(a) If before contract award the contracting officer considers that a set-aside is detrimental to the public interest (e.g., because of unreasonable prices), the contracting officer shall withdraw the set-aside and, if desired, complete the acquisition by advertising or negotiation, as appropriate.

(b) The contracting officer shall include in the contract file a record of the reasons for any withdrawal of a set-aside.

20.206 Contract authority.

Contracts for set-asides made under this Part 20 shall cite the negotiation authority specified at 15.201.

SUBPART 20.3—LABOR SURPLUS AREA SUBCONTRACTING PROGRAM

20.301 General.

(a) In contracts that exceed the appropriate small purchase limitation in Part 13 but do not exceed $500,000, contractors are required to use their best efforts to subcontract with LSA concerns when such subcontracting is (1) consistent with the efficient performance of the contract and (2) at prices no higher than are obtainable elsewhere.

(b) In contracts that may exceed $500,000, contractors are required to take affirmative actions to subcontract with LSA concerns when such subcontracting is (1) consistent with efficient performance of the contract and (2) at prices no higher than are obtainable elsewhere. Contractors are also required to impose similar responsibilities on major subcontractors.

20.302 Contract clauses.

(a) The contracting officer shall insert the clause at 52.220-3, Utilization of Labor Surplus Area Concerns, in solicitations and contracts, when it is estimated that the contract will exceed the appropriate small purchase limitation in Part 13, except—

(1) Contracts with foreign contractors that, including all related subcontracts, are to be performed entirely outside the United States, its territories and possessions, Puerto Rico, and the Trust Territory of the Pacific Islands; and

(2) Contracts for services that are personal in nature.

(b) The contracting officer shall insert the clause at 52.220-4, Labor Surplus Area Subcontracting Program, in solicitations and contracts that (1) may exceed $500,000, (2) contain the clause at 52.220-3, Utilization of Labor Surplus Area Concerns, and (3) in the opinion of the contracting officer, offer substantial subcontracting possibilities. In addition, the contracting officer shall urge contractors that will receive negotiated contracts that may not exceed $500,000 but that meet the criteria in (2) and (3) above, to accept the clause at 52.220-4.

20.303 Review of subcontracting program.

(a) Agencies shall review the adequacy of the contractor's LSA subcontracting program through individual agency reviews or cross-servicing arrangements (see Subpart 42.1 Interagency Contract Administration and Audit Services).

(b) To carry out the Government's objectives, contractors and subcontractors having LSA subcontracting programs must be informed of (1) the Government's evaluation of their programs, (2) any deficiencies, and (3) any areas of outstanding achievement. The contracting officer shall document, for use in evaluating future offers, any evaluation and remarks to the contractor, including areas of suggested improvement and areas where the contractor has exceeded contractual requirements.

PART 21—[RESERVED]

PART 22—APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

22.000 Scope of part.

This part—

(a) Deals with general policies regarding contractor labor relations as they pertain to the acquisition process;

(b) Prescribes contracting policy and procedures for implementing pertinent labor laws; and

(c) Prescribes contract clauses with respect to each pertinent labor law.

SUBPART 22.1—BASIC LABOR POLICIES

22.101 Labor relations.

22.101-1 General.

(a) Agencies shall maintain sound relations with industry and labor to ensure (1) prompt receipt of information involving labor relations that may adversely affect the Government acquisition process and (2) that the Government obtains needed supplies and services without delay. All matters regarding labor relations shall be handled in accordance with agency procedures.

(b) Agencies shall remain impartial concerning any dispute between labor and contractor management and not undertake the conciliation, mediation, or arbitration of a labor dispute. To the extent practicable, agencies should ensure that the parties to the dispute use all available methods for resolving the dispute, including the services of the National Labor Relations Board, Federal Mediation and Conciliation Service, the National Mediation Board and other appropriate Federal, State, local, or private agencies.

(c) Agencies should, when practicable, exchange information concerning labor matters with other affected agencies to ensure a uniform Government approach concerning a particular plant or labor-management dispute.

(d) Agencies should take other actions concerning labor relations problems to the extent consistent with their acquisition responsibilities. For example, agencies should—

(1) Notify the agency responsible for conciliation, mediation, arbitration, or other related action of the existence of any labor dispute affecting or threatening to affect agency acquisition programs;

(2) Furnish to the parties to a dispute factual information pertinent to the dispute's potential or actual adverse impact on these programs, to the extent consistent with security regulations; and

(3) Seek a voluntary agreement between management and labor, notwithstanding the continuance of the dispute, to permit uninterrupted acquisition of supplies and services. This shall only be done, however, if the attempt to obtain voluntary agreement does not involve the agency in the merits of the dispute and only after consultation with the agency responsible for conciliation, mediation, arbitration, or other related action.

(e) The head of the contracting activity may designate programs or requirements for which it is necessary that contractors be required to notify the Government of actual or potential labor disputes that are delaying or threaten to delay the timely contract performance (see 22.103-5(a)).

22.101-2 Contract pricing and administration.

(a) Contractor labor policies and compensation practices, whether or not included in labor-management agreements, are not acceptable bases for allowing costs in cost-reimbursement contracts or for recognition of costs in pricing fixed-price contracts if they result in unreasonable costs to the Government. For a discussion of allowable costs resulting from labor-management agreements, see 31.205-6(c).

(b) Labor disputes may cause work stoppages that delay the performance of Government contracts. Contracting officers shall impress upon contractors that each contractor shall be held accountable for reasonably avoidable delays. Standard contract clauses dealing with default, excusable delays, etc., do not relieve contractors or subcontractors from the responsibility for delays that are within the contractors' or their subcontractors' control. A delay caused by a strike that the contractor or subcontractor could not reasonably prevent can be excused; however, it cannot be excused beyond the point at which a reasonably diligent contractor or subcontractor could have acted to end the strike by actions such as—

(1) Filing a charge with the National Labor Relations Board to permit the Board to seek injunctive relief in court.

(2) Using other available Government procedures.

(3) Using private boards or organizations to settle disputes.

(c) Strikes normally result in changing patterns of cost incurrence and therefore may have an impact on the allowability of costs for cost-reimbursement contracts or for recognition of costs in pricing fixed-price contracts. Certain costs may increase because of strikes; e.g., guard services and attorney's fees. Other costs incurred during a strike may not fluctuate (e.g., "fixed costs" such as rent and depreciation), but because of reduced production, their proportion of the unit cost of items produced increases. All costs incurred during strikes shall be carefully examined to ensure recognition of only those costs necessary for performing the contract in accordance with the Government's essential interest.

(d) If during a labor dispute, the inspectors' safety is not endangered, the normal functions of inspection at the

plant of a Government contractor shall be continued without regard to the existence of a labor dispute, strike, or picket line.

22.101-3 Reporting labor disputes.

The office administering the contract shall report, in accordance with agency procedures, any potential or actual labor disputes that may interfere with performing any contracts under its cognizance. If a contract contains the clause at 52.222-1, Notice to the Government of Labor Disputes, the contractor also must report any actual or potential dispute that may delay contract performance.

22.101-4 Removal of items from contractors' facilities affected by work stoppages.

(a) Items shall be removed from contractors' facilities affected by work stoppages in accordance with agency procedures. Agency procedures should allow for the following:

(1) Determine whether removal of items is in the Government's interest. Normally the determining factor is the critical needs of an agency program.

(2) Attempt to arrange with the contractor and the union representative involved their approval of the shipment of urgently required items.

(3) Obtain appropriate approvals from within the agency.

(4) Determine who will remove the items from the plant(s) involved.

(b) Avoid the use or appearance of force and prevent incidents that might detrimentally affect labor-management relations.

(c) When two or more agencies' requirements are or may become involved in the removal of items, the contract administration office shall ensure that the necessary coordination is accomplished.

22.102 Federal and State labor requirements.

22.102-1 Policy.

Agencies shall cooperate, and encourage contractors to cooperate, with Federal and State agencies responsible for enforcing labor requirements concerning matters such as—

(a) Safety;

(b) Health and sanitation;

(c) Maximum hours and minimum wages;

(d) Equal employment opportunity;

(e) Child and convict labor;

(f) Age discrimination;

(g) Disabled and Vietnam veteran employment; and

(h) Employment of the handicapped.

22.102-2 Administration.

(a) Agencies shall cooperate with, and encourage contractors to use to the fullest extent practicable, the United States Employment Service (USES) and its affiliated local State Employment Service offices in meeting contractors' labor requirements. These requirements may be to staff new or expanding plant facilities, including requirements for workers in all occupations and skills from local labor market areas or through the Federal-State employment clearance system.

(b) Local State employment offices are operated throughout the United States, Puerto Rico, Guam, and the Virgin Islands. In addition to providing recruitment assistance to contractors, cooperation with the local State Employment Service offices will further the national program of maintaining continuous assessment of manpower requirements and resources on a national and local basis.

22.103 Overtime.

22.103-1 Definitions.

"Normal workweek" and "normal workday," as used in this subpart, means, generally, a workweek of 40 hours and a workday of 8 hours, respectively. Outside the United States, its possessions, and Puerto Rico, a workweek longer than 40 hours or a workday longer than 8 hours shall be considered normal if (a) the workweek or workday does not exceed the norm for the area, as determined by local custom, tradition, or law; and (b) the hours worked in excess of 40 in the workweek, or 8 in the workday, are not compensated at a premium rate of pay.

"Overtime" means time worked by a contractor's employee in excess of the employee's normal workweek or workday.

"Overtime premium" means the difference between the contractor's regular rate of pay to an employee for the shift involved and the higher rate paid for overtime. It does not include shift premium.

"Shift premium" means the difference between the contractor's regular rate of pay to an employee and the higher rate paid for extra-pay-shift work.

22.103-2 Policy.

Contractors shall perform all contracts, so far as practicable, without using overtime, particularly as a regular employment practice, except when lower overall costs to the Government will result or when it is necessary to meet urgent program needs. Any approved overtime, extra-pay shifts, and multishifts should be scheduled to achieve these objectives.

22.103-3 Procedures.

(a) Solicitations normally shall not specify delivery or performance schedules that may require overtime at Government expense.

(b) In negotiating contracts, contracting officers should, consistent with the Government's needs, attempt to (1) ascertain the extent that offers are based on the payment of overtime and shift premiums and (2) negotiate contract prices or estimated costs without these premiums or obtain the requirement from other sources.

(c) When it becomes apparent during negotiations of applicable contracts (see 22.103-5(b)) that overtime will be required in contract performance, the contracting officer shall secure from the contractor a request for all overtime to be used during the life of the contract, to the extent that the overtime can be estimated with reasonable certainty. The contractor's request shall contain the information required by paragraph (b) of the clause at 52.222-2, Payment for Overtime Premiums.

22.103-4 Approvals.

(a) The contracting officer shall review the contractor's request for overtime. Approval of the use of overtime may be granted by an agency approving official after determining in writing that overtime is necessary to—

(1) Meet essential delivery or performance schedules;

(2) Make up for delays beyond the control and without the fault or negligence of the contractor; or

(3) Eliminate foreseeable extended production bottlenecks that cannot be eliminated in any other way.

(b) Approval by the designated official of use and total dollar amount of overtime is required before inclusion of an amount in paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums. This clause is to be inserted in cost-reimbursement contracts over $100,000, except for those exempted under 22.103-5(b).

(c) Contracting officer approval of payment of overtime premiums is required for time-and-materials and labor-hour contracts (see paragraph (a)(3) of the clause at 52.232-7, Payments Under Time-and-Materials and Labor-Hour Contracts).

(d) No approvals are required for paying overtime premiums under other types of contracts.

(e) Approvals by the agency approving official (see 22.103-4(a)) may be for an individual contract, project, program, plant, division, or company, as practical.

(f) During contract performance, contractor requests for overtime exceeding the amount authorized by paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums, shall be submitted as stated in paragraph (b) of the clause to the office administering the contract. That office will review the request and if it approves, send the request to the contracting officer. If the contracting officer determines that the requested overtime should be approved in whole or in part, the contracting officer shall request the approval of the agency's designated approving official and modify paragraph (a) of the clause to reflect any approval.

(g) Overtime premiums at Government expense should not be approved when the contractor is already obligated, without the right to additional compensation, to meet the required delivery date.

(h) When the use of overtime is authorized under a contract, the office administering the contract and the auditor should periodically review the use of overtime to ensure that it is allowable in accordance with the criteria in Part 31. Only overtime premiums for work in those departments, sections, etc., of the contractor's plant that have been individually evaluated and the necessity for overtime confirmed shall be considered for approval.

(i) Approvals for using overtime shall ordinarily be prospective, but, if justified by emergency circumstances, approvals may be retroactive.

22.103-5 Contract clauses.

(a) The contracting officer shall insert the clause 52.222-1, Notice to the Government of Labor Disputes, in solicitations and contracts that involve programs or requirements that have been designated under 22.101-1(e).

(b) The contracting officer shall include the clause at 52.222-2, Payment for Overtime Premiums, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract amount is expected to be over $100,000; unless (a) a cost-reimbursement contract for operation of vessels is contemplated, or (b) a cost-plus-incentive-fee contract that will provide a swing from the target fee of at least plus or minus 3 percent and a contractor's share of at least 10 percent is contemplated.

SUBPART 22.2—CONVICT LABOR

22.201 General.

The policies and procedures controlling the employment of prison inmates in the performance of Government contracts are based on the following:

(a) Public Law 89-176 (18 U.S.C. 4082(c)(2)), that empowers the Attorney General to authorize Federal prisoners to work at paid employment in the community during their terms of imprisonment under conditions that protect against both the exploitation of convict labor and unfair competition with free labor.

(b) Executive Order 11755, December 29, 1973, that states: "The development of the occupational and educational skills of prison inmates is essential to their rehabilitation and to their ability to make an effective return to free society. Meaningful employment serves to develop those skills. It is also true, however, that care must be exercised to avoid either the exploitation of convict labor or any unfair competition between convict labor and free labor in the production of goods and services." The Executive order does not prohibit the contractor, in performing the contract, from employing—

(1) Persons on parole or probation;

(2) Persons who have been pardoned or who have served their terms;

(3) Federal prisoners authorized by the Attorney General under 18 U.S.C. 4082(c)(2) to work at paid employment in the community during the term of their imprisonment, if—

(i) The worker is paid or is in an approved work training program on a voluntary basis;

(ii) Representatives of local union central bodies or similar labor union organizations have been consulted;

(iii) Paid employment will not (A) result in the displacement of employed workers; (B) be applied in skills, crafts, or trades in which there is a surplus of available gainful labor in the locality; or (C) impair existing contracts for services; and

(iv) The rates of pay and other conditions of employment will not be less than those for work of a similar nature in the locality where the work is being performed; or

(4) Nonfederal prisoners under the conditions in 22.201(b) above if the Attorney General has certified that the work-release laws or regulations of the jurisdiction involved conform to the requirements of Executive Order 11755. The Executive order provides that, after notice and opportunity for hearing, the Attorney General shall revoke the certification if it is found that the jurisdiction's work-release program is not being conducted in conformance with the order or with its intention or purpose.

22.202 Contract clause.

The contracting officer shall insert the clause at 52.222-3, Convict Labor, in solicitations and contracts when the contract is to be performed in any State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, or the Trust Territory of the Pacific Islands; unless—

(a) The contract will be subject to the Walsh-Healey Public Contracts Act (see Subpart 22.6), which contains a separate prohibition against the employment of convict labor;

(b) The supplies or services are to be purchased from Federal Prison Industries, Inc. (see Subpart 8.6); or

(c) The acquisition involves the purchase, from any State prison, of finished supplies that may be secured in the open market or from existing stocks, as distinguished from supplies requiring special fabrication.

SUBPART 22.3—CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

22.300 Scope of subpart.

This subpart prescribes policies and procedures for applying the requirements of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333) (the Act) to contracts, other than construction contracts (for construction contracts, see Subpart 22.4), that may require or involve laborers or mechanics. In this subpart, the term "laborers or mechanics" includes apprentices, trainees, watchmen, guards, and workmen, other than seamen who perform dredging or rock excavation services in rivers or harbors.

22.301 Statutory requirement.

The Act requires that certain contracts contain a clause specifying that no laborer or mechanic doing any part of the work contemplated by the contract shall be required or permitted to work more than 8 hours in any calendar day or 40 hours in any workweek unless paid for all such overtime hours at not less than 1 ½ times the basic rate of pay.

22.302 Computation of overtime and liquidated damages.

When the hours worked during a single workweek by a laborer or mechanic exceed 8 per calendar day and 40 per workweek, the hours in excess of 8 per day and 40 per workweek shall be computed separately. The computation resulting in the greater number of overtime hours shall be used to calculate the overtime compensation

due the employee. If the calculation discloses underpayments, the method used to determine the underpayments shall also be used to determine liquidated damages (see 52.222-4). If both methods result in the same amount of underpayment, liquidated damages shall be computed on the number of calendar days during which work in excess of 8 hours was performed (for waiver or adjustment of liquidated damages, use the procedures relating to construction contracts in Subpart 22.4).

22.303 Administration and enforcement.

The procedures and reports required for construction contracts in Subpart 22.4 also apply to investigations of alleged violations of the Act on other than construction contracts.

22.304 Variations, tolerances, and exemptions.

The Secretary of Labor, under section 331 of the Act, upon individual initiative or at the request of any Federal agency, may provide reasonable limitations and allow variations, tolerances, and exemptions to and from any or all provisions of the Act (see 29 CFR 5.14(a)).

22.305 Contract clauses.

(a) The contracting officer shall insert the clause at 52.222-4, Contract Work Hours and Safety Standards Act—Overtime Compensation—General, in solicitations and contracts (including, for this purpose, basic ordering and blanket purchase agreements) when the contract may require or involve the employment of laborers or mechanics, helpers, apprentices, trainees, watchmen, guards, firefighters, or fireguards. However, the contracting officer shall not include the clause in solicitations and contracts if it is contemplated that the contract will be in one of the following categories:

(1) Contracts, other than construction contracts, of $2,500 or less (for construction contracts see Subpart 22.4). Indefinite quantity or requirements contracts, including basic ordering agreements and blanket purchase agreements are exempt, if it can be determined in advance that the aggregate amount of all orders estimated to be placed thereunder for 1 year after the effective date of the agreement will not exceed $10,000. A determination shall be made annually thereafter if the contract or agreement is extended, and the contract or agreement modified if necessary.

(2) Contracts for supplies, materials, or articles ordinarily available in the open market.

(3) Contracts for transportation by land, air, or water, or for the transmission of intelligence.

(4) Contracts to be performed solely within a foreign country or within a territory under United States jurisdiction other than a State, the District of Columbia, Puerto Rico, the Virgin Islands, Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331), American Samoa, Guam, Wake Island, Eniwetok Atoll, Kwajalein Atoll, and Johnston Island.

(5) Contracts requiring work to be done solely in accordance with the Walsh-Healey Public Contracts Act (see Subpart 22.6).

(6) Contracts (or portions of contracts) for supplies in connection with which any required services are merely incidental to the contract and do not require substantial employment of laborers or mechanics.

(7) Any other contracts exempt under regulations of the Secretary of Labor (29 CFR 5.14).

(b) The contracting officer shall insert the clause at 52.222-5, Contract Work Hours and Safety Standards Act—Overtime Compensation—Firefighters and Fireguards, in solicitations and contracts if (1) firefighters or fireguards are to be employed and (2) the clause in paragraph (a) above is required.

SUBPART 22.4—LABOR STANDARDS FOR CONTRACTS INVOLVING CONSTRUCTION

22.400 Scope of subpart.

This subpart implements the statutes for labor standards requirements for contracts over $2,000 involving construction of only public buildings and public works (see the definition of construction in 36.102). Labor relations requirements prescribed in other subparts of Part 22 may also apply. The balance of this subpart (and the related solicitation provisions and contract clauses) has been reserved, pending the development of appropriate revisions resulting from recent regulatory changes.

SUBPART 22.5—[RESERVED]

SUBPART 22.6—WALSH-HEALEY PUBLIC CONTRACTS ACT

22.601 Definitions.

"Assembly," as used in this subpart, means the piecing or bringing together of various interdependent or interrelated parts or components so as to make an operable whole or unit.

"Manufacturer," as used in this subpart, means a person that owns, operates, or maintains a factory or establishment that produces on the premises the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.

"Person," as used in this subpart, includes associations, corporations, legal representatives, trustees, trustees in bankruptcy, or receivers.

"Regular dealer," as used in this subpart, means a person that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles, or equipment of the general character described by the specifications and required under the contract are bought, kept in stock, and sold to the public in the usual course of business.

22.602 Statutory requirements.

Except for the exemptions at 22.604, all contracts subject to the Walsh-Healey Public Contracts Act (the Act) (41 U.S.C. 35-45) and entered into by any executive department, independent establishment, or other agency or instrumentality of the United States, or by the District of Columbia, or by any corporation (all the stock of which is beneficially owned by the United States) for the manufacture or furnishing of materials, supplies, articles, and equipment (referred to in this subpart as supplies) in any amount exceeding $10,000, shall—

(a) Be with manufacturers or regular dealers in the supplies manufactured or used in performing the contract; and

(b) Include or incorporate by reference the representation that the contractor is a manufacturer or a regular dealer of the supplies offered, and the stipulations required by the Act pertaining to such matters as minimum wages, maximum hours, child labor, convict labor, and safe and sanitary working conditions.

22.603 Applicability.

The requirements in 22.602 apply to contracts (including for this purpose, indefinite-delivery contracts, basic ordering agreements, and blanket purchase agreements) and subcontracts under Section 8(a) of the Small Business Act, for the manufacture or furnishing of supplies that are to be performed within the United States, Puerto Rico, or the Virgin Islands, and which exceed or may exceed $10,000, unless exempted under 22.604.

22.604 Exemptions.

22.604-1 Statutory exemptions.

Contracts for acquisition of the following supplies are exempt from the Act:

(a) Any item in those situations where the contracting officer is authorized by the express language of a statute to purchase "in the open market" generally; or where a specific purchase is negotiated under 15.202 in circumstances where immediate delivery is required by the public exigency.

(b) Perishables, including dairy, livestock, and nursery products.

(c) Agricultural or farm products processed for first sale by the original producers.

(d) Agricultural commodities or the products thereof purchased under contract by the Secretary of Agriculture.

22.604-2 Regulatory exemptions.

(a) Contracts for the following acquisitions are fully exempt from the Act (see 41 CFR 50-201.603):

(1) Public utility services.

(2) Supplies manufactured outside the United States, Puerto Rico, or the Virgin Islands.

(3) Purchases against the account of a defaulting contractor where the stipulations of the Act were not included in the defaulted contract.

(4) Newspapers, magazines, or periodicals, contracted for with sales agents or publisher representatives, which are to be delivered by the publishers thereof.

(b) Contracts of the following type are partially exempt from the Act (see 41 CFR 50-201.604):

(1) Contracts with certain coal dealers.

(2) Certain commodity exchange contracts.

(3) Contracts with certain export merchants.

(4) Contracts with small business defense production pools, and small business research and development pools.

(5) Contracts with public utilities for the acquisition of certain uranium products.

(c) (1) Upon the request of the agency head, the Secretary of Labor may exempt specific contracts or classes of contracts from the inclusion or application of one or more of the Act's stipulations; *provided*, that the request includes a finding by the agency head stating the reasons why the conduct of Government business will be seriously impaired unless the exemption is granted.

(2) Those requests for exemption that relate solely to safety and health standards shall be transmitted to the Assistant Secretary for Occupational Safety and Health, U.S. Department of Labor, Washington, DC 20210. All other requests shall be transmitted to the Administrator of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210.

22.605 Rulings and interpretations of the Act.

(a) As authorized by the Act, the Secretary of Labor has issued rulings and interpretations concerning the administration of the Act (see 41 CFR 50-206). The substance of certain rulings and interpretations is as follows:

(1) If a contract for $10,000 or less is subsequently modified to exceed $10,000, the contract becomes subject to the Act for work performed after the date of the modification.

(2) If a contract for more than $10,000 is subsequently modified by mutual agreement to $10,000 or less, the contract is not subject to the Act for work performed after the date of the modification.

(3) If a contract awarded to a prime contractor contains a provision whereby the prime contractor is made an agent of the Government, the prime contractor is required to include the stipulations of the Act in contracts in excess of $10,000 awarded for and on behalf of the Government for supplies that are to be used in the construction and equipment of Government facilities.

(4) If a contract subject to the Act is awarded to a contractor operating Government-owned facilities, the stipulations of the Act affect the employees of that contractor the same as employees of contractors operating privately owned facilities.

(5) Indefinite-delivery contracts, including basic ordering agreements and blanket purchase agreements, are subject to the Act unless it can be determined in advance that the aggregate amount of all orders estimated to be placed thereunder for 1 year after the effective date of the agreement will not exceed $10,000. A determination shall be made annually thereafter if the contract or agreement is extended, and the contract or agreement modified if necessary.

(b) Reserved.

22.606 Eligibility as a manufacturer or regular dealer.

22.606-1 Manufacturer.

(a) An offeror qualifies as a manufacturer under the criteria in 41 CFR 50-206.51 and 50-206.52 if it shows before the award that it is—

(1) An established manufacturer—

(i) Of the particular supplies of the general character sought by the Government; and

(ii) That has a plant, equipment, and personnel to manufacture on the premises the items called for under the contract; or

(2) Newly entering into a manufacturing activity and has made all necessary arrangements and commitments for—

(i) Manufacturing space;

(ii) Equipment; and

(iii) Personnel to perform on its own premises the manufacturing operations required for the fulfillment of the contract.

(b) An offeror that is newly entering into a manufacturing activity must show under the criteria in 41 CFR 50-206.51(b) that the offeror—

(1) Has made written, legally binding arrangements or commitments to enter a manufacturing business. (An offeror should not be barred from receiving the award because it has not yet done any manufacturing, even if the arrangements and commitments are contingent upon the award of a Government contract);

(2) Has not been set up solely to produce on a Government contract and that its operations will not be terminated upon completion of that contract;

(3) Has established arrangements for production on a continuing basis of the particular materials, supplies, or equipment desired by the Government; and

(4) Has documentation to prove that necessary written, legally binding arrangements or commitments have been met before award.

(c) Every offeror must qualify as a manufacturer in its own rights under the criteria in 41 CFR 50-206.51(e) and (f), and must show the following:

(1) That it is currently capable of manufacturing on its premises the supplies called for under the contract or, if it is newly entering into manufacturing, that it has made written, legally binding commitments before award to enable it to produce such supplies on its premises. (The use, rent, or sharing of the manufacturing or producing establishment of another legal entity, i.e., arrangements for equipment, personnel, or space on a time-and-material or "as needed" basis, does not meet this requirement).

(2) That all evidence documenting the making of necessary prior arrangements or definite commitments is in the name of the offeror.

(d) Generally, an offeror that performs assembly operations as described in 41 CFR 50-206.52 may be considered a manufacturer, if it performs more than minimal operations, such as packaging only, upon the end item to be supplied to the Government, and it—

(1) Produces end items on its premises by assembling component parts using machines, tools, and workers, and the assembly constitutes substantial or significant fabrication or production of the end item; or

(2) Has the facilities to produce on its premises a significant portion of the required component parts needed for the end item for which the Government contracted even if it only performs assembly operations under a particular acquisition.

(e) An offeror's eligibility status as a prime contractor or a subcontractor on other contracts subject to the Act is not determinative evidence of the offeror's present eligibility as a manufacturer (see 41 CFR 50-206.51(g)).

22.606-2 Regular dealer.

(a) An offeror qualifies as a regular dealer under the criteria in 41 CFR 50-206.53 if it shows before the award that it is a regular dealer dealing in the particular supplies of the general character offered to the Government. Included in the criteria in 41 CFR 50-206.53 which an offeror must meet are the following:

(1) It has an establishment, or a leased or assigned space, in which it regularly maintains a stock of supplies in which it claims to be a dealer. If the space is in a public warehouse, it must be maintained on a continuing and not on a demand basis.

(2) The stock maintained is a true inventory from which sales are made. This requirement is not satisfied by (i) a stock of sample or display items, (ii) a stock consisting of surplus items remaining from prior orders, (iii) stock unrelated to the supplies offered, or (iv) a stock maintained primarily for the purpose of token compliance with the Act from which few, if any, sales are made.

(3) The supplies stocked are of the same general character as those to be supplied under the contract. To be of the same general character, the items to be supplied must be either identical with those in stock or be supplies for which dealers in the same line of business would be an obvious source.

(4) Sales are made regularly from stock on a recurring basis, are not only occasional, or constitute an exception to the usual operations of the business. The proportion of sales from stock that will satisfy this requirement will depend upon the character of the business.

(5) Sales are made regularly in the usual course of business to the public; i.e., to purchasers other than Federal, State, or local Government agencies. This requirement is not satisfied if the contractor merely seeks to sell to the public but has not yet made the sales. The number and amount of sales that must be made to the public will necessarily vary with the amount of total sales and the nature of the business.

(6) The business is an established and going concern. It is not sufficient to show that arrangements have been made to set up such a business.

(b) For certain specific products (lumber and timber products, machine tools, hay, grain, feed or straw, raw cotton, green coffee, petroleum, agricultural liming materials, tea, raw or unmanufactured cotton linters, certain uranium products, and used automatic data processing equipment), there are alternate qualifications for regular dealers in which the dealer need not physically maintain a stock. The requirements under the alternative qualifications are in 41 CFR 50-201.101(a)(2) and 50-201.604.

(c) Coal dealers are exempted from the regular dealer requirements if they meet the terms and conditions prescribed by the Secretary of Labor in 41 CFR 50-201.604(a). If these terms and conditions are not met, coal dealers must meet the requirements in this subsection.

22.607 Agents.

A "manufacturer" or "regular dealer" may bid, negotiate, and contract through an authorized agent if the agency is disclosed and the agent acts and contracts in the name of the principal (see Subpart 3.4 Contingent Fees).

22.608 Procedures.

22.608-1 Offeror's representation.

For each solicitation that may result in a contract subject to the Act, the contracting officer shall obtain a representation from the prospective contractor that it is a manufacturer or regular dealer of the supplies offered (see 22.610(a)).

22.608-2 Determination of eligibility.

(a) The responsibility for applying the eligibility requirements set forth in 22.606 rests in the first instance with the contracting officer.

(b) The contracting officer shall investigate and determine the eligibility of the offeror and not rely on the offeror's representation that it is a manufacturer or regular dealer in the following circumstances:

(1) The contracting officer has knowledge that raises the question of the validity of the representation.

(2) A protest has been lodged pursuant to 22.608-3.

(3) The offeror that is in line for contract award has not previously been awarded a contract subject to the Act by the individual acquisition office.

(4) A preaward investigation or survey of the offeror's operations is otherwise made to determine the technical and production capability, plant facilities and equipment, and subcontracting and labor resources of the offeror.

(c) The Department of Labor does not conduct preaward investigations nor render final determinations of eligibility until the contracting officer initially has determined whether the requirements have been met and any negative determinations involving small businesses have been confirmed by the Small Business Administration.

(d) If the offeror's representation is not accepted, the contracting officer shall make a determination as to whether all of the applicable eligibility requirements have been met by obtaining and considering all available factual evidence including—

(1) Preaward surveys;

(2) Experience of other acquisition offices;

(3) Information available from the cognizant contract administration office;

(4) Information provided directly by the offeror; and

(5) Such other factual evidence that may be necessary to determine whether all of the applicable eligibility requirements have been met, including evidence obtained through an on site survey conducted specifically for that purpose.

(e) The contracting officer shall reject (1) offers from all offerors whose representation indicates that they are not manufacturers or regular dealers of the supplies offered and (2) offers that qualify or place a reservation on the representation and stipulations to avoid full compliance with the Act.

(f) (1) If the contracting officer determines that an apparently successful offeror that is not a small business concern is ineligible, the following procedures shall apply:

(i) The offeror shall be notified in writing that—

(A) It does not meet the eligibility requirements and the specific reasons therefore; and

(B) It may protest the determination by submitting evidence concerning its eligibility to the contracting officer within 10 working days.

(ii) If, after review of the offeror's evidence, the contracting officer's position has not changed, the offeror's protest and all pertinent material shall be forwarded, in accordance with agency procedures, to the DOL.

Administrator of the Wage and Hour Division, for a final determination.

(2) If the offeror is a small business concern, the notification and protest procedures in subparagraph (1) above shall be followed except that any determination of ineligibility, whether or not the offeror protests the determination, shall be forwarded to the Administrator of the SBA and the offeror so notified in writing. The SBA shall review the determination and—

(i) If it disagrees with the contracting officer's determination, reverse the determination and forward to the contracting officer a certification of the offeror's eligibility; or

(ii) If it agrees with the contracting officer's determination, forward the case to the DOL, Administrator of the Wage and Hour Division, for final determination.

(3) If the contracting officer forwards the case to the DOL or the SBA for review of eligibility, the award should normally be held in abeyance (see 22.608-3(c)) until the contracting officer receives a final determination from the DOL or the SBA, unless the contracting officer finds that award should be made immediately (see 22.608-4).

(4) The contracting officer shall notify other offerors whose offers might become eligible for award when an award is being held in abeyance, and request them to extend their acceptance period, if necessary.

22.608-3 Protests against eligibility.

(a) When, before award (see 22.608-6 for post-award protests), another offeror challenges the eligibility of the apparently successful offeror, the contracting officer shall—

(1) Promptly notify the apparently successful offeror of the protest;

(2) Notify both the protester and the apparently successful offeror in writing that evidence concerning the matter may be submitted to the contracting officer within 10 working days;

(3) Notify offerors whose offers might become eligible for award that the award is to be held up because of a protest, and request them to extend their acceptance period, if necessary;

(4) Make a determination based on the evidence as provided in 22.608-2(b); and

(5) Notify the protester and the apparently successful offeror of the determination and the procedure to be followed if either party disagrees with the decision.

(b) If either party disagrees with the determination, the contracting officer, in accordance with agency procedures, shall forward the determination and entire record as follows and notify the parties accordingly:

(1) If the offeror is not a small business concern, to the DOL, Administrator of the Wage and Hour Division, for a final determination; or

(2) If the offeror is a small business concern, to the Administrator of the SBA.

(c) If the contracting officer forwards the case to the DOL or the SBA for review of eligibility, the award shall be held in abeyance until the contracting officer receives a final determination from the DOL or a certificate of eligibility from the SBA, unless the contracting officer finds that award should be made immediately (see 22.608-4).

22.608-4 Award pending final determination.

(a) If the contracting officer has forwarded an offeror's eligibility case for review to the DOL or the SBA under 22.608-2 or 22.608-3 award may be made immediately if the contracting officer certifies in writing, and the certification is approved as required by agency regulation, that—

(1) The items to be acquired are urgently required; or

(2) Delay of delivery or performance by failure to make the award promptly will result in substantial hardship to the Government.

(b) When award is made, the contracting officer shall document the contract file to explain the need for making the award before a determination of the offeror's eligibility by the DOL or the SBA, and give prompt written notice of the decision to award to the DOL and, as appropriate, the protester, the SBA, and other concerned parties.

22.608-5 Award.

When a contract subject to the Act is awarded, the contracting officer, in accordance with regulations or instructions issued by the Secretary of Labor and individual agency procedures, shall—

(a) Furnish to the contractor DOL Publication WH-1313, Notice to Employees Working on Government Contracts; and

(b) Prepare and transmit to the DOL four copies of Standard Form 99, Notice of Award of Contract, immediately on award of the contract.

22.608-6 Postaward.

(a) *Protests.* (1) If a protest is received after award, but before final contract completion, the contracting officer shall follow the procedures in 22.608-3.

(2) If the contract has been completed before receipt of the protest, the contracting officer shall notify the protester that no action will be taken on the protest.

(b) *Award made to ineligible offeror.* If the contracting officer discovers after an award that the offeror did not act in good faith in representing that it was a manufacturer or regular dealer of the supplies offered, the contracting officer, immediately upon discovery, may exercise the right, in accordance with 41 CFR 50-201.101(a)(3)(i)(B) to—

(1) Terminate the contract;

(2) Make open market purchases or enter into other contracts for completing the original contract; and

(3) Charge any additional cost to the original contractor.

(c) *Breach of stipulation.* In the event of a violation of a stipulation required under the Act, the contracting officer shall, in accordance with agency procedures, notify the appropriate regional office of the DOL, Wage and Hour Division (see 22.609), and furnish any information available.

22.609 Regional jurisdictions of the Department of Labor, Wage and Hour Division.

Geographic jurisdictions of the following regional offices of the DOL, Wage and Hour Division, are shown here, and are to be contacted by contracting officers in all situations required by this subpart, unless otherwise specified:

(a) The Region I office located in Boston, Massachusetts, has jurisdiction for Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut.

(b) The Region II office located in New York, New York, has jurisdiction for New York, New Jersey, Puerto Rico, and the Virgin Islands.

(c) The Region III office located in Philadelphia, Pennsylvania, has jurisdiction for Pennsylvania, Maryland, Delaware, Virginia, West Virginia, and the District of Columbia.

(d) The Region IV office located in Atlanta, Georgia, has jurisdiction for North Carolina, South Carolina, Kentucky, Tennessee, Mississippi, Alabama, Georgia, and Florida.

(e) The Region V office located in Chicago, Illinois, has jurisdiction for Ohio, Indiana, Michigan, Illinois, Wisconsin, and Minnesota.

(f) The Region VI office located in Dallas, Texas, has jurisdiction for Louisiana, Arkansas, Oklahoma, Texas, and New Mexico.

(g) The Region VII office located in Kansas City, Missouri, has jurisdiction

for Missouri, Iowa, Nebraska, and Kansas.

(h) The Region VIII office located in Denver, Colorado, has jurisdiction for North Dakota, South Dakota, Montana, Wyoming, Colorado, and Utah.

(i) The Region IX office located in San Francisco, California, has jurisdiction for California, Nevada, Hawaii, and Guam.

(j) The Region X office located in Seattle, Washington, has jurisdiction for Washington, Oregon, Idaho, and Alaska.

22.610 Solicitation provision and contract clause.

(a) The contracting officer shall insert the provision at 52.222-19, Walsh-Healey Public Contracts Act Representation, in solicitations that will result in contracts covered by the Act (see 22.603, 22.604 and 22.605).

(b) The contracting officer shall insert the clause at 52.222-20, Walsh-Healey Public Contracts Act, in solicitations and contracts covered by the Act (see 22.603, 22.604, and 22.605).

SUBPART 22.7—[RESERVED]

SUBPART 22.8—EQUAL EMPLOYMENT OPPORTUNITY

22.800 Scope of subpart.

This subpart prescribes policies and procedures pertaining to nondiscrimination in employment by Government contractors and subcontractors.

22.801 Definitions.

"Affirmative action program," as used in this subpart, means a contractor's program that complies with Department of Labor regulations to assure equal opportunity in employment to minorities and women.

"Construction work," as used in this subpart, means the construction, rehabilitation, alteration, conversion, extension, demolition, or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

"Contracting agency," as used in this subpart, means any department, agency, establishment, or instrumentality in the Executive Branch of the Government, including any wholly owned Government corporation that enters into contracts.

"Contractor," as used in this subpart, includes the terms "prime contractor" and "subcontractor".

"Director," as used in this subpart, means the Director, Office of Federal Contract Compliance Programs (OFCCP), United States Department of Labor.

"Equal Opportunity clause," as used in this subpart, means the clause at 52.222-26, Equal Opportunity, prescribed in 22.810(e).

"EO 11246," as used in this subpart, means Parts II and IV of Executive Order 11246, September 24, 1965 (30 FR 12319), and any Executive Order amending or superseding this Order (see 22.802). This term specifically includes the Equal Opportunity clause at 52.222-26, and the rules, regulations, and orders issued pursuant to EO 11246 by the Secretary of Labor or a designee.

"Government contract," as used in this subpart, means any agreement or modification thereof between a Government contracting agency and any person for the furnishing of supplies or services, or for the use of real or personal property including lease arrangements. The term does not include (a) agreements in which the parties stand in the relationship of employer and employee and (b) contracts for the sale of real and personal property by the Government.

"Prime contractor," as used in this subpart, means any person who holds, or has held, a Government contract subject to EO 11246.

"Recruiting and training agency," as used in this subpart, means any person who refers workers to any contractor or subcontractor or provides or supervises apprenticeship or training for employment by any contractor or subcontractor.

"Site of construction," as used in this subpart, means the general physical location of any building, highway, or other change or improvement to real property that is undergoing construction, rehabilitation, alteration, conversion, extension, demolition, or repair; and any temporary location or facility at which a contractor, subcontractor, or other participating party meets a demand or performs a function relating to a Government contract or subcontract.

"Subcontract," as used in this subpart, means any agreement or arrangement between a contractor and any person (in which the parties do not stand in the relationship of an employer and an employee) (a) for the furnishing of supplies or services or for use of real or personal property, including lease arrangements, that, in whole or in part, is necessary to the performance of any one or more Government contracts or (b) under which any portion of the contractor's obligation under any one or more Government contracts is performed, undertaken, or assumed.

"Subcontractor," as used in this subpart, means any person who holds, or has held, a subcontract subject to EO 11246. The term "first-tier subcontractor" means a subcontractor holding a subcontract with a prime contractor.

"United States," as used in this subpart, means the States, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, and the possessions of the United States.

22.802 General.

(a) Executive Order 11246, as amended, sets forth the Equal Opportunity clause and requires that all Government contracting agencies (1) include this clause in all nonexempt Government prime contracts and subcontracts (see 22.807), and (2) act to ensure compliance with the clause and the regulations of the Secretary of Labor to promote the full realization of equal employment opportunity for all persons, regardless of race, color, religion, sex, or national origin.

(b) No contract or modification involving new acquisition shall be entered into, and no subcontract shall be approved by a contracting officer, with a person who has been found ineligible by the Director for reasons of noncompliance with the requirements of EO 11246.

(c) No contracting officer or contractor shall contract for supplies or services in a manner so as to avoid applicability of the requirements of EO 11246.

(d) Contractor disputes related to compliance with its obligation shall be handled according to the rules, regulations, and relevant orders of the Secretary of Labor (see 41 CFR 60-1.1).

22.803 Responsibilities.

(a) The Secretary of Labor is responsible for the—

(1) Administration and enforcement of prescribed parts of EO 11246; and

(2) Adoption of rules and regulations and the issuance of orders necessary to achieve the purposes of EO 11246.

(b) The Secretary of Labor has delegated authority and assigned responsibility to the Director for carrying out the responsibilities assigned to the Secretary by EO 11246, except for the issuance of rules and regulations of a general nature.

(c) The head of each agency is responsible for ensuring that the requirements of this subpart are carried out within the agency, and for cooperating with and assisting the OFCCP in fulfilling its responsibilities.

(d) In the event the applicability of EO 11246 and implementing regulations is questioned, the contracting officer shall

forward the matter through agency channels for resolution.

22.804 Affirmative action programs.

22.804-1 Nonconstruction.

Except as provided in 22.807, each nonconstruction prime contractor and each subcontractor with 50 or more employees and (a) a contract or subcontract of $50,000 or more or (b) Government bills of lading that in any 12-month period, total, or can reasonably be expected to total, $50,000 or more, is required to develop a written affirmative action program for each of its establishments within 120 days from the commencement of its first such Government contract, subcontract, or Government bill of lading.

22.804-2 Construction.

(a) Construction contractors that hold a nonexempt (see 22.807) Government construction contract are required to meet (1) the contract terms and conditions citing affirmative action requirements applicable to covered geographical areas or projects and (2) applicable requirements of 41 CFR 60-1 and 60-4.

(b) Each contracting agency shall maintain a listing of covered geographical areas that are subject to affirmative action requirements that specify goals for minorities and women in covered construction trades. Information concerning, and additions to, this listing will be provided to the principally affected contracting officers in accordance with agency procedures. Any contracting officer contemplating a construction project in excess of $10,000 within a geographic area not known to be covered by specific affirmative action goals shall request instructions on the most current information from the OFCCP regional office, or as otherwise specified in agency regulations, before issuing the solicitation.

(c) Contracting officers shall give written notice to the OFCCP regional office within 10 working days of award of a construction contract subject to these affirmative action requirements. The notification shall include the name, address, and telephone number of the contractor; employer identification number; dollar amount of the contract; estimated starting and completion dates of the contract; the contract number; and the geographical area in which the contract is to be performed. When requested by the OFCCP regional office, the contracting officer shall arrange a conference among contractor, contracting activity, and compliance personnel to discuss the contractor's compliance responsibilities.

22.805 Procedures.

(a) *Preaward clearances for contracts and subcontracts of $1 million or more (excluding construction).* (1) Except as provided in 22.805(a)(7) below, if the estimated amount of the contract, subcontract, or basic ordering agreement is expected to aggregate $1 million or more or to increase the aggregate value of an existing contract to $1 million or more, the contracting officer shall request the appropriate OFCCP regional office to determine whether a contractor is awardable before (i) award of any contract, including any indefinite delivery contract or letter contract, (ii) modification of an existing contract for new effort that would constitute a contract award, or the (iii) issuance of any basic ordering agreement.

(2) Preaward clearance for each proposed contract and for each proposed first-tier subcontract of $1 million or more shall be requested by the contracting officer directly from the OFCCP regional office(s). Verbal requests shall be confirmed in writing.

(3) When the contract work is to be performed outside the United States with employees recruited within the United States, the contracting officer shall send the request for a preaward review to the OFCCP regional office serving the area where the proposed contractor's corporate home or branch office is located in the United States, or the corporate location where personnel recruiting is handled, if different from the contractor's corporate home or branch office. If the proposed contractor has no corporate office or location within the United States, the preaward review request action should be based on the location of the recruiting and training agency in the United States.

(4) The contracting officer shall include the following information in the preaward review request:

(i) Name, address, and telephone number of the prospective contractor and of any corporate affiliate at which work is to be performed.

(ii) Name, address, and telephone number of each proposed first-tier subcontractor with a proposed subcontract estimated at $1 million or more.

(iii) Anticipated date of award.

(iv) Information as to whether the contractor and first-tier subcontractors have previously held any Government contracts or subcontracts.

(v) Place or places of contract performance and first-tier subcontracts estimated at $1 million or more, if known.

(vi) The estimated dollar amount of the contract and each first-tier subcontract, if known.

(5) The contracting officer shall allow as much time as feasible before award for the conduct of necessary reviews by OFCCP. As soon as the apparently successful contractor can be determined, the contracting officer shall process a preaward review request in accordance with agency procedures, assuring, if possible, that the preaward review request is submitted to the OFCCP regional office at least 30 calendar days before the proposed award date.

(6) In the event the Director has not made a final preaward clearance determination within 30 calendar days from submission of the clearance request, the contracting officer shall withhold award of the contract for an additional 15 calendar days, or until clearance is received, whichever occurs first. If the additional 15 calendar days expire, and the Director has not either found the contractor to be in compliance or made a final written determination declaring the contractor ineligible for reasons of noncompliance, the award may be made to the contractor in question. The contracting officer shall notify the OFCCP regional office of the award.

(7) If the procedures specified in (5) and (6) above would delay award of an urgent and critical contract beyond the time necessary to make award or beyond the time specified in the offer or extension thereof, the contracting officer shall immediately inform the OFCCP regional office of the expiration date of the offer or the required date of award and request clearance be provided before that date. If the OFCCP regional office advises that a preaward review cannot be completed by the required date, the contracting officer shall submit written justification for the award to the head of the contracting activity, who, after informing the OFCCP regional office, may then approve the award without the preaward clearance. If an award is made under this authority, the contracting officer shall immediately request a postaward review from the OFCCP regional office.

(8) If, under the provisions of (7) above, a postaward review determines the contractor to be nonawardable, the Director, may authorize the use of the enforcement procedures at 22.809 against the noncomplying contractor.

(b) *Furnishing posters.* The contracting officer shall furnish to the contractor appropriate quantities of the poster entitled "Equal Opportunity Is

The Law." These shall be obtained in accordance with agency procedures.

22.806 Inquiries.

(a) An inquiry from a contractor regarding status of its compliance with EO 11246, or rights of appeal to any of the actions in 22.809 shall be referred to the OFCCP regional office.

(b) Labor union inquiries regarding the revision of a collective bargaining agreement in order to comply with EO EO 11246, shall be referred to the Director.

22.807 Exemptions.

(a) Under the following exemptions, all or part of the requirements of EO 11246 may be excluded from a contract subject to EO 11246:

(1) *National security.* The agency head may determine that a contract is essential to the national security and that the award of the contract without complying with one or more of the requirements of this subpart is necessary to the national security. Upon making such a determination, the agency shall notify the Director in writing within 30 days.

(2) *Specific contracts.* The Director may exempt a contracting agency from requiring the inclusion of one or more of the requirements of EO 11246 in any contract if the Director deems that special circumstances in the national interest so require. Groups or categories of contracts of the same type may also be exempted if the Director finds it impracticable to act upon each request individually or if group exemptions will contribute to convenience in the administration of EO 11246.

(b) The following exemptions apply even though a contract or subcontract contains the Equal Opportunity clause:

(1) *Transactions of $10,000 or less.* The Equal Opportunity clause is required to be included in prime contracts and subcontracts by 22.802(a). Individual prime contracts or subcontracts of $10,000 or less are exempt from application of the Equal Opportunity clause, unless the aggregate value of all prime contracts or subcontracts awarded to a contractor or subcontractor in any 12-month period exceeds, or can reasonably be expected to exceed, $10,000. (Note: Government bills of lading, regardless of amount, are not exempt.)

(2) *Work outside the United States.* Contracts are exempt from the requirements of EO 11246 for work performed outside the United States by employees who were not recruited within the United States.

(3) *Contracts with State or local governments.* The requirements of EO 11246 in any contract with a State or local government (or any agency, instrumentality, or subdivision thereof) shall not be applicable to any agency, instrumentality or subdivision of such government that does not participate in work on or under the contract.

(4) *Work on or near Indian reservations.* It shall not be a violation of EO 11246 for a contractor to extend a publicly announced preference in employment to Indians living on or near an Indian reservation in connection with employment opportunities on or near an Indian reservation. This applies to that area where a person seeking employment could reasonably be expected to commute to and from in the course of a work day. Contractors extending such a preference shall not, however, discriminate among Indians on the basis of religion, sex, or tribal affiliation, and the use of such preference shall not excuse a contractor from complying with EO 11246, rules and regulations of the Secretary of Labor, and applicable clauses in the contract.

(5) *Facilities not connected with contracts.* The Director may exempt from the requirements of EO 11246 any of a contractor's facilities that the Director finds to be in all respects separate and distinct from activities of the contractor related to performing the contract; *provided*, that the Director also finds that the exemption will not interfere with, or impede the effectiveness of, EO 11246.

(6) *Indefinite quantity contracts.* With respect to indefinite quantity contracts and subcontracts, the Equal Opportunity clause applies unless the contracting officer has reason to believe that the amount to be ordered in any year under the contract will not exceed $10,000. The applicability of the Equal Opportunity clause shall be determined by the contracting officer at the time of award for the first year, and annually thereafter for succeeding years, if any. Notwithstanding the above, the Equal Opportunity clause shall be applied to the contract whenever the amount of a single order exceeds $10,000. Once the Equal Opportunity clause is determined to be applicable, the contract shall continue to be subject to such clause for its duration regardless of the amounts ordered, or reasonably expected to be ordered, in any year.

(c) To request an exemption under subparagraphs (a)(1), (a)(2), or (b)(5), the contracting officer shall submit, under agency procedure, a detailed justification for omitting all, or part of, the requirements of EO 11246. Requests for exemptions under subparagraphs (a)(2) or (b)(5) above shall be submitted to the Director for approval.

(d) The Director may withdraw the exemption for a specific contract, or group of contracts, if the Director deems that such action is necessary and appropriate to achieve the purposes of EO 11246. Such withdrawal shall not apply—

(1) To contracts awarded before the withdrawal; or

(2) To any formally advertised contract (including restricted formal advertising), unless the withdrawal is made more than 10 calendar days before the bid opening date.

22.808 Complaints.

Complaints received by the contracting officer alleging violation of the requirements of EO 11246 shall be referred immediately to the OFCCP regional office. The complainant shall be advised in writing of the referral. The contractor that is the subject of a complaint shall not be advised in any manner or for any reason of the complainant's name, the nature of the complaint, or the fact that the complaint was received.

22.809 Enforcement.

Upon the written direction of the Director, one or more of the following actions, as well as administrative sanctions and penalties, may be exercised against contractors found to be in violation of EO 11246, the regulations of the Secretary of Labor, or the applicable contract clauses:

(a) Publication of the names of the contractor or their unions.

(b) Cancellation, termination, or suspension of the contractor's contracts or portion thereof.

(c) Debarment from future Government contracts, or extensions or modifications of existing contracts, until the contractor has established and carried out personnel and employment policies in compliance with EO 11246 and the regulations of the Secretary of Labor.

(d) Referral by the Director of any matter arising under EO 11246 to the Department of Justice or to the Equal Employment Opportunity Commission (EEOC) for the institution of appropriate civil or criminal proceedings.

22.810 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the following provisions in solicitations when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity:

(1) 52.222-21, Certification of Nonsegregated Facilities, if the amount of the contract is expected to exceed $10,000.

(2) 52.222-22, Previous Contracts and Compliance Reports.

(b) The contracting officer shall insert the provision at 52.222-23, Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity, in solicitations for construction when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, and the amount of the contract is expected to be in excess of $10,000.

(c) The contracting officer shall insert the provision at 52.222-24, Preaward On-Site Equal Opportunity Compliance Review, in solicitations, other than those for construction, when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, and the amount of the contract is expected to be for $1 million or more.

(d) The contracting officer shall insert the provision at 52.222-25, Affirmative Action Compliance, in solicitations, other than those for construction, when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity.

(e) The contracting officer shall insert the clause at 52.222-26, Equal Opportunity, in solicitations and contracts (see 22.802) unless all the terms of the clause are exempt from the requirements of EO 11246 (see 22.807(a)). If one or more, but not all, of the terms of the clause are exempt from the requirements of EO 11246, the contracting officer shall use the basic clause with its Alternate I.

(f) The contracting officer shall insert the clause at 52.222-27, Affirmative Action Compliance Requirements for Construction, in solicitations and contracts for construction that will include the clause at 52.222-26, Equal Opportunity, and the amount of the contract is expected to be in excess of $10,000.

(g) The contracting officer shall insert the clause at 52.222-28, Equal Opportunity Preaward Clearance of Subcontracts, in solicitations and contracts, when the amount of the contract is expected to be for $1 million or more and includes the clause prescribed in paragraphs (a), (c), or (e) of 44.204.

(h) The contracting officer shall insert the clause at 52.222-29, Notification of Visa Denial, in contracts that will include the clause at 52.222-26, Equal Opportunity, if the contractor is required to perform in or on behalf of a foreign country.

SUBPART 22.9—NONDISCRIMINATION BECAUSE OF AGE

22.901 Policy.

Executive Order 11141, February 12, 1964 (29 FR 2477), states that the Government policy is as follows:

(a) Contractors and subcontractors shall not, in connection with employment, advancement, or discharge of employees, or the terms, conditions, or privileges of their employment, discriminate against persons because of their age except upon the basis of a bona fide occupational qualification, retirement plan, or statutory requirement.

(b) Contractors and subcontractors, or persons acting on their behalf, shall not specify in solicitations or advertisements for employees to work on Government contracts, a maximum age limit for employment unless the specified maximum age limit is based upon a bona fide occupational qualification, retirement plan, or statutory requirement.

(c) Agencies will bring this policy to the attention of contractors. The use of contract clauses is not required.

22.902 Handling complaints.

Agencies shall bring complaints regarding a contractor's compliance with this policy to that contractor's attention (in writing, if appropriate), stating the policy, indicating that the contractor's compliance has been questioned, and requesting that the contractor take any appropriate steps that may be necessary to comply.

SUBPART 22.10—SERVICE CONTRACT ACT OF 1965

22.1000 Scope of subpart.

This subpart prescribes policies and procedures implementing the provisions of the Service Contract Act of 1965, as amended (41 U.S.C. 351-358), the applicable provisions of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 201-219), and related Secretary of Labor regulations and instructions (29 CFR 4, 6, and 1925).

22.1001 Definitions.

"Act" or "Service Contract Act," as used in this subpart, means the Service Contract Act of 1965, as amended.

"Agency labor advisor" means the individual designated to advise agency officials on labor matters.

"Contractor," as used in this subpart, includes a subcontractor whose subcontract is subject to the provisions of the Act.

"Office of Government Contract Wage Standards" means the unit in the Employment Standards Administration assigned to perform functions of the Secretary of Labor under the Act.

"Service contract," as used in this subpart, means any Government contract or any subcontract of any tier thereunder, the principal purpose of which is to furnish services within the United States through the use of service employees, except as exempted under section 7 of the Act (41 U.S.C. 356; see 22.1003(b)).

"Service employee" means any person (other than a person employed in a bona fide executive, administrative, or professional capacity as defined in 29 CFR Part 541) engaged in performing work under a service contract. The term includes all such persons regardless of the actual or alleged contractual relationship between them and a contractor or subcontractor. Also see 22.1003(d) and 29 CFR 4.130 for a partial list of services covered by the Act.

"United States," as used in this subpart, includes any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331-1356), American Samoa, Guam, Wake Island, Eniwetok Atoll, Kwajalein Atoll, and Johnston Island but does not include any other territory under U.S. jurisdiction or any U.S. base or possession within a foreign country.

"Wage and Hour Administrator" means the Administrator of the Wage and Hour Division, Employment Standards Administration, Department of Labor, or an authorized representative.

"Wage determination" means a determination of minimum wages or fringe benefits made under section 2(a) and 4(c) of the Act (41 U.S.C. 351) applicable to the employment in a given locality of one or more classes of service employees.

22.1002 Statutory requirements.

Generally, the Service Contract Act requires that—

(a) No contractor or subcontractor holding a service contract shall pay any of its employees working on the contract less than the minimum wage specified in section 6(a)(1) of the Fair Labor Standards Act (29 U.S.C. 206);

(b) Service contracts over $2,500 contain the mandatory provisions regarding minimum wages and fringe benefits, safe and sanitary working conditions, notification to employees of the minimum allowable compensation, and equivalent Federal employee classifications and wage rates;

(c) Service contractors performing on contracts in excess of $2,500, to which

no predecessor contractor's collective bargaining agreement applies, shall pay their employees at least the wages and fringe benefits found by the Department of Labor to prevail in the locality or, in the absence of a wage determination, the minimum wage set forth in the Fair Labor Standards Act; and

(d) Successor contractors performing on contracts in excess of $2,500 must pay wages and fringe benefits at least equal to those agreed upon for substantially the same services in any bona fide collective bargaining agreement entered into by the predecessor contractor (unless such wages and fringe benefits are determined to be substantially at variance with those which prevail for services of a similar character in the locality).

22.1003 Applicability.

(a) *General.* This Subpart 22.10 applies to all Government contracts or any subcontract at any tier thereunder, the principal purpose of which is to furnish services within the United States through the use of service employees, except as exempted in paragraphs (b) and (c) immediately following. In contracts having separate and segregable requirements for supplies and services, the principal purpose test is applied to the service requirement, thereby possibly bringing it within the Act's coverage. A contract involving services to be performed entirely outside the United States (see 22.1001) is not covered by the Act (29 CFR 4.112(b)).

(b) *Statutory exemptions.* The Act does not apply to the following—

(1) Any contract for construction, alteration, or repair of public buildings or public works, including painting and decorating;

(2) Work required to be done in accordance with the provisions of the Walsh-Healey Public Contracts Act (41 U.S.C. 35-45);

(3) Any contract for transporting freight or personnel by vessel, aircraft, bus, truck, express, railroad, or oil or gas pipeline where published tariff rates are in effect;

(4) Any contract for furnishing services by radio, telephone, telegraph, or cable companies subject to the Communications Act of 1934;

(5) Any contract for public utility services;

(6) Any contract for direct services to a Federal agency by individuals under an employment contract; or

(7) Any contract for operating postal contract stations for the Postal Service.

(c) *Administrative exemptions.* The Secretary of Labor may provide reasonable limitations and may make rules and regulations allowing reasonable variations, tolerances, and exemptions to and from any or all provisions of the Act (other than section 10). These may be made only in special circumstances where it has been determined that the limitation, variation, tolerance, or exemption is necessary and proper in the public interest or to avoid the serious impairment of government business, and is in accord with the remedial purpose of the Act to protect prevailing labor standards (41 U.S.C. 353(b)). See 29 CFR 4.115-123 for a listing of all administrative exemptions, tolerances, variations, etc.

(d) *Some examples of contracts covered.* The following examples, while not definitive or exclusive, illustrate some of the types of services that have been found to be covered by the Act (see 29 CFR 4.103 for additional examples):

(1) Mail-hauling, motor-pool-operation, parking, taxicab, and ambulance services.

(2) Packing, crating, and storage.

(3) Custodial, janitorial, housekeeping, and guard services.

(4) Food service and lodging.

(5) Laundry, dry-cleaning, linen-supply, and clothing-repair services.

(6) Snow, trash, and garbage removal.

(7) Aerial spraying and aerial reconnaissance for fire detection.

(8) Some support services at installations, including grounds maintenance and landscaping.

(9) Certain specialized services requiring specific skills, such as drafting, stenographic reporting, or mortuary services.

(e) *Requests for determinations and exemptions.* Contracting officers shall submit requests for (1) determinations regarding the application of the Act and (2) exemptions to the Wage and Hour Administrator in accordance with agency procedures.

22.1004 Department of Labor responsibilities and regulations.

The Department of Labor is authorized and directed to enforce the provisions of the Act, make rules and regulations, issue orders, hold hearings, make decisions based on findings of fact, and take other appropriate action under the Act. The Department of Labor has issued implementing regulations on such matters as—

(a) Service contract labor-standards provisions and procedures (29 CFR 4);

(b) Equivalents of determined fringe benefits (29 CFR 4.51);

(c) Application of the Act (rulings and interpretations) (29 CFR 4.101-4.123);

(d) Safe and sanitary working conditions (29 CFR 4.186); and

(e) Rules of practice for administrative proceedings enforcing service contract labor standards (29 CFR 6).

22.1005 Clause for contracts of $2,500 or less.

The contracting officer shall insert the clause at 52.222-40, Service Contract Act of 1965—Contracts of $2,500 or Less, in solicitations and contracts when the contract amount is expected to be $2,500 or less and the Service Contract Act of 1965 is applicable. With respect to Blanket Purchase Agreements and Basic Ordering Agreements, the amount to be compared to the dollar threshold is the total dollar amount of orders reasonably anticipated to be placed in a 1-year period.

22.1006 Clauses for contracts over $2,500.

(a) The contracting officer shall insert the clause at 52.222-41, Service Contract Act of 1965, in solicitations and contracts when the contract is subject to the Service Contract Act of 1965 and is (i) for over $2,500 or (ii) for an indefinite dollar amount and the contracting officer expects the contract amount will exceed $2,500 during any 12-month period. With respect to Blanket Purchase Agreements and Basic Ordering Agreements, the amount to be compared to the dollar threshold is the total dollar amount of orders reasonably anticipated to be placed in a 1-year period.

(b) *Statement of Equivalent Federal Wage Rates.* (1) The contracting officer shall insert the clause at 52.222-42, Statement of Equivalent Federal Wage Rates, in solicitations and contracts when the contract amount is expected to be over $2,500 and the Service Contract Act of 1965 is applicable.

(2) This clause implements the requirement (41 U.S.C. 351(a)(5)) that contracts state the minimum hourly compensation (wages and fringe benefits) that would be paid or furnished the various classes of service employees involved if they were employed directly by the agency and therefore, 5 U.S.C. 5341 or 5332 applied to them. This clause is included for information purposes only.

(3) Contracting agencies shall compute equivalent Federal wage rates in accordance with the procedures set forth in FAR 22.1007(b).

(c) *Price-adjustment clauses.* (1) The contracting officer shall insert the clause at 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiyear and Option

Contracts), in solicitations and contracts when the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, and is a multiyear contract or is a contract with options to renew.

(2) The contracting officer shall insert the clause at 52.222-44, Fair Labor Standards Act and Service Contract Act—Price Adjustment, in solicitations and contracts when the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, and is *not* a multiyear contract or is *not* a contract with options to renew.

(3) The clauses prescribed in this paragraph 22.1006(c) cover situations in which revised minimum wage rates are applied to contracts by operation of law, or by revision of a wage determination before (i) exercise of a contract option or (ii) extension of a multiyear contract into a new program year. The clauses do not cover situations in which the economic price adjustment clauses prescribed in 16.203(d) are used. When the coverage authorized by 16.203(d) is desired, it must not conflict with, or overlap, the clauses prescribed in this paragraph 22.1006(c).

22.1007 Notice of intention to make a service contract.

(a) If a new contract, a contract extension, or the exercise of an option will exceed $2,500 and may be subject to the Act, the contracting officer shall, at least 30 days before issuing a solicitation, opening negotiations for the contract extension, or exercising the option, send a completed Standard Form 98/98a, (SF 98/98a) Notice of Intention to Make a Service Contract and Response to Notice (see 53.301-98, 53.301-98a), to the Wage and Hour Administrator, Department of Labor. A copy of the SF 98/98a will be retained in the contract file.

(b) (1) The SF 98a shall contain the following information concerning the service employees expected to be employed by the contractor and any known subcontractors in performing the contract—

(i) Classes of service employees;

(ii) The number of service employees in each class; and

(iii) The wage rate that would be paid each class if employed by the agency and subject to the wage provisions of 5 U.S.C. 5341 or 5332.

(2) Procedures for computation of these rates are as follows:

(i) Wages paid blue collar employees shall be the basic hourly rate for each class. The rate shall be Wage Board pay schedule step two for nonsupervisory service employees and step three for supervisory service employees. Determinations of applicable Wage Board rates are as follows:

(A) Where the place of performance is known, the rates applicable to that location shall be used; or

(B) Where the place of performance is not known, the rates applicable to the contracting activity's locations shall be used.

(ii) Wages paid white collar employees shall be an hourly rate for each class. The rate shall be obtained by dividing the general pay schedule step one biweekly rate by 80.

(iii) Local civilian personnel offices can assist in determining and providing grade and salary data.

(c) If the services to be furnished under the proposed contract are substantially the same as those being furnished for the same location by an incumbent contractor whose contract the proposed contract will succeed, the contracting officer shall send with the Notice of Intention a copy of any collective bargaining agreement and related documents, specifying wage rates and fringe benefits currently or prospectively payable to service employees working under the current contract. If more than one location is involved, the contracting officer shall specify which agreements apply to each location.

(d) If exceptional circumstances prevent timely filing, the Notice of Intention shall be submitted as soon as practicable with an explanation of the special circumstances delaying submission.

(e) Requests to expedite wage determinations responding to the Notice of Intention or to check the status of a particular request should be made in accordance with agency procedures.

(f) The case may arise in which (1) a successor contract is contemplated, (2) a Notice of Intention covering it has been or will be issued, and (3) the contracting officer learns, as a result of the operation of paragraph (k) of the clause at 52.222-41, Service Contract Act of 1965, or through other means, that an incumbent contractor or subcontractor is negotiating or has consummated a collective bargaining agreement covering service employees performing the ongoing contract. In this event, the contracting officer shall notify the incumbent contractor and employees' bargaining agent of the proposed contract no later than 30 days before issuing the solicitation or opening negotiations. Notification shall be by certified mail, return receipt requested, and shall give the pertinent contracting dates.

(g) Generally, a bilateral contract modification affecting the scope of the work creates a new contract for purposes of the Act. (But bilateral contract modifications not related to, or involving only insignificant changes to, the contractor's labor requirements do not create a new contract for purposes of the Act.)

(1) If the new contract resulting from the modification exceeds $2,500, before entering into it the contracting officer shall forward to the Wage and Hour Administrator a Notice of Intention in accordance with the procedures of paragraphs (a) through (d) above, but with the following exceptions to the instructions:

(i) In the "Estimated Solicitation Date" block, enter the date the wage determination is needed.

(ii) In Block 6, enter "Modification of existing contract for ..... services," filling in the blank with the type of services.

(2) If the new service contract resulting from the modification is $2,500 or less, the clause at 52.222-41, Service Contract Act of 1965, is no longer applicable, but the clause at 52.222-40, Service Contract Act of 1965—Contracts of $2,500 or Less, is applicable at the time the modification becomes effective.

(h) Extending an existing contract, under an option clause or otherwise, creates a new contract for purposes of the Act. Before extending the contract, the contracting officer shall ascertain whether or not the new contract exceeds $2,500. If it does, the contracting officer shall forward a Notice of Intention as provided in paragraphs (a) through (d) above.

(i) After initially submitting a Notice of Intention for those multiyear service contracts exceeding $2,500, the contracting officer shall resubmit the forms after one year and not less often than once every 2 years, to the Wage and Hour Administrator at least 30 days before the contract's anniversary date (see subparagraph (c)(3) of the clause at 52.222-41, Service Contract Act of 1965).

22.1008 Wage determinations and collective bargaining agreements.

22.1008-1 Before award.

The Wage and Hour Administrator will issue wage determinations in response to the Notice of Intention required under 22.1007(a), if the Act applies. The determinations or any appropriate revisions to them shall be attached to solicitations and contracts over $2,500.

(a) However, revisions superseding an initial response shall not apply—

(1) If they are received by the agency less than 10 days before the opening of bids, in the case of contracts entered into pursuant to competitive bidding procedures (Invitations to Bid), and if the contracting officer finds that there is not a reasonable time to notify bidders; or

(2) If they are issued after award of a negotiated contract, or commencement of performance of a contract option or contract extension.

(b) The contracting officer shall continue to be guided by the previously effective rates, agreement, or determinations when a collective bargaining agreement is entered into during the period of performance of an ongoing or predecessor contract and—

(1) The agency receives notice of the agreement's terms less than 10 days before bid opening, or commencement of performance of a negotiated successor contract, option, or contract extension;

(2) The contracting officer determines that there is not reasonable time to incorporate the newly bargained rates or determinations predicated upon them into the solicitation for the successor contract; and

(3) Proper and timely notices required by 22.1007(f) have been given.

22.1008-2 After award.

(a) If a solicitation or contract lacks a required wage determination because the Notice of Intention was not filed or was not filed in time, and if the contracting officer receives a determination from the Department of Labor within 30 days of the late filing or of the discovery by the Department of the failure to include a determination, the contracting officer shall exercise any and all of the power that may be needed (including, where necessary, the power to negotiate, the power to pay any necessary additional costs, and the power under any provision of the contract authorizing changes) to negotiate a bilateral modification to—

(1) Incorporate the appropriate clauses, if not previously included;

(2) Incorporate the required determination, which shall be effective as of its issuance date unless the modification specifies otherwise; and

(3) Adjust the contract price equitably to compensate for any increased cost of performance resulting from the determination.

(b) If unable to negotiate a bilateral modification incorporating the wage determination, the contracting officer shall document the contract file to show the efforts made and shall provide a copy of this documentation to the agency labor advisor.

22.1008-3 Review.

(a) Successor contractors performing on contracts over $2,500 must pay wages and fringe benefits at least equal to those agreed upon for substantially the same services in any bona fide collective bargaining agreement entered into by the incumbent or predecessor contractor (41 U.S.C. 353(c)). However, if the contracting officer believes that an incumbent or predecessor contractor's agreement was not the result of arms-length negotiations, the contracting officer shall send the agency labor advisor a full report, together with a copy of the agreement.

