMENT PR/MIPR: FD2050-99-79801	\$ 1,000,000
ACRN AD: 219YYYY ARMY R&D PR/MIPR: HDHDG-99-12345	\$ 100,000
ACRN AE: 179YYYY NAVY R&D	\$ 100,000
ACRN AF: 5793600 NAVY R&D	\$ 100,000
ACRN AG: 219ZZZZ ARMY O&M PR/MIPR: HDHDG-99-12345	\$ 600,000
ACRN AH: 179ZZZZ NAVY O&M	\$ 600,000
ACRN AJ: 5793400 NAVY O&M	\$ 600,000

Contractor will submit payment requests utilizing the following formats to the respective line items

<b>Progress Payments for ITEM 0001-</b>	<b>SF1443</b>
<b>Invoices for ITEM 0001-</b>	<b>DD250</b>
<b>Public Vouchers for ITEMS 0002/0003-</b>	<b>SF1034</b>

ITEMs/ACRNs: Fixed Price									
ACRN	AA	AB	AC						
ITEM									
0001AA	\$ 1,000,000								
0001AB		\$ 1,000,000							
0001AC			\$ 1,000,000						
ITEMs/ACRNs: Cost Reimbursement									
ACRN				AD	AE	AF	AG	AH	AJ
ITEM									
0002				\$ 100,000	\$ 100,000	\$ 100,000			
0003AA							600,000		
0003AB								600,000	
0003AC									600,000
	AA	AB	AC	AD	AE	AF	AG	AH	AJ
RECAP	\$ 1,000,000	\$ 1,000,000	\$ 1,000,000	\$ 100,000	\$ 100,000	\$ 100,000	600,000	600,000	600,000
TOTALS									

**Progress payments are authorized only for line items 0001AA, 0001AB, and 0001AC. Proportional disbursement is acceptable.**

**Cost vouchers are authorized only for the line items listed below. Pay in ACRN sequence as shown:**

<b>Item 0002</b>	<b>Disburse in the order shown: AD, AE, AF</b>
<b>Item 0003AA</b>	<b>Disburse funds using ACRN AG up to \$600,000</b>
<b>Item 0003AB</b>	<b>Disburse funds using ACRN AH up to \$600,000</b>
<b>Item 0003AC</b>	<b>Disburse funds using ACRN AJ up to \$600,000</b>

Many program offices find it necessary to combine mixed type contracts (fixed price & cost reimbursement) on a single instrument. This should be avoided whenever feasible due to constraints within MOCAS. Since MOCAS disburses by ACRN, it is essential to segregate the funds obligated for each type as shown in the example table above. Failure to do so may result in a payment against the wrong appropriation.

At this time MADES II does not support a spreadsheet format to include a table as shown in the example above, but will have future Word capability that will allow other formats to be imported. In the meantime, continue to use the "summary" area when entering payment instructions text.

When utilizing this system, segregating total dollars between fixed price and cost-reimbursement items is essential for DFAS to allocate payments to proper line item/ACRN.

## API Process

Example Cost-Reimbursement Contract

ACRN: AA \$1,000  
 ACRN: AB \$2,000  
 ACRN: AC \$1,000  
 ACRN: AD \$1,000  
 [no specific payment direction to DFAS]

1. When a contract is received at DFAS, the Contract Input Technician reviews the document for any payment instructions.

2. The input technician enters the contract into MOCAS and records a **Y**(es) or **N**(o) in the Provisions Data Record screen based on whether there are payment instructions in the instant action.

**Provisions Data Record**  
 CT1200  
  
 DISCNT-TRMS:  
 SPCL-TOOLING:  
 PMT-PCT:  
 LQD-DMG-IND:  
 INS-ACPT-CD:  
 BVN-INST-RQD: N  
 PROGPAY-INST-RQD: N

3. Based on the coding of N, all payments will be processed API by MOCAS.

# MOCAS

4. When an interim payment request (e.g. BVN) arrives from the contractor, MOCAS automatically calculates payment. From the above example, payment will be prorated against the remaining unliquidated obligation (ULO) of the contract. Within 14 days, the contractor will receive a payment in the amount of \$1,000. The disbursement is composed of 20% of ACRN:AA; 40% of ACRN:AB; 20% of ACRN:AC; and 20% of ACRN:AD.

MEMORANDUM FOR DISTRIBUTION

Subj: STANDARD FINANCIAL ACCOUNTING DATA SHEET

Encl: (1) Financial Accounting Data Sheet for DON appropriated/FMS Funding  
(2) Financial Accounting Data Sheet for Other Customer/Service Funding  
(3) Diskette Containing Standard Financial Accounting Data Sheets

A working group was convened to develop guidance to standardize and simplify writing contracts as part of the overall efforts to decrease problem disbursements (e. g. unmatched disbursements, negative unliquidated obligations). This working group has designed two Financial Accounting Data sheets (FADS) recommended for use by Navy activities and commands in identifying multiple fund cites on contracts.

Enclosure (1) is the format for use with contracts citing Department of the Navy (DON) appropriated funds or Navy execution of Foreign Military Sales (FMS) transactions. Enclosure (2) is the format for use with contracts citing funds other than DON appropriated funds or Navy FMS transactions that are "Other Customers" (e.g. Army or Air Force appropriations). Enclosure (3) is a diskette containing the two data sheets in Microsoft Excel (FAD.XLS and FAD0THR.XLS) and Lotus 123 (FAD.WK3, FAD.FM3, FAD0THR.WK3, and FAD0THR.FM3) electronic spreadsheet formats.

These spreadsheet files may be easily modified to include specific information on the "Prepared/Authorized By" and "Comptroller Approval" parties. A phone number and a FAX number of the persons signing the Financial Accounting Data sheets should be part of the standard data used. There will also need to be some modifications made in the accounting data identification for citing funds not accounted for in the Standard Accounting and Reporting System (STARS) accounting system. Defense Finance and Accounting Service Columbus Center concurs with the formats and content of enclosures (1) and (2).

Subj: STANDARD FINANCIAL ACCOUNTING DATA SHEET

I urge all the DON major command addressees to adopt and use the basic format of these Financial Accounting Data sheets in the contract writing instructions and training procedures used by their command and by their subordinate activities.

My point of contact on this subject is Mr. Kenneth Phillips, EMO-321 who may be reached at (703) 607-0875 or DSN 327-0875.

## Good and Bad Payment Instruction Examples

### Good

#### Example 1:

The Defense and Accounting Service (DFAS) shall make payments by sequential ACRN. No prorated payments across ACRNs shall be made.

#### Example 2:

Note to Paying Office - Request thus order be paid in order of appearance of ACRNs and not prorated. Utilize all funds in ACRN AA, then AB and lastly AC. This will minimize problems encountered when trying to de-obligate excess funding at the completion of the order.

#### Example 3:

- (a) Invoices submitted for payments, which do not contain a contract line item number (CLIN) (or subline item number (SLIN), if any) and the accounting classification references number (ACRN) information, will be returned for correction.
- (b) The disbursement of funds will be by the CLIN/SLIN/ACRN designation. All disbursement will be to the appropriate ACRN.

### Bad

#### Example 1: Confusing and labor intensive

5. *Payment Instructions for Multiple Accounting Classification Citations.* The following is provided in accordance with DFARS 204.7107(e)(3)(**page 103**) : If a CLIN is funded by more than one appropriation, an informational subline item number (SLIN) has been established for each accounting classification reference number (ACRN) relating to the CLIN. The Contractor shall segregate and accumulate costs by CLIN and shall submit its bills (including requests for payment of progress payments, if (applicable) by CLIN. The paying office shall proportionally allocate charges and proportionally assign payments (including progress payments, if applicable) to each SLIN based on the ratio of the obligated, but uncharged, appropriation balance for the SLIN to the total obligated, but uncharged, appropriation balance for the CLIN. To assist the paying office in assigning payments to SLINs, the Contractor shall provide the paying office with a recommended assignment of payment sot SLINs with each billing. The Contractor shall base this recommendation on the proportional allocation required of the paying office under this

clause. For the purpose of this recommendation, the Contractor shall assume that all prior billings have been charged by the paying office.