(b) Immediately upon receiving a wage determination *not* predicated upon a collective bargaining agreement, the contracting officer shall ascertain whether it conforms with the wages and fringe benefits prevailing for similar services in the locality. If the contracting officer has information showing that it varies substantially from the prevailing rates, the contracting officer shall immediately send the agency labor advisor a full statement of the facts.

(c) If wages, fringe benefits, or periodic increases provided for in a collective bargaining agreement vary substantially from those prevailing for similar services in the locality, the contracting officer shall immediately consider whether a request for a hearing is warranted (see 22.1011).

22.1008-4 Additional classes of service employees.

When contract performance involves classes of service employees not included in the wage determination, rates for these classes shall bear a reasonable relationship to the rates for the classes included in the determination. These rates shall be agreed upon by the parties or determined by the Wage and Hour Administrator in accordance with the procedures contained in paragraph (c) of the clause at 52.222-41 Service Contract Act of 1965.

22.1009 Notice of award.

Whenever an agency awards a service contract over $2,500, it shall furnish the Office of Government Contract Wage Standards, Wage and Hour Division, Employment Standards Administration, Department of Labor, an original and one copy of Standard Form 99, Notice of Award of Contract (see 53.222(b)). The form shall be completed as follows:

(a) Items 1 through 7, 12, and 13: self-explanatory.

(b) Item 8: enter "Service Contract Act".

(c) Item 9: leave blank.

(d) Item 10: (1) enter "Major Category" and indicate beside this entry the general service area into which the contract falls, and (2) enter "Detailed Description" and, following this entry, describe in detail the services to be performed.

(e) Item 11: enter the dollar amount of the contract or the estimated dollar value with the notation "estimated". If neither is known, enter "indefinite" or "not to exceed $....." and fill in the figures.

22.1010 Notification of contractors and employees.

The contracting officer shall take the following steps to ensure that service employees are notified of minimum wages and fringe benefits:

(a) As soon as possible after contract award, inform the contractor of the labor-standards requirements of the contract relating to the Act and of the contractor's responsibilities under these requirements, unless the contractor is clearly already fully informed.

(b) At the time of award, furnish the contractor Department of Labor Publication WH-1313, Notice to Employees Working on Government Contracts, for posting at a prominent and accessible place at the worksite before contract performance begins. The publication advises employees of the compensation (wages and fringe benefits) required to be paid or furnished under the Act and satisfies the notice requirements in paragraph (f) of the clause at 52.222-41, Service Contract Act of 1965.

(c) Attach to Publication WH-1313 any applicable wage determination listing all minimum wages and fringe benefits, as specified in the contract, to be paid or furnished the classes of service employees performing the contract.

22.1011 Hearings.

(a) A hearing on the issue presented in 22.1008-3(c) may be requested by any interested party, including the contractor, a union, or the contracting agency (see 29 CFR 4.10). To obtain a hearing, the contracting officer shall submit a request through appropriate channels (ordinarily the agency labor advisor) to the Office of Government Contract Wage Standards, Wage and Hour Division, Employment Standards Administration, Department of Labor, with sufficient data to support a prima facie showing that the rates at issue vary substantially from those prevailing for similar services in the locality.

(b) Except in those situations where the Administrator determines that extraordinary circumstances exist,

requests for a hearing shall not be considered unless received as specified below:

(1) For advertised contracts, prior to 10 days before the award of the contract;

(2) For negotiated contracts and for contracts with provisions extending the initial term by option, prior to the commencement date of the contract or the follow-up option period, as the case may be.

22.1012 Withholding of contract payments.

Any violation of the stipulations embodied in the clause at 52.222-40, Service Contract Act of 1965—Contracts of $2,500 or Less, or in the clause at 52.222-41, Service Contract Act of 1965, renders the responsible contractor liable for any resulting deductions, rebates, refunds, or underpayment of compensation due employees performing the contract. The contracting officer may withhold—or upon written request of the Department of Labor from a level no lower than that of Assistant Regional Administrator, shall withhold—the amount needed to pay such underpaid employees from accrued payments due the contractor on the contract, or on any other contract with the contractor, if such other contract is not assigned under 31 U.S.C. 203 or 41 U.S.C. 15 pursuant to an assignment which prohibits set offs. The agency shall place the amount withheld in a deposit fund. On order of the Wage and Hour Administrator, any compensation the agency head or the Wage and Hour Administrator finds to be due shall be paid directly to the underpaid employees from any accrued payments withheld.

22.1013 Termination.

As provided by the Act, any contractor failure to comply with the requirements of the contract clauses related to the Act may be grounds for termination for default (see Subpart 49.4).

22.1014 Cooperation with the Department of Labor.

The contracting officer shall cooperate with Department of Labor representatives in the examination of records, interviews with service employees, and all other aspects of investigations undertaken by the Department. When asked, agencies shall furnish the Wage and Hour Administrator or a designee, any available information on contractors, subcontractors, their contracts, and the nature of the contract services. The agency shall promptly refer, in writing to the appropriate regional office of the Department, violations apparent to the agency and complaints received. In no event shall employee complaints be disclosed to the employer.

22.1015 Ineligibility of violators.

The Act provides that the Comptroller General shall distribute to all Federal agencies a list of persons or firms found to be in violation of the Act. Unless the Secretary of Labor recommends otherwise, no Government contract may be awarded to any violator so listed, or to any firm, corporation, partnership, or association in which the violator has a substantial interest, until 3 years after publication of the list containing the violator's name (41 U.S.C. 354(a)). (See Subpart 9.4, Debarment, Suspension, and Ineligibility.)

SUBPART 22.11—PROFESSIONAL EMPLOYEE COMPENSATION

22.1101 Applicability.

The Service Contract Act of 1965 was enacted to ensure that Government contractors compensate their blue-collar service workers and some white-collar service workers fairly, but it does not cover bona fide executive, administrative, or professional employees. The Office of Federal Procurement Policy issued Policy Letter No. 78-2, dated March 29, 1978, Preventing "Wage Busting" for Professionals. This subpart implements that policy letter. Its application is limited to professional employees. This Subpart 22.11 provides policies and procedures for use in negotiated service contracts (see 22.1001) exceeding $250,000 that involve meaningful numbers of professional employees.

22.1102 Definition.

"Professional employee" means any person meeting the definition of "employee employed in a bona fide...professional capacity" given in 29 CFR 541. The term embraces members of those professions having a recognized status based upon acquiring professional knowledge through prolonged study. Examples of these professions include accountancy, actuarial computation, architecture, dentistry, engineering, law, medicine, nursing, pharmacy, the sciences (such as biology, chemistry, and physics), and teaching. To be a professional employee, a person must not only be a professional but must be involved essentially in discharging professional duties.

22.1103 Policy, procedures, and solicitation provisions.

All professional employees shall be compensated fairly and properly. Accordingly, the contracting officer shall insert provisions at 52.222-45, Notice of Compensation for Professional Employees, and 52.222-46, Evaluation of Compensation for Professional Employees, in solicitations for negotiated service contracts when the contract amount is expected to exceed $250,000 and the service to be provided will require meaningful numbers of professional employees. These provisions require that offerors submit for evaluation a total compensation plan setting forth proposed salaries and fringe benefits for professional employees working on the contract. Supporting information will include data, such as recognized national and regional compensation surveys and studies of professional, public and private organizations, used in establishing the total compensation structure. Plans indicating unrealistically low professional employees compensation may be assessed adversely as one of the factors considered in making the award.

SUBPART 22.12—[RESERVED]

SUBPART 22.13—SPECIAL DISABLED AND VIETNAM ERA VETERANS

22.1300 Scope of subpart.

This subpart prescribes policies and procedures for implementing the Vietnam Era Veterans Readjustment Assistance Act of 1972, as amended (38 U.S.C. 2012) (the Act); Executive Order 11701, January 24, 1973 (38 FR 2675, January 29, 1973); and the regulations of the Secretary of Labor (41 CFR Part 60-250). In this subpart, the terms "contract" and "contractor" include "subcontract" and "subcontractor."

22.1301 Policy.

Government contractors, when entering into contracts subject to the Act, are required to list all suitable employment openings with the appropriate local employment service office and take affirmative action to employ, and advance in employment, qualified special disabled veterans and veterans of the Vietnam Era without discrimination based on their disability or veterans' status.

22.1302 Applicability.

(a) The Act applies to all contracts for supplies and services (including construction) of $10,000 or more except as waived by the Secretary of Labor.

(b) The requirements of the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans, in any contract with a State or local government (or any agency,

instrumentality, or subdivision) shall not apply to any agency, instrumentality, or subdivision of that government that does not participate in work on or under the contract.

22.1303 Waivers.

(a) The agency head, with the concurrence of the Director, Office of Federal Contract Compliance Programs (OFCCP), Department of Labor (Director), may waive any or all of the terms of the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans, for—

(1) Any contract if a waiver is deemed to be in the national interest; or

(2) Groups or categories of contracts if a waiver is in the national interest and it is—

(i) Impracticable to act on each request individually; and

(ii) Determined that the waiver will substantially contribute to convenience in administering the Act.

(b) (1) The head of a civilian agency, with the concurrence of the Director of OFCCP, or, (2) the Secretary of Defense may waive any requirement in this subpart when it is determined that the contract is essential to the national security, and that its award without complying with such requirements is necessary to the national security. Upon making such a determination, the head of a civilian agency shall notify the Director in writing within 30 days.

(c) The contracting officer shall submit requests for waivers in accordance with agency procedures.

(d) A waiver granted for a particular class of contracts may be withdrawn for any contract within that class whenever considered necessary by the Director to achieve the purposes of the Act. The withdrawal shall not apply to contracts awarded before the withdrawal. The withdrawal shall not apply to solicitations under any means of formal advertising unless it is made more than 10 calendar days before the date set for bid opening.

22.1304 Department of Labor notices.

The contracting officer shall furnish to the contractor appropriate notices for posting when they are prescribed by the Director.

22.1305 Collective bargaining agreements.

If performance under the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans, may necessitate a revision of a collective bargaining agreement, the contracting officer shall advise the affected labor unions that the Department of Labor (DOL) will give them appropriate opportunity to present their views. However, neither the contracting officer nor any representative of the contracting officer shall discuss with the contractor or any labor representative any aspect of the collective bargaining agreement.

22.1306 Complaint procedures.

Following agency procedures, the contracting office shall forward any complaints received about the administration of the Act to the Veteran's Employment Service of DOL, through the local Veteran's Employment Representative or designee, at the local State employment office. The Director of the Office of Federal Contract Compliance Programs of the DOL is primarily responsible for making investigations of complaints.

22.1307 Actions because of noncompliance.

The contracting officer shall take necessary action as soon as possible upon notification by the appropriate agency official to implement any sanctions imposed on a contractor by the Department of Labor for violations of the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans. These sanctions (see 41 CFR 60-250.28) may include—

(a) Withholding from payments otherwise due;

(b) Termination or suspension of the contract; or

(c) Debarment of the contractor.

22.1308 Contract clause.

(a) The contracting officer shall insert the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans, in solicitations and contracts when the contract is for $10,000 or more or is expected to amount to $10,000 or more, except when—

(1) Work is performed outside the United States by employees recruited outside the United States (for the purposes of this subpart, "United States" includes the States, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, Guam, American Samoa, and the Trust Territory of the Pacific Islands); or

(2) The agency head has waived, in accordance with 22.1303(a) or 22.1303(b) all of the terms of the clause.

(b) If the agency head waives one or more (but not all) of the terms of the clause in accordance with 22.1303(a) or 22.1303(b), use the basic clause with its Alternate I.

SUBPART 22.14—EMPLOYMENT OF THE HANDICAPPED

22.1400 Scope of subpart.

This subpart prescribes policies and procedures for implementing Section 503 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 793) (the Act); Executive Order 11758, January 15, 1974; and the regulations of the Secretary of Labor (41 CFR Part 60-741). In this subpart, the terms "contract" and "contractor" include "subcontract" and "subcontractor."

22.1401 Policy.

Government contractors, when entering into contracts subject to the Act, are required to take affirmative action to employ, and advance in employment, qualified handicapped individuals without discrimination based on their physical or mental handicap.

22.1402 Applicability.

(a) Section 503 of the Act applies to all Government contracts in excess of $2,500 for supplies and services (including construction) except as waived by the Secretary of Labor. The clause at 52.222-36, Affirmative Action for Handicapped Workers, implements the Act.

(b) The requirements of the clause at 52.222-36, Affirmative Action for Handicapped Workers, in any contract with a State or local government (or any agency, instrumentality, or subdivision) shall not apply to any agency, instrumentality, or subdivision of that government that does not participate in work on or under the contract.

22.1403 Waivers.

(a) The agency head, with the concurrence of the Director, Office of Federal Contract Compliance Programs (OFCCP), (Director), may waive any or all of the terms of the clause at 52.222-36, Affirmative Action for Handicapped Workers, for—

(1) Any contract if a waiver is deemed to be in the national interest; or

(2) Groups or categories of contracts if a waiver is in the national interest and it is—

(i) Impracticable to act on each request individually; and

(ii) Determined that the waiver will substantially contribute to convenience in administering the Act.

(b) (1) The head of a civilian agency, with the concurrence of the Director of OFCCP, or, (2) the Secretary of Defense, may waive any requirement in this subpart when it is determined that the contract is essential to the national security, and that its award without

complying with such requirements is necessary to the national security. Upon making such a determination, the head of a civilian agency shall notify the Director in writing within 30 days.

(c) The contracting officer shall submit requests for waivers in accordance with agency procedures.

(d) A waiver granted for a particular class of contracts may be withdrawn for any contract within that class whenever considered necessary by the Director to achieve the purposes of the Act. The withdrawal shall not apply to contracts awarded before the withdrawal. The withdrawal shall not apply to solicitations under any means of formal advertising unless it is made more than 10 calendar days before the date set for bid opening.

22.1404 Department of Labor notices.

The contracting officer shall furnish to the contractor appropriate notices that state the contractor's obligations and the handicapped individual's rights under the Employment of the Handicapped program. The contracting officer may obtain these notices from the Department of Labor Regional Office, Office of Federal Contract Compliance Programs.

22.1405 Collective bargaining agreements.

If performance under the clause at 52.222-36, Affirmative Action For Handicapped Workers, may necessitate a revision of a collective bargaining agreement, the contracting officer shall advise the affected labor unions that the Department of Labor will give them appropriate opportunity to present their views. However, neither the contracting officer nor any representative of the contracting officer shall discuss with the contractor or any labor representative any aspect of the collective bargaining agreement.

22.1406 Complaint procedures.

Following agency procedures, the contracting office shall forward any complaints received about the administration of the Act to the OFCCP, 200 Constitution Avenue, N.W., Washington, DC 20210, or to any OFCCP regional or area office. The OFCCP shall institute investigation of each complaint and shall be responsible for developing a complete case record.

22.1407 Actions because of noncompliance.

The contracting officer shall take necessary action as soon as possible upon notification by the appropriate agency official to implement any sanctions imposed on a contractor by the Department of Labor for violations of the clause at 52.222-36, Affirmative Action for Handicapped Workers. These sanctions (see 41 CFR 60-741.28) may include—

(a) Withholding from payments otherwise due;

(b) Termination or suspension of the contract; or

(c) Debarment of the contractor.

22.1408 Contract clause.

(a) The contracting officer shall insert the clause at 52.222-36, Affirmative Action for Handicapped Workers, in solicitations and contracts that exceed $2,500 or are expected to exceed $2,500, except when—

(1) Work is performed outside the United States by employees recruited outside the United States (for the purpose of this subpart, "United States," includes the States, the District of Columbia, the Virgin Islands, Puerto Rico, Guam, American Samoa, and the Trust Territory of the Pacific Islands); or

(2) The agency head has waived, in accordance with 22.1403(a) or 22.1403(b) all the terms of the clause.

(b) If the agency head waives one or more (but not all) of the terms of the clause in accordance with 22.1403(a) or 22.1403(b), use the basic clause with its Alternate I.

PART 23—ENVIRONMENT, CONSERVATION, AND OCCUPATIONAL SAFETY

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

23.000 Scope of part.

This part prescribes acquisition policies and procedures supporting the Government's program for protecting and improving the quality of the environment through pollution control, energy conservation, identification of hazardous material, and use of recovered materials.

SUBPART 23.1—POLLUTION CONTROL AND CLEAN AIR AND WATER

23.101 Applicability.

This subpart does not apply to small purchases or to the use of facilities outside the United States. ("United States," as used in this subpart, includes the States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.)

23.102 Authorities.

(a) Clean Air Act (42 U.S.C. 7401 et seq.).

(b) Clean Water Act (33 U.S.C. 1251 et seq.).

(c) Executive Order 11738, September 10, 1973 (38 FR 25161, September 12, 1973).

(d) Environmental Protection Agency (EPA) regulations (40 CFR Part 15).

23.103 Policy.

(a) It is the Government's policy to improve environmental quality. Accordingly, executive agencies shall conduct their acquisition activities in a manner that will result in effective enforcement of the Clean Air Act (the "Air Act") and the Clean Water Act (the "Water Act").

(b) Except as provided in 23.104, executive agencies shall not enter into, renew, or extend contracts with firms proposing to use facilities listed by EPA (40 CFR Part 15) as violating facilities under the Air Act or the Water Act.

23.104 Exemptions.

(a) Except as provided in paragraph (b) below, contracts and subcontracts are exempt from the requirements of this subpart if they are (1) $100,000 or under or (2) for indefinite quantities and the contracting officer believes that the amount ordered in any year under the contract will not exceed $100,000.

(b) If the facility to be used is on the EPA List of Violating Facilities for a *conviction* under the Air Act or the Water Act, the exemption in paragraph (a) above does *not* apply.

(c) The agency head may exempt any contract, subcontract, or class of contracts or subcontracts for one year

when it is in the paramount interest of the United States to do so.

(1) Before granting a class exemption, the agency head shall consult with the EPA Administrator or the Administrator's designee.

(2) The agency head shall notify the EPA Administrator, or a designee, as soon as practical after granting an individual exemption. The notification shall describe the purpose of the contract and explain why the paramount interest of the United States required the exemption.

23.105 Solicitation provision and contract clause.

(a) The contracting officer shall insert the solicitation provision at 52.223-1, Clean Air and Water Certification, in solicitations containing the clause at 52.223-2, Clean Air and Water (see paragraph (b) following).

(b) The contracting officer shall insert the clause at 52.223-2, Clean Air and Water, in solicitations and contracts to which this subpart applies (see 23.101), if—

(1) The contract is expected to exceed $100,000;

(2) The contracting officer believes that orders under an indefinite quantity contract in any year will exceed $100,000; or

(3) A facility to be used has been the subject of a conviction under the applicable portion of the Air Act (42 U.S.C. 7413(c)(1)) or Water Act (33 U.S.C. 1319(c)) and is listed by EPA as a violating facility; and

(4) The acquisition is not otherwise exempt under 23.104.

23.106 Delaying award.

(a) If an otherwise successful offeror informs the contracting officer that EPA is considering listing a facility proposed for contract performance (see the provision at 52.223-1, Clean Air and Water Certification), the contracting officer shall promptly notify the EPA Administrator or a designee, in writing, that the offeror is being considered for award.

(b) After consulting with the agency involved, the EPA Administrator or a designee may request the contracting officer to delay award for up to 15 working days, beginning on the date the EPA Administrator or a designee is notified that the award is under consideration.

(c) The contracting officer then shall delay award, only for the period of time requested by the EPA (up to 15 working days), except when the delay is likely to prejudice the agency's programs or seriously disadvantage the Government. The contracting officer shall promptly notify the EPA Administrator or a designee only if a decision is made to award before the period requested expires.

23.107 Compliance responsibilities.

Primary responsibility for ensuring compliance with Federal, State, or local pollution control laws and related requirements rests with EPA and other agencies designated under the laws. If a contracting officer becomes aware of noncompliance with clean air or water standards in facilities used in performing nonexempt contracts, that contracting officer shall notify the agency head, or a designee, who shall promptly notify the EPA Administrator or a designee in writing.

SUBPART 23.2—ENERGY CONSERVATION

23.201 Authorities.

(a) Energy Policy and Conservation Act (42 U.S.C. 6361(a)(1)).

(b) Executive Order 11912, April 13, 1976 (41 FR 15825-7, April 15, 1976), as amended by Executive Order 12038, February 3, 1978 (43 FR 4957, February 7, 1978), and Executive Order 12148, July 20, 1979 (44 FR 43239, July 24, 1979).

23.202 Definitions.

"Consumer product" means any article (other than an automobile, as defined in section 501(1) of the Motor Vehicle Information and Cost Savings Act) that—

(a) Consumes energy; and

(b) Is distributed in commerce for personal use or consumption by individuals.

"Covered product" means a consumer product of one of the following types:

(a) Central air conditioners.

(b) Clothes dryers.

(c) Clothes washers.

(d) Dishwashers.

(e) Freezers.

(f) Furnaces.

(g) Home heating equipment, not including furnaces.

(h) Humidifiers and dehumidifiers.

(i) Kitchen ranges and ovens.

(j) Refrigerators and refrigerator-freezers.

(k) Room air conditioners.

(l) Television sets.

(m) Water heaters.

(n) Any other type of product that the Secretary of Energy classifies as a covered product under 42 U.S.C. 6292(b).

"Energy efficiency standard" means a performance standard that—

(a) Prescribes a minimum level of energy efficiency for a covered product, determined by test procedures prescribed under 42 U.S.C. 6293; and

(b) Includes any other requirements that the Secretary of Energy may prescribe under 42 U.S.C. 6295(c).

"Energy use and efficiency label" means a label provided by a manufacturer of a covered product under 42 U.S.C. 6296.

"Manufacture" means to manufacture, produce, assemble, or import.

"Manufacturer," as used in this part, means any business that, or person who, manufactures a consumer product.

23.203 Policy.

(a) Whenever the results would be meaningful, practical, and consistent with agency programs and needs, agencies shall apply energy conservation and efficiency criteria to acquisitions. In preparing solicitations and evaluating and selecting offers for award, agencies shall consider these criteria along with price and other relevant factors.

(b) When acquiring covered products, executive agencies shall consider energy use and efficiency labels and, as they become available, energy efficiency standards.

SUBPART 23.3—HAZARDOUS MATERIAL IDENTIFICATION AND MATERIAL SAFETY DATA

23.300 Scope of subpart.

This subpart prescribes policies and procedures for acquiring deliverable items, other than ammunition and explosives, that require the furnishing of data involving hazardous materials. Agencies may prescribe special procedures for ammunition and explosives.

23.301 Definition.

"Hazardous material" is defined in Federal Standard No. 313A. (Federal Standards are sold to the public and Federal agencies through: General Services Administration (3FRI), Washington Navy Yard, Bldg. 197, Washington, DC 20407.)

23.302 General.

(a) The Occupational Safety and Health Administration (OSHA) is responsible for issuing and administering regulations that require Government activities to apprise their employees of—

(1) All hazards to which they may be exposed;

(2) Relative symptoms and appropriate emergency treatment; and

(3) Proper conditions and precautions for safe use and exposure.

(b) Contractors and their subcontractors of any tier are required to submit hazardous materials data.

Federal Standard No. 313A (Material Safety Data Sheet, Preparation and Submission of) includes criteria for identification of hazardous materials. The Standard also prescribes Department of Labor Form OSHA-20 for use with Government contracts.

(c) Contractors shall submit hazardous material identification on the following:

(1) All items in, or ordinarily cataloged under, the Federal Supply Classes listed in Table I of Appendix A of Federal Standard No. 313A.

(2) Items having hazardous characteristics in the Federal Supply Classes listed in Table II of Appendix A of Federal Standard No. 313A.

(3) Any other material designated by a Government technical representative as potentially hazardous and requiring safety controls.

23.303 Contract clause.

The contracting officer shall insert the clause at 52.223-3, Hazardous Material Identification and Material Safety Data, in solicitations and contracts when it is contemplated that the contract will require the delivery of hazardous materials as defined in Appendix A of Federal Standard No. 313A, or on the advice of the Government's technical representative that the contract will involve exposure to hazardous materials in any manner; e.g., performance of work, use, handling, manufacturing, packaging, transportation, storage, inspection, and disposal.

SUBPART 23.4—USE OF RECOVERED MATERIALS

23.401 Authority.

(a) The statutory basis for this program is the Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6901 et seq.).

(b) The statute requires agencies responsible for drafting or reviewing specifications to ensure that Government specifications and standards (1) do not exclude the use of recovered materials, (2) do not require the item to be manufactured from virgin materials, and (3) require the use of recovered materials to the maximum extent possible without jeopardizing the intended end use of the item.

(c) The statute also requires the Environmental Protection Agency to prepare guidelines on the availability, sources, and potential uses of recovered materials and associated items, including solid waste management services.

23.402 Definitions.

"Recovered materials" means materials that have been collected or recovered from solid waste.

"Solid waste" means (a) any garbage, refuse, or sludge from a waste treatment plant, water supply treatment plant, or air pollution control facility; and (b) other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from industrial, commercial, mining, and agricultural operations, and from community activities. It does not include solid or dissolved material in domestic sewage, or solid or dissolved material in irrigation return flows or industrial discharges which are point sources subject to permits under section 402 of the Clean Water Act, (33 U.S.C. 1342 et seq.), or source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.).

23.403 Policy.

The Government's policy is to acquire items composed of the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, without adversely affecting performance requirements or exposing suppliers' employees to undue hazards from the recovered materials.

23.404 Procedures.

(a) These procedures apply to all acquisitions that require minimum percentages of recovered materials, when the price of the item exceeds $10,000 or when the aggregate amount paid for items, or of functionally equivalent items, in the preceding fiscal year was $10,000 or more.

(b) The contracting officer may waive requirements for using recovered materials only after determining that the items containing recovered materials—

(1) Are not available within a reasonable period of time;

(2) Fail to meet performance standards in the specifications; or

(3) Are available only at unreasonable prices.

(c) Any determination made under 23.404(b)(2) shall be made on the basis of Bureau of Standards guidelines in any case in which the material is covered by these guidelines.

23.405 Solicitation provision.

The contracting officer shall insert the provision at 52.223-4, Recovered Material Certification, in solicitations that incorporate specifications requiring the use of recovered materials.

PART 24—PROTECTION OF PRIVACY AND FREEDOM OF INFORMATION

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

24.000 Scope of part.

This part prescribes policies and procedures that apply requirements of the Privacy Act of 1974 (5 U.S.C. 552a) (the Act) and OMB Circular No. 108, July 9, 1975, to Government contracts and cites the Freedom of Information Act (5 U.S.C. 552, as amended.)

SUBPART 24.1—PROTECTION OF INDIVIDUAL PRIVACY

24.101 Definitions.

"Agency," as used in this subpart, means any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency.

"Individual," as used in this subpart, means a citizen of the United States or an alien lawfully admitted for permanent residence.

"Maintain," as used in this subpart, means maintain, collect, use, or disseminate.

"Operation of a system of records," as used in this subpart, means performance of any of the activities associated with maintaining the system of records, including the collection, use, and dissemination of records.

"Record," as used in this subpart, means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, education, financial transactions, medical history, and criminal or employment history, and that contains the individual's name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a fingerprint or voiceprint or a photograph.

"System of records on individuals," as used in this subpart, means a group of

any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

24.102 General.

(a) The Act requires that when an agency contracts for the design, development, or operation of a system of records on individuals on behalf of the agency to accomplish an agency function the agency must apply the requirements of the Act to the contractor and its employees working on the contract.

(b) An agency officer or employee may be criminally liable for violations of the Act. When the contract provides for operation of a system of records on individuals, contractors and their employees are considered employees of the agency for purposes of the criminal penalties of the Act.

(c) If a contract specifically provides for the design, development, or operation of a system of records on individuals on behalf of an agency to accomplish an agency function, the agency must apply the requirements of the Act to the contractor and its employees working on the contract. The system of records operated under the contract is deemed to be maintained by the agency and is subject to the Act.

(d) Agencies, which within the limits of their authorities, fail to require that systems of records on individuals operated on their behalf under contracts be operated in conformance with the Act may be civilly liable to individuals injured as a consequence of any subsequent failure to maintain records in conformance with the Act.

24.103 Procedures.

(a) The contracting officer shall review requirements to determine whether the contract will involve the design, development, or operation of a system of records on individuals to accomplish an agency function.

(b) If one or more of those tasks will be required, the contracting officer shall—

(1) Ensure that the contract work statement specifically identifies the system of records on individuals and the design, development, or operation work to be performed; and

(2) Make available, in accordance with agency procedures, agency rules and regulation implementing the Act.

24.104 Contract clauses.

When the design, development, or operation of a system of records on individuals is required to accomplish an agency function, the contracting officer shall insert the following clauses in solicitations and contracts:

(a) The clause at 52.224-1, Privacy Act Notification.

(b) The clause at 52.224-2, Privacy Act.

SUBPART 24.2—FREEDOM OF INFORMATION ACT

24.201 Authority.

The Freedom of Information Act (5 U.S.C. 552, as amended) provides that information is to be made available to the public either by (a) publication in the Federal Register; (b) providing an opportunity to read and copy records at convenient locations; or (c) upon request, providing a copy of a reasonably described record.

24.202 Policy.

The Act specifies, among other things, how agencies shall make their records available upon public request, imposes strict time standards for agency responses, and exempts certain records from public disclosure. Each agency's implementation of these requirements is located in its respective title of the Code of Federal Regulations and referenced in Subpart 24.2 of its implementing acquisition regulations.

PART 25—FOREIGN ACQUISITION

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

25.000 Scope of part.

Except as provided in agency regulations, this part provides policies and procedures to implement the Buy American Act, the Balance of Payments Program, purchases under the Trade Agreements Act of 1979, and other laws and regulations that pertain to acquiring foreign supplies, services, and construction materials. This part also provides policies and procedures for the application to foreign acquisitions of international agreements, customs and duties, the clause at 52.215-1, Examination of Records by Comptroller General, and use of local currency for payment.

SUBPART 25.1—BUY AMERICAN ACT—SUPPLIES

25.100 Scope of subpart.

This subpart implements the Buy American Act (41 U.S.C. 10) and Executive Order 10582, December 17, 1954 (as amended). It applies to supply contracts and to contracts for services that involve the furnishing of supplies.

25.101 Definitions.

"Civil aircraft and related articles," as used in this subpart, means (a) all aircraft other than aircraft to be purchased for use by the Department of Defense or the U.S. Coast Guard; (b) the engines (and parts and components for incorporation into the engines) of these aircraft; (c) any other parts, components, and subassemblies for incorporation into the aircraft; and (d) any ground flight simulators, and parts and components of these simulators, for use with respect to the aircraft, whether to be used as original or replacement equipment in the manufacture, repair, maintenance, rebuilding, modification, or conversion of the aircraft, and without regard to whether the aircraft or articles receive duty-free treatment under section 601(a)(2) of the Trade Agreements Act of 1979.

"Components," as used in this subpart, means those articles, materials, and supplies incorporated directly into the end products.

"Domestic end product," as used in this subpart, means (a) an unmanufactured end product mined or produced in the United States, or (b) an end product manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. (In determining if an end product is domestic, only the end product and its components shall be considered.) The cost of each component includes transportation costs to the place of incorporation into the end product and any applicable duty (whether or not a duty-free entry certificate is issued). Components of foreign origin of the same class or kind for which determinations have been made in accordance with 25.102(a)(3) and (4) are treated as domestic. Scrap generated, collected, and prepared for processing in the United States is considered domestic.

"Domestic offer," as used in this subpart, means an offered price for a domestic end product, including transportation to destination.

"End product," as used in this subpart, means those articles, materials, and supplies to be acquired for public use under the contract.

"Foreign end product," as used in this subpart, means an end product other than a domestic end product.

"Foreign offer," as used in this subpart, means an offered price for a foreign end product, including transportation to destination and duty (whether or not a duty-free entry certificate is issued).

"Instrumentality," as used in this subpart, does not include an agency or division of the government of a country, but may be construed to include arrangements such as the European Economic Community.

"United States," as used in this subpart, means the United States, its possessions, Puerto Rico, and any other place subject to its jurisdiction, but does not include leased bases or trust territories.

25.102 Policy.

(a) The Buy American Act requires that only domestic end products be acquired for public use, except articles, materials, and supplies—

(1) For use outside the United States;

(2) For which the cost would be unreasonable, as determined in accordance with 25.105;

(3) For which the agency head determines that domestic preference would be inconsistent with the public interest;

(4) That one or more agencies have determined are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities, of a satisfactory quality (see 25.108); or

(5) Purchased specifically for commissary resale.

(b) If the contract is estimated to exceed $1 million, the agency head, or a designee at a level no lower than the head of a contracting activity, must approve determinations made under subparagraph (a)(4) above. Officials making these determinations shall consider the feasibility of forgoing the acquisition or of acquiring a domestic substitute.

25.103 Agreements with certain foreign governments.

The Department of Defense and the National Aeronautics and Space Administration (NASA) have determined that it is inconsistent with the public interest to apply the restrictions of the Buy American Act to their acquisitions for public use of certain supplies mined, produced, or manufactured in certain foreign countries. Detailed procedures implementing these determinations are in the Defense Acquisition Regulation and the NASA Federal Acquisition Regulation Supplement.

25.104 Acquiring civil aircraft and related articles.

(a) The U.S. Trade Representative, on February 19, 1980 (45 FR 12349, February 25, 1980), waived applying the Buy American Act to acquiring civil aircraft and related articles of countries or instrumentalities that are parties to the Agreement on Civil Aircraft. The representative acted under the authority of Section 303 of the Trade Agreements Act of 1979 (19 U.S.C. 2513). Countries and instrumentalities that are parties to the agreement (as of January 1, 1981) are Austria, Canada, the European Economic Community (Belgium, Denmark, the Federal Republic of Germany, France, Greece, Ireland, Italy, Luxembourg, the Netherlands, and the United Kingdom), Japan, Norway, Romania, Sweden, and Switzerland. The Office of the U.S. Trade Representative, Washington, D.C. 20506, can provide information on changes to the list of parties to the agreement made since January 1, 1981.

(b) For the purpose of this waiver, an article is a product of a country or instrumentality only if—

(1) It is wholly the growth, product, or manufacture of that country or instrumentality; or

(2) In the case of an article that consists in whole or in part of materials from another country or instrumentality, it has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed.

(c) The waiver is subject to modification or withdrawal by the U.S. Trade Representative.

25.105 Evaluating offers.

(a) Unless the agency head determines otherwise, the offered price of a domestic end product is unreasonable when the lowest acceptable domestic offer exceeds the lowest acceptable foreign offer (see 25.101), inclusive of duty, by—

(1) More than 6 percent, if the domestic offer is from a large business that is not a labor surplus area concern; or

(2) More than 12 percent, if the domestic offer is from a small business concern or any labor surplus area concern.

(b) The evaluation in paragraph (a) above shall be applied on an item-by-item basis or to any group of items on

which award may be made as specifically provided by the solicitation.

(c) If an award of more than $250,000 would be made to a domestic concern if the 12-percent factor were applied, but not if the 6-percent factor were applied, the agency head shall decide whether award to the domestic concern would involve unreasonable cost.

25.106 Reserved.

25.107 Acquisition from or through other Government agencies.

The General Services Administration is responsible for compliance with the Buy American Act for—

(a) Foreign end products acquired for stock in GSA stores depots;

(b) Direct purchases for other agencies; and

(c) Establishing mandatory Federal Supply Schedules that do not include a domestic end product.

25.108 Excepted articles, materials, and supplies.

(a) One or more agencies have determined that the articles, materials, and supplies listed in paragraph (d) of this section are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality. When required to be incorporated into an end product or construction material manufactured in the United States, these items or components are treated as domestic.

(b) Agencies may make additional determinations under 25.102(a)(4) or 25.202(a)(3) for unlisted articles, materials, and supplies. A copy of these determinations shall be submitted to the appropriate FAR Council for possible addition of items to the list.

(c) Agencies shall provide detailed information to the appropriate FAR Council if any item on the list becomes reasonably available in sufficient commercial quantities of a satisfactory quality.

(d) (1) The excepted articles, materials, and supplies are as follows:

Acetylene, black.
Agar, bulk.
Anise.
Antimony, as metal or oxide.
Asbestos, amosite, chrysotile, and crocidolite.
Bananas.
Bauxite.
Beef, corned, canned.
Beef extract.
Bephenium hydroxynapthoate.
Bismuth.
Books, trade, text, technical, or scientific; newspapers; pamphlets; magazines; periodicals; printed briefs and films; not printed in the United States and for which domestic editions are not available.
Brazil nuts, unroasted.
Cadmium, ores and flue dust.
Calcium cyanamide.
Capers.
Cashew nuts.
Castor beans and castor oil.
Chalk, English.
Chestnuts.
Chicle.
Chrome ore or chromite.
Cinchona bark.
Cobalt, in cathodes, rondelles, or other primary ore and metal forms.
Cocoa beans.
Coconut and coconut meat, unsweetened, in shredded, desiccated, or similarly prepared form.
Coffee, raw or green bean.
Colchicine alkaloid, raw.
Copra.
Cork, wood or bark and waste.
Cover glass, microscope slide.
Cryolite, natural.
Dammar gum.
Diamonds, industrial, stones and abrasives.
Emetine, bulk.
Ergot, crude.
Erythrityl tetranitrate.
Fair linen, altar.
Fibers of the following types: abaca, abace, agave, coir, flax, jute, jute burlaps, palmyra, and sisal.
Goat and kidskins.
Graphite, natural, crystalline, crucible grade.
Handsewing needles.
Hemp yarn.
Hog bristles for brushes.
Hyoscine, bulk.
Ipecac, root.
Iodine, crude.
Kaurigum.
Lac.
Leather, sheepskin, hair type.
Lavender oil.
Manganese.
Menthol, natural bulk.
Mica.
Nickel, primary, in ingots, pigs, shots, cathodes, or similar forms; nickel oxide and nickel salts.
Nitroguanidine (also known as picrite).
Nux vomica, crude.
Oiticica oil.
Olive oil.
Olives (green), pitted or unpitted, or stuffed, in bulk.
Opium, crude.
Oranges, mandarin, canned.
Petroleum, crude oil, unfinished oils, and finished products (see definitions of petroleum terms in subparagraph (d)(2) below).
Pine needle oil.
Platinum and related group metals, refined, as sponge, powder, ingots, or cast bars.
Pyrethrum flowers.
Quartz crystals.
Quebracho.
Quinidine.
Quinine.
Radium salts, source and special nuclear materials.
Rosettes.
Rubber, crude and latex.
Rutile.
Santonin, crude.
Secretin.
Shellac.
Silk, raw and unmanufactured.
Spare and replacement parts for equipment of foreign manufacture, and for which domestic parts are not available.
Spices and herbs, in bulk.
Sugars, raw.
Swords and scabbards.
Talc, block, steatite.
Tantalum
Tapioca flour and cassava.
Tartar, crude; tartaric acid and cream of tartar in bulk.
Tea in bulk.
Thread, metallic (gold).
Thyme oil.
Tin in bars, blocks, and pigs.
Triprolidine hydrochloride.
Tungsten.
Vanilla beans.
Venom, cobra.
Wax, carnauba.
Woods: logs, veneer, and lumber of the following species: Alaskan yellow cedar, angelique, balsa, ekki, greenheart, lignum vitae, mahogany, and teak.

(2) As used in subparagraph (1) above, petroleum terms are defined as follows:

(i) "Crude oil" means crude petroleum, as it is produced at the wellhead, and liquids (under atmospheric conditions) that have been recovered from mixtures of hydrocarbons that existed in a vaporous phase in a reservoir and that are not natural gas products.

(ii) "Finished products" means any one or more of the following petroleum oils, or a mixture or combination of these oils, to be used without further processing except blending by mechanical means:

(A) "Asphalt"—a solid or semi-solid cementitious material that (*1*) gradually liquefies when heated, (*2*) has bitumens as its predominating constituents, and (*3*) is obtained in refining crude oil.

(B) "Fuel oil"—a liquid or liquefiable petroleum product burned for lighting or for the generation of heat or power and derived directly or indirectly from crude oil, such as kerosene, range oil, distillate

fuel oils, gas oil, diesel fuel, topped crude oil, or residues.

(C) "Gasoline"—a refined petroleum distillate that, by its composition, is suitable for use as a carburant in internal combustion engines.

(D) "Jet fuel"—a refined petroleum distillate used to fuel jet propulsion engines.

(E) "Liquefied gases"—hydrocarbon gases recovered from natural gas or produced from petroleum refining and kept under pressure to maintain a liquid state at ambient temperatures.

(F) "Lubricating oil"—a refined petroleum distillate or specially treated petroleum residue used to lessen friction between surfaces.

(G) "Naphtha"—a refined petroleum distillate falling within a distillation range overlapping the higher gasoline and the lower kerosenes.

(H) "Natural gas products"—liquids (under atmospheric conditions), including natural gasoline, that—

(1) Are recovered by a process of absorption, adsorption, compression, refrigeration, cycling, or a combination of these processes, from mixtures of hydrocarbons that existed in a vaporous phase in a reservoir, and

(2) When recovered and without processing in a refinery, otherwise fall within any of the definitions of products contained in subdivision (B), (C), (D), and (G) above.

(I) "Residual fuel oil"—a topped crude oil or viscous residuum that, as obtained in refining or after blending with other fuel oil, meets or is the equivalent of Military Specification Mil-F-859 for Navy Special Fuel Oil and any more viscous fuel oil, such as No. 5 or Bunker C.

(iii) "Unfinished oils" means one or more of the petroleum oils listed in subdivision (ii) above, or a mixture or combination of these oils, that are to be further processed other than by blending by mechanical means.

25.109 Solicitation provisions and contract clause.

(a) The contracting officer shall insert the provision at 52.225-1, Buy American Certificate, in solicitations for the acquisition of supplies, or for services involving the furnishing of supplies, for use within the United States, except for acquisitions made under the Trade Agreements Act of 1979, as specified in Subpart 25.4.

(b) When quotations are obtained orally (see Part 13), vendors shall be informed that only domestic end products, other than end products excepted on a blanket or individual basis (see 25.108 and Subpart 25.4), shall be acceptable, unless the price for an offered domestic end product is unreasonable (see 25.105).

(c) The contracting officer shall insert the provision at 52.225-2, Waiver of Buy American Act for Civil Aircraft and Related Articles, in solicitations for the acquisition of civil aircraft and related articles.

(d) The contracting officer shall insert the clause at 52.225-3, Buy American Act—Supplies, in solicitations and contracts for the acquisition of supplies, or for services involving the furnishing of supplies, for use within the United States, except for acquisitions made under subparagraph (a)(3) of the Trade Agreements Act of 1979, as specified in Subpart 25.4.

SUBPART 25.2—BUY AMERICAN ACT—CONSTRUCTION MATERIALS

25.200 Scope of subpart.

This subpart implements the Buy American Act (41 U.S.C. 10) and Executive Order 10582, December 17, 1954 (as amended). It applies to contracts for the construction, alteration, or repair of any public building or public work in the United States.

25.201 Definitions.

"Components," as used in this subpart, means those articles, materials, and supplies incorporated directly into construction materials.

"Construction," as used in this subpart, means construction, alteration, or repair of any public building or public work in the United States.

"Construction materials," as used in this subpart, means articles, materials, and supplies brought to the construction site for incorporation into the building or work.

"Domestic construction material," as used in this subpart, means (a) an unmanufactured construction material mined or produced in the United States, or (b) a construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. (In determining whether a construction material is domestic, only the construction material and its components shall be considered.) The cost of each component includes transportation costs to the place of incorporation into the construction material and any applicable duty (whether or not a duty-free entry certificate is issued). Components of foreign origin of the same class or kind for which determinations have been made in accordance with 25.202(a)(3) are treated as domestic.

"Foreign construction material," as used in this subpart, means a construction material other than a domestic construction material.

"United States" (see 25.101).

25.202 Policy.

(a) The Buy American Act requires that only domestic construction materials be used in construction in the United States, except when—

(1) The cost would be unreasonable as determined in accordance with 25.203;

(2) The agency head determines that use of a particular domestic construction material would be impracticable; or

(3) One or more agencies have determined that the construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality (see 25.108).

(b) If the cost of the materials is estimated to exceed $100,000, the agency head, or a designee at a level no lower than the head of the contracting activity, must approve determinations made under subparagraph (a)(3) above. Officials making these determinations shall consider the feasibility of forgoing the acquisition or of acquiring a domestic substitute.

(c) When it is determined for any of the reasons stated in this section that certain foreign construction materials may be used, the excepted materials shall be listed in the contract. Findings justifying the exception shall be available for public inspection.

25.203 Evaluating offers.

(a) The restrictions of the Buy American Act do not apply when the head of the concerned agency determines that using a particular domestic construction material would unreasonably increase the cost or would be impracticable.

(b) When proposed awards are submitted to the agency head for approval, each submission shall include a description of the materials, including unit and quantity, estimated costs, location of the construction project, name and address of the proposed contractor, and a detailed justification of the impracticability of using domestic materials.

25.204 Violations.

If the agency head finds that in the performance of a construction contract there has been a failure to comply with the clause at 52.225-5, Buy American Act—Construction Materials, those findings (including the name of the contractor obligated under the contract)

shall be made public. No other contract for construction shall be awarded to that contractor, its subcontractors, or suppliers with which that contractor is associated or affiliated, within a period of 3 years after the findings are made public. (For debarment procedures, see Subpart 9.4.)

25.205 Solicitation provision and contract clause.

The contracting officer shall insert the clause at 52.225-5, Buy American Act—Construction Materials, in solicitations and contracts for construction inside the United States.

SUBPART 25.3—BALANCE OF PAYMENTS PROGRAM

25.300 Scope of subpart.

This subpart provides policies and procedures applicable to contracting for supplies, services, or construction for use outside the United States and provides for the use of excess or near-excess foreign currency. The Balance of Payments Program restrictions have been waived with respect to the acquisition in accordance with Subpart 25.4 of certain products under the Trade Agreements Act of 1979.

25.301 Definitions.

"Components" (see 25.101).

"Domestic end product" (see 25.101).

"Domestic offer" (see 25.101).

"Domestic services," as used in this subpart, means services performed in the United States. If services provided under a single contract are performed both inside and outside the United States, they shall be considered domestic if 25 percent or less of their total cost is attributable to services (including incidental supplies used in connection with these services) performed outside the United States.

"End product" (see 25.101).

"Foreign end product" (see 25.101).

"Foreign offer" (see 25.101).

"Foreign services," as used in this subpart, means services other than domestic services.

"United States" (see 25.101).

25.302 Policy.

(a) The Balance of Payments Program is an interim measure imposed to alleviate the impact of Government expenditures on the Nation's balance of international payments. The Balance of Payments Program differs from the Buy American Act in that the Buy American Act applies only to acquisitions for use inside the United States, while the Balance of Payments Program applies to acquisitions for use outside the United States.

(b) Foreign end products or services may be acquired for use outside the United States if any of the following conditions are met:

(1) The estimated cost of the product or service does not exceed the appropriate small purchase limitation in Part 13.

(2) Perishable subsistence items are required and the agency head, or a designee, determines that delivery from the United States would significantly impair their quality at the point of consumption.

(3) The agency head, or a designee, determines that a requirement can only be filled by a foreign end product or service, and that it is not feasible to forgo filling it or to provide a domestic substitute (see 25.108).

(4) The acquisition is for ice, books, utilities, communications, and other materials or services that, by their nature or as a practical matter, can only be acquired or performed in the country concerned and a U.S. Government capability does not exist.

(5) Subsistence items are required specifically for resale in overseas commissary stores.

(6) The acquisition of foreign end products or services is required by a treaty or executive agreement between governments.

(7) Petroleum supplies and their by-products as listed and defined in 25.108 are required.

(8) The end products or services are paid for with excess or near-excess foreign currencies (see 25.304).

(9) The end products or services are mined, produced, or manufactured in Panama and are required by and for the use of United States Forces in Panama.

(c) Contracts shall require use of domestic construction materials (see 25.201) for construction, repair, or maintenance of real property outside the United States, except when the cost of these materials (including transportation and handling costs) exceeds the cost of foreign construction materials by more than 50 percent. A differential greater than 50 percent may be used when specifically authorized by the agency head or a designee.

25.303 Procedures.

(a) *Solicitation of offers.* The procedures in this section apply to contracts for supplies and services when the exceptions in 25.302(b) do not apply. Solicitations shall state that information regarding articles, materials, supplies, and services excepted from these procedures is available to prospective contractors upon request. When quotations are obtained orally (see Part 13), vendors shall be informed that only domestic end products or services will be acceptable, except for those items that have been excepted or when the price for the foreign end products or services meets the evaluation criteria in paragraph (b) below.

(b) *Evaluation.* For purposes of evaluation, each foreign offer shall be adjusted by increasing it by 50 percent. If this procedure results in a tie between a foreign offer as evaluated and a domestic offer, the domestic offer shall be considered the successful offer. When this procedure results in the acquisition of foreign end products or services, the acquisition of domestic end products or services is thereby considered unreasonable in cost or inconsistent with the public interest.

25.304 Excess and near-excess foreign currencies.

(a) The United States holds currencies of the countries listed in paragraphs (e) and (f) below in amounts determined by the Secretary of the Treasury to be excess to the normal, or above the immediate (near-excess) requirements of the Government. Acquisitions of foreign end products, services, or construction paid for in excess or near-excess foreign currencies are an exception to the balance of payments restrictions in this subpart (see 25.302(b)(8)).

(b) Excess and near-excess foreign currencies shall be used whenever feasible in payment of contracts over $1 million performed wholly or partly in any of the listed countries. In some cases, award may be made to an offeror willing to accept payment, in whole or part, in excess or near-excess foreign currency, even though the offer, when compared to offers in United States dollars, is not the lowest received. Price differentials may be funded from excess or near-excess foreign currencies available without charge to agency appropriations, subject to Office of Management and Budget (OMB) Circular No. A-20, May 21, 1966.

(c) Before issuing solicitations for contracts to be performed wholly or partly in the listed countries, the contracting officer shall obtain a determination from the agency head, or a designee no lower than the head of the contracting activity, as to the feasibility of using excess or near-excess foreign currency. Agency officials shall consult with the Budget Review Division, Office of Management and Budget, and verify—

(1) The availability of excess or near-excess foreign currency;

(2) The feasibility of using that currency in payment of the contract;

(3) The price differential, if any, that will be considered acceptable; and

(4) Procedures for obtaining excess or near-excess foreign currency requirements.

(d) When use of excess or near-excess foreign currency is determined feasible, the contracting officer shall, in the solicitation—

(1) Require that offers be stated in U.S. dollars;

(2) Request that offers also be stated, in whole or in part, in excess or near-excess foreign currency; and

(3) Reserve the right to make the award to the responsive offeror (i) that is willing to accept payment, in whole or in part, in excess or near-excess foreign currency, and (ii) whose offer is most advantageous to the Government, even though the total price may be higher than offers in U.S. dollars.

(e) Currencies of Burma, Eygpt, Guinea, India, and Pakistan are excess to the Government's normal requirements.

(f) Currencies of Morocco, Poland, Tunisia, and Yugoslavia are above the Government's immediate needs (near-excess).

25.305 Solicitation provision and contract clause.

(a) *Solicitation provision.* The contracting officer shall insert the provision at 52.225-6, Balance of Payments Program Certificate, in solicitations for supplies or services for use outside the United States, unless one or more of the exceptions in 25.302(b) applies or the acquisition is made under the Trade Agreements Act of 1979 (see Subpart 25.4).

(b) *Oral quotations.* When quotations are obtained orally, vendors shall be informed that only domestic end products or services will be acceptable, except for those items that have been excepted or when the price for the foreign end products or services meets the evaluation criteria in 25.303(b).

(c) *Contract clause.* The contracting officer shall insert the clause at 52.225-7, Balance of Payments Program, in solicitations and contracts for acquiring supplies or services for use outside the United States, unless one or more of the exceptions in 25.302(b) applies or the acquisition is made under the Trade Agreements Act of 1979 (see Subpart 25.4).

SUBPART 25.4—PURCHASES UNDER THE TRADE AGREEMENTS ACT OF 1979

25.400 Scope of subpart.

This subpart provides additional policies and procedures peculiar to acquisitions subject to the Agreement on Government Procurement and the Trade Agreements Act of 1979 (19 U.S.C. 2501-2582).

25.401 Definitions.

"Designated country," as used in this subpart, means a country or instrumentality designated under the Trade Agreements Act of 1979 and listed below:

Austria	Japan
Bangladesh	Lesotho
Belgium	Luxembourg
Benin	Malawi
Bhutan	Maldives
Botswana	Mali
Burundi	Nepal
Canada	Netherlands
Cape Verde	Niger
Central African Republic	Norway
Chad	Rwanda
Comoros	Singapore
Denmark	Somalia
Federal Republic of Germany	Sweden
Finland	Switzerland
France	Western Samoa
Gambia	Sudan
Guinea	Tanzania U.R.
Haiti	Uganda
Hong Kong	United Kingdom
Ireland	Upper Volta
Italy	Yemen

"Designated country end product," as used in this subpart, means an article that (a) is wholly the growth, product, or manufacture of the designated country, or (b) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term includes services (except transportation services) incidental to its supply; *provided*, that the value of those incidental services does not exceed that of the product itself. It does not include service contracts as such.

"Eligible product," as used in this subpart, means a designated country end product.

25.402 Policy.

(a) Agencies shall evaluate offers of $169,000 or more for an eligible product without regard to the restrictions of the Buy American Act (see Subpart 25.1) or the Balance of Payments Program (See Subpart 25.3).

(b) Except when waived under section 302(b)(2) of the Trade Agreements Act, there shall be no purchases of products subject to the Act unless the products are from a designated country.

(c) No requirement for eligible products shall be divided with the intent of reducing the value of the resulting offers below $169,000.

25.403 Exceptions.

This subpart does not apply to—

(a) Offers for eligible products below $169,000;

(b) Products of countries (1) not listed in 25.401 or (2) barred by 25.402(b);

(c) Purchases under small or small disadvantaged business preference programs;

(d) Purchases of arms, ammunition, or war materials or purchases indispensable for the national security or the national defense;

(e) Construction contracts;

(f) Service contracts (except those services incidental to the purchase of eligible products; *provided*, that the value of the services is not greater than the value of the product);

(g) Research and development contracts;

(h) Purchases by the U.S. Army Corps of Engineers;

(i) Purchases of items for resale;

(j) Purchases under Subpart 8.6, Acquisition from Federal Prison Industries, Inc., and Subpart 8.7, Acquisition from the Blind and Other Severely Handicapped;

(k) Lease or rental agreements; or

(l) Purchases for agencies not listed in 25.406.

25.404 Labor surplus area set-asides.

When responsive offers are received for an eligible product, labor surplus area preference shall be accorded only to small business concerns.

25.405 Procedures.

When the proposed acquisition of an eligible product is estimated to be $169,000 or more, and it is not exempted by 25.403, the following procedures shall apply:

(a) Consistent with user needs, agencies shall allow a minimum of 30 days from the date of publication of the notice of solicitation in the Commerce Business Daily to receipt of offers.

(b) Agencies shall not impose technical requirements solely to preclude the acquisition of eligible products.

(c) Offers received in response to solicitations anticipating competitive negotiations shall be opened in the presence of an impartial witness, whose name shall be recorded in the contract file.

(d) Solicitations should specify that offers, involving eligible products from designated countries, be submitted in the English language and in U.S. dollars.

(e) Within 7 working days after a contract award of $169,000 or more for an eligible product, agencies shall give unsuccessful offerors from designated countries written notice that their offers were not accepted.

25.406 Agencies covered by the Agreement on Government Procurement.

This subpart applies only to acquisitions for agencies listed below:

ACTION
Administrative Conference of the United States
American Battle Monuments Commission
Board for International Broadcasting
Civil Aeronautics Board
Commission on Civil Rights
Commodity Futures Trading Commission
Community Services Administration
Consumer Product Safety Commission
Department of Agriculture (the Agreement on Government Procurement does not apply to acquiring agricultural products in furtherance of agricultural support programs or human feeding programs)
Department of Commerce
Department of Defense (excludes Army Corps of Engineers)
Department of Education
Department of Health and Human Services
Department of Housing and Urban Development
Department of the Interior (excludes the Bureau of Reclamation)
Department of Justice
Department of Labor
Department of State
Department of the Treasury
Environmental Protection Agency
Equal Employment Opportunity Commission
Executive Office of the President
Export-Import Bank of the United States
Farm Credit Administration
Federal Communications Commission
Federal Deposit Insurance Corporation
Federal Home Loan Bank Board
Federal Maritime Commission
Federal Mediation and Conciliation Service
Federal Trade Commission
General Services Administration (excludes purchases by the Tools Commodity Center and the Region 9 Office in San Francisco, California)
Interstate Commerce Commission
Merit Systems Protection Board
National Aeronautics and Space Administration
National Credit Union Administration
National Labor Relations Board
National Mediation Board
National Science Foundation
National Transportation Safety Board
Nuclear Regulatory Commission
Office of Personnel Management
Overseas Private Investment Corporation
Panama Canal Commission
Railroad Retirement Board
Securities and Exchange Commission
Selective Service System
Smithsonian Institution
United States Arms Control and Disarmament Agency
United States International Communication Agency
United States International Development Cooperation Agency
United States International Trade Commission
Veterans Administration

25.407 Solicitation provision and contract clause.

(a) Except as provided in 25.403, the contracting officer shall insert—

(1) The provision at 52.225-8, Buy American Act—Trade Agreements Act—Balance of Payments Program Certificate, in solicitations for supplies; and

(2) The clause at 52.225-9, Buy American Act—Trade Agreements Act—Balance of Payments Program, in solicitations and contracts for supplies.

(b) The contracting officer shall rely on the offeror's certification as submitted.

SUBPART 25.5—PAYMENT IN LOCAL FOREIGN CURRENCY

25.501 Policy.

(a) Contracts entered into and performed outside the United States with local foreign firms will be priced and paid in local currency, unless an international agreement provides for payment in U.S. dollars or the contracting officer determines the use of local currency to be inequitable or inappropriate.

(b) When the local currency increases in value in relation to the dollar, a violation of the Anti-Deficiency Act (31 U.S.C. 665) could occur. To avoid this possibility, agencies should ensure the availability of adequate dollar appropriations to purchase local currency needed to make payments against the contract.

SUBPART 25.6—CUSTOMS AND DUTIES

25.600 Scope of subpart.

This subpart provides policies and procedures for exempting from import duties certain supplies purchased under Government contracts. Regulations governing importations and duties are contained in the "Customs Regulations" issued by the U.S. Customs Service, Department of the Treasury (Chapter 1, Title 19 of the Code of Federal Regulations).

25.601 Definition.

"Customs territory of the United States," as used in this subpart, means the States, the District of Columbia, and Puerto Rico.

25.602 Policy.

United States laws impose duties on foreign supplies imported into the customs territory of the United States. Certain exemptions from these duties are available to Government agencies. Agencies shall use these exemptions whenever the anticipated savings to appropriated funds will outweigh the administrative costs associated with processing required documentation.

25.603 Procedures.

(a) *General.* Except as provided elsewhere in the Customs Regulations (see 19 CFR 10.100), all shipments of imported supplies purchased under Government contracts are subject to the usual Customs entry and examination requirements. Unless the agency obtains an exemption (see 25.604), those shipments are also subject to duty.

(b) *Formal entry and release.* (1) Upon receipt of a notice from a Government contractor or customs office of the arrival, or pending arrival, of a shipment of supplies entitled to duty-free entry, the contracting officer normally shall execute—

(i) Customs Form 7501, Consumption Entry, which shall serve as both the entry and the entry summary (see 19 CFR Parts 141-142) (two copies to be forwarded to the District Director of Customs at port of entry);

(ii) Customs Form 7501-A, Consumption Entry Permit (one copy to be forwarded to the District Director of Customs at port of entry); and

(iii) Either a duty-free entry certificate when required in accordance with 25.604 (two copies to be forwarded to the District Director of Customs at port of entry) or Customs Form 7506, Warehouse Withdrawal Conditionally Free of Duty, and Permit (two copies to be forwarded to the District Director of Customs at warehouse location).

(2) Customs forms are available from any District Director of Customs Office or United States Customs port. Data for completing customs forms shall be obtained from the contractor.

(c) *Immediate entry and release.* Imported supplies purchased under Government contracts are regarded as

shipments, the immediate delivery of which is necessary under the provisions of 19 U.S.C. 1448(b). Request for their release from Customs custody before formal entry and release shall normally be made by the contracting officer by filing Customs Form 3461, Immediate Delivery Application, with the District Director of Customs at port of entry. Forms for formal entry and release must be filed within a reasonable time thereafter. Applications for immediate delivery may be limited to particular shipments or may cover all shipments under a Government contract. They may be approved for specific or indefinite periods of time (see 19 CFR 10.101 and 19 CFR Part 142, Subpart A, for requirements).

25.604 Exempted supplies.

(a) Schedule 8 of the Tariff Schedules of the United States (19 U.S.C. 1202) lists supplies for which exemptions from duty may be obtained when imported into the customs territory of the United States under a Government contract. For certain of these supplies, the contracting agency must certify to the Commissioner of Customs that they are for the purpose stated in the Tariff Schedule (see 19 CFR 10.102-104, 10.110, 10.114-119, 10.121, and 15 CFR 301 for requirements and formats).

(b) Supplies (as opposed to equipment) for Government-operated vessels or aircraft may be withdrawn from any customs-bonded warehouse, from continuous customs custody elsewhere than in a bonded warehouse, or from a foreign-trade zone free of duty and internal revenue tax as provided in 19 U.S.C. 1309(a). The contracting activity shall cite this authority on the appropriate customs form when making such purchases (see 19 CFR 10.59(a)).

25.605 Contract clause.

(a) The contracting officer shall insert the clause at 52.225-10, Duty-Free Entry, in solicitations and contracts over $100,000 that provide for, or anticipate furnishing to the Government, supplies to be imported into the customs territory of the United States.

(b) The clause may be used in solicitations and contracts of $100,000 or less, if such action is consistent with the policy in 25.602.

(c) If the contracting officer knows before award that the contract includes specific supplies that will be accorded duty-free entry, a list of these supplies shall be inserted in the contract Schedule. The list shall include item numbers from Schedule 8, Tariff Schedules of the United States, and a description of the supplies.

SUBPART 25.7—RESTRICTIONS ON CERTAIN FOREIGN PURCHASES

25.701 Policy.

(a) The Government does not acquire for use outside the United States, its possessions, or Puerto Rico supplies or services from foreign countries or areas when these supplies or services could not be lawfully imported into the United States.

(b) When acceptance of supplies or services (including construction) is to take place in the United States, its possessions, or Puerto Rico, the contracting officer shall assume that all supplies not produced in the United States, its possessions, or Puerto Rico, have been lawfully imported.

25.702 Restrictions.

Except as provided in 25.703, agencies and their contractors and subcontractors shall not acquire for use outside the United States, its possessions, or Puerto Rico—

(a) Any supplies or services originating from sources within the Communist areas of North Korea, Vietnam, Cambodia, or Cuba; or

(b) Any supplies that are or were located in or transported from or through North Korea, Vietnam, Cambodia, or Cuba.

25.703 Exceptions.

(a) Supplies and services from sources restricted by 25.702 acquired for use outside the United States, its possessions, or Puerto Rico may be purchased or used only in unusual situations; for example, in an emergency or when the items (or services) are not available from another source and a substitute is not acceptable.

(b) Unless otherwise provided by agency procedures, the contracting officer may approve exceptions for small purchases. For other contracts, the agency head shall approve any exceptions. A copy of the written approval shall be furnished to the contractor.

25.704 Contract clause.

The contracting officer shall insert the clause at 52.225-11, Certain Communist Areas, in solicitations and contracts for supplies, services, or construction if acceptance is to take place outside the United States, its possessions, or Puerto Rico.

SUBPART 25.8—INTERNATIONAL AGREEMENTS AND COORDINATION

25.801 International agreements.

Treaties and agreements between the United States and foreign governments may affect contracting within foreign countries. Contracting officers should give particular attention to the provisions in those agreements that pertain to purchase procedures, contract forms and clauses, taxes, patents, technical information, facilities, and other matters related to contracting.

25.802 Procedures.

(a) When placing contracts with contractors outside the United States, for performance outside the United States, contracting officers shall—

(1) Determine the existence and applicability of any international agreements to contracts being planned or processed, and ensure compliance with these agreements; and

(2) Conduct the necessary advance acquisition planning and coordination between the appropriate United States executive agencies and foreign interests as required by these agreements.

(b) Many international agreements are compiled in the "United States Treaties and Other International Agreements" series published by the Department of State. Copies of this publication are normally available in overseas legal offices and United States diplomatic missions.

SUBPART 25.9—OMISSION OF THE EXAMINATION OF RECORDS CLAUSE

25.901 Definition.

"Foreign contractor," as used in this subpart, means a contractor or subcontractor organized or existing under the laws of a country other than the United States, its territories, or possessions.

25.902 Policy.

As required by 10 U.S.C. 2313, 41 U.S.C. 254, and 15.106-1(b)(3), the contracting officer shall consider for use in negotiated contracts with foreign contractors, whenever possible, the clause at 52.215-1, Examination of Records by Comptroller General. Omission of the clause should be approved only after the contracting agency, having considered such factors as alternate sources of supply, additional cost, and time of delivery, has made all reasonable efforts to include the clause.

25.903 Conditions for omission.

(a) The contracting officer may omit the clause at 52.215-1, Examination of Records by Comptroller General, from contracts with foreign contractors—

(1) If the agency head determines, with the concurrence of the Comptroller General or a designee, that omission of the clause will serve the public interest; or

(2) If the contractor is a foreign government or agency thereof or is precluded by the laws of the country involved from making its books, documents, papers, or records available for examination, and the agency head determines, after taking into account the price and availability of the property or services from domestic sources, that omission of the clause best serves the public interest.

(b) When a determination under subparagraph (a)(2) above is the basis for omission of the clause at 52.215-1, Examination of Records by Comptroller General, the agency head shall forward a written report to the Congress explaining the reasons for the determination.

25.904 Determination and findings.

The determination and findings shall—

(a) Identify the contract and its purpose, and whether it is a contract with a foreign contractor or with a foreign government or agency thereof;

(b) Describe the efforts made to include the clause;

(c) State the reasons for the contractor's refusal to include the clause;

(d) Describe the price and availability of the property or services from the United States and other sources; and

(e) Determine that it will serve the interest of the United States to omit the clause.

PART 26—[RESERVED]

SUBCHAPTER E—General Contracting Requirements

PART 27—PATENTS, DATA, AND COPYRIGHTS [RESERVED]

[Editorial Note. Part 27—Patents, Data, and Copyrights, has been reserved pending resolution of comments received in response to the draft published in the **Federal Register** on May 20, 1983. Final coverage for Part 27 will be published before the FAR implementation date of April 1, 1984.]

PART 28—BONDS AND INSURANCE

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

28.000 Scope of part.

This part prescribes requirements for obtaining financial protection against damages under advertised and negotiated contracts. It covers bid guarantees, bonds, sureties, and insurance. The terms "bid" and "bidders" include "proposal" and "offerors."

28.001 Definitions.

"Attorney-in-fact," as used in this part, means an agent, independent agent, underwriter, or any other company or individual holding a power of attorney granted by a surety (see also "power of attorney").

"Bid guarantee" means a form of security assuring that the bidder (a) will not withdraw a bid within the period specified for acceptance and (b) will execute a written contract and furnish required bonds, including any necessary coinsurance or reinsurance agreements, within the time specified in the bid, unless a longer time is allowed, after receipt of the specified forms.

"Bond" means a written instrument executed by a bidder or contractor (the "principal"), and a second party (the "surety" or "sureties"), to assure fulfillment of the principal's obligations to a third party (the "obligee" or "Government"), identified in the bond. If the principal's obligations are not met, the bond assures payment, to the extent stipulated, of any loss sustained by the obligee. The types of bonds and related documents are as follows:

(a) An advance payment bond secures fulfillment of the contractor's obligations under an advance payment provision.

(b) An annual bid bond is a single bond furnished by a bidder, in lieu of separate bid bonds, which secure all bids (on other than construction contracts) requiring bonds submitted during a specific Government fiscal year.

(c) An annual performance bond is a single bond furnished by a contractor, in lieu of separate performance bonds, to secure fulfillment of the contractor's obligations under contracts (other than construction contracts) requiring bonds entered into during a specific Government fiscal year.

(d) A patent infringement bond secures fulfillment of the contractor's obligations under a patent provision.

(e) A payment bond assures payments as required by law to all persons supplying labor or material in the prosecution of the work provided for in the contract.

(f) A performance bond secures performance and fulfillment of the contractor's obligations under the contract.

"Consent of surety" means an acknowledgment by a surety that its bond given in connection with a

contract continues to apply to the contract as modified.

"Insurance," as used in this part, means a contract which provides that for a stipulated consideration, one party undertakes to indemnify another against loss, damage, or liability arising from an unknown or contingent event.

"Penal sum" or "penal amount" means the amount of money specified in a bond (or a percentage of the bid price in a bid bond) as the maximum payment for which the surety is obligated.

"Power of attorney," as used in this part, means the authority given one person or corporation to act for and obligate another, as specified in the instrument creating the power; in corporate suretyship, an instrument under seal which appoints an attorney-in-fact to act in behalf of a surety company in signing bonds (see also "attorney-in-fact").

"Reinsurance" means a transaction which provides that a surety, for a consideration, agrees to indemnify another surety against loss which the latter may sustain under a bond which it has issued.

"Surety" means an individual or corporation legally liable for the debt, default, or failure of a principal to satisfy a contractual obligation. The types of sureties referred to are as follows:

(a) An individual surety is one person, as distinguished from a business entity, who is liable for the entire penal amount of the bond.

(b) A corporate surety is licensed under various insurance laws and, under its charter, has legal power to act as surety for others.

(c) A cosurety is one of two or more sureties that are jointly liable for the penal sum of the bond. A limit of liability for each surety may be stated.

SUBPART 28.1—BONDS

28.100 Scope of subpart.

This subpart prescribes requirements and procedures for the use of bonds and all types of bid guarantees.

28.101 Bid guarantees.

28.101-1 Policy on use.

(a) The use of bid guarantees shall be required only when a performance bond or a performance and payment bond is required (see 28.102 and 28.103).

(b) All types of bid guarantees are acceptable for supply or service contracts (see annual bid bonds and annual performance bonds coverage in 28.001). Only individual bid bonds are acceptable in connection with construction contracts.

28.101-2 Amount required.

The contracting officer shall determine a bid guarantee amount that is adequate to protect the Government from loss should the successful bidder fail to execute further contractual documents and bonds as required. The bid guarantee amount shall be at least 20 percent of the bid price but shall not exceed $3 million. When the penal sum is expressed as a percentage, a maximum dollar limitation may be stated.

28.101-3 Contract clause.

(a) When a bid guarantee is required, the solicitation shall contain a statement to that effect, and provide sufficient details for bidders to determine the amount of the bid guarantee.

(b) The contracting officer shall insert the clause at 52.228-1, Bid Guarantee, in solicitations and contracts that contain a requirement for a bid guarantee. A clause substantially the same as this may be used for negotiated contracts.

28.101-4 Noncompliance with bid guarantee requirements.

Noncompliance with a solicitation requirement for a bid guarantee requires rejection of the bid, except in the following situations when the noncompliance shall be waived, unless the contracting officer determines in writing that acceptance of the bid would be detrimental to the Government's interest:

(a) Only one bid is received. In this case, the contracting officer may require the furnishing of the bid guarantee before award.

(b) The amount of the bid guarantee submitted is less than required but is equal to or greater than the difference between the bid price and the next higher acceptable bid.

(c) The amount of the bid guarantee submitted, although less than that required by the solicitation for the maximum quantity bid upon, is sufficient for a quantity for which the bidder is otherwise eligible for award. Any award to the bidder shall not exceed the quantity covered by the bid guarantee.

(d) The bid guarantee is received late, and late receipt is waived under 14.304.

(e) A bid guarantee becomes inadequate as a result of the correction of a mistake under 14.406 (but only if the bidder will increase the bid guarantee to the level required for the corrected bid).

(f) A telegraphic bid modification is received without corresponding modification of the bid guarantee, if the modification expressly refers to the previous bid and the bidder corrects any deficiency in the bid guarantee.

28.102 Performance and payment bonds for construction contracts.

28.102-1 General.

(a) The Miller Act (40 U.S.C. 270a-270f) requires performance and payment bonds for any construction contract exceeding $25,000, except that this requirement may be waived (1) by the contracting officer for as much of the work as is to be performed in a foreign country upon finding that it is impracticable for the contractor to furnish such bond, or (2) as otherwise authorized by the Miller Act or other law.

(b) The contractor shall furnish all bonds, including any necessary reinsurance agreements, before receiving a notice to proceed with the work or being allowed to start work.

28.102-2 Amount required.

(a) *Performance bonds.* (1) The penal amount of performance bonds shall be 100 percent of the original contract price, unless the contracting officer determines that a lesser amount would be adequate for the protection of the Government.

(2) The Government may require additional performance bond protection when a contract price is increased. The increase in protection shall generally equal 100 percent of the increase in contract price. The Government may secure additional protection by directing the contractor to increase the penal amount of the existing bond or to obtain an additional bond.

(b) *Payment bonds.* (1) The penal amount of payment bonds shall equal—

(i) 50 percent of the contract price if the contract price is not more than $1 million;

(ii) 40 percent of the contract price if the contract price is more than $1 million but not more than $5 million; or

(iii) $2 ½ million if the contract price is more than $5 million.

(2) If the original contract price is $5 million or less, the Government may require additional protection if the contract price is increased. The penal amount of the total protection as revised shall meet the requirement of subparagraph (1) immediately above.

(3) The Government shall secure additional protection by directing the contractor to increase the penal sum of the existing bond or to obtain an additional bond.

(c) *Requirements and indefinite-quantity contracts.* (1) When determining the penal sum of bonds for requirements contracts, the contracting officer shall consider the contract price

to be the price payable for the estimated quantity.

(2) When determining the penal sum of bonds for indefinite-quantity contracts, the contracting officer shall consider the contract price to be the price payable for the specified minimum quantity. When the minimum quantity is exceeded, subparagraphs (a)(2) and (b)(2) above apply.

28.102-3 Solicitation requirements.

When performance or payment bonds are required, the solicitation shall specify—

(a) The requirement for the bond(s);

(b) The penal sum of each bond (expressed either as a fixed sum or percentage of the contract price) or penal coverage required in case of annual bonds; and

(c) The deadline for submitting acceptable bonds.

28.103 Performance and payment bonds for other than construction contracts.

28.103-1 General.

(a) Generally, agencies shall not require performance and payment bonds for other than construction contracts. However, performance and payment bonds may be used as permitted in 28.103-2 and 28.103-3.

(b) The contractor shall furnish all bonds before receiving a notice to proceed with the work.

(c) No bond shall be required after the contract has been awarded if it was not specifically required in the contract, except as may be determined necessary for a contract modification.

28.103-2 Performance bonds.

(a) Performance bonds may be required when necessary to protect the Government's interest. The following situations may warrant a performance bond:

(1) Government property or funds are to be provided to the contractor for use in performing the contract or as partial compensation (as in retention of salvaged material).

(2) A contractor sells assets to or merges with another concern, and the Government, after recognizing the latter concern as the successor in interest, desires assurance that it is financially capable.

(3) Substantial progress payments are made before delivery of end items starts.

(4) Contracts are for dismantling, demolition, or removal of improvements.

(b) When a performance bond is required, the solicitation shall contain the information in 28.102-3.

(c) The Government may require additional performance bond protection when a contract price is increased.

(d) The contracting officer must determine the contractor's responsibility (see Subpart 9.1) even though a bond has been or can be obtained.

28.103-3 Payment bonds.

(a) A payment bond is required only when a performance bond is required, and if the use of payment bond is in the Government's interest.

(b) The contracting officer shall determine the penal amount of a payment bond.

(c) When a payment bond is required, the solicitation shall contain the information in 28.102-3.

(d) When a contract price is increased, the Government may require additional bond protection in an amount adequate to protect suppliers of labor and material.

28.104 Annual performance bonds.

(a) Annual performance bonds only apply to non-construction contracts. They shall provide a gross penal sum applicable to the total amount of all covered contracts.

(b) When the penal sums obligated by contracts are approximately equal to or exceed the penal sum of the annual performance bond, an additional bond will be required to cover additional contracts.

28.105 Other types of bonds.

The head of the contracting activity may approve using other types of bonds in connection with acquiring particular supplies or services. These types include advance payment bonds and patent infringement bonds.

28.105-1 Advance payment bonds.

Advance payment bonds may be required only when the contract contains an advance payment provision and a performance bond is not furnished. The contracting officer shall determine the amount of the advance payment bond necessary to protect the Government.

28.105-2 Patent infringement bonds.

(a) Contracts providing for patent indemnity may require these bonds only if—

(1) A performance bond is not furnished; and

(2) The financial responsibility of the contractor is unknown or doubtful.

(b) The contracting officer shall determine the penal sum.

28.106 Administration.

28.106-1 Bonds and bond related forms.

The following standard forms (SF's), shown in 53.301, shall be used, except in foreign countries, when a bid bond, performance or payment bond, or an individual surety is required. The bond forms shall be used as indicated in the instruction portion of each form.

(a) SF 24, Bid Bond (see 28.101).

(b) SF 25, Performance Bond (see 28.102-1 and 28.106-3(b)).

(c) SF 25-A, Payment Bond (see 28.103-3 and 28.106-3(b)).

(d) SF 25-B, Continuation Sheet (for SF's 24, 25, and 25-A).

(e) SF 28, Affidavit of Individual Surety (see 28.202-2(a)).

(f) SF 34, Annual Bid Bond (see 28.001).

(g) SF 35, Annual Performance Bond (see 28.104).

(h) SF 273, Reinsurance Agreement for a Miller Act Performance Bond (see 28.202-1(a)(4)).

(i) SF 274, Reinsurance Agreement for a Miller Act Payment Bond (see 28.202-1(a)(4)).

(j) SF 275, Reinsurance Agreement in Favor of the United States (see 28.202-1(a)(4)).

(k) SF 1414, Consent of Surety (see 28.106-5).

(l) SF 1415, Consent of Surety and Increase of Penalty (see 28.106-3).

(m) SF 1416, Payment Bond for Other Than Construction Contracts (see 28.103-3).

28.106-2 Substitution of surety bonds.

(a) A new surety bond covering all or part of the obligations on a bond previously approved may be substituted for the original bond if approved by the head of the contracting activity.

(b) When a new surety bond is approved, the contracting officer shall notify the principal and surety of the original bond of the effective date of the new bond.

28.106-3 Additional bond.

(a) When additional bond coverage is required and is furnished in whole or in part by the original surety or sureties, agencies shall use Standard Form 1415, Consent of Surety and Increase of Penalty.

(b) When additional coverage is furnished in whole or in part by a new surety, agencies shall use Standard Form 25, Performance Bond or Standard Form 25-A, Payment Bond.

28.106-4 Contract clause.

The contracting officer shall insert the clause at 52.228-2, Additional Bond

Security, in solicitations and contracts when bonds are required.

28.106-5 Consent of surety.

(a) When any contract is modified, the contracting officer shall obtain the consent of surety if—

(1) An additional bond is obtained from other than the original surety;

(2) No additional bond is required and—

(i) The modification is for new work beyond the scope of the original contract; or

(ii) The modification does not change the contract scope but changes the contract price (upward or downward) by more than 25 percent or $50,000; or

(3) Consent of surety is required for a novation agreement (See Subpart 42.12).

(b) Agencies shall use Standard Form 1414, Consent of Surety, for all types of contracts.

28.106-6 Furnishing information.

(a) The surety on the bond, upon its written request, may be furnished information on the progress of the work, payments, and the estimated percentage of completion, concerning the contract for which the bond was furnished.

(b) When a payment bond has been provided, the contracting officer shall, upon request, furnish the name and address of the surety or sureties to any subcontractor or supplier who has furnished or been requested to furnish labor or material for the contract. In addition, general information concerning the work progress, payments, and the estimated percentage of completion may be furnished to persons who have provided labor or materials and have not been paid.

28.106-7 Withholding contract payments.

(a) During contract performance, agencies shall not withhold payments due contractors or assignees because subcontractors or suppliers have not been paid.

(b) If, after completion of the contract work, the Government receives written notice from the surety regarding the contractor's failure to meet its obligation to its subcontractors or suppliers, the contracting officer shall withhold final payment. However, the surety must agree to hold the Government harmless from any liability resulting from withholding the final payment. The contracting officer will authorize final payment upon agreement between the contractor and surety or upon a judicial determination of the rights of the parties.

(c) For any withholding incident to the labor standards provisions of the contract, see Part 22.

SUBPART 28.2—SURETIES

28.200 Scope of subpart.

This subpart prescribes procedures for the use of sureties to protect the Government from financial losses.

28.201 Requirements for sureties.

(a) Agencies shall obtain adequate security for bonds (including coinsurance and reinsurance agreements) required or used with a contract for supplies or services (including construction). Acceptable forms of security include (1) corporate or individual sureties or (2) any of the types of security authorized in lieu of sureties by 28.203.

(b) Solicitations shall not preclude offerors from using the types of surety or security permitted by this subpart, unless prohibited by law or regulation.

28.202 Acceptable sureties.

28.202-1 Corporate sureties.

(a) (1) Corporate sureties offered for bonds furnished with contracts performed in the United States, its possessions, or Puerto Rico must appear on the list contained in the Department of the Treasury Circular 570, "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and Acceptable Reinsuring Companies."

(2) The penal amount of the bond should not exceed the surety's underwriting limit stated in the Department of the Treasury circular. If the penal amount exceeds the underwriting limit, the bond will be acceptable only if (i) the amount which exceeds the specified limit is coinsured or reinsured and (ii) the amount of coinsurance or reinsurance does not exceed the underwriting limit of each coinsurer or reinsurer.

(3) Coinsurance or reinsurance agreements shall conform to the Department of the Treasury regulations in 31 CFR 223.10 and 223.11. When reinsurance is contemplated, the contracting office generally shall require reinsurance agreements to be executed and submitted with the bonds before making a final determination on the bonds.

(4) When specified in the solicitation, the contracting officer may accept a bond from the direct writing company in satisfaction of the total bond requirement of the contract. This is permissible until necessary reinsurance agreements are executed, even though the total bond requirement may exceed the insurer's underwriting limitation. The contractor shall execute and submit necessary reinsurance agreements to the contracting officer within the time specified on the bid form, which may not exceed 45 calendar days after the execution of the bond. The contractor shall use Standard Form 273, Reinsurance Agreement for a Miller Act Performance Bond, and Standard Form 274, Reinsurance Agreement for a Miller Act Payment Bond, when reinsurance is furnished with Miller Act bonds. Standard Form 275, Reinsurance Agreement in Favor of the United States, is used when reinsurance is furnished with bonds for other purposes.

(b) For contracts performed in a foreign country, sureties not appearing on Treasury Department Circular 570 are acceptable if the contracting officer determines that it is impracticable for the contractor to use Treasury listed sureties.

(c) The Department of the Treasury issues supplements to Circular 570, notifying all Federal agencies of (1) new approved corporate surety companies and (2) the termination of the authority of any specific corporate surety to qualify as a surety on Federal bonds. Upon receipt of notification of termination of a company's authority to qualify as a surety on Federal bonds, the contracting officer shall review the outstanding contracts and take action necessary to protect the Government, including, where appropriate, securing new bonds with acceptable sureties in lieu of outstanding bonds with the named company.

(d) The Department of the Treasury Circular 570 is obtainable from the U.S. Treasury Department, Bureau of Government Financial Operations, Audit Staff, Washington, DC 20226.

28.202-2 Individual sureties.

(a) Individual sureties are acceptable for all types of bonds except position schedule bonds. The contracting officer shall determine the acceptability of individuals proposed as sureties. At least two individual sureties must execute the bond and the net worth of each individual must equal or exceed penal amount of the bond. Contracting officers shall consider the number and amounts of other bonds upon which a proposed individual surety is bound, and the status of the contracts for which such bonds were furnished, in determining the acceptability of the individual surety. (See the instructions on the reverse of Standard Form 28, Affidavit of Individual Surety, 53.301-28.)

(b) Each individual surety shall execute Standard Form 28. The information provided is helpful in determining the net worth of proposed individual sureties.

(c) To ascertain the continuing acceptability of individual sureties, the official executing the Certificate of Sufficiency is required to execute further certificates, as contemplated by Instruction 5 on Standard Form 28, as often as the agency considers it appropriate. Agencies may require further certificates indicating additional assets or a new surety to assure protection of the Government's interest.

28.203 Options in lieu of sureties.

The contractor may deposit any of the types of security listed in this section instead of furnishing corporate or individual sureties on performance and payment bonds. When any of those types of security are deposited, a statement shall be incorporated in the bond form pledging the security. The contractor shall execute the bond forms as the principal. Agencies shall establish safeguards to protect against loss of the security and shall return the security or its equivalent to the contractor when the bond obligation has ceased.

28.203-1 United States bonds or notes.

Any person required to furnish a bond to the Government has the option, instead of furnishing a surety or sureties on the bond, of depositing certain United States bonds or notes in an amount equal at their par value to the penal sum of the bond (the Act of February 24, 1919 (6 U.S.C. 15) and Treasury Department Circular No. 154 dated February 6, 1935 (31 CFR Part 225)). In addition, a duly executed power of attorney and agreement authorizing the collection or sale of such United States bonds or notes in the event of default of the principal on the bond shall accompany the deposited bonds or notes. The contracting officer may (a) turn securities over to the finance or other authorized agency official, or (b) deposit them with the Treasurer of the United States, a Federal Reserve Bank (or branch with requisite facilities), or other depository designated for that purpose by the Secretary of the Treasury, under procedures prescribed by the agency concerned and Treasury Department Circular No. 154 (exception: The contracting officer shall deposit all bonds and notes received in the District of Columbia with the Treasurer of the United States).

28.203-2 Certified or cashier's checks, bank drafts, money orders, or currency.

Any person required to furnish a bond has an option to furnish a certified or cashier's check, bank draft, Post Office money order, or currency, in an amount equal to the penal sum of the bond, instead of furnishing surety or sureties on the bonds. Those furnishing checks, drafts, or money orders shall draw them to the order of the appropriate Federal agency.

SUBPART 28.3—INSURANCE

28.301 Policy.

Contractors shall be required to carry insurance under the following circumstances:

(a) (1) The Government requires any contractor subject to Cost Accounting Standard (CAS) 416 (4 CFR 416) to obtain insurance, by purchase or self-coverage, for the perils to which the contractor is exposed, except when (i) the Government, by providing in the contract in accordance with law, agrees to indemnify the contractor under specified circumstances or (ii) the contract specifically relieves the contractor of liability for loss of or damage to Government property.

(2) The Government reserves the right to disapprove the purchase of any insurance coverage not in the Government's interest.

(3) Allowability of the insurance program's cost shall be determined in accordance with the criteria in 31.205-19.

(b) Contractors, whether or not their contracts are subject to CAS 416, are required by law and this regulation to provide insurance for certain types of perils (e.g., workers' compensation). Insurance is mandatory also when commingling of property, type of operation, circumstances of ownership, or condition of the contract make it necessary for the protection of the Government. The minimum amounts of insurance required by this regulation (see 28.307-2) may be reduced when a contract is to be performed outside the United states, its possessions, and Puerto Rico. When more than one agency is involved, the agency responsible for review and approval of a contractor's insurance program shall coordinate with other interested agencies before acting on significant insurance matters.

28.302 Notice of cancellation or change.

When the Government requires the contractor to provide insurance coverage, the policies shall contain an endorsement that any cancellation or material change in the coverage adversely affecting the Government's interest shall not be effective unless the insurer or the contractor gives written notice of cancellation or change as required by the contracting officer. When the coverage is provided by self-insurance, the contractor shall not change or decrease the coverage without the administrative contracting officer's prior approval (see 28.308(c)).

28.303 Insurance against loss of or damage to Government property.

When the Government requires or approves insurance to cover loss of or damage to Government property (see 45.103, Responsibility and liability for Government property), it may be provided by specific insurance policies or by inclusion of the risks in the contractor's existing policies. The policies shall disclose the Government's interest in the property.

28.304 Risk-pooling arrangements.

Agencies may establish risk-pooling arrangements. These arrangements are designed to use the services of the insurance industry for safety engineering and the handling of claims at minimum cost to the Government. The agency responsible shall appoint a single manager or point of contact for each arrangement.

28.305 Overseas workers' compensation and war-hazard insurance.

(a) "Public-work contract," as used in this subpart, means any contract for a fixed improvement or for any other project, fixed or not, for the public use of the United States or its allies, involving construction, alteration, removal, or repair, including projects or operations under service contracts and projects in connection with the national defense or with war activities, dredging, harbor improvements, dams, roadways, and housing, as well as preparatory and ancillary work in connection therewith at the site or on the project.

(b) The Defense Base Act (42 U.S.C. 1651 et seq.) extends the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 901) to various classes of employees working outside the United States, including those engaged in performing—

(1) Public-work contracts; or

(2) Contracts approved or financed under the Foreign Assistance Act of 1961 (Pub. L. 87-195) other than (i) contracts approved or financed by the Development Loan Fund (unless the Secretary of Labor, acting upon the recommendation of a department or agency, determines that such contracts should be covered) or (ii) contracts exclusively for materials or supplies.

(c) When the Defense Base Act applies (see 42 U.S.C. 1651 et seq.) to these employees, the benefits of the Longshoremen's and Harbor Workers' Compensation Act are extended through operation of the War Hazards Compensation Act (42 U.S.C. 1701 et seq.) to protect the employees against

the risk of war hazards (injury, death, capture, or detention). When, by means of an insurance policy or a self-insurance program, the contractor provides the workers' compensation coverage required by the Defense Base Act, the contractor's employees automatically receive war-hazard risk protection.

(d) When the agency head recommends a waiver to the Secretary of Labor, the Secretary may waive the applicability of the Defense Base Act to any contract, subcontract, work location, or classification of employees.

(e) If the Defense Base Act is waived for some or all of the contractor's employees, the benefits of the War Hazards Compensation Act are automatically waived with respect to those employees for whom the Defense Base Act is waived. For those employees, the contractor shall provide workers' compensation coverage against the risk of work injury or death and assume liability toward the employees and their beneficiaries for war-hazard injury, death, capture, or detention. The contract shall provide either that the costs of this liability or the reasonable costs of insurance against this liability shall be allowed as a cost under the contract.

28.306 Insurance under fixed-price contracts.

(a) *General.* Although the Government is not ordinarily concerned with the contractor's insurance coverage if the contract is a fixed-price contract, in special circumstances agencies may specify insurance requirements under fixed-price contracts. Examples of such circumstances include the following:

(1) The contractor is—or has a separate operation—engaged principally in Government work.

(2) Government property is involved.

(3) The work is to be performed on a Government installation.

(4) The Government elects to assume risks for which the contractor ordinarily obtains commercial insurance.

(b) *Work on a Government installation.* (1) When the clause at 52.228-5, Insurance—Work on a Government Installation, is required to be included in a fixed-price contract by 28.310, the coverage specified in 28.307 is the minimum insurance required and shall be included in the contract Schedule or elsewhere in the contract. The contracting officer may require additional coverage and higher limits.

(2) When the clause at 52.228-5, Insurance—Work on a Government Installation, is not required by 28.310 but is included because the contracting officer considers it to be in the Government's interest to do so, any of the types of insurance specified in 28.307 may be omitted or the limits may be lowered, if appropriate.

28.307 Insurance under cost-reimbursement contracts.

Cost-reimbursement contracts (and subcontracts, if the terms of the prime contract are extended to the subcontract) ordinarily require the types of insurance listed in 28.307-2, with the minimum amounts of liability indicated. (See 28.308 for self-insurance.)

28.307-1 Group insurance plans.

(a) *Prior approval requirement.* Under cost-reimbursement contracts, before buying insurance under a group insurance plan, the contractor must submit the plan for approval, in accordance with agency regulations. Any change in benefits provided under an approved plan that can reasonably be expected to increase significantly the cost to the Government requires similar approval.

(b) *Premium refunds or credits.* The plan shall provide for the Government to share in any premium refunds or credits paid or otherwise allowed to the contractor. In determining the extent of the Government's share in any premium refunds or credits, any special reserves and other refunds to which the contractor may be entitled in the future shall be taken into account.

28.307-2 Liability.

(a) *Workers' compensation and employer's liability.* Contractors are required to comply with applicable Federal and State workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least $100,000 shall be required, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers. (See 28.305(c) for treatment of contracts subject to the Defense Base Act.)

(b) *General liability.* (1) The contracting officer shall require bodily injury liability insurance coverage written on the comprehensive form of policy of at least $500,000 per occurrence.

(2) Property damage liability insurance shall be required only in special circumstances as determined by the agency.

(c) *Automobile liability.* The contracting officer shall require automobile liability insurance written on the comprehensive form of policy. The policy shall provide for bodily injury and property damage liability covering the operation of all automobiles used in connection with performing the contract. Policies covering automobiles operated in the United States shall provide coverage of at least $200,000 per person and $500,000 per occurrence for bodily injury and $20,000 per occurrence for property damage. The amount of liability coverage on other policies shall be commensurate with any legal requirements of the locality and sufficient to meet normal and customary claims.

(d) *Aircraft public and passenger liability.* When aircraft are used in connection with performing the contract, the contracting officer shall require aircraft public and passenger liability insurance. Coverage shall be at least $200,000 per person and $500,000 per occurrence for bodily injury, other than passenger liability, and $200,000 per occurrence for property damage. Coverage for passenger liability bodily injury shall be at least $200,000 multiplied by the number of seats or passengers, whichever is greater.

(e) *Vessel liability.* When contract performance involves use of vessels, the contracting officer shall require, as determined by the agency, vessel collision liability and protection and indemnity liability insurance.

28.308 Self-insurance.

(a) When it is anticipated that 50 percent or more of the self-insurance costs to be incurred at a segment (see 30.102) of a contractor's business will be allocable to negotiated Government contracts, and the self-insurance costs at the segment for the contractor's fiscal year are expected to be $200,000 or more, the contractor shall submit, in writing, information on its proposed self-insurance program to the administrative contracting officer and obtain that official's approval of the program. The submission shall be by segment or segments of the contractor's business to which the program applies and shall include—

(1) A complete description of the program, including any resolution of the board of directors authorizing and adopting coverage, including types of risks, limits of coverage, assignments of safety and loss control, and legal service responsibilities;

(2) If available, the corporate insurance manual and organization chart detailing fiscal responsibilities for insurance;

(3) The terms regarding insurance coverage for any Government property;

(4) The contractor's latest financial statements;

(5) Any self-insurance feasibility studies or insurance market surveys reporting comparative alternatives;

(6) Loss history, premiums history, and industry ratios;

(7) A formula for establishing reserves, including percentage variations between losses paid and losses reserved;

(8) Claims administration policy, practices, and procedures;

(9) The method of calculating the projected average loss; and

(10) A disclosure of all captive insurance company and re-insurance agreements, including methods of computing cost.

(b) Programs of self-insurance covering a contractor's insurable risks, including the deductible portion of purchased insurance, may be approved when examination of a program indicates that its application is in the Government's interest. Agencies shall not approve a program of self-insurance for workers' compensation in a jurisdiction where workers' compensation does not completely cover the employer's liability to employees, unless the contractor—

(1) Maintains an approved program of self-insurance for any employer's liability not so covered; or

(2) Shows that the combined cost to the Government of self-insurance for workers' compensation and commercial insurance for employer's liability will not exceed the cost of covering both kinds of risk by commercial insurance.

(c) Once the administrative contracting officer has approved a program, the contractor must submit to that official for approval any major proposed changes to the program. Any program approval may be withdrawn if a contracting officer finds that either (1) any part of a program does not comply with the requirements of this subpart and/or the criteria at 31.205-19 or (2) conditions or situations existing at the time of approval that were a basis for original approval of the program have changed to the extent that a program change is necessary.

(d) To qualify for a self-insurance program, a contractor must demonstrate ability to sustain the potential losses involved. In making the determination, the contracting officer shall consider the following factors:

(1) The soundness of the contractor's financial condition, including available lines of credit.

(2) The geographic dispersion of assets, so that the potential of a single loss depleting all the assets is unlikely.

(3) The history of previous losses, including frequency of occurrence and the financial impact of each loss.

(4) The type and magnitude of risk, such as minor coverage for the deductible portion of purchased insurance or major coverage for hazardous risks.

(5) The contractor's compliance with Federal and State laws and regulations.

(e) Agencies shall not approve a program of self-insurance for catastrophic risks (e.g., see 50.403, Special procedures for unusually hazardous or nuclear risks). Should performance of Government contracts create the risk of catastrophic losses, the Government may, to the extent authorized by law, agree to indemnify the contractor or recognize an appropriate share of premiums for purchased insurance, or both.

(f) Self-insurance programs to protect a contractor against the costs of correcting its own defects in materials or workmanship shall not be approved. For these purposes, normal rework estimates and warranty costs will not be considered self-insurance.

28.309 Contract clauses for workers' compensation insurance.

(a) The contracting officer shall insert the clause at 52.228-3, Workers' Compensation Insurance (Defense Base Act), in solicitations and contracts when the Defense Base Act applies (see 28.305) and—

(1) The contract will be a public-work contract performed outside the United States; or

(2) The contract will be approved or financed under the Foreign Assistance Act of 1961 (Pub. L. 87-195) and is not excluded by 28.305(b)(2).

(b) The contracting officer shall insert the clause at 52.228-4, Workers' Compensation and War-Hazard Insurance Overseas, in solicitations and contracts when the contract will be a public-work contract performed outside the United States and the Secretary of Labor waives the applicability of the Defense Base Act (see 28.305(d)).

28.310 Contract clause for work on a Government installation.

(a) The contracting officer shall insert the clause at 52.228-5, Insurance—Work on a Government Installation, in solicitations and contracts when a fixed-price contract is contemplated, the contract amount is expected to be over the appropriate small purchase limitation in Part 13, and the contract will require work on a Government installation, unless—

(1) Only a small amount of work is required on the Government installation (e.g., a few brief visits per month); or

(2) All work on the Government installation is to be performed outside the United States, its possessions, and Puerto Rico.

(b) The contracting officer may insert the clause at 52.228-5 in solicitations and contracts described in (a)(1) and (2) above if it is in the Government's interest to do so.

28.311 Solicitation provision and contract clause on liability insurance under cost-reimbursement contracts.

28.311-1 Solicitation provision.

The contracting officer shall insert the provision at 52.228-6, Insurance—Immunity from Tort Liability, in solicitations for research and development when a cost-reimbursement contract is contemplated, unless the head of the contracting activity waives the requirement for use of the clause at 52.228-7, Insurance—Liability to Third Persons.

28.311-2 Contract clause.

The contracting officer shall insert the clause at 52.228-7, Insurance—Liability to Third Persons, in solicitations and contracts, other than those for construction contracts and those for architect-engineer services, when a cost-reimbursment contract is contemplated, unless the head of the contracting activity waives the requirement for use of the clause. If the solicitation includes the provision at 52.228-6, Insurance—Immunity from Tort Liability, and the successful offeror represents in the offer that the offeror is *partially* immune from tort liability as a State agency or as a charitable institution, the contracting officer shall use the clause with its Alternate I. If the solicitation includes the provision at 52.228-6, Insurance—Immunity from Tort Liability, and the successful offeror represents in the offer that the offeror is *totally* immune from tort liability as a State agency or as a charitable institution, the contracting officer shall use the clause with its Alternate II.

28.312 Contract clause for insurance of leased motor vehicles.

The contracting officer shall insert the clause at 52.228-8, Liability and Insurance—Leased Motor Vehicles, in solicitations and contracts for the

leasing of motor vehicles (see Subpart 8.11).

28.313 Contract clauses for insurance of transportation or transportation-related services.

(a) The contracting officer shall insert the clause at 52.228-9, Cargo Insurance, in solicitations and contracts for transportation or for transportation-related services, except when freight is shipped under rates subject to released or declared value.

(b) The contracting officer shall insert a clause substantially the same as that at 52.228-10, Vehicular and General Public Liability Insurance, in solicitations and contracts for transportation or for transportation-related services when the contracting officer determines that vehicular liability or general public liability insurance required by law is not sufficient.

PART 29—TAXES

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

29.000 Scope of part.

This part prescribes policies and procedures for (a) using tax clauses in contracts (including foreign contracts), (b) asserting immunity or exemption from taxes, and (c) obtaining tax refunds. It explains Federal, State, and local taxes on certain supplies and services acquired by executive agencies and the applicability of such taxes to the Federal Government. It is for the general information of Government personnel and does not present the full scope of the tax laws and regulations.

SUBPART 29.1—GENERAL

29.101 Resolving tax problems.

(a) Contract tax problems are essentially legal in nature and vary widely. Specific tax questions must be resolved by reference to the applicable contract terms and to the pertinent tax laws and regulations. Therefore, when tax questions arise, contracting officers should request assistance from the agency-designated legal counsel.

(b) To keep treatment within an agency consistent, contracting officers or other authorized personnel shall consult the agency-designated counsel before negotiating with any taxing authority for the purpose of (1) determining whether or not a tax is valid or applicable or (2) obtaining exemption from, or refund of, a tax.

(c) When the constitutional immunity of the Government from State or local taxation may reasonably be at issue, contractors should be discouraged from negotiating independently with taxing authorities if the contract involved is either (1) a cost-reimbursement contract or (2) a fixed-price contract containing a tax escalation clause.

(d) Before purchasing goods or services from a foreign source, the contracting officer should consult the agency-designated counsel (1) for information on foreign tax treaties and agreements in force and on the implementation of any foreign-tax-relief programs and (2) to resolve any other tax questions affecting the prospective contract.

SUBPART 29.2—FEDERAL EXCISE TAXES

29.201 General.

(a) Federal excise taxes are levied on the sale or use of particular supplies or services. Subtitle D of the Internal Revenue Code of 1954, Miscellaneous Excise Taxes, 26 U.S.C. 4041 et seq., and its implementing regulations, 26 CFR 40 through 299, cover miscellaneous federal excise tax requirements. Questions arising in this area should be directed to the agency-designated counsel. The most common excise taxes are—

(1) Manufacturers' excise taxes imposed on certain motor-vehicle articles, tires and inner tubes, gasoline, lubricating oils, coal, fishing equipment, firearms, shells, and cartridges sold by manufacturers, producers, or importers; and

(2) Special-fuels excise taxes imposed at the retail level on diesel fuel and special motor fuels.

(b) Sometimes the law exempts the Federal Government from these taxes. Contracting officers should solicit prices on a tax-exclusive basis when it is known that the Government is exempt from these taxes and the exemption is at least $100, and on a tax-inclusive basis when no exemption exists or the exemption is less than $100.

(c) Executive agencies shall take maximum advantage of available Federal excise tax exemptions, especially when the exemption is $100 or more. In addition, refunds amounting to $100 or more shall be claimed.

29.202 General exemptions.

No Federal manufacturers' or special-fuels excise taxes are imposed in many contracting situations as, for example, when the supplies are for any of the following:

(a) The exclusive use of any State or political subdivision, including the District of Columbia (26 U.S.C. 4041 and 4221).

(b) Shipment to a United States possession or Puerto Rico, or for export. Shipment or export must occur within 6 months of the time title passes to the Government. When the exemption is claimed, the words "for export or shipment to a possession" must appear on the contract or purchase document, and the contracting officer must furnish the seller proof of export (see 26 CFR 48.4041-12).

(c) Further manufacture, or resale for further manufacture (this exemption does not include tires and inner tubes) (26 U.S.C. 4221).

(d) Use as fuel supplies, ships or sea stores, or legitimate equipment on vessels of war, including (1) aircraft owned by the United States and constituting a part of the armed forces and (2) guided missiles and pilotless aircraft owned or chartered by the United States. When this exemption is to be claimed, the purchase should be made on a tax-exclusive basis. The contracting officer shall furnish the seller an exemption certificate for Supplies for Vessels of War (an example is given in 26 CFR 48.4041-9(c); the IRS will accept one certificate covering all orders under a single contract for a specified period of up to 12 calendar quarters). (26 U.S.C. 4041 and 4221)

(e) A nonprofit educational organization (26 U.S.C. 4041 and 4221).

(f) Emergency vehicles (26 U.S.C. 4064(a) and 4064(b)(1)(c)).

SUBPART 29.3—STATE AND LOCAL TAXES

29.300 Scope of subpart.

This subpart prescribes the policies and procedures regarding the exemption or immunity of Federal Government purchases and property from State and local taxation.

29.301 Definition.

"State and local taxes" means taxes levied by the States, the District of Columbia, Puerto Rico, possessions of the United States, or their political subdivisions.

29.302 Application of State and local taxes to the Government.

(a) Generally, purchases and leases made by the Federal Government are immune from State and local taxation. Whether any specific purchase or lease is immune, however, is a legal question requiring advice and assistance of the agency-designated counsel.

(b) When it is economically feasible to do so, executive agencies shall take maximum advantage of all exemptions from State and local taxation that may be available. If appropriate, the contracting officer shall provide a Standard Form 1094, U.S. Tax Exemption Certificate (see Part 53), or other evidence listed in 29.305(a) to establish that the purchase is being made by the Government.

29.303 Application of State and local taxes to Government contractors and subcontractors.

(a) Prime contractors and subcontractors shall not normally be designated as agents of the Government for the purpose of claiming immunity from State or local sales or use taxes. Before any activity contends that a contractor is an agent of the Government, the matter shall be referred to the agency head for review. The referral shall include all pertinent data on which the contention is based, together with a thorough analysis of all relevant legal precedents.

(b) When purchases are not made by the Government itself, but by a prime contractor or by a subcontractor under a prime contract, the right to an exemption of the transaction from a sales or use tax may not rest on the Government's immunity from direct taxation by States and localities. It may rest instead on provisions of the particular State or local law involved, or, in some cases, the transaction may not in fact be expressly exempt from the tax. The Government's interest shall be protected by using the procedures in 29.101.

(c) Frequently, property (including property acquired under the progress payments clause of fixed-price contracts or the Government property clause of cost-reimbursement contracts) owned by the Government is in the possession of a contractor or subcontractor. Situations may arise in which States or localities assert the right to tax Government property directly or to tax the contractor's or subcontractor's possession of, interest in, or use of that property. In such cases, the contracting officer shall seek review and advice from the agency-designated counsel on the appropriate course of action.

29.304 Matters requiring special consideration.

The imposition of State and local taxes may result in special contract considerations including the following:

(a) With coordination of the agency-designated counsel, a contract may (1) state that the contract price includes or excludes a specified tax or (2) require that the contractor take certain actions with regard to payment, nonpayment, refund, protest, or other treatment of a specified tax. Such special treatment may be appropriate when there is doubt as to the applicability or allocability of the tax, or when the applicability of the tax is being litigated.

(b) The applicability of State and local taxes to purchases by the Federal Government may depend on the place and terms of delivery. When the contract price will be substantial, alternative places and terms of delivery should be considered in light of possible tax consequences.

(c) Indefinite-delivery contracts for equipment rental may require the contractor to furnish equipment in any of the States. Since leased equipment remains the contractor's property, States and local governments impose a wide variety of property, use, or other taxes on equipment leased to the Government. The amount of these taxes can vary considerably from jurisdiction to jurisdiction. See 29.401-1 for the prescription of the contract clause to be included in contracts when delivery points are not known at time of contracting.

(d) The North Carolina State and local sales and use tax.

(1) The North Carolina Sales and Use Tax Act authorizes counties and incorporated cities and towns to obtain each year from the Commissioner of Revenue of the State of North Carolina a refund of sales and use taxes indirectly paid on building materials, supplies, fixtures, and equipment that become a part of or are annexed to any building or structure erected, altered, or repaired for such counties and incorporated cities and towns in North Carolina. In United States v. Clayton, 250 F. Supp. 827 (1965), it was held that the United States is entitled to the benefit of the refund, but must follow the refund procedure of the Act and the regulations to recover what it is due.

(2) The Act provides that, to receive the refund, claimants must file, within 6 months after the claimant's fiscal year closes, a written request substantiated by such records, receipts, and information as the Commissioner of Revenue may require. No refund will be made on an application not filed within the time allowed and in such manner as the Commissioner may require. The requirements of the Commissioner are set forth in regulations that provide that, to substantiate a refund claim for sales or use taxes paid on purchases of building materials, supplies, fixtures, or equipment by a contractor, the Government must secure from the contractor certified statements setting forth the cost of the property purchased from each vendor and the amount of sales or use taxes paid. In the event the contractor makes several purchases from the same vendor, the certified statement must indicate the invoice numbers, the inclusive dates of the invoices, the total amount of the invoices, and the sales and use taxes paid. The statement must also include the cost of any tangible personal property withdrawn from the contractor's warehouse stock and the amount of sales or use tax paid by the contractor. Similar certified statements by subcontractors must be obtained by the general contractor and furnished to the claimant. Any local sales or use taxes included in the contractor's statement must be shown separately from the State sales or use taxes.

(3) The clause prescribed at 29.401-2 requires contractors to submit to contracting officers by November 30 of each year a certified statement disclosing North Carolina State and local sales and use taxes paid during the 12-month period that ended the preceding September 30. The contracting officer shall ensure that contractors comply with this requirement and shall obtain the annual refund to which the Government may be entitled. The application for refund must be filed each year before March 31 and in the manner and form required by the Commissioner of Revenue. Copies of the form may be obtained from the State of North Carolina Department of Revenue, Raleigh, North Carolina 27602.

29.305 State and local tax exemptions.

(a) *Evidence of exemption.* Evidence needed to establish exemption from State or local taxes depends on the grounds for the exemption claimed, the parties to the transaction, and the requirements of the taxing jurisdiction. Such evidence may include the following:

(1) A copy of the contract or relevant portion.

(2) Copies of purchase orders, shipping documents, credit-card-imprinted sales slips, paid or acknowledged invoices, or similar documents that identify an agency or instrumentality of the United States as the buyer.

(3) A U.S. Tax Exemption Certificate (SF 1094).

(4) A State or local form indicating that the supplies or services are for the exclusive use of the United States.

(5) Any other State or locally required document for establishing general or specific exemption.

(6) Shipping documents indicating that shipments are in interstate or foreign commerce.

(b) *Furnishing proof of exemption.* If a reasonable basis to sustain a claimed exemption exists, the seller will be furnished evidence of exemption, as follows:

(1) Under a contract containing the clause at 52.229-3, Federal, State, and Local Taxes, or at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), in accordance with the terms of those clauses.

(2) Under a cost-reimbursement contract, if requested by the contractor and approved by the contracting officer or at the discretion of the contracting officer.

(3) Under a contract or purchase order that contains no tax provision, if (i) requested by the contractor and approved by the contracting officer or at the discretion of the contracting officer, and (ii) the contractor either certifies that the contract price does not include the tax or, if the transaction or property is tax exempt, consents to a reduction in the contract price.

SUBPART 29.4—CONTRACT CLAUSES

29.401 Domestic contracts.

29.401-1 Indefinite-delivery contracts for leased equipment.

The contracting officer shall insert the clause at 52.229-1, State and Local Taxes, in solicitations and contracts for leased equipment when a fixed-price indefinite-delivery contract is contemplated, the contract will be performed wholly or partly within the United States, its possessions, or Puerto Rico, and the place or places of delivery are not known at the time of contracting.

29.401-2 Construction contracts performed in North Carolina.

The contracting officer shall insert the clause at 52.229-2, North Carolina State and Local Sales and Use Tax, in solicitations and contracts for construction to be performed in North Carolina. If the requirement is for vessel repair to be performed in North Carolina, the clause shall be used with its Alternate I.

29.401-3 Advertised and certain negotiated contracts.

The contracting officer shall insert the clause at 52.229-3, Federal, State, and Local Taxes, in solicitations and contracts if the contract is to be performed wholly or partly within the United States, its possessions, or Puerto Rico when—

(a) Contracting by formal advertising, unless the requirement is for construction and the contract amount is expected to be less than the applicable small purchase limitation in Part 13; or

(b) Contracting by negotiation, if a fixed-price contract is contemplated and the contract amount is expected to be over the applicable small purchase limitation in Part 13, unless the clause at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), is included in the contract.

29.401-4 Noncompetitive negotiated contracts.

The contracting officer shall insert the clause at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), in fixed-price noncompetitive negotiated contracts over the applicable small purchase limitation in Part 13 to be performed wholly or partly within the United States, its possessions, or Puerto Rico when satisfied (a) that the contract price does not include contingencies for State and local taxes and (b) that, unless the clause is used, the contract price will include such contingencies. When the clause at 52.229-4 is included in a contract, the contracting officer shall ensure that the contract does *not* include the clause at 52.229-3, Federal, State, and Local Taxes.

29.401-5 Contracts performed in U.S. possessions or Puerto Rico.

The contracting officer shall insert the clause at 52.229-5, Taxes—Contracts Performed in U.S. Possessions or Puerto Rico, in solicitations and contracts that include the clause at 52.229-3, Federal, State, and Local Taxes, or 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract).

29.402 Foreign contracts.

29.402-1 Foreign fixed-price contracts.

(a) The contracting officer shall insert the clause at 52.229-6, Taxes—Foreign Fixed-Price Contracts, in solicitations and contracts when a fixed-price contract is contemplated and the contract is to be performed wholly or partly in a foreign country, unless it is contemplated that the contract will be with a foreign government.

(b) The contracting officer shall insert the clause at 52.229-7, Taxes—Fixed-Price Contracts With Foreign Governments, in solicitations and contracts when a fixed-price contract with a foreign government is contemplated.

29.402-2 Foreign cost-reimbursement contracts.

(a) The contracting officer shall insert the clause at 52.229-8, Taxes—Foreign Cost-Reimbursement Contracts, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract is to be performed wholly or partly in a foreign country, unless it is contemplated that the contract will be with a foreign government.

(b) The contracting officer shall insert the clause at 52.229-9, Taxes—Cost-Reimbursement Contracts with Foreign Governments, in solicitations and contracts when a cost-reimbursement contract with a foreign government is contemplated.

PART 30—COST ACCOUNTING STANDARDS

Sec.

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

30.000 Scope of part.

This part describes policies and procedures for applying the Cost Accounting Standards Board (CASB) standards and regulations (4 CFR 331 et seq.) to negotiated national defense contracts and subcontracts. This part also prescribes policies and procedures for applying those standards and regulations which the Administrator of General Services Administration, as a matter of policy, has directed to be applied to certain nondefense contracts. This part does not apply to formally advertised contracts or to any contract with a small business concern (see 30.301(b) for other exemptions).

SUBPART 30.1—GENERAL

30.101 Cost Accounting Standards.

(a) Pub. L. 91-379 (50 U.S.C. App. 2168) requires certain national defense contractors and subcontractors to comply with Cost Accounting Standards (CAS) published by the Cost Accounting Standards Board (CASB) and to disclose in writing and follow consistently their cost accounting practices.

(b) The obligation to comply with the CAS is extended to certain nondefense contracts as a matter of policy. Submission or revision of a Disclosure Statement is not required for any nondefense contract. However, if a Disclosure Statement has been submitted in connection with a CAS-covered defense contract, the contractor must also comply with such disclosed practices under nondefense CAS-covered contracts (see subparagraph (a)(1) of the clause at 52.230-3, Cost Accounting Standards). Further differences in application between national defense and nondefense contracts are explained in the appropriate sections throughout this part.

30.102 Definitions.

"Business unit" means any segment of an organization or an entire business organization that is not divided into segments.

"CAS-covered contract" means any negotiated contract or subcontract in which a CAS clause is required to be included.

"Currently performing," as used in this part, means that a contractor has been awarded a contract but has not yet received notification of final acceptance of all supplies, services, and data deliverable under the contract (including options).

"National defense," as used in this part, means any program for military and atomic energy production or construction, military assistance to any foreign nation, stockpiling, space, or directly related activity.

"Net awards," as used in this part, means the total obligated value of negotiated national defense prime contract and subcontract awards received during the reporting period minus cancellations, terminations, and other related credit transactions.

"Segment" means one of two or more divisions, product departments, plants, or other subdivisions of an organization reporting directly to a home office, in most cases identified with responsibility for profit and/or producing a product or service. The term includes Government-owned contractor-operated facilities and joint ventures and subsidiaries (domestic and foreign) in which the organization has a majority ownership. The term also includes those joint ventures and subsidiaries (domestic and foreign) in which the organization has less than a majority ownership, but over which it exercises control.

"Small business," as used in this part, means any concern, firm, person, corporation, partnership, cooperative, or other business enterprise which, under 15 U.S.C. 637(b)(6) and the rules and regulations of the Small Business Administration in Part 121 of Title 13 of the Code of Federal Regulations, is determined to be a small business concern for the purpose of Government contracting.

30.103 Cost Accounting Standards Board (CASB) publication.

Copies of the CASB standards and regulations may be obtained by writing the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, to request:

Publication Y3.C82:6ST2/976
Cost Accounting Standards Board Standards, Rules, and Regulations (RCASB)(File Code 1S)
$15.00 Domestic; $18.75 Foreign

Orders should include the requestor's name and number of copies ordered as well as all of the information above and a check or money order made payable to the Superintendent of Documents. The subscription includes the basic manual and any changes issued for an indefinite period until a complete revision is issued.

SUBPART 30.2—DISCLOSURE REQUIREMENTS

30.201 Disclosure Statement submission.

30.201-1 General requirements.

(a) A Disclosure Statement is a written description of a contractor's cost accounting practices and procedures in a format prescribed by the Cost Accounting Standards Board (CASB). The submission of a new or revised Disclosure Statement is not required for any nondefense contract or from any small business concern.

(b) Completed Disclosure Statements are required in the following circumstances:

(1) Any business unit that is selected to receive a CAS-covered negotiated national defense contract or subcontract of $10 million or more shall submit a Disclosure Statement before award.

(2) Any company which, together with its segments, received net awards of negotiated national defense prime contracts and subcontracts subject to CAS totaling more than $10 million in its most recent cost accounting period must submit a Disclosure Statement before award of its first CAS-covered contract in the immediately following cost accounting period. However, if the first CAS-covered contract is received within 90 days of the start of the cost accounting period, the contractor is not required to file until the end of 90 days.

(c) When a Disclosure Statement is required, a separate Disclosure Statement must be submitted for each segment whose costs included in the total price of any CAS-covered contract or subcontract exceed $100,000, unless the contract or subcontract is of the type or value exempted by 30.301. If the cost accounting practices are identical for more than one segment, then only one Disclosure Statement, clearly identifying each such segment, need be submitted. A Disclosure Statement will also be required for each corporate or group office whose costs of any amount are allocated to one or more segments performing CAS-covered contracts.

(d) Each corporate or other home office that allocates costs to one or more disclosing segments performing CAS-covered contracts must submit a Part VII of the Disclosure Statement.

(e) Foreign contractors and subcontractors who are required to submit a Disclosure Statement may, in

lieu of filing a Form No. CASB-DS-1, make disclosure by using a disclosure form prescribed by an agency of its Government, provided that the CASB determines that the information disclosed by that means will satisfy the objectives of Pub. L. 91-379. The use of alternative forms have been approved for the contractors of the following countries:

(1) Canada.

(2) Federal Republic of Germany.

30.201-2 Impracticality of submission.

The agency head may determine that it is impractical to secure the Disclosure Statement, although submission is required, and authorize contract award without obtaining the Statement. This authority may not be delegated.

30.201-3 Amendments and revisions.

(a) Contractors and subcontractors are responsible for maintaining accurate Disclosure Statements and complying with disclosed practices. Amendments and revisions to Disclosure Statements may be submitted at any time and may be proposed by either the contractor or the Government. Resubmission of complete, updated Disclosure Statements is discouraged except when extensive changes require it to assist the review process.

(b) Should the obligation to maintain the Disclosure Statement cease because the contractor no longer meets the financial thresholds, the contractor shall still be required to follow the disclosed practices for those contracts awarded during a period in which the contractor was obligated to submit a Disclosure Statement.

30.201-4 Privileged and confidential information.

If the offeror or contractor notifies the contracting officer that the Disclosure Statement contains trade secrets and commercial or financial information, which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside the Government.

30.201-5 Filing Disclosure Statements.

(a) Disclosure must be on Form Number CASB-DS-1. Forms may be obtained from the cognizant administrative contracting officer (ACO).

(b) Offerors are required to file Disclosure Statements as follows:

(1) Original and one copy with the cognizant ACO.

(2) One copy with the cognizant contract auditor.

(c) Amendments and revisions shall be submitted to the currently cognizant ACO and auditor.

30.202 Reviews.

30.202-1 Responsibilities.

(a) The contracting officer is responsible for determining when a proposed contract may require CAS coverage and for including the appropriate notice in the solicitation. The contracting officer must then ensure that the offeror has made the required solicitation certifications and that required Disclosure Statements are submitted.

(b) The contracting officer shall not award a CAS-covered contract until the ACO has made a written determination that a required Disclosure Statement is adequate unless, in order to protect the Government's interest, the contracting officer waives the requirement for an adequacy determination before award. In this event, a determination of adequacy shall be required as soon as possible after the award.

(c) The cognizant auditor is responsible for conducting reviews of Disclosure Statements for adequacy and compliance.

(d) The cognizant ACO is responsible for determinations of adequacy and compliance of the Disclosure Statement.

30.202-2 Procedures.

(a) *Adequacy determination.* The contract auditor shall conduct an initial review of a Disclosure Statement to ascertain whether it is current, accurate, and complete and shall report the results to the cognizant ACO, who shall determine whether or not it adequately describes the offeror's cost accounting practices. If the ACO identifies any areas of inadequacy, the ACO shall request a revised Disclosure Statement. If the Disclosure Statement is adequate, the ACO shall notify the offeror in writing, with copies to the auditor and contracting officer. The notice of adequacy shall state that a disclosed practice shall not, by virtue of such disclosure, be considered an approved practice for pricing proposals or accumulating and reporting contract performance cost data. Generally, the ACO shall furnish the contractor notification of adequacy or inadequacy within 30 days after the Disclosure Statement has been received by the ACO.

(b) *Compliance determination.* After the notification of adequacy, the auditor shall conduct a detailed compliance review to determine whether or not the disclosed practices comply with Part 31 and the CAS and shall advise the ACO of the results. The ACO shall take action regarding noncompliance with CAS under FAR 30.402-2. The ACO may require a revised Disclosure Statement and adjustment of the prime contract price or cost allowance. Noncompliance with Part 31 shall be processed separately in accordance with normal administrative practices.

30.203 Subcontractor Disclosure Statements.

(a) The contractor or higher tier subcontractor is responsible for administering the CAS requirements contained in subcontracts.

(b) If the subcontractor has previously furnished a Disclosure Statement to an ACO, the subcontractor may satisfy the submission requirement by identifying to the contractor or higher tier subcontractor the ACO to whom it was submitted.

(c) (1) If the subcontractor considers the Disclosure Statement (or other similar information) privileged or confidential, the subcontractor may submit it directly to the ACO and auditor cognizant of the subcontractor, notifying the contractor or higher tier subcontractor. A preaward determination of adequacy is not required in such cases. Instead, the ACO cognizant of the subcontractor shall (i) notify the auditor that the adequacy review will be performed during the postaward compliance review and, upon completion, (ii) notify the subcontractor, the contractor or higher tier subcontractor, and the cognizant ACO's of the findings.

(2) Even though a Disclosure Statement is not required, a subcontractor may (i) claim that CAS-related reviews by contractors or higher tier subcontractors would reveal proprietary data or jeopardize the subcontractor's competitive position and (ii) request that the Government perform the required reviews.

(d) When the Government requires price adjustment or determinations of adequacy, inadequacy, or noncompliance, the ACO cognizant of the subcontractor shall make such recommendations to the ACO cognizant of the prime contractor or next higher tier subcontractor. These recommendations shall be the basis of negotiations and execution of a supplemental agreement between the subcontractor and the next higher tier subcontractor or prime contractor, as applicable. ACO's cognizant of higher tier subcontractors or prime contractors shall not reverse the determination of the ACO cognizant of the subcontractor.

(e) Postaward submission of the subcontractor's Disclosure Statement (see 30.201-2) must be approved by the ACO having cognizance of the prime contractor. Before authorizing

postaward submission, the ACO shall coordinate with the ACO cognizant of the subcontractor to ensure that this action will not have an adverse impact on other contracts and subcontracts subject to the CAS requirements and with the contracting officer to obtain the information needed to make the required written determination.

(f) Any determination that it is impractical to secure a subcontractor's Disclosure Statement must be made in accordance with 30.201-3.

SUBPART 30.3—CAS CONTRACT REQUIREMENTS

30.301 CAS applicability.

(a) This section describes the rules for determining whether a proposed contract or subcontract is exempt from CAS. Negotiated contracts not exempt in accordance with 30.301(b) shall be subject to CAS. A CAS-covered contract may be subject to either full or modified coverage. The rules for determining whether full or modified coverage applies are in 30.302.

(b) The following categories of contracts and subcontracts are exempt from all CAS requirements:

(1) Formally advertised contracts.

(2) Negotiated contracts and subcontracts not in excess of $100,000.

(3) Contracts and subcontracts with small businesses.

(4) Contracts and subcontracts with foreign governments or their agents or instrumentalities or, insofar as the requirements of CAS *other than* CAS 401 and 402 are concerned, any contract or subcontract awarded to a foreign concern.

(5) Contracts and subcontracts in which the price is set by law or regulation.

(6) Contracts and subcontracts when the price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public (see 15.804-3(c)). A prospective contractor requesting exemption from CAS on this basis must provide supporting justification in accordance with 15.804-3(e). When the contracting officer determines that the justification is adequate, this exemption from CAS shall be used even though the award is made on the basis of adequate price competition.

(7) Contracts and subcontracts of $500,000 or less if the business unit is not currently performing any national defense CAS-covered contracts.

(8) Nondefense contracts awarded based on adequate price competition (see 15.804-3(c)).

(9) Nondefense contracts and subcontracts awarded to business units that are not currently performing any CAS-covered national defense contracts.

(10) Contracts and subcontracts with educational institutions other than those to be performed by federally funded research and development centers (FFRDC's) operated by such institutions.

(11) Contracts awarded to labor surplus area concerns pursuant to a labor surplus area set-aside (see Part 20).

(12) Contracts and subcontracts awarded to a United Kingdom contractor for performance substantially in the United Kingdom, provided that the contractor has filed with the United Kingdom Ministry of Defence, for retention by the Ministry, a completed Disclosure Statement (Form CASB-DB-1) which shall adequately describe its cost accounting practices. Whenever that contractor is already required to follow U.K. Government Accounting Conventions, the disclosed practices shall be in accord with the requirements of those conventions. (See 30.303-2(d)).

(13) Subcontracts under the NATO PHM Ship program to be performed outside the United States by a foreign concern.

(14) Contracts and subcontracts to be executed and performed entirely outside the United States, its territories, and possessions.

(15) Firm-fixed-price contracts and subcontracts awarded without submission of any cost data; *provided*, that the failure to submit such data is not attributable to a waiver of the requirement for certified cost or pricing data.

30.302 Types of CAS coverage.

(a) *Full coverage.* Full coverage requires that the business unit comply with all of the CAS in effect on the date of the contract award and with any CAS that become applicable because of later award of a national defense CAS-covered contract. However, the award of a new nondefense CAS-covered contract shall not trigger application of new CAS having effective dates later than the award date of the last national defense CAS-covered contract. Full coverage applies to contractor business units that—

(1) Receive a single national defense CAS-covered contract award of $10 million or more;

(2) Received $10 million or more in national defense CAS-covered contract awards during its preceding cost accounting period; or

(3) Received less than $10 million in national defense CAS-covered contract awards during its preceding cost accounting period but such awards were 10 percent or more of total sales.

(b) *Modified coverage.* (1) Modified CAS coverage requires only that the contractor comply with Standard 401, Consistency in Estimating, Accumulating, and Reporting Costs, and Standard 402, Consistency in Allocating Costs Incurred for the Same Purpose. Modified, rather than full, CAS coverage may be applied to a covered contract of less than $10 million awarded to a business unit that received less than $10 million in national defense CAS-covered contracts in the immediately preceding cost accounting period if the sum of such awards was less than 10 percent of the business unit's total sales during that period.

(2) If any one contract is awarded with modified CAS coverage, all CAS-covered contracts awarded to that business unit during that cost accounting period must also have modified coverage with the following exception: if the business unit receives a single national defense contract award of $10 million or more, that contract must be subject to full CAS coverage. Thereafter, any covered contract awarded in the same cost accounting period must also be subject to full CAS coverage.

(3) A contract awarded with modified CAS coverage shall remain subject to such coverage throughout its life regardless of changes in the business unit's CAS status during subsequent cost accounting periods.

(c) *Nondefense contracts.* Nondefense contracts subject to CAS shall have the same type of CAS coverage as the most recently awarded national defense contract currently being performed by the same business unit.

(d) *Subcontracts.* Subcontract awards subject to CAS require the same type of CAS coverage as would prime contracts awarded to the same business unit.

(e) *Foreign concerns.* Contracts with foreign concerns subject to CAS shall only be subject to modified coverage, but see 31.301(b)(2).

30.303 Solicitation provisions and contract clauses.

30.303-1 Solicitation provisions.

(a) *Cost Accounting Standards Notices and Certification (National Defense).* The contracting officer shall insert the provision at 52.230-1, Cost Accounting Standards Notices and Certification (National Defense), in solicitations for proposed national defense contracts subject to CAS as specified in 30.301. The provision allows offerors to—

(1) Certify their Disclosure Statement status;

(2) Claim exemption from CAS if they are not currently performing any CAS-covered contracts and the proposal will result in an award of $500,000 or less.

(3) Claim exemption from full CAS coverage and elect modified CAS coverage when appropriate; and

(4) Certify whether award of the contemplated contract would require a change to existing cost accounting practices.

(b) *Cost Accounting Standards Notices and Certification (Nondefense).* The contracting officer shall insert the provision at 52.230-2, Cost Accounting Standards Notices and Certification (Nondefense), in solicitations for proposed nondefense contracts that do not meet the criteria for CAS exemption in 30.301. The provision allows offerors to claim exemption from CAS if they are not currently performing any CAS-covered national defense contracts or to certify what type of CAS coverage applies to them.

30.303-2 Contract clauses.

(a) *Cost Accounting Accounting Standards.* (1) The contracting officer shall insert the clause at 52.230-3, Cost Accounting Standards, in negotiated contracts, unless the contract is exempted (see 30.301), the contract is subject to modified coverage (see 30.302), or the clause prescribed in paragraph (d) below is used.

(2) The clause at 52.230-3 requires the contractor to disclose actual cost accounting practices (applicable to national defense contracts only) and to follow these practices consistently.

(b) *Administration of Cost Accounting Standards.* (1) The contracting officer shall insert the clause at 52.230-4, Administration of Cost Accounting Standards, in contracts containing either the clause prescribed in paragraph (a) above, or the clause prescribed in paragraph (c) below.

(2) The clause at 52.230-3, Cost Accounting Standards, specifies rules for administering CAS requirements and procedures to be followed in cases of failure to comply.

(c) *Disclosure and Consistency of Cost Accounting Practices.* (1) The contracting officer shall insert the clause at 52.230-5, Disclosure and Consistency of Cost Accounting Practices, in negotiated contracts when the contract amount is over $100,000 but less that $10 million and the offeror certifies it is eligible for and elects to use modified CAS coverage (see 30.302), unless the clause prescribed in paragraph (d) below is used.

(2) The clause at 52.230-5 requires the contractor to comply with CAS 401 and 402, to disclose (if it meets certain requirements) actual cost accounting practices, and to follow consistently disclosed and established cost accounting practices.

(d) *Consistency in Cost Accounting Practices.* The contracting officer shall insert the clause at 52.230-6, Consistency in Cost Accounting Practices, in negotiated defense contracts that are exempt from CAS requirements solely on the basis of the fact that the contract is to be awarded to a United Kingdom contractor and is to be performed substantially in the United Kingdom (see 30.301(b)(12)).

30.304 Waiver.

(a) In some instances, contractors or subcontractors may refuse to accept all or part of the requirements of the CAS clauses (52.230-3, Cost Accounting Standards, and 52.230-5, Disclosure and Consistency of Cost Accounting Standards). If the contracting officer determines that it is impractical to obtain the materials, supplies, or services from any other source, the contracting officer shall prepare a request for waiver describing the proposed contract or subcontract and containing—

(1) An unequivocal statement that the proposed contractor or subcontractor refuses to accept a contract containing all or a specified part of a CAS clause and the specific reason for that refusal;

(2) A statement as to whether the proposed contractor or subcontractor has accepted any prime contract or subcontract containing a CAS clause;

(3) The amount of the proposed award and the sum of all awards by the agency requesting the waiver to the proposed contractor or subcontractor in each of the preceding three years;

(4) A statement that no other source is available to satisfy the agency's needs on a timely basis;

(5) A statement of alternative methods considered for fulfilling the need and the agency's reasons for rejecting them;

(6) A statement of steps being taken by the agency to establish other sources of supply for future contracts for the products or services for which a waiver is being requested; and

(7) Any other information that may be useful in evaluating the request.

(b) (1) For national defense contracts, 4 CFR 331.30(c) provides that only the CASB has authority to waive all or any part of the CAS clauses. For these contracts, the request for waiver shall be forwarded through channels for review to the Deputy Under Secretary of Defense, Research and Engineering (Acquisition Policy) or, outside the Department of Defense, the official in the equivalent position. This review authority shall not be delegated except as provided in subparagraph (2) below.

(2) For purchases of substantially the same product or service from the same contractor for which a waiver was previously granted by the CASB, review authority may be delegated by the Secretary of Defense to the Secretaries of the Military Departments and the Director, Defense Logistics Agency, and by the heads of other agencies to officials in equivalent positions.

(c) For nondefense contracts, the agency head or designee may waive CASB requirements. Agencies shall ensure consistent treatment of—

(1) Waivers within the agency; and

(2) Contractors performing under both defense and nondefense contracts.

SUBPART 30.4—CAS ADMINISTRATION

30.401 Responsibility.

(a) The cognizant ACO shall perform CAS administration for all contracts in a business unit notwithstanding retention of other administration functions by the contracting officer.

(b) Within 30 days of the award of any new contract or subcontract subject to CAS, the contracting officer, contractor, or subcontractor making the award shall request the cognizant ACO to perform administration for CAS matters (see Subpart 42.2).

30.402 Changes to disclosed or established cost accounting practices.

Adjustments to contracts for CAS noncompliance, new standards, or voluntary changes are required only if the amounts involved are material. The ACO has the right to forgo action to adjust contracts if the amount involved is not considered material; however, in the case of noncompliance issues, the ACO shall inform the contractor that (a) the Government reserves the right and is required to make appropriate contract adjustments if, in the future, the ACO determines that the cost impact has become material and (b) the contractor is not excused from the obligation to comply with the applicable Standard or rules and regulations involved. In determining materiality, the ACO shall use the criteria in 4 CFR 331.71(a).

30.402-1 Equitable adjustment for new standards.

(a) The clause at 52.230-1, Cost Accounting Standards Notices and Certification (National Defense), requires offerors to state whether or not the award of the contemplated contract

would require a change to established cost accounting practices affecting existing contracts and subcontracts. The contracting officer shall ensure that the contractor's response to the notice is made known to the cognizant ACO.

(b) Contracts and subcontracts containing the clause at 52.230-3, Cost Accounting Standards, may require equitable adjustments to comply with new CAS. Such adjustments are limited to contracts and subcontracts awarded before the effective date of each new standard. A new standard becomes applicable prospectively to these contracts and subcontracts when a new national defense contract or subcontract containing the clause at 52.230-3, Cost Accounting Standards, is awarded on or after the effective date of the new standard.

(c) Contracting officers shall encourage contractors to submit to the cognizant ACO any change in accounting practice in anticipation of complying with a new standard as soon as practical after the new standard has been finally promulgated by the CASB.

(d) Upon receipt of information from the contractor indicating that an accounting change is required to comply with a new standard, the cognizant ACO shall review the proposed change concurrently for adequacy and compliance. If the review indicates that the change is both adequate and in compliance (see 30.202-2), the contractor shall be notified and requested to submit a cost impact proposal in sufficient detail to determine the impact on each CAS-covered contract and subcontract. The proposal shall identify each additional standard and all contracts and subcontracts containing the CAS clause and having an award date before the effective date of that standard. The proposal shall be in sufficient detail to permit evaluation, determination, and negotiation of the cost impact upon each affected contract and subcontract containing the clause at 52.230-3, Cost Accounting Standards, and shall be in the form and manner specified by the cognizant contracting officer.

(e) The cognizant ACO shall promptly analyze the proposal with the assistance of the auditor, determine the impact, and negotiate the contract price adjustments on behalf of all Government agencies. The ACO shall invite contracting offices to participate in negotiations of adjustments when the price of any of their contracts may be increased or decreased by $10,000 or more. At the conclusion of negotiations, the ACO shall—

(1) Execute supplemental agreements to contracts of the ACO's own agency (and, if additional funds are required, request them from the appropriate contracting officer);

(2) Prepare a negotiation memorandum and send copies to cognizant auditors and contracting officers of other agencies having prime contracts affected by the negotiation (those agencies shall execute supplemental agreements in the amounts negotiated); and

(3) Furnish copies of the memorandum indicating the effect on costs to the ACO of the next higher tier subcontractor or prime contractor, as appropriate, if a subcontract is to be adjusted. This memorandum shall be the basis for negotiation between the subcontractor and the next higher tier subcontractor or prime contractor and for execution of a supplemental agreement to the subcontract.

(f) If the contractor does not submit a proposal in the form and time specified (see paragraph 4(b) of the clause at 52.230-4, Administration of Cost Accounting Standards) or if the parties fail to agree concerning the cost impact, the cognizant ACO, with the assistance of the auditor, shall estimate the cost impact on contracts and subcontracts containing the clause at 52.230-3, Cost Accounting Standards. The ACO shall request the contractor to agree to the cost or price adjustment. The ACO may withhold an amount not to exceed 10 percent of each subsequent payment request related to the contractor's CAS-covered prime contracts, which contain the appropriate withholding provisions, until the proposal has been furnished by the contractor. The contractor shall also be advised that in the event no agreement on the cost or price adjustment is reached within 20 days, action may be taken in accordance with the clause at 52.233-1, Disputes. If the ACO issues a unilateral determination under the Disputes clause, the ACO shall consider appropriate action to protect the Government's interests under Subpart 32.6.

30.402-2 Noncompliance with CAS requirements.

(a) Within 15 days of the receipt of a report of alleged noncompliance from the auditor, the cognizant ACO shall make an initial finding of compliance or noncompliance and advise the auditor.

(b) If an initial finding of noncompliance is made, the ACO shall immediately notify the contractor in writing of the exact nature of the noncompliance and allow 30 days within which to agree or to submit reasons why the existing practices are considered to be in compliance.

(c) If the contractor agrees with the initial finding of noncompliance—

(1) The contractor shall be required to correct the noncompliance and submit a complete description of any accounting change and the general dollar magnitude of the change on all CAS-covered contracts and subcontracts;

(2) The cognizant ACO shall review the accounting change for adequacy and compliance concurrently (if the change is both adequate and in compliance, the ACO shall notify the contractor and request a cost impact proposal);

(3) The cost impact proposal must identify all contracts and subcontracts containing the clause at 52.230-3, Cost Accounting Standards, or the clause at 52.230-5, Disclosure and Consistency of Cost Accounting Practices, and shall be in sufficient detail to permit evaluation and negotiation of the cost impact on each separate CAS-covered contract and subcontract from the date of failure to comply until the noncompliance is corrected; and

(4) The ACO shall then follow the procedures in 30.402-1(e).

(d) If the contractor disagrees with the initial noncompliance finding, the cognizant ACO shall review the reasons why the contractor considers the existing practices to be in compliance and make a determination of compliance or noncompliance.

(1) If the ACO makes a determination of compliance, the ACO shall notify the contractor and send a copy to the auditor.

(2) If the ACO makes a determination of noncompliance, or if the contractor fails to furnish the cost impact proposal, the ACO, with the assistance of the auditor, shall determine the cost impact of the noncompliance on contracts and subcontracts containing CAS clauses. The ACO may withhold an amount not to exceed 10 percent of each subsequent payment request related to the contractor's CAS-covered prime contracts, which contain the appropriate provisions, until the proposal has been furnished by the contractor.

(3) If the ACO determines that the noncompliance results in material increased costs to the Government, the ACO shall notify the contractor and request agreement as to the cost or price adjustment, together with any applicable interest. The contractor shall also be advised that in the event no agreement on the cost or price adjustment is reached within 20 days, action may be taken in accordance with the clause at 52.233-1, Disputes. If the ACO issues a unilateral determination under the Disputes clause, the ACO shall consider appropriate action to

protect the Government's interests under Subpart 32.6.

(4) If the ACO's estimate indicates there is no material increase in costs as a result of the noncompliance and the contractor refuses to take corrective action, the ACO shall notify the contractor in writing that the contractor is in noncompliance, that corrective action should be taken, and that if such noncompliance subsequently results in materially increased costs to the Government, the provisions of the clause at 52.230-3, Cost Accounting Standards, and/or the clause at 52.230-5, Disclosure and Consistency of Cost Accounting Practices, will be enforced.

30.402-3 Voluntary changes.

(a) The contract price may be adjusted for voluntary changes to a contractor's Disclosure Statement or cost accounting practices. The contractor must first notify the cognizant ACO by submission, not less than 60 days (or such other date as may be mutually agreed to) before proposed implementation, of a description of the accounting change and the general dollar magnitude of the change (including the sum of all increases and the sum of all decreases) for all CAS-covered contracts and subcontracts.

(b) The cognizant ACO shall review the accounting change concurrently for adequacy and compliance (see 30.202-2). If the change meets both tests, the ACO shall so notify the contractor and request that the contractor submit a cost impact proposal identifying all contracts and subcontracts containing the clause at 52.230-3, Cost Accounting Standards, and the clause at 52.230-5, Disclosure and Consistency of Cost Accounting Practices. The cost impact proposal shall be in sufficient detail to allow evaluation and negotiation of the cost impact upon each affected CAS-covered contract and subcontract.

(c) With the assistance of the auditor, the ACO shall promptly analyze the cost impact proposal to determine whether or not the proposed change will result in increased costs being paid by the Government. The ACO shall consider all of the contractor's affected CAS-covered contracts and subcontracts, but any cost changes to higher-tier subcontracts or contracts of other contractors over and above the cost of the subcontract adjustment shall not be considered. Increased costs resulting from a voluntary change may be allowed only if the ACO determines that the change is desirable and not detrimental to the Government. The ACO shall then follow the procedures in 30.402-1(e).