Example 2: Confusing and labor intensive

- a. The purpose of this modification is to authorize the release of payments (funds) under the contract from the oldest ACRN(s) first.

Example 3: Confusing

- b. The paying office shall ensure that the voucher is disbursed for each ACRN in sequential order beginning with ACRN AA.
- c. The contractor shall identify on each public voucher: (1) the contract number, (2) the accounting classification reference number (ACRN) assigned to the accounting classification which pertains to the charges billed, e.g. "ACRN: AA", (3) the Order Number/PRON; and (4) in the address block, the Tax Identification Number, a point of contact and the telephone number.

Example 4: Reliant on manual calculations

The disbursement of funds will be by the CLIN/SLIN/ACRN designations or when multiple ACRNs are used, disbursements will be prorated in proportion to the unliquidated balance within a CLIN or SLIN, if assigned.

## Recommendations

- A. Ensure that mixed type (fixed price and cost reimbursement) contracts contain specific payment instructions that clearly identify which CLINs and ACRNs are subject to progress payments and cost vouchers.
- B. When a CLIN is funded by more than one ACRN, payment instructions are required (DFARS 204.7107(e)(3)) (**page 103**)
- C. Ensure that billing instructions have been included when necessary and that they are consistent with the payment instructions.
- D. Do not use terms subject to interpretation.
- E. Cite all payment instructions in Section G.
- F. Ensure that the section is clearly labeled "Special Payment Instructions".
- G. Coordinate complex payment instructions with the payment office beforehand.

H. Continual ACO monitoring to ensure payments are in accordance with contract terms and conditions.

### **Line Item Specific and Contract-wide Payment Instruction Examples**

Line Item Specific:

“Line item specific-single funding.” If there is only one source of funding for the CLIN (i.e., one ACRN), the payment office will make payment using the ACRN funding of the CLIN being billed.

“Line item specific: sequential ACRN order.” If there is more than one ACRN within a CLIN, the payment office will make payment in sequential ACRN order within the XLIN, exhausting all funds in the previous ACRN before paying from the next ACRN using the following sequential order: Alpha/Alpha; Alpha/numeric; numeric/alpha; and numeric/numeric.

“Line item specific: CO specified ACRN order.” If there is more than one ACRN within a CLIN, the payment office will make payment within the CLIN in the sequence ACRN order specified by the contracting officer, exhausting all funds in the previous ACRN before paying from the next ACRN.

“Line item specific: By fiscal year.” If there is more than one ACRN within a CLIN, the payment office will make payment using the oldest fiscal year appropriations first, exhausting all funds in the previous fiscal year before disbursing from the next fiscal year. In the event there is more than one ACRN associated with the same fiscal year, the payment amount shall be disbursed from each ACRN within a fiscal year using the proration method

“Line item specific: By cancellation date.” If there is more than one ACRN within a CLIN, the payment office will make payment using the ACRN with the earliest cancellation date first, exhausting all funds in that ACRN before disbursing funds from the next. In the event there is more than one ACRN associated with the same cancellation date, the payment amount shall be disbursed from each ACRN with the same cancellation dates using the proration method.

“Line item specific: Proration.” If there is more than one ACRN within a CLIN, the payment office will make payment from each ACRN using the proration method.

Contract-wide:

“Contract-wide: sequential ACRN order.” The payment office will make payment in sequential ACRN order within the contract, exhausting all funds in the previous ACRN

before paying from the next ACRN using the following sequential order: Alpha/Alpha; Alpha/numeric; numeric/alpha; and numeric/numeric.

“Contract-wide: CO specified ACRN order.” The payment office will make payment in sequential ACRN order within the contract, exhausting all funds in the previous ACRN before paying from the next ACRN in the sequence order specified by the contracting officer.

“Contract-wide: By fiscal year.” The payment office will make payment using the oldest fiscal year appropriations first, exhausting all funds in the previous fiscal year before disbursing from the next fiscal year. In the event there is more than one ACRN associated with the same fiscal year, the payment amount shall be disbursed from each ACRN within a fiscal year using the proration method.

“Contract-wide: By cancellation date.” The payment office will make payment using the ACRN with the earliest cancellation dates first, exhausting all funds in that ACRN before disbursing funds from the next. In the event there is more than one ACRN associated with the same cancellation date, the payment amount shall be disbursed from each ACRN with the same cancellation dates using the proration method.

“Contract-wide: Proration.” The payment office will make payment from each ACRN using the proration method.

*Note: That the CO will have to make the decision whether proration is based on obligated or unliquidated obligation valve. The method chosen needs to be consistent throughout the contract.*

## **DFAS & DCMA PAYMENT ISSUES**

### DFAS & DCMA ISSUE 30: Payment method is unclear for service line items.

**PROBLEM:** Service line items are usually for one lot and may include performance for an extended period of time such as one year. These service line items may be billed monthly, however the terms of payment are not clear or expressed in the contract.

**SOLUTION:** The contract should clearly state the payment terms. If the contractor is permitted to bill monthly for the services, SLINs with a DD Form 250 requirement may provide an efficient method for accomplishing payment.

### DFAS & DCMA ISSUE 31: DFAS prorates many payments, unless otherwise specified in the contract.

**PROBLEM:** Payments prorated over all contract line items may not be desirable in certain contracts.

**SOLUTION:** For contracts where proration is not desired, payment instructions must be clearly explained by ACRN in Section G of the contract.

THIS PAGE INTENTIONALLY LEFT BLANK

## BILLING INSTRUCTIONS

The Contracting Officer MUST write Billing Instructions that are in compliance with the Payment Instructions. All PCOs should inform contracting offices to bill by CLIN as appropriate. Contracting Offices should also ensure that contractors process bills in accordance with all payment arrangements by the contracting officer, while directing DFAS on payment of the bills.

Example 1: Include the billing instruction below if – Section G of the contract requires the contractor to identify the CLIN(s) when the contractor submits-

- (1) A contract financing payment; or
- (2) An interim payment under a cost reimbursement contract for services and alternate I of the clause at 52.232-25, Prompt Payment is in the contract.

Billing Instruction: “When the Contractor submits a request for payment, the Contractor shall identify the contract line item(s) on the payment request that best reflects contract work performance. The Contractor shall separately identify a payment amount for each contract line item that is included in the request for payment.”

Example 2: NAPS <http://www.abm.rda.hq.navy.mil/aosfiles/tools/NAPS/naps/5252.232-9001> SUBMISSION OF INVOICES (COST-REIMBURSEMENT, TIME-AND-MATERIALS, LABOR-HOUR, OR FIXED PRICE INCENTIVE)

As prescribed at 5232.908(b), insert the following clause:

SUBMISSION OF INVOICES (COST-REIMBURSEMENT, TIME-AND-MATERIALS, LABOR-HOUR, OR FIXED PRICE INCENTIVE) (JUL 1992)

(a) "Invoice" as used in this clause includes contractor requests for interim payments using public vouchers (SF 1034) but does not include contractor requests for progress payments under fixed price incentive contracts.

(b) The Contractor shall submit invoices and any necessary supporting documentation, in an original and \_\_\_\_ copies, to the contract auditor\* at the following address:

---

---

---

unless delivery orders are applicable, in which case invoices will be segregated by individual order and submitted to the address specified in the order. In addition,

an information copy shall be submitted to \_\_\_\_\_ .

Following verification, the contract auditor\* will forward the invoice to the designated payment office for payment in the amount determined to be owing, in accordance with the applicable payment (and fee) clause(s) of this contract.

(c) Invoices requesting interim payments shall be submitted no more than once every two weeks, unless another time period is specified in the Payments clause of this contract. For indefinite delivery type contracts, interim payment invoices shall be submitted no more than once every two weeks for each delivery order. There shall be a lapse of no more than \_\_\_\_\_ calendar days between performance and submission of an interim payment invoice.

(d) In addition to the information identified in the Prompt Payment clause herein, each invoice shall contain the following information, as applicable:

- (1) Contract line item number (CLIN)
- (2) Subline item number (SLIN)
- (3) Accounting Classification Reference Number (ACRN)
- (4) Payment terms
- (5) Procuring activity
- (6) Date supplies provided or services performed
- (7) Costs incurred and allowable under the contract
- (8) Vessel (e.g., ship, submarine or other craft) or system for which supply/service is provided

(e) A DD Form 250, "Material Inspection and Receiving Report", is required with each invoice submittal; is required only with the final invoice; is not required.

(f) A Certificate of Performance

\*\* shall be provided with each invoice submittal.

\*\* is not required.

(g) The Contractor's final invoice shall be identified as such, and shall list all other invoices (if any) previously tendered under this contract.

(h) Costs of performance shall be segregated, accumulated and invoiced to the appropriate ACRN categories to the extent possible. When such segregation of costs by ACRN is not possible for invoices submitted with CLINS/SLINS with more than one ACRN, an allocation ratio shall be established in the same ratio as the obligations cited in the accounting data so that costs are allocated on a proportional basis.

\* In contracts with the Canadian Commercial Corporation, substitute "Administrative Contracting Officer" for "contract auditor".

\*\* Check appropriate requirements.

In accordance with a 28 February 1991 memo from the Director of Defense Procurement (DDP), a statement to contractors should be added in Section G for cost type CLINS/SLINs that states "All cost type items must be billed on SF 1034 (Bureau Voucher). This requirement also includes Time and Materials contracts.

## **DFAS & DCMA BILLING ISSUES**

### DFAS & DCMA ISSUE 32: Contractors sometimes use commercial invoices rather than Bureau Voucher Numbers (BVNs), SF 1034, for cost type CLINs/SLINs.

**PROBLEM:** When contractors use commercial invoices rather than Bureau Voucher Numbers (BVNs), SF 1034, for cost type CLINs/SLINs, DFAS payment personnel look for fixed priced line items to pay instead of cost type line items.

**SOLUTION:** This statement should appear in Section G for cost type CLINs/SLINs: "All cost type items must be billed on BVNs, SF 1034 following instructions for submission of invoices."

### DFAS & DCMA ISSUE 33: Contractors are required to submit invoices by ACRN.

**PROBLEM:** Contractors frequently do not cite ACRNs on invoice they submit. This confuses DFAS when they cannot determine which ACRNs to allocate the payment to.

**SOLUTION:** Contracting personnel should ensure that a billing clause is contained in Section G of the contract which states that the Government shall reject any invoices submitted for payment which do not cite the proper ACRN(s).

THIS PAGE INTENTIONALLY LEFT BLANK

## **SPECIAL ISSUES**

This section pertains to clauses that need special emphasis as a result of numerous issues that have consistently plagued Navy contracts.

### **FINANCIAL ISSUES**

ONE TYPE OF FUNDING ON EACH CONTRACT:

FAR 32.1003(c)

- The contracting officer may use performance-based payments (PBPs) only if the following conditions are met: (c) the contract does not provide for other methods of contract financing (except for advance payments according to subpart 32.4 or guaranteed loans according to subpart 32.3).

Extending financing to contractors on a contract simultaneously under both progress payments and performance-based payments violates this regulation.

PERFORMANCE BASED PAYMENTS CANNOT EXCEED 90% OF THE CLIN, CONTRACT PRICE, OR AT THE ACRN LEVEL:

FAR 32.1004(b)(2)

- Total performance-based payments reflect prudent contract financing provided only to the extent needed for contract performance (see 32.104(a)) and not exceed 90 percent of the contract price if on a whole contract basis, or 90 percent of the delivery item price if on a delivery item basis (line item basis).

This is interpreted as the cumulative amount of PBPs shall not exceed 90 percent of the contract price or 90 percent of the deliverable price if on a line item basis.

FMR Volume 10, Chapter 10 (100204B)

- Care must be taken to ensure that the individual ACRNs are not over paid. The outstanding work in progress (WIP) balance for each ACRN cannot exceed the ULO for that ACRN multiplied by the liquidation rate.

### **REGULATORY ISSUES**

(1) REQUIREMENT TO IDENTIFY THE “TYPE” OF LINE ITEM ON MIXED-TYPE CONTRACTS:

DFARS 215.204.2(g)

When a contract contains both fixed-priced and cost-reimbursement line items or subline items, the CO shall provide, in Section B, Supplies or Services and Prices/Costs, an identification of contract type specified for each contract line item or subline item to facilitate appropriate payment.

**DFAS & DCMA ISSUE 10: It is difficult for DFAS to ascertain the type of contract. In addition, there is no clear identification of whether a CLIN/SLIN is a cost reimbursement or fixed price type on hybrid contracts (contracts with both cost type and fixed price line items).**

PROBLEM: DFAS has reported difficulty in ascertaining the type of contract. This problem can arise because the "Type of Contract" Provision is placed in Section L of the solicitation. When the contract is awarded, Section L is pulled from the solicitation and placed in the contract file (with Sections K and M). Therefore, when the contract is distributed, this information is not included. When the contract type is identified in the contract, this information is provided in various locations. It is often difficult for DFAS to know how to make payments when they don't know which CLINs are subject to progress payments and which are not. This can result in progress payments being incorrectly spread over cost reimbursement line items.

SOLUTION: A simple solution to this problem is to ensure that the contract type is included on the first page of the contract or modification. When a contract contains both fixed price and cost reimbursement contract line items or subline items, the contracting officer shall provide, in Section B, Supplies or Services and Price/Costs, a summary under the heading "Contract Type Summary for the Payment Office" sufficient to permit the paying office to readily identify the contract type of each contract line item or subline item as follows:

In Section B, after the Notes, insert one of the following:

A. If the entire contract is cost type, add:

"Contract Type Summary for the Payment Office

THIS ENTIRE CONTRACT IS COST TYPE."

B. If the entire contract is fixed price add:

"Contract Type Summary for the Payment Office

THIS ENTIRE CONTRACT IS FIXED PRICE."

If the contract contains a mixture of cost reimbursement and fixed price line items add (fill in with appropriate information):

"Contract Type Summary

<u>Item</u>	<u>Type*</u>	
0001	CR	
0002	FP	
0003AA	CR	*CR - Cost Reimbursement
0003AB	FP	FP - Fixed price

Additionally, contract payment is made easier if the contract specifies the billing document that will be used for each item.

(2) USE OF MULTIPLE ACCOUNTING CLASSIFICATIONS:

DFARS 204.7103-1(a)(4)(ii)

The use of multiple accounting classification citations for a contract line item is authorized in the following situations:

- A. A single, nonseverable\* deliverable to be paid for with R&D or other funds properly incrementally obligated over several fiscal years in accordance with DoD policy.
- B. A single, nonseverable deliverable to be paid for with different authorizations or appropriations, such as in the acquisition of a satellite or the modification of production tooling used to produce items being acquired by several activities; or
- C. A modification to an existing contract line item for a nonseverable deliverable that results in the delivery of a modified item(s) where the item(s) and modification are to be paid for with different accounting classification citations.

EXAMPLE:

- When a nonseverable CLIN is funded by multiple appropriations then informational subline items are established to identify each accounting classification assigned to the contract line item. Informational subline items are created by adding two numeric characters to the basic CLIN (e.g., 060613, 060614, 060615 etc.).
- When a severable CLIN is funded by multiple appropriations then separately identified subline items are established to identify the quantity associated with the single accounting classification. Separately identified subline items are created by adding two alpha characters to the basic CLIN (e.g. 0606AA, 0606AB, 0606AC etc.).