(d) If the contractor fails to submit a cost impact proposal in the form and time specified or if the parties fail to agree concerning the cost impact, the cognizant ACO, with the assistance of the auditor, shall estimate the cost impact on contracts and subcontracts containing a CAS clause and shall then request the contractor to agree to the cost or price adjustment. The ACO may withhold an amount not to exceed 10 percent of each subsequent payment request related to the contractor's CAS-covered prime contracts, which contain the appropriate withholding provisions, until the proposal has been furnished by the contractor. The contractor shall also be advised that, in the event no agreement on the cost or price adjustment is reached within 20 days, action may be taken in accordance with the clause at 52.233-1, Disputes. If the ACO issues a unilateral determination under the Disputes clause, the ACO shall consider appropriate action to protect the Government's interests under Subpart 32.6.

PART 31—CONTRACT COST PRINCIPLES AND PROCEDURES

Sec.

SUBPART 31.4—[RESERVED]

SUBPART 31.5—[RESERVED]

SUBPART 31.6—CONTRACTS WITH STATE, LOCAL, AND FEDERALLY RECOGNIZED INDIAN TRIBAL GOVERNMENTS

31.601 Purpose.
31.602 General.
31.603 Requirements.

SUBPART 31.7—CONTRACTS WITH NONPROFIT ORGANIZATIONS

31.701 Purpose.
31.702 General.
31.703 Requirements.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

31.000 Scope of part.

This part contains cost principles and procedures for (a) the pricing of contracts, subcontracts, and modifications to contracts and subcontracts whenever cost analysis is performed (see 15.805-3) and (b) the determination, negotiation, or allowance of costs when required by a contract clause.

31.001 Definitions.

"Accrued benefit cost method" means an actuarial cost method under which units of benefit are assigned to each cost accounting period and are valued as they accrue; i.e., based on the services performed by each employee in the period involved. The measure of normal cost under this method for each cost accounting period is the present value of the units of benefit deemed to be credited to employees for service in that period. The measure of the actuarial liability at a plan's inception date is the present value of the units of benefit credited to employees for service prior to that date. (This method is also known as the unit credit cost method.)

"Accumulating costs" means collecting cost data in an organized manner, such as through a system of accounts.

"Actual cash value" means the cost of replacing damaged property with other property of like kind and quality in the physical condition of the property immediately before the damage.

"Actual costs," as used in this part (other than Subpart 31.6), means amounts determined on the basis of costs incurred, as distinguished from forecasted costs. Actual costs include standard costs properly adjusted for applicable variances.

"Actuarial assumption" means a prediction of future conditions affecting pension costs; e.g., mortality rate, employee turnover, compensation levels, pension fund earnings, and changes in values of pension funds assets.

"Actuarial cost method" means a technique which uses actuarial assumptions to measure the present value of future pension benefits and pension fund administrative expenses, and which assigns the cost of such benefits and expenses to cost accounting periods.

"Actuarial gain and loss" means the effect on pension cost resulting from differences between actuarial assumptions and actual experience.

"Actuarial liability" means pension cost attributable, under the actuarial cost method in use, to years before the date of a particular actuarial valuation. As of such date, the actuarial liability represents the excess of the present value of the future benefits and administrative expenses over the present value of future contributions, for the normal cost for all plan participants and beneficiaries. The excess of the actuarial liability over the value of the assets of a pension plan is the unfunded actuarial liability.

"Actuarial valuation" means the determination, as of a specified date, of the normal cost, actuarial liability, value of the assets of a pension fund, and other relevant values for the pension plan.

"Allocate" means to assign an item of cost, or a group of items of cost, to one or more cost objectives. This term includes both direct assignment of cost and the reassignment of a share from an indirect cost pool.

"Automatic data processing equipment (ADPE)," as used in this part means:

(a) Digital and analog computer components and systems, irrespective of type of use, size, capacity, or price;

(b) All peripheral, auxiliary, and accessorial equipment used in support of digital and/or analog computers, either cable connected, or "self standing," and whether selected or acquired with the computers or separately;

(c) Punched card machines (PCM) and systems used in conjunction with or independently of digital or analog computers; and

(d) Digital and analog terminal and conversion equipment that is acquired solely or primarily for use with a system which employs a computer or punched card machines.

"Business unit" means any segment of an organization, or an entire business organization which is not divided into segments.

"Compensated personal absence" means any absence from work for reasons such as illness, vacation, holidays, jury duty, military training, or personal activities for which an employer pays compensation directly to an employee in accordance with a plan or custom of the employer.

"Cost input" means the cost, except general and administrative (G&A) expenses, which for contract costing purposes is allocable to the production of goods and services during a cost accounting period.

"Cost objective," as used in this part (other than Subpart 31.6), means a function, organizational subdivision, contract, or other work unit for which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capitalized projects, etc.

"Cost of capital committed to facilities" means an imputed cost determined by applying a cost of money rate to facilities capital.

"Deferred compensation" means an award made by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of the receipt of compensation by the employee. This definition shall not include the amount of year end accruals for salaries, wages, or bonuses that are to be paid within a reasonable period of time after the end of a cost accounting period.

"Defined-benefit pension plan" means a pension plan in which the benefits to be paid, or the basis for determining such benefits, are established in advance and the contributions are intended to provide the stated benefits.

"Defined-contribution pension plan" means a pension plan in which the contributions to be made are established in advance and the benefits are determined thereby.

"Directly associated cost" means any cost which is generated solely as a result of the incurrence of another cost, and which would not have been incurred had the other cost not been incurred.

"Estimating costs" means the process of forecasting a future result in terms of cost, based upon information available at the time.

"Expressly unallowable cost" means a particular item or type of cost which, under the express provisions of an applicable law, regulation, or contract, is specifically named and stated to be unallowable.

"Facilities capital" means the net book value of tangible capital assets and of those intangible capital assets that are subject to amortization.

"Final cost objective," as used in this part (other than Subparts 31.3 and 31.6), means a cost objective that has allocated to it both direct and indirect

costs and, in the contractor's accumulation system, is one of the final accumulation points.

"Fiscal year" as used in this part, means the accounting period for which annual financial statements are regularly prepared, generally a period of 12 months, 52 weeks, or 53 weeks.

"General and administrative (G&A) expense" means any management, financial, and other expense which is incurred by or allocated to a business unit and which is for the general management and administration of the business unit as a whole. G&A expense does not include those management expenses whose beneficial or causal relationship to cost objectives can be more directly measured by a base other than a cost input base representing the total activity of a business unit during a cost accounting period.

"Home office" means an office responsible for directing or managing two or more, but not necessarily all, segments of an organization. It typically establishes policy for, and provides guidance to, the segments in their operations. It usually performs management, supervisory, or administrative functions, and may also perform service functions in support of the operations of the various segments. An organization which has intermediate levels, such as groups, may have several home offices which report to a common home office. An intermediate organization may be both a segment and a home office.

"Immediate-gain actuarial cost method" means any of the several actuarial cost methods under which actuarial gains and losses are included as part of the unfunded actuarial liability of the pension plan, rather than as part of the normal cost of the plan.

"Independent research and development (IR&D) cost" means the cost of effort which is neither sponsored by a grant, nor required in performing a contract, and which falls within any of the following four areas: (a) basic research, (b) applied research, (c) development, and (d) systems and other concept formulation studies.

"Indirect cost pools," as used in this part (other than Subparts 31.3 and 31.6), means groupings of incurred costs identified with two or more cost objectives but not identified specifically with any final cost objective.

"Insurance administration expenses" means the contractor's costs of administering an insurance program; e.g., the costs of operating an insurance or risk-management department, processing claims, actuarial fees, and service fees paid to insurance companies, trustees, or technical consultants.

"Intangible capital asset" means an asset that has no physical substance, has more than minimal value, and is expected to be held by an enterprise for continued use or possession beyond the current accounting period for the benefits it yields.

"Labor cost at standard" means a preestablished measure of the labor element of cost, computed by multiplying labor-rate standard by labor-time standard.

"Labor-rate standard" means a preestablished measure, expressed in monetary terms, of the price of labor.

"Labor-time standard" means a preestablished measure, expressed in temporal terms, of the quantity of labor.

"Material cost at standard" means a preestablished measure of the material elements of cost, computed by multiplying material-price standard by material-quantity standard.

"Material-price standard" means a preestablished measure, expressed in monetary terms, of the price of material.

"Material-quantity standard" means a preestablished measure, expressed in physical terms, of the quantity of material.

"Moving average cost" means an inventory costing method under which an average unit cost is computed after each acquisition by adding the cost of the newly acquired units to the cost of the units of inventory on hand and dividing this figure by the new total number of units.

"Normal cost" means the annual cost attributable, under the actuarial cost method in use, to years subsequent to a particular valuation date.

"Original complement of low cost equipment" means a group of items acquired for the initial outfitting of a tangible capital asset or an operational unit, or a new addition to either. The items in the group individually cost less than the minimum amount established by the contractor for capitalization for the classes of assets acquired but in the aggregate they represent a material investment. The group, as a complement, is expected to be held for continued service beyond the current period. Initial outfitting of the unit is completed when the unit is ready and available for normal operations.

"Pay-as-you-go cost method" means a method of recognizing pension cost only when benefits are paid to retired employees or their beneficiaries.

"Pension plan" means a deferred compensation plan established and maintained by one or more employers to provide systematically for the payment of benefits to plan participants after their retirements; *provided*, that the benefits are paid for life or are payable for life at the option of the employees. Additional benefits such as permanent and total disability and death payments, and survivorship payments to beneficiaries of deceased employees may be an integral part of a pension plan.

"Pension plan participant" means any employee or former employee of an employer or any member or former member of an employee organization, who is or may become eligible to receive a benefit from a pension plan which covers employees of such employer or members of such organization who have satisfied the plan's participation requirements, or whose beneficiaries are receiving or may be eligible to receive any such benefit. A participant whose employment status with the employer has not been terminated is an active participant of the employer's pension plan.

"Pricing" means the process of establishing a reasonable amount or amounts to be paid for supplies or services.

"Profit center," as used in this part (other than Subparts 31.3 and 31.6), means the smallest organizationally independent segment of a company charged by management with profit and loss responsibilities.

"Projected average loss" means the estimated long-term average loss per period for periods of comparable exposure to risk of loss.

"Projected benefit cost method" means any of the several actuarial cost methods which distribute the estimated total cost of all the employees' prospective benefits over a period of years, usually their working careers.

"Proposal" means any offer or other submission used as a basis for pricing a contract, contract modification, or termination settlement or for securing payments thereunder.

"Residual value" means the proceeds, less removal and disposal costs, if any, realized upon disposition of a tangible capital asset. It usually is measured by the net proceeds from the sale or other disposition of the asset, or its fair value if the asset is traded in on another asset. The estimated residual value is a current forecast of the residual value.

"Segment" means one of two or more divisons, product departments, plants, or other subdivisions of an organization reporting directly to a home office, usually identified with responsibility for profit and/or producing a product or service. The term includes Government-owned contractor-operated (GOCO) facilities, and joint ventures and

subsidiaries (domestic and foreign) in which the organization has a majority ownership. The term also includes those joint ventures and subsidiaries (domestic and foreign) in which the organization has less than a majority of ownership, but over which it exercises control.

"Self-insurance" means the assumption or retention of the risk of loss by the contractor, whether voluntarily or involuntarily. Self-insurance includes the deductible portion of purchased insurance.

"Self-insurance charge" means a cost which represents the projected average loss under a self-insurance plan.

"Service life" means the period of usefulness of a tangible capital asset (or group of assets) to its current owner. The period may be expressed in units of time or output. The estimated service life of a tangible capital asset (or group of assets) is a current forecast of its service life and is the period over which depreciation cost is to be assigned.

"Spread-gain actuarial cost method" means any of the several projected benefit actuarial cost methods under which actuarial gains and losses are included as part of the current and future normal costs of the pension plan.

"Standard cost" means any cost computed with the use of preestablished measures.

"Tangible capital asset" means an asset that has physical substance, more than minimal value, and is expected to be held by an enterprise for continued use or possession beyond the current accounting period for the services it yields.

"Termination gain or loss" means an actuarial gain or loss resulting from the difference between the assumed and actual rates at which pension plan participants separate from employment for reasons other than retirement, disability, or death.

"Unallowable cost" means any cost which, under the provisions of any pertinent law, regulation, or contract, cannot be included in prices, cost-reimbursements, or settlements under a Government contract to which it is allocable.

"Variance" means the difference between a preestablished measure and an actual measure.

"Weighted average cost" means an inventory costing method under which an average unit cost is computed periodically by dividing the sum of the cost of beginning inventory plus the cost of acquisitions by the total number of units included in these two categories.

SUBPART 31.1—APPLICABILITY

31.100 Scope of subpart.

This subpart describes the applicability of the cost principles and procedures in succeeding subparts of this part to various types of contracts and subcontracts. It also describes the need for advance agreements.

31.101 Objectives.

In recognition of differing organizational characteristics, the cost principles and procedures in the succeeding subparts are grouped basically by organizational type; e.g., commercial concerns and educational institutions. The overall objective is to provide that, to the extent practicable, all organizations of similar types doing similar work will follow the same cost principles and procedures. To achieve this uniformity, individual deviations concerning cost principles require advance approval of the agency head or designee in the case of civilian agencies and the National Aeronautics and Space Administration, and by the DAR Council in the case of the Department of Defense. Agency supplements and class deviations require advance approval by either the DAR Council or Civilian Agency Acquisition Council, as appropriate.

31.102 Fixed-price contracts.

The applicable subparts of Part 31 shall be used in the pricing of fixed-price contracts, subcontracts, and modifications to contracts and subcontracts whenever (a) cost analysis is performed, or (b) a fixed-price contract clause requires the determination or negotiation of costs. However, application of cost principles to fixed-price contracts and subcontracts shall not be construed as a requirement to negotiate agreements on individual elements of cost in arriving at agreement on the total price. The final price accepted by the parties reflects agreement only on the total price. Further, notwithstanding the mandatory use of cost principles, the objective will continue to be to negotiate prices that are fair and reasonable, cost and other factors considered.

31.103 Contracts with commercial organizations.

This category includes all contracts and contract modifications for supplies, services, or experimental, developmental, or research work negotiated with organizations other than educational institutions (see 31.104), construction and architect-engineer contracts (see 31.105), State and local governments (see 31.107) and nonprofit organizations (see 31.108) on the basis of cost.

(a) The cost principles and procedures in Subpart 31.2 and agency supplements shall be used in pricing negotiated supply, service, experimental, developmental, and research contracts and contract modifications with commercial organizations whenever cost analysis is performed as required by 15.805-3.

(b) In addition, the contracting officer shall incorporate the cost principles and procedures in Subpart 31.2 and agency supplements by reference in contracts with commercial organizations as the basis for—

(1) Determining reimbursable costs under (i) cost-reimbursement contracts and cost-reimbursement subcontracts under these contracts performed by commercial organizations and (ii) the cost-reimbursement portion of time-and-materials contracts except when material is priced on a basis other than at cost (see 16.601(b)(3));

(2) Negotiating indirect cost rates (see Subpart 42.7);

(3) Proposing, negotiating, or determining costs under terminated contracts (see 49.103 and 49.113);

(4) Price revision of fixed-price incentive contracts (see 16.204 and 16.403);

(5) Price redetermination of price redetermination contracts (see 16.205 and 16.206); and

(6) Pricing changes and other contract modifications.

31.104 Contracts with educational institutions.

This category includes all contracts and contract modifications for research and development, training, and other work performed by educational institutions.

(a) The contracting officer shall incorporate the cost principles and procedures in Subpart 31.3 by reference in cost-reimbursement contracts with educational institutions as the basis for—

(1) Determining reimbursable costs under the contracts and cost-reimbursement subcontracts thereunder performed by educational institutions;

(2) Negotiating indirect cost rates; and

(3) Settling costs of cost-reimbursement terminated contracts (see Subpart 49.3 and 49.109-7).

(b) The cost principles in this subpart are to be used as a guide in evaluating costs in connection with negotiating fixed-price contracts and termination settlements.

31.105 Construction and architect-engineer contracts.

(a) This category includes all contracts and contract modifications negotiated on the basis of cost with organizations other than educational institutions (see 31.104) and State and local governments (see 31.107) for construction management or construction, alteration or repair of buildings, bridges, roads, or other kinds of real property. It also includes architect-engineer contracts related to construction projects. It does not include contracts for vessels, aircraft, or other kinds of personal property.

(b) Except as otherwise provided in (d) below, the cost principles and procedures in Subpart 31.2 shall be used in the pricing of contracts and contract modifications in this category if cost analysis is performed as required by 15.805-3.

(c) In addition, the contracting officer shall incorporate the cost principles and procedures in Subpart 31.2 (as modified by (d) below) by reference in contracts in this category as the basis for—

(1) Determining reimbursable costs under cost-reimbursement contracts, including cost-reimbursement subcontracts thereunder;

(2) Negotiating indirect cost rates;

(3) Proposing, negotiating, or determining costs under terminated contracts;

(4) Price revision of fixed-price incentive contracts; and

(5) Pricing changes and other contract modifications.

(d) Except as otherwise provided in this paragraph (d), the allowability of costs for construction and architect-engineer contracts shall be determined in accordance with Subpart 31.2.

(1) Because of widely varying factors such as the nature, size, duration, and location of the construction project, advance agreements as set forth in 31.109, for such items as home office overhead, partners' compensation, employment of consultants, and equipment usage costs, are particularly important in construction and architect-engineer contracts. When appropriate they serve to express the parties' understanding and avoid possible subsequent disputes or disallowances.

(2) "Construction equipment," as used in this section, means equipment (including marine equipment) in sound workable condition, either owned or controlled by the contractor or the subcontractor at any tier, or obtained from a commercial rental source, and furnished for use under Government contracts.

(i) Allowable ownership and operating costs shall be determined as follows:

(A) Actual cost data shall be used when such data can be determined for both ownership and operating costs for each piece of equipment, or groups of similar serial or series equipment, from the contractor's accounting records. When such costs cannot be so determined, the contracting agency may specify the use of a schedule of predetermined rates to determine ownership and operating costs of construction equipment (see subdivision (B) and (C) below).

(B) Predetermined schedules of construction equipment use rates (e.g., the Construction Equipment Ownership and Operating Expense Schedule, published by the U.S. Army Corps of Engineers) provide average ownership and operating rates for construction equipment. The allowance for ownership costs should include the cost of depreciation and may include facilities capital cost of money. The allowance for operating costs may include costs for such items as fuel, filters, oil, and grease; servicing, repairs, and maintenance; and tire wear and repair. Costs of labor, mobilization, demobilization, overhead, and profit are generally not reflected in schedules, and separate consideration may be necessary.

(C) When a schedule of predetermined use rates for construction equipment is used to determine direct costs, all costs of equipment that are included in the cost allowances provided by the schedule shall be identified and eliminated from the contractor's other direct and indirect costs charged to the contract. If the contractor's accounting system provides for site or home office overhead allocations, all costs which are included in the equipment allowances may need to be included in any cost input base before computing the contractor's overhead rate. In periods of suspension of work pursuant to a contract clause, the allowance for equipment ownership shall not exceed an amount for standby cost as determined by the schedule or contract provision.

(ii) Reasonable costs of renting construction equipment are allowable (but see paragraph (C) below).

(A) Costs, such as maintenance and minor or running repairs incident to operating such rented equipment, that are not included in the rental rate are allowable.

(B) Costs incident to major repair and overhaul of rental equipment are unallowable.

(C) The allowability of charges for construction equipment rented from any division, subsidiary, or organization under common control, will be determined in accordance with 31.205-36(b)(3).

(3) Costs incurred at the job site incident to performing the work, such as the cost of superintendence, timekeeping and clerical work, engineering, utility costs, supplies, material handling, restoration and cleanup, etc., are allowable as direct or indirect costs, provided the accounting practice used is in accordance with the contractor's established and consistently followed cost accounting practices for all work.

(4) Rental and any other costs, less any applicable credits incurred in acquiring the temporary use of land, structures, and facilities are allowable. Costs, less any applicable credits, incurred in constructing or fabricating structures and facilities of a temporary nature are allowable.

31.106 Facilities contracts.

31.106-1 Applicable cost principles.

The cost principles and procedures applicable to the evaluation and determination of costs under facilities contracts (as defined in 45.301), and subcontracts thereunder, will be governed by the type of entity to which a facilities contract is awarded. Except as otherwise provided in 31.106-2 below, Subpart 31.2 applies to facilities contracts awarded to commercial organizations; Subpart 31.3 applies to facilities contracts awarded to educational institutions; and 31.105 applies to facilities contracts awarded to construction contractors. Whichever cost principles are appropriate will be used in the pricing of facilities contracts and contract modifications if cost analysis is performed as required by 15.805-3. In addition, the contracting officer shall incorporate the cost principles and procedures appropriate in the circumstances (e.g., Subpart 31.2; Subpart 31.3; or 31.105) by reference in facilities contracts as the basis for—

(a) Determining reimbursable costs under facilities contracts, including cost-reimbursement subcontracts thereunder;

(b) Negotiating indirect cost rates; and

(c) Determining costs of terminated contracts when the contractor elects to "voucher out" costs (see Subpart 49.3), and for settlement by determination (see 49.109-7).

31.106-2 Exceptions to general rules on allowability and allocability.

(a) A contractor's established accounting system and procedures are normally directed to the equitable

allocation of costs to the types of products which the contractor produces or services rendered in the course of normal operating activities. The acquisition of, or work on, facilities for the Government normally does not involve the manufacturing processes, plant departmental operations, cost patterns of work, administrative and managerial control, or clerical effort usual to production of the contractor's normal products or services.

(b) Advance agreements (see 31.109) should be made between the contractor and the contracting officer as to indirect cost items to be applied to the facilities acquisition. A contractor's normal accounting practice for allocating indirect costs to the acquisition of contractor facilities may range from charging all these costs to this acquisition to not charging any. When necessary to produce an equitable result, the contractor's usual method of allocating indirect cost shall be varied, and appropriate adjustment shall be made to the pools of indirect cost and the bases of their distribution.

(c) The purchase of completed facilities (or services in connection with the facilities) from outside sources does not involve the contractor's direct labor or indirect plant maintenance personnel. Accordingly, indirect manufacturing and plant overhead costs, which are primarily incurred or generated by reason of direct labor or maintenance labor operations, are not allocable to the acquisition of such facilities.

(d) Contracts providing for the installation of new facilities or the rehabilitation of existing facilities may involve the use of the contractor's plant maintenance labor, as distinguished from direct labor engaged in the production of the company's normal products. In such instances, only those types of indirect manufacturing and plant operating costs that are related to or incurred by reason of the expenditures of the classes of labor used for the performance of the facilities work may be allocated to the facilities contract. Thus, a facilities contract which involves the use of plant maintenance labor only would not be subject to an allocation of such cost items as direct productive labor supervision, depreciation, and maintenance expense applicable to productive machinery and equipment, or raw material and finished goods storage costs.

(e) Where a facilities contract calls for the construction, production, or rehabilitation of equipment or other items that are involved in the regular course of the contractor's business by the use of the contractor's direct labor and manufacturing processes, the indirect costs normally allocated to all that work may be allocated to the facilities contract.

31.106-3 Contractor's commercial products.

If facilities constituting the contractor's usual commercial products (or only minor modifications thereof) are acquired by the Government under the contract, the Government shall not pay any amount in excess of the contractor's most favored customer price or the price of other suppliers for like quantities of the same or substantially the same items, whichever is lower.

31.107 Contracts with State and local governments.

(a) Subpart 31.6 provides principles and standards for determining costs applicable to contracts with State and local governments. They provide the basis for a uniform approach to the problem of determining costs and to promote efficiency and better relationships between State and local and Federal Government entities. They apply to all programs that involve contracts with State and local governments, except contracts with—

(1) Publicly financed educational institutions subject to Subpart 31.3; or

(2) Publicly owned hospitals and other providers of medical care subject to requirements promulgated by the sponsoring Government agencies.

(b) The Office of Management and Budget will approve any other exceptions in particular cases when adequate justification is presented.

31.108 Contracts with nonprofit organizations.

Subpart 31.7 provides principles and standards for determining costs applicable to contracts with nonprofit organizations other than educational institutions, State and local governments, and those nonprofit organizations exempted under OMB Circular No. A-122.

31.109 Advance agreements.

(a) The extent of allowability of the costs covered in this part applies broadly to many accounting systems in varying contract situations. Thus, the reasonableness and allocability of certain costs may be difficult to determine, particularly for firms or their divisions that may not be under effective competitive restraints. To avoid possible subsequent disallowance or dispute based on unreasonableness or nonallocability, contracting officers and contractors should seek advance agreement on the treatment of special or unusual costs. However, an advance agreement is not an absolute requirement and the absence of an advance agreement on any cost will not, in itself, affect the reasonableness or allocability of that cost.

(b) Advance agreements may be negotiated either before or during a contract but should be negotiated before incurrence of the costs involved. The agreements must be in writing, executed by both contracting parties, and incorporated into applicable current and future contracts. An advance agreement shall contain a statement of its applicability and duration.

(c) The contracting officer is not authorized by this 31.109 to agree to a treatment of costs inconsistent with this part. For example, an advance agreement may not provide that, notwithstanding 31.205-20, interest is allowable.

(d) Advance agreements may be negotiated with a particular contractor for a single contract, a group of contracts, or all the contracts of a contracting office, an agency, or several agencies.

(e) The cognizant administrative contracting officer (ACO), or other contracting officer established in Part 42, shall negotiate advance agreements except that an advance agreement affecting only one contract, or class of contracts from a single contracting office, shall be negotiated by a contracting officer in the contracting office, or an ACO when delegated by the contracting officer. When the negotiation authority is delegated, the ACO shall coordinate the proposed agreement with the contracting officer before executing the advance agreement.

(f) Before negotiating an advance agreement, the Government negotiator shall—

(1) Determine if other contracting offices inside the agency or in other agencies have a significant unliquidated dollar balance in contracts with the same contractor;

(2) Inform any such office or agency of the matters under consideration for negotiation; and

(3) As appropriate, invite the office or agency and the cognizant audit agency to participate in prenegotiation discussions and/or in the subsequent negotiations.

(g) Upon completion of the negotiation, the sponsor shall prepare and distribute to other interested agencies and offices, including the audit agency, copies of the executed agreement and a memorandum providing the information specified in

15.808, Price negotiation memorandum, as applicable.

(h) Examples of costs for which advance agreements may be particularly important are—

(1) Compensation for personal services, including but not limited to allowances for off-site pay, incentive pay, location allowances, hardship pay, and cost of living differential;

(2) Use charges for fully depreciated assets;

(3) Deferred maintenance costs;

(4) Precontract costs;

(5) Independent research and development and bid and proposal costs;

(6) Royalties and other costs for use of patents;

(7) Selling and distribution costs;

(8) Travel and relocation costs, as related to special or mass personnel movements;

(9) Costs of idle facilities and idle capacity;

(10) Costs of automatic data processing equipment;

(11) Severance pay to employees on support service contracts;

(12) Plant reconversion;

(13) Professional services (e.g., legal, accounting, and engineering);

(14) General and administrative costs (e.g., corporate, division, or branch allocations) attributable to the general management, supervision, and conduct of the contractor's business as a whole. These costs are particularly significant in construction, job-site, architect-engineer, facilities, and Government-owned contractor operated (GOCO) plant contracts (see 31.203(f)); and

(15) Costs of construction plant and equipment (see 31.105(d)).

SUBPART 31.2—CONTRACTS WITH COMMERCIAL ORGANIZATIONS

31.201 General.

31.201-1 Composition of total cost.

The total cost of a contract is the sum of the allowable direct and indirect costs allocable to the contract, incurred or to be incurred, less any allocable credits, plus any allocable cost of money pursuant to 31.205-10. In ascertaining what constitutes a cost, any generally accepted method of determining or estimating costs that is equitable and is consistently applied may be used, including standard costs properly adjusted for applicable variances. See 31.201-2(b) and (c) for Cost Accounting Standards (CAS) requirements.

31.201-2 Determining allowability.

(a) The factors to be considered in determining whether a cost is allowable include the following:

(1) Reasonableness.

(2) Allocability.

(3) Standards promulgated by the CAS Board, if applicable; otherwise, generally accepted accounting principles and practices appropriate to the particular circumstances.

(4) Terms of the contract.

(5) Any limitations set forth in this subpart.

(b) Certain cost principles in this subpart incorporate the measurement, assignment, and allocability rules of selected CAS and limit the allowability of costs to the amounts determined using the criteria in those selected standards. Only those CAS or portions of standards specifically made applicable by the cost principles in this subpart are mandatory unless the contract is CAS-covered (see Part 30). Business units that are not otherwise subject to these standards under a CAS clause are subject to the selected standards only for the purpose of determining allowability of costs on Government contracts. Including the selected standards in the cost principles does not subject the business unit to any other CAS rules and regulations. The applicability of the CAS rules and regulations is determined by the CAS clause, if any, in the contract and the requirements of the standards themselves.

(c) When contractor accounting practices are inconsistent with this Subpart 31.2, costs resulting from such inconsistent practices shall not be allowed in excess of the amount that would have resulted from using practices consistent with this subpart.

31.201-3 Determining reasonableness.

A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business. Reasonableness of specific costs must be examined with particular care in connection with firms or their separate divisions that may not be subject to effective competitive restraints. What is reasonable depends upon a variety of considerations and circumstances involving both the nature and amount of the cost in question. In determining the reasonableness of a specific cost, the contracting officer shall consider—

(a) Whether it is the type of cost generally recognized as ordinary and necessary for the conduct of the contractor's business or the contract performance;

(b) The restraints or requirements imposed by such factors as generally accepted sound business practices, arm's-length bargaining, Federal and State laws and regulations, and contract terms and specifications;

(c) The action that a prudent business person, considering responsibilities to the owners of the business, employees, customers, the Government, and the public at large, would take under the circumstances; and

(d) Any significant deviations from the established practices of the contractor that may unjustifiably increase the contract costs.

31.201-4 Determining allocability.

A cost is allocable if it is assignable or chargeable to one or more cost objectives on the basis of relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a Government contract if it—

(a) Is incurred specifically for the contract;

(b) Benefits both the contract and other work, and can be distributed to them in reasonable proportion to the benefits received; or

(c) Is necessary to the overall operation of the business, although a direct relationship to any particular cost objective cannot be shown.

31.201-5 Credits.

The applicable portion of any income, rebate, allowance, or other credit relating to any allowable cost and received by or accruing to the contractor shall be credited to the Government either as a cost reduction or by cash refund.

31.201-6 Accounting for unallowable costs.

(a) Costs that are expressly unallowable or mutually agreed to be unallowable, including mutually agreed to be unallowable directly associated costs, shall be identified and excluded from any billing, claim, or proposal applicable to a Government contract. A directly associated cost is any cost which is generated solely as a result of incurring another cost, and which would not have been incurred had the other cost not been incurred. When an unallowable cost is incurred, its directly associated costs are also unallowable.

(b) Costs which specifically become designated as unallowable or as unallowable directly associated costs of unallowable costs as a result of a written decision furnished by a contracting officer shall be identified if included in or used in computing any billing, claim, or proposal applicable to a Government contract. This identification requirement applies also to any costs incurred for the same

purpose under like circumstances as the costs specifically identified as unallowable under either this paragraph or paragraph (a) above.

(c) The detail and depth of records required as backup support for proposals, billings, or claims shall be that which is adequate to establish and maintain visibility of identified unallowable costs, including directly associated costs. Unallowable costs involved in determining rates used for standard costs, or for indirect cost proposals or billing, need be identified only at the time rates are proposed, established, revised, or adjusted. These requirements may be satisfied by any form of cost identification which is adequate for purposes of contract cost determination and verification.

(d) If a directly associated cost is included in a cost pool which is allocated over a base that includes the unallowable cost with which it is associated, the directly associated cost shall remain in the cost pool. Since the unallowable costs will attract their allocable share of costs from the cost pool, no further action is required to assure disallowance of the directly associated costs. In all other cases, the directly associated costs, if material in amount, must be purged from the cost pool as unallowable costs.

(e) (1) In determining the materiality of a directly associated cost, consideraton should be given to the significance of (i) the actual dollar amount, (ii) the cumulative effect of all directly associated costs in a cost pool, or (iii) the ultimate effect on the cost of Government contracts.

(2) Salary expenses of employees who participate in activities that generate unallowable costs shall be treated as directly associated costs to the extent of the time spent on the proscribed activity, provided the costs are material in accordance with subparagraph (e)(1) above (except when such salary expenses are, themselves, unallowable). The time spent in proscribed activities should be compared to total time spent on company activities to determine if the costs are material. Time spent by employees outside the normal working hours should not be considered except when it is evident that an employee engages so frequently in company activities during periods outside normal working hours as to indicate that such activities are a part of the employee's regular duties.

(3) When a selected item of cost under 31.205 provides that directly associated costs be unallowable, it is intended that such directly associated costs be unallowable only if determined to be material in amount in accordance with the criteria provided in subparagraphs (e)(1) and (e)(2) above, except in those situations where allowance of any of the directly associated costs involved would be considered to be contrary to public policy.

31.201-7 Construction and architect-engineer contracts.

Specific principles and procedures for evaluating and determining costs in connection with contracts and subcontracts for construction, and architect-engineer contracts related to construction projects, are in 31.105. The applicability of these principles and procedures is set forth in 31.000 and 31.100.

31.202 Direct costs.

(a) A direct cost is any cost that can be identified specifically with a particular final cost objective. No final cost objective shall have allocated to it as a direct cost any cost, if other costs incurred for the same purpose in like circumstances have been included in any indirect cost pool to be allocated to that or any other final cost objective. Costs identified specifically with the contract are direct costs of the contract and are to be charged directly to the contract. All costs specifically identified with other final cost objectives of the contractor are direct costs of those cost objectives and are not to be charged to the contract directly or indirectly.

(b) For reasons of practicality, any direct cost of minor dollar amount may be treated as an indirect cost if the accounting treatment—

(1) Is consistently applied to all final cost objectives; and

(2) Produces substantially the same results as treating the cost as a direct cost.

31.203 Indirect costs.

(a) An indirect cost is any cost not directly identified with a single, final cost objective, but identified with two or more final cost objectives or an intermediate cost objective. It is not subject to treatment as a direct cost. After direct costs have been determined and charged directly to the contract or other work, indirect costs are those remaining to be allocated to the several cost objectives. An indirect cost shall not be allocated to a final cost objective if other costs incurred for the same purpose in like circumstances have been included as a direct cost of that or any other final cost objective.

(b) Indirect costs shall be accumulated by logical cost groupings with due consideration of the reasons for incurring such costs. Each grouping should be determined so as to permit distribution of the grouping on the basis of the benefits accruing to the several cost objectives. Commonly, manufacturing overhead, selling expenses, and general and administrative (G&A) expenses are separately grouped. Similarly, the particular case may require subdivision of these groupings, e.g., building occupancy costs might be separable from those of personnel administration within the manufacturing overhead group. This necessitates selecting a distribution base common to all cost objectives to which the grouping is to be allocated. The base should be selected so as to permit allocation of the grouping on the basis of the benefits accruing to the several cost objectives. When substantially the same results can be achieved through less precise methods, the number and composition of cost groupings should be governed by practical considerations and should not unduly complicate the allocation.

(c) Once an appropriate base for distributing indirect costs has been accepted, it shall not be fragmented by removing individual elements. All items properly includable in an indirect cost base should bear a pro rata share of indirect costs irrespective of their acceptance as Government contract costs. For example, when a cost input base is used for the distribution of G&A costs, all items that would properly be part of the cost input base, whether allowable or unallowable, shall be included in the base and bear their pro rata share of G&A costs.

(d) The contractor's method of allocating indirect costs shall be in accordance with standards promulgated by the CAS Board, if applicable to the contract; otherwise, the method shall be in accordance with generally accepted accounting principles which are consistently applied. The method may require examination when—

(1) Substantial differences occur between the cost patterns of work under the contract and the contractor's other work;

(2) Significant changes occur in the nature of the business, the extent of subcontracting, fixed-asset improvement programs, inventories, the volume of sales and production, manufacturing processes, the contractor's products, or other relevant circumstances; or

(3) Indirect cost groupings developed for a contractor's primary location are applied to offsite locations. Separate cost groupings for costs allocable to offsite locations may be necessary to permit equitable distribution of costs on the basis of the benefits accruing to the several cost objectives.

(e) A base period for allocating indirect costs is the cost accounting period during which such costs are incurred and accumulated for distribution to work performed in that period. The criteria and guidance in CAS 406 for selecting the cost accounting periods to be used in allocating indirect costs are incorporated herein for application to contracts subject to full CAS coverage. For contracts subject to modified CAS coverage and for non-CAS-covered contracts, the base period for allocating indirect costs will normally be the contractor's fiscal year. But a shorter period may be appropriate (1) for contracts in which performance involves only a minor portion of the fiscal year or (2) when it is general practice in the industry to use a shorter period. When a contract is performed over an extended period, as many base periods shall be used as are required to represent the period of contract performance.

(f) Special care should be exercised in applying the principles of paragraphs (b), (c), and (d) above when Government-owned contractor-operated (GOCO) plants are involved. The distribution of corporate, division, or branch office G&A expenses to such plants operating with little or no dependence on corporate administrative activities may require more precise cost groupings, detailed accounts screening, and carefully developed distribution bases.

31.204 Application of principles and procedures.

(a) Costs shall be allowed to the extent they are reasonable, allocable, and determined to be allowable under 31.201, 31.202, 31.203, and 31.205. These criteria apply to all of the selected items that follow, even if particular guidance is provided for certain items for emphasis or clarity.

(b) Costs incurred as reimbursements or payments to a subcontractor under a cost-reimbursement, fixed-price incentive, or price redeterminable type subcontract of any tier above the first firm-fixed-price subcontract or fixed-price subcontract with economic price adjustment provisions are allowable to the extent that allowance is consistent with the appropriate subpart of this Part 31 applicable to the subcontract involved. Costs incurred as payments under firm-fixed-price subcontracts or fixed-price subcontracts with economic price adjustment provisions or modifications thereto, when cost analysis was performed under 15.805-3, shall be allowable only to the extent that the price was negotiated in accordance with 31.102.

(c) Section 31.205 does not cover every element of cost. Failure to include any item of cost does not imply that it is either allowable or unallowable. The determination of allowability shall be based on the principles and standards in this subpart and the treatment of similar or related selected items.

31.205 Selected costs.

31.205-1 Advertising costs.

(a) "Advertising costs" means the costs of advertising and directly associated costs, regardless of the medium employed, when the advertiser has control over the form and content of what will appear, the media in which it will appear, and when it will appear. Advertising media includes conventions, exhibits, free goods, samples, magazines, newspapers, trade papers, direct mail, dealer cards, window displays, outdoor advertising, and radio and television programs.

(b) The only advertising costs allowable are those that arise from requirements of Government contracts and that are for—

(1) Recruiting personnel required for performing contractual obligations, when considered in conjunction with all other recruitment costs (but see 31.205-34);

(2) Acquiring scarce items for contract performance; or

(3) Disposing of scrap or surplus materials acquired for contract performance.

Costs of this nature, if incurred for more than one defense contract or both defense work and other work of the contractor, are allowable to the extent that the principles in 31.201-3, 31.201-4, and 31.203 are observed.

(c) Advertising costs other than those specified in paragraph (b) above are unallowable. Unallowable advertising costs include those related to sales promotion which involve direct payment for using time or space to promote the sale of products, either directly by stimulating interest in a product or product line, or indirectly by disseminating messages calling favorable attention to the advertiser for purposes of enhancing the overall company image to sell the company's products.

31.205-2 Automatic data processing equipment leasing costs.

(a) This subsection applies to all contractor-leased automatic data processing equipment (ADPE), as defined in 31.001 (except as components of an end item to be delivered to the Government), acquired under operating leases, as defined in Statement of Financial Accounting Standard No. 13 (FAS-13), Accounting for Leases, issued by the Financial Accounting Standards Board. Compliance with 31.205-11(m) requires that ADPE acquired by means of capital leases, as defined in FAS-13, shall be treated as purchased assets; i.e., be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges or over the leased life as amortization charges as appropriate. Allowability of costs related to contractor-owned ADPE is governed by other requirements of this subpart.

(b) (1) If the contractor leases ADPE but cannot demonstrate, on the basis of facts existent at the time of the decision to lease or continue leasing and documented in accordance with paragraph (d) below, that leasing will result in less cost to the Government over the anticipated useful life (see paragraph (c) below), then rental costs are allowable only up to the amount that would be allowed had the contractor purchased the ADPE.

(2) The costs of leasing ADPE are allowable only to the extent that the contractor can annually demonstrate in accordance with paragraph (d) below (whether or not the term of lease is renewed or otherwise extended) that these costs meet the following criteria:

(i) The costs are reasonable and necessary for the conduct of the contractor's business in light of factors such as the contractor's requirements for ADPE, costs of comparable facilities, the various types of leases available, and the terms of the rental agreement.

(ii) The costs do not give rise to a material equity in the facilities (such as an option to renew or purchase at a bargain rental or price other than that normally given to industry at large) but represent charges only for the current use of the equipment, including incidental service costs such as maintenance, insurance, and applicable taxes.

(iii) The contracting officer's approval was obtained for the leasing arrangement (see subparagraph (d)(3) below) when the total cost of leasing—

(A) The ADPE is to be allocated to one or more Government contracts which require negotiating or determining costs, or

(B) ADPE in a single plant, division, or cost center exceeds $500,000 a year and 50 percent or more of the total leasing cost is to be allocated to one or more Government contracts which require negotiating or determining costs.

(3) Rental costs under a sale and leaseback arrangement are allowable only up to the amount that would have

been allowed had the contractor retained title to the ADPE.

(4) Allowable rental costs of ADPE leased from any division, subsidiary, or organization under a common control are limited to the cost of ownership (excluding interest or other costs unallowable under this Subpart 31.2 and including the cost of money (see 31.205-10)). When there is an established practice of leasing the same or similar equipment to unaffiliated lessees, rental costs shall be allowed in accordance with subparagraphs (b)(1) and (2) above, except that the purchase price and costs of ownership shall be determined under 31.205-26(e).

(c) (1) An estimate of the anticipated useful life of the ADPE may represent the application life (utility in a given function), technological life (utility before becoming obsolete in whole or in part), or physical life (utility before wearing out) depending upon the facts and circumstances and the particular facilities involved. Each case must be evaluated individually. In estimating anticipated useful life, the contractor may use the application life if it can be demonstrated that the ADPE has utility only in a given function and the duration of the function can be determined. Technological life may be used if the contractor can demonstrate that existing ADPE must be replaced because of—

(i) Specific program objectives or contract requirements that cannot be accomplished with the existing ADPE;

(ii) Cost reductions that will produce identifiable savings in production or overhead costs;

(iii) Increase in workload volume that cannot be accomplished efficiently by modifying or augmenting existing ADPE; or

(iv) Consistent pattern of capacity operation (2 ½-3 shifts) on existing ADPE.

(2) Technological advances will not justify replacing existing ADPE before the end of its physical life if it will be able to satisfy future requirements or demands.

(3) In estimating the least cost to the Government for useful life, the cumulative costs that would be allowed if the contractor owned the ADPE should be compared with cumulative costs that would be allowed under any of the various types of leasing arrangements available. For the purpose of this comparison, the costs of ADPE exclude interest or other unallowable costs pursuant to this Subpart 31.2; they include but are not limited to the costs of operation, maintenance, insurance, depreciation, facilities capital cost of money, rental, and the cost of machine services, as applicable.

(d) (1) Except as provided in subparagraph (3) below, the contractor's justification, under paragraph (b) above, of the leasing decisions shall consist of the following supporting data, prepared before acquisition:

(i) Analysis of use of existing ADPE.

(ii) Application of the criteria in paragraph (b) above.

(iii) Specific objectives or requirements, generally in the form of a data system study and specification.

(iv) Solicitation of proposals, based on the data system specification, from qualified sources.

(v) Proposals received in response to the solicitation and reasons for selecting the equipment chosen and for the decision to lease.

(2) Except as provided in subparagraph (3) below, the contractor's annual justification, under subparagraph (b)(2) above, of the decision to retain or change existing ADPE capability and the need to continue leasing shall consist of current data as specified in subdivisions (d)(1)(i) through (iii) above.

(3) If the contractor's prospective ADPE lease cost meets the threshold in 31.205-2(b)(2)(iii) above, the contractor shall furnish data supporting the initial decision to lease (see subparagraph (b)(1) above). If the total cost of leasing ADPE in a single plant, division, or cost center exceeds $500,000 per year and 50 percent or more of the total leasing cost is allocated to Government contracts which require negotiating or determining costs, the contractor shall furnish data supporting the annual justification for retaining or changing existing ADPE capability and the need to continue leasing shall also be furnished (see subparagraph (b)(2) above).

31.205-3 Bad debts.

Bad debts, including actual or estimated losses arising from uncollectible accounts receivable due from customers and other claims, and any directly associated costs such as collection costs, and legal costs are unallowable.

31.205-4 Bonding costs.

(a) Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the contractor. They arise also in instances where the contractor requires similar assurance. Included are such bonds as bid, performance, payment, advance payment, infringement, and fidelity bonds.

(b) Costs of bonding required pursuant to the terms of the contract are allowable.

(c) Costs of bonding required by the contractor in the general conduct of its business are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

31.205-5 Civil defense costs.

(a) Civil defense costs are those incurred in planning for, and protecting life and property against, the possible effects of enemy attack. Costs of civil defense measures (including costs in excess of normal plant protection costs, first-aid training and supplies, fire fighting training and equipment, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the contractor's premises pursuant to suggestions or requirements of civil defense authorities are allowable when allocated to all work of the contractor.

(b) Costs of capital assets acquired for civil defense purposes are allowable through depreciation (see 31.205-11).

(c) Contributions to local civil defense funds and projects are unallowable.

31.205-6 Compensation for personal services.

(a) *General.* Compensation for personal services includes all remuneration paid currently or accrued, in whatever form and whether paid immediately or deferred, for services rendered by employees to the contractor during the period of contract performance (except as otherwise provided for severance pay costs in paragraph (g) below and for pension costs in paragraph (j) below). It includes, but is not limited to, salaries; wages; directors' and executive committee members' fees; bonuses (including stock bonuses); incentive awards; employee stock options, stock appreciation rights, and stock ownership plans; employee insurance; fringe benefits; contributions to pension, annuity, and management employee incentive compensation plans; and allowances for off-site pay, incentive pay, location allowances, hardship pay, severance pay, and cost of living differential. Compensation for personal services is allowable subject to the following general criteria and additional requirements contained in other parts of this cost principle:

(1) Compensation for personal services must be for work performed by the employee in the current year and must not represent a retroactive adjustment of prior years' salaries or wages (but see 31.205-6(g), (h), (j), (k), and (m) below).

(2) The compensation in total must be reasonable for the work performed; however, specific restrictions on individual compensation elements must be observed where they are prescribed.

(3) The compensation must be based upon and conform to the terms and conditions of the contractor's established compensation plan or practice followed so consistently as to imply, in effect, an agreement to make the payment.

(4) No presumption of allowability will exist where the contractor introduces major revisions of existing compensation plans or new plans and the contractor—

(i) Has not notified the cognizant ACO of the changes either before their implementation or within a reasonable period after their implementation, and

(ii) Has not provided the Government, either before implementation or within a reasonable period after it, an opportunity to review the allowability of the changes.

(5) Costs that are unallowable under other paragraphs of this Subpart 31.2 shall not be allowable under this subsection 31.205-6 solely on the basis that they constitute compensation for personal services. (See 31.205-34(c.))

(b) *Reasonableness.* Compensation for personal services will be considered reasonable if the total compensation conforms generally to compensation paid by other firms of the same size, in the same industry, or in the same geographic area for similar services or work performed. This does not preclude the Government from challenging the reasonableness of an individual element of compensation where costs are excessive in comparison with compensation paid by other firms of the same size, same industry, or in the same geographic area for similar services. In administering this principle, it is recognized that not every compensation case need be subjected in detail to the above tests. The tests need be applied only when a general review reveals amounts or types of compensation that appear unreasonable or unjustified. In questionable cases, the contractor has responsibility to support the reasonableness of the compensation in relation to the effort performed. Compensation costs under certain conditions give rise to the need for special consideration. Among such conditions are the following:

(1) Compensation to (i) owners of closely held corporations, partners, sole proprietors, or members of their immediate families, or (ii) persons who are contractually committed to acquire a substantial financial interest in the contractor's enterprise. Determination should be made that salaries are reasonable for the personal services rendered rather than being a distribution of profits. Compensation in lieu of salary for services rendered by partners and sole proprietors will be allowed to the extent that it is reasonable and does not constitute a distribution of profits. For closely held corporations, compensation costs covered by this subparagraph shall not be recognized in amounts exceeding those costs that are deductible as compensation under the Internal Revenue Code and regulations under it.

(2) Any change in a contractor's compensation policy that results in a substantial increase in the contractor's level of compensation, particularly when it was concurrent with an increase in the ratio of Government contracts to other business, or any change in the treatment of allowability of specific types of compensation due to changes in Government policy. No presumption of reasonableness will exist where major revisions of existing compensation plans or new plans are introduced by the contractor; and the contractor—

(i) Has not notified the cognizant ACO of the change either before their implementation or within a reasonable period after their implementation; and

(ii) Has not provided the Government, either before implementation or within a reasonable period after it, an opportunity to review the reasonableness of the changes.

(3) The contractor's business is such that its compensation levels are not subject to the restraints that normally occur in the conduct of competitive business.

(4) The contractor incurs costs for compensation in excess of the amounts which are deductible under the Internal Revenue Code and regulations issued under it.

(c) *Labor-management agreements.* Nothwithstanding any other requirements of this subsection 31.205-6, costs of compensation are not allowable to the extent that they result from provisions of labor-management agreements that, as applied to work in performing Government contracts, are determined to be unreasonable because they are either unwarranted by the character and circumstances of the work or discriminatory against the Government. The application of the provisions of a labor-management agreement designed to apply to a given set of circumstances and conditions of employment (e.g., work involving extremely hazardous activities or work not requiring recurrent use of overtime) is unwarranted when applied to a Government contract involving significantly different circumstances and conditions of employment (e.g., work involving less hazardous activities or work continually requiring use of overtime). It is discriminatory against the Government if it results in employee compensation (in whatever form or name) in excess of that being paid for similar non-Government work under comparable circumstances. Disallowance of costs will not be made under this paragraph (c) unless—

(1) The contractor has been permitted an opportunity to justify the costs; and

(2) Due consideration has been given to whether unusual conditions pertain to Government contract work, imposing burdens, hardships, or hazards on the contractor's employees, for which compensation that might otherwise appear unreasonable is required to attract and hold necessary personnel.

(d) *Salaries and wages.* Salaries and wages for current services include gross compensation paid to employees in the form of cash, stock (see subparagraph (f)(2) below regarding valuation), products, or services, and are allowable.

(e) *Domestic and foreign differential pay.* (1) When personal services are performed in a foreign country, compensation may also include a differential that may properly consider all expenses associated with foreign employment such as housing, cost of living adjustments, transportation, bonuses, additional Federal, State, local or foreign income taxes resulting from foreign assignment, and other related expenses.

(2) Although the additional taxes in subparagraph (1) above may be considered in establishing foreign overseas differential, any increased compensation calculated directly on the basis of an employee's specific increase in income taxes is unallowable. Differential allowances for additional Federal, State, or local income taxes resulting from domestic assignments are unallowable.

(f) *Bonuses and incentive compensation.* (1) Incentive compensation for management employees, cash bonuses, suggestion awards, safety awards, and incentive compensation based on production, cost reduction, or efficient performance are allowable provided the awards are paid or accrued under an agreement entered into in good faith between the contractor and the employees before the services are rendered or pursuant to an established plan or policy followed by the contractor so consistently as to imply, in effect, an agreement to make such payment and the basis for the award is supported.

(2) When the costs of bonuses and incentive compensation are paid in the stock of the contractor or of an affiliate, the following additional restrictions apply:

(i) Valuation placed on the stock shall be the fair market value on the measurement date (i.e., the first date the number of shares awarded is known) determined upon the most objective basis available; and

(ii) Accruals for the cost of stock before issuing the stock to the employees shall be subject to adjustment according to the possibilities that the employees will not receive the stock and that their interest in the accruals will be forfeited.

(3) When the bonus and incentive compensation payments are deferred, the costs are subject to the requirements of subparagraph (f)(1) above and of paragraph (k) below.

(g) *Severance pay.* (1) Severance pay, also commonly referred to as dismissal wages, is a payment in addition to regular salaries and wages by contractors to workers whose employment is being involuntarily terminated. Payments for early retirement incentive plans are covered in subparagraph (j)(6) below.

(2) Severance pay to be allowable must meet the general allowability criteria in subdivision (g)(2)(i) below, and, depending upon whether the severance is normal or abnormal, criteria in subdivision (g)(2)(ii) for normal severance pay or subdivision (g)(2)(iii) for abnormal severance pay also apply.

(i) Severance pay is allowable only to the extent that, in each case, it is required by (A) law, (B) employer-employee agreement, (C) established policy that constitutes, in effect, an implied agreement on the contractor's part, or (D) circumstances of the particular employment. Payments made in the event of employment with a replacement contractor where continuity of employment with credit for prior length of service is preserved under substantially equal conditions of employment, or continued employment by the contractor at another facility, subsidiary, affiliate, or parent company of the contractor are not severance pay and are unallowable. Severance payments, or amounts paid in lieu thereof, are not allowable when paid to employees in addition to early or normal retirement payments.

(ii) Actual normal turnover severance payments shall be allocated to all work performed in the contractor's plant, or where the contractor provides for accrual of pay for normal severances, that method will be acceptable if the amount of the accrual is reasonable in light of payments actually made for normal severances over a representative past period and if amounts accrued are allocated to all work performed in the contractor's plant.

(iii) Abnormal or mass severance pay is of such a conjectural nature that measurement of costs by means of an accrual will not achieve equity to both parties. Thus, accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, allowability will be considered on a case-by-case basis.

(h) *Backpay.* (1) *Backpay resulting from violations of Federal labor laws or the Civil Rights Act of 1964.* Backpay may result from a negotiated settlement, order, or court decree that resolves a violation of Federal labor laws or the Civil Rights Act of 1964. Such backpay falls into two categories: one requiring the contractor to pay employees additional compensation for work performed for which they were underpaid, and the other resulting from other violations, such as when the employee was improperly discharged, discriminated against, or other circumstances for which the backpay was not additional compensation for work performed. Backpay resulting from underpaid work is compensation for the work performed and is allowable. All other backpay resulting from violation of Federal labor laws or the Civil Rights Act of 1964 is unallowable.

(2) *Other backpay.* Backpay may also result from payments to union employees (union and non-union) for the difference in their past and current wage rates for working without a contract or labor agreement during labor management negotiations. Such backpay is allowable. Backpay to nonunion employees based upon results of union agreement negotiations is allowable only if (i) a formal agreement or understanding exists between management and the employees concerning these payments, or (ii) an established policy or practice exists and is followed by the contractor so consistently as to imply, in effect, an agreement to make such payment.

(i) *Stock options, stock appreciation rights, and phantom stock plans.* (1) The cost of stock options awarded to employees to purchase stock of the contractor or of an affiliate will be treated as deferred compensation and must comply with the requirements of paragraph (k) below and with the allowability criteria contained in subparagraph (i)(2) below. The allowable cost of stock appreciation rights, whether offered separately or combined with stock options, will be determined in the same manner as stock options.

(2) The allowable costs of stock options and stock appreciation rights will be limited to the difference between the option price or stock-appreciation-right price and the market price of the stock on the measurement date (i.e., the first date on which both the number of shares and the option or stock-appreciation-right price are known). Accordingly, when the option or stock-appreciation-right price is equal to or greater than the market price on the measurement date, then no costs are allowed for contract costing purposes.

(3) In phantom-stock-type plans, contractors assign or attribute contingent shares of stock to employees as if the employees own the stock, even though the employees neither purchase the stock nor receive title to it. Under these plans, an employee's account may be increased by the equivalent of dividends issued and any appreciation in the market price of the stock over the price of the stock on the measurement date (i.e., the first date the number of shares awarded is known). Such increases in employee accounts for dividend equivalents and market price appreciation are unallowable.

(j) *Pension costs.* (1) A pension plan is a deferred compensation plan that is established and maintained by one or more employers to provide systematically for paying benefits to plan participants after their retirement, provided that the benefits are paid for life or are payable for life at the option of the employee. Additional benefits such as permanent and total disability and death payments and survivorship payments to beneficiaries of deceased employees may be treated as pension costs, provided the benefits are an integral part of the pension plan and meet all the criteria pertaining to pension costs.

(2) Pension plans are normally segregated into two types of plans: defined benefit or defined contribution pension plans. The cost of all defined benefit pension plans shall be measured, allocated, and accounted for in compliance with the provisions of CAS 412, Composition and Measurement of Pension Costs, and CAS 413, Adjustment and Allocation of Pension Cost. The costs of all defined contribution pension plans shall be measured, allocated, and accounted for in accordance with the provisions of CAS 412. Pension costs are allowable subject to the referenced standards and the cost limitations and exclusions set

forth below in this subparagraph and in subparagraphs (j)(3), (4), (5), (6), and (7) below.

(i) To be allowable in the current year, pension costs must be funded by the time set for filing the Federal income tax return or any extension thereof. Pension costs assigned to the current year, but not funded by the tax return time, shall not be allowable in any subsequent year.

(ii) Pension payments must be reasonable in amount and be paid pursuant to (A) an agreement entered into in good faith between the contractor and employees before the work or services are performed and (B) the terms and conditions of the established plan. The cost of changes in pension plans which are discriminatory to the Government or are not intended to be applied consistently for all employees under similar circumstances in the future are not allowable.

(iii) Except as provided for early retirement benefits in subparagraph (j)(6) below, one-time-only pension supplements not available to all participants of the basic plan are not allowable as pension costs unless the supplemental benefits represent a separate pension plan and the benefits are payable for life at the option of the employee.

(iv) Increases in payments to previously retired plan participants covering cost-of-living adjustments are allowable if paid in accordance with a policy or practice consistently followed.

(3) *Defined benefit pension plans.* This subparagraph covers pension plans in which the benefits to be paid or the basis for determining such benefits are established in advance and the contributions are intended to provide the stated benefits. The cost limitations and exclusions pertaining to defined benefit plans are as follows:

(i) Normal costs of pension plans not funded in the year incurred, and all other components of pension costs (see CAS 412.40(a)(1)) assignable to the current accounting period but not funded during it, shall not be allowable in subsequent years (except that a payment made to a fund by the time set for filing the Federal income tax return or any extension thereof is considered to have been made during such taxable year). However, any part of a pension cost that is computed for a cost accounting period that is deferred pursuant to a waiver granted under the provisions of the Employee's Retirement Income Security Act of 1974 (ERISA) (see CAS 412.50(c)(3)), will be allowable in those future accounting periods in which the funding does occur. The allowability of these deferred contributions will be limited to the amounts that would have been allowed had the funding occurred in the year the costs would have been assigned except for the waiver.

(ii) Any amount paid or funded before the time it becomes assignable and allowable shall be applied to future years, in order of time, as if actually paid and deductible in those years. The interest earned on such premature funding, based on the valuation rate of return, may be excluded from future years' computations of pension costs in accordance with CAS 412.50(a)(7).

(iii) Increased pension costs caused by delay in funding beyond 30 days after each quarter of the year to which they are assignable are unallowable. If a composite rate is used for allocating pension costs between the segments of a company and if, because of differences in the timing of the funding by the segments, an inequity exists, allowable pension costs for each segment will be limited to that particular segment's calculation of pension costs as provided for in CAS 413.50(c)(5). Determination of unallowable costs shall be made in accordance with the actuarial method used in calculating pension costs.

(iv) Allowability of the cost of indemnifying the Pension Benefit Guaranty Corporation (PBGC) under ERISA Section 4062 or 4064 arising from terminating an employee deferred compensation plan will be considered on a case-by-case basis; provided that if insurance was required by the PBGC under ERISA Section 4023, it was so obtained and the indemnification payment is not recoverable under the insurance. Consideration under the foregoing circumstances will be primarily for the purpose of appraising the extent to which the indemnification payment is allocable to Government work. If a beneficial or other equitable relationship exists, the Government will participate, despite the requirements of 31.205-19(a)(3) and (b), in the indemnification payment to the extent of its fair share.

(4) *Defined contribution pension plans.* This subparagraph covers those pension plans in which the contributions to be made are established in advance and the level of benefits is determined by the contributions made. It also covers profit sharing, savings plans, and other such plans provided the plans fall within the definition of a pension plan in subparagraph (j)(1) above.

(i) The pension cost assignable to a cost accounting period is the net contribution required to be made for that period after taking into account dividends and other credits, where applicable. However, any portion of pension cost computed for a cost accounting period that is deferred pursuant to a waiver granted under the provisions of ERISA (see CAS 412.50(c)(3)) will be allowable in those future accounting periods when the funding does occur. The allowability of these deferred contributions will be limited to the amounts that would have been allowed had the funding been made in the year the costs would have been assigned except for the waiver.

(ii) Any amount paid or funded to the trust before the time it becomes assignable and allowable shall be applied to future years, in order of time, as if actually paid and deductible in such years.

(iii) The provisions of subdivision (j)(3)(iv) above concerning payments to PBGC apply to defined contribution plans.

(5) *Pension plans using pay-as-you-go methods.* A pension plan using pay-as-you-go methods is a plan in which the contractor recognizes pension cost only when benefits are paid to retired employees or their beneficiaries. Regardless of whether the payment of pension benefits contribution can or cannot be compelled, allowable costs for these types of plans shall not exceed an amount computed as follows:

(i) Compute, by using an actuarial cost method, the plan's actuarial liability for benefits earned by plan participants. This entire liability is always unfunded for a pay-as-you-go plan.

(ii) Compute a level amount which, including an interest equivalent, would amortize the unfunded actuarial liability over a period of no less than 10 or more than 40 years from the inception of the liability.

(iii) Compute, by using an actuarial cost method, a normal cost for the period.

(iv) The sum of (ii) and (iii) above represents the amount of pension costs assignable to the current period. This amount, however, is limited to the amount paid in the year.

(v) For purposes of determining contract cost where a pay-as-you-go plan is initiated as either a supplemental plan or an additional but separate plan to a basic funded plan, the plans will be treated as one plan; e.g., the actuarial cost method, past service amortization period, etc., of the basic plan will be used on the supplemental or additional pay-as-you-go plan in determining the proper costs assignable to the current period. Any costs in excess of those determined by using the actuarial cost method and assumptions of the basic plan are unallowable. However, where assumption for salary progressions,

mortality rates of the participants, and so forth are significantly different, the assumptions used for the basic and supplemental plan may be different.

(vi) The requirements of subdivisions (j)(3)(i) through (iv) above are also applicable to pay-as-you-go plans.

(6) *Early retirement incentive plans.* An early retirement incentive plan is a plan under which employees receive a bonus or incentive, over and above the requirement of the basic pension plan, to retire early. These plans normally are not applicable to all participants of the basic plan and do not represent life income settlements, and as such would not qualify as pension costs. However, for contract costing purposes, early retirement incentive payments are allowable subject to the pension cost criteria contained in subdivisions (j)(3)(i) through (iv) provided—

(i) The costs are accounted for and allocated in accordance with the contractor's system of accounting for pension costs (see subdivision (j)(5)(v) above for supplemental pension benefits);

(ii) The payments are made in accordance with the terms and conditions of the contractor's plan;

(iii) The plan is applied only to active employees. The cost of extending the plan to employees who retired or were terminated before the adoption of the plan is unallowable; and

(iv) The total of the incentive payments to any employee may not exceed the amount of the employee's annual salary for the previous fiscal year before the employee's retirement.

(7) *Employee stock ownership plans (ESOP)* (i) An ESOP is an individual stock bonus plan designed specifically to invest in the stock of the employer corporation. The contractor's contributions to an Employee Stock Ownership Trust (ESOT) may be in the form of cash, stock, or property. Costs of ESOP's are allowable subject to the following conditions:

(A) Contributions by the contractor in any one year may not exceed 15 percent (25 percent when a money purchase plan is included) of salaries and wages of employees participating in the plan in any particular year.

(B) The contribution rate (ratio of contribution to salaries and wages of participating employees) may not exceed the last approved contribution rate except when approved by the contracting officer based upon justification provided by the contractor. When no contribution was made in the previous year for an existing ESOP, or when a new ESOP is first established, and the contractor proposes to make a contribution in the current year, the contribution rate shall be subject to the contracting officer's approval.

(C) When a plan or agreement exists wherein the liability for the contribution can be compelled for a specific year, the expense associated with that liability is assignable only to that period. Any portion of the contribution not funded by the time set for filing of the Federal income tax return for that year or any extension thereof shall not be allowable in subsequent years.

(D) When a plan or agreement exists wherein the liability for the contribution cannot be compelled, the amount contributed for any year is assignable to that year provided the amount is funded by the time set for filing of the Federal income tax return for that year.

(E) When the contribution is in the form of stock, the value of the stock contribution shall be limited to the fair market value of the stock on the date that title is effectively transferred to the trust. Cash contributions shall be allowable only when the contractor furnishes evidence satisfactory to the contracting officer demonstrating that stock purchases by the ESOT are or will be at a fair market price; e.g., makes arrangements with the trust permitting the contracting officer to examine purchases of stock by the trust to determine that prices paid are at fair market value. When excessive prices are paid, the amount of the excess will be credited to the same indirect cost pools that were charged for the ESOP contributions in the year in which the stock purchase occurs. However, when the trust purchases the stock with borrowed funds which will be repaid over a period of years by cash contributions from the contractor to the trust, the excess price over fair market value shall be credited to the indirect cost pools pro rata over the period of years during which the contractor contributes the cash used by the trust to repay the loan. When the fair market value of unissued stock or stock of a closely held corporation is not readily determinable, the valuation will be made on a case-by-case basis taking into consideration the guidelines for valuation used by the IRS.

(ii) Amounts contributed to an ESOP arising from either (A) an additional investment tax credit (see 1975 Tax Reduction Act—TRASOP's); or (B) a payroll-based tax credit (see Economic Recovery Tax Act of 1981) are unallowable.

(iii) The requirements of subdivision (j)(3)(ii) above are applicable to Employee Stock Ownership Plans.

(k) *Deferred compensation.* (1) Deferred compensation is an award given by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of receipt of compensation by the employee. Deferred compensation does not include the amount of year-end accruals for salaries, wages, or bonuses that are paid within a reasonable period of time after the end of a cost accounting period. Subject to 31.205-6(a), deferred awards are allowable when they are based on current or future services. Awards made in periods subsequent to the period when the work being remunerated was performed are not allowable.

(2) The costs of deferred awards shall be measured, allocated, and accounted for in compliance with the provisions of CAS 415, Accounting for the Cost of Deferred Compensation.

(3) Deferred compensation payments to employees under awards made before the effective date of CAS 415 are allowable to the extent they would have been allowable under prior acquisition regulations.

(l) Reserved.

(m) *Fringe benefits.* Fringe benefits are allowances and services provided by the contractor to its employees as compensation in addition to regular wages and salaries. The cost of fringe benefits, including, but not limited to, the cost of vacations, sick leave, holidays, military leave, employee insurance, and supplemental unemployment benefit plans, is allowable if reasonable. The costs of fringe benefits are allowable to the extent that they are required by law, employer-employee agreement, or as an established policy of the contractor.

31.205-7 Contingencies.

(a) "Contingency," as used in this subpart, means a possible future event or condition arising from presently known or unknown causes, the outcome of which is indeterminable at the present time.

(b) Costs for contingencies are generally unallowable for historical costing purposes because such costing deals with costs incurred and recorded on the contractor's books. However, in some cases, as for example, terminations, a contingency factor may be recognized when it is applicable to a past period to give recognition to minor unsettled factors in the interest of expediting settlement.

(c) In connection with estimates of future costs, contingencies fall into two categories:

(1) Those that may arise from presently known and existing conditions, the effects of which are

foreseeable within reasonable limits of accuracy; e.g., anticipated costs of rejects and defective work. Contingencies of this category are to be included in the estimates of future costs so as to provide the best estimate of performance cost.

(2) Those that may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the contractor and to the Government; e.g., results of pending litigation. Contingencies of this category are to be excluded from cost estimates under the several items of cost, but should be disclosed separately (including the basis upon which the contingency is computed) to facilitate the negotiation of appropriate contractual coverage. (See, for example, 31.205-6(g), 31.205-19, and 31.205-24.)

31.205-8 Contributions and donations.

Contributions and donations are unallowable.

31.205-9 Reserved.

31.205-10 Cost of money.

(a) *Facilities capital cost of money.*

(1) *General* (i) Facilities capital cost of money (cost of capital committed to facilities) is an imputed cost determined by applying a cost-of-money rate to facilities capital employed in contract performance. A cost-of-money rate is uniformly imputed to all contractors (see subdivision (ii) below). Capital employed is determined without regard to whether its source is equity or borrowed capital. The resulting cost of money is not a form of interest on borrowings (see 31.205-20).

(ii) CAS 414, Cost of Money as an Element of the Cost of Facilities Capital, establishes criteria for measuring and allocating, as an element of contract cost, the cost of capital committed to facilities. Cost-of-money factors are developed on Form CASB-CMF, broken down by overhead pool at the business unit, using (A) business-unit facilities capital data, (B) overhead allocation base data, and (C) the cost-of-money rate, which is based on interest rates specified by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2).

(2) *Allowability.* Whether or not the contract is otherwise subject to CAS, facilities capital cost of money is allowable if—

(i) The contractor's capital investment is measured, allocated to contracts, and costed in accordance with CAS 414;

(ii) The contractor maintains adequate records to demonstrate compliance with this standard; and

(iii) The estimated facilities capital cost of money is specifically identified or proposed in cost proposals relating to the contract under which this cost is to be claimed.

(3) *Accounting.* The facilities capital cost of money need not be entered on the contractor's books of account. However, the contractor shall (i) make a memorandum entry of the cost and (ii) maintain, in a manner that permits audit and verification, all relevant schedules, cost data, and other data necessary to support the entry fully.

(4) *Payment.* Facilities capital cost of money that is (i) allowable under subparagraph (2) above and (ii) calculated, allocated, and documented in accordance with this cost principle shall be an "incurred cost" for reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts.

(b) *Cost of money as an element of the cost of capital assets under construction.*

(1) *General* (i) Cost of money as an element of the cost of capital assets under construction is an imputed cost determined by applying a cost-of-money rate to the investment in tangible and intangible capital assets while they are being constructed, fabricated, or developed for a contractor's own use. Capital employed is determined without regard to whether its source is equity or borrowed capital. The resulting cost of money is not a form of interest on borrowing (see 31.205-20).

(ii) CAS 417, Cost of Money as an Element of the Cost of Capital Assets Under Construction, establishes criteria for measuring and allocating, as an element of contract cost, the cost of capital committed to capital assets under construction, fabrication, or development.

(2) *Allowability* (i) Whether or not the contact is otherwise subject to CAS, and except as specified in subdivision (ii) below, the cost of money for capital assets under construction, fabrication, or development is allowable if—

(A) The cost of money is calculated, allocated to contracts, and costed in accordance with CAS 417;

(B) The contractor maintains adequate records to demonstrate compliance with this standard; and

(C) The cost of money for tangible capital assets if included in the capitalized cost that provides the basis for allowable depreciation costs, or, in the case of intangible capital assets, the cost of money is included in the cost of those assets for which amortization costs are allowable.

(ii) Actual interest cost in lieu of the calculated imputed cost of money for capital assets under construction, fabrication, or development is unallowable.