Since the use of each type is determined by whether the CLIN is considered severable or nonseverable, there should be no situation that would require the use of both types of subline items under the same basic CLINS.

\* Nonseverable service: A service is nonseverable if the service produces a single or unified outcome, product, or report that cannot be subdivided for separate performance in different fiscal years. Thus, the government must fund the entire effort with dollars available for obligation at the time the contract is executed, and the contract performance may cross fiscal years.

Severable service: A severable service, on the other hand, is conceived as a recurring requirement for the same type of service, to be furnished and paid for on an incremental basis. It can be separated into components that independently meet a separate need of the government.<sup>8</sup> (Contract Law Deskbook, page 3-9)

DOD agencies may obligate funds current at the time of contract award to finance any severable service contract with a period of performance that does not exceed one year. (10 U.S.C. & 2410a)

The following examples may be helpful in determining if the work is severable or nonseverable (AFMC Award Fee & Award Term Guide, Dec 2002):

- Suppose a service contract is to be performed half in one fiscal year and half in the next. Suppose further that the contract is terminated at the end of the first fiscal year and not renewed for the next fiscal year? What do you have? In the case of a window-cleaning service contract, you have half of your windows clean; a benefit that is not diminished by the fact that the other half is still dirty. What you paid for the first half has not been wasted. This work is clearly severable. **Severable** service does not contemplate a required outcome or end product.
- If this is a contract to conduct a study and prepare a final report and this work is terminated halfway through, you essentially have nothing. An incomplete study, while perhaps beneficial in some sense, does not do you very much good when what you needed was the complete study and report. This work is nonseverable. **Nonseverable** service may arise in one fiscal year but, due to the nature of the work, it cannot be separated for performance in separate fiscal years.

The determination of severable versus non-severable is a Contracting Officer's decision. The CO must determine whether the end product can or cannot reasonably be separated or subdivided.

---

<sup>8</sup> Contract Law Deskbook, Availability Of Appropriations As To Time, U.S. Army, Legal Center and School, Charlottesville, Virginia.

**(3) CRITERIA FOR ESTABLISHING INFORMATIONAL SUBLINE ITEMS:**

Contract subline items provide flexibility to further identify elements within a contract line item for tracking performance or simplifying administration. There are only two kinds of subline items: those which are informational in nature and those which consist of more than one item that requires separate identification.

DFARS 204.7104-1(a)

- This type of subline item identifies information that relates directly to the contract line item and is an integral part of it (e.g., parts of an assembly or parts of a kit). These subline items shall not be scheduled separately for delivery, identified separately for shipment or performance, or priced separately for payment purposes.
- The informational subline item may include quantities, prices, or amounts, if necessary to satisfy management requirements. However, these elements shall be included within the item description in the supplies/services column and enclosed in parentheses to prevent confusing them with quantities, prices, or amounts that have contractual significance. Do not enter these elements in the quantity and price columns.
- Informational subline items shall be used to identify each accounting classification citation assigned to a single contract line item number when use of multiple citations is authorized (see 204.7103-1(a)(4)(ii)).

Example: Informational subline items established to identify multiple accounting classification citations assigned to a single contract line item.

ITEM NO.	SUPPLIES/SERVICE	QTY	UNIT	UNIT PRICE	AMOUNT
0001	Air Vehicle	1	LOT	\$6,700,000	\$6,700,000
	000101 ACRN: AA			\$3,300,000	
	000102 ACRN: AB			\$2,000,000	
	000103 ACRN: AC			\$1,400,000	

**(4) REQUIREMENT FOR ESTABLISHING PAYMENT INSTRUCTIONS ON MULTI-FUNDED CLINS:**

DFARS 204.7107(e)(3):

- When a contract line item is funded by multiple accounting classification citations, the contracting officer shall provide adequate instructions in section G (Contract Administration Data), under the heading “Payment Instructions for Multiple Accounting Classification Citations,” to permit the paying office to charge the accounting classification citations assigned to that contract line item (see 204.7104-1(a)) in a manner that reflects the performance of work on the contract. If additional

accounting classification citations are subsequently added, the payment instructions must be modified to include the additional accounting classification citations.

- Payment instructions shall provide a methodology for the paying office to assign payments to the appropriate accounting classification citation(s), based on anticipated contract work performance. The method established should be consistent with the reasons for the establishment of the line items. The payment method may be based upon a unique distribution profile devised to reflect how the funds represented by each of the accounting classification citations support contract performance. Payment methods that direct that payments be made from the earliest available fiscal year funding sources, or that provide for proration across accounting classification citations assigned to the line item, or a combination thereof, may be used if that methodology reasonably reflects how each of the accounting classification citations supports contract performance.

**Additional information required by paying office:**

The paying office also needs information on how each of the ACRNs should be expended (e.g., sequential order, prorated, specific order identified by contracting officer). Simply stating “oldest funds first” can be interpreted differently. Contracting Officer should verify appropriation data.

EXAMPLE:

ITEM NO.	SUPPLIES/SERVICE	QTY	UNIT	UNIT PRICE	AMOUNT
0001	Air Vehicle	1	LOT	\$6,700,000	\$6,700,000
	000101 ACRN: AA			\$3,300,000	
	000102 ACRN: AB			\$2,000,000	
	000103 ACRN: AC			\$1,400,000	

INSTRUCTIONS TO PAYMENT OFFICE: “Expend oldest funds first beginning with ACRN AC, followed by AA, then AB. Exhaust all available funds in the first ACRN before expending funds from the next listed ACRN”

**Note:** Paying office also needs payment instructions for cost-reimbursement items (billed on a SF1034) and progress payments (billed on a SF 1443) due to the fact that MOCAS may prorate these billings over every available ACRN on the contract in the absence of payment instructions.

**(5) ELECTRONIC SUBMISSION REQUIREMENT USING WIDE AREA WORK FLOW**

DFARS 252.232-7003(b)(1): The contractor shall submit payment requests using the following electronic forms: (1) Wide Area Work Flow (WAWF) – Receipt and Acceptance.

What is WAWF? It is a web-based receipt, inspection/acceptance and invoicing system.

ISSUE 33:	Invoices by ACRN.....	124

### **ISSUE 1: Timely Distribution of Contracts/Mods/Orders.**

- PROBLEM: Timely distribution of contracts, mods and orders and the prompt recording of obligations in the Navy's official accounting system are paramount to prompt payment of invoices by DFAS. Delays in recording obligations cause the available funding balances to be overstated and the reported obligations to be understated and, therefore, increase the potential for a violation of the Anti-deficiency Act. In addition, such delays can cause payment transactions to be rejected unnecessarily during the prevalidation process and consequently result in unmatched disbursements and negative unliquidated obligations.
- SOLUTION: To preclude this from happening, NAPS 5204.201 provides guidance as follows:
  - “DoN activities shall post an electronic copy of each newly executed procurement instrument (contracts, purchase orders, delivery orders, contract modifications, etc.) within two working days of execution, to the Navy Air Force Interface (NAFI) ([www.nafi.navy.mil](http://www.nafi.navy.mil)) to DoD Electronic Document Access (EDA). The preferable method of posting documents is via automated interface from the contract writing system. This posting constitutes the required distribution with respect to required copies for the Defense Finance and Accounting Service, the Defense Contract Management Agency, and the Defense Contract Audit Agency. All parts of an instrument that would have been provided to a recipient in paper should be made available electronically.”