(3) *Accounting.* The cost of money for capital assets under construction need not be entered on the contractor's books of account. However, the contractor shall (i) make a memorandum entry of the cost and (ii) maintain, in a manner that permits audit and verification, all relevant schedules, cost data, and other data necessary to support the entry fully.

(4) *Payment.* The cost of money for capital assets under construction that is allowable under subparagraph (2) above of this cost principle shall be an "incurred cost" for reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts.

31.205-11 Depreciation.

(a) Depreciation is a charge to current operations which distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life refers to the prospective period of economic usefulness in a particular contractor's operations as distinguished from physical life; it is evidenced by the actual or estimated retirement and replacement practice of the contractor.

(b) Contractors having contracts subject to CAS 409, Depreciation of Tangible Capital Assets, must adhere to the requirement of that standard for all fully CAS-covered contracts and may elect to adopt the standard for all other contracts. All requirements of CAS 409 are applicable if the election is made, and its requirements supersede any conflicting requirements of this cost principle. Once electing to adopt CAS 409 for all contracts, contractors must continue to follow it until notification of final acceptance of all deliverable items on all open negotiated Government contracts. Paragraphs (c) through (e) below apply to contracts to which CAS 409 is not applied.

(c) Normal depreciation on a contractor's plant, equipment, and other capital facilities is an allowable contract cost, if the contractor is able to demonstrate that it is reasonable and allocable (but see paragrpah (i) below).

(d) Depreciation shall be considered reasonable if the contractor follows policies and procedures that are—

(1) Consistent with those followed in the same cost center for business other than Government;

(2) Reflected in the contractor's books of accounts and financial statements; and

(3) Both used and acceptable for Federal income tax purposes.

(e) When the depreciation reflected on a contractor's books of accounts and financial statements differs from that used and acceptable for Federal income tax purposes, reimbursement shall be based on the asset cost amortized over the estimated useful life of the property using depreciation methods (straight line, sum of the years' digits, etc.) acceptable for income tax purposes. Allowable depreciation shall not exceed the amounts used for book and statement purposes and shall be determined in a manner consistent with the depreciation policies and procedures followed in the same cost center on non-Government business.

(f) Depreciation for reimbursement purposes in the case of tax-exempt organizations shall be determined on the basis described in paragraph (e) immediately above.

(g) Special considerations are required for assets acquired before the effective date of this cost principle if, on that date, the undepreciated balance of these assets resulting from depreciation policies and procedures used previously for Government contracts and subcontracts is different from the undepreciated balance on the books and financial statements. The undepreciated balance for contract cost purposes shall be depreciated over the remaining life using the methods and lives followed for book purposes. The aggregate depreciation of any asset allowable after the effective date of this 31.205-11 shall not exceed the cost basis of the asset less any depreciation allowed or allowable under prior acquisition regulations.

(h) Depreciation should usually be allocated to the contract and other work as an indirect cost. The amount of depreciation allowed in any accounting period may, consistent with the basic objectives in paragraph (a) above, vary with volume of production or use of multishift operations.

(i) In the case of emergency facilities covered by certificates of necessity, a contractor may elect to use normal depreciation without requesting a determination of "true depreciation," or may elect to use either normal or "true depreciation" after a determination of "true depreciation" has been made by an Emergency Facilities Depreciation Board (EFDB). The method elected must be followed consistently thoughout the life of the emergency facility. When an election is made to use normal depreciation, the criteria in paragraphs (c), (d), (e), and (f) above shall apply for both the emergency period and the post-emergency period. When an election is made to use "true depreciation", the amount allowable as depreciation—

(1) With respect to the emergency period (five years), shall be computed in accordance with the determination of the EFDB and allocated rateably over the full five year emergency period; *provided* no other allowance is made which would duplicate the factors, such as extraordinary obsolescence, covered by the Board's determination; and

(2) After the end of the emergency period, shall be computed by distributing the remaining undepreciated portion of the cost of the emergency facility over the balance of its useful life provided the remaining undepreciated portion of such cost shall not include any amount of unrecovered "true depreciation."

(j) No depreciation, rental, or use charge shall be allowed on property acquired at no cost from the Government by the contractor or by any division, subsidiary, or affiliate of the contractor under common control.

(k) The depreciation on any item which meets the criteria for allowance at a "price" under 31.205-26(e) may be based on that price, provided the same policies and procedures are used for costing all business of the using division, subsidiary, or organization under common control.

(l) No depreciation or rental shall be allowed on property fully depreciated by the contractor or by any division, subsidiary, or affiliate of the contractor under common control. However, a reasonable charge for using fully depreciated property may be agreed upon and allowed (but see 31.109(h)(2)). In determining the charge, consideration shall be given to cost, total estimated useful life at the time of negotiations, effect of any increased maintenance charges or decreased efficiency due to age, and the amount of depreciation previously charged to Government contracts or subcontracts.

(m) CAS 404, Capitalization of Tangible Assets, applies to assets acquired by a "capital lease" as defined in Statement of Financial Accounting Standard No. 13 (FAS-13), Accounting for Leases, issued by the Financial Accounting Standards Board (FASB). Compliance with CAS 404 and FAS-13 requires that such leased assets (capital leases) be treated as purchased assets; i.e., be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges, or over the leased life as amortization charges as appropriate. Assets whose leases are classified as capital leases under FAS-13 are subject to the requirements of 31.205-11 while assets acquired under leases classified as operating leases are subject to the requirements on rental costs in 31.205-36. The standards of financial accounting and reporting prescribed by FAS-13 are incorporated into this principle and shall govern its application, except as provided in subparagraphs (1), (2), and (3) below.

(1) Rental costs under a sale and leaseback arrangement shall be allowable up to the amount that would have been allowed had the contractor retained title to the property.

(2) Capital leases, as defined in FAS-13, for all real and personal property, between any related parties are subject to the requirements of this subparagraph 31.205-11(m). If it is determined that the terms of the lease have been significantly affected by the fact that the lessee and lessor are related, depreciation charges shall not be allowed in excess of those which would have occurred if the lease contained terms consistent with those found in a lease between unrelated parties.

(3) Assets acquired under leases that the contractor must capitalize under FAS-13 shall not be treated as purchased assets for contract purposes if the leases are covered by 31.205-36(b)(4).

31.205-12 Economic planning costs.

(a) This category includes costs of generalized long-range management planning that is concerned with the future overall development of the contractor's business and that may take into account the eventual possibility of economic dislocations or fundamental alterations in those markets in which the contractor currently does business. Economic planning costs do not include organization or reorganization costs covered by 31.205-27.

(b) Economic planning costs are allowable as indirect costs to be properly allocated.

(c) Research and development and engineering costs designed to lead to new products for sale to the general public are not allowable under this principle.

31.205-13 Employee morale, health, welfare, food service, and dormitory costs and credits.

(a) Aggregate costs incurred on activities designed to improve working conditions, employer-employee relations, employee morale, and

employee performance (less income generated by these activities) are allowable, except as limited by paragraph (b) immediately below, and to the extent that the net amount is reasonable. Some examples are house publications, health clinics, recreation, employee counseling services, and food and dormitory services, which include operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations, or similar types of services for the contractor's employees at or near the contractor's facilities.

(b) Losses from operating food and dormitory services may be included as costs only if the contractor's objective is to operate such services on a break-even basis. Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates which would not accomplish the above objective are not allowable. A loss may be allowed, however, to the extent the contractor can demonstrate that unusual circumstances exist (e.g., (i) where the contractor must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available or (ii) where it is necessary to operate a facility at a lower volume than the facility could economically support) such that, even with efficient management, operating the services on a break-even basis would require charging inordinately high prices or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas. Cost of food and dormitory services shall include an allocable share of indirect expenses pertaining to these activities.

(c) When the contractor has an arrangement authorizing an employee association to provide or operate a service, such as vending machines in the contractor's plant, and retain the profits, such profits shall be treated in the same manner as if the contractor were providing the service (but see paragraph (d) immediately below).

(d) Contributions by the contractor to an employee organization, including funds from vending machine receipts or similar sources, may be included as costs incurrred under paragraph (a) above only to the extent that the contractor demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable if directly incurred by the contractor.

31.205-14 Entertainment costs.

Costs of amusement, diversion, social activities, and any directly associated costs such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities are unallowable (but see 31.205-13 and 31.205-43).

31.205-15 Fines and penalties.

Costs of fines and penalties resulting from violations of, or failure of the contractor to comply with, Federal, State, or local laws and regulations are unallowable except when incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer.

31.205-16 Gains and losses on disposition of depreciable property or other capital assets.

(a) Gains and losses from the sale, retirement, or other disposition (but see 31.205-19) of depreciable property shall be included in the year in which they occur as credits or charges to the cost grouping(s) in which the depreciation or amortization applicable to those assets was included (but see paragraph (d) below).

(b) Gains and losses on disposition of tangible capital assets, incuding those acquired under capital leases (see 31.205-11(m), shall be considered as adjustments of depreciation costs previously recognized. The gain or loss for each asset disposed of is the difference between the net amount realized, including insurance proceeds from involuntary conversions, and its undepreciated balance. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost (or for assets acquired under a capital lease, the value at which the leased asset is capitalized) of the asset and its undepreciated balance (except see subdivisions (c)(2)(i) or (ii) below).

(c) Special considerations apply to an involuntary conversion which occurs when a contractor's property is destroyed by events over which the owner has no control, such as fire, windstorm, flood, accident, theft, etc., and an insurance award is recovered. The following govern involuntary conversions:

(1) When there is a cash award and the converted asset is not replaced, gain or loss shall be recognized in the period of disposition. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost of the asset and its undepreciated balance.

(2) When the converted asset is replaced, the contractor shall either—

(i) Adjust the depreciable basis of the new asset by the amount of the total realized gain or loss; or

(ii) Recognize the gain or loss in the period of disposition, in which case the Government shall participate to the same extent as outlined in subparagraph (c)(1) above.

(d) Gains and losses on the disposition of depreciable property shall not be recognized as a separate charge or credit when—

(1) Gains and losses are processed through the depreciation reserve account and reflected in the depreciation allowable under 31.205-11; or

(2) The property is exchanged as part of the purchase price of a similar item, and the gain or loss is taken into consideration in the depreciation cost basis of the new item.

(e) Gains and losses arising from mass or extraordinary sales, retirements, or other disposition shall be considered on a case-by-case basis.

(f) Gains and losses of any nature arising from the sale or exchange of capital assets other than depreciable property shall be excluded in computing contract costs.

31.205-17 Idle facilities and idle capacity costs.

(a) "Costs of idle facilities or idle capacity," as used in this subsection, means costs such as maintenance, repair, housing, rent, and other related costs; e.g., property taxes, insurance, and depreciation.

"Facilities," as used in this subsection, means plant or any portion thereof (including land integral to the operation), equipment, individually or collectively, or any other tangible capital asset, wherever located, and whether owned or leased by the contractor.

"Idle capacity," as used in this subsection, means the unused capacity of partially used facilities. It is the difference between that which a facility could achieve under 100 percent operating time on a one-shift basis, less operating interruptions resulting from time lost for repairs, setups, unsatisfactory materials, and other normal delays, and the extent to which the facility was actually used to meet demands during the accounting period. A multiple-shift basis may be used in the calculation instead of a one-shift basis if it can be shown that this amount of usage could normally be expected for the type of facility involved.

"Idle facilities," as used in this subsection, means completely unused facilities that are excess to the contractor's current needs.

(b) The costs of idle facilities are unallowable unless the facilities—

(1) Are necessary to meet fluctuations in workload; or

(2) Were necessary when acquired and are now idle because of changes in requirements, production economies, reorganization, termination, or other causes which could not have been reasonably foreseen. (Costs of idle facilities are allowable for a reasonable period, ordinarily not to exceed 1 year, depending upon the initiative taken to use, lease, or dispose of the idle facilities (but see 31.205-42)).

(c) Costs of idle capacity are costs of doing business and are a factor in the normal fluctuations of usage or overhead rates from period to period. Such costs are allowable provided the capacity is necessary or was originally reasonable and is not subject to reduction or elimination by subletting, renting, or sale, in accordance with sound business, economics, or security practices. Widespread idle capacity throughout an entire plant or among a group of assets having substantially the same function may be idle facilities.

(d) Any costs to be paid directly by the Government for idle facilities or idle capacity reserved for defense mobilization production shall be the subject of a separate agreement.

31.205-18 Independent research and development and bid and proposal costs.

(a) *Definitions.*

"Applied research," as used in this subsection, means that effort which (1) normally follows basic research, but may not be severable from the related basic research, (2) attempts to determine and exploit the potential of scientific discoveries or improvements in technology, materials, processes, methods, devices, or techniques, and (3) attempts to advance the state of the art. Applied research does not include efforts whose principal aim is design, development, or test of specific items or services to be considered for sale; these efforts are within the definition of the term "development," defined below.

"Basic research," as used in this subsection, means that research which is directed toward increase of knowledge in science. The primary aim of basic research is a fuller knowledge or understanding of the subject under study, rather than any practical application thereof.

"Bid and proposal (B&P) costs," as used in this subdivision, means the costs incurred in preparing, submitting, and supporting bids and proposals (whether or not solicited) on potential Government or non-Government contracts. The term does not include the costs of effort sponsored by a grant or cooperative agreement or required in contract performance.

"Company," as used in this subsection, means all divisions, subsidiaries, and affiliates of the contractor under common control.

"Development," as used in this subsection, means the systematic use, under whatever name, of scientific and technical knowledge in the design, development, test, or evaluation of a potential new product or service (or of an improvement in an existing product or service) for the purpose of meeting specific performance requirements or objectives. Development includes the functions of design engineering, prototyping, and engineering testing. Development excludes: (1) subcontracted technical effort which is for the sole purpose of developing an additional source for an existing product, or (2) development effort for manufacturing or production materials, systems, processes, methods, equipment, tools, and techniques not intended for sale.

"Independent research and development (IR&D)" means a contractor's IR&D cost that is not sponsored by, or required in performance of, a contract or grant and that consists of projects falling within the four following areas: (1) basic research, (2) applied research, (3) development, and (4) systems and other concept formulation studies. IR&D effort shall not include technical effort expended in developing and preparing technical data specifically to support submitting a bid or proposal.

"Systems and other concept formulation studies," as used in this subsection, means analyses and study efforts either related to specific IR&D efforts or directed toward identifying desirable new systems, equipments or components, or modifications and improvements to existing systems, equipments, or components.

(b) *Composition and allocation of costs.* The requirements of CAS 420, Accounting for Independent Research and Development Costs and Bid and Proposal Costs, are incorporated in their entirety and shall apply as follows—

(1) *Fully-CAS-covered contracts.* Contracts that are fully-CAS-covered shall be subject to all requirements of CAS 420.

(2) *Modified-CAS-covered and non-CAS-covered contracts.* Contracts that are not CAS-covered or that contain terms or conditions requiring modified CAS coverage shall be subject to all requirements of CAS 420 *except* 4 CFR 420.50(e)(2) and 4 CFR 420.50(f)(2), which are not then applicable. However, non-CAS covered or modified CAS-covered contracts awarded at a time the contractor has CAS-covered contracts requiring compliance with CAS 420, shall be subject to all the requirements of CAS 420. When the requirements of 4 CFR 420.50(e)(2) and 4 CFR 420.50(f)(2) are not applicable, the following apply:

(i) IR&D and B&P costs shall be allocated to final cost objectives on the same basis of allocation used for the G&A expense grouping of the profit center (see 31.001) in which the costs are incurred. However, when IR&D and B&P costs clearly benefit other profit centers or benefit the entire company, those costs shall be allocated through the G&A of the other profit centers or through the corporate G&A, as appropriate.

(ii) If allocations of IR&D or B&P through the G&A base do not provide equitable cost allocation, the contracting officer may approve use of a different base.

(c) *Allowability.* Except as provided in paragraph (d) below, costs for IR&D and B&P are allowable only in accordance with the following:

(1) *Companies required to negotiate advance agreements.*

(i) Any company that received payments for IR&D and B&P costs in a fiscal year, either as a prime contractor or subcontractor, exceeding $4 million from Government agencies, is required to negotiate with the Government an advance agreement which establishes a ceiling for allowability of IR&D and B&P costs for the following fiscal year. This agreement is binding on all Government agencies, unless prohibited by statute. The requirements of Section 203 of Pub. L. 91-441 necessitate that the Department of Defense (DOD) be the lead negotiating agency when the contractor has received more than $4 million in payments for IR&D and B&P from DOD. Computation of IR&D and B&P costs to determine whether the threshold criterion was reached shall include only recoverable IR&D and B&P costs allocated during the company's previous fiscal year to prime contracts and subcontracts for which the submission and certification of cost or pricing data were required. (Also see paragraph (b) above and 15.804.) The computation shall include full burdening pursuant to CAS 420.

(ii) When a company meets the criterion in (i) above, required advance agreements may be negotiated at the corporate level and/or with those profit centers that contract directly with the Government and that in the preceding year allocated recoverable IR&D and B&P costs exceeding $500,000, including burdening, to contracts and

subcontracts for which the submission and certification of cost or pricing data were required (also see paragraph (b) above and 15.804). When ceilings are negotiated for separate profit centers of the company, the allowability of IR&D and B&P costs for any center that in its previous fiscal year did not reach the $500,000 threshold may be determined in accordance with subparagraph (c)(2) below.

(iii) Ceilings are the maximum dollar amounts of total IR&D and B&P costs that will be allowable for allocation over the appropriate base for that part of the company's operation covered by an advance agreement.

(iv) No IR&D and B&P cost shall be allowable if a company fails to initiate negotiation of a required advance agreement before the end of the fiscal year for which the agreement is required.

(v) When negotiations are held with a company meeting the $4 million criterion or with separate profit centers (when negotiations are held at that level under (ii) above), and if no advance agreement is reached, payment for IR&D and B&P costs shall be reduced below that which the company or profit center would have otherwise received. The amount of such reduced payment shall not exceed 75 percent of the amount which, in the opinion of the contracting officer, the company or profit center would be entitled to receive under an advance agreement. Written notification of the contracting officer's determination of a reduced amount shall be provided the contractor. In the event that an advance agreement is not reached before the end of the contractor's fiscal year for which the agreement is to apply, negotiations shall immediately be terminated, and the contracting officer shall furnish a determination of the reduced amount.

(vi) Contractors may appeal decisions of the contracting officer to reduce payment. The appeal shall be filed with the contracting officer within 30 days of receipt of the contracting officer's determination. (Also see Subpart 42.10.)

(2) *Companies not required to negotiate advance agreements.* Ceilings for allowable IR&D and B&P costs for companies not required to negotiate advance agreements in accordance with subparagraph (c)(1) above shall be established by a formula, either on a company-wide basis or by profit centers, computed as follows:

(i) Determine the ratio of IR&D/B&P costs to total sales (or other base acceptable to the contracting officer) for each of the preceding three years and average the two highest of these ratios; this average is the IR&D/B&P historical ratio;

(ii) Compute the average annual IR&D/B&P costs (hereafter called average), using the two highest of the preceding three years;

(iii) IR&D/B&P costs for the center for the current year which are not in excess of the product of the center's actual total sales (or other accepted base) for the current year and the IR&D/B&P historical ratio computed under (i) above (hereafter called product) shall be considered allowable only to the extent the product does not exceed 120 percent of the average. If the product is less than 80 percent of the average, costs up to 80 percent of the average shall be allowable.

(iv) However, at the discretion of the contracting officer, an advance agreement may be negotiated when the contractor can demonstrate that the formula would produce a clearly inequitable cost recovery.

(d) *Deferred IR&D and B&P costs.* (1) IR&D costs that were incurred in previous accounting periods are unallowable, except when a contractor has developed a specific product at its own risk in anticipation of recovering the development costs in the sale price of the product provided that—

(i) The total amount of IR&D costs applicable to the product can be identified;

(ii) The proration of such costs to sales of the product is reasonable;

(iii) The contractor had no Government business during the time that the costs were incurred or did not allocate IR&D costs to Government contracts except to prorate the cost of developing a specific product to the sales of that product; and

(iv) No costs of current IR&D programs are allocated to Government work except to prorate the costs of developing a specific product to the sales of that product.

(2) When deferred costs are recognized, the contract (except firm-fixed-price and fixed-price with economic price adjustment) will include a specific provision setting forth the amount of deferred IR&D costs that are allocable to the contract. The negotiation memorandum will state the circumstances pertaining to the case and the reason for accepting the deferred costs.

31.205-19 Insurance and indemnification.

(a) Insurance by purchase or by self-insuring includes coverage the contractor is required to carry, or to have approved, under the terms of the contract and any other coverage the contractor maintains in connection with the general conduct of its business. Any contractor desiring to establish a program of self-insurance applicable to contracts that are not subject to CAS 416, Accounting for Insurance Costs, shall comply with the self-insurance requirements of that standard as well as with Part 28 of this Regulation. However, approval of a contractor's insurance program in accordance with Part 28 does not constitute a determination as to the allowability of the program's cost. The amount of insurance costs which may be allowed is subject to the cost limitations and exclusions in the following subparagraphs.

(1) Costs of insurance required or approved, and maintained by the contractor pursuant to the contract, are allowable.

(2) Costs of insurance maintained by the contractor in connection with the general conduct of its business are allowable, subject to the following limitations:

(i) Types and extent of coverage shall follow sound business practice, and the rates and premiums must be reasonable.

(ii) Costs allowed for business interruption or other similar insurance must be limited to exclude coverage of profit.

(iii) The cost of property insurance premiums for insurance coverage in excess of the acquisition cost of the insured assets is allowable only when the contractor has a formal written policy assuring that in the event the insured property is involuntarily converted, the new asset shall be valued at the book value of the replaced asset plus or minus adjustments for differences between insurance proceeds and actual replacement cost. If the contractor does not have such a formal written policy, the cost of premiums for insurance coverage in excess of the acquisition cost of the insured asset is unallowable.

(iv) Costs of insurance for the risk of loss of or damage to Government property are allowable only to the extent that the contractor is liable for such loss or damage and such insurance does not cover loss or damage that results from willful misconduct or lack of good faith on the part of any of the contractor's directors or officers or other equivalent representatives.

(v) Contractors operating under a program of self-insurance must obtain approval of the program when required by 28.308(a).

(vi) Costs of insurance on the lives of officers, partners, or proprietors are allowable only to the extent that the insurance represents additional compensation (see 31.205-6).

(3) Actual losses are unallowable unless expressly provided for in the contract, except—

(i) Losses incurred under the nominal deductible provisions of purchased insurance, in keeping with sound business practice, are allowable for contracts not subject to CAS 416 and when the contractor did not establish a self-insurance program. Such contracts are not subject to the self-insurance requirements of CAS 416. For contracts subject to CAS 416, and for those made subject to the self-insurance requirements of that Standard as a result of the contractor's having established a self-insurance program (see paragraph (a) above), actual losses may be used as a basis for charges under a self-insurance program when the actual amount of losses will not differ significantly from the projected average losses for the accounting period (see 4 CFR 416.50(a)(2)(ii)).

(ii) Minor losses, such as spoilage, breakage, and disappearance of small hand tools that occur in the ordinary course of doing business and that are not covered by insurance are allowable.

(4) The cost of insurance to protect the contractor against the costs of correcting its own defects in materials or workmanship is unallowable. However, insurance costs to cover fortuitous or casualty losses resulting from defects in materials or workmanship are allowable as a normal business expense.

(b) If purchased insurance is available, the charge for any self-insurance coverage plus insurance administration expenses shall not exceed the cost of comparable purchased insurance plus associated insurance administration expenses.

(c) Insurance provided by captive insurers (insurers owned by or under the control of the contractor) is considered self-insurance, and charges for it must comply with the self-insurance provisions of CAS 416. However, if the captive insurer also sells insurance to the general public in substantial quantities and it can be demonstrated that the charge to the contractor is based on competitive market forces, the insurance will be considered purchased insurance.

(d) The allowability of premiums for insurance purchased from fronting insurance companies (insurance companies not related to the contractor but who reinsure with a captive insurer of the contractor) shall not exceed the amount (plus reasonable fronting company charges for services rendered) which the contractor would have been allowed had it insured directly with the captive insurer.

(e) Self-insurance charges for risks of catastrophic losses are not allowable (see 28.308(e)).

(f) The Government is obligated to indemnify the contractor only to the extent authorized by law, as expressly provided for in the contract, except as provided in paragraph (d) above.

(g) Late premium payment charges related to employee deferred compensation plan insurance incurred pursuant to Section 4007 (29 U.S.C. 1307) or Section 4023 (29 U.S.C. 1323) of the Employee Retirement Income Security Act of 1974 are unallowable.

31.205-20 Interest and other financial costs.

Interest on borrowings (however represented), bond discounts, costs of financing and refinancing capital (net worth plus long-term liabilities), legal and professional fees paid in connection with preparing prospectuses, costs of preparing and issuing stock rights, and directly associated costs are unallowable except for interest assessed by State or local taxing authorities under the conditions specified in 31.205-41 (but see 31.205-28).

31.205-21 Labor relations costs.

Costs incurred in maintaining satisfactory relations between the contractor and its employees, including costs of shop stewards, labor management committees, employee publications, and other related activities, are allowable.

31.205-22 Lobbying costs.

(a) Lobbying is defined as any activity or communication that is intended or designed (1) to directly influence members of the U.S. Congress or State and local legislatures, their staffs, or the staffs of committees of these bodies to favor or oppose pending, proposed, or existing legislation, appropriations, or other official actions of these bodies, their members, or their committees, or (2) to engage in any campaign to directly encourage others to do so. Except as provided in paragraph (c) below, lobbying includes, but is not limited to, appearances before any legislative committee or subcommittee and written or oral communications, including face-to-face discussions or conferences, telephone conversations, paid advertisements, and the sending of telegrams or letters.

(b) The costs of lobbying, including the applicable portion of the salaries and fees of those individuals engaged in lobbying efforts on behalf of a contractor, whether or not the individuals are registered as lobbyists under any applicable law, are unallowable.

(c) Legislative liaison activities, such as attendance at committee hearings and gathering information regarding pending legislation, are not lobbying and are allowable. In addition, written or oral communications, appearances before legislative committees and subcommittees, and meetings with legislative representatives are allowable legislative liaison activities when such efforts are undertaken in conjunction with a legislative public hearing or meeting in response to a public notice, or a specific invitation or request from a legislative source, and the notice, invitation, or request is documented. However, for the costs to be allowable, the contractor shall maintain and make available to the Government records and documentation sufficient to identify the costs and clearly establish the nature and purpose of the legislative liaison activity to which the costs relate.

31.205-23 Losses on other contracts.

An excess of costs over income under any other contract (including the contractor's contributed portion under cost-sharing contracts) is unallowable.

31.205-24 Maintenance and repair costs.

(a) Costs necessary for the upkeep of property (including Government property, unless otherwise provided for) that neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are to be treated as follows (but see 31.205-11):

(1) Normal maintenance and repair costs are allowable.

(2) Extraordinary maintenance and repair costs are allowable, provided those costs are allocated to the applicable periods for purposes of determining contract costs (but see 31.109).

(b) Expenditures for plant and equipment, including rehabilitation which should be capitalized and subject to depreciation, according to generally accepted accounting principles as applied under the contractor's established policy or, when applicable, according to CAS 404, Capitalization of Tangible Assets, are allowable only on a depreciation basis.

31.205-25 Manufacturing and production engineering costs.

(a) The costs of manufacturing and production engineering effort as described in (1) through (4) below are all allowable:

(1) Developing and deploying new or improved materials, systems, processes,

methods, equipment, tools and techniques that are or are expected to be used in producing products or services;

(2) Developing and deploying pilot production lines;

(3) Improving current production functions, such as plant layout, production scheduling and control, methods and job analysis, equipment capabilities and capacities, inspection techniques, and tooling analysis (including tooling design and application improvements); and

(4) Material and manufacturing producibility analysis for production suitability and to optimize manufacturing processes, methods, and techniques.

(b) This cost principle does not cover:

(1) Basic and applied research effort (as defined in 31.205-18(a)) related to new technology, materials, systems, processes, methods, equipment, tools and techniques. Such technical effort is governed by 31.205-18, Independent research and development costs; and

(2) Development effort for manufacturing or production materials, systems, processes, methods, equipment, tools and techniques that are intended for sale is also governed by 31.205-18.

(c) Where manufacturing or production development costs are capitalized or required to be capitalized under the contractor's capitalization policies, allowable cost will be determined in accordance with the requirements of 31.205-11, Depreciation.

31.205-26 Material costs.

(a) Material costs include the costs of such items as raw materials, parts, subassemblies, components, and manufacturing supplies, whether purchased or manufactured by the contractor, and may include such collateral items as inbound transportation and intransit insurance. In computing material costs, consideration shall be given to reasonable overruns, spoilage, or defective work (unless otherwise provided in any contract provision relating to inspecting and correcting defective work). These costs are allowable, subject to the requirements of paragraphs (b) through (e) below.

(b) Costs of material shall be adjusted for income and other credits, including available trade discounts, refunds, rebates, allowances, and cash discounts, and credits for scrap, salvage, and material returned to vendors. Such income and other credits shall either be credited directly to the cost of the material or be allocated as a credit to indirect costs. When the contractor can demonstrate that failure to take cash discounts was reasonable, lost discounts need not be credited.

(c) Reasonable adjustments arising from differences between periodic physical inventories and book inventories may be included in arriving at costs; *provided*, such adjustments relate to the period of contract performance.

(d) When materials are purchased specifically for and are identifiable solely with performance under a contract, the actual purchase cost of those materials should be charged to the contract. If material is issued from stores, any generally recognized method of pricing such material is acceptable if that method is consistently applied and the results are equitable. When estimates of future material costs are required, current market price or anticipated acquisition cost may be used, but the basis of pricing must be disclosed.

(e) Allowance for all materials, supplies, and services that are sold or transferred between any divisions, subsidiaries, or affiliates of the contractor under a common control shall be on the basis of cost incurred in accordance with this subpart. However, allowance may be at a price when it is the established practice of the transferring organization to price interorganizational transfers at other than cost for commercial work of the contractor or any division, subsidiary, or affiliate of the contractor under a common control, and when the price—

(1) Is or is based on an "established catalog or market price of commercial items sold in substantial quantities to the general public" in accordance with 15.804; or

(2) Is the result of "adequate price competition" in accordance with 15.804 and is the price at which an award was made to the affiliated organization after obtaining quotations on an equal basis from such organization and one or more outside sources that produce the item or its equivalent in significant quantity.

(3) Provided, that in either subparagraph (1) or (2) above—

(i) The price is not in excess of the transferor's current sales price to its most favored customer (including any division, subsidiary or affiliate of the contractor under a common control) for a like quantity under comparable conditions; and

(ii) The contracting officer has not determined the price to be unreasonable.

(f) The price determined in accordance with subparagraph (e)(1) above should be adjusted to reflect the quantities being acquired and may be adjusted to reflect actual cost of any modifications necessary because of contract requirements.

31.205-27 Organization costs.

(a) Except as provided in paragraph (b) below, expenditures in connection with (1) planning or executing the organization or reorganization of the corporate structure of a business, including mergers and acquisitions, or (2) raising capital (net worth plus long-term liabilities), are unallowable. Such expenditures include but are not limited to incorporation fees and costs of attorneys, accountants, brokers, promoters and organizers, management consultants and investment counsellors, whether or not employees of the contractor. Unallowable "reorganization" costs include the cost of any change in the contractor's financial structure, excluding administrative costs of short-term borrowings for working capital, resulting in alterations in the rights and interests of security holders, whether or not additional capital is raised.

(b) The cost of activities primarily intended to provide compensation will not be considered organizational costs subject to this subsection, but will be governed by 31.205-6. These activities include acquiring stock for (1) executive bonuses, (2) employee savings plans, and (3) employee stock ownership plans.

31.205-28 Other business expenses.

The following types of recurring costs are allowable when allocated on an equitable basis:

(a) Registry and transfer charges resulting from changes in ownership of securities issued by the contractor.

(b) Cost of shareholders' meetings.

(c) Normal proxy solicitations.

(d) Preparing and publishing reports to shareholders.

(e) Preparing and submitting required reports and forms to taxing and other regulatory bodies.

(f) Incidental costs of directors' and committee meetings.

(g) Other similar costs.

31.205-29 Plant protection costs.

Costs of items such as (a) wages, uniforms, and equipment of personnel engaged in plant protection, (b) depreciation on plant protection capital assets, and (c) necessary expenses to comply with military requirements, are allowable.

31.205-30 Patent costs.

(a) The following patent costs are allowable to the extent that they are incurred as requirements of a Government contract (but see 31.205-33):

(1) Costs of preparing invention disclosures, reports, and other documents.

(2) Costs for searching the art to the extent necessary to make the invention disclosures.

(3) Other costs in connection with the filing and prosecution of a United States patent application where title or royalty-free license is to be conveyed to the Government.

(b) General counseling services relating to patent matters, such as advice on patent laws, regulations, clauses, and employee agreements, are allowable (but see 31.205-33).

(c) Other than those for general counseling services, patent costs not required by the contract are unallowable. (See also 31.205-37.)

31.205-31 Plant reconversion costs.

Plant reconversion costs are those incurred in restoring or rehabilitating the contractor's facilities to approximately the same condition existing immediately before the start of the Government contract, fair wear and tear excepted. Reconversion costs are unallowable except for the cost of removing Government property and the restoration or rehabilitation costs caused by such removal. However, in special circumstances where equity so dictates, additional costs may be allowed to the extent agreed upon before costs are incurred. Care should be exercised to avoid duplication through allowance as contingencies, additional profit or fee, or in other contracts.

31.205-32 Precontract costs.

Precontract costs are those incurred before the effective date of the contract directly pursuant to the negotiation and in anticipation of the contract award when such incurrence is necessary to comply with the proposed contract delivery schedule. Such costs are allowable to the extent that they would have been allowable if incurred after the date of the contract (see 31.109.)

31.205-33 Professional and consultant service costs.

(a) Costs of professional and consultant services rendered by persons who are members of a particular profession or possess a special skill and who are not officers or employees of the contractor are allowable subject to paragraphs (b), (c), (d), and (e) below when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government (but see 31.205-30).

(b) In determining the allowability of costs (including retainer fees) in a particular case, no single factor or any special combination of factors is necessarily determinative. However, the following factors, among others, should be considered:

(1) The nature and scope of the service rendered in relation to the service required.

(2) The necessity of contracting for the service, considering the contractor's capability in the particular area.

(3) The past pattern of such costs, particularly in the years prior to the award of Government contracts.

(4) The impact of Government contracts on the contractor's business.

(5) Whether the proportion of Government work to the contractor's total business is such as to influence the contractor in favor of incurring the cost, particularly when the services rendered are not of a continuing nature and have little relationship to work under Government contracts.

(6) Whether the service can be performed more economically by employment rather than by contracting.

(7) The qualifications of the individual or concern rendering the service and the customary fee charged, especially on non-government contracts.

(8) Adequacy of the contractual agreement for the service (e.g., description of the service; estimate of time required; rate of compensation; termination provisions).

(c) Retainer fees to be allowable must be supported by evidence that—

(1) The services covered by the retainer agreement are necessary and customary;

(2) The level of past services justifies the amount of the retainer fees (if no services were rendered, fees are not automatically unallowable); and

(3) The retainer fee is reasonable in comparison with maintaining an in-house capability to perform the covered services, when factors such as cost and level of expertise are considered.

(d) Costs of legal, accounting, and consulting services and directly associated costs incurred in connection with organization and reorganization (also see 31.205-27), defense of antitrust suits, or the prosecution of claims against the Government are unallowable. Such costs incurred in connection with patent infringement litigation are unallowable unless otherwise provided for in the contract.

(e) Except for retainers, fees for services rendered shall be allowable only when supported by evidence of the nature and scope of the service furnished. (Also see 31.205-38(c).)

31.205-34 Recruitment costs.

(a) Subject to paragraphs (b) and (c) below, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, the following costs are allowable:

(1) Costs of help-wanted advertising.

(2) Costs of operating an employment office needed to secure and maintain an adequate labor force.

(3) Costs of operating an aptitude and educational testing program.

(4) Travel costs of employees engaged in recruiting personnel.

(5) Travel costs of applicants for interviews.

(6) Costs for employment agencies, not in excess of standard commercial rates.

(b) Help-wanted advertising costs are unallowable if the advertising—

(1) Is for personnel other than those required to perform obligations under a Government contract;

(2) Does not describe specific positions or classes of positions;

(3) Is excessive relative to the number and importance of the positions or to the industry practices;

(4) Includes material that is not relevant for recruitment purposes, such as extensive illustrations or descriptions of the company's products or capabilities;

(5) Is designed to "pirate" personnel from another Government contractor; or

(6) Includes color (in publications).

(c) Excessive compensation costs offered to prospective employees to "pirate" them from another Government contractor are unallowable. Such excessive costs may include salaries, fringe benefits, or special emoluments which are in excess of standard industry practices or the contractor's customary compensation practices.

31.205-35 Relocation costs.

(a) Relocation costs are costs incident to the permanent change of duty assignment (for an indefinite period or for a stated period of not less than 12 months) of an existing employee or upon recruitment of a new employee. The following types of costs are allowable as noted, subject to paragraphs (c) and (d) below:

(1) Cost of travel of the employee and members of the immediate family (see 31.205-46) and transportation of the household and personal effects to the new location.

(2) Cost of finding a new home, such as advance trips by employees and spouses to locate living quarters, and temporary lodging during the transition periods not exceeding separate cumulative totals of 60 days for

employees and 45 days for spouses and dependents, including advance trip time.

(3) Closing costs (i.e., brokerage fees, legal fees, appraisal fees, points, finance charges, etc.) incident to the disposition of actual residence owned by the employee when notified of transfer, except that these costs when added to the costs described in subparagraph (a)(4) below shall not exceed 14 percent of the sales price of the property sold.

(4) Continuing costs of ownership of the vacant former actual residence being sold, such as maintenance of building and grounds (exclusive of fixing up expenses), utilities, taxes, property insurance, mortgage interest, after settlement date or lease date of new permanent residence, except that these costs when added to the costs described in subparagraph (a)(3) above, shall not exceed 14 percent of the sales price of the property sold.

(5) Other necessary and reasonable expenses normally incident to relocation, such as disconnecting and connecting household appliances; automobile registration; driver's license and use taxes; cutting and fitting rugs, draperies, and curtains; forfeited utility fees and deposits; and purchase of insurance against damage to or loss of personal property while in transit.

(6) Costs incident to acquiring a home in a new location, except that (i) these costs will not be allowable for existing employees or newly recruited employees who, before the relocation, were not homeowners and (ii) the total costs shall not exceed 5 percent of the purchase price of the new home.

(7) Mortgage interest differential payments, except that these costs are not allowable for existing or newly recruited employees who, before the relocation, were not homeowners and the total payments are limited to an amount determined as follows:

(i) The difference between the mortgage interest rates of the old and new residences times the current balance of the old mortgage times 3 years.

(ii) When mortgage differential payments are made on a lump sum basis and the employee leaves or is transferred again in less than 3 years, the amount initially recognized shall be proportionately adjusted to reflect payments only for the actual time of the relocation.

(8) Rental differential payments covering situations where relocated employees retain ownership of a vacated home in the old location and rent at the new location. The rented quarters at the new location must be comparable to those vacated, and the allowable differential payments may not exceed the actual rental costs for the new home, less the fair market rent for the vacated home times 3 years.

(9) Cost of canceling an unexpired lease.

(b) The costs described in paragraph (a) above must also meet the following criteria to be considered allowable:

(1) The move must be for the benefit of the employer.

(2) Reimbursement must be in accordance with an established policy or practice that is consistenly followed by the employer and is designed to motivate employees to relocate promptly and economically.

(3) The costs must not otherwise be unallowable under Subpart 31.2.

(4) Amounts to be reimbursed shall not exceed the employee's actual expenses, except that for miscellaneous costs of the type discussed in subparagraph (a)(5) above; a flat amount, not to exceed $1,000, may be allowed in lieu of actual costs.

(c) The following types of costs are not allowable:

(1) Loss on sale of a home.

(2) Costs incident to acquiring a home in a new location as follows:

(i) Real estate brokers fees and commissions.

(ii) Cost of litigation.

(iii) Real and personal property insurance against damage or loss of property.

(iv) Mortgage life insurance.

(v) Owner's title policy insurance when such insurance was not previously carried by the employee on the old residence (however, cost of a mortgage title policy is allowable).

(vi) Property taxes and operating or maintenance costs.

(3) Continuing mortgage principal payments on residence being sold.

(4) Payments for employee income or FICA (social security) taxes incident to reimbursed relocation costs.

(5) Payments for job counseling and placement assistance to employee spouses and dependents who were not employees of the contractor at the old location.

(6) Costs incident to furnishing equity or nonequity loans to employees or making arrangements with lenders for employees to obtain lower-than-market rate mortgage loans.

(d) If relocation costs for an employee have been allowed either as an allocable indirect or direct cost, and the employee resigns within 12 months for reasons within the employee's control, the contractor shall refund or credit the relocation costs to the Government.

(e) Subject to the requirements of paragraphs (a) through (d) above, the costs of family movements and of personnel movements of a special or mass nature are allowable. The cost, however, should be assigned on the basis of work (contracts) or time period benefited.

31.205-36 Rental costs.

(a) This subsection is applicable to the cost of renting or leasing real or personal property, except ADPE (see 31.205-2), acquired under "operating leases" as defined in Statement of Financial Accounting Standards No. 13 (FAS-13), Accounting for Leases. Compliance with 31.205-11(l) requires that assets acquired by means of capital leases, as defined in FAS-13, shall be treated as purchased assets; i.e., be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges, or over the lease term as amortization charges, as appropriate (but see subparagraph (b)(4) below).

(b) The following costs are allowable:

(1) Rental costs under operating leases, to the extent that the rates are reasonable at the time of the lease decision, after consideration of (i) rental costs of comparable property, if any; (ii) market conditions in the area; (iii) the type, life expectancy, condition, and value of the property leased; (iv) alternatives available; and (v) other provisions of the agreement.

(2) Rental costs under a sale and leaseback arrangement only up to the amount the contractor would be allowed if the contractor retained title.

(3) Charges in the nature of rent for property between any divisions, subsidiaries, or organization under common control, to the extent that they do not exceed the normal costs of ownership, such as depreciation, taxes, insurance, facilities capital cost of money, and maintenance (excluding interest or other unallowable costs pursuant to Part 31), provided that no part of such costs shall duplicate any other allowed cost. Rental cost of personal property leased from any division, subsidiary, or affiliate of the contractor under common control, that has an established practice of leasing the same or similar property to unaffiliated lessees shall be allowed in accordance with subparagraph (b)(1) above.

(4) Rental costs under leases entered into before March 1, 1970 for the remaining term of the lease (excluding options not exercised before March 1, 1970) to the extent they would have been allowable under Defense Acquisition Regulation (Formerly ASPR) 15-205.34 or Federal Procurement

Regulations section 1-15.205-34 in effect 1 January 1969.

(c) The allowability of rental costs under unexpired leases in connection with terminations is treated in 31.205-42(e).

31.205-37 Royalties and other costs for use of patents.

(a) Royalties on a patent or amortization of the cost of purchasing a patent or patent rights necessary for the proper performance of the contract and applicable to contract products or processes are allowable unless—

(1) The Government has a license or the right to a free use of the patent;

(2) The patent has been adjudicated to be invalid, or has been administratively determined to be invalid;

(3) The patent is considered to be unenforceable; or

(4) The patent is expired.

(b) Care should be exercised in determining reasonableness when the royalties may have been arrived at as a result of less-than-arm's-length bargaining; e.g., royalties—

(1) Paid to persons, including corporations, affiliated with the contractor;

(2) Paid to unaffiliated parties, including corporations, under an agreement entered into in contemplation that a Government contract would be awarded; or

(3) Paid under an agreement entered into after the contract award.

(c) In any case involving a patent formerly owned by the contractor, the royalty amount allowed should not exceed the cost which would have been allowed had the contractor retained title.

(d) See 31.109 regarding advance agreements.

31.205-38 Selling costs.

(a) Selling costs arise in the marketing of the contractor's products and include costs of sales promotions, negotiation, liaison between Government representatives and contractor's personnel, and related activities.

(b) Selling costs are allowable to the extent that they are reasonable and are allocable to Government business (but see 31.109 and 31.205-1). Allocability of selling costs shall be determined in the light of reasonable benefit to the Government arising from such activities as technical, consulting, demonstration, and other services which are for purposes such as application or adaptation of the contractor's products to Government use for its own requirements. Selling costs incurred in connection with potential and actual Foreign Military Sales as defined by the Arms Export Control Act, or foreign sales of military products shall not be allocable to U.S. Government contracts for U.S. Government requirements.

(c) Notwithstanding paragraph (b) above, sellers' or agents' compensation, fees, commissions, percentages, retainer, or brokerage fees, whether or not contingent upon the award of contracts, are allowable only when paid to bona fide employees or established commercial or selling agencies maintained by the contractor for the purpose of securing business (see subsection 3.408-2).

31.205-39 Service and warranty costs.

Service and warranty costs include those arising from fulfillment of any contractual obligation of a contractor to provide services such as installation, training, correcting defects in the products, replacing defective parts, and making refunds in the case of inadequate performance. When not inconsistent with the terms of the contract, such service and warranty costs are allowable. However, care should be exercised to avoid duplication of the allowance as an element of both estimated product cost and risk.

31.205-40 Special tooling and special test equipment costs.

(a) The terms "special tooling" and "special test equipment" are defined in 45.101.

(b) The cost of special tooling and special test equipment used in performing one or more Government contracts is allowable and shall be allocated to the specific Government contract or contracts for which acquired, except that the cost of (1) items acquired by the contractor before the effective date of the contract (or replacement of such items), whether or not altered or adapted for use in performing the contract, and (2) items which the contract schedule specifically excludes, shall be allowable only as depreciation or amortization.

(c) When items are disqualified as special tooling or special test equipment because with relatively minor expense they can be made suitable for general purpose use and have a value as such commensurate with their value as special tooling or special test equipment, the cost of adapting the items for use under the contract and the cost of returning them to their prior configuration are allowable.

31.205-41 Taxes.

(a) The following types of costs are allowable:

(1) Federal, State, and local taxes (see Part 29), except as otherwise provided in paragraph (b) below that are required to be and are paid or accrued in accordance with generally accepted accounting principles. Fines and penalties are not considered taxes.

(2) Taxes otherwise allowable under subparagraph (a)(1) above, but upon which a claim of illegality or erroneous assessment exists; provided the contractor, before paying such taxes—

(i) Promptly requests instructions from the contracting officer concerning such taxes; and

(ii) Takes all action directed by the contracting officer arising out of subparagraph (2)(i) above or an independent decision of the Government as to the existence of a claim of illegality or erroneous assessment, to (A) determine the legality of the assessment or (B) secure a refund of such taxes.

(3) Pursuant to subparagraph (a) (2) above, the reasonable costs of any action taken by the contractor at the direction or with the concurrence of the contracting officer. Interest or penalties incurred by the contractor for non-payment of any tax at the direction of the contracting officer or by reason of the failure of the contracting officer to ensure timely direction after a prompt request.

(b) The following types of costs are not allowable:

(1) Federal income and excess profits taxes.

(2) Taxes in connection with financing, refinancing, refunding operations, or reorganizations (see 31.205-20 and 31.205-27).

(3) Taxes from which exemptions are available to the contractor directly, or available to the contractor based on an exemption afforded the Government, except when the contracting officer determines that the administrative burden incident to obtaining the exemption outweighs the corresponding benefits accruing to the Government. When partial exemption from a tax is attributable to Government contract activity, taxes charged to such work in excess of that amount resulting from application of the preferential treatment are unallowable. These provisions intend that tax preference attributable to Government contract activity be realized by the Government. The term "exemption" means freedom from taxation in whole or in part and includes a tax abatement or reduction resulting from mode of assessment, method of calculation, or otherwise.

(4) Special assessments on land that represent capital improvements.

(5) Taxes (including excises) on real or personal property, or on the value,

use, possession or sale thereof, which is used solely in connection with work other than on Government contracts (see paragraph (c) below).

(6) Taxes on accumulated funding deficiencies of, or prohibited transactions involving, employee deferred compensation plans pursuant to Section 4971 or Section 4975 of the Internal Revenue Code of 1954, as amended.

(7) Income tax accruals designed to account for the tax effects of differences between taxable income and pretax income as reflected by the books of account and financial statements.

(c) Taxes on property (see subparagraph (b)(5) above) used solely in connection with either non-Government or Government work should be considered directly applicable to the respective category of work unless the amounts involved are insignificant or comparable results would otherwise be obtained; e.g., taxes on contractor-owned work-in-process which is used solely in connection with non-Government work should be allocated to such work; taxes on contractor-owned work-in-process inventory (and Government-owned work-in-process inventory when taxed) used solely in connection with Government work should be charged to such work. The cost of taxes incurred on property used in both Government and non-Government work shall be apportioned to all such work based upon the use of such property on the respective final cost objectives.

(d) Any taxes, interest, or penalties that were allowed as contract costs and are refunded to the contractor shall be credited or paid to the Government in the manner it directs. However, any interest actually paid or credited to a contractor incident to a refund of tax, interest, or penalty shall be paid or credited to the Government only to the extent that such interest accrued over the period during which the contractor had been reimbursed by the Government for the taxes, interest, or penalties.

31.205-42 Termination costs.

Contract terminations generally give rise to the incurrence of costs or the need for special treatment of costs that would not have arisen had the contract not been terminated. The following cost principles peculiar to termination situations are to be used in conjunction with the other cost principles in Subpart 31.2:

(a) *Common items.* The costs of items reasonably usable on the contractor's other work shall not be allowable unless the contractor submits evidence that the items could not be retained at cost without sustaining a loss. The contracting officer should consider the contractor's plans and orders for current and planned production when determining if items can reasonably be used on other work of the contractor. Contemporaneous purchases of common items by the contractor shall be regarded as evidence that such items are reasonably usable on the contractor's other work. Any acceptance of common items as allocable to the terminated portion of the contract should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

(b) *Costs continuing after termination.* Despite all reasonable efforts by the contractor, costs which cannot be discontinued immediately after the effective date of termination are generally allowable. However, any costs continuing after the effective date of the termination due to the negligent or willful failure of the contractor to discontinue the costs shall be unallowable.

(c) *Initial costs.* Initial costs (see 15.804-6(f)), including starting load and preparatory costs, are allowable as follows:

(1) Starting load costs not fully absorbed because of termination are nonrecurring labor, material, and related overhead costs incurred in the early part of production and result from factors such as—

(i) Excessive spoilage due to inexperienced labor;

(ii) Idle time and subnormal production due to testing and changing production methods;

(iii) Training; and

(iv) Lack of familiarity or experience with the product, materials, or manufacturing processes.

(2) Preparatory costs incurred in preparing to perform the terminated contract include such costs as those incurred for initial plant rearrangement and alterations, management and personnel organization, and production planning. They do not include special machinery and equipment and starting load costs.

(3) When initial costs are included in the settlement proposal as a direct charge, such costs shall not also be included in overhead. Initial costs attributable to only one contract shall not be allocated to other contracts.

(4) If initial costs are claimed and have not been segregated on the contractor's books, they shall be segregated for settlement purposes from cost reports and schedules reflecting that high unit cost incurred during the early stages of the contract.

(5) If the settlement proposal is on the inventory basis, initial costs should normally be allocated on the basis of total end items called for by the contract immediately before termination; however, if the contract includes end items of a diverse nature, some other equitable basis may be used, such as machine or labor hours.

(d) *Loss of useful value.* Loss of useful value of special tooling, and special machinery and equipment is generally allowable, provided—

(1) The special tooling, or special machinery and equipment is not reasonably capable of use in the other work of the contractor;

(2) The Government's interest is protected by transfer of title or by other means deemed appropriate by the contracting officer; and

(3) The loss of useful value for any one terminated contract is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the contract bears to the entire terminated contract and other Government contracts for which the special tooling, or special machinery and equipment was acquired.

(e) *Rental under unexpired leases.* Rental costs under unexpired leases, less the residual value of such leases, are generally allowable when shown to have been reasonably necessary for the performance of the terminated contract, if—

(1) The amount of rental claimed does not exceed the reasonable use value of the property leased for the period of the contract and such further period as may be reasonable; and

(2) The contractor makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease.

(f) *Alterations of leased property.* The cost of alterations and reasonable restorations required by the lease may be allowed when the alterations were necessary for performing the contract.

(g) *Settlement expenses.* (1) Settlement expenses, including the following, are generally allowable:

(i) Accounting, legal, clerical, and similar costs reasonably necessary for—

(A) The preparation and presentation, including supporting data, of settlement claims to the contracting officer; and

(B) The termination and settlement of subcontracts.

(ii) Reasonable costs for the storage, transportation, protection, and disposition of property acquired or produced for the contract.

(iii) Indirect costs related to salary and wages incurred as settlement expenses in (i) and (ii); normally, such indirect costs shall be limited to payroll taxes, fringe benefits, occupancy costs, and immediate supervision costs.

(2) If settlement expenses are significant, a cost account or work order shall be established to separately identify and accumulate them.

(h) *Subcontractor claims.* Subcontractor claims, including the allocable portion of the claims common to the contract and to other work of the contractor, are generally allowable. An appropriate share of the contractor's indirect expense may be allocated to the amount of settlements with subcontractors; provided, that the amount allocated is reasonably proportionate to the relative benefits received and is otherwise consistent with 31.201-4 and 31.203(c). The indirect expense so allocated shall exclude the same and similar costs claimed directly or indirectly as settlement expenses.

31.205-43 Trade, business, technical and professional activity costs.

The following types of costs are allowable:

(a) Memberships in trade, business, technical, and professional organizations.

(b) Subscriptions to trade, business, professional, or other technical periodicals.

(c) Meetings and conferences, including meals, transportation, rental of meeting facilities and other incidental costs when the primary purposes of the incurrence of the costs is the dissemination of technical information or stimulation of production.

31.205-44 Training and educational costs.

(a) *Allowable costs.* Training and educational costs, including training materials and textbooks, are allowable to the extent indicated below.

(b) *Vocational training.* Costs of preparing and maintaining a non-college level program of instruction, including but not limited to on-the-job, classroom, and apprenticeship training, designed to increase the vocational effectiveness of employees are allowable. These costs include (1) salaries or wages of trainees (excluding overtime compensation), (2) salaries of the director of training and staff when the training program is conducted by the contractor, and/or (3) tuition and fees when the training is in an institution not operated by the contractor.

(c) *Part-time college level education.* Allowable costs of part-time college education at an undergraduate or postgraduate level, including that provided at the contractor's own facilities, are limited to—

(1) Fees and tuition charged by the educational institution, or, instead of tuition, instructors' salaries and the related share of indirect cost of the educational institution, to the extent that the sum thereof is not in excess of the tuition that would have been paid to the participating educational institution;

(2) Salaries and related costs of instructors who are employees of the contractor; and

(3) Straight-time compensation of each employee for time spent attending classes during working hours not in excess of 156 hours per year where circumstances do not permit the operation of classes or attendance at classes after regular working hours. In unusual cases, the period may be extended (see paragraph (h) below).

(d) *Full-time education.* Costs of tuition, fees (but not subsistence, salary, or any other emoluments) in connection with full-time education, including that provided at the contractor's own facilities, at a postgraduate but not undergraduate college level, are allowable only when the course or degree pursued is related to the field in which the employee is working or may reasonably be expected to work and are limited to a total period not to exceed one school year for each employee so trained. In unusual cases the period may be extended.

(e) *Specialized programs.* Costs of attendance of up to 16 weeks per employee per year at specialized programs specifically designed to enhance the effectiveness of managers or to prepare employees for such positions are allowable. Such costs include enrollment fees and related charges and employees' salaries, subsistence, and travel. Costs allowable under this subparagraph do not include costs for courses that are part of a degree-oriented curriculum, which are only allowable pursuant to paragraphs (c) and (d) above.

(f) *Other expenses.* Maintenance expense and normal depreciation or fair rental on facilities owned or leased by the contractor for training purposes are allowable to the extent prescribed in 31.205-11, 31.205-24, and 31.205-36.

(g) *Grants.* Grants to educatinoal or training institutions, including the donation of facilities or other properties, scholarships, and fellowships are considered contributions and are unallowable.

(h) *Advance agreements.* Training and education costs in excess of (1) 156 hours per year per employee for part-time college-level training or (2) one academic year for full-time postgraduate studies may be allowed to the extent set forth in an advance agreement negotiated under 31.109. To be considered for an advance agreement, the contractor must demonstrate that the costs are consistently incurred under an established engineering or scientific training and education program and that the course or degree pursued is related to the field in which employees are now working or may reasonably be expected to work.

(i) *Training or education costs for other than bona-fide employees.* Costs of tuition fees, textbooks, and simliar or related benefits provided for other than bona-fide employees are unallowable, except that the costs incurred for educating employee dependents (primary and secondary level studies) when the employee is working in a foreign country where public education is not available and where suitable private education is inordinately expensive may be included in overseas differential.

(j) *Employee dependent education plans.* Generally, costs for college plans for bona-fide employee dependents are unallowable.

31.205-45 Transportation costs.

Allowable transportation costs include freight, express, cartage, and postage charges relating to goods purchased, in process, or delivered. When these costs can be identified with the items involved, they may be directly costed as transportation costs or added to the cost of such items. When identification with the materials received cannot be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the contractor follows a consistent and equitable procedure. Outbound freight, if reimbursable under the terms of the contract, shall be treated as a direct cost.

31.205-46 Travel costs.

(a) Costs for transportation, lodging, subsistence, and incidental expenses incurred by contractor personnel in official company business are allowable subject to paragraphs (b) through (f) below. These costs may be based upon (1) actual cost incurred, (2) per diem or mileage, or (3) a combination of (1) and (2) provided the method used does not result in an unreasonable charge.

(b) Travel costs incurred in the normal course of overall administration of the business are allowable and shall be treated as indirect costs.

(c) Travel costs directly attributable to specific contract performance are

allowable and may be charged to the contract under 31.202.

(d) The difference in cost between first-class air accommodations and less-than-first-class air accommodations is unallowable except when less than first-class accommodations are not reasonably available to meet necessary mission requirements (such as when less-than-first-class accommodations would require circuitous routing, require travel during unreasonable hours, excessively prolong travel, result in increased cost that would offset transportation savings, or would offer accommodations not reasonably adequate for the physical or medical needs of the traveler).

(e) Costs of travel via contractor-owned, -leased, and -chartered aircraft are subject to the following:

(1) "Cost of contractor-owned, -leased, and -chartered aircraft," as used in this paragraph, includes the cost of lease, charter, operation (including personnel), maintenance, depreciation, insurance, and other related costs. This cost is allowable, if reasonable, to the extent that the contractor can demonstrate that the use of the aircraft is necessary for the conduct of its business and that the increase in cost, if any, in comparison with alternative means of transportation is commensurate with the advantages gained.

(2) Some of the factors to consider in determining the necessity for such aircraft are whether—

(i) Scheduled commercial airlines or other suitable less costly travel facilities are available at reasonable times, with reasonable frequency and serving the required destinations conveniently;

(ii) It is likely that critical or emergency situations might arise that could not be accommodated as effectively by scheduled commercial airline or other suitable less costly travel facilities;

(iii) The increased flexibility in scheduling would result in time savings and more effective use of key personnel;

(iv) National or industrial security demands privacy for key personnel who must work enroute; and

(v) The contract requires flight testing of equipment.

(3) When the need for contractor-owned, -leased, or -chartered aircraft has been demonstrated, additional factors such as the following shall be considered in determining the reasonableness of costs:

(i) The number, type and size of aircraft needed (involved in this determination are matters such as the number and physical aspects of locations to which flights are required, distances of these locations, number of passengers to be carried, and frequency of flights).

(ii) The appropriateness of the method of acquisition, i.e., purchase, lease, or charter.

(iii) Whether, when the contractor has more than one type or size of aircraft, that available aircraft best suited to the requirements of each individual trip was used.

(4) Where the need for contractor-owned, -leased, or -chartered aircraft has been demonstrated, optimum use of such aircraft, rather than scheduled commercial service, should be made where a cost advantage will result to the Government.

31.205-47 Defense of fraud proceedings.

(a) *Definitions.* "Costs," as used in this subsection, include, but are not limited to, administrative and clerical expenses; the cost of legal services, whether performed by in-house or private counsel; the costs of the services of accountants, consultants, or others retained by the contractor to assist it; the salaries and wages of employees, officers, and directors; and any of the foregoing costs incurred before commencing the formal judicial or administrative proceedings which bear a direct relationship to the proceedings.

"Fraud," as used in this subsection, means (1) acts of fraud or corruption or attempts to defaud the Government or to corrupt its agents, (2) acts which constitute a cause for debarment or suspension under 9.406-2(a) and 9.407-2(a) and (3) acts which violate the False Claims Act, 31 U.S.C., sections 3729-3731, or the Anti-Kickback Act, 41 U.S.C., sections 51 and 54.

(b) Costs incurred in connection with defense of any (1) criminal or civil investigation, grand jury proceeding or prosecution, (2) civil litigation, or (3) suspension, debarment or other administrative proceedings, or any combination of the foregoing, brought by the Government against a contractor, its agent or employee, are unallowable when the charges, which are the subject of the investigation, proceedings, or prosecution, involve fraud on the part of the contractor, its agent or employee, as defined below, and result in conviction (including conviction entered on a plea of nolo contendere), judgment against the contractor, its agent or employees, or decision to debar or suspend, or are resolved by consent or compromise.

(c) In circumstances where the charges of fraud are resolved by consent or compromise, the parties may agree as to the extent of allowability of such costs as a part of such resolution.

(d) Costs which may be unallowable under 31.205-47 shall be differentiated and accounted for by the contractor so as to be separately identifiable. During the pendency of any proceeding or investigation covered by paragraph (b) above, the contracting officer should generally withhold payment of such costs. However, the contracting officer may in appropriate circumstances provide for conditional payment upon provision of adequate security, or other adequate assurance, and agreement by the contractor to repay all unallowable costs, plus interest, if a conviction or judgment is rendered against it.

31.205-48 Deferred research and development costs.

"Research and development," as used in this subsection, means the type of technical effort which is described in 31.205-18 but which is sponsored by, or required in performance of, a contract or grant. Research and development costs (including amounts capitalized) that were incurred before the award of a particular contract are unallowable except when allowable as precontract costs. In addition, when costs are incurred in excess of either the price of a contract or amount of a grant for research and development effort, such excess may not be allocated as a cost to any other Government contract.

SUBPART 31.3—CONTRACTS WITH EDUCATIONAL INSTITUTIONS

31.301 Purpose.

This subpart provides the principles for determining the cost of research and development, training, and other work performed by educational institutions under contracts with the Government.

31.302 General.

Office of Management and Budget (OMB) Circular No. A-21, Cost Principles for Educational Institutions, revised, provides principles for determining the costs applicable to research and development, training, and other work performed by educational institutions under contracts with the Government.

31.303 Requirements.

(a) Contracts that refer to this Subpart 31.3 for determining allowable costs under contracts with educational institutions shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-21 in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

SUBPART 31.4—[RESERVED]

SUBPART 31.5—[RESERVED]

SUBPART 31.6—CONTRACTS WITH STATE, LOCAL, AND FEDERALLY RECOGNIZED INDIAN TRIBAL GOVERNMENTS

31.601 Purpose.

This subpart provides the principles for determining allowable cost of contracts and subcontracts with State, local, and federally recognized Indian tribal governments.

31.602 General.

Office of Management and Budget (OMB) Circular No. A-87, Cost Principles for State and Local Governments, Revised, sets forth the principles for determining the allowable costs of contracts and subcontracts with State, local, and federally recognized Indian tribal governments. These principles are for cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in financing a particular contract.

31.603 Requirements.

(a) Contracts that refer to this Subpart 31.6 for determining allowable costs under contracts with State, local and Indian tribal governments shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-87 which is in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

SUBPART 31.7—CONTRACTS WITH NONPROFIT ORGANIZATIONS

31.701 Purpose.

This subpart provides the principles for determining the cost applicable to work performed by nonprofit organizations under contracts with the Government. A nonprofit organization, for purpose of identification, is defined as a business entity organized and operated exclusively for charitable, scientific, or educational purposes, of which no part of the net earnings inure to the benefit of any private shareholder or individual, of which no substantial part of the activities is carrying on propaganda or otherwise attempting to influence legislation or participating in any political campaign on behalf of any candidate for public office, and which are exempt from federal income taxation under section 501 of the Internal Revenue Code.

31.702 General.

Office of Management and Budget (OMB) Circular No. A-122, Cost Principles for Nonprofit Organizations, sets forth principles for determining the costs applicable to work performed by nonprofit organizations under contracts (also applies to grants and other agreements) with the Government.

31.703 Requirements.

(a) Contracts which refer to this Subpart 31.7 for determining allowable costs shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-122 in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

PART 32—CONTRACT FINANCING

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

32.000 Scope of part.

This part prescribes policies and procedures for contract financing and other payment matters. This includes—

(a) Payment methods, including partial payments and progress payments based on percentage or stage of completion;

(b) Loans guarantees, advance payments, and progress payments based on costs;

(c) Administration of debts to the Government arising out of contracts;

(d) Contract funding, including the use of contract clauses limiting costs or funds;

(e) Assignment of claims to aid in private financing; and

(f) Selected payment clauses.

SUBPART 32.1—GENERAL

32.100 Scope of subpart.

This subpart provides policies and procedures applicable to the general subject of contract financing and payment.

32.101 Authority.

The basic authority for the contract financing described in this part is contained in section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255), section 2307 of the Armed Services Procurement Act (10 U.S.C. 2307), and Title III of the Defense Production Act of 1950 (50 U.S.C. App. 2091).

32.102 Description of contract financing methods.

(a) Advance payments are advances of money by the Government to a prime contractor before, in anticipation of, and for the purpose of complete performance under one or more contracts. They are expected to be liquidated from payments due to the contractor incident to performance of the contracts. Since they are not measured by performance, they differ from partial, progress, or other payments based on the performance or partial performance of a contract. Advance payments may be made to prime contractors for the purpose of making subadvances to subcontractors.

(b) Progress payments based on costs are made on the basis of costs incurred by the contractor as work progresses under the contract. This form of contract financing does not include—

(1) Payments based on the percentage or stage of completion accomplished;

(2) Payments for partial deliveries accepted by the Government; or

(3) Partial payments for a contract termination proposal.

(c) Loan guarantees are made by Federal Reserve banks, on behalf of designated guaranteeing agencies, to enable contractors to obtain financing from private sources under contracts for the acquisition of supplies or services for the national defense.

(d) Partial payments for accepted supplies and services that are only a part of the contract requirements are authorized under section 305 of the Federal Property and Administrative Services Act (41 U.S.C. 255). Although partial payments are generally treated as a method of payment and not as a method of contract financing, using partial payments can assist contractors to participate in Government contracts without, or with minimal, contract financing. When appropriate, agencies shall use this payment method.

(e) (1) Progress payments based on a percentage or stage of completion are authorized by the statutes cited in 32.101.

(2) This type of progress payment may be used as a payment method under agency procedures.

32.103 Reserved.

32.104 Providing contract financing.

(a) Prudent contract financing can be a useful working tool in Government acquisition by expediting the performance of essential contracts. Government financing shall be provided only to the extent actually needed for prompt and efficient performance, considering the availability of private financing. Contract financing shall be administered so as to aid, not impede, the acquisition. At the same time, the contracting officer shall avoid any undue risk of monetary loss to the Government through the financing. The contractor's use of the contract financing provided and the contractor's financial status shall be monitored.

(b) If the contractor is a small business concern, the contracting officer shall give special attention to meeting the contractor's contract financing need. However, a contractor's receipt of a certificate of competency from the Small Business Administration has no bearing on the contractor's need for or entitlement to contract financing.

32.105 Uses of contract financing.

(a) Contract financing methods covered in this part are intended to be self-liquidating through contract performance. Consequently, agencies shall only use the methods for financing of contractor working capital, not for the expansion of contractor-owned facilities or the acquisition of fixed assets. However, under loan guarantees, exceptions may be made for—

(1) Facilities expansion of a minor or incidental nature, if a relatively small part of the guaranteed loan is used for the expansion and the contractor's repayment would not be delayed or impaired; or

(2) Other instances of facilities expansion for which contract financing is appropriate under agency procedures.

(b) The limitations in this section do not apply to contracts under which facilities are being acquired for Government ownership.

32.106 Order of preference.

The contracting officer shall consider the following order of preference when a contractor requests contract financing, unless an exception would be in the Government's interest in a specific case:

(a) Private financing without Government guarantee. It is not intended, however, that the contractor be required to obtain private financing

(1) at unreasonable terms, or (2) from other agencies.

(b) Progress payments based on costs at customary rates (see 32.501-1).

(c) Loan guarantees.

(d) Progress payments based on costs with unusual terms (see 32.501).

(e) Advance payments (see exceptions in 32.402(b)).

32.107 Need for contract financing not a deterrent.

(a) If the contractor or offeror meets the standards prescribed for responsible prospective contractors at 9.104, the contracting officer shall not treat the contractor's need for contract financing as a handicap for a contract award; e.g., as a responsibility factor or evaluation criterion.

(b) The contractor should not be disqualified from contract financing solely because the contractor failed to indicate a need for contract financing before the contract was awarded.

32.108 Financial consultation.

Each contracting office should have available and use the services of contract financing personnel competent to evaluate credit and financial problems. In resolving any questions concerning (a) the financial capability of an offeror or contractor to perform a contract or (b) what form of contract financing is appropriate in a given case, the contracting officer should consult the appropriate contract financing office.

32.109 Termination financing.

To encourage contractors to invest their own funds in performance despite the susceptibility of the contract to termination for the convenience of the Government, the contract financing procedures under this part may be applied to the financing of terminations either in connection with or independently of financing for contract performance (see 49.112-1).

32.110 Contract performance in foreign countries.

(a) In applying the coverage of Part 32 to a contract performed partly or completely in a foreign country, the contracting officer shall give due consideration to the sovereignty, laws, and procedures of the country concerned and shall obtain legal advice as necessary. The legal advice may indicate a need for additional protective arrangements within the foreign jurisdiction or for deviations from the contract clauses prescribed in this part.

(b) The contracting officer shall act as necessary to comply with applicable foreign laws, while providing the most effective protection of the Government's interest.

32.111 Contract clauses.

(a) The contracting officer shall insert the following clauses, appropriately modified with respect to payment due dates, in accordance with agency regulations—

(1) The clause at 52.232-1, Payments, in solicitations and contracts when a fixed-price supply contract, a fixed-price service contract, or a contract for nonregulated communication services is contemplated;

(2) The clause at 52.232-2, Payment under Fixed-Price Research and Development Contracts, in solicitations and contracts when a fixed-price research and development contract is contemplated;

(3) The clause at 52.232-3, Payments under Personal Services Contracts, in solicitations and contracts for personal services;

(4) The clause at 52.232-4, Payments under Transportation Contracts and Transportation-Related Services Contracts, in solicitations and contracts for transportation or transportation-related services;

(5) The clause at 52.232-5, Payments under Fixed-Price Construction Contracts, in solicitations and contracts for construction when a fixed-price contract is contemplated; and

(6) The clause at 52.232-6, Payments under Communication Service Contracts with Common Carriers, in solicitations and contracts for regulated communication services by common carriers.