### **ISSUE 2: Contracts and modifications whose images are posted on DoD Web Sites are different from the paper copies sent to contractors will cause payment problems.**

- PROBLEM: DFAS and DCMA rely on the versions of contractual documents that are posted on DoD sites such as EDA or NAFI. When these versions differ from those given to contractors, the likelihood of payment posting and other problems is significantly increased. The DoD policy that requires buying activities to maintain controls to assure the integrity of contractual documents is posted on the following website:  
[http://www.acq.osd.mil/dpap/ebiz/documents/EDA\\_rules.pdf](http://www.acq.osd.mil/dpap/ebiz/documents/EDA_rules.pdf).
- SOLUTION: Assure that EDA/NAFI versions of contractual documents exactly match the versions sent to contractors.

### **ISSUE 3: Incorrect contractor CAGE identified on contract.**

- PROBLEM: DFAS Columbus has identified several situations where an incorrect address was input for the contractor's CAGE which subsequently caused a rejection when it was input into MOCAS. DFAS will issue a Contract Deficiency Report ( DD Form 1716) to obtain the correct information.

- SOLUTION: Verify contractor CAGE is correct prior to submission of contract.

**ISSUE 4: There is no standardization for the ship to and mark for codes; this causes a major problem for delivery and acceptance verification (DD Form 250). Missing DODAACs in the schedule are also a problem for MOCAS input; the delivery schedule should, in almost every case, have a valid ship to (DODAAC/CAGE) code.**

- PROBLEM: The problem of stating the delivery schedule in different places in the contract makes it difficult for contracting and payment personnel to find and correctly input this data into MOCAS. Delivery requirements are even sometimes found in the statement of work. The DD Form 1423 also contains the delivery schedule and is generally listed as an exhibit to the contract.
- SOLUTION: FAR 14.201-1 and 15.406-2 directs placement of the delivery information in Section F of the uniform contract format. The DFARS also prescribes the use of the DD Form 1423. Adhering to these directions would greatly simplify "finding" the delivery information. If the delivery is stated in the statement of work it should be cross-referenced or repeated in Section F of the contract.

**ISSUE 5: Purpose of modification is unclear.**

- PROBLEM: DFAS is unclear about the intended purpose of a modification.
- SOLUTION: Each modification shall contain an opening paragraph which clearly states the purpose of the modification, including any impact on funds or accounting data. If there is no change, of any kind, to either the funds or accounting data, a statement to that effect shall be made in the opening paragraph. For example:

If changes are to be made to the funds or accounting data, include a paragraph similar to the following:

- "The purpose of this modification is to add line items 0023 - 0025 to the contract to purchase additional systems. As a result, the total amount of this contract is increased from \$9,225,897 by \$4,969,427 to \$14,195,324. Accordingly, the contract is modified as follows:"
- or "The purpose of this modification is to incorporate Engineering Change Proposal 100R1 dated 1 JAN 95 into the baseline, adding new CLIN 0050 and revising the shipping instructions. This results in an increase in the contract price of \$1,000,000 from \$10,000,000 to \$11,000,000. Accordingly, the contract is modified as follows:"

If the modification contains no changes to funds or accounting data, the opening paragraph should state:

- "The purpose of this modification is to incorporate administration corrections. There is no change to the funding or accounting data under the contract. Accordingly, the contract is modified as follows:"

**ISSUE 6: Modifications are executed out of numerical sequence.**

- **PROBLEM:** This creates difficulties when lower numbered modifications change higher numbered modifications which were previously executed (e.g. P00060 executed on 1 Mar 1995 changes the quantity of modification P00065 executed 1 Jan 1995).
- **SOLUTION:** Contracting personnel should ensure that modifications are executed in numerical sequence IAW DFARS 204.7004. If a modification number is not used, the subsequent modification shall state, in large, bold, capital letters, on the front page of the modification that the number was not issued.

**ISSUE 7: Definitization modifications are unclear.**

- **PROBLEM:** Definitization modifications create ambiguities and confusion because the impact to the funding is unclear, disposition of any excess funds is often not addressed and the "Z" in the modification number is used incorrectly creating difficulty in the accounting system.
- **SOLUTIONS:** In accordance with DFARS 204.7004(c)(3)(iv) a "Z" can only be used to identify a modification which definitizes a letter contract. Each definitization modification shall follow the following guidance:
- For each definitization modification, the contracting officer shall identify, in Section G (Uniform Contract Format - Contract Administration Data) or the contract schedule (Simplified Contract Format), under the heading "Definitization Summary for the Payment Office", information sufficient to permit the paying office to readily identify the changes for each contract line item and subline item as follows:
  - The amount of funding obligated by prior contract actions, to include the estimated cost and fee if a cost type contract; the estimated cost and target fee at time of contract award if a cost plus incentive fee contract; the estimated cost, base fee, and award fee earned if a cost plus award fee contract; the target cost and target profit if a fixed price incentive contract; or the fixed price if a firm fixed price contract;
  - The amount of funding obligated by the instant definitization modification categorized by the type of contract; and the total cumulative amount of obligated funding categorized by the type of contract.

- Accordingly, each definitization modification shall include two tables similar to the following (headings may be changed based on contract type):

<u>Item</u>	<u>From</u> *			<u>By</u> **			<u>To</u> ***		
	<u>Est. Cost</u>	<u>F. Fee</u>	<u>Tot. CPFF</u>	<u>Est. Cost</u>	<u>F.Fee</u>	<u>Tot. CPFF</u>	<u>Est. Cost</u>	<u>F.Fee</u>	<u>Oblig.</u>
0001	100,000	10,000	110,000	5,000	1,000	6,000	105,000	11,000	116,000

\* From - Amounts established in the undefinitized contractual action.

\*\* By - Changes as a result of the definitization.

\*\*\* To - New amounts reflecting the definitization.

- Changes in the amount obligated as a result of the definitization:

<u>Item</u>	<u>Orig. Obligated Amount</u>	<u>By</u>	<u>New Obligated Amount</u>
0001	\$50,000	\$25,000	\$75,000
0002	\$100,000	(\$20,000)	\$80,000

Excess funds under CLIN 0002 are to be deobligated ... OR

Excess funds under CLIN 0002 are to remain in the contract for future use by the ACO.

When partial definitization is necessary, create separate CLINs or SLINs, one for the definitized CLIN/SLIN, and another for the undefinitized CLIN/SLIN.

For further guidance, refer to DFARS 217.74 and 243.171.

Partial definitization modifications should be avoided. If necessary, however, clearly state which CLINs/SLINs are being definitized. In addition, follow the guidance in DFARS 204.7106(b) as follows:

If the modification relates to existing contract line items or exhibit line items, the modification shall refer to those item numbers.

- If the contracting officer decides to assign new identifications to existing contract or exhibit line items, the following rules apply:
  - Definitized and undefinitized items:
    - The original line item or subline item number may be used if the modification applies to the total quantity of the original line item or subline.
    - The original line item or subline item number may be used if the modification makes only minor changes in the specifications or some of the items ordered on the original line item or subline item and the resulting changes in unit price can be averaged to provide a new single unit price for the total quantity. If the

changes in the specifications make the item significantly distinguishable from the original item or the resulting changes in unit price cannot be averaged, create a new line item.

- If the modification affects only a partial quantity of an existing contract or exhibit line item or subline item and the change does not involve either the delivery date or the ship-to/mark-for data, the original contract or exhibit line item or subline item number shall remain with the unchanged quantity. Assign the changed quantity the next available number.
- Undefinitized items:
  - In addition to the rules stated above, the following additional rules apply to undefinitized items –
  - If the modification is undefinitized and increases the quantity of an existing definitized item, assign the undefinitized quantity the next available number.
  - If the modification increases the quantity of an existing undefinitized item, the original contract or exhibit line item or subline item may be used if the unit price for the new quantity is expected to be the same as the price for the original quantity.
  - If the unit prices of the two quantities will be different, assign the new quantity the next available number.
  - If the modification both affects only a partial quantity of the existing contract or exhibit line or subline item and definitizes the price for the affected portion, the definitized portion shall retain the original item number.
  - If there is any undefinitized portion of the item, assign it the next available number. However, if the modification definitizes the price for the whole quantity of the line item, and price impact of the changed work can be apportioned equally over the whole to arrive at a new unit price, the quantity with the changes can be added into the quantity of the existing item.
- If the modification affects only a partial quantity of an existing contract or exhibit line or subline item but does not change the delivery schedule or definitize price, the unchanged portion shall retain the original contract or exhibit line or subline item number. Assign the changed portion the next available number.
- For BOAs, the funds should be obligated against the individual orders ONLY. In the case of an IDIQ contract (which will contain minimum requirements), the funding for the minimum requirement will be obligated at the time of contract award; all other funds will be obligated in the individual orders. However, PCOs

can issue the first order for the minimum requirement at the time of contract award. This will keep the funding off the basic contract.

- Ensure clauses referenced in contracts or modifications are in accordance with FAR.

**ISSUE 8: Terms are used incorrectly.**

- **PROBLEM:** The terms obligation, deobligation, and commitment are not used consistently in modifications which creates confusion about the contracting officer's intent about funds cited in a contract.
- **SOLUTION:** The terms are defined as follows:
  - **Obligation** - Amount authorized for disbursement. Puts the money on the contract.
  - **Deobligation** - Decreases the amount available for disbursement. -- "takes the money off the contract".
  - **Commitment** - Funds are committed in STARS prior to obligation which occurs at the time of contract award. This term is used to describe an internal accounting procedure only. It should not be used in a contract.

**ISSUE 9: Modifications for Provisioned Items Order** (See DFAS & DCMA ISSUE 16 on page XX) **items are often unclear.**

- **PROBLEM:** Modifications are often unclear about whether the initial funds are to be committed or obligated. Follow-on modifications placing orders against the initial funds are also unclear about whether the funds are to be obligated. The result is that DFAS frequently obligates the same funds several times creating a funding imbalance.
- **SOLUTION:** Modifications must clearly specify whether funds are to be obligated or committed. For example, the initial funding under a PIO item could read:

"Funds in the amount of \$100,000 are hereby obligated under line item 0010 for use by the ACO in placing future orders."

When an order is placed, a statement similar to the one below should be inserted in the last paragraph of the modification:

"Funds in the amount of \$100,000 were obligated under modification A0000X. Of that amount, \$25,000 is used to place this order under line item 0010AA; the

remaining funds are for use by the ACO for future orders as shown in the table below. No additional funds are obligated as a result of this modification, but funding is reallocated to subline 0010AA as follows:"

<u>Item</u>	<u>Orig Amount</u>	<u>Move</u>	<u>Amount Remaining</u>
0010	\$100,000	\$25,000	\$75,000
0010AA	\$0	\$25,000	

**ISSUE 10: It is difficult for DFAS to ascertain the type of contract. In addition, there is no clear identification of whether a CLIN/SLIN is a cost reimbursement or fixed price type on hybrid contracts (contracts with both cost type and fixed price line items).**

- PROBLEM: DFAS has reported difficulty in ascertaining the type of contract. This problem can arise because the "Type of Contract" Provision is placed in Section L of the solicitation. When the contract is awarded, Section L is pulled from the solicitation and placed in the contract file (with Sections K and M). Therefore, when the contract is distributed, this information is not included. When the contract type is identified in the contract, this information is provided in various locations. It is often difficult for DFAS to know how to make payments when they don't know which CLINs are subject to progress payments and which are not. This can result in progress payments being incorrectly spread over cost reimbursement line items.
- SOLUTION: A simple solution to this problem is to ensure that the contract type is included on the first page of the contract or modification. When a contract contains both fixed price and cost reimbursement contract line items or subline items, the contracting officer shall provide, in Section B, Supplies or Services and Price/Costs, a summary under the heading "Contract Type Summary for the Payment Office" sufficient to permit the paying office to readily identify the contract type of each contract line item or subline item as follows:
  - In Section B, after the Notes, insert one of the following:
    - If the entire contract is cost type, add:
 

"Contract Type Summary for the Payment Office: THIS ENTIRE CONTRACT IS COST TYPE."
    - If the entire contract is fixed price add:
 

"Contract Type Summary for the Payment Office: THIS ENTIRE CONTRACT IS FIXED PRICE."
    - If the contract contains a mixture of cost reimbursement and fixed price

line items add (fill in with appropriate information):

"Contract Type Summary		
<u>Item</u>	<u>Type*</u>	
0001	CR	
0002	FP	
0003AA	CR	*CR - Cost Reimbursement
0003AB	FP	FP - Fixed price

Additionally, contract payment is made easier if the contract specifies the billing document that will be used for each item

**ISSUE 11: DFAS has difficulty in determining which clauses apply to which CLINs in "hybrid" contracts (hybrid contracts include both fixed price and cost type CLINs).**

- PROBLEM: Hybrid contracts are considered necessary and are allowable per FAR 16.102(b). There is no regulatory guidance or procedures for identifying or structuring hybrid contracts.
- SOLUTION: Whenever practicable, contracting personnel should structure contracts to (1) identify hybrid contracts on the face of the document, (2) identify (in Section B) which CLINs are fixed price/cost type, (3) assign ACRNs to every CLIN regardless of type, and (4) segregate the clauses (in each section) by applicability to the total contract, fixed price, or cost type CLINs.

**ISSUE 12: CLINS/SUBCLINS/ELINS not structured IAW DFARS 204.**

- PROBLEM: Contract format for CLINS/SUBCLINS/ELINS are delineated in DFARS 204.71. DFAS personnel have difficulty in identifying the appropriate accounting classification when CLINs are unclear or inconsistent with regulations. Improperly formatted CLINs increase the time for DFAS to make payments and to complete contract close out.
- SOLUTION: Contracting personnel need to pay close attention when identifying CLINs/SubCLINs/ELINS. DFARS 204.71 identifies the procedures for properly numbering CLINs. Contracting personnel should review DFARS 204 to ensure that CLINs are properly formatted.

**ISSUE 13: Contract delivery dates stating "ARO (after receipt of order)" or "as required" cannot be entered into MOCAS.**

- PROBLEM: The lack of delivery dates in MOCAS results in problem disbursements. DFARS 204.7103-1(a)(3) requires that the delivery schedule be expressly stated.

- SOLUTION: After issuance of a basic contract that uses delivery ARO or “as required”, contracting personnel should convert the ARO and “as required” dates to firm dates as soon as practicable. Use “as required” only when necessary.

**ISSUE 14: The Accounting and Appropriation Data, Block 12, on the cover page of the SF30 is frequently inaccurate.**

- PROBLEM: Block 12 may incorrectly state "No Change" is being made to the accounting data of the contract since the modification does not increase or decrease the contract amounts or funds although funds. However, funds are being moved between line/subline items.
- SOLUTION: On any modification which contains accounting or appropriation data FOR ANY REASON, Block 12 should state:

Modifications which do not contain a separate fiscal sheet shall state:

SEE THE LAST PARAGRAPH OF THE MODIFICATION.

Modifications or modifications containing a separate fiscal sheet shall state:

SEE ATTACHMENT A (FAD sheet).

The last paragraph of all modifications shall be a summary of all accounting changes made through the body of the modification in the following format completed as appropriate. This will be referred to as a "From-By-To" table; it should reflect the total funds of the line items addressed in the modification. The amounts listed in the obligation table "By" column should be the funds changed by the modification.