(b) The contracting officer shall insert the clause at 52.232-7, Payments under Time-and-Materials and Labor-Hour Contracts, appropriately modified with respect to payment due dates in accordance with agency regulations, in solicitations and contracts when a time-and-materials or labor-hour contract is contemplated. If (i) the nature of the work to be performed requires the contractor to furnish material that is regularly sold to the general public in the normal course of business by the contractor and (ii) the price is under the limitations prescribed in 16.601(b)(3), the contracting officer shall use the clause with its Alternate I.

(c) The contracting officer shall insert the following clauses, appropriately modified with respect to payment due dates in accordance with agency regulations:

(1) The clause at 52.232-8, Discounts for Prompt Payments, in solicitations and contracts when a fixed-price supply contract or fixed-price service contract is contemplated.

(2) A clause, substantially the same as the clause at 52.232-9, Limitation on Withholding of Payments, in solicitations and contracts when a supply contract, research and development contract, service contract, time-and-materials contract, or labor-hour contract is contemplated that includes two or more terms authorizing the temporary withholding of amounts otherwise payable to the contractor for supplies delivered or services performed.

(d) The contracting officer shall insert the following clauses, appropriately modified with respect to payments due dates in accordance with agency regulations:

(1) The clause at 52.232-10, Payments under Fixed-Price Architect-Engineer Contracts, in fixed-price architect-engineer contracts.

(2) The clause at 52.232-11, Extras, in solicitations and contracts when a fixed-price supply contract, fixed-price service contract, or a transportation contract is contemplated.

SUBPART 32.2—[RESERVED]

SUBPART 32.3—LOAN GUARANTEES FOR DEFENSE PRODUCTION

32.300 Scope of subpart.

This subpart prescribes policies and procedures for designated agencies' guarantees of loans made by private financial institutions to borrowers performing contracts related to national defense (see 30.102).

32.301 Definitions.

"Borrower," as used in this subpart, means a contractor, subcontractor (at any tier), or other supplier who receives a guaranteed loan.

"Federal Reserve Board" means the Board of Governors of the Federal Reserve System.

"Guaranteed loan" or "V loan," as used in this subpart, means a loan, revolving credit fund, or other financial arrangement made pursuant to Regulation V of the Federal Reserve Board, under which the guaranteeing agency is obligated, on demand of the lender, to purchase a stated percentage of the loan and to share any losses in the amount of the guaranteed percentage.

"Guaranteeing agency," as used in this subpart, means any agency that the President has authorized to guarantee loans, through Federal Reserve Banks, for expediting national defense production.

32.302 Authority.

Congress has authorized Federal Reserve Banks to act, on behalf of guaranteeing agencies, as fiscal agents of the United States in the making of loan guarantees for defense production (Section 301, Defense Production Act of 1950 (50 U.S.C. App. 2091)). By Executive Order 10480, August 14, 1953 (3 CFR 1949-53), as amended, the President has designated the following agencies as guaranteeing agencies:

(a) Department of Defense.
(b) Department of Energy.
(c) Department of Commerce.
(d) Department of the Interior.
(e) Department of Agriculture.
(f) General Services Administration.
(g) National Aeronautics and Space Administration.

32.303 General.

(a) Section 301 of the Defense Production Act authorizes loan guarantees for contract performance or other operations related to national defense, subject to amounts annually authorized by Congress on the maximum obligation of any guaranteeing agency under any loan, discount, advance, or commitment in connection therewith, entered into under section 301. (See 50 U.S.C. App. 2091 for statutory limitations and exceptions concerning the authorization of loan guarantee amounts and the use of loan guarantees for the prevention of insolvency or bankruptcy.)

(b) The guarantee shall be for less than 100 percent of the loan unless the agency determines that—

(1) The circumstances are exceptional;
(2) The operations of the contractor are vital to the national defense; and
(3) No other suitable means of financing are available.

(c) Loan guarantees are not issued to other agencies of the Government.

(d) Guaranteed loans are essentially the same as conventional loans made by private financial institutions, except that the guaranteeing agency is obligated, on demand of the lender, to purchase a stated percentage of the loan and to share any losses in the amount of the guaranteed percentage. It is the responsibility of the private financial institution to disburse and collect funds and to administer the loan. Under Regulation V of the Federal Reserve Board (12 CFR 245), any private financing institution may submit an application to the Federal Reserve Bank of its district for guarantee of a loan or credit.

(e) Federal Reserve Banks will make the loan guarantee agreements on behalf of the guaranteeing agencies.

(f) Under Section 302(c) of Executive Order 10480, August 14, 1953 (3 CFR 1949-53), as amended, all actions and operations of Federal Reserve Banks, as fiscal agents, are subject to the supervision of the Federal Reserve Board. The Federal Reserve Board is authorized to prescribe the following, after consultation with the heads of guaranteeing agencies:

(1) Regulations governing the actions and operations of fiscal agents.

(2) Rates of interest, guarantee and commitment fees, and other charges that may be made for loans, discounts, advances, or commitments guaranteed by the guaranteeing agencies through the Federal Reserve Banks. These prescriptions may be in the form of specific rates or limits, or in other forms.

(3) Uniform forms and procedures to be used in connection with the guarantees.

(g) The guaranteeing agency is responsible for certifying eligibility for the guarantee and fixing the maximum dollar amount and maturity date of the guaranteed loan to meet the contractor's requirement for financing performance of the defense production contract on hand at the time the guarantee application is submitted.

32.304 Procedures.

32.304-1 Application for guarantee.

(a) A contractor, subcontractor, or supplier that needs operating funds to perform a contract related to national defense may apply to a financing institution for a loan. If the financing institution is willing to extend credit, but considers a Government guarantee necessary, the institution may apply to the Federal Reserve Bank of its district for the guarantee. Application forms and guidance are available at all Federal Reserve Banks.

(b) The Federal Reserve Bank will promptly send a copy of the application, including a list of the relevant defense contracts held by the contractor, to the Federal Reserve Board. The Board will transmit the application and the list of contracts to the interested guaranteeing agency, so that the agency can determine the eligibility of the contractor.

(c) To expedite the process, the Federal Reserve Bank may, pursuant to instructions of a guaranteeing agency, submit lists of the defense contracts to the interested contracting officers.

(d) While eligibility is being determined, the Federal Reserve Bank will make any necessary credit investigations to supplement the information furnished by the applicant financing institution in order to—

(1) Expedite necessary defense financing; and
(2) Protect the Government against monetary loss.

(e) The Federal Reserve Bank will send its report and recommendation to the Federal Reserve Board. The Board will transmit them to the interested guaranteeing agency.

32.304-2 Certificate of eligibility.

(a) The contracting officer shall prepare the certificate of eligibility for a contract that the contracting officer deems to be of material consequence, when—

(1) The contract financing office requests it;
(2) Another interested agency requests it; or
(3) The application for a loan guarantee relates to a contract or subcontract within the cognizance of the contracting officer.

(b) The agency shall evaluate the relevant data, including the certificate of eligibility, the accompanying data, and any other relevant information on the contractor's financial status and performance, to determine whether authorization of a loan guarantee would be in the Government's interest.

(c) If the contractor has several major national defense contracts, it is normally not necessary to evaluate the eligibility of relatively minor contracts. The determination of eligibility should be processed, without delay, based on the the preponderance of the amount of the contracts.

(d) The certificate of eligibility shall include the following determinations:

(1) The supplies or services to be acquired are essential to the national defense.

(2) The contractor has the facilities and the technical and management ability required for contract performance.

(3) There is no practicable alternate source for the acquisition without prejudice to the national defense. (This statement shall not be included if the contractor is a small business concern.)

(e) The contracting officer shall consider the following factors in determining if a practicable alternate source exists:

(1) Prejudice to the national defense, because reletting of a contract with another source would conflict with a major policy on defense acquisition; e.g., policies relating to the mobilization base.

(2) The urgency of contract performance schedules.

(3) The technical ability and facilities of other potential sources.

(4) The extent to which other sources would need contract financing to perform.

(5) The willingness of other sources to enter into contracts.

(6) The time and expense involved in repurchasing for contracts or parts of contracts. This may include potential claims under a termination for convenience or delays incident to default at a later date.

(7) The comparative prices available from other sources.

(8) The disruption of established subcontracting arrangements.

(9) Other pertinent factors.

(f) The contracting officer shall attach sufficient data to the certificate of eligibility to support the determinations made. Available pertinent information shall be included on—

(1) The contractor's past performance;

(2) The relationship of the contractor's operations to performance schedules; and

(3) Other factors listed in paragraph (e) above, if relevant to the case under consideration.

(g) If the contracting officer determines that a certificate of eligibility is not justified, the facts and reasons supporting that conclusion shall be documented and furnished to the agency contract finance office.

(h) The guaranteeing agency shall review the proposed guarantee terms and conditions. If they are considered appropriate, the guaranteeing agency shall complete a standard form of authorization as prescribed by the Federal Reserve Board. The agency shall transmit the authorization through the Federal Reserve Board to the Federal Reserve Bank. The Bank is authorized to execute and deliver to the financing institution a standard form of guarantee agreement, with the terms and conditions approved for the particular case. The financing institution will then make the loan.

(i) Substantially the same procedure may be followed for the application of an offeror who is actively negotiating or bidding for a defense contract, except that the guarantee shall not be authorized until the contract has been executed.

(j) The contracting officer shall report to the agency contract finance office any information about the contractor that would have a potentially adverse impact on a pending guarantee application. The contracting officer is not required, however, to initiate any special investigation for this purpose.

(k) With regard to existing contracts, the agency shall not consider the percentage of guarantee requested by the financing institution in determining the contractor's eligibility.

32.304-3 Asset formula.

(a) Under guaranteed loans made primarily for working capital purposes, the agency shall normally limit the guarantee, by use of an asset formula, to an amount that does not exceed a specified percentage (90 percent or less) of the contractor's investment (e.g., payrolls and inventories) in defense production contracts. The asset formula may include all items under defense contracts for which the contractor would be entitled to payment on performance or termination. The formula shall exclude—

(1) Amounts for which the contractor has not done any work or made any expenditure;

(2) Amounts that would become due as the result of later performance under the contracts; and

(3) Cash collateral or bank deposit balances.

(b) Progress payments are deducted from the asset formula.

(c) The agency may relax the asset formula to an appropriate extent for the time actually necessary for contract performance, if the contractor's working capital and credit are inadequate.

32.304-4 Guarantee amount and maturity.

The agency may change the guarantee amount or maturity date, within the limitations at 32.304-3, as follows:

(a) If the contractor enters into additional defense production contracts after the application for, but before authorization of, a guarantee, the agency may adjust the loan guarantee amount or maturity date to meet any significant increase in financing need.

(b) If the contractor enters into defense production contracts during the term of the guaranteed loan, the parties may adjust the existing guarantee agreement to provide for financing the new contracts. Pertinent information and the Federal Reserve Bank reports will be submitted to the guaranteeing agency under the procedures for the original guarantee application, described in 32.304-1. Normally, a new certificate of eligibility is required.

32.304-5 Assignment of claims under contracts.

(a) The agency shall generally require a contractor that is provided a guaranteed loan to execute an assignment of claims under defense production contracts (including any contracts entered into during the term of the guaranteed loan that are eligible for financing under the loan); however, the agency need not require assignment if any of the following conditions are present:

(1) The contractor's financial condition is so strong that the protection to the Government provided by an assignment of claims is unnecessary.

(2) In connection with the assignment of claims under a major contract, the increased protection of the loan that would be provided by the assignments under additional, relatively smaller contracts is not considered necessary by the agency.

(3) The assignment of claims would create an administrative burden disproportionate to the protection required; e.g., if the contractor has a large number of contracts with individually small dollar amounts.

(b) The contractor shall also execute an assignment of claims if requested to do so by the guarantor or the financing institution.

(c) A subcontract or purchase order issued to a subcontractor shall not be considered eligible for financing under guaranteed loans when the issuer of the subcontract or purchase order reserves (1) the privilege of making payments directly to the assignor or to the assignor and assignee jointly, after notice of the assignment, or (2) the right to reduce or set off assigned proceeds under defense production contracts by reason of claims against the borrower arising after notice of assignment and independently of defense production contracts under which the borrower is the seller.

32.304-6 Other collateral security.

The following are examples of other forms of security that, although seldom invoked under guaranteed loans, may be required when considered necessary for protection of the Government interest:

(a) Mortgages on fixed assets.

(b) Liens against inventories.

(c) Endorsements.

(d) Guarantees.

(e) Subordinations or standbys of other indebtedness.

32.304-7 Contract surety bonds and loan guarantees.

(a) Contract surety bonds are incompatible with the Government's interests under guaranteed loans, unless the interests of the surety are subordinated to the guaranteed loan.

(b) If a substantial share of the contractor's defense contracts are covered by surety bonds, or the amount of the bond is substantial in relation to the contractor's net worth, the agency shall not authorize the guarantee of a loan on a bonded contract unless the surety enters into an agreement with the

financing institution to subordinate the surety's rights and claims in favor of the guaranteed loan.

(c) The agency approval of a guarantee for a loan involving relatively substantial subcontracts covered by surety bonds shall also depend on the establishment of a reasonable allocation agreement between the sureties and the financing institution. The agreement should give the financing institution the benefit, with regard to payments to be made on the contract, of the portion of its loans fairly attributable to expenditures made under the bonded subcontracts before notice of default.

32.304-8 Other borrowing.

(a) Because of the limitations under guaranteed loans, some contractors seek to supplement the loan by other borrowing (outside the guarantee) from the financing institution or other sources. It has been recognized in practice that, while prohibition of borrowings outside the guaranteed loan is preferable when practicable in a given V-loan case, such other borrowings should be permitted when necessary.

(b) If the agency consents to the contractor obtaining other borrowing during the guaranteed loan period, the agency shall apply the following restrictions:

(1) A reasonable limit on the amount of other borrowing.

(2) If guaranteed and unguaranteed loans are made by the same financing institution, a requirement that any collateral security requested by the institution under the unguaranteed loan is also to be secondary collateral for the guaranteed loan.

(3) A requirement that the contractor provide appropriate certificates to the guaranteeing agency, at intervals not longer than 30 days, to disclose outstanding unguaranteed borrowings.

32.305 Loan guarantees for terminated contracts.

(a) The purpose of guaranteed loans; i.e., to provide for financing based on the borrower's recoverable investment in defense production contracts, may also apply to contracts that have been terminated (partially or totally) for the convenience of the Government. Guaranteed loans also may be made before such termination if it is known that termination of particular contracts for the convenience of the Government is about to occur. These loans are expected to provide necessary financing pending termination settlements and payments. They may also finance continuing performance of defense production contracts that are eligible for guaranteed loans.

(b) The procedure for such guarantees is substantially the same as that outlined in 32.304, except that certificates of eligibility are not required for (1) contracts that have been totally terminated or (2) the terminated portion of contracts that have been partially terminated. The agency shall take precautions necessary to avoid Government losses and to ensure the loans will be self-liquidating from the proceeds of defense production contracts.

(c) Loan guarantees for contract termination financing shall not be provided before specific contract terminations are certain.

32.306 Loan guarantees for subcontracts.

If the request for a loan guarantee concerns a subcontractor that is financially weak in comparison with its contractor, the Government's interests may be fostered by the contractor making progress payments to the subcontractor. If so, the agency shall try to arrange for the contractor to provide the progress payments. As a result, the need for the loan guarantee may be reduced or eliminated and the contractor would bear part or all of the risk of loss arising from the selection of the subcontractor.

SUBPART 32.4—ADVANCE PAYMENTS

32.400 Scope of subpart.

This subpart provides policies and procedures for advance payments on prime contracts and subcontracts. It does not include policies and procedures for advance payments for the types of transactions listed in 32.404.

32.401 Statutory authority.

The agency may authorize advance payments in negotiated and formally advertised contracts if the action is appropriate under (a) section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255), (b) the Armed Services Procurement Act (10 U.S.C. 2307), or (c) Pub. L. 85-804 (50 U.S.C. 1431-1435) and Executive Order 10789, November 14, 1958 (3 CFR 1958 Supp. pp. 72-74) (see Part 50 of the Federal Acquisition Regulation (FAR) for other applications of this statute).

32.402 General.

(a) A limitation on authority to grant advance payments under Pub. L. 85-804 (50 U.S.C. 1431-1435) is described at FAR 50.203(b)(4). This limitation also applies to advance payments authorized under 10 U.S.C. 2307.

(b) Advance payments may be provided on any type of contract; however, the agency shall authorize advance payments sparingly. Except for the contracts described in 32.403(a) and (b), advance payment is the least preferred method of contract financing (see 32.106) and generally they should not be authorized if other types of financing are reasonably available to the contractor in adequate amounts. Loans and credit at excessive interest rates or other exorbitant charges, or loans from other Government agencies, are not considered reasonably available financing.

(c) If statutory requirements and standards for advance payment determinations are met, the contracting officer shall generally recommend that the agency authorize advance payments.

(1) The statutory requirements are that—

(i) The contractor gives adequate security;

(ii) The advance payments will not exceed the unpaid contract price (see 32.410(b), subparagraph (a)(2)); and

(iii) The agency head or designee determines, based on written findings, that the advance payment—

(A) Is in the public interest (under 32.401(a) or (b)); or

(B) Facilitates the national defense (under 32.401(c)).

(2) The standards for advance payment determinations are that—

(i) The advance payments will not exceed the contractor's interim cash needs based on—

(A) Analysis of the cash flow required for contract performance;

(B) Consideration of the reimbursement or other payment cycle; and

(C) To the extent possible, employment of the contractor's own working capital;

(ii) The advance payments are necessary to supplement other funds or credit available to a contractor;

(iii) The recipient is otherwise qualified as a responsible contractor;

(iv) The Government will benefit from performance prospects or there are other practical advantages; and

(v) The case fits one or more of the categories described in 32.403.

(d) If necessary, the agency may authorize advance payments in addition to progress or partial payments on the same contract (see 32.501-1(c)).

(e) Each agency that provides advance payments shall—

(1) Place the responsibility for making findings and determinations, and for approval of contract terms concerning advance payments (see 32.410), at an organizational level high enough to ensure uniform application of this subpart (see the limitation at 50.201(b) which also applies to advance payments

authorized under Pub. L. 85-804 (50 U.S.C. 1431-1435)); and

(2) Establish procedures for coordination, before advance payment authorization, with the activity that provides contract financing support.

(f) If the contract provides for advance payments under Pub. L. 85-804, the contracting officer shall ensure conformance with the requirements of FAR 50.307.

32.403 Applicability.

Advance payments may be considered useful and appropriate for the following:

(a) Contracts for experimental, research, or development work with nonprofit educational or research institutions.

(b) Contracts solely for the management and operation of Government-owned plants.

(c) Contracts for acquisition at cost of facilities for Government ownership.

(d) Contracts of such a highly classified nature that the agency considers it undesirable for national security to permit assignment of claims under the contract.

(e) Contracts entered into with financially weak contractors whose technical ability is considered essential to the agency. In these cases, the agency shall closely monitor the contractor's performance and financial controls to reduce the Government's financial risk.

(f) Contracts for which a loan by a private financial institution is not practicable, whether or not a loan guarantee under this part is issued; for example, if—

(1) Financing institutions will not assume a reasonable portion of the risk under a guaranteed loan;

(2) Loans with reasonable interest rates or finance charges are not available to the contractor; or

(3) Contracts involve operations so remote from a financial institution that the institution could not be expected to suitably administer a guaranteed loan.

(g) Contracts with small business concerns, under which circumstances that make advance payments appropriate often occur (but see 32.104(b)).

(h) Contracts under which exceptional circumstances make advance payments the most advantageous contract financing method for both the Government and the contractor.

32.404 Exclusions.

(a) This subpart does not apply to advance payments authorized by law for—

(1) Rent;

(2) Tuition;

(3) Insurance premiums;

(4) Expenses of investigations in foreign countries;

(5) Extension or connection of public utilities for Government buildings or installations;

(6) Subscriptions to publications;

(7) Purchases of supplies or services in foreign countries, if—

(i) The purchase price does not exceed $10,000 (or equivalent amount of the applicable foreign currency); and

(ii) The advance payment is required by the laws or government regulations of the foreign country concerned;

(8) Enforcement of the customs or narcotics laws; or

(9) Other types of transactions excluded by agency procedures under statutory authority.

(b) Agencies may issue their own instructions to deal with advance payment items in paragraph (a) above authorized under statutes relevant to their agencies.

32.405 Applying Pub. L. 85-804 to advance payments under formally advertised contracts.

(a) Actions that designated agencies may take to facilitate the national defense without regard to other provisions of law relating to contracts, as explained in 50.101(a), also include making advance payments. These advance payments may be made at or after award of formally advertised contracts entered into after competitive bidding, as well as negotiated contracts.

(b) Bidders may request advance payments before or after award, even if the invitation for bids does not contain an advance payment provision. However, the contracting officer shall reject any bid requiring that advance payments be provided as a basis for acceptance.

(c) When advance payments are requested, the agency may—

(1) Enter into the contract and provide for advance payments conforming to this Part 32;

(2) Enter into the contract without providing for advance payments if the contractor does not actually need advance payments; or

(3) Deny award of the contract if the request for advance payments has been disapproved under 32.409-2 and funds adequate for performance are not otherwise available to the offeror.

32.406 Letters of credit.

(a) The Department of the Treasury (Treasury) prescribes regulations and instructions covering the use of letters of credit for advance payments under contracts. See Treasury Department Circular 1075 (31 CFR 205), and the implementing instructions in the Treasury Fiscal Requirements Manual, available in offices providing financial advice and assistance.

(b) If agencies provide advance payments to contractors, use of the following methods is required unless the agency has obtained a waiver from the Treasury Department:

(1) By letter of credit if the contracting agency expects to have a continuing relationship with the contractor for a year or more, with advances totaling at least $120,000 a year.

(2) By direct Treasury check if the circumstances do not meet the criteria in subparagraph (1) above.

(c) If the agency has entered into multiple contracts (or a combination of contract(s) and assistance agreement(s)) involving eligibility of a contractor for more than one letter of credit, the agency shall follow arrangements made under Treasury procedures for (1) consolidating funding to the same contractor under one letter of credit or (2) replacing multiple letters of credit with a single letter of credit.

(d) The letter of credit enables the contractor to withdraw Government funds in amounts needed to cover its own disbursements of cash for contract performance. Whenever feasible, the agency shall, under the direction and approval of the Department of the Treasury, use a letter of credit method that requires the contractor not to withdraw the Government funds until the contractor's checks have been (1) forwarded to the payees (delay of drawdown technique), or (2) presented to the contractor's bank for payment (checks paid technique) (see 31 CFR 205.3 and 205.4(d)).

(e) The Treasury regulations provide for terminating the advance financing arrangement if the contractor is unwilling or unable to minimize the elapsed time between receipt of the advance and disbursement of the funds. In such cases, if reversion to normal payment methods is not feasible, the Treasury regulation provides for use of a working capital method of advance; i.e., for limiting advances to (1) only the estimated disbursements for a given initial period and (2) subsequently, for only actual cash disbursements (31 CFR 205.3(k) and 205.7).

32.407 Interest.

(a) Except as provided in paragraph (d) below, the contracting officer shall charge interest on the daily unliquidated balance of all advance payments at the higher of—

(1) The published prime rate of the banking institution (depository) in which

the special bank account (see 32.409-3) is established; or

(2) The rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2).

(b) The interest rate for advance payments shall be adjusted for changes in the prime rate of the depository and the semiannual determination by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2). The contracting officer shall obtain data from the depository on changes in the interest rate during the month. Interest shall be computed at the end of each month on the daily unliquidated balance of advance payments at the applicable daily interest rate.

(c) Interest shall be required on contracts that are for acquisition, at cost, of facilities for Government ownership, if the contracts are awarded in combination with, or in contemplation of, supply contracts or subcontracts.

(d) The agency head or designee may authorize advance payments without interest under the following types of contracts, if in the Government's interest:

(1) Contracts for experimental, research, or development work (including studies, surveys, and demonstrations in socio-economic areas) with nonprofit education or research institutions.

(2) Contracts solely for the management and operation of Government-owned plants.

(3) Cost-reimbursement contracts with governments, including State or local governments, or their instrumentalities.

(4) Other classes of contracts, or unusual cases, for which the exclusion of interest on advances is specifically authorized by agency procedures.

(e) If a contract provides for interest-free advance payments, the contracting officer may require the contractor to charge interest on advances or downpayments to subcontractors and credit the Government for the proceeds from the interest charges. Interest rates shall be determined as described in paragraphs (a) and (b) above. The contracting officer need not require the contractor to charge interest on an advance to a subcontractor that is an institution of the kind described in subparagraph (d)(1).

(f) The contracting officer shall not allow interest charges, required by this 32.407, as reimbursable costs under cost-reimbursement contracts, whether the interest charge was incurred by the prime contractor or a subcontractor.

32.408 Application for advance payments.

(a) A contractor may apply for advance payments before or after the award of a contract.

(b) The contractor shall submit any advance payment request in writing to the contracting officer and provide the following information:

(1) A reference to the contract if the request concerns an existing contract, or a reference to the solicitation if the request concerns a proposed contract.

(2) A cash flow forecast showing estimated disbursements and receipts for the period of contract performance. If the application pertains to a type of contract described in 32.403(a) or (b), the contractor shall limit the forecast to the contract to be financed by advance payments.

(3) The proposed total amount of advance payments.

(4) The name and address of the bank at which the contractor expects to establish a special account as depository for the advance payments. If advance payments in the form of a letter of credit are anticipated, the contractor shall identify the specific account at the bank to be used. This subparagraph (4) is not applicable if an alternate method is used under agency procedures.

(5) A description of the contractor's efforts to obtain unguaranteed private financing or a V-loan (see 32.301) under eligible contracts. This requirement is not applicable to the contract types described in 32.403(a) or (b).

(6) Other information appropriate to an understanding of (i) the contractor's financial condition and need, (ii) the contractor's ability to perform the contract without loss to the Government, and (iii) financial safeguards needed to protect the Government's interest. Ordinarily, if the contract is a type described in 32.403(a) or (b), the contractor may limit the response to this subparagraph (6) to information on the contractor's reliability, technical ability, and accounting system and controls.

32.409 Contracting officer action.

After analysis of the contractor's application and any appropriate investigation, the contracting officer shall recommend approval or disapproval and transmit the request and recommendation to the approving authority designated under 32.402(e).

32.409-1 Recommendation for approval.

If recommending approval, the contracting officer shall transmit the following, under agency procedures, to the approving authority:

(a) Contract data, including—

(1) Identification and date of the award;

(2) Citation of the appropriation;

(3) Type and dollar amount of the contract;

(4) Items to be supplied, schedule of deliveries or performance, and status of any deliveries or performance;

(5) The contract fee or profit contemplated; and

(6) A copy of the contract, if available.

(b) The contractor's request and supporting information.

(c) A report on the contractor's past performance, responsibility, technical ability, and plant capacity.

(d) Comments on (1) the contractor's need for advance payments and (2) potential Government benefits from the contract performance.

(e) Proposed advance payment contract terms, including proposed security requirements.

(f) The findings, determination, and authorization (see 32.410).

(g) The recommendation for approval of the advance payment request.

(h) Justification of any proposal for waiver of interest charges (see 32.407).

32.409-2 Recommendation for disapproval.

If recommending disapproval, the contracting officer shall, under agency procedures, transmit—

(a) The items prescribed in 32.409-1(a), (b), and (c); and

(b) The recommendation for disapproval and the reasons.

32.409-3 Security, supervision, and covenants.

(a) If advance payments are approved, the contracting officer shall enter into an agreement with the contractor covering bank accounts and suitable covenants protecting the Government's interest (see 32.411). This requirement generally applies under all statutory authorities, but modified requirements applicable to certain specific cases are prescribed in paragraphs (e) through (g) below.

(b) The agency shall (1) ensure that the amount of advance payments does not exceed the contractor's financial needs, and (2) closely supervise the contractor's withdrawal of funds from special bank accounts in which the advance payments are deposited.

(c) In the terms of the agreement, the contracting officer should provide for a paramount lien in favor of the Government. This lien may supplement or replace other security requirements. The lien should cover—

(1) Supplies being acquired;

(2) Any credit balance in the special bank account in which advance payments are deposited; and

(3) All property that the contractor acquires for performing the contract, except to the extent to which the Government otherwise has valid title to the property.

(d) Security requirements vary to fit the circumstances of different cases. Minimum security requirements are covered by the clauses prescribed in the contract. The contracting officer may supplement these as necessary in each case for protection of the Government's interest. Examples of additional security terms are—

(1) Personal or corporate endorsements or guarantees;

(2) Pledges of collateral;

(3) Subordination or standby of other indebtedness;

(4) Controls or limitations on profit distributions, salaries, bonuses or commissions, rentals and royalties, capital expenditures, creation of liens, retirement of stock or debt, and creation of additional obligations; and

(5) Advance payment bonds (rarely required).

(e) In an advance payment agreement with an instrumentality of the Government, a State, a local government, or an agency or instrumentality of a State or local government, the contracting officer may omit the requirement for deposit of the advances in a special bank account, if the official approving the advance determines that other adequate security exists to protect the Government's interest.

(f) The requirements of this 32.409-3 do not apply when using letters of credit if an agency's procedures provide for—

(1) The use under a cost-reimbursement contract of Federal funds deposited in the contractor's bank account (without the contractor acquiring title to the funds); and

(2) The security of such deposit of public moneys in accordance with governing regulations of the Treasury Department.

(g) If a separate special bank account is not required; e.g., advance payment by a letter of credit, an agency may require a special bank account for an individual case, or classes of cases, if the circumstances warrant.

32.410 Findings, determination, and authorization.

(a) Each determination concerning advance payments shall be supported by written findings (see 32.402(c)(1)(iii)).

(b) The following is an example of the format and text of findings, determination, and authorization with alternative words, phrases, and paragraphs to be selected to conform to the circumstances involved:

FINDINGS, DETERMINATION, AND AUTHORIZATION FOR ADVANCE PAYMENTS

FINDINGS

(a) The undersigned hereby finds that:

(1) The .....[*insert the name of the contracting activity*] and .....[*insert the name of the contractor*] (have entered) (propose to enter) into (negotiated) (formally advertised) Contract No. ....., dated .....

[*Summarize the specific facts and significant circumstances concerning the contract and the contractor, that, together with the other findings, will clearly support the determination below.*]

(2) Advance payments (in an amount not to exceed $..... at any time outstanding) (in an aggregate amount not exceeding $....., less the aggregate amounts repaid, or withdrawn by the Government) are required by the Contractor to perform under the contract. The amount does not exceed the unpaid contract price or the estimated interim cash needs arising during the reimbursement cycle.

(3) The advance payments are necessary for prompt, efficient contract performance that will benefit the Government.

(4) The proposed advance payment clause provides for security for the protection of the Government. The clause requires that all payments will be desposited in a special bank account and that the Government will have a paramount lien on (i) the credit balance in the special bank account, (ii) any supplies contracted for, and (iii) any material or other property acquired for performance of the contract. [*Insert the following, if applicable* (The Contractor's financial management system provides for effective control over and accountability for all Federal funds under governing regulations of the Treasury Department.) (An advance payment bond is required.)] This security is considered adequate.

(5) Advance payments are the only adequate means of financing available to the Contractor, and the amount designated in (2) above is based, to the extent possible, on the use of the Contractor's own working capital in performing the contract.

[*Insert paragraph (6), (7), or (8), as applicable*].

(6) The Contractor is a nonprofit (educational) (and) (research) institution, and the contract is for (experimental) (,) (research and development) work.

(7) The contract is solely for the management and operation of a Government-owned plant.

(8) The following unusual facts and circumstances favor making advance payments to the Contractor without interest:

[*List the pertinent facts and circumstances.*]

DETERMINATION

(b) Based on the findings in (a) above, the undersigned determined that the making of the proposed advance payments, (with interest at the rate of ...[*Insert the interest rate computed in accordance with 32.407*] percent on the daily unliquidated balance of the advance payments,) (without interest, except as provided by the proposed advance payment clause,) (is in the public interest) (will facilitate the national defense).

AUTHORIZATION

(c) The advance payments, of which (the amount at any time outstanding) (the aggregate amount, less the aggregate amounts repaid, or withdrawn by the Government), shall not exceed $....., are hereby authorized under (section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255)) (the Armed Services Procurement Act (10 U.S.C. 2307)) (the Extraordinary Contracting Authority of Government Agencies in Connection with National Defense Functions (50 U.S.C. 1431-1435) and Executive Order No. 10789 of November 14, 1958 (3 CFR 1958 Supp. pp. 72-74)) [*or, if other, cite appropriate authority*] on (terms substantially as contained in the proposed advance payment clause, a copy (an outline) of which is annexed to this authorization) (the following terms:) [*Insert the appropriate terms.*]

(All prior authorizations for advance payments under Contract No. ..... are superseded.)

.....

(*Signature*)

.....

(*Name typed*)

.....

(*Title of authorized official*)

[*Each Findings, Determination, and Authorization shall be individually prepared to fit the particular circumstances at hand. Subparagraphs (a)(1), (2), (3) and (4) and paragraphs (b) and (c) shall be used in each case. If the contract is (a) for experimental, developmental, or research work and with a nonprofit educational or research institution, or (b) only for management and operation of a Government-owned plant, subparagraph (a)(5) should not be included. If the advance payment is to be made without interest to the contractor, include subparagraph (a)(6), (7), or (8). If any advance payments have previously been authorized for the contract, include the final sentence of paragraph (c). The alternate parenthetical wording or other modifications may be used as appropriate. The paragraphs actually used shall be renumbered sequentially*].

32.411 Agreement for special bank account.

The contracting officer shall use substantially the following form of agreement for a special bank account for advance payments:

AGREEMENT FOR SPECIAL BANK ACCOUNT

This agreement is entered into this ..... day of ....., 19.., between the United States of America, (the Government), represented by the Contracting Officer executing this

agreement, ... [*Insert the name of the contractor*], a ..... [*Insert the name of the State of incorporation*] corporation (the Contractor), and ....., a banking corporation under the laws of ....., located at ..... (the Bank).

RECITALS

(a) Under date of ....., 19.., the Government and the Contractor entered into Contract No. ....., or a related supplemental agreement, providing for advance payments to the Contractor. A copy of the advance payment terms was furnished to the Bank.

(b) The contract or supplemental agreement requires that amounts advanced to the Contractor be deposited separate from the Contractor's general or other funds, in a Special Bank Account at a member bank of the Federal Reserve System or any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (12 U.S.C. 1811). The parties agree to deposit the amounts with the Bank, which meets the requirement.

(c) This Special Bank Account is designated "..... [*Insert the contractor's name*], ... [*Insert the name of the Government agency*] Special Bank Account."

COVENANTS

In consideration of the foregoing, and for other good and valuable considerations, the parties agree to the following conditions:

(a) The Government shall have a lien on the credit balance in the account to secure the repayment of all advance payments made to the Contractor. The lien is paramount to any lien or claim of the Bank regarding the account.

(b) The Bank is bound by the terms of the contract relating to the deposit and withdrawal of funds in the Special Bank Account, but is not responsible for the application of funds withdrawn from the account. The Bank shall act on written directions from the Contracting Officer, the administering office, or a duly authorized representative of either. The Bank is not liable to any party to this agreement for any action that complies with the written directions. Any written directions received by the Bank through the Contracting Officer on .....[*Insert the name of the agency*] stationery and purporting to be signed by, or by the direction of ..... or duly authorized representative, shall be, as far as the rights, duties, and liabilities of the Bank are concerned, considered as being properly issued and filed with the Bank by the .....[*Insert the name of the agency*].

(c) The Government, or its authorized representatives, shall have access to the books and records maintained by the Bank regarding the Special Bank Account at all reasonable times and for all reasonable purposes, including (but not limited to), the inspection or copying of the books and records and any and all pertinent memoranda, checks, correspondence, or documents. The Bank shall preserve the books and records for a period of 6 years after the closing of this Special Bank Account.

(d) In the event of the service of any writ of attachment, levy of execution, or commencement of garnishment proceedings regarding the Special Bank Account, the Bank will promptly notify .....[*Insert the name of the administering office*].

(e) While this Special Bank Account exists, the Bank shall inform the Government each month of the Bank's published prime interest rate and changes to the rate during the month. The Bank shall give this information to the Contracting Officer on the last business day of the month. [*This covenant will not be included in Special Bank Account Agreements covering interest-free advance payments*].

Each of the parties to this agreement has executed the agreement on ....., 19..

.....

.....

[*Signatures and official titles*]

32.412 Contract clause.

(a) The contracting officer shall insert the clause at 52.232-12, Advance Payments, in solicitations and contracts under which the Government will provide advance payments, except as provided in 32.412(b).

(b) If the agency desires to waive the countersignature requirement because of the contractor's financial strength, good performance record, and favorable experience concerning cost disallowances, the contracting officer shall use the clause with its Alternate I.

(c) If a cost-reimbursement contract is contemplated, the contracting officer shall use the clause with its Alternate II.

(d) If the agency considers a more rapid liquidation appropriate, the contracting officer shall use the clause with its Alternate III.

(e) If the agency provides advance payments under the contract at no interest to the prime contractor, the contracting officer shall use the clause with its Alternate IV.

(f) If the requirement for a special bank account is eliminated in accordance with 32.409-3(e) or (g), the contracting officer shall insert in the solicitation or contract a clause substantially the same as the one at 52.232-12, Advance Payments, omitting the terms pertaining to a special bank account.

SUBPART 32.5—PROGRESS PAYMENTS BASED ON COSTS

32.500 Scope of subpart.

This subpart prescribes policies, procedures, forms, solicitation provisions, and contract clauses for providing contract financing through progress payments based on costs. This subpart does not apply to—

(a) Payments under cost-reimbursement contracts, other than reimbursement of the contractor's progress payments to subcontractors and suppliers (see 32.504(f)); or

(b) Contracts for construction or for shipbuilding or ship conversion, alteration, or repair, when the contracts provide for progress payments based on a percentage or stage of completion.

32.501 General.

Progress payments may be customary or unusual. Customary progress payments are those made under the general guidance in this subpart, using the customary progress payment rate, the cost base, and frequency of payment established in the Progress Payments clause, and either the ordinary liquidation method or the alternate method as provided in subsections 32.503-8 and 32.503-9. Any other progress payments are considered unusual, and may be used only in exceptional cases when authorized in accordance with subsection 32.501-2.

32.501-1 Customary progress payment rates.

(a) The customary progress payment rate is 90 percent, applicable to the total costs of performing the contract. The customary rate for contracts with small business concerns is 95 percent. The Department of Defense (DOD) may establish other customary rates for foreign military sales and for flexible progress payments.

(b) Any rate higher than those permitted in paragraph (a) above shall be considered an unusual progress payment. The contracting officer shall not include a higher rate in a contract unless advance agency approval is obtained as prescribed in 32.501-2.

(c) When advance payments and progress payments are authorized under the same contract, a progress payment rate higher than the customary rate shall not be authorized.

32.501-2 Unusual progress payments.

(a) The contracting officer may provide unusual progress payments only if—

(1) The contract necessitates predelivery expenditures that are large in relation to contract price and in relation to the contractor's working capital and credit;

(2) The contractor fully documents an actual need to supplement any private financing available, including guaranteed loans; and

(3) The contractor's request is approved by the head of the contracting activity or a designee. In addition, see 32.502-2.

(b) The excess of the unusual progress payment rate approved over the customary progress payment rate should be the lowest amount possible under the circumstances.

(c) Progress payments will not be considered unusual merely because they are on letter contracts or the definitive contracts that supersede letter contracts.

32.501-3 Contract price.

(a) For the purpose of making progress payments and determining the limitation on progress payments, the contract price shall be as follows:

(1) Under firm-fixed-price contracts, the contract price is the current contract price plus any unpriced modifications for which funds have been obligated.

(2) If the contract is redeterminable or subject to economic price adjustment, the contract price is the initial price until modified.

(3) Under a fixed-price incentive contract, the contract price is the target price plus any unpriced modifications for which funds have been obligated. However, if the contractor's properly incurred costs exceed the target price, the contracting officer may provisionally increase the price up to the ceiling or maximum price.

(4) Under a letter contract, the contract price is the maximum amount obligated by the contract as modified.

(5) Under an unpriced order issued against a basic ordering agreement, the contract price is the maximum amount obligated by the order, as modified.

(6) Any portion of the contract specifically providing for reimbursement of costs only shall be excluded from the contract price.

(b) The contracting officer shall not make progress payments or increase the contract price beyond the funds obligated under the contract, as amended.

32.501-4 Consideration for progress payments.

(a) There is no requirement for a separate consideration for providing progress payments or changing progress payment or liquidation rates, if coverage is included in the terms of the contract when awarded.

(b) Occasionally, unanticipated circumstances arise during contract performance which, under the policies of this subpart, result in the contract being amended to provide progress payments. In such a case, adequate new consideration is required.

(c) The contractor may provide the new consideration by monetary or nonmonetary means. A monetary consideration could be a reduction in the contract price. A nonmonetary consideration could be the incorporation of terms in the contract modification giving the Government a new and substantial benefit.

(d) The fair and reasonable consideration should approximate as nearly as practicably ascertainable the amount by which the price would have been smaller had the Progress Payments clause been contained in the initial contract. In the absence of definite information on this point, the contracting officer should apply the following criteria in evaluating whether the proposed new consideration is adequate:

(1) The value to the contractor of the anticipated amount and duration of unliquidated progress payments at the imputed financial costs of the equivalent working capital.

(2) The estimated profit rate to be earned through contract performance.

(e) The contracting officer shall not provide for any other type of specific charges, such as interest, for progress payments.

32.501-5 Other protective terms.

If the contracting officer considers it necessary for protection of the Government's interest, protective terms such as the following may be used in addition to the Progress Payments clause of the contract:

(a) Personal or corporate guarantees.

(b) Subordinations or standbys of indebtedness.

(c) Special bank accounts.

(d) Protective covenants of the kinds in paragraph (p) of the clause at 52.232-12, Advance Payments.

32.502 Preaward matters.

This section covers matters that generally are relevant only before contract award. This does not preclude taking actions discussed here after award, if appropriate; e.g., postaward addition of a Progress Payments clause for consideration.

32.502-1 Use of customary progress payments.

The use of a Progress Payments clause in solicitations and resulting contracts generally shall be based upon considerations of the criteria in this subsection. Reasonable doubts should be resolved in favor of including the Progress Payments clause in the solicitation. Bids conditioned on progress payments when the solicitation did not provide for progress payments shall be rejected as nonresponsive.

(a) Subject to paragraphs (b) and (c) below, the contracting officer may provide for customary progress payments if the contractor (1) will not be able to bill for the first delivery of products, or other performance milestones, for a substantial time after work must begin (normally 4 months or more for small business concerns; 6 months or more for others), and (2) will make expenditures for contract performance during the predelivery period that have a significant impact on the contractor's working capital. Progress payments may also be authorized, particularly for small suppliers, if the contractor demonstrates actual financial need or the unavailability of private financing (see 32.106(a)).

(b) To reduce undue administrative effort and expense, the contracting officer generally should not provide for progress payments on contracts of less than $1,000,000 unless—

(1) The contractor is a small business concern and the contract will involve approximately $100,000 or more; or

(2) The contractor will perform a group of small contracts at the same time and the total impact on working capital is equivalent to a single contract of $1,000,000 or more.

(c) The contracting officer shall not provide for progress payments if the contract items are quick turnover types for which progress payments are not a customary commercial practice. Examples of items customarily not subject to progress payments include (1) subsistence, (2) clothing, (3) medical and dental supplies, and (4) standard commercial items not requiring a substantial accumulation of predelivery expenditures by the contractor.

(d) (1) In considering whether to provide for progress payments in circumstances under which a series of orders are awarded (e.g., indefinite delivery contracts or basic ordering agreements contemplating requisitions, task orders, etc., or their equivalent), the contracting officer shall apply the standards in paragraphs (a) through (c) above, based on—

(i) An estimate of the total work to be done; and

(ii) The probable impact on working capital of the predelivery expenditures and production lead times of the majority of the individual orders.

(2) In authorizing progress payments under multiple-order contracts, the contracting officer should establish a single liquidation rate applicable to all orders.

32.502-2 Contract finance office clearance.

The contracting officer shall obtain the approval of the contract finance office or other offices designated under

agency procedures before taking any of the following actions:

(a) Providing a progress payment rate higher than the customary rate (see 32.501-1).

(b) Deviating from the progress payments terms prescribed in this part.

(c) Providing progress payments to a contractor—

(1) Whose financial condition is in doubt;

(2) Who has had an advance payment request or loan guarantee denied for financial reasons (or approved but withdrawn or lapsed) within the previous 12 months; or

(3) Who is named in the consolidated list of contractors indebted to the United States (known commonly as the "Hold-up List").

32.502-3 Solicitation provisions.

(a) The contracting officer shall insert the provision at 52.232-13, Notice of Progress Payments, in invitations for bids and requests for proposals that include a Progress Payments clause.

(b) (1) Under the authority of the statutes cited in 32.101, an invitation for bids may restrict the availability of progress payments to small business concerns only.

(2) The contracting officer shall insert the provision at 52.232-14, Notice of Availability of Progress Payments Exclusively for Small Business Concerns, in invitations for bids if it is anticipated that (1) both small business concerns and others may submit bids in response to the same invitation and (2) only the small business bidders would need progress payments.

(c) The contracting officer shall insert the provision at 52.232-15, Progress Payments Not Included, in invitations for bids if the solicitation will not contain one of the provisions prescribed in paragraphs (a) and (b) above.

32.502-4 Contract clauses.

(a) The contracting officer shall insert the clause at 52.232-16, Progress Payments, in solicitations and fixed-price contracts under which the Government will provide progress payments based on costs.

(b) If the contractor is a small business concern, the contracting officer shall use the clause with its Alternate I.

(c) If the contract is a letter contract, the contracting officer shall use the clause with its Alternate II.

32.503 Postaward matters.

This section covers matters that are generally relevant only after award of a contract. This does not preclude taking actions discussed here before award, if appropriate; e.g., preaward review of accounting systems and controls.

32.503-1 Contractor requests.

Each contractor request for progress payment shall—

(a) Be submitted on Standard Form 1443, Contractor's Request for Progress Payment;

(b) Comply with the instructions on the reverse of the applicable form, and the contract terms; and

(c) Include any additional information reasonably requested by the contracting officer.

32.503-2 Supervision of progress payments.

(a) The extent of progress payments supervision, by prepayment review or periodic review, should vary inversely with the contractor's experience, performance record, reliability, quality of management, and financial strength, and with the adequacy of the contractor's accounting system and controls. Supervision shall be of a kind and degree sufficient to provide timely knowledge of the need for, and timely opportunity for, any actions necessary to protect Government interests.

(b) The administering office must keep itself informed of the contractor's overall operations and financial condition, since difficulties encountered and losses suffered in operations outside the particular progress payment contract may affect adversely the performance of that contract and the liquidation of the progress payments.

(c) For contracts with contractors (1) whose financial condition is doubtful or not strong in relation to progress payments outstanding or to be outstanding, (2) with management of doubtful capacity, (3) whose accounting controls are found by experience to be weak, or (4) experiencing substantial difficulties in performance, full information on progress under the contract involved (including the status of subcontracts) and on the contractor's other operations and overall financial condition should be obtained and analyzed frequently, with a view to protecting the Government's interests better and taking such action as may be proper to make contract performance more certain.

(d) So far as practicable, all cost problems, particularly those involving indirect costs, that are likely to create disagreements in future administration of the contract should be identified and resolved at the inception of the contract (see 31.109).

32.503-3 Initiation of progress payments and review of accounting system.

(a) For contractors that the administrative contracting officer (ACO) has found by previous experience or recent audit review (within the last 12 months) to be (1) reliable, competent, and capable of satisfactory performance, (2) possessed of an adequate accounting system and controls, and (3) in sound financial condition, progress payments in amounts requested by the contractor should be approved as a matter of course.

(b) For all other contractors, the ACO shall not approve progress payments before determining (1) that (i) the contractor will be capable of liquidating any progress payments or (ii) the Government is otherwise protected against loss by additional protective provisions, and (2) that the contractor's accounting system and controls are adequate for proper administration of progress payments. The services of the cognizant independent audit agency or office should be used to the greatest extent practicable. However, if the auditor so advises, a complete audit may not be necessary.

32.503-4 Approval of progress payment requests.

(a) When the reliability of the contractor and the adequacy of the contractor's accounting system and controls have been established (see 32.503-3 above) the ACO may, in approving any particular progress payment request (including initial requests on new contracts), rely upon that accounting system and upon the contractor's certification, without requiring audit or review of the request before payment.

(b) The ACO should not routinely ask for audits of progress payment requests. However, when there is reason to (1) question the reliability or accuracy of the contractor's certification or (2) believe that the contract will involve a loss, the ACO should ask for a review or audit of the request before payment is approved or the request is otherwise disposed of.

(c) When there is reason to doubt the amount of a progress payment request, only the doubtful amount should be withheld, subject to later adjustment after review or audit; any clearly proper and due amounts should be paid without awaiting resolution of the differences.

32.503-5 Administration of progress payments.

(a) While the ACO may, in approving progress payment requests under 32.503-

3 above, rely on the contractor's accounting system and certification without prepayment review. postpayment reviews (including audits when considered necessary) shall be made periodically, or when considered desirable by the ACO to determine the validity of progress payments already made and expected to be made.

(b) These postpayment reviews or audits shall, as a minimum, include a determination of whether or not—

(1) The unliquidated progress payments are fairly supported by the value of the work accomplished on the undelivered portion of the contract;

(2) The applicable limitation on progress payments in the Progress Payments clause has been exceeded;

(3) (i) The unpaid balance of the contract price will be adequate to cover the anticipated cost of completion, or

(ii) The contractor has adequate resources to complete the contract; and

(4) There is reason to doubt the adequacy and reliability of the contractor's accounting system and controls and certification.

(c) (1) Generally, the progress payments made under multiple-order contracts should be administered under each individual order as if the order constituted a separate contract.

(2) If the contractor requests it and the contracting officer approving individual progress payments agrees, the administration of progress payments may be based on the overall contract or agreement. Under this method, the contractor shall include a supporting schedule with each request for a progress payment. The schedule should identify the costs applicable to each order.

(3) The contracting officer may treat a group of orders as a single unit for administration of progress payments if each order in the group is (i) subject to a uniform liquidation rate, and (ii) under the jurisdiction of the same payment office.

32.503-6 Suspension or reduction of payments.

(a) *General.* The Progress Payments clause provides a Government right to reduce or suspend progress payments, or to increase the liquidation rate, under specified conditions. These conditions and actions are discussed in paragraphs (b) through (g) below.

(1) The contracting officer shall take these actions only in accordance with the contract terms and never precipitately or arbitrarily. These actions should be taken only after—

(i) Notifying the contractor of the intended action and providing an opportunity for discussion;

(ii) Evaluating the effect of the action on the contractor's operations, based on the contractor's financial condition, projected cash requirements, and the existing or available credit arrangements; and

(iii) Considering the general equities of the particular situation.

(2) The contracting officer shall take immediate unilateral action only if warranted by circumstances such as overpayments or unsatisfactory contract performance.

(3) In all cases, the contracting officer shall (i) act fairly and reasonably, (ii) base decisions on substantial evidence, and (iii) document the contract file. Findings made under paragraph (c) of the Progress Payments clause shall be in writing.

(b) *Contractor noncompliance.* (1) The contractor must comply with all material requirements of the contract. This includes the requirement to maintain an efficient and reliable accounting system and controls, adequate for the proper administration of progress payments. If the system or controls are deemed inadequate, progress payments shall be suspended until the necessary changes have been made.

(2) If the contractor fails to comply with the contract without fault or negligence, the contracting officer will not take action permitted by paragraph (c)(1) of the Progress Payments clause, other than to correct overpayments and collect amounts due from the contractor.

(c) *Unsatisfactory financial condition.* (1) If the contracting officer finds that contract performance (including full liquidation of progress payments) is endangered by the contractor's financial condition, or by a failure to make progress, the contracting officer shall require the contractor to make additional operating or financial arrangements adequate for completing the contract without loss to the Government.

(2) If the contracting officer concludes that further progress payments would increase the probable loss to the Government, the contracting officer shall suspend progress payments and all other payments until the unliquidated balance of progress payments is eliminated.

(d) *Excessive inventory.* If the inventory allocated to the contract exceeds reasonable requirements (including a reasonable accumulation of inventory for continuity of operations), the contracting officer should, in addition to requiring the transfer of excessive inventory from the contract, take one or more of the following actions, as necessary, to avoid or correct overpayment:

(1) Eliminate the costs of the excessive inventory from the costs eligible for progress payments, with appropriate reduction in progress payments outstanding.

(2) Apply additional deductions to billings for deliveries (increase liquidation).

(e) *Delinquency in payment of costs of performance.* (1) If the contractor is delinquent in paying the costs of contract performance in the ordinary course of business, the contracting officer shall evaluate whether the delinquency is caused by an unsatisfactory financial condition and, if so, shall apply the guidance in paragraph (c) above. If the contractor's financial condition is satisfactory, the contracting officer shall not deny progress payments if the contractor agrees to—

(i) Cure the payment delinquencies;

(ii) Avoid further delinquencies; and

(iii) Make additional arrangements adequate for completing the contract without loss to the Government.

(2) If the contractor has, in good faith, disputed amounts claimed by subcontractors, suppliers, or others, the contracting officer shall not consider the payments delinquent until the amounts due are established by the parties through litigation or arbitration. However, the amounts shall be excluded from costs eligible for progress payments so long as they are disputed.

(3) Determinations of delinquency in making contributions under employee pension, profit sharing, or stock ownership plans, and exclusion of costs for such contributions from progress payment requests, shall be in accordance with paragraph (a)(2) of the clause at 52.232-6, Progress Payments, without regard to the provisions of 32.503-6.

(f) *Fair value of undelivered work.* (1) For the purposes of Subpart 32.5, the fair value of undelivered work is the lesser of (i) the contract price of the undelivered work, minus the estimated costs required for completing contract performance, or (ii) the incurred costs applicable to the undelivered items.

(2) The contracting officer shall monitor the relationship of unliquidated progress payments to the fair value of undelivered work under the contract. If the unliquidated progress payments exceed the fair value of undelivered work, the contracting officer shall, governed by the principles in paragraphs (c) and (e) above, take appropriate action to eliminate this excess using the loss ratio adjustment described in paragraph (g) below, and based on full consideration of—

(i) The degree of completion of contract performance;

(ii) The quality and amount of work performed on the undelivered portion of the contract;

(iii) The amount of work remaining to be done and the estimated costs of completion of performance; and

(iv) The amount remaining unpaid under the contract.

(g) *Loss contracts.* (1) If the sum of the total costs incurred under a contract plus the estimated costs to complete the performance are likely to exceed the contract price, the contracting officer shall compute a loss ratio factor and adjust future progress payments to exclude the element of loss. The loss ratio factor is computed as follows:

(i) Revise the current contract price used in progress payment computations (the current ceiling price under fixed-price incentive contracts) to include any pending change orders and unpriced orders to the extent funds for the orders have been obligated.

(ii) Divide the revised contract price by the sum of the total costs incurred to date plus the estimated additional costs of completing the contract performance.

(2) If the contracting officer believes a loss is probable, future progress payment requests shall be modified as follows:

(i) The contract price shall be the revised amount computed under subparagraph (1)(i) above.

(ii) The total costs eligible for progress payments shall be the product of (A) the sum of paid costs eligible for progress payments times (B) the loss ratio factor computed under subparagraph (1)(ii) above.

(iii) The costs applicable to items delivered, invoiced, and accepted shall not include costs in excess of the contract price of the items.

(3) The contracting officer may use audit assistance, technical services, management reports, and other sources of pertinent data to evaluate progress payment requests. If the contracting officer concludes that the contractor's figures in the contractor's progress payment request are not correct, the contracting officer shall—

(i) In the manner prescribed in paragraph (4) below, prepare a supplementary analysis to be attached to the contractor's request;

(ii) Advise the contractor in writing of the differences; and

(iii) Adjust all further progress payments in accordance with paragraph (1) above, using the contracting officer's figures, until the difference is resolved.

(4) The following is an example of the supplementary analysis required in paragraph (3) above:

*This amount shall be the same as the contract price of the items delivered.

32.503-7 Limitation on general and administrative expenses (G&A) for progress payments.

If the contractor established an inventory suspense account under Appendix A of Cost Accounting Standard (CAS) 410, Allocation of Business Unit General and Administrative Expenses to Final Cost Objectives (4 CFR Part 410), and the account is $5 million or more, the following limitations shall apply to progress payments:

(a) G&A shall not be eligible for progress payments until the value of work in process inventories under new contracts exceeds that under the old. For this purpose, new contracts shall be considered to be those awarded after CAS 410 became applicable to the work of the contractor. Old contracts are those included in the suspense account prescribed in CAS 410.

(b) The amount of G&A eligible for progress payments under the contract shall be the contractor's pro rata share of G&A allocable to the excess under paragraph (a) above.

32.503-8 Liquidation rates—ordinary method.

Progress payments are recouped by the Government through the deduction of liquidations from payments that would otherwise be due to the contractor for completed contract items. To determine the amount of the liquidation, a liquidation rate is applied to the contract price of contract items delivered and accepted. The ordinary method is that the liquidation rate is the same as the progress payment rate; at the beginning of a contract, only this method may be used. If the contract is subject to the CAS limitation in 32.503-7 on G&A eligible for progress payments, the ordinary method includes the use of an adjusted liquidation rate to reflect the applicable G&A suspense account. The adjusted liquidation rate shall be established by (a) dividing the unbilled G&A by the contract price, (b) multiplying the quotient by the progress payment rate stated in the contract, and (c) subtracting the resulting rate from the progress payment rate. For example, if the price is $1,100,000 and the unbilled G&A is $47,600, the adjusted liquidation rate would be 86.1 percent, computed as follows:

Unbilled G&A divided by contract price (47,600/1,100,000)	4.33%
Result x progress payment rate (4.33% x 90%)	3.90%
Result subtracted from progress payment rate (90% - 3.90%)	86.10%

32.503-9 Liquidation rates—alternate method.

(a) The liquidation rate determined under 32.503-8 shall apply throughout the period of contract performance unless the contracting officer adjusts the liquidation rate under the alternate method in this 32.503-9. The objective of the alternate liquidation rate method is to permit the contractor to retain the earned profit element of the contract prices for completed items in the liquidation process. The contracting officer may reduce the liquidation rate if—

(1) The contractor requests a reduction in the rate;

(2) The rate has not been reduced in the preceding 12 months;

(3) The contract delivery schedule extends at least 18 months from the contract award date;

(4) Data on actual costs are available (i) for the products delivered, or (ii) if no deliveries have been made, for a performance period of at least 12 months;

(5) The reduced liquidation rate would result in the Government recouping under each invoice the full extent of the progress payments applicable to the costs allocable to that invoice;

(6) The contractor would not be paid for more than the costs of items delivered and accepted and accepted (less allocable progress payments) and the earned profit on those items;

(7) The unliquidated progress payments would not exceed the limit prescribed in paragraph (a)(4) of the Progress Payments clause;

(8) The parties agree on an appropriate rate; and

(9) The contractor agrees to certify annually, or more often if requested by the contracting officer, that the alternate rate continues to meet the conditions of subsections 5, 6, and 7 above. The certificate must be accompanied by adequate supporting information.

(b) The contracting officer shall change the liquidation rate in the following circumstances:

(1) The rate shall be increased for both previous and subsequent transactions, if the contractor experiences a lower profit rate than the rate anticipated at the time the liquidation rate was established. Accordingly, the contracting officer shall adjust the progress payments associated with contract items already delivered, as well as subsequent progress payments.

(2) The rate shall be increased or decreased in keeping with the successive changes to the contract price or target profit when—

(i) The target profit is changed under a fixed-price incentive contract with successive targets; or

(ii) A redetermined price involves a change in the profit element under a contract with prospective price redetermination at stated intervals.

(c) Whenever the liquidation rate is changed, the contracting officer shall issue a contract modification to specify the new rate in the Progress Payments clause. Adequate consideration for these contract modifications is provided by the consideration included in the initial contract. The parties shall promptly make the payment or liquidation required in the circumstances.

32.503-10 Establishing alternate liquidation rates.

(a) The contracting officer shall ensure that the liquidation rate is—

(1) High enough to result in Government recoupment of the applicable progress payments on each billing; and

(2) Supported by documentation included in the administration office contract file.

(b) The minimum liquidation rate is the expected progress payments divided by the contract price. Each of these factors is discussed below:

(1) Usually, the contracting officer shall compute the expected progress payments by multiplying the estimated cost of performing the contract by the progress payment rate. In certain cases, part of the contractor's G&A is excluded from the estimated cost for the purpose of calculating expected progress payments for the liquidation rate. These cases pertain to the implementation of CAS 410 (see 32.503-7 and 32.503-8).

(2) For purposes of computing the liquidation rate, the contracting officer may adjust the estimated cost and the contract price to include the estimated value of any work authorized but not yet priced and any projected economic adjustments; however, the contracting officer's adjustment shall not exceed the Government's estimate of the price of all authorized work or the funds obligated for the contract.

(3) The following are examples of the computation. Assuming an estimated price of $1,100,000 and total estimated costs eligible for progress payments of $1,000,000:

(i) If the progress payment rate is 90 percent, the minimum liquidation rate should be 81.9 percent, computed as follows:

$$\frac{(\$1{,}000{,}000 \times 90\%)}{\$1{,}100{,}000} = 81.9\%.$$

(ii) If the progress payment rate is 95 percent, the minimum liquidation rate should be 86.4 percent, computed as follows:

$$\frac{(\$1{,}000{,}000 \times 95\%)}{\$1{,}100{,}000} = 86.4\%.$$

(iii) If the contract is subject to a CAS limitation on G&A eligible for progress payments (see 32.503-7), an adjusted alternate liquidation rate shall be established by subtracting the estimated G&A not eligible for progress payments from the total estimated contract costs. For example, if the price is $1,100,000, costs are $1,000,000, and unbilled G&A is $47,600, the liquidation rate should be 78.0 percent, computed as follows:

$$\frac{\$1{,}000{,}000 - \$47{,}600}{\$1{,}100{,}000} \times 90\% = 78.0\%.$$

(4) Minimum liquidation rates will generally be expressed to tenths of a percent. Decimals between tenths will be rounded up to the next highest tenth (not necessarily the nearest tenth), since rounding down would produce a rate below the minimum rate calculated.

32.503-11 Adjustments for price reduction.

(a) If a retroactive downward price reduction occurs under a redeterminable contract that provides for progress payments, the contracting officer shall—

(1) Determine the refund due and obtain repayment from the contractor for the excess of payments made for delivered items over amounts due as recomputed at the reduced prices; and

(2) Increase the unliquidated progress payments amount for overdeductions made from the contractor's billings for items delivered.

(b) The contracting officer shall also increase the unliquidated progress payments amount if the contractor makes an interim or voluntary price reduction under a redeterminable or incentive contract.

32.503-12 Maximum unliquidated amount.

(a) The contracting officer shall ensure that any excess of the unliquidated progress payments over the contractual limitation in paragraph (a) of the Progress Payments clause in the contract is promptly corrected through one or more of the following actions:

(1) Increasing the liquidation rate.

(2) Reducing the progress payment rate.

(3) Suspending progress payments.

(b) The excess described in paragraph (a) above is most likely to arise under the following circumstances:

(1) The costs of performance exceed the contract price.

(2) The alternate method of liquidation (see 32.503-9) is used and the actual costs of performance exceed the cost estimates used to establish the liquidation rate.

(3) The rate of progress or the quality of contract performance is unsatisfactory.

(4) The rate of rejections, waste, or spoilage is excessive.

(c) As required, the services of the cognizant independent audit agency or office should be fully utilized, along with the services of qualified cost analysis and engineering personnel.

32.503-13 Quarterly statements for price revision contracts.

Under price revision or redeterminable contracts that include progress payments clauses, the contracting officer shall occasionally compare the quarterly statements submitted under the price revision or renegotiation clause at 52.216-5, 52.216-6, 52.216-16, or 52.216-17 with the contractor's requests for progress payments. The contracting officer should ensure, as far as is reasonably

possible, that costs of delivered items in the quarterly statements are excluded from the costs of undelivered items (the basis for unliquidated progress payments) in the contractor's request for progress payments.

32.503-14 Protection of Government title.

(a) Since the Progress Payments clause gives the Government title to all of the materials, work-in-process, finished goods, and other items of property described in paragraph (d) of the Progress Payments clause, under the contract under which progress payments have been made, the ACO must ensure that the Government title to these inventories is not compromised by other encumbrances. Ordinarily, the ACO, in the absence of reason to believe otherwise, may rely upon the contractor's certification contained in the progress payment request.

(b) If the ACO becomes aware of any arrangement or condition that would impair the Government's title to the property affected by progress payment, the ACO shall require additional protective provisions (see 32.501-5) to establish and protect the Government's title.

(c) The existence of any such encumbrance is a violation of the contractor's obligations under the contract, and the ACO may, if necessary, suspend or reduce progress payments under the terms of the Progress Payments clause covering failure to comply with any material requirement of the contract. In addition, if the contractor fails to disclose an existing encumbrance in the progress payments certification, the ACO should consult with legal counsel concerning possible violation of 31 U.S.C. 231, the False Claims Act.

32.503-15 Application of Government title terms.

(a) Property to which the Government obtains title by operation of the Progress Payments clause solely is not, as a consequence, Government-furnished property.

(b) Although property title is vested in the Government under the Progress Payments clause, the acquisition, handling, and disposition of certain types of property are governed by other clauses, as follows:

(1) The clause at 52.245-17, Special Tooling, for special tooling.

(2) The termination clauses at 52.249, for termination inventory.

(c) The contractor may sell or otherwise dispose of current production scrap in the ordinary course of business on its own volition, even if title has vested in the Government under the Progress Payments clause. The contracting officer shall require the contractor to credit the costs of the contract performance with the proceeds of the scrap disposition.

(d) When the title to materials or other inventories is vested in the Government under the Progress Payments clause, the contractor may transfer the inventory items from the contract for its own use or other disposition only if, and on terms, approved by the contracting officer. The contractor shall (1) eliminate the costs allocable to the transferred property from the costs of contract performance, and (2) repay or credit to the Government an amount equal to the unliquidated progress payments, allocable to the transferred property.

(e) If excess property remains after the contract performance is complete and all contractor obligations under the contract are satisfied, including full liquidation of progress payments, the excess property is outside the scope of the Progress Payments clause. Therefore, the contractor holds title to it.

32.503-16 Risk of loss.

(a) Under the Progress Payments clause, and except for normal spoilage, the contractor bears the risk for loss, theft, destruction, or damage to property affected by the clause, even though title is vested in the Government, unless the Government has expressly assumed this risk. The clauses prescribed in this regulation related to progress payments, default, and terminations do not constitute a Government assumption of this risk.

(b) If a loss occurs in connection with property for which the contractor bears the risk, the contractor is obligated to repay to the Government the amount of unliquidated progress payments based on costs allocable to the property.

(c) The contractor is not obligated to pay for the loss of property for which the Government has assumed the risk of loss. However, a serious loss may impede the satisfactory progress of contract performance, so that the contracting officer may need to act under paragraph (c)(5) of the Progress Payments clause.

32.504 Subcontracts.

(a) The contracting officer shall encourage the contractor to provide progress payments to subcontractors on terms that meet the standards in 32.502-1 for customary progress payments.

(b) The contractor's requests for progress payments may include the full amount paid to subcontractors as progress payments under the contract and subcontracts.

(c) If the contractor is considering making unusual progress payments to a subcontractor, the parties shall be guided by the policies in 32.501-2. If unusual progress payments for the subcontract are approved by the Government, the contracting officer shall issue a contract modification to specify the new rate in subdivision (j)(4) of the Progress Payments clause in the prime contract. This will allow the contractor to include the progress payments to the subcontractor in the cost basis for progress payments by the Government. This modification shall not be considered a deviation and shall not require the clearance prescribed in 32.502-2(b).

(d) The contractor has a duty to ensure that progress payments to subcontractors conform to the standards and principles prescribed in paragraph (j) of the Progress Payments clause in the prime contract. Although the contracting officer should, to the extent appropriate, review the subcontract as part of the overall administration of progress payments in the prime contract, there is no special requirement for contracting officer review or consent merely because the subcontract includes a progress payments clause except as provided in paragraph (c) above.

(e) The subcontract terms shall include the substance of the Progress Payments clause in the prime contract, modified to indicate that the contractor, not the Government, awards the subcontract and administers the progress payments. The following exceptions apply to wording modifications:

(1) The subcontract terms on title to property under progress payments shall provide for vesting of title in the Government, not the contractor, as in paragraph (d) of the Progress Payments clause in the prime contract. A reference to the contractor may, however, be substituted for "Government" in subdivision (d)(2)(iv) of the clause.

(2) In the subcontract terms on reports and access to records, the contractor shall not delete the references to "Contracting Officer" and "Government" in adapting paragraph (g) of the Progress Payments clause in the contract, but may expand the terms as follows:

(i) The term "Contracting Officer" may be changed to "Contracting Officer or Prime Contractor."

(ii) The term "the Government" may be changed to "the Government or Prime Contractor."

(3) The subcontract special terms regarding default shall include paragraph (h) of the Progress Payments

clause in the contract through its subdivision (i). The rest of paragraph (h) is optional.

(f) If the contractor makes progress payments to a subcontractor under a cost-reimbursement prime contract, the contracting officer shall accept the progress payments as reimbursable costs of the prime contract only under the following conditions:

(1) The payments are made under the criteria in 32.502-1 for customary progress payments.

(2) The payments do not exceed the progress payment rate in 32.501-1 unless unusual progress payments to the subcontractor have been approved in accordance with 32.501-2.

(3) The subcontractor complies with the liquidation principles of 32.503-8, 32.503-9, and 32.503-10.

(4) The subcontract contains progress payments terms as prescribed in this section.

SUBPART 32.6—CONTRACT DEBTS

32.600 Scope of subpart.

This subpart prescribes policies and procedures for the Government's actions in ascertaining and collecting contract debts, charging interest on the debts, deferring collections, and compromising and terminating certain debts.

32.601 Definition.

"Responsible official," as used in this subpart, means the contracting officer (see Subpart 2.1) or other official designated under agency procedures to administer the collection of contract debts and applicable interest.

32.602 General.

The contract debts covered in this subpart arise in various ways. The following are some examples:

(a) Damages or excess costs related to defaults in performance.

(b) Breach of contract obligations concerning progress payments, advance payments, or Government-furnished property or material.

(c) Government expense of correcting defects.

(d) Overpayments related to errors in quantity or billing or deficiencies in quality.

(e) Retroactive price reductions resulting from contract terms for price redetermination or for determination of prices under incentive type contracts.

(f) Overpayments disclosed by quarterly statements required under price redetermination or incentive contracts.

(g) Delinquency in contractor payments due under agreements or arrangements for deferral or postponement of collections.

32.603 Applicability.

Except as otherwise specified, this subpart applies to all debts to the Government arising in connection with contracts and subcontracts for the acquisition of supplies or services.

32.604 Exclusions.

This subpart does not apply to claims of the Government against military or civilian employees or their dependents arising in connection with current or past employment by the Government. Sections 32.613, 32.614, and 32.616 do not apply to claims against common carriers for transportation overcharges and freight and cargo losses.

32.605 Responsibilities and cooperation among Government officials.

(a) To protect the Government's interests, contracting officers, contract financing offices, disbursing officials, and auditors shall cooperate fully with each other to—

(1) Discover promptly when a contract debt arises;

(2) Ascertain the correct amount of the debt;

(3) Act promptly and effectively to collect the debt;

(4) Administer deferment of collection agreements; and

(5) Provide up-to-date information on the status of the debt.

(b) For most kinds of contract debts, the contracting officer has the primary responsibility for determining the amounts of and collecting contract debt. Under some agency procedures, however, the individual who is responsible for payment under the contract; e.g., the disbursing officer, may have this primary responsibility.

32.606 Debt determination and collection.

(a) If any indication of a contract debt arises, the responsible official shall determine promptly whether an actual debt is due the Government and the amount. Any unwarranted delay may contribute to—

(1) Loss of timely availability of the funds to the program for which the funds were initially provided;

(2) Increased difficulty in collecting the debt; or

(3) Actual monetary loss to the Government.

(b) In determining the amount of any contract debt, the responsible official shall fairly consider both the Government's claim and any contract claims by the contractor against the Government. This determination does not constitute a settlement of such claims, nor is it a contracting officer's final determination under the Contract Disputes Act of 1979.

(c) The responsible official shall establish a control record for each contract debt, to include at least the following information:

(1) The name and address of the contractor.

(2) The contract number, if any.

(3) A description of the debt.

(4) The amount of debt and the appropriation to be credited.

(5) The date the debt was determined.

(6) The dates of demands for payment.

(7) The amounts and dates of collections, as they occur.

(8) The date of any appeal filed or action brought in the Court of Claims under the Disputes clause.

(9) The status of collections. Examples include—

(i) Actions reported to the disbursing officer (name, location, and date);

(ii) Funds requested to be withheld by the disbursing officer;

(iii) Funds requested to be withheld by other offices (date and office);

(iv) Deferment or installment payment arrangement requested;

(v) Deferment or installment request reviewed;

(vi) Supplemental information requested to support deferment requests; and

(vii) Actions transferred to the contract financing office.

(d) Except in cases in which an agreement has been entered into for deferment of collections (32.613) or bankruptcy proceedings against the contractor have been initiated, the contractor shall be required to liquidate the debt by—

(1) Cash payment in a lump sum, on demand; or

(2) Credit against existing unpaid bills due the contractor.

(e) The responsible officials shall use all proper means available to them for collecting debts as rapidly as possible. Practices for ascertaining and collecting debts shall be comprehensive, dynamic, and as uniform as practicable. Full consideration shall be given to personal contact and followup.

32.607 Tax credit.

(a) If the contractor is entitled to a tax credit under section 1481 of the Internal Revenue Code (26 U.S.C. 1481) and requests recognition of the credit in the debt collection, the responsible official shall comply.

(b) The tax credit shall be considered to reduce the amount of the debt as of the date when interest on the debt begins to accrue.

(c) The amount of the debt reduction shall be the amount of the tax credit certificate, if a certificate was issued by

.he Internal Revenue Service (IRS). If the IRS has not yet issued a certificate, the responsible official may accept the contractor's estimate of the tax credit amount until the certificate is issued, subject to any verification that the responsible official considers appropriate.

(d) A reduction for a tax credit does not apply to a debt arising from a subcontract.

32.608 Negotiation of contract debts.

(a) The responsible official shall ensure that any negotiations concerning debt determinations are completed expeditiously. If consistent with the contract, the official shall make a unilateral determination promptly if the contractor is delinquent in any of the following actions:

(1) Furnishing pertinent information.

(2) Negotiating expeditiously.

(3) Entering into an agreement on a fair and reasonable price revision.

(4) Signing an interim memorandum evidencing a negotiated pricing agreement involving refund.

(5) Executing an appropriate contract modification reflecting the result of negotiations.

(b) The amount of indebtedness determined unilaterally shall be an amount that—

(1) Is proper based on the merits of the case;

(2) Does not exceed an amount that would have been considered acceptable in a negotiated agreement; and

(3) Is consistent with the contract terms.

(c) For unilateral debt determinations, the contracting officer shall issue a decision as required by the Disputes clause (52.233-1) at or before the time of making a demand under 32.610.

32.609 Memorandum of pricing agreement with refund.

(a) If a refund to the Government is agreed upon in negotiations under a price revision type of contract, the responsible official shall promptly write a memorandum to document the agreement and the contract debt. The memorandum shall be signed by the negotiators for the Government and the contractor. If the procedures of either the agency or the contractor require approval of the negotiation results by higher authority, the memorandum shall be written without prejudice to the final pricing. After negotiations are completed, a supplemental agreement shall be executed without delay.

(b) The amount of refund shall be computed promptly, without waiting for itemization of adjustment of past billings, accounting adjustments, or the adjusted invoices.

32.610 Demand for payment of contract debt.

(a) A demand for payment shall be made as soon as the responsible official has computed the amount of refund due. If the debt arises from excess costs for a default termination, the demand shall be made without delay, as explained in 49.402-6.

(b) The demand shall include the following:

(1) A description of the debt, including the debt amount.

(2) Notification that any amounts not paid within 30 days from the date of the demand will bear interest from the date of the demand, or from any earlier date specified in the contract and that the interest rate shall be the rate established by the Secretary of the Treasury, for the period affected, under 50 U.S.C. App. 1215(b)(2).

(3) A notification that the contractor may submit a proposal for deferment of collection if immediate payment is not practicable or if the amount is disputed.

(4) Identification of the responsible official designated for determining the amount of the debt and for its collection.

(c) Contracting officer decision under the Disputes clause is covered in 32.608. If subparagraph (b)(3) of the clause at 52.232-17, Interest, applies, the demand mentioned in paragraph (a) above shall accompany or be included in the transmittal mentioned in the clause.

32.611 Routine setoff.

If a disbursing officer is the responsible official for collection of a contract debt, or is notified of the debt by the responsible official and has contractor invoices on hand for payment, the disbursing officer shall make an appropriate setoff. The disbursing officer shall give the contractor an explanation of the setoff. To the extent that the setoff reduces the debt, the explanation shall replace the demand prescribed in 32.610.

32.612 Withholding and setoff.

During the 30 days following the issuance of a demand, the advisability of withholding payments otherwise due to the contractor shall be considered based on the circumstances of the individual cases. If payment is not completed within 30 days, and deferment is not requested, withholding of principal and interest shall be initiated immediately. In the event the contract is assigned under the Assignment of Claims Act of 1940 (31 U.S.C. 203 and 41 U.S.C. 15), the rights of the assignee will be scrupulously respected and withholding of payments shall be consistent with those rights. For additional information on assignment of claims, see Subpart 32.8.

32.613 Deferment of collection.

(a) If the responsible official receives a written request from the contractor for a deferment of the debt collection or installment payments, the official shall promptly review the request to see if the information included is adequate for action on the request. If not, the contractor shall be asked to furnish the needed information. Any necessary changes to the terms of the proposed deferment/installment agreement shall also be suggested.

(b) If the contractor has appealed the debt under the procedures of the Disputes clause of the contract, the information with the request for deferment may be limited to an explanation of the contractor's financial condition.

(c) If there is no appeal pending or action filed under the Disputes clause of the contract, the following information about the contractor should be submitted with the request:

(1) Financial condition.

(2) Contract backlog.

(3) Projected cash receipts and requirements.

(4) The feasibility of immediate payment of the debt.

(5) The probable effect on operations of immediate payment in full.

(d) Although the existence of a contractor appeal of the debt does not of itself require the Government to suspend or delay collection action, the responsible official shall consider whether deferment of the debt collection is advisable to avoid possible overcollection. The responsible official may authorize a deferment pending the resolution of appeal.

(e) Deferments pending disposition of appeal may be granted to small business concerns and financially weak contractors, with a reasonable balance of the need for Government security against loss and undue hardship on the contractor.

(f) If a contractor has not appealed the debt or filed an action under the Disputes clause of the contract, the responsible official may arrange for deferment/installment payments if the contractor is unable to pay at once in full or the contractor's operations under national defense contracts would be seriously impaired. The arrangement shall include appropriate covenants and securities and should be limited to the shortest practicable maturity.

(g) Contracts and arrangements for deferment may not provide that a claim of the Government will not become due and payable pending mutual agreement on the amount of the claim or, in the case of a dispute, until the decision is reached.

(h) At a minimum, the deferment agreement shall contain the following:

(1) A description of the debt.

(2) The date of first demand for payment.

(3) Notice of an interest charge, in conformity with 32.614 and the clause at 52.232-17, Interest.

(4) Identification of the office to which the contractor is to send debt payments.

(5) A requirement for the contractor to submit financial information requested by the Government and for reasonable access to the contractor's records and property by Government representatives.

(6) Provision for the Government to terminate the deferment agreement and accelerate the maturity of the debt if the contractor defaults or if bankruptcy or insolvency proceedings are instituted by or against the contractor.

(7) Protective requirements that are considered by the Government to be prudent and feasible in the specific circumstances. The coverage of protective terms at 32.409 and 32.501-5 may be used as a guide.

(i) If a contractor appeal of the debt determination is pending, the deferment agreement shall also include a requirement that the contractor shall—

(1) Diligently prosecute the appeal; and

(2) Pay the debt in full when the appeal is decided, or when the parties reach agreement on the debt amount.

(j) If the contractor does not plan to appeal the debt or file an action under the Disputes clause of the contract, the deferment/installment agreement shall include a specific schedule or plan for payment. It should permit the Government to make periodic financial reviews of the contractor and to require prepayments if the Government considers the contractor's ability to pay improved. It should also provide for required stated or measurable prepayments on the occurrence of specific events or contingencies that improve the contractor's ability to pay.

(k) If desired by the contractor, the deferment agreement may provide for the right to make prepayments without prejudice, for refund of overpayments, and for crediting of interest (see 32.614-2).

(l) Actions filed by contractors under the Disputes clause shall not suspend or delay collection. Until the action is decided, deferments shall only be granted if, within 30 days after the filing of such action, the contractor presents to the responsible official a good and sufficient bond, or other collateral acceptable to the responsible official, in the amount of the claim, and approved by the responsible official. Any amount collected by the Government in excess of the amount found to be due on appeal under the Disputes clause of the contract shall be refunded to the contractor with interest thereon from the date of collection by the Government at the annual rate established by the Secretary of Treasury under 50 U.S.C. App. 1215(b)(2). Simple interest shall be calculated through the period of indebtedness to reflect each 6-month period change in the rates established by the Secretary.

32.614 Interest.

32.614-1 Interest charges.

(a) Under the clause at 52.232-17, Interest, the responsible official shall apply interest charges to any contract debt unpaid after 30 days from the issuance of a demand, unless—

(1) The contract specifies another due date or procedure for charging or collecting interest;

(2) The contract is a kind excluded under 32.617; or

(3) The contract or debt has been exempted from interest charges under agency procedures.

(b) If not already applicable under the contract terms, interest on contract debt shall be made an element of any agreement entered into on deferment of collection.

(c) The interest charge shall be at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2) for the period in which the amount becomes due. The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—

(1) The date on which the designated office receives payment from the contractor;

(2) The date of issuance of a Government check to the contractor from which an amount otherwise payable has been withheld as a credit against the contract debt;

(3) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the contractor; or

(4) The date of any applicable tax credit under 32.607.

32.614-2 Interest credits.

(a) An equitable interest credit shall be applied under the following circumstances:

(1) When the amount of debt initially determined is subsequently reduced; e.g., through a successful appeal.

(2) When the collection procedures followed in a given case result in an overcollection of the debt due.

(3) When the responsible official determines that the Government has unduly delayed payments to the contractor on the same contract at some time during the period to which the interest charge applied, provided an interest penalty was not paid for such late payment.

(b) Any appropriate interest credits shall be computed under the following procedures:

(1) Interest at the rate under 32.614-1(c) shall be charged on the reduced debt from the date specified in the first demand made for payment of the higher debt.

(2) Interest may not be reduced for any time between the due date under the demand and the period covered by a deferment of collection, unless the contract includes an interest clause; e.g., the clause prescribed in 32.617.

(3) Interest shall not be credited in an amount that, when added to other amounts refunded or released to the contractor, exceeds the total amount that has been collected, or withheld for the purpose of collecting the debt. This limitation shall be further reduced by the amount of any limitation applicable under 32.614-2(b)(2).

32.615 Delays in receipt of notices or demands.

If delivery of the demands or notices required by the clause at 52.232-17, Interest, is delayed by the Government (e.g., undue delay after dating at the originating office or delays in the mail), the date of the debt and accrual of interest shall be extended to a time that is fair and reasonable under the particular circumstances.

32.616 Compromise actions.

For debts under $20,000, excluding interest, if further collection is not practicable or would cost more than the amount of recovery, the agency may compromise the debt or terminate or suspend further collection action. Compromise is authorized by the Federal Claims Collection Act of 1966 (31 U.S.C. 952). Compromise actions shall conform to Federal claims collection standards (4 CFR 101-105), and agency regulations.

32.617 Contract clause.

(a) The contracting officer shall insert the clause at 52.232-17, Interest, in solicitations and contracts, unless it is

contemplated that the contract will be in one or more of the following categories:

(1) Small purchases.

(2) Contracts with Government agencies.

(3) Contracts with a State or local government or instrumentality.

(4) Contracts with a foreign government or instrumentality.

(5) Contracts without any provision for profit or fee with a nonprofit organization.

(6) Contracts described in Subpart 5.5, Paid advertisements.

(7) Any other exceptions authorized under agency procedures.

(b) The contracting officer may insert the clause at 52.232-17, Interest, in solicitations and contracts when it is contemplated that the contract will be in any of the categories specified in 32.617(a).

SUBPART 32.7—CONTRACT FUNDING

32.700 Scope.

This subpart (a) describes basic requirements for contract funding and (b) prescribes procedures for using limitation of cost or limitation of funds clauses. Detailed acquisition funding requirements are contained in agency fiscal regulations.

32.701 Reserved.

32.702 Policy.

No officer or employee of the Government may create or authorize an obligation in excess of the funds available, or in advance of appropriations (Anti-Deficiency Act, 31 U.S.C. 665), unless otherwise authorized by law. Before executing any contract, the contracting officer shall (a) obtain written assurance from responsible fiscal authority that adequate funds are available or (b) expressly condition the contract upon availability of funds in accordance with 32.703-2.

32.703 Contract funding requirements.

32.703-1 General.

(a) If the contract is fully funded, funds are obligated to cover the price or target price of a fixed-price contract or the estimated cost and any fee of a cost-reimbursement contract.

(b) If the contract is incrementally funded, funds are obligated to cover the amount allotted and any corresponding increment of fee.

32.703-2 Contracts conditioned upon availability of funds.

(a) *Fiscal year contracts.* The contracting officer may initiate a contracting action properly chargeable to funds of the new fiscal year before these funds are available; *provided*, that the contract includes the clause at 52.232-18, Availability of Funds (see 32.705-1(a)). This authority may be used only for operation and maintenance and continuing services (e.g., rentals, utilities, and supply items not financed by stock funds) (1) necessary for normal operations and (2) for which Congress previously had consistently appropriated funds, unless specific statutory authority exists permitting applicability to other requirements.

(b) *Indefinite-quantity or requirements contracts.* A one-year indefinite-quantity or requirements contract for services that is funded by annual appropriations may extend beyond the fiscal year in which it begins; *provided*, that (1) any specified minimum quantities are certain to be ordered in the initial fiscal year (see 37.106) and (2) the contract includes the clause at 52.232-19, Availability of Funds for the Next Fiscal Year (see 32.705-1(b)).

(c) *Acceptance of supplies or services.* The Government shall not accept supplies or services under a contract conditioned upon the availability of funds until the contracting officer has given the contractor notice, to be confirmed in writing, that funds are available.

32.703-3 Contracts crossing fiscal years.

A contract that is funded by annual appropriations may not cross fiscal years, except in accordance with statutory authorization (see 31 U.S.C. 668, 668a, and 699), or when the contract calls for an end product that cannot feasibly be subdivided for separate performance in each fiscal year (e.g., contracts for expert or consultant services).

32.704 Limitation of cost or funds.

(a) (1) When a contract contains the clause at 52.232-20, Limitation of Cost; 52.232-21, Limitation of Cost (Facilities); or 52.232-22, Limitation of Funds, the contracting officer, upon learning that the contractor is approaching the estimated cost of the contract or the limit of the funds allotted, shall promptly obtain funding and programming information pertinent to the contract's continuation and notify the contractor in writing that—

(i) Additional funds have been allotted, or the estimated cost has been increased, in a specified amount;

(ii) The contract is not to be further funded and that the contractor should submit a proposal for an adjustment of fee, if any, based on the percentage of work completed in relation to the total work called for under the contract;

(iii) The contract is to be terminated; or

(iv) (A) The Government is considering whether to allot additional funds or increase the estimated cost, (B) the contractor is entitled by the contract terms to stop work when the funding or cost limit is reached, and (C) any work beyond the funding or cost limit will be at the contractor's risk.

(2) Upon learning that a partially funded contract containing any of the clauses referenced in subparagraph (1) above will receive no further funds, the contracting officer shall promptly give the contractor written notice of the decision not to provide funds.

(b) Under a cost-reimbursement contract, the contracting officer may issue a change order, a direction to replace or repair defective items or work, or a termination notice without immediately increasing the funds available. Since a contractor is not obligated to incur costs in excess of the estimated cost in the contract, the contracting officer shall ensure availability of funds for directed actions. The contracting officer may direct that any increase in the estimated cost or amount allotted to a contract be used for the sole purpose of funding termination or other specified expenses.

(c) Government personnel encouraging a contractor to continue work in the absence of funds will incur a violation of Revised Statutes Section 3679 (31 U.S.C. 665) that may subject the violator to civil or criminal penalties.

32.705 Contract clauses.

32.705-1 Clauses for contracting in advance of funds.

(a) The contracting officer shall insert the clause at 52.232-18, Availability of Funds, in solicitations and contracts if the contract will be chargeable to funds of the new fiscal year and the contracting action is to be initiated before the funds are available.

(b) The contracting officer shall insert the clause at 52.232-19, Availability of Funds for the Next Fiscal Year, in solicitations and contracts if a one-year indefinite-quantity or requirements contract for services is contemplated and the contract (a) is funded by annual appropriations and (b) is to extend beyond the initial fiscal year (see 32.703-2(b)).

32.705-2 Clauses for limitation of cost or funds.

(a) The contracting officer shall insert the clause at 52.232-20, Limitation of Cost, in solicitations and contracts if a fully funded cost-reimbursement contract is contemplated, except those

for consolidated facilities, facilities acquisition, or facilities use, whether or not the contract provides for payment of a fee.

(b) The contracting officer shall insert the clause at 52.232-21, Limitation of Cost (Facilities), in solicitations and contracts for consolidated facilities, facilities acquisition, or facilities use (see 45.301).

(c) The contracting officer shall insert the clause at 52.232-22, Limitation of Funds, in solicitations and contracts if an incrementally funded cost-reimbursement contract is contemplated.

SUBPART 32.8—ASSIGNMENT OF CLAIMS.

32.800 Scope of subpart.

This subpart prescribes policies and procedures for the assignment of claims under the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 203, 41 U.S.C. 15 (hereafter referred to as "the Act").

32.801 Definitions.

"Assignment of claims," as used in this subpart, means the transfer or making over by the contractor to a bank, trust company, or other financing institution, as security for a loan to the contractor, of its right to be paid by the Government for contract performance.

"Designated agency," as used in this subpart, means any agency authorized to include a no-setoff commitment in its contracts. The designated agencies are the Department of Defense, the General Services Administration, the National Aeronautics and Space Administration, the Federal Aviation Administration, and any other agency authorized by statute or designated by the President.

"No-setoff commitment," as used in this subpart, means a contractual undertaking that, to the extent permitted by the Act, payments by the designated agency to the assignee under an assignment of claims will not be reduced to liquidate the indebtedness of the contractor to the Government.

32.802 Conditions.

Under the Assignment of Claims Act, a contractor may assign moneys due or to become due under a contract if all the following conditions are met:

(a) The contract specifies payments aggregating $1,000 or more.

(b) The assignment is made to a bank, trust company, or other financing institution, including any Federal lending agency.

(c) The contract does not prohibit the assignment.

(d) Unless otherwise expressly permitted in the contract, the assignment—

(1) Covers all unpaid amounts payable under the contract;

(2) Is made only to one party, except that any assignment may be made to one party as agent or trustee for two or more parties participating in the financing of the contract; and

(3) Is not subject to further assignment.

(e) The assignee sends a written notice of assignment together with a true copy of the assignment instrument to the—

(1) Contracting officer or the agency head;

(2) Surety on any bond applicable to the contract; and

(3) Disbursing officer designated in the contract to make payment.

32.803 Policies.

(a) Any assignment of claims that has been made under the Act to any type of financing institution listed in 32.802(b) may thereafter be further assigned and reassigned to any such institution if the conditions in 32.802(d) and (e) continue to be met.

(b) A contract may prohibit the assignment of claims if the agency determines the prohibition to be in the Government's interest.

(c) Under a requirements or indefinite quantity type contract that authorizes ordering and payment by multiple Government activities, amounts due for individual orders for $1,000 or more may be assigned.

(d) Each designated agency (see 32.801) may include a no-setoff commitment only in time of war or national emergency in any contract permitting the assignment of claims. In such times there should be special considerations to justify a determination that exclusion of a no-setoff commitment is in the Government's interest.

(e) When an assigned contract does not include a no-setoff commitment, the Government may apply against payments to the assignee any liability of the contractor to the Government arising independently of the assigned contract if the liability existed at the time notice of the assignment was received even though that liability had not yet matured so as to be due and payable.

32.804 Extent of assignee's protection.

(a) No payments made by the Government to the assignee under any contract assigned in accordance with the Act may be recovered on account of any liability of the contractor to the Government. This immunity of the assignee is effective whether the contractor's liability arises from or independently of the assigned contract.

(b) Except as provided in paragraph (c) below, the inclusion of a no-setoff commitment in an assigned contract entitles the assignee to receive contract payments free of reduction or setoff for—

(1) Any liability of the contractor to the Government arising independently of the contract; and

(2) Any of the following liabilities of the contractor to the Government arising from the assigned contract:

(i) Renegotiation under any statute or contract clause.

(ii) Fines.

(iii) Penalties, exclusive of amounts that may be collected or witheld from the contractor under, or for failure to comply with, the terms of the contract.

(iv) Taxes or social security contributions.

(v) Withholding or nonwithholding of taxes or social security contributions.

(c) In some circumstances, a setoff may be appropriate even though the assigned contract includes a no-setoff commitment, e.g.—

(1) When the assignee has neither made a loan under the assignment nor made a commitment to do so; or

(2) To the extent that the amount due on the contract exceeds the amount of any loans made or expected to be made under a firm commitment for financing.

32.805 Procedure.

(a) *Assignments.* (1) Assignments by corporations should be (i) executed by an authorized representative, (ii) attested by the secretary or the assistant secretary of the corporation, and (iii) impressed with the corporate seal or accompanied by a certified copy of the resolution of the corporation's board of directors authorizing the signing representative to execute the assignment.

(2) If the contractor is a partnership, the assignment may be signed by one partner, if it is accompanied by an acknowledged certification that the signer is a general partner of the partnership.

(3) If the contractor is an individual, the assignment must be signed by that individual and the signature acknowledged before a notary public or other person authorized to administer oaths.

(b) *Filing.* The assignee shall forward to each party specified in 32.802(e) an original and three copies of the notice of assignment, together with one true copy of the instrument of assignment. The true copy shall be a certified duplicate

or photostat copy of the original assignment.

(c) *Format for notice of assignment.* The following is a suggested format for use by an assignee in providing the notice of assignment required by 32.802(e).

NOTICE OF ASSIGNMENT

TO: .....[*address to one of the parties specified in 32.802(e)*].

This has reference to Contract No. ..... dated ....., entered into between ..... [*contractor's name and address*] and ..... [*government agency, name of office, and address*], for .....[*describe nature of the contract*].

Moneys due or to become due under the contract described above have been assigned to the undersigned under the provisions of the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 203, 41 U.S.C. 15.

A true copy of the instrument of assignment executed by the Contractor on .....[*date*], is attached to the original notice.

Payments due or to become due under this contract should be made to the undersigned assignee.

Please return to the undersigned the three enclosed copies of this notice with appropriate notations showing the date and hour of receipt, and signed by the person acknowledging receipt on behalf of the addressee.

Very truly yours,

.....

[*name of assignee*]

By.....

[*signature of signing officer*

Title.....

[*title of signing officer*]

.....

.....

[*address of assignee*]

ACKNOWLEDGEMENT

Receipt is acknowledged of the above notice and of a copy of the instrument of assignment. They were received at .....(a.m.) (p.m.) on ....., 19... .

.....

[*signature*]

.....

[*title*]

.....

On behalf of

.....

[*name of addressee of this notice*]

(d) *Examination by the Government.* In examining and processing notices of assignment and before acknowleging their receipt, contracting officers should assure that the following conditions and any additional conditions specified in agency regulations, have been met:

(1) The contract has been properly approved and executed.

(2) The contract is one under which claims may be assigned.

(3) The assignment covers only money due or to become due under the contract.

(e) *Release of assignment.* (1) A release of an assignment is required whenever—

(i) There has been a further assignment or reassignment under the Act; or

(ii) The contractor wishes to reestablish its right to receive further payments after the contractor's obligations to the assignee have been satisfied and a balance remains due under the contract.

(2) The assignee, under a further assignment or reassignment, in order to establish a right to receive payment from the Government, must file with the addressees listed in 32.802(e) a—

(i) Written notice of release of the contractor by the assigning financing institution;

(ii) Copy of the release instrument;

(iii) Written notice of the further assignment or reassignment; and

(iv) Copy of the further assignment or reassignment instrument.

(3) If the assignee releases the contractor from an assignment of claims under a contract, the contractor, in order to establish a right to receive payment of the balance due under the contract, must file a written notice of release together with a true copy of the release of assignment instrument with the addressees noted in 32.802(e).

(4) The addressee of a notice of release of assignment or the official acting on behalf of that addressee shall acknowledge receipt of the notice.

32.806 Contract clauses.

(a) (1) The contracting officer shall insert the clause at 52.232-23, Assignment of Claims, in solicitations and contracts when the contract amount is expected to be $1,000 or more, unless the contract will prohibit the assignment of claims (see 32.803(b)). The use of this clause is not required for purchase orders. However, the clause may be used in purchase orders for $1,000 or more that are accepted in writing by the contractor, if such use is consistent with agency policies and regulations.

(2) If a no-setoff commitment is to be included in the contract (see 32.801 and 32.803(d)) and the contract is expected to be for $1,000 or more, the contracting officer shall use the clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.242-24, Prohibition of Assignment of Claims, in solicitations and contracts for which a determination has been made under agency regulations that the prohibition of assignment of claims is in the Government's interest.

PART 33—DISPUTES AND APPEALS

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

33.000 Scope of part.

This part prescribes policies and procedures for processing contract disputes and appeals.

33.001 Definitions.

"Claim," as used in this part, means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to the contract. A claim arising under a contract, unlike a claim relating to that contract, is a claim that can be resolved under a contract clause that provides for the relief sought by the claimant. However, a written demand or written assertion by the contractor seeking the payment of money exceeding $50,000 is not a claim under the Contract Disputes Act of 1978 until certified as required by the Act and 33.007. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim. The submission may be converted to a claim, by written notice to the contracting officer as provided in 33.006(a), if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

"Misrepresentation of fact," as used in this part, means a false statement of substantive fact, or any conduct which leads to the belief of a substantive fact

material to proper understanding of the matter in hand, made with intent to deceive or mislead.

33.002 Contract Disputes Act of 1978.

The Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act) establishes procedures and requirements for asserting and resolving claims by or against contractors arising under or relating to a contract subject to the Act. In addition, the Act provides for the payment of interest on contractor claims, for the certification of contractor claims in excess of $50,000, and for a civil penalty for contractor claims that are fraudulent or based on a misrepresentation of fact.

33.003 Applicability.

(a) Except as specified in paragraph (b) below, this part applies to any express or implied contract covered by the Federal Acquisition Regulation.

(b) This Part 33 does not apply to any contract with (1) a foreign government or agency of that government, or (2) an international organization or a subsidiary body of that organization, if the agency head determines that the application of the Act to the contract would not be in the public interest.

(c) This part applies to all disputes with respect to contracting officer decisions on matters "arising under" or "relating to" a contract. Agency Boards of Contract Appeals (BCA's) authorized under the Act continue to have all of the authority they possessed before the Act with respect to disputes arising under a contract, as well as authority to decide disputes relating to a contract. The clause at 52.233-1, Disputes, recognizes the "all disputes" authority established by the Act and states certain requirements and limitations of the Act for the guidance of contractors and contracting agencies. The clause is not intended to affect the rights and obligations of the parties as provided by the Act or to constrain the authority of the statutory agency BCA's in the handling and deciding of contractor appeals under the Act.

33.004 Policy.

It is the Government's policy to try to resolve all contractual issues by mutual agreement at the contracting officer's level, without litigation. In appropriate circumstances, the contracting officer, before issuing a decision on a claim, should consider the use of informal discussions between the parties by individuals who have not participated substantially in the matter in dispute, to aid in resolving the differences.

33.005 Relationship of the Act to Public Law 85-804.

(a) Requests for relief under Public Law 85-804 (50 U.S.C. 1431-1435) are not claims within the Contract Disputes Act of 1978 or the Disputes clause at 52.233-1, Disputes, and shall be processed under Part 50, Extraordinary Contractual Actions. However, relief formerly available only under Public Law 85-804; i.e., legal entitlement to rescission or reformation for mutual mistake, is now available within the authority of the contracting officer under the Contract Disputes Act of 1978 and the Disputes clause. In case of a question whether the contracting officer has authority to settle or decide specific types of claims, the contracting officer should seek legal advice.

(b) A contractor's allegation that it is entitled to rescission or reformation of its contract in order to correct or mitigate the effect of a mistake shall be treated as a claim under the Act. A contract may be reformed or rescinded by the contracting officer if the contractor would be entitled to such remedy or relief under the law of Federal contracts. Due to the complex legal issues likely to be associated with allegations of legal entitlement, contracting officers shall make written decisions, prepared with the advice and assistance of legal counsel, either granting or denying relief in whole or in part.

(c) A claim that is either denied or not approved in its entirety under paragraph (b) above may be cognizable as a request for relief under Public Law 85-804 as implemented by Part 50. However, the claim must first be submitted to the contracting officer for consideration under the Contract Disputes Act of 1978 because the claim is not cognizable under Public Law 85-804, as implemented by Part 50, unless other legal authority in the agency concerned is determined to be lacking or inadequate.

33.006 Initiation of a claim.

(a) Contractor claims shall be submitted in writing to the contracting officer for a decision. The contracting officer shall document the contract file with evidence of the date of receipt of any submission from the contractor deemed to be a claim by the contracting officer.

(b) The contracting officer shall issue a written decision on any Government claim initiated against a contractor.

33.007 Contractor claim certification.

(a) A contractor claim exceeding $50,000 shall be accompanied by a certification that—

(1) The claim is made in good faith;

(2) Supporting data are accurate and complete to the best of the contractor's knowledge and belief; and

(3) The amount requested accurately reflects the contract adjustment for which the contractor believes the Government is liable.

(b) The aggregate amount of both the increased and decreased costs shall be used in determining when the dollar thresholds requiring claim certification are met (see the example in subdivision 15.804-2(a)(1)(ii)).

(c) (1) If the contractor is an individual, the certification shall be executed by that individual.

(2) If the contractor is not an individual, the certification shall be executed by—

(i) A senior company official in charge at the contractor's plant or location involved; or

(ii) An officer or general partner of the contractor having overall responsibility for the conduct of the contractor's affairs.

33.008 Interest on claims.

The Government shall pay interest on a contractor's claim on the amount found due and unpaid from (a) the date the contracting officer receives the claim (properly certified if required by 33.007(a)), or (b) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the contracting officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. See 32.614 for the right of the Government to collect interest on its claims against a contractor.

33.009 Suspected fraudulent claims.

If the contractor is unable to support any part of the claim and there is evidence that the inability is attributable to misrepresentation of fact or to fraud on the part of the contractor, the contracting officer shall refer the matter to the agency official responsible for investigating fraud.

33.010 Contracting officer's authority.

Except as provided in this section, contracting officers are authorized, within any specific limitations of their warrants, to decide or settle all claims arising under or relating to a contract subject to the Act. This authorization does not extend to—

(a) A claim or dispute for penalties or forfeitures prescribed by statute or regulation that another Federal agency is specifically authorized to administer, settle, or determine; or

(b) A claim involving fraud (see 33.009).

33.011 Contracting officer's decision.

(a) When a claim by or against a contractor cannot be satisfied or settled by mutual agreement and a decision on the claim is necessary, the contracting officer shall—

(1) Review the facts pertinent to the claim;

(2) Secure assistance from legal and other advisors;

(3) Coordinate with the contract administration office or contracting office, as appropriate; and

(4) Prepare a written decision that shall include a—

(i) Description of the claim or dispute;

(ii) Reference to the pertinent contract terms;

(iii) Statement of the factual areas of agreement and disagreement;

(iv) Statement of the contracting officer's decision, with supporting rationale; and

(v) Paragraph substantially as follows:

This is the final decision of the Contracting Officer. You may appeal this decision to the Board of Contract Appeals. If you decide to appeal, you must, within 90 days from the date you receive this decision, mail or otherwise furnish written notice to the Board of Contract Appeals and provide a copy to the Contracting Officer from whose decision the appeal is taken. The notice shall indicate that an appeal is intended, reference this decision, and identify the contract by number. Instead of appealing to the Board of Contract Appeals, you may bring an action directly in the U.S. Claims Court (except as provided in the Contract Disputes Act of 1978, 41 U.S.C. 603, regarding Maritime Contracts) within 12 months of the date you receive this decision. If you appeal to the Board of Contract Appeals, you may, solely at your election, proceed under the Board's small claims procedure for claims of $10,000 or less or its accelerated procedure for claims of $50,000 or less.

(b) The contracting officer shall furnish a copy of the decision to the contractor by certified mail, return receipt requested, or by any other method that provides evidence of receipt. This requirement shall apply to decisions on claims initiated by or against the contractor.

(c) The contracting officer shall issue the decision within the following statutory time limitations:

(1) For claims of $50,000 or less, 60 days after receiving a written request from the contractor that a decision be rendered within that period, or within a reasonable time after receipt of the claim if the contractor does not make such a request.

(2) For claims over $50,000, 60 days after receiving a certified claim; *provided, however*, that if a decision will not be issued within 60 days, the contracting officer shall notify the contractor, within that period, of the time within which a decision will be issued.

(d) The contracting officer shall issue a decision within a reasonable time, taking into account—

(1) The size and complexity of the claim;

(2) The adequacy of the contractor's supporting data; and

(3) Any other relevant factors.

(e) In the event of undue delay by the contracting officer in rendering a decision on a claim, the contractor may request the agency BCA to direct the contracting officer to issue a decision in a specified time period determined by the BCA.

(f) Any failure of the contracting officer to issue a decision within the required time periods will be deemed a decision by the contracting officer denying the claim and will authorize the contractor to file an appeal or suit on the claim.

(g) The amount determined payable under the decision, less any portion already paid, should be paid, if otherwise proper, without awaiting contractor action concerning appeal. Such payment shall be without prejudice to the rights of either party.

33.012 Contracting officer's duties upon appeal.

To the extent permitted by any agency procedures controlling contacts with agency BCA personnel, the contracting officer shall provide data, documentation, information, and support as may be required by the agency BCA for use on a pending appeal from the contracting officer's decision.

33.013 Obligation to continue performance.

(a) In general, before passage of the Act, the obligation to continue performance applied only to claims arising under a contract. However, Section 6(b) of the Act authorizes agencies to require a contractor to continue contract performance in accordance with the contracting officer's decision pending final decision on a claim relating to the contract. In recognition of this fact, an alternate paragraph is provided for paragraph (h) of the clause at 52.233-1, Disputes. This paragraph shall be used only as authorized by agency procedures.

(b) In all contracts that include the clause at 52.233-1, Disputes, with its Alternate I, in the event of a dispute not arising under, but relating to, the contract, the contracting officer shall consider providing, through appropriate agency procedures, financing of the continued performance; *provided*, that the Government's interest is properly secured.

33.014 Contract clause.

The contracting officer shall insert the clause at 52.233-1, Disputes, in solicitations and contracts, unless the conditions in 33.003 apply. If it is determined under agency procedures that continued performance is necessary pending resolution of any claim arising under or relating to the contract, the contracting officer shall use the clause with its Alternate I.

SUBCHAPTER F—Special Categories of Contracting

PART 34—MAJOR SYSTEM ACQUISITION

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

34.000 Scope of part.

This part describes acquisition policies and procedures for use in acquiring major systems consistent with OMB Circular No. A-109, Major System Acquisitions (A-109) (see 34.003).

34.001 Reserved.

34.002 Policy.

The policies of this part are designed to ensure that agencies acquire major systems in the most effective, economical, and timely manner. Agencies acquiring major systems shall—

(a) Promote innovation and competition in the development of major system concepts by (1) expressing agency needs and major system acquisition program objectives in terms of the agency's mission and not in terms

of specified systems to satisfy needs, and (2) focusing agency resources and special management attention on activities conducted in the initial stage of major programs; and

(b) Sustain effective competition between alternative system concepts for as long as it is beneficial.

34.003 Responsibilities.

(a) As required by A-109, the agency head or designee shall establish written procedures for its implementation.

(b) The agency procedures shall identify the key decision points of each major system acquisition and the agency official(s) for making those decisions.

(c) Systems acquisitions normally designated as major are those programs that, as determined by the agency head, (1) are directed at and critical to fulfilling an agency mission need, (2) entail allocating relatively large resources for the particular agency, and (3) warrant special management attention, including specific agency-head decisions. The agency procedures may establish additional criteria, as specified in A-109, for designating major programs system acquisitions.

34.004 Acquisition strategy.

The program manager, as specified in agency procedures, shall develop an acquisition strategy tailored to the particular major system acquisition program. This strategy is the program manager's overall plan for satisfying the mission need in the most effective, economical, and timely manner. The strategy shall be in writing and prepared in accordance with the requirements of Subpart 7.1, except where inconsistent with this part, and shall qualify as the acquisition plan for the major system acquisition, as required by that subpart.

34.005 General requirements.

34.005-1 Competition.

(a) The program manager shall, throughout the acquisition process, promote and sustain competition between alternative major system concepts, as long as it is economically beneficial and practicable to do so. Notice of the proposed acquisition shall be given the broadest and most effective circulation practicable throughout the business, academic, and Government communities. Foreign contractors, technology, and equipment may be considered when it is feasible and permissible to do so.

(b) The contracting officer should time solicitation issuance and contract award to maintain continuity of concept development during the transition from withdrawing concept proposer to new contractor.

34.005-2 Mission-oriented solicitation.

(a) Before issuing the solicitation, whenever practicable and consistent with agency procedures, the contracting officer should take the actions outlined in subparagraphs (1) and (2):

(1) Advance notification of the acquisition should be given the widest practicable dissemination, including publication in the Commerce Business Daily (see Subpart 5.2) and should be sent to as wide a selection of potential sources as practicable, including smaller and newer firms, Government laboratories, federally funded research and development centers, educational institutions and other not-for-profit organizations, and, if it would be beneficial and is not prohibited, foreign sources.

(2) If appropriate, hold a presolicitation conference (see 15.404) and/or send copies of the proposed request for proposals (RFP) to all prospective proposers for their comments. After evaluation of these comments, the RFP should be revised, if appropriate.

(b) The contracting officer shall send the final RFP to all prospective proposers. It shall—

(1) Describe the nature of the need in terms of mission capabilities required, without reference to any specific systems to satisfy the need;

(2) Indicate, and explain when appropriate, the schedule, capability, and cost objectives and any known constraints in the acquisition;

(3) Provide, or indicate how access can be obtained to, all Government data related to the acquisition;

(4) Include selection requirements consistent with the acquisition strategy; and

(5) Clearly state that each offeror is free to propose its own technical approach, main design features, subsystems, and alternatives to schedule, cost, and capability goals.

(c) To the extent practicable, the RFP shall not reference or mandate Government specifications or standards, unless the agency is mandating a subsystem or other component as approved under agency procedure.

34.005-3 Concept exploration contracts.

Whenever practicable, contracts to be performed during the concept exploration phase shall be for relatively short periods, at planned dollar levels. These contracts are to refine the proposed concept and to reduce the concept's technical uncertainties. The scope of work for this phase of the program shall be consistent with the Government's planned budget for the phase. Follow-on contracts for such tasks in the exploration phase shall be awarded as long as the concept approach remains promising, the contractor's progress is acceptable, and it is economically practicable to do so.

34.005-4 Demonstration contracts.

Whenever practicable, contracts for the demonstration phase should provide for contractors to submit, by the end of the phase, priced proposals, totally funded by the Government, for full-scale development. The contracting officer should provide contractors with operational test conditions, performance criteria, life cycle cost factors, and any other selection criteria necessary for the contractors to prepare their proposals.

34.005-5 Full-scale development contracts.

Whenever practicable, the full-scale development contracts should provide for the contractors to submit priced proposals for production that are based on the latest quantity, schedule, and logistics requirements and other considerations that will be used in making the production decision.

34.005-6 Full production.

Contracts for full production of successfully tested major systems selected from the full-scale development phase may be awarded if the agency head (a) reaffirms the mission need and program objectives and (b) grants approval to proceed with production.

PART 35—RESEARCH AND DEVELOPMENT CONTRACTING

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

35.000 Scope of part.

(a) This part prescribes policies and procedures of special application to

research and development (R&D) contracting.

(b) R&D integral to acquisition of major systems is covered in Part 34. Independent research and development (IR&D) is covered at 31.205-18.

35.001 Definitions.

"Applied research" means the effort that (a) normally follows basic research, but may not be severable from the related basic research; (b) attempts to determine and exploit the potential of scientific discoveries or improvements in technology, materials, processes, methods, devices, or techniques; and (c) attempts to advance the state of the art. When being used by contractors in cost principle applications, this term does not include efforts whose principal aim is the design, development, or testing of specific items or services to be considered for sale; these efforts are within the definition of "development," given below.

"Basic research" means research directed toward increasing knowledge in science. The primary aim of basic research is a fuller knowledge or understanding of the subject under study, rather than any practical application of that knowledge.

"Cost sharing," as used in this part, means an explicit arrangement under which the contractor bears some of the burden of reasonable, allocable, and allowable contract cost.

"Development," as used in this part, means the systematic use of scientific and technical knowledge in the design, development, testing, or evaluation of a potential new product or service (or of an improvement in an existing product or service) to meet specific performance requirements or objectives. It includes the functions of design engineering, prototyping, and engineering testing; it excludes subcontracted technical effort that is for the sole purpose of developing an additional source for an existing product.

"Recoupment," as used in this part, means the recovery by the Government of Government-funded nonrecurring costs from contractors that sell, lease, or license the resulting products or technology to buyers other than the Federal Government.

35.002 General.

The primary purpose of contracted R&D programs is to advance scientific and technical knowledge and apply that knowledge to the extent necessary to achieve agency and national goals. Unlike contracts for supplies and services, most R&D contracts are directed toward objectives for which the work or methods cannot be precisely described in advance. It is difficult to judge the probabilities of success or required effort for technical approaches, some of which offer little or no early assurance of full success. The contracting process shall be used to encourage the best sources from the scientific and industrial community to become involved in the program and must provide an environment in which the work can be pursued with reasonable flexibility and minimum administrative burden.

35.003 Policy.

(a) *Use of contracts.* Contracts shall be used only when the principal purpose is the acquisition of supplies or services for the direct benefit or use of the Federal Government. Grants or cooperative agreements should be used when the principal purpose of the transaction is to stimulate or support research and development for another public purpose.

(b) *Cost sharing.* Cost sharing policies (which are not otherwise required by law) under Government contracts shall be in accordance with 16.303, 42.707(a) and agency procedures.

(c) *Recoupment.* Recoupment not otherwise required by law shall be in accordance with agency procedures.

35.004 Publicizing requirements and expanding research and development sources.

(a) In order to obtain a broad base of the best contractor sources from the the scientific and industrial community, agencies shall, in addition to following the requirements of Part 5, continually search for and develop information on sources (including small business concerns) competent to perform R&D work. These efforts should include—

(1) Early identification and publication of agency R&D needs and requirements, including publication in the *Commerce Business Daily* (see Part 5);

(2) Cooperation among technical personnel, contracting officers, and Government small business personnel early in the acquisition process; and

(3) Providing agency R&D points of contact for potential sources.

(b) See Subpart 9.7 for information regarding R&D pools and Subpart 9.6 for teaming arrangements.

35.005 Work statement.

(a) A clear and complete work statement concerning the area of exploration (for basic research) or the end objectives (for development and applied research) is essential. The work statement should allow contractors freedom to exercise innovation and creativity. Work statements must be individually tailored by technical and contracting personnel to attain the desired degree of flexibility for contractor creativity and the objectives of the R&D.

(b) In basic research the emphasis is on achieving specified objectives and knowledge rather than on achieving predetermined end results prescribed in a statement of specific performance characteristics. This emphasis applies particularly during the early or conceptual phases of the R&D effort.

(c) In reviewing work statements, contracting officers should ensure that language suitable for a level-of-effort approach, which requires the furnishing of technical effort and a report on the results, is not intermingled with language suitable for a task-completion approach, which often requires the development of a tangible end item designed to achieve specific performance characteristics. The wording of the work statement should also be consistent with the type and form of contract to be negotiated (see 16.207 and 16.306(d)). For example, the work statement for a cost-reimbursement contract promising the contractor's best efforts for a fixed term would be phrased differently than a work statement for a cost-reimbursement completion contract promising the contractor's best efforts for a defined task. Differences between work statements for fixed-price contracts and cost-reimbursement contracts should be even clearer.

(d) In preparing work statements, technical and contracting personnel shall consider and, as appropriate, provide in the solicitation—

(1) A statement of the area of exploration, tasks to be performed, and objectives of the research or development effort;

(2) Background information helpful to a clear understanding of the objective or requirement (e.g., any known phenomena, techniques, methodology, or results of related work);

(3) Information on factors such as personnel, environment, and interfaces that may constrain the results of the effort;

(4) Reporting requirements and information on any additional items that the contractor is required to furnish (at specified intervals) as the work progresses;

(5) The type and form of contract contemplated by the Government and, for level-of-effort work statements, an estimate of applicable professional and technical effort involved; and

(6) Any other considerations peculiar to the work to be performed; for example, any design-to-cost requirements.

35.006 Contracting methods and contract type.

(a) In R&D acquisitions, the precise specifications necessary for formal advertising are generally not available, thus making negotiation necessary (see 15.205 and 15.211). However, the use of negotiation in R&D contracting does not change the obligation to obtain competition to the maximum practicable extent.

(b) Selecting the appropriate contract type is the responsibility of the contracting officer. However, because of the importance of technical considerations in R&D, the choice of contract type should be made after obtaining the recommendations of technical personnel. Although the Government ordinarily prefers fixed-price arrangements in contracting, this preference applies in R&D contracting only to the extent that goals, objectives, specifications, and cost estimates are sufficient to permit such a preference. The precision with which the goals, performance objectives, and specifications for the work can be defined will largely determine the type of contract employed. The contract type must be selected to fit the work required.

(c) Because the absence of precise specifications and difficulties in estimating costs with accuracy (resulting in a lack of confidence in cost estimates) normally precludes using fixed-price contracting for R&D, the use of cost-reimbursement contracts is usually appropriate (see Subpart 16.3). The nature of development work often requires a cost-reimbursement completion arrangement [see 16.306(d)]. When the use of cost and performance incentives is desirable and practicable, fixed-price incentive and cost-plus-incentive-fee contracts should be considered in that order of preference.

(d) When levels of effort *can* be specified in advance, a short-duration fixed-price contract *may* be useful for developing system design concepts, resolving potential problems, and reducing Government risks. Fixed-price contracting may also be used in minor projects when the objectives of the research are well defined and there is sufficient confidence in the cost estimate for price negotiations. (See 16.207.)

(e) Projects having production requirements as a follow-on to R&D efforts normally should progress from cost-reimbursement contracts to fixed-price contracts as designs become more firmly established, risks are reduced, and production tooling, equipment, and processes are developed and proven. When possible, a final commitment to undertake specific product development and testing should be avoided until (1) preliminary exploration and studies have indicated a high degree of probability that development is feasible and (2) the Government has determined both its minimum requirements and desired objectives for product performance and schedule completion.

35.007 Solicitations.

(a) The submission and subsequent evaluation of an inordinate number of R&D proposals from sources lacking appropriate qualifications is costly and time-consuming to both industry and the Government. Therefore, contracting officers should initially distribute solicitations only to sources technically qualified to perform research or development in the specific field of science or technology involved. Cognizant technical personnel should recommend potential sources that appear qualified, as a result of—

(1) Present and past performance of similar work;

(2) Professional stature and reputation;

(3) Relative position in a particular field of endeavor;

(4) Ability to acquire and retain the professional and technical capability, including facilities, required to perform the work; and

(5) Other relevant factors.

(b) Proposals generally shall be solicited from technically qualified sources, including sources that become known as a result of synopses or other means of publicizing requirements. If it is not practicable to initially solicit all apparently qualified sources, only a reasonable number need be solicited. In the interest of competition, contracting officers shall furnish copies of the solicitation to other apparently qualified sources.

(c) Solicitations shall require offerors to describe their technical and management approach, identify technical uncertainties, and make specific proposals for the resolution of any uncertainties. The solicitation should require offerors to include in the proposal any planned subcontracting of scientific or technical work (see 35.009).

(d) Solicitations may require that proposals be organized so that the technical portions can be efficiently evaluated by technical personnel (see 15.406-5(b)). Solicitation and evaluation of proposals should be planned to minimize offerors' and Government expense.

(e) R&D solicitations should contain evaluation factors to be used to determine the most technically competent (see 15.605(e)), such as—

(1) The offeror's understanding of the scope of the work;

(2) The approach proposed to accomplish the scientific and technical objectives of the contract or the merit of the ideas or concepts proposed;

(3) The availability and competence of experienced engineering, scientific, or other technical personnel;

(4) The offeror's experience;

(5) Pertinent novel ideas in the specific branch of science and technology involved; and

(6) The availability, from any source, of necessary research, test, laboratory, or shop facilities.

(f) In addition to evaluation factors for technical competence, the contracting officer shall consider, as appropriate, management capability (including cost management techniques), experience and past performance, subcontracting practices, and any other significant evaluation criteria (e.g., unrealistically low cost estimates in proposals for cost-reimbursement or fixed-price incentive contracts). Although cost or price is not normally the controlling factor in selecting a contractor to perform R&D, it should not be disregarded in arriving at a selection that best satisfies the Government's requirement at a fair and reasonable cost.

(g) The contracting officer should ensure that each prospective offeror fully understands the details of the work, especially the Government interpretation of the work statement. If the effort is complex, the contracting officer should provide prospective offerors an opportunity to comment on the details of the requirements as contained in the work statement, the contract Schedule, and any related specifications. This may be done through the use of preproposal conferences (see 15.409).

(h) If it is appropriate to do so, solicitations should permit offerors to propose an alternative contract type (see 16.103).

(i) In circumstances when a concern has a new idea or product to discuss that incorporates the results of independent R&D work funded by the concern in the private sector and is of interest to the Government, there should be no hesitancy to discuss it; however, the concern should be warned that the Government will not be obligated by the discussion. Under such circumstances, it may be appropriate to negotiate directly

with the concern without competition. Also see Subpart 15.5 concerning unsolicited proposals.

(j) The Government may issue an exploratory request to determine the existence of ideas or prior work in a specific field of research. Any such request shall clearly state that it does not impose any obligation on the Government or signify a firm intention to enter into a contract.

35.008 Evaluation for award.

(a) Generally, an R&D contract should be awarded to that organization, including any educational institution, that proposes the best ideas or concepts and has the highest competence in the specific field of science or technology involved. However, an award should not be made to obtain capabilities that exceed those needed for successful performance of the work.

(b) In R&D contracting, precise specifications are ordinarily not available. The contracting officer should therefore take special care in reviewing the solicitation evaluation factors to assure that they are properly presented and consistent with the solicitation.

(c) When a small business concern would otherwise be selected for award but is considered not responsible, the SBA Certificate of Competency procedure shall be followed (see Subpart 19.6).

(d) The contracting officer should use the procedures in Subpart 15.10 to notify and debrief offerors.

(e) It is important to evaluate a proposed contractor's cost or price estimate, not only to determine whether the estimate is reasonable but also to provide valuable insight into the offeror's understanding of the project, perception of risks, and ability to organize and perform the work. Cost or price analysis, as appropriate (see 15.805), is a useful tool.

35.009 Subcontracting research and development effort.

Since the selection of R&D contractors is substantially based on the best scientific and technological sources, it is important that the contractor not subcontract technical or scientific work without the contracting officer's advance knowledge. During the negotiation of a cost-reimbursement R&D contract, the contracting officer shall obtain complete information concerning the contractor's plans for subcontracting any portion of the experimental, research, or development effort (see also 35.007(c)). Also when negotiating a fixed-price contract, the contracting officer should evaluate this information and may obtain an agreement that protects the Government's interests. The clause at 52.244-2, Subcontracts Under Cost-Reimbursement and Letter Contracts, prescribed for cost-reimbursement contracts at 44.204(c), requires the contracting officer's prior approval for the placement of a substantial cost-reimbursement subcontract that has experimental, developmental, or research work as one of its purposes.

35.010 Scientific and technical reports.

(a) R&D contracts shall require contractors to furnish scientific and technical reports, consistent with the objectives of the effort involved, as a permanent record of the work accomplished under the contract.

(b) Agencies should make R&D contract results available to other Government activities and the private sector. Contracting officers shall follow agency regulations regarding such matters as national security, protection of data, and new-technology dissemination policy. The contract should require that contractors send copies of scientific and technical reports to a specified address (ordinarily, the Defense Technical Information Center, Attn: DTIC, Cameron Station, Alexandria, VA 22314, or the National Technical Information Service (303Y), Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161). These activities provide a central service for the interchange of scientific and technical information. When agencies require that completed reports be covered by a report documentation page, the contractor should submit a copy with the report.

35.011 Data.

(a) R&D contracts shall specify the technical data to be delivered under the contract, since the data clauses required by Part 27 do not require the *delivery* of any such data.

(b) In planning a developmental program when subsequent production contracts are contemplated, consideration should be given to the need and time required to obtain a technical package (plans, drawings, specifications, and other descriptive information) that can be used to achieve competition in production contracts. In some situations, the developmental contractor may be in the best position to produce such a technical package.

35.012 Patent rights.

For a discussion of patent rights, see agency regulations and Part 27.

35.013 Insurance.

Nonprofit, educational, or State institutions performing cost-reimbursement contracts often do no carry insurance. They may claim immunity from liability for torts, or, as State institutions, they may be prohibited by State law from expending funds for insurance. When this is the case, see 28.311 for appropriate clause coverage.

35.014 Government property and title.

(a) The requirements in Part 45 for establishing and maintaining control over Government property apply to all R&D contracts.

(b) In implementing 41 U.S.C. 506, and unless an agency head provides otherwise, the policies in subparagraphs (1) through (4) following, regarding title to equipment (and other tangible personal property) purchased by the contractor using Government funds provided for the conduct of basic or applied scientific research, apply to contracts with nonprofit institutions of higher education and nonprofit organizations whose primary purpose is the conduct of scientific research:

(1) If the contractor obtains the contracting officer's advance approval, the contractor shall automatically acquire and retain title to any item of equipment costing less than $5,000 (or a lesser amount established by agency regulations) acquired on a reimbursable basis.

(2) If purchased equipment costs $5,000 (or a lesser amount established by agency regulations) or more, and as the parties specifically agree in the contract, title may—

(i) Vest in the contractor upon acquisition without further obligation to the Government;

(ii) Vest in the contractor, subject to the Government's right to direct transfer of the title to the Government or to a third party within 12 months after the contract's completion or termination (transfer of title to the Government or third party shall not be the basis for any claim by the contractor); or

(iii) Vest in the Government, if the contracting officer determines that vesting of title in the contractor would not further the objectives of the agency's research program.

(3) If title to equipment is vested in the contractor, depreciation, amortization, or use charges are not allowable with respect to that equipment under any existing or future Government contract or subcontract.

(4) If the contract is performed at a Government installation and there is a continuing need for the equipment

following contract completion, title need not be transferred to the contractor.

(c) (1) Vesting title under paragraph (b) above is subject to civil rights legislation, 42 U.S.C. 2000d. Before title is vested, the contractor must agree that—

"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under this contemplated financial assistance (title to equipment)."

(2) By signing the contract, the contractor accepts and agrees to comply with this requirement.

(d) The policies in subparagraphs (b)(1) through (b)(3) and paragraph (c) above are implemented in the Government property clauses (Alternate II of the clause at 52.245-2, Government Property (Fixed-Price); Alternate I of the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts); Alternate I of the clause at 52.245-11, Government Property (Facilities Use); and the clause at 52.245-15, Transfer of Title to the Facilities), which are prescribed in Part 45 (at 45.106 for fixed-price and cost-reimbursement contracts and at 45.302-6 and 45.302-7 for facilities contracts).

(e) The absence of an agreement covering title to equipment acquired by the contractor with Government funds that cost $1,000 or more does not limit an agency's right to act to vest title in a contractor as authorized by 41 U.S.C. 506.

35.015 Contracts for research with educational institutions and nonprofit organizations.

(a) *General.* (1) When the R&D work is not defined precisely and the contract states only a period during which work is conducted (that is, a specific time for achievement of results is not required), research contracts with educational institutions and nonprofit organizations shall—

(i) State that the contractor bears primary responsibility for the research;

(ii) Give (A) the name of the principal investigator (or project leader), if the decision to contract is based on that particular individual's research effort and management capabilities, and (B) the contractor's estimate of the amount of time that individual will devote to the work;

(iii) Provide that the named individual shall be closely involved and continuously responsible for the conduct of the work;

(iv) Provide that the contractor must obtain the contracting officer's approval to change the principal investigator (or project leader);

(v) Require that the contractor advise the contracting officer if the principal investigator (or project leader) will, or plans to, devote substantially less effort to the work than anticipated; and

(vi) Require that the contractor obtain the contracting officer's approval to change the phenomenon under study, the stated objectives of the research, or the methodology.

(2) If a research contract *does* provide precise objectives or a specific date for achievement of results, the contracting officer may include in the contract the requirements set forth in subparagraph (1) above, if it is necessary for the Government to exercise oversight and approval over the avenues of approach, methods, or schedule of work.

(b) *Basic agreements.* (1) A basic agreement should be negotiated if the number of contracts warrants such an agreement (see 16.702). Basic agreements should be reviewed and updated at least annually.

(2) To promote uniformity and consistency in dealing with educational institutions and nonprofit organizations, agencies are encouraged to use basic agreements of other agencies.

(3) Each year as of September 30, each agency shall furnish to the FAR Secretariat a list of its basic agreements pertaining to R&D. The FAR Secretariat shall be responsible for preparing and publishing a list of all these agreements.

PART 36—CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS

Sec.

SUBPART 36.7—STANDARD FORMS FOR CONTRACTING FOR CONSTRUCTION, ARCHITECT-ENGINEER SERVICES, AND DISMANTLING, DEMOLITION, OR REMOVAL OF IMPROVEMENTS

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

36.000 Scope of part.

This part prescribes policies and procedures peculiar to contracting for construction and architect-engineer services. It includes requirements for using certain clauses and standard forms that apply also to contracts for dismantling, demolition, or removal of improvements.

SUBPART 36.1—GENERAL

36.101 Applicability.

(a) Construction and architect-engineer contracts are subject to the requirements in other parts of this regulation, which shall be followed when applicable.

(b) When a requirement in this part is inconsistent with a requirement in another part of this regulation, this Part 36 shall take precedence if the acquisition of construction or architect-engineer services is involved.

(c) A contract for both construction and supplies or services shall include (1) clauses applicable to the predominant part of the work (see Subpart 22.4), or (2) if the contract is divided into parts, the clauses applicable to each portion.

36.102 Definitions.

"As-built drawings," see record drawings.

"Construction" means construction, alteration, or repair (including dredging, excavating, and painting) of buildings, structures, or other real property. For purposes of this definition, the terms "buildings, structures, or other real property" include but are not limited to improvements of all types, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, cemeteries, pumping stations, railways, airport facilities, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, canals, and channels. Construction does not include the manufacture, production, furnishing, construction, alteration, repair, processing, or assembling of vessels, aircraft, or other kinds of personal property.

"Contract," as used in this part, is intended to refer to a contract for construction or a contract for architect-engineer services, unless another meaning is clearly intended.

"Firm," as used in this part in conjunction with architect-engineer services, means any individual, partnership, corporation, association, or other legal entity permitted by law to practice the professions of architecture or engineering.

"Plans and specifications," as used in this part, means drawings, specifications, and other data for and preliminary to the construction.

"Record drawings," as used in this part, means drawings submitted by a contractor or subcontractor at any tier to show the construction of a particular structure or work as actually completed under the contract.

"Shop drawings," as used in this part, means drawings submitted by the construction contractor or a subcontractor at any tier or required under a construction contract, showing in detail (1) the proposed fabrication and assembly of structural elements, (2) the installation (i.e., form, fit, and attachment details) of materials or equipment, or (3) both.

36.103 Methods of contracting.

(a) Contracting officers shall acquire construction by formal advertising when it is feasible and practicable under the circumstances. Permissible exceptions include overseas construction, construction of a classified or experimental nature, and other types of construction when authorized in accordance with law.

(b) Contracting officers shall acquire architect-engineer services by negotiation, and select sources in accordance with applicable law, Subpart 36.6, and agency regulations.

SUBPART 36.2—SPECIAL ASPECTS OF CONTRACTING FOR CONSTRUCTION

36.201 Evaluation of contractor performance.

(a) *Preparation of performance evaluation reports.* (1) The contracting activity shall evaluate contractor performance and prepare a performance report for each construction contract of—

(i) $500,000 or more;

(ii) $100,000 or more, if any element of performance was either unsatisfactory or outstanding;

(iii) More than $10,000, if the contract was terminated for default; or

(iv) $100,000 or more, if the contract was terminated for the convenience of the Government.

(2) The report shall be prepared at the time of final acceptance of the work, at the time of contract termination, or at other times, as appropriate, in accordance with agency procedures. Ordinarily, the evaluating official who prepares the report should be the person responsible for monitoring contract performance.

(3) If the evaluating official concludes that a contractor's overall performance was unsatisfactory, the contractor shall be advised in writing that a report of unsatisfactory performance is being prepared and the basis for the report. If the contractor submits any written comments, the evaluating official shall include them in the report, resolve any alleged factual discrepancies, and make appropriate changes in the report.

(4) The head of the contracting activity shall establish procedures which ensure that fully qualified personnel prepare and review performance reports.

(b) *Review of performance reports.* Each performance report shall be reviewed to ensure that it is accurate and fair. The reviewing official should have knowledge of the contractor's performance and should normally be at an organizational level above that of the evaluating official.

(c) *Distribution and use of performance reports.* (1) Each performance report shall be distributed in accordance with agency procedures. One copy shall be included in the contract file. The contracting activity shall retain the report for at least six years after the date of the report.

(2) Before making a determination of responsibility in accordance with Subpart 9.1, the contracting officer may consider performance reports in accordance with agency instructions.

36.202 Specifications.

(a) Construction specifications shall conform to the requirements in Part 10 of this regulation.

(b) Whenever possible, contracting officers shall ensure that references in specifications are to widely recognized standards or specifications promulgated by governments, industries, or technical societies.

(c) When "brand name or equal" descriptions are necessary,

specifications must clearly identify and describe the particular physical, functional, or other characteristics of the brand-name items which are considered essential to satisfying the requirement.

36.203 Government estimate of construction costs.

(a) An independent Government estimate of construction costs shall be prepared and furnished to the contracting officer at the earliest practicable time for each proposed contract and for each contract modification anticipated to cost $25,000 or more. The contracting officer may require an estimate when the cost of required work is anticipated to be less than $25,000. The estimate shall be prepared in as much detail as though the Government were competing for award.

(b) When two-step formal advertising is used, the independent Government estimate shall be prepared when the contract requirements are definitized.

(c) Access to information concerning the Government estimate shall be limited to Government personnel whose official duties require knowledge of the estimate. An exception to this rule may be made during contract negotiations to allow the contracting officer to identify a specialized task and disclose the associated cost breakdown figures in the Government estimate, but only to the extent deemed necessary to arrive at a fair and reasonable price. The overall amount of the Government's estimate shall not be disclosed except as permitted by agency regulations.

36.204 Disclosure of the magnitude of construction projects.

Advance notices and solicitations shall state the magnitude of the requirement in terms of physical characteristics and estimated price range. In no event shall the statement of magnitude disclose the Government's estimate. Therefore, the estimated price should be described in terms of one of the following price ranges:

(a) Less than $25,000.

(b) Between $25,000 and $100,000.

(c) Between $100,000 and $250,000.

(d) Between $250,000 and $500,000.

(e) Between $500,000 and $1,000,000.

(f) Between $1,000,000 and $5,000,000.

(g) Between $5,000,000 and $10,000,000.

(h) More than $10,000,000.

36.205 Statutory cost limitations.

(a) Contracts for construction shall not be awarded at a cost to the Government—

(1) In excess of statutory cost limitations, unless applicable limitations can be and are waived in writing for the particular contract; or

(2) Which, with allowances for Government-imposed contingencies and overhead, exceeds the statutory authorization.

(b) Solicitations (both invitations for bids and requests for proposals) containing one or more items subject to statutory cost limitations shall state (1) the applicable cost limitation for each affected item in a separate schedule; (2) that an offer which does not contain separately-priced schedules will not be considered; and (3) that offers must contain a certification that the price on each schedule includes an approximate apportionment of all estimated direct costs, allocable indirect costs, and profit.

(c) The Government shall reject an offer if its prices exceed applicable statutory limitations, unless laws or agency procedures provide pertinent exemptions. However, if it is in the Government's interest, the contracting officer may include a provision in the solicitation which permits the award of separate contracts for individual items whose prices are within or not subject to applicable statutory limitations.

(d) The Government shall also reject an offer if its prices are within statutory limitations only because it is materially unbalanced. An offer is unbalanced if its prices are significantly less than cost for some work, and overstated for other work.

36.206 Liquidated damages.

The contracting officer shall evaluate the need for liquidated damages in a construction contract in accordance with 12.202 and agency regulations.

36.207 Pricing fixed-price construction contracts.

(a) Generally, firm-fixed-price contracts shall be used to acquire construction. They may be priced (1) on a lump-sum basis (when a lump sum is paid for the total work or defined parts of the work), (2) on a unit-price basis (when a unit price is paid for a specified quantity of work units), or (3) using a combination of the two methods.

(b) Lump-sum pricing shall be used in preference to unit pricing except when—

(1) Large quantities of work such as grading, paving, building outside utilities, or site preparation are involved;

(2) Quantities of work, such as excavation, cannot be estimated with sufficient confidence to permit a lump-sum offer without a substantial contingency;

(3) Estimated quantities of work required may change significantly during construction; or

(4) Offerors would have to expend unusual effort to develop adequate estimates.

(c) Fixed-price contracts with economic price adjustment may be used if such a provision is customary in contracts for the type of work being acquired, or when omission of an adjustment provision would preclude a significant number of firms from submitting offers or would result in offerors including unwarranted contingencies in proposed prices.

36.208 Concurrent performance of firm-fixed-price and other types of construction contracts.

In view of potential labor and administrative problems, cost-plus-fixed-fee, price-incentive, or other types of contracts with cost variation or cost adjustment features shall not be permitted concurrently, at the same work site, with firm-fixed-price, lump sum, or unit price contracts except with the prior approval of the head of the contracting activity.

36.209 Construction contracts with architect-engineer firms.

No contract for the construction of a project shall be awarded to the firm that designed the project or its subsidiaries or affiliates, except with the approval of the head of the agency or authorized representative.

36.210 Inspection of site and examination of data.

The contracting officer should make appropriate arrangements for prospective offerors to inspect the work site and to have the opportunity to examine data available to the Government which may provide information concerning the performance of the work, such as boring samples, original boring logs, and records and plans of previous construction. The data should be assembled in one place and made available for examination. The solicitation should notify offerors of the time and place for the site inspection and data examination. If it is not feasible for offerors to inspect the site or examine the data on their own, the solicitation should also designate an individual who will show the site or data to the offerors. Significant site information and the data should be made available to all offerors in the same manner, including information regarding any utilities to be furnished during construction. A record should be kept of the identity and affiliation of all offerors' representatives who inspect the site or examine the data.

36.211 Distribution of advance notices and solicitations.

Advance notices and solicitations should be distributed to reach as many prospective offerors as practicable. Contracting officers may send notices and solicitations to organizations that maintain, without charge to the public, display rooms for the benefit of prospective offerors, subcontractors, and material suppliers. If requested by such organizations, this may be done for all or a stated class of construction projects on an annual or semiannual basis. Contracting officers may determine the geographical extent of distribution of advance notices and solicitations on a case-by-case basis.

SUBPART 36.3—SPECIAL ASPECTS OF FORMAL ADVERTISING IN CONSTRUCTION CONTRACTING

36.301 General.

Contracting officers shall follow the procedures for formal advertising in Part 14, as modified and supplemented by the requirements in this subpart.

36.302 Presolicitation notices.

(a) Unless the requirement is waived by the head of the contracting activity or a designee, the contracting officer shall send presolicitation notices to prospective bidders on any construction requirement when the proposed contract is expected to equal or exceed $100,000. Presolicitation notices may also be used when the proposed contract is expected to be less than $100,000. These notices shall be issued sufficiently in advance of the invitation for bids to stimulate the interest of the greatest number of prospective bidders.

(b) Presolicitation notices shall—

(1) Describe the proposed work in sufficient detail to disclose the nature and volume of work (in terms of physical characteristics and estimated price range);

(2) State the location of the work;

(3) Include tentative dates for issuing invitations, opening bids, and completing contract performance;

(4) State where plans will be available for inspection without charge;

(5) Specify a date by which requests for the invitation for bids should be submitted;

(6) Notify recipients that if they do not submit a bid they should advise the issuing office as to whether they want to receive future preinvitation notices;

(7) State whether award is restricted to small businesses; and

(8) Specify any amount to be charged for solicitation documents.

36.303 Invitations for bids.

(a) Invitations for bids for construction shall allow sufficient time for bid preparation (i.e., the period of time between the date invitations are distributed and the date set for opening of bids) to allow bidders an adequate opportunity to prepare and submit their bids, giving due regard to the construction season and the time necessary for bidders to inspect the site, obtain subcontract bids, examine data concerning the work, and prepare estimates based on plans and specifications.

(b) Invitations for bids shall be prepared in accordance with Subpart 14.2 and this section using the forms prescribed in Part 53.

(c) Contracting officers should assure that each invitation for bids includes the following information, when applicable:

(1) The appropriate wage determination of the Secretary of Labor (see Subpart 22.4), or, if the invitation for bids must be issued before the wage determination is received, a notice that the schedule of minimum wage rates to be paid under the contract will be issued as an amendment to the invitation for bids before the opening date for bids (see 14.208 and 22.404-3(b)).

(2) The Performance of Work by the Contractor clause (see 36.501 and 52.236-1).

(3) The magnitude of the proposed construction project (see 36.204).

(4) The period of performance (see Subpart 12.1).

(5) Arrangements made for bidders to inspect the site and examine the data concerning performance of the work (see 36.210).

(6) Information concerning any facilities, such as utilities, office space, and warehouse space, to be furnished during construction.