A. To change the amount obligated state:

"This table summarizes the items affected by this modification and the amounts Obligated to date:"

<u>Item</u>	<u>From</u>	<u>By</u>	<u>To</u>
0001	\$500,000	\$50,000	\$550,000
0002	\$500,000	\$(50,000)	\$450,000

B. To change the value of an item state:

"This table summarizes the value of the items affected by this modification:"

<u>Item</u>	<u>From</u>	<u>By</u>	<u>To</u>
0001	\$700,000	\$50,000	\$750,000
0002	\$700,000	\$(50,000)	\$650,000

**ISSUE 15: Citation of other Service's lines of accounting.**

- PROBLEM: Causes confusion since the other Services (Army, Air Force and Marines) use citations with different formats and lengths.
- SOLUTION: When using another Service's funds, cite the accounting citation in the body of the contract or modification (Section G), clearly labeled, rather than on the FADS. Do not force other Service's accounting lines into the Navy's format. Also, contracting personnel should ensure that FAD sheets:
  - include the phone and fax number of the person who signed the FAD sheet
  - include the date the funds will close for payment purposes, i.e., OPN funding closes for adjustment and payment purposes five years after it closes for obligation purposes which is three years, and
  - identify critical versus administrative fields.

Close coordination with your comptroller is necessary when using another Service's funds. Also, be sure to follow guidance contained in the Navy's simplified FAD sheet.

**ISSUE 16: Contractual documents have financial and accounting data dispersed throughout the contract and subsequent modifications, thus impairing DFAS input.**

- PROBLEM: DFAS payment personnel are not trained to search through contractual documents to find financial and accounting information. When financial and accounting data is dispersed throughout the contract and subsequent modifications, this information tends to be omitted during contract data entry into MOCAS. This omission causes problem disbursements to occur.
- SOLUTION: Financial and accounting data should be consolidated in one location in the contract, Section G. It should reflect: 1.) a delineation of contract line item numbers and subline item numbers, the accounting classification reference number (ACRN) and the long line of accounting and appropriation data associated with the ACRN, and 2.) obligated monetary amounts, including additions or subtractions to those amounts when appropriate.

**ISSUE 17: Accounting classification citations are entered on contracts without ACRNs.**

- **PROBLEM:** DFARS 204.7107(c)(2) requires the assignment of an ACRN to each separate line of accounting in a contract. DFARS states “In no case shall an ACRN apply to more than one accounting classification citation, nor shall more than one ACRN be assigned to one accounting classification citation.” Due to the requirement to assign a separate ACRN for each line of accounting, MOCAS has strict validations requiring an ACRN when contract data is input.
- **SOLUTION:** Contracting personnel should ensure that all contractual documents are in accordance with the regulations and contain all necessary accounting data IAW DFARS Part 204. When a DD Form 1716 is received by the issuing contracting office, a modification should be processed immediately to correct the error. This means the MOCAS system will not reflect any obligations or deobligations made by the contract or modification in question. Payments cannot be made on a contract that is not in MOCAS.

**ISSUE 18: Multiple ACRNs per contract line item (CLIN) or subline item (SLIN).**

- **PROBLEM:** CLINS funded by multiple ACRNs require manual payments by MOCAS since it is unable to automatically pay multi-funded CLINs. Manual payments are time consuming, more costly and present a higher opportunity for payment errors. Also, there is usually no clear indication of how funds are to be apportioned when making manual payments. This can cause payments to be made disproportionately and create funding shortages due to closed accounts.
- **SOLUTION:** There will only be one line of accounting and ACRN cited on each CLIN or SLIN, EXCEPT that multiple lines of accounting and ACRNs may be cited under a CLIN or SLIN when using Research and Development (R&D) funds (see DFARS 204.71).

A good rule of thumb is to avoid more than one ACRN per CLIN or SLIN unless the contract is R&D or unless there are very good reasons for having multiple ACRNs for each CLIN/SLIN. In that case, the contracting officer should ensure that there are detailed and easily understood payment instructions to the DFAS payment technicians in Section G of the contract for those CLINS and SLINS which have multiple ACRNs (see DFARS 204.7107(e)(3)).

It is advised to include the PCO’s name, email address and telephone number in the payment instructions so the DFAS technicians can contact them if there is a question or confusion.

When looking at a Financial Accounting Data Sheet, an ACRN would appear as highlighted below:

Act. Code	Reference Document Number	CLIN	SLIN	QTY	UNIT	ACRN	APPROPRIATION	SUBHEAD
A	N0002492AE21810	0001		1	ea.	AA	1721810	82P1

DFARS 204.7103-1(a)(4)(ii) - Criteria for multiple accounting classifications.

These are the only situations when multiple ACRNs are permitted.

DFARS 204.7104-1(a) - Criteria for establishing informational subline items.

If multiple ACRNs are used for a line item (IAW the above citation) then an informational subline item for each ACRN assigned to that line item must be established.

**ISSUE 19: Include most current Transportation Accounting Classification (TAC) clauses.**

- PROBLEM: Contracts frequently do not have the most current TAC code listed (some don't have any TAC codes listed). Additionally, if different services are involved, then there are different TAC codes and clauses that are required.
- SOLUTION: Ensure the most current TAC code is listed on the contract in Section G. Additionally, if other services monies are being used, then the service specific TAC code or Clause is required in Section G. Clearly identify the TAC code and/or clause.

**ISSUE 20: DFAS no longer pays the oldest money under a contract first. Additionally, the amount withheld is prorated across all ACRNs.**

- PROBLEM: Money may close before all the bills are paid.
- SOLUTION: The contracting officer must specify from which ACRN the amount withheld is to be taken. This information should be contained in Section G and be worded similar to the following:

"Amount Withheld: The entire amount withheld under this contract for the purpose of final contract adjustment and close out should be allotted to the most current ACRN under the contract."

**ISSUE 21: Occasionally, options for additional requirements and components don't have a separate CLIN from the basic requirement.**

- PROBLEM: Options which are not established under separate CLINs and SLINs confuse DFAS payment technicians.

- SOLUTION: Options for additional requirements and components should have a separate CLIN/SLIN from the basic requirements, even if the option is for additional quantities of the same item at the same unit price as the basic requirement. The price of contract changes or other enhancements (e.g., incorporation of engineering change proposals) may be reflected as a change to the price of applicable contract line items, provided the net effect of the price change is clearly identifiable as a revision to the financial accounting and appropriation data for that line item. Also, if the contract changes or enhancements are to be separately priced and separately billed, they must have a separate CLIN or SLIN.

**ISSUE 22: Contract clauses aren't consistently located in the same place in each contract. Contract clauses and special requirements are included in many different sections of the contract and not consolidated in one section.**

- PROBLEM: Contract clauses and special requirements may not be considered by DFAS payment personnel if they are included in many different sections of the contract and not consolidated in one section. The uniform contract format requires that clauses be placed in specific sections of the contract (Sections A - I). The proper section for a particular clause is provided in the FAR matrices (FAR 52.3). Not all buying offices adhere to the matrices.
- SOLUTION: Contracting personnel should ensure that contracts contain only those clauses which are applicable and the clauses are placed in the proper location per the FAR matrices. All special contract requirements or special clauses must be included in Section H of the contract (FAR 14.201-2(h)). Incorporation of special contract requirements as part of the contract specifications, statement of work, or in a contract work breakdown structure, is not permitted.

**ISSUE 23: Contract clauses need to be in a certain order.**

- PROBLEM: Clauses are not required to be in a specific order of precedence (e.g., flow-down from FAR, DFARS, Agency, to activity-unique) within a contract. Without ordering rules, it is more time-consuming to locate a particular clause within each section of the contract.
- SOLUTION: Whenever practicable, clause ordering within a contract should occur as follows:

Within each particular section of the contract or solicitation, the clauses included therein shall be inserted in the following order:

- Clauses incorporated by reference (see FAR 52.3)
- Clauses incorporated by full text.

Where there are multiple clauses incorporated by reference (and/or by full text) the clauses shall be inserted in the following order:

FAR clauses  
DFARS clauses  
Agency clauses

Where there are multiple FAR clauses incorporated by reference, the clauses shall be inserted in ascending numerical order.

**NOTE:\*\*** DFAS reports that Agency/nonstandard clauses, incorporated into the contract by reference, were difficult to obtain in full text. Contracting personnel should ensure that such clauses, in compliance with FAR 52.101(b)(2)(ii), are inserted in full text.

**ISSUE 24: The Electronic Funds Transfer (EFT) clause sometimes is not included in contracts.**

- **PROBLEM:** The Electronic Funds Transfer (EFT) clause is necessary for the timely and accurate payment of contractor invoices and vouchers.
- **SOLUTION:** Contracting personnel should ensure that this clause is inserted as prescribed by regulation (FAR 52-232-33).

**ISSUE 25: Electronic Invoicing Improves Payment Accuracy.**

- **PROBLEM:** Contractors that do not invoice electronically increase the chances of delayed or erroneous payments. Paper payment requests must be manually entered into MOCAS. Any manual input operation provides opportunities for error that can result in negative ULOs or unmatched disbursements.
- **SOLUTION:** Incorporate DFARS 252.232-7003, Electronic Submission of Payment Requests, into all new contracts.

**ISSUE 26: Central Contractor Registration (CCR) Registration Promotes Electronic Commerce.**

- **PROBLEM:** Contractors that are not actively registered in CCR cannot be paid electronically. This increases the Government's administrative expenses and increases the chances of lost checks. CCR registration also fulfills the requirement for the contractor to furnish a Taxpayer Identification Number (TIN).
- **SOLUTION:** Federal Acquisition Circular (FAC) 2001-16 amends the FAR to require contractor registration in the CCR prior to any award. Assure that contractors are registered in CCR before contract award. PCOs may use the DUNS number or, if applicable, the DUNS+4 number, to verify registration via

the Internet at <http://www.ccr.gov>; by calling toll-free: 1-888-227-2423, commercial: (269) 961-5757, or DSN: 932-5757; or as otherwise provided by agency procedures.

**ISSUE 27: Multiple Financing Methods on the Same Contract.**

- PROBLEM: Extending financing to contractors simultaneously under both progress payments and performance based payments (PBPs) not only violates FAR 32.1003(c); it can also weaken the Government's internal management controls over the payment and liquidation process, drive excessive manual effort, and increase the probability of problem disbursements.
- SOLUTION: Utilize only one method of financing at a time on contracts. Performance based payments are the preferred form of financing. It is also possible to convert the financing on existing contracts from progress payments to performance based payments. More information on the use of performance based payments is posted at: <http://www.acq.osd.mil/dpap/Docs/PBPGuideNov2001.pdf>.

**ISSUE 28: Performance Based Payment (PBP) Provisions that blur the difference between Financing and Delivery Payments invite liquidation errors and problem disbursements.**

- PROBLEM: Sometimes contracts contain lists of PBP events that include deliverable products as well as true events; the payments associated with these events also often exceed the 90% financing limit stated in FAR 32.1004(b)(2). Provisions such as this are often the result of the Contracting Officer attempting to provide for liquidations of PBPs. However, MOCAS already has a feature that automatically liquidates financing payments as long as the contract makes clear distinctions between financing and deliverable payments. Provisions as described above cause MOCAS to malfunction. This can lead to liquidation errors and erroneous posting of payments.
- SOLUTION: Create event schedules that contain actions that are integral and necessary to contract execution, but do not include the actual delivery of product. Also, the total value of these events must not exceed 90% of the contract value if the PBPs are on a whole contract basis or 90% of the deliverable item value if PBPs are on a deliverable item basis. It is sufficient to state the liquidation percentage in the contract in order to provide liquidation instructions.

**ISSUE 29: Contract periods of performance are too long.**

- PROBLEM: Funds often close before contracts are closed making final payment difficult.

- SOLUTION: In fixed price contracts with option items or in cases of combined development and follow-on initial production, a clause similar to the following should be inserted in Section G to allow for various items to be "closed" as they are completed:

"Additional Requirements for Progress Billings, Invoices, Liquidation and Payments."

- This contract requirement is intended to allow the contractor to submit invoices for separate "groups" of line items (CLINs or SLINs), listed below, for progress payment and final billing purposes. A final invoice may be submitted for each "group" rather than completion of the entire contract.
- The contractor may, in accordance with the Cost Accounting Standards and other requirements of this contract, segregate costs for separate "groups" of production systems, provisioned item orders and engineering services which have been or will be awarded under this contract. Accordingly, the contractor shall submit the following, by CLIN and total contract, with each request for progress payment or shipment invoice: a reconciliation showing the amount of progress billings and payments, shipment invoice billings and payments, engineering services payments and unliquidated progress payments, for the following "group" of line items:

<u>CLINs</u>	<u>Description</u>
0001-0003 and 0011-0014	Initial 10 systems
0015, 0016 and 0020-0022	Follow-on 6 systems
0023	Follow-on 5 systems
0010	Provisioned Items Order
0004-0007, 0017-0019	Engineering Services and Support
0024 and 0025	

- Progress payments shall be based on the total amount shown on the reconciliation (or the amount concurred to by the ACO if different than the reconciled amount indicated by the contractor) including all progress payments due and owed under all of the above "groups" of CLINs, excluding engineering services. Progress billings shall not be submitted and progress payments shall not be made for engineering services. Invoice payments shall be liquidated against the current unliquidated progress payment account balance as shown on the reconciliation (or the amount concurred to by the ACO if different than the reconciled amount indicated by the Contractor). Each invoice shall be liquidated against the unliquidated progress payment balance that applies solely to the special "group" to which the CLIN belongs. Upon full liquidation of the unliquidated progress payment account applicable to any of the above CLIN "groups", invoices for items within that "group" shall be paid at 100% of the CLIN "group" amount

provided that an unconditional DD Form 250 has been executed for the entire CLIN "group".

**ISSUE 30: Payment method is unclear for service line items.**

PROBLEM: Service line items are usually for one lot and may include performance for an extended period of time such as one year. These service line items may be billed monthly, however the terms of payment are not clear or expressed in the contract.

SOLUTION: The contract should clearly state the payment terms. If the contractor is permitted to bill monthly for the services, SLINs with a DD Form 250 requirement may provide an efficient method for accomplishing payment.

**ISSUE 31: DFAS prorates many payments, unless otherwise specified in the contract.**

PROBLEM: Payments prorated over all contract line items may not be desirable in certain contracts.

SOLUTION: For contracts where proration is not desired, payment instructions must be clearly explained by ACRN in Section G of the contract.

**(See Regulatory Clause DFARS 204.7107(e)(3) – Requirement for payment instructions on multi-funded CLINS on page 103)**

**ISSUE 32: Contractors sometimes use commercial invoices rather than Bureau Voucher Numbers (BVNs), SF 1034, for cost type CLINs/SLINs.**

PROBLEM: When contractors use commercial invoices rather than Bureau Voucher Numbers (BVNs), SF 1034, for cost type CLINs/SLINs, DFAS payment personnel look for fixed priced line items to pay instead of cost type line items.

SOLUTION: This statement should appear in Section G for cost type CLINs/SLINs: "All cost type items must be billed on BVNs, SF 1034 following instructions for submission of invoices." **Commercial Invoices versus BVN.**

**ISSUE 33: Contractors are required to submit invoices by ACRN.**

PROBLEM: Contractors frequently do not cite ACRNs on invoice they submit. This confuses DFAS when they cannot determine which ACRNs to allocate the payment to.

SOLUTION: Contracting personnel should ensure that a billing clause is contained in Section G of the contract which states that the Government shall

reject any invoices submitted for payment which do not cite the proper ACRN(s).

# TAB E: DD1423 - CONTRACT DATA REQUIREMENTS LIST

CONTRACT DATA REQUIREMENTS LIST												Form Approved OMB No. 0704-0188		
The public reporting burden for this collection of information is estimated to average 440 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (0704-0188), 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. Please DO NOT RETURN your form to the above address. Send completed form to the Government Issuing Contracting Officer for the Contract/PR No. listed in Block E.