(7) Information concerning the prebid conference (see 14.207).

(8) Any special qualifications or experience requirements that will be considered in determining the responsibility of bidders (see Subpart 9.1).

(9) Any special instructions concerning bids, alternate bids, and award.

(10) Any instructions concerning reporting requirements.

(d) The contracting officer shall send invitations for bids to prospective bidders who requested them in response to the preinvitation notice, and should send them to other prospective bidders upon their specific request (see 14.205 and 5.102(a)).

36.304 Notice of award.

When a notice of award is issued, it shall contain information required by 14.407 and shall—

(a) Identify the invitation for bids;

(b) Identify the contractor's bid;

(c) State the award price;

(d) Advise the contractor that any required payment and performance bonds must be promptly executed and returned to the contracting officer;

(e) Specify the date of commencement of work, or advise that a notice to proceed will be issued.

36.305 Preconstruction conference.

The contracting officer shall conduct a preconstruction conference to inform the contractor concerning the labor standards clauses of the contract, when appropriate in accordance with 22.405-1(b).

SUBPART 36.4—SPECIAL PROCEDURES FOR NEGOTIATION OF CONSTRUCTION CONTRACTS

36.401 Use of negotiated contracts.

(a) *Construction in the United States.* (1) Agencies covered by 41 U.S.C. 252(c) may negotiate for construction to be performed in the continental United States (49 States on the North American Continent and the District of Columbia) only if authorized under sections (c)(1), (2), (3), (10), (11), (12), or (14). (See Subpart 15.2, "Negotiation Authorities," and 41 U.S.C. 252(e)). The appropriate statutory authority for negotiation shall be cited in the contract.

(2) Agencies covered by 10 U.S.C. 2304 may negotiate for construction to be performed in the United States, its possessions, and Puerto Rico only if authorized under subsection (1), (2), (3), (10), (11), (12), or (15) of 10 U.S.C. 2304(a), or subsection (17) for contracts with the Small Business Administration. (See Subpart 15.2, "Negotiation Authorities.") The appropriate statutory authority for negotiation shall be cited in the contract.

(b) *Construction outside the United States.* (1) Agencies covered by 41 U.S.C. 252(c) shall negotiate for construction to be performed outside the continental United States, unless formal advertising is authorized by agency regulations. Negotiated contracts shall include a citation of the statutory authority for their negotiation. Contracts to be performed in Hawaii, Puerto Rico, or any possession of the United States may not be negotiated under 41 U.S.C. 252(c)(6).

(2) Agencies covered by 10 U.S.C. 2304 shall negotiate for construction to be performed outside the United States, its

possessions, or Puerto Rico, unless formal advertising is authorized by agency regulations. Negotiated contracts shall include a citation of the statutory authority for their negotiation.

(c) *Small purchases.* Construction contracts that are within the dollar thresholds for small purchases may be negotiated in accordance with 41 U.S.C. 252(c)(3) or 10 U.S.C. 2304(a)(3). (See 15.203, Purchases under the small purchase limitation, and Part 13, Small Purchases and Other Simplified Purchase Procedures.)

36.402 Price negotiation

(a) Agencies shall follow the policies and procedures in Part 15 when negotiating prices for construction.

(b) The contracting officer shall evaluate proposals and associated cost or pricing data and shall compare them to the Government estimate.

(1) When any element of a proposal differs significantly from the Government estimate, the contracting officer should request the offeror to submit cost or pricing data concerning that element (e.g., wage rates or fringe benefits, significant materials, equipment allowances, and subcontractor costs).

(2) When a proposed price is significantly lower than the Government estimate, the contracting officer shall make sure both the offeror and the Government estimator completely understand the scope of the work. If negotiations reveal errors in the Government estimate, the estimate shall be corrected and the changes shall be documented in the contract file.

(c) When appropriate, additional pricing tools may be used. For example, proposed prices may be compared to current prices for similar types of work, adjusted for differences in the work site and the specifications. Also, rough yardsticks may be developed and used, such as cost per cubic foot for structures, cost per linear foot for utilities, and cost per cubic yard for excavation or concrete.

36.403 Cost-reimbursement contracts.

Contracting officers may use a cost-reimbursement contract to acquire construction only when its use is consistent with Subpart 16.3 and Part 15 (see 15.903(d)(1)(iii) for fee limitation on cost-reimbursement contracts).

SUBPART 36.5—CONTRACT CLAUSES

36.500 Scope of subpart.

This subpart prescribes clauses for insertion in solicitations and contracts for (a) construction and (b) dismantling, demolition, or removal of improvements contracts. Provisions and clauses prescribed elsewhere in the Federal Acquisition Regulation (FAR) shall also be used in such solicitations and contracts when the conditions specified in the prescriptions for the provisions and clauses are applicable.

36.501 Performance of work by the contractor.

(a) To assure adequate interest in and supervision of all work involved in larger projects, the contractor shall be required to perform a significant part of the contract work with its own forces. The contract shall express this requirement in terms of a percentage that reflects the minimum amount of work the contractor must perform with its own forces. This percentage is (1) as high as the contracting officer considers appropriate for the project, consistent with customary or necessary specialty subcontracting and the complexity and magnitude of the work, and (2) ordinarily not less than 12 percent unless a greater percentage is required by law or agency regulation. Specialties such as plumbing, heating, and electrical work are usually subcontracted, and should not normally be considered in establishing the amount of work required to be performed by the contractor.

(b) The contracting officer shall insert the clause at 52.236-1, Performance of Work by the Contractor, in solicitations and contracts when a fixed-price construction contract is contemplated and the contract amount is expected to exceed $1,000,000. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction contract is contemplated and the contract amount is expected to be $1,000,000 or less.

36.502 Differing site conditions.

The contracting officer shall insert the clause at 52.236-2, Differing Site Conditions, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.503 Site investigation and conditions affecting the work.

The contracting officer shall insert the clause at 52.236-3, Site Investigation and Conditions Affecting the Work, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.504 Physical data.

The contracting officer shall insert the clause at 52.236-4, Physical Data, in solicitations and contracts when a fixed-price construction contract is contemplated and physical data (e.g., test borings, hydrographic data, weather conditions data) will be furnished or made available to offerors.

36.505 Material and workmanship.

The contracting officer shall insert the clause at 52.236-5, Material and Workmanship, in solicitations and contracts when a fixed-price construction contract is contemplated.

36.506 Superintendence by the contractor.

The contracting officer shall insert the clause at 52.236-6, Superintendence by the Contractor, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.507 Permits and responsibilities.

The contracting officer shall insert the clause at 52.236-7, Permits and Responsibilities, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements is contemplated.

36.508 Other contracts.

The contracting officer shall insert the clause at 52.236-8, Other Contracts, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.509 Protection of existing vegetation, structures, equipment, utilities, and improvements.

The contracting officer shall insert the clause at 52.236-9, Protection of Existing Vegetation, Structures, Equipment, Utilities, and Improvements, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.510 Operations and storage areas.

The contracting officer shall insert the clause at 52.236-10, Operations and Storage Areas, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.511 Use and possession prior to completion.

The contracting officer shall insert the clause at 52.236-11, Use and Possession Prior to Completion, in solicitations and contracts when a fixed-price construction contract is contemplated and the contract award amount is expected to exceed the small purchase limitations. This clause may be inserted in solicitations and contracts when the contract amount is expected to be within the small purchase limitations.

36.512 Cleaning up.

The contracting officer shall insert the clause at 52.236-12, Cleaning Up, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.513 Accident prevention.

The contracting officer shall insert the clause at 52.236-13, Accident Prevention, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation. If the contract will involve work of a long duration or hazardous nature, the contracting officer shall use the clause with its Alternate I.

36.514 Availability and use of utility services.

The contracting officer shall insert the clause at 52.236-14, Availability and Use of Utility Services, in solicitations and contract when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated, the contract is to be performed on Government sites, and the contracting officer decides (a) that the existing utility system(s) is adequate for the needs of both the Government and the contractor, and (b) furnishing it is in the Government's interest. When this clause is used, the contracting officer shall list the available utilities in the contract.

36.515 Schedules for construction contracts.

The contracting officer may insert the clause at 52.236-15, Schedules for Construction Contracts, in solicitations and contracts when a fixed-price construction contract is contemplated, the contract amount is expected to exceed the small purchase limitation and the period of actual work performance exceeds 60 days. This clause may also be inserted in such solicitations and contracts when work performance is expected to last less than 60 days and an unusual situation exists that warrants imposition of the requirements. This clause should not be used in the same contract with clauses covering other management approaches for ensuring that a contractor makes adequate progress.

36.516 Quantity surveys.

The contracting officer may insert the clause at 52.236-16, Quantity Surveys, in solicitations and contracts when a fixed-price construction contract providing for unit pricing of items and for payment based on quantity surveys is contemplated. If it is determined at a level above that of the contracting officer that it is impracticable for Government personnel to perform the original and final surveys, and the Government wishes the contractor to perform these surveys, the clause shall be used with its Alternate.

36.517 Layout of work.

The contracting officer shall insert the clause at 52.236-17, Layout of Work, in solicitations and contracts when a fixed-price construction contract is contemplated and use of this clause is appropriate due to a need for accurate work layout and for siting verification during work performance.

36.518 Work oversight in cost-reimbursement construction contracts.

The contracting officer shall insert the clause at 52.236-18, Work Oversight in Cost-Reimbursement Construction Contracts, in solicitations and contracts when a cost-reimbursement construction contract is contemplated.

36.519 Organization and direction of the work.

The contracting officer shall insert the clause at 52.236-19, Organization and Direction of the Work, in solicitations and contracts when a cost-reimbursement construction contract is contemplated.

36.520 Special requirements.

The contracting officer shall insert the clause at 52.236-20, Special Requirements, in solicitations and contracts when a cost-reimbursement construction contract is contemplated.

36.521 Specifications and drawings for constructions.

The contracting officer shall insert the clause at 52.236-21, Specifications and Drawings for Construction, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation. When the Government needs record drawings the contracting officer shall (a) use the clause with its Alternate I, if reproducible shop drawings are needed, or (b) use the clause with Alternate II, if reproducible shop drawings are not needed.

SUBPART 36.6—ARCHITECT-ENGINEER SERVICES

36.600 Scope of subpart.

This subpart prescribes policies and procedures applicable to the acquisition of architect-engineer services.

36.601 Policy.

The Government shall publicly announce all requirements for architect-engineer services, and negotiate contracts for these services based on the demonstrated competence and qualifications of prospective contractors to perform the services required at fair and reasonable prices. (See Pub. L. 92-582, 40 U.S.C. 541 et seq.) Sources for architect-engineer contracts shall be selected in accordance with the procedures in this subpart, rather than the formal advertising or source selection procedures prescribed in Parts 14 and 15 of this regulation.

36.602 Selection of firms for architect-engineer contracts.

36.602-1 Selection criteria.

(a) Agencies shall evaluate each potential contractor in terms of its—

(1) Professional qualifications necessary for satisfactory performance of required services;

(2) Specialized experience and technical competence in the type of work required;

(3) Capacity to accomplish the work in the required time;

(4) Past performance on contracts with Government agencies and private industry in terms of cost control, quality of work, and compliance with performance schedules;

(5) Location in the general geographical area of the project and knowledge of the locality of the project; *provided*, that application of this criterion leaves an appropriate number of qualified firms, given the nature and size of the project; and

(6) Acceptability under other appropriate evaluation criteria.

(b) When the use of design competition is approved by the agency head or a designee, agencies may evaluate firms on the basis of their conceptual design of the project. Design competition may be used when—

(1) Unique situations exist involving prestige projects, such as the design of memorials and structures of unusual national significance;

(2) Sufficient time is available for the production and evaluation of conceptual designs; and

(3) The design competition, with its costs, will substantially benefit the project.

36.602-2 Evaluation boards.

(a) When acquiring architect-engineer services, an agency shall provide for one or more permanent or ad hoc architect-engineer evaluation boards (which may include preselection boards when authorized by agency regulations) to be composed of members who, collectively, have experience in architecture, engineering, construction, and Government and related acquisition matters. Members shall be appointed from among highly qualified professional employees of the agency or other agencies, and if authorized by agency procedure, private practitioners of architecture, engineering, or related professions. One Government member of each board shall be designated as the chairperson.

(b) No firm shall be eligible for award of an architect-engineer contract during the period in which any of its principals or associates are participating as members of the awarding agency's evaluation board.

36.602-3 Evaluation board functions.

Under the general direction of the head of the contracting activity, an evaluation board shall perform the following functions:

(a) Review the current data files on eligible firms and responses to a public notice concerning the particular project (see 36.604).

(b) Evaluate the firms in accordance with the criteria in 36.602-1.

(c) Hold discussions with at least three of the most highly qualified firms regarding concepts and the relative utility of alternative methods of furnishing the required services, when the prospective architect-engineer contract is estimated to exceed $10,000. Architect-engineer fees shall not be considered in these discussions.

(d) Prepare a selection report for the agency head or other designated selection authority recommending, in order of preference, at least three firms that are considered to be the most highly qualified to perform the required services. The report shall include a description of the discussions and evaluation conducted by the board to allow the selection authority to review the considerations upon which the recommendations are based.

36.602-4 Selection authority.

(a) The final selection decision shall be made by the agency head or a designated selection authority.

(b) The selection authority shall review the recommendations of the evaluation board and shall, with the advice of appropriate technical and staff representatives, make the final selection. This final selection shall be a listing, in order of preference, of the firms considered most highly qualified to perform the work. If the firm listed as the most preferred is not the firm recommended as the most highly qualified by the evaluation board, the selection authority shall provide for the contract file a written explanation of the reason for the preference. All firms on the final selection list are considered "selected firms" with which the contracting officer may negotiate in accordance with 36.606.

(c) The selection authority shall not add firms to the selection report. If the firms recommended in the report are not deemed to be qualified or the report is considered inadequate for any reason, the selection authority shall record the reasons and return the report through channels to the evaluation board for appropriate revision.

(d) The board shall be promptly informed of the final selection.

36.602-5 Short selection processes for contracts not to exceed $10,000.

When authorized by the agency, either or both of the short processes described in this subsection may be used to select firms for contracts not expected to exceed $10,000. Otherwise, the procedures prescribed in 36.602-3 and 36.602-4 shall be followed.

(a) *Selection by the board.* The board shall review and evaluate architect-engineer firms in accordance with 36.602-3, except that the selection report shall serve as the final selection list and

shall be provided directly to the contracting officer. The report shall serve as an authorization for the contracting officer to commence negotiations in accordance with 36.606.

(b) *Selection by the chairperson of the board.* When the board decides that formal action by the board is not necessary in connection with a particular selection, the following procedures shall be followed:

(1) The chairperson of the board shall perform the functions required in 36.602-3.

(2) The agency head or designated selection authority shall review the report and approve it or return it to the chairperson for appropriate revision.

(3) Upon receipt of an approved report, the chairperson of the board shall furnish the contracting officer a copy of the report which will serve as an authorization for the contracting officer to commence negotiations in accordance with 36.606.

36.603 Collecting data on and appraising firms' qualifications.

(a) *Establishing offices.* Agencies shall maintain offices or permanent evaluation boards, or arrange to use the offices or boards of other agencies, to receive and maintain data on firms wishing to be considered for Government contracts. Each office or board shall be assigned a jurisdiction by its parent agency, making it responsible for a geographical region or area, or a specialized type of construction.

(b) *Qualifications data.* To be considered for architect-engineer contracts, a firm must file with the appropriate office or board the Standard Form 254 (SF 254), "Architect-Engineer and Related Services Questionnaire," and when applicable, the Standard Form 255 (SF 255), "Architect-Engineer and Related Services Questionnaire for Specific Project."

(c) *Data files and the classification of firms.* Under the direction of the parent agency, offices or permanent evaluation boards shall maintain an architect-engineer qualifications data file. These offices or boards shall review the SF's 254 and 255 filed, and shall classify each firm with respect to:

(1) Location;

(2) Specialized experience;

(3) Professional capabilities; and

(4) Capacity, with respect to the scope of work that can be undertaken. A firm's ability and experience in computer-assisted design should be considered, when appropriate.

(d) *Currency of files.* Any office or board maintaining qualifications data files shall review and update each file at least once a year. This process should include:

(1) Encouraging firms to submit annually an updated statement of qualifications and performance data on a SF 254.

(2) Reviewing the SF's 254 and 255 and, if necessary, updating the firm's classification (see 36.603(c)).

(3) Recording any contract awards made to the firm in the past year.

(4) Assuring that the file contains a copy of each pertinent performance report (see 36.604).

(5) Discarding any material that has not been updated within the past three years, if it is no longer pertinent, see 36.604(c).

(6) Posting the date of the review in the file.

(e) *Use of data files.* Evaluation boards and other appropriate Government employees, including contracting officers, shall use data files on firms.

36.604 Performance evaluation.

(a) *Preparation of performance reports.* (1) For each contract of more than $25,000, a performance evaluation report shall be prepared by the cognizant contracting activity, using the SF 1421, Performance Evaluation (Architect-Engineer). Performance evaluation reports may also be prepared for contracts of $25,000 or less.

(2) The report shall be prepared after final acceptance of the work or after contract termination, as appropriate. Ordinarily, the evaluating official who prepares the report should be the person responsible for monitoring contract performance.

(3) If the evaluating official concludes that a contractor's overall performance was unsatisfactory, the contractor shall be advised in writing that a report of unsatisfactory performance is being prepared and the basis for the report. If the contractor submits any written comments, the evaluating official shall include them in the report, resolve any alleged factual discrepancies, and make appropriate changes in the report.

(4) The head of the contracting activity shall establish procedures which ensure that fully qualified personnel prepare and review performance reports.

(b) *Review of performance reports.* Each performance report shall be reviewed to ensure that it is accurate and fair. The reviewing official should have knowledge of the contractor's performance and should normally be at an organizational level above that of the evaluating official.

(c) *Distribution and use of performance reports.* Each performance report shall be distributed in accordance with agency procedures. The report shall be included in the contract file, and copies shall be sent to offices or boards for filing with the firm's qualifications data (see 36.603(d)(4)). The contracting activity shall retain the report for at least six years after the date of the report.

36.605 Government cost estimate for architect-engineer work.

(a) An independent Government estimate of the cost of architect-engineer services shall be prepared and furnished to the contracting officer before commencing negotiations for each proposed contract or contract modification expected to exceed $25,000. The estimate shall be prepared on the basis of a detailed analysis of the required work as though the Government were submitting a proposal

(b) Access to information concerning the Government estimate shall be limited to Government personnel whose official duties require knowledge of the estimate. An exception to this rule may be made during contract negotiations to allow the contracting officer to identify a specialized task and disclose the associated cost breakdown figures in the Government estimate, but only to the extent deemed necessary to arrive at a fair and reasonable price. The overall amount of the Government's estimate shall not be disclosed except as permitted by agency regulations.

36.606 Negotiations.

(a) Unless otherwise specified by the selection authority, the final selection authorizes the contracting officer to begin negotiations. Negotiations shall be conducted in accordance with Part 15 of this regulation, beginning with the most preferred firm in the final selection (see 15.903(d)(1)(ii) on fee limitation).

(b) The contracting officer should ordinarily request a proposal from the firm, ensuring that the solicitation does not inadvertently preclude the firm from proposing the use of modern design methods.

(c) The contracting officer shall inform the firm that no construction contract may be awarded to the firm that designed the project, except as provided in 36.209.

(d) During negotiations, the contracting officer should seek advance agreement (see 31.109) on any charges for computer-assisted design. When the firm's proposal does not cover appropriate modern and cost-effective design methods (e.g., computer-assisted design), the contracting officer should discuss this topic with the firm.

(e) Because selection of firms is based upon qualifications, the extent of any subcontracting is an important negotiation topic. The clause prescribed at 44.204(d), "Subcontractors and Outside Associates and Consultants" (see 52.244-4), limits a firm's subcontracting to firms agreed upon during negotiations.

(f) If a mutually satisfactory contract cannot be negotiated, the contracting officer shall obtain a written best and final offer from the firm, and notify the firm that negotiations have been terminated. The contracting officer shall then initiate negotiations with the next firm on the final selection list. This procedure shall be continued until a mutually satisfactory contract has been negotiated. If negotiations fail with all selected firms, the contracting officer shall refer the matter to the selection authority who, after consulting with the contracting officer as to why a contract cannot be negotiated, may direct the evaluation board to recommend additional firms in accordance with 36.602.

36.607 Release of information on firm selection.

After final selection has taken place, the contracting officer may release information identifying only the architect-engineer firm with which a contract will be negotiated for certain work. The work should be described in any release only in general terms, unless information relating to the work is classified. If negotiations are terminated without awarding a contract to the highest rated firm, the contracting officer may release that information and state that negotiations will be undertaken with another (named) architect-engineer firm. When an award has been made, the contracting officer may release award information, (see 5.401).

36.608 Liability for Government costs resulting from design errors or deficiencies.

Architect-engineer contractors shall be responsible for the professional quality, technical accuracy, and coordination of all services required under their contracts. A firm may be liable for Government costs resulting from errors or deficiencies in designs furnished under its contract. Therefore, when a modification to a construction contract is required because of an error or deficiency in the services provided under an architect-engineer contract, the contracting officer (with the advice of technical personnel and legal counsel) shall consider the extent to which the architect-engineer contractor may be reasonably liable. The contracting officer shall enforce the liability and collect the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the Government's interest. The contracting officer shall include in the contract file a written statement of the reasons for the decision to recover or not to recover the costs from the firm.

36.609 Contract clauses.

36.609-1 Design within funding limitations.

(a) The Government may require the architect-engineer contractor to design the project so that construction costs will not exceed a contractually specified dollar limit (funding limitation). If the price of construction proposed in response to a Government solicitation exceeds the construction funding limitation in the architect-engineer contract, the firm shall be solely responsible for redesigning the project within the funding limitation. These additional services shall be performed at no increase in the price of this contract. However, if the cost of proposed construction is affected by events beyond the firm's reasonable control (e.g., if there is an increase in material costs which could not have been anticipated, or an undue delay by the Government in issuing a construction solicitation), the firm shall not be obligated to redesign at no cost to the Government. If a firm's design fails to meet the contractual limitation on construction cost and the Government determines that the firm should not redesign the project, a written statement of the reasons for that determination shall be placed in the contract file.

(b) The amount of the construction funding limitation (to be inserted in paragraph (c) of the clause at 52.236-22) is to be established during negotiations between the contractor and the Government. This estimated construction contract price shall take into account any statutory or other limitations and exclude any allowances for Government supervision and overhead and any amounts set aside by the Government for contingencies. In negotiating the amount, the contracting officer should make available to the contractor the information upon which the Government has based its initial construction estimate and any subsequently acquired information that may affect the construction costs.

(c) The contracting officer shall insert the clause at 52.236-22, Design Within Funding Limitations, in architect-engineer contracts except when (1) the head of the contracting activity or a designee determines in writing that cost limitations are secondary to performance considerations and additional project funding can be expected, if necessary, (2) the design is for a standard structure and is not intended for a specific location, or (3) there is little or no design effort involved.

36.609-2 Redesign responsibility for design errors or deficiencies.

(a) Under architect-engineer contracts, contractors shall be required to make necessary corrections at no cost to the Government when the designs, drawings, specifications, or other items or services furnished contain any errors, deficiencies, or inadequacies. If, in a given situation, the Government does not require a firm to correct such errors, the contracting officer shall include a written statement of the reasons for that decision in the contract file.

(b) The contracting officer shall insert the clause at 52.236-23, Responsibility of the Architect-Engineer Contractor, in architect-engineer contracts.

36.609-3 Work oversight in architect-engineer contracts.

The contracting officer shall insert the clause at 52.236-24, Work Oversight in Architect-Engineer Contracts, in architect-engineer contracts.

36.609-4 Requirements for registration of designers.

The contracting officer shall insert the clause at 52.236-25, Requirements for Registration of Designers, in fixed-price architect-engineer contracts, except that it may be omitted from a contract when the design is to be performed (a) outside the United States, its possessions, or Puerto Rico, or (b) in a State or possession that does not have registration requirements for the particular field involved.

SUBPART 36.7—STANDARD FORMS FOR CONTRACTING FOR CONSTRUCTION, ARCHITECT-ENGINEER SERVICES, AND DISMANTLING, DEMOLITION, OR REMOVAL OF IMPROVEMENTS

36.700 Scope of subpart.

This subpart sets forth requirements for the use of standard forms, prescribed in Part 53, for contracting for construction, architect-engineer services, or dismantling, demolition, or removal of improvements. These standard forms are illustrated in Part 53.

36.701 Standard forms for use in contracting for construction or dismantling, demolition, or removal of improvements.

(a) Contracting officers shall use Standard Form 1417, Presolicitation Notice (Construction), to inform prospective offerors that a solicitation will be released for a proposed construction or dismantling, demolition, or removal of improvements contract estimated to be $100,000 or more. This form may also be used if the proposed contract is estimated to be less than $100,000.

(b) Standard Form 1442, Solicitation, Offer, and Award (Construction, Alteration, or Repair), shall be used to solicit and submit offers, and award construction or dismantling, demolition, or removal of improvements contracts expected to exceed the small purchase limitations, and may be used for contracts within the small purchase limitations. In all advertised solicitations, or when the Government otherwise requires a noncancellable offer acceptance period, the contracting officer shall insert in the blank provided in Block 13D the number of calendar days that the offer must be available for acceptance after the date offers are due.

(c) Optional Form 347, Order for Supplies or Services, may be used for construction or dismantling, demolition, or removal of improvements contracts that are within the small purchase limitation *provided*, that the contracting officer includes the clauses required (see Subpart 36.5) in the small purchases documents (see Part 13, Small Purchases and Other Simplified Purchase Procedures).

(d) Contracting officers should use Standard Form 1419, Abstract of Offers-Construction or the automated equivalent, to record offers submitted in response to an advertised solicitation (see 14.403) and may also use it to record offers submitted in response to negotiated solicitations.

(e) Contracting activities shall use Standard Form 1420, Performance Evaluation (Construction), in evaluating and reporting on the performance of construction contractors as required in 36.201.

36.702 Forms for use in contracting for architect-engineer services.

(a) Contracting officers shall use Standard Form 252, Architect-Engineer Contract, to award fixed-price contracts for architect-engineer services when the services are to be performed in the United States, its possessions, or Puerto Rico.

(b) The following standard forms shall be used preliminary to award of a contract for architect-engineer services relating to the construction, alteration, or repair of real property:

(1) Standard Form 254, Architect-Engineer and Related Services Questionnaire, shall be used to obtain information from architect-engineer firms regarding their professional qualifications.

(2) Standard Form 255, Architect-Engineer and Related Services Questionnaire for Specific Project, shall be used to supplement the SF 254 with additional, specific information on the firms' qualifications for a particular project when the contract amount is expected to exceed the small purchase limitation. This form may be used when the contract amount is expected to be within the small purchase limitations, if the contracting officer determines that its use is appropriate.

(c) Standard Form 1421, Performance Evaluation (Architect-Engineer), shall be used in evaluating and reporting on the performance of architect-engineer contractors as required in 36.604.

PART 37—SERVICE CONTRACTING

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

37.000 Scope of part.

This part prescribes general policy and procedures for acquiring services by contract, and includes but does not limit coverage to only those services to which the Service Contract Act of 1965 applies (see 37.107). It distinguishes between contracts for personal services and those for nonpersonal services and includes special conditions to be observed in acquiring consulting services. Dismantling, demolition, or removal of improvements is covered in Subpart 37.3. This part does not regulate the obtaining of services by direct appointment, under normal civil service employment procedures, or by cooperative agreement.

SUBPART 37.1—SERVICE CONTRACTS—GENERAL

37.101 Definitions.

"Nonpersonal services contract" means a contract under which the personnel rendering the services are not subject, either by the contract's terms or by the manner of its administration, to the supervision and control usually prevailing in relationships between the Government and its employees.

"Personal services contract" means a contract that, by its express terms or as administered, makes the contractor personnel appear, in effect, Government employees (see 37.104).

"Service contract" means a contract that directly engages the time and effort of a contractor whose primary purpose is to perform an identifiable task rather than to furnish an end item of supply. A service contract may be either a nonpersonal or personal contract. It can also cover services performed by either professional or nonprofessional personnel whether on an individual or organizational basis. Some of the areas in which service contracts are found include the following:

(a) Maintenance, overhaul, repair, servicing, rehabilitation, salvage, modernization, or modification of supplies, systems, or equipment.

(b) Routine recurring maintenance of real property.

(c) Housekeeping and base services.

(d) Consulting services.

(e) Engineering and technical services.

(f) Operation of Government-owned equipment, facilities, and systems.

(g) Communications services.

(h) Architect-Engineering (see Subpart 36.6).

(i) Transportation and related services (see Part 47).

(j) Research and development (see Part 35).

37.102 Policy.

(a) Agencies shall generally rely on the private sector for commercial services (see OMB Circular No. A-76,

Policies for Acquiring Commercial or Industrial Products and Services Needed by the Government).

(b) In no event may a contract be awarded for the performance of an inherently governmental function.

(c) The relative costs of Government and contract performance require appropriate consideration where Government performance is practicable (see Subpart 7.3).

(d) Nonpersonal service contracts are proper under general contracting authority.

37.103 Contracting officer responsibility.

(a) The contracting officer is responsible for ensuring that a proposed contract for services is proper. For this purpose the contracting officer shall—

(1) Determine whether the proposed service is for a personal or nonpersonal services contract using the definitions in 37.101 and the guidelines in 37.104;

(2) In doubtful cases, obtain the review of legal counsel; and

(3) Document the file (except as provided in paragraph (b) below) with (i) the opinion of legal counsel, if any, (ii) a memorandum of the facts and rationale supporting the conclusion that the contract does not violate the provisions in 37.104(b), and (iii) any further documentation that the contracting agency may require.

(b) Nonpersonal services contracts are exempt from the requirements of subparagraph (a)(3) above.

37.104 Personal services contracts.

(a) As indicated in 37.101, a personal services contract is characterized by the employer-employee relationship it creates between the Government and the contractor's personnel. The Government is normally required to obtain its employees by direct hire under competitive appointment or other procedures required by the civil service laws. Obtaining personal services by contract, rather than by direct hire, circumvents those laws unless Congress has specifically authorized acquisition of the services by contract.

(b) Agencies shall not award personal services contracts unless specifically authorized by statute (e.g., 5 U.S.C. 3109) to do so.

(c) (1) An employer-employee relationship under a service contract occurs when, as a result of (i) the contract's terms or (ii) the manner of its administration during performance, contractor personnel are subject to the relatively continuous supervision and control of a Government officer or employee. However, giving an order for a specific article or service, with the right to reject the finished product or result, is not the type of supervision or control that converts an individual who is an independent contractor (such as a contractor employee) into a Government employee.

(2) Each contract arrangement must be judged in the light of its own facts and circumstances, the key question always being: Will the Government exercise relatively continuous supervision and control over the contractor personnel performing the contract? The sporadic, unauthorized supervision of only one of a large number of contractor employees might reasonably be considered not relevant, while relatively continuous Government supervision of a substantial number of contractor employees would have to be taken strongly into account (see (d) below).

(d) The following descriptive elements should be used as a guide in assessing whether or not a proposed contract is personal in nature:

(1) Performance on site.

(2) Principal tools and equipment furnished by the Government.

(3) Services are applied directly to the integral effort of agencies or an organizational subpart in furtherance of assigned function or mission.

(4) Comparable services, meeting comparable needs, are performed in the same or similar agencies using civil service personnel.

(5) The need for the type of service provided can reasonably be expected to last beyond one year.

(6) The inherent nature of the service, or the manner in which it is provided reasonably requires directly or indirectly, Government direction or supervision of contractor employees in order to—

(i) Adequately protect the Government's interest;

(ii) Retain control of the function involved; or

(iii) Retain full personal responsibility for the function supported in a duly authorized Federal officer or employee.

(e) When specific statutory authority for a personal service contract is cited, obtain the review and opinion of legal counsel.

(f) Personal services contracts for the services of individual experts or consultants are limited by the Classification Act. In addition, the Office of Personnel Management has established requirements which apply in acquiring the personal services of experts or consultants in this manner (e.g., benefits, taxes, conflicts of interest). Therefore, the contracting officer shall effect necessary coordination with the cognizant civilian personnel office.

37.105 Competition in service contracting.

(a) Unless otherwise provided by statute, contracts for services shall be awarded through formal advertising whenever feasible and practicable (see Parts 14 or 15).

(b) The provisions of statute and of this regulation requiring competition apply fully to service contracts. Therefore, when formal advertising is not feasible and practicable and negotiation is authorized, competition still must be obtained to the maximum practicable extent, except for acquisitions not in excess of $1,000. The method of obtaining competition will vary with the type of service being acquired and will not necessarily be limited to price comparison.

37.106 Funding and term of service contracts.

When contracts for services are funded by annual appropriations, the term of contracts so funded shall not extend beyond the end of the fiscal year of the appropriation except when authorized by law (see 32.703-2 for contracts conditioned upon availability of funds and 32.703-3 for contracts crossing fiscal years).

37.107 Service Contract Act of 1965.

The Service Contract Act of 1965 (41 U.S.C. 351-357) (the Act) provides for minimum wages and fringe benefits as well as other conditions of work under certain types of service contracts (see Subpart 22.10). Whether or not the Act applies to a specific service contract will be determined by the definitions and exceptions given in the Act, or implementing regulations.

37.108 Small business Certificate of Competency.

In those service contracts for which the Government requires the highest competence obtainable, as evidenced in a solicitation by a request for a technical/management proposal and a resultant technical evaluation and source selection, the small business Certificate of Competency procedures may not apply (see Subpart 19.6).

37.109 Services of quasi-military armed forces.

Contracts with "Pinkerton Detective Agencies or similar organizations" are prohibited by 5 U.S.C. 3108. This prohibition applies only to contracts with organizations that offer quasi-military armed forces for hire, or with their employees, regardless of the contract's character. An organization providing guard or protective services does not thereby become a "quasi-

military armed force," even though the guards are armed or the organization provides general investigative or detective services. (See 57 Comp. Gen. 524).

37.110 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the provision at 52.237-1, Site Visit, in solicitations for services to be performed on Government installations, unless the solicitation is for construction.

(b) The contracting officer shall insert the clause at 52.237-2, Protection of Government Buildings, Equipment, and Vegetation, in solicitations and contracts for services to be performed on Government installations, unless a construction contract is contemplated.

(c) The contracting officer may insert the clause at 52.237-3, Continuity of Services, in solicitations and contracts for services, when the Government anticipates difficulties during the transition from one contractor to another or to the Government.

(d) See 9.508 regarding the use of an appropriate provision and clause concerning the subject of conflict-of-interest, which may at times be significant in solicitations and contracts for services.

(e) The contracting officer shall also insert in solicitations and contracts for services the provisions and clauses prescribed elsewhere in the FAR, as appropriate for each acquisition, depending on the conditions that are applicable.

SUBPART 37.2—CONSULTING SERVICES

37.200 Scope of subpart.

This subpart prescribes policies and procedures for acquiring consulting services by contract. The subpart regulates these contracts with individuals and organizations for both personal and nonpersonal services, including stenographic reporting services.

37.201 Definition.

"Consulting services" means those services of a purely advisory nature relating to the governmental functions of agency administration and management and program management (see 37.203 for examples of the types of services covered by this term). These services are normally provided by persons and/or organizations that are considered to have knowledge and special abilities not generally available within the agency. The form of compensation is irrelevant to the definition.

37.202 General.

This subpart governs contracts for consulting services. Related services, such as studies and professional and management services, may also be governed by this subpart, as supplemented by agency regulations.

37.203 Types of consulting services.

(a) The following are examples of consulting services subject to this Subpart 37.2:

(1) Advice on or evaluation of agency administration and management, such as—

(i) Organizational structures;
(ii) Reorganization plans;
(iii) Management methods;
(iv) Budgeting procedures;
(v) Mail-handling procedures;
(vi) Records and file organization;
(vii) Personnel procedures;
(viii) Discriminatory labor practices;
(ix) Agency publications;
(x) Internal policies, directives, orders, manuals, and procedures; and
(xi) Management information systems.

(2) Advice on or evaluation of agency program management, such as—

(i) Program plans;
(ii) Acquisition strategies;
(iii) Assistance strategies;
(iv) Regulations;
(v) Solicited or unsolicited technical and cost proposals;
(vi) Legal aspects;
(vii) Economic impacts;
(viii) Program impact; and
(ix) Mission and program analysis.

(b) This subpart applies also to any contract task assignment for consulting services that is proposed for assignment to a Federally Funded Research and Development Center. Note that contracts for the conduct of research and development and technology assessments are not contracts for consulting services.

37.204 Policy.

(a) Using consulting services properly is a legitimate way to improve Government services and operations. Accordingly, under the terms of this part, consulting services may be used at all organizational levels to help managers achieve maximum effectiveness or economy in their operations.

(b) Subject to the provisions of 37.205, agencies may contract for consulting services, when essential to the agency's mission, to obtain—

(1) Specialized opinions or professional or technical advice not available within the agency or from another agency;

(2) Outside points of view, to avoid too limited a judgment on critical issues;

(3) Advice on developments in industry, university, or foundation research;

(4) The opinion of experts whose national or international prestige can contribute to the success of important projects; or

(5) Citizen advisory participation in developing or implementing Government programs that by their nature or by statutory provision require such participation.

(c) Agencies shall not contract for consulting services—

(1) To perform work of a policy-making, decision-making, or managerial nature that is the direct responsibility of agency officials;

(2) To bypass or undermine personnel ceilings, pay limitations, or competitive employment procedures;

(3) To specifically aid in influencing or enacting legislation; or

(4) In a manner affording preferential treatment to former Government employees.

(d) Extension of a consulting services contract by modification legally creates a new contract; therefore, such a modification is improper unless all the requirements and limitations of this part have been complied with.

37.205 Management controls.

(a) The contracting officer is responsible for determining whether a requested contractual action or solicitation, regardless of dollar value, is for consulting services. The contracting officer's determination shall be final. Before processing any contractual action or solicitation for consulting services, the contracting officer shall ensure that the applicable provisions of this subpart and 37.103 and 37.104 have been complied with and that the required documentation is complete and included in the contract file.

(b) For acquisition of consulting services, agencies shall establish procedures to ensure that—

(1) Every requirement is appropriate and fully justified in writing (the justification shall include (i) a statement of need and (ii) the requesting official's certification that the services do not unnecessarily duplicate any previously performed work or services);

(2) Work statements are specific and complete and specify a fixed period of performance for the services to be provided;

(3) Contracts are competitively awarded to the maximum extent practicable to ensure that costs are reasonable and to avoid charges of favoritism;

(4) Appropriate disclosure is required of, and warning is given to, the contractor personnel to avoid conflicts of interest;

(5) The contract is properly administered and monitored to ensure that performance meets the requirements;

(6) There are specific levels of delegation of authority, at a level above the sponsor for the services, to approve the need for the use of the services;

(7) Any requests submitted for approval during the fourth quarter of the fiscal year are approved at the second level above the organization sponsoring the activity, or equivalent level as defined in implementing agency regulations;

(8) Proposed contract actions are properly authorized by a written, signed document in accordance with agency regulations; and

(9) The approval and authorization in subparagraphs (6), (7), and (8) above are obtained in the case of supplemental agreements or change orders that increase the scope of work, extend time limitations, add funds, or otherwise substantially alter the arrangement originally approved.

SUBPART 37.3—DISMANTLING, DEMOLITION, OR REMOVAL OF IMPROVEMENTS

37.300 Scope of subpart.

This subpart prescribes procedures for contracting for dismantling or demolition of buildings, ground improvements, and other real property structures and for the removal of such structures or portions of them (hereafter referred to as "dismantling, demolition, or removal of improvements").

37.301 Labor standards.

Contracts for dismantling, demolition, or removal of improvements are subject to either the Service Contract Act (41 U.S.C. 351-358) or the Davis-Bacon Act (40 U.S.C. 276a—276a-7). If the contract is solely for dismantling, demolition, or removal of improvements, the Service Contract Act applies unless further work which will result in the construction, alteration, or repair of a public building or public work at that location is contemplated. If such further construction work is intended, even though by separate contract, then the Davis-Bacon Act applies to the contract for dismantling, demolition, or removal.

37.302 Bonds or other security.

When a contract is solely for dismantling, demolition, or removal of improvements, the Miller Act (40 U.S.C. 270a-270f) (see 28.102) does not apply. However, the contracting officer may require the contractor to furnish a performance bond or other security (see 28.103) in an amount that the contracting officer considers adequate to (a) ensure completion of the work, (b) protect property to be retained by the Government, (c) protect property to be provided as compensation to the contractor, and (d) protect the Government against damage to adjoining property.

37.303 Payments.

(a) The contract may provide that the (1) Government pay the contractor for the dismantling or demolition of structures or (2) contractor pay the Government for the right to salvage and remove the materials resulting from the dismantling or demolition operation.

(b) The contracting officer shall consider the usefulness to the Government of all salvageable property. Any of the property that is more useful to the Government than its value as salvage to the contractor should be expressly designated in the contract for retention by the Government. The contracting officer shall determine the fair market value of any property not so designated, since the contractor will get title to this property, and its value will therefore be important in determining what payment, if any, shall be made to the contractor and whether additional compensation will be made if the contract is terminated.

37.304 Contract clauses.

(a) The contracting officer shall insert the clause at 52.237-4, Payment by Government to Contractor, in solicitations and contracts solely for dismantling, demolition, or removal of improvements whenever the contracting officer determines that the Government shall make payment to the contractor in addition to any title to property that the contractor may receive under the contract. If the contracting officer determines that all material resulting from the dismantling or demolition work is to be retained by the Government, use the basic clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.237-5, Payment by Contractor to Government in solicitations and contracts for dismantling, demolition, or removal of improvements whenever the contractor is to receive title to dismantled or demolished property and a net amount of compensation is due to the Government, except if the contracting officer determines that it would be advantageous to the Government for the contractor to pay in increments and the government to transfer title to the contractor for increments of property only upon receipt of those payments.

(c) The contracting officer shall insert the clause at 52.237-6, Incremental Payment by Contractor to Government, in solicitations and contracts for dismantling, demolition, or removal of improvements if (1) the contractor is to receive title to dismantled or demolished property and a net amount of compensation is due the Government, and (2) the contracting officer determines that it would be advantageous to the Government for the contractor to pay in increments, and for the Government to transfer title to the contractor for increments of property only upon receipt of those payments. This determination may be appropriate, for example, if it encourages greater competition or participation of small business concerns.

PART 38—FEDERAL SUPPLY SCHEDULE CONTRACTING

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

38.000 Scope of part.

This part prescribes policies and procedures for contracting for supplies and services under the Federal Supply Schedule program, which is directed and managed by the General Services Administration. Procedures for ordering from Federal Supply Schedules are covered in Subpart 8.4. See Part 39 for automatic data processing and telecommunications equipment and services coverage. The Department of Defense uses a similar system of schedule contracting for military items that are also not a part of the Federal Supply Schedule program.

SUBPART 38.1—FEDERAL SUPPLY SCHEDULE PROGRAM

38.101 General.

(a) The Federal Supply Schedule program provides Federal agencies with a simplified process of acquiring commonly used supplies and services in varying quantities at lower prices while obtaining discounts associated with volume buying. Indefinite delivery contracts (primarily requirements contracts) are established with commercial firms to provide supplies and services at stated prices for given periods of time. The schedule contracting office issues publications, titled Federal Supply Schedules, containing the information needed for placing delivery orders with the contractors.

(b) Each schedule identifies specific agencies in designated geographic areas that are required to use the contracts as primary sources of supply. Except as specified in 8.404-1, agencies included as mandatory users must order needed supplies and services from the schedule if the consignee is located within the geographic area of coverage. Geographic areas of coverage are determined on the basis of the location of the consignee, not the ordering office.

(c) Federal agencies not identified in the schedules as mandatory users (see 8.404-2) may issue orders under the schedules, and the contractors are encouraged to accept the orders.

(d) Under the schedule program, ordering agencies—

(1) Issue orders directly to the contractors;

(2) Receive shipments;

(3) Pay the contractors; and

(4) Administer individual orders.

(e) Although GSA awards most Federal Supply Schedule contracts, it may authorize other agencies to award schedule contracts and publish schedules; e.g., the Veterans Administration awards schedule contracts for certain medical and nonperishable subsistence items.

38.102 Types of Federal Supply Schedules.

38.102-1 Single-award schedules.

(a) Single-award schedules cover contracts made with one supplier at a stated price for delivery to a geographic area as defined in the schedule. A single-award schedule is appropriate if there are adequate commercial descriptions or specifications to permit competitive offers.

(b) Each single-award schedule lists the supplies or services covered and the prices. Unit prices are normally established on a zonal basis to provide for differences in transportation. The schedules contain the necessary information for placing orders. Some single-award schedules specify that contractors have prepared brochures containing additional information, usually fabric or color selections or similar variables.

38.102-2 Multiple-award schedules.

(a) Multiple-award schedules are based on negotiated contracts established with more than one supplier for delivery of comparable commercial supplies or services. Contracts are awarded to firms supplying the same generic types of items or services at varying prices for delivery within the same geographic areas.

(b) These contracts are appropriate when—

(1) It is not practical to draft specifications or other descriptions for the required supplies or services and there are multiple suppliers able to furnish similar commercial supplies or services (either established catalogs or market prices, or cost or pricing data will be used as a basis for determining price reasonableness); or

(2) Selectivity is necessary for ordering offices to meet their varying needs.

(c) Multiple-award schedule contractors are required to prepare and distribute pricelists and catalogs that must be used with the schedule to prepare orders.

38.102-3 New Item Introductory Schedule.

(a) The New Item Introductory Schedule (NIIS) is used to introduce new or improved products into the Federal supply system. Potential suppliers submit applications, on GSA Form 1171, Application for Presenting New Articles, through any GSA Business Service Center (BSC). These centers are listed in the clause at 52.210-1, Availability of Specifications Listed in the Index of Federal Specifications and Standards. The BSC screens the applications and forwards them to the GSA, Office of Federal Supply and Services (FSS), for review and acceptance or rejection. This review considers such factors as possible duplication of present supply support items, anticipated demand, and health, safety, and legal requirements.

(b) If the application is accepted, a contract is negotiated and the item is placed on the NIIS. If sufficient demand for an item is generated, the item is transferred from the NIIS to a regular acquisition program; e.g., Federal Supply Schedule or stock.

(c) This schedule is published approximately four times a year and is cumulative. The user must obtain the contractors' catalogs and pricelists to use the schedule effectively. A contractor is required to make those documents available upon request.

(d) Agencies receiving applications from suppliers for consideration under the NIIS program shall forward them to the nearest GSA Business Service Center.

SUBPART 38.2—ESTABLISHING AND ADMINISTERING FEDERAL SUPPLY SCHEDULES

38.201 Coordination requirements.

(a) Subject to current or future interagency agreements, contracting officers having responsibility for awarding Federal Supply Schedule contracts shall coordinate with the General Services Administration (GSA) before—

(1) Establishing new schedules;

(2) Discontinuing existing schedules;

(3) Changing the scope of agency or geographical coverage of existing schedules; or

(4) Adding or deleting special item numbers, national stock numbers, or revising their description.

(b) The coordination shall be accomplished by using GSA Form 1649, Recommendation for Improvement of Federal Supply Schedules. This form shall be submitted to GSA, Office of Federal Supply and Services (FSS), FCP, Washington, DC 20406, in duplicate, well in advance of solicitation preparation. A leadtime of 90 days is required by GSA to coordinate and obtain concurrences from the various agencies.

38.202 Criteria.

(a) To justify establishing or continuing a Federal Supply Schedule, the annual business volume expected from a single Federal Supply Schedule should normally exceed $20,000, if regional in scope. For national scope schedules, the annual business volume expected should be $200,000 for a multiple-award schedule and $50,000 for a single-award schedule.

(b) Items included in schedules shall be such that—

(1) It is not feasible to forecast definite quantity requirements for delivery to specific consignees or no advantage accrues for doing so;

(2) Industry distribution facilities are adequate to serve the consignees; and

(3) Price advantages are sufficient to warrant the cost of maintaining the schedules.

(c) A special item number (SIN) should not be retained in a future multiple-award schedule when the

anticipated purchases of the SIN will be less than $10,000 for the contract period. An item should not be retained in a future schedule when the anticipated purchases of the item will be less than $2,000 for the contract period. (For the purpose of these criteria, an item is defined as a product on a multiple-award schedule; or a National Stock Number (NSN) or SIN on a single-award schedule.) This policy does not apply to service contracts or to the following:

(1) A part or accessory for a basic item.

(2) A component of a unit assembly.

(3) An item needed to fill out a range of colors, sizes, or other characteristics.

(4) A service related to an item that is being retained on a schedule.

(5) An item that is determined by the contracting officer to be economically advantageous to retain even though the expected demand is less than $2,000 per contract period. A justification must be included in the case file explaining the reasons for retaining the item.

(d) In addition, an item should be removed from a schedule when the item is—

(1) Discontinued by the manufacturer;

(2) Obsolete;

(3) Transferred to another schedule;

(4) To be provided through another method of supply;

(5) Similar to an item available from stock; or

(6) Not to be acquired because it is unsafe, requires a special license, or it is a luxury (see 41 CFR 101-26.103-2).

38.203 Solicitation preparation.

(a) Solicitations for Federal Supply Schedule contracts shall contain the solicitation provisions and contract clauses prescribed elsewhere in this regulation (e.g., see the clause matrix for indefinite delivery contracts in Subpart 52.3). The schedule contracting officer may include additional provisions and clauses which apply to the particular commodity or service to be acquired. Also, GSA shall prescribe, at the time of assignment of a schedule to a contracting office, special clauses for inclusion in the solicitations and contracts.

(b) Small Business set-aside programs apply to both single and multiple-award schedule contracting (see Part 19).

38.204 Schedule preparation.

The schedule contracting office shall publish schedules by commodity or service classification. Depending upon the type of schedule used, information provided may include the names of the contractors, their addresses, the contract periods, contract numbers, geographical areas of coverage, mandatory and optional users, minimum and maximum order limitations, prices, and any other information essential to placing orders. When schedule formats are provided by GSA, schedule contracting offices shall adhere to them so as to facilitate the use of the schedules by using agencies.

38.205 Schedule contract administration.

The schedule contracting officer shall—

(a) Exercise general supervision of schedule contracts;

(b) Issue final decisions on all disputes which relate to schedule contracts, or arise under orders which cannot be resolved by the ordering office and the contractor;

(c) When necessary, terminate schedule contracts for default or for the convenience of the Government (see Part 49); and

(d) Make necessary changes to the schedule. The following documents may be used to make changes to Federal Supply Schedules:

(1) *Cumulative schedule.* The preferred document to transmit changes is a complete schedule reprint containing all the information in the prior issuance with the new information added.

(2) *Amendment.* An amendment may be used to transmit changes to a schedule when the new information does not justify a complete reprint. Generally, if more than one page is needed, a cumulative schedule should be issued.

(3) *Notice to Ordering Offices.* A Notice to Ordering Offices may be used to transmit changes to a schedule when time will not permit the use of a cumulative schedule or amendment.

PART 39—MANAGEMENT, ACQUISITION, AND USE OF INFORMATION RESOURCES

Title 41 CFR 150 contains policies, procedures, and guidelines peculiar to automatic data processing (ADP), telecommunications, and related resources. Contracting for ADP, telecommunications, and related resources shall be accomplished in accordance with agency supplements and other FAR parts when applicable.

PART 40—[RESERVED]

PART 41—[RESERVED]

SUBCHAPTER G—Contract Management

PART 42—CONTRACT ADMINISTRATION

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

42.000 Scope of part.

This part prescribes general policies and procedures for performing contract administration functions and related audit services.

SUBPART 42.1—INTERAGENCY CONTRACT ADMINISTRATION AND AUDIT SERVICES

42.100 Scope of subpart.

This subpart prescribes policies and procedures for obtaining and providing interagency contract administration and audit services in order to (a) provide specialized assistance through field offices located at or near contractors' establishments, (b) avoid or eliminate overlapping and duplication of Government effort, and (c) provide more consistent treatment of contractors.

42.101 Policy.

(a) Agencies requiring field contract administration or audit services are encouraged to use cross-servicing arrangements with existing contract administration and contract audit components (see 42.102(a) for the directories of cognizant offices). The customer agency and the servicing agency shall enter into a formal cross-servicing arrangement when the volume of work or other circumstances warrants a formal understanding.

(b) Multiple reviews, inspections, and examinations of a contractor or subcontractor by several agencies involving the same practices, operations, or functions shall be eliminated to the maximum practicable extent through the use of cross-servicing arrangements.

(c) OMB Circular No. A-73, Audit of Federal Operations and Programs, states executive branch policy on audit cross-servicing arrangements. As further provided in OFPP Policy Letter 78-4, Field Contract Support Cross-Servicing Program, (1) agencies shall use cross-servicing arrangements for the audit of costs incurred under contracts of two or more agencies being performed at the same business entity, and (2) the responsible auditor or contracting officer shall coordinate with concerned agencies the establishment of indirect cost rates at such entities and shall convey the finally established rates to those agencies for application to their contracts to the extent allocable and allowable (see Subpart 42.7).

(d) Subject to the fiscal regulations of the agencies concerned, agencies (1) may be reimbursed in accordance with the Economy Act of 1932 (31 U.S.C. 686) for services rendered under formal or informal cross-servicing arrangements, (2) normally should refrain from seeking reimbursement for cross-servicing accomplished incidental to their own needs or Government-wide responsibilities, and (3) may use the hourly rate established under the cross-servicing arrangement between the Department of Defense and the National Aeronautics and Space Administration to facilitate reimbursement arrangements.

(e) Agencies are not expected to enter into cross-servicing arrangements that would unduly burden agency resources or otherwise obstruct an agency in fulfilling its responsibilities.

42.102 Procedures.

(a) In locating available field contract administration or audit services, contracting offices shall consult the Department of Defense Directory of Contract Administration Services Components or the Directory of Federal Contract Audit Offices. Questions regarding contract administration offices may be referred to the Defense Logistics Agency; Attn: DLA-AO, Cameron Station, Alexandria, Virginia, 22314. Questions regarding audit offices may be referred to the Defense Contract Audit Agency, Attn: OTD, Cameron Station, Alexandria, Virginia, 22314. Agencies having a field contract administration or audit cross-servicing capability shall arrange for identification of this capability (including changes as they occur) in the appropriate directory by contacting one of these offices.

(b) Services may be obtained by direct request to the cognizant contract administration or audit component indicated in the applicable directory or as specified in a formal cross-servicing arrangement (see 42.101(a)).

(c) Except for requests submitted under formal cross-servicing arrangements, requests for services from Government agencies may be declined on a case-by-case basis if resources are inadequate to accomplish delegated tasks, provided the decision is made by an official above the level of the contract administration office, or as otherwise provided in agency regulations.

(d) Contract administration and audit services will be performed using the procedures of the servicing agency

unless formal agreements between agencies provide otherwise.

(e) Both the requesting and servicing activities are responsible for prudent use of the services provided under either formal or informal interagency cross-servicing arrangements. When it is appropriate, servicing activities shall counsel requesting agencies or contracting offices concerning the desirability and practicality of relaxing or waiving controls and surveillance that may not be necessary to ensure satisfactory contract performance.

SUBPART 42.2—ASSIGNMENT OF CONTRACT ADMINISTRATION

42.200 Scope of subpart.

This subpart prescribes policies and procedures for (a) assigning, retaining, or reassigning contract administration responsibility, (b) withholding normal functions or delegating additional functions when assigning contracts for administration, and (c) requesting and performing supporting contract administration. Subpart 42.3 lists both the normal contract administration functions and those requiring specific authorization by the contracting office.

42.201 Definition.

"Supporting contract administration" means performance of specific contract administration functions by another contract administration office (CAO) as required by (a) the CAO to which a contract is assigned for administration or (b) the contracting office retaining a contract for administration.

42.202 Assignment of contract administration.

(a) *Authority.* Except as provided in paragraph (b) below, assignment of a contract to a CAO for administration automatically carries with it the authority to perform all of the normal functions listed in 42.302(a) to the extent that those functions apply to the contract. The CAO has authority to perform the functions requiring specific authorizations, listed in 42.302(b), only to the extent specified by the contracting office. No other function shall be performed by the CAO unless delegated as provided under 42.202(c).

(b) *Withholding normal functions.* In assigning a contract for administration by a CAO, the contracting office may withhold individual functions among those listed in 42.302(a) if—

(1) Their retention by the contracting office is required by (i) the contracting agency's agency-level acquisition regulations or (ii) a formal interagency cross-servicing arrangement (see 42.101(a) and 42.102(b)); or

(2) It is clear, after consultation with the CAO when appropriate, that they can best be performed by the contracting office and the decision to withhold them is approved above the contracting officer's level.

(c) *Delegating additional functions.* For individual contracts or groups of contracts, the contracting office may delegate to the CAO functions not listed in 42.302; *provided*, that—

(1) Prior coordination with the CAO ensures the availability of required resources;

(2) In the case of authority to issue orders under provisioning procedures in existing contracts and under basic ordering agreements for items and services identified in the schedule, the head of the contracting activity or designee approves the delegation; and

(3) The delegation does not require the CAO to undertake new or follow-on acquisitions.

(d) *Transmittal and documentation.* When assigning a contract for administration by a CAO, the contracting officer shall—

(1) Enter on the contract the name and address of the CAO designated to administer it;

(2) Provide any special instructions, including any specific authorization to perform functions listed in 42.302(b), in an accompanying letter to the CAO;

(3) Include, along with the contract furnished to the CAO, copies of all contracting agency regulations or directives that are (i) incorporated into the contract by reference or (ii) otherwise necessary to administer the contract, unless copies have been previously provided; and

(4) Advise the contractor (and other activities as appropriate) of any functions withheld or additional functions delegated in the special instructions under subparagraph (2) above.

(e) *Contract administration office responsibilities.* For each contract assigned for administration, the CAO shall—

(1) Perform the functions listed in 42.302(a) to the extent that they apply to the contract, except for any functions specifically withheld under paragraph (b) above;

(2) Perform the functions listed in 42.302(b) to the extent that they apply and are specifically authorized by the contracting office;

(3) Serve as a focal point for inquiries and keep the contracting office and other interested activities advised concerning all pertinent matters related to administration of the contract;

(4) Request supporting contract administration under 42.204 when it is required; and

(5) Reassign contract administration under 42.206(a) if reassignment is required.

42.203 Retention of contract administration.

(a) Contracting offices shall retain for administration any contract (1) not requiring the performance of contract administration functions (see 42.302) at or near contractor facilities, or (2) for which retention by the contracting office is prescribed by agency acquisition regulations. However, 30.401 requires that retained contracts to which Cost Accounting Standards (CAS) apply be assigned for CAS administration only. Instructions for marking and distributing these contracts are provided in 4.201(c).

(b) Contracting offices or CAO's may request supporting contract administration under 42.204 for contracts for which they have contract administration responsibility. However, if a substantial proportion of the normal contract administration functions listed in 42.302(a) are to be requested, an official above the contracting officer's level shall review the validity of retaining administration while requesting extensive supporting contract administration.

42.204 Supporting contract administration.

(a) A CAO assigned a contract for administration under 42.202 or a contracting office retaining administration under 42.203 may request supporting contract administration from the CAO cognizant of the contractor location where performance of specific contract administration functions is required. The request shall (1) be in writing, (2) clearly state the specific functions to be performed, and (3) be accompanied by a copy of pertinent contractual and other necessary documents.

(b) The prime contractor is responsible for managing its subcontracts. The CAO's concern with subcontracts is normally limited to evaluating the prime contractor's management of them (see Part 44). Therefore, supporting contract administration shall not be used for subcontracts unless (1) the Government would otherwise incur undue cost, (2) successful completion of the prime contract is threatened, or (3) it is authorized under paragraph (c) below or elsewhere in this regulation.

(c) For major system acquisitions (see Part 34), the contracting officer may

designate certain high-risk or critical subsystems or components for special surveillance (see 44.205) in addition to requesting supporting contract administration. This surveillance shall be conducted in a manner fully consistent with the policy of calling upon the cognizant CAO to perform contract administration functions at a contractor's facility (see Subpart 42.1).

42.205 Designation of the paying office.

If the information is available, the contracting officer shall enter on the contract the name and address of the office designated under agency procedures to make payments on the contract. Unless agency acquisition regulations otherwise provide, the assignment of contract administration to a CAO does not affect the designation of the paying office.

42.206 Reassignment of contract administration.

(a) The administrative contracting officer at the CAO of initial assignment shall reassign a contract for administration when the need for reassignment results from (1) an incorrect initial assignment, (2) organizational transfer of the cognizant CAO, (3) establishment or disestablishment of a CAO, or (4) a change in a CAO's geographical responsibility.

(b) The contracting officer at the contracting office shall reassign a contract for administration when reasons other than those in paragraph (a) above make reassignment appropriate.

(c) To reassign a contract, the responsible contracting officer shall use a unilateral contract modification. The CAO of initial assignment shall transfer the contract file and necessary supporting documents to the successor CAO.

(d) When warranted by a change in circumstances and approved at a higher level, a contracting officer may recall a contract or function previously assigned for administration.

SUBPART 42.3—CONTRACT ADMINISTRATION OFFICE FUNCTIONS

42.301 General.

When a contract is assigned for administration under Subpart 42.2, the contract administration office (CAO) shall perform contract administration functions in accordance with this regulation, the contract terms, and, unless otherwise agreed upon in formal cross-servicing arrangements (see 42.101(a)), the applicable regulations of the servicing agency.

42.302 Contract administration functions.

(a) The following are the normal contract administration functions to be performed by the cognizant CAO, to the extent they apply, as prescribed in 42.202:

(1) Review the contractor's compensation structure.

(2) Review the contractor's insurance plans.

(3) Conduct post-award orientation conferences.

(4) Review and evaluate contractors' proposals under Subpart 15.8 and, when negotiation will be accomplished by the contracting officer, furnish comments and recommendations to that officer.

(5) Negotiate forward pricing rate agreements (see 15.809).

(6) Negotiate advance agreements applicable to treatment of costs under contracts currently assigned for administration (see 31.109).

(7) Determine the allowability of costs suspended or disapproved as required (see Subpart 42.8), direct the suspension or disapproval of costs when there is reason to believe they should be suspended or disapproved, and approve final vouchers.

(8) Issue Notices of Intent to Disallow or not Recognize Costs (see Subpart 42.8).

(9) Establish final indirect cost rates and billing rates for those contractors meeting the criteria for contracting officer determination in Subpart 42.7.

(10) Prepare findings of fact and issue decisions under the Disputes clause on matters in which the administrative contracting officer (ACO) has the authority to take definitive action.

(11) In connection with Cost Accounting Standards (see Part 30)—

(i) Determine the adequacy of the contractor's disclosure statements;

(ii) Determine whether disclosure statements are in compliance with Cost Accounting Standards and Part 31;

(iii) Determine the contractor's compliance with Cost Accounting Standards and disclosure statements, if applicable; and

(iv) Negotiate price adjustments and execute supplemental agreements under the Cost Accounting Standards clauses at 52.230-3, 52.230-4, and 52.230-5.

(12) Review and approve or disapprove the contractor's requests for payments under the progress payments clause.

(13) Make payments on assigned contracts when prescribed in agency acquisition regulations (see 42.205).

(14) Manage special bank accounts.

(15) Ensure timely notification by the contractor of any anticipated overrun or underrun of the estimated cost under cost-reimbursement contracts.

(16) Monitor the contractor's financial condition and advise the contracting officer when it jeopardizes contract performance.

(17) Analyze quarterly limitation on payments statements and recover overpayments from the contractor.

(18) Issue tax exemption certificates.

(19) Ensure processing and execution of duty-free entry certificates.

(20) For classified contracts, administer those portions of the applicable industrial security program designated as ACO responsibilities (see Subpart 4.4).

(21) Issue work requests under maintenance, overhaul, and modification contracts.

(22) Negotiate prices and execute supplemental agreements for spare parts and other items selected through provisioning procedures when prescribed by agency acquisition regulations.

(23) Negotiate and execute contractual documents for settlement of partial and complete contract terminations for convenience, except as otherwise prescribed by Part 49.

(24) Negotiate and execute contractual documents settling cancellation charges under multi-year contracts.

(25) Process and execute novation and change of name agreements under Subpart 42.12.

(26) Perform property administration (see Part 45).

(27) Approve contractor acquisition or fabrication of special test equipment under the clause at 52.245-18, Special Test Equipment.

(28) Perform necessary screening, redistribution, and disposal of contractor inventory.

(29) Issue contract modifications requiring the contractor to provide packing, crating, and handling services on excess Government property. When the ACO determines it to be in the Government's interests, the services may be secured from a contractor other than the contractor in possession of the property.

(30) In facilities contracts—

(i) Evaluate the contractor's requests for facilities and for changes to existing facilities and provide appropriate recommendations to the contracting officer;

(ii) Ensure required screening of facility items before acquisition by the contractor;

(iii) Approve use of facilities on a noninterference basis in accordance

with the clause at 52.245-9, Use and Charges;

(iv) Ensure payment by the contractor of any rental due; and

(v) Ensure reporting of items no longer needed for Government production.

(31) Perform production support, surveillance, and status reporting, including timely reporting of potential and actual slippages in contract delivery schedules.

(32) Perform pre-award surveys (see Subpart 9.1).

(33) Advise and assist contractors regarding their priorities and allocations responsibilities and assist contracting offices in processing requests for special assistance and for priority ratings for privately owned capital equipment.

(34) Monitor contractor industrial labor relations matters under the contract; apprise the contracting officer and, if designated by the agency, the cognizant labor relations advisor, of actual or potential labor disputes; and coordinate the removal of urgently required material from the strikebound contractor's plant upon instruction from, and authorization of, the contracting officer.

(35) Perform traffic management services, including issuance and control of Government bills of lading and other transportation documents.

(36) Review the adequacy of the contractor's traffic operations.

(37) Review and evaluate preservation, packaging, and packing.

(38) Ensure contractor compliance with contractual quality assurance requirements (see Part 46).

(39) Ensure contractor compliance with applicable safety requirements, including contractual requirements for the handling of hazardous and dangerous materials and processes.

(40) Perform engineering surveillance to assess compliance with contractual terms for schedule, cost, and technical performance in the areas of design, development, and production.

(41) Evaluate for adequacy and perform surveillance of contractor engineering efforts and management systems that relate to design, development, production, engineering changes, subcontractors, tests, management of engineering resources, reliability and maintainability, data control systems, configuration management, and independent research and development.

(42) Review and evaluate for technical adequacy the contractor's logistics support, maintenance, and modification programs.

(43) Report to the contracting office any inadequacies noted in specifications.

(44) Perform engineering analyses of contractor cost proposals.

(45) Review and analyze contractor-proposed engineering and design studies and submit comments and recommendations to the contracting office, as required.

(46) Review engineering change proposals for proper classification, and when required, for need, technical adequacy of design, producibility, and impact on quality, reliability, schedule, and cost; submit comments to the contracting office.

(47) Assist in evaluating and make recommendations for acceptance or rejection of waivers and deviations.

(48) Evaluate and monitor the contractor's procedures for complying with procedures regarding restrictive markings on data.

(49) Monitor the contractor's value engineering program.

(50) Review, approve or disapprove, and maintain surveillance of the contractor's purchasing system (see Part 44).

(51) Consent to the placement of subcontracts.

(52) Review, evaluate, and approve plant or division-wide small and small disadvantaged business master subcontracting plans.

(53) Obtain the contractor's currently approved company- or division-wide plans for small business and small disadvantaged business subcontracting for its commercial products, or, if there is no currently approved plan, assist the contracting officer in evaluating the plans for those products.

(54) Assist the contracting officer, upon request, in evaluating an offeror's proposed small business and small disadvantaged business subcontracting plans, including documentation of compliance with similar plans under prior contracts.

(55) By periodic surveillance, ensure the contractor's compliance with small business and small disadvantaged business subcontracting plans and any labor surplus area contractual requirements; maintain documentation of the contractor's performance under and compliance with these plans and requirements; and provide advice and assistance to the firms involved, as appropriate.

(56) Maintain surveillance of flight operations.

(57) Assign and perform supporting contract administration.

(58) Ensure timely submission of required reports.

(59) With the exception of changes in accounting and appropriation data which must be issued by the contracting office, issue administrative changes (see 43.101).

(60) Cause release of shipments from contractor's plants according to the shipping instructions. When applicable, the order of assigned priority shall be followed; shipments within the same priority shall be determined by date of the instruction.

(61) Obtain contractor proposals for any contract price adjustments resulting from amended shipping instructions. ACO's shall review all amended shipping instructions on a periodic, consolidated basis to assure that adjustments are timely made. Except when the ACO has settlement authority, the ACO shall forward the proposal to the contracting officer for contract modification. The ACO shall not delay shipments pending completion and formalization of negotiations of revised shipping instructions.

(b) The CAO shall perform the following functions only when and to the the extent specifically authorized by the contracting office:

(1) Negotiate or negotiate and execute supplemental agreements incorporating contractor proposals resulting from change orders issued under the Changes clause. Before completing negotiations, coordinate any delivery schedule change with the contracting office.

(2) Negotiate prices and execute priced exhibits for unpriced orders issued by the contracting officer under basic ordering agreements.

(3) Negotiate or negotiate and execute supplemental agreements changing contract delivery schedules.

(4) Negotiate or negotiate and execute supplemental agreements providing for the deobligation of unexpended dollar balances considered excess to known contract requirements.

(5) Issue amended shipping instructions and, when necessary, negotiate and execute supplemental agreements incorporating contractor proposals resulting from these instructions.

(6) Negotiate changes to interim billing prices.

(7) Negotiate and definitize adjustments to contract prices resulting from exercise of an economic price adjustment clause (see Subpart 16.2).

(8) Issue change orders and negotiate and execute resulting supplemental agreements under contracts for ship construction, conversion, and repair.

(c) Any additional contract administration functions not listed in 42.302(a) and (b), or not otherwise delegated, remain the responsibility of the contracting office.

SUBPART 42.4—CORRESPONDENCE AND VISITS

42.401 Contract correspondence.

(a) The contracting officer (or other contracting agency personnel) normally shall (1) forward correspondence relating to assigned contract administration functions through the cognizant contract administration office (CAO) to the contractor and (2) provide a copy for the CAO's file. When urgency requires sending such correspondence directly to the contractor, a copy shall be sent concurrently to the CAO.

(b) The CAO shall send the contracting office a copy of pertinent correspondence conducted between the CAO and the contractor.

42.402 Visits to contractors' facilities.

(a) Government personnel planning to visit a contractor's facility in connection with one or more Government contracts shall provide the cognizant CAO with the following information, sufficiently in advance to permit the CAO to make necessary arrangements:

(1) Visitors' names, official positions, and security clearances.

(2) Date and duration of visit.

(3) Name and address of contractor and personnel to be contacted.

(4) Contract number, program involved, and purpose of visit.

(5) If desired, visitors to a contractor's plant may request that a representative of the CAO accompany them. In any event, the CAO has final authority to decide whether a representative shall accompany a visitor.

(b) Visitors shall fully inform the CAO of any agreements reached with the contractor or other results of the visit that may affect the CAO.

42.403 Evaluation of contract administration offices.

Onsite inspections or evaluations of the performance of the assigned functions of a contract administration office shall be accomplished only by or under the direction of the agency of which that office is a part.

SUBPART 42.5—POSTAWARD ORIENTATION

42.500 Scope of subpart.

This subpart prescribes policies and procedures for the postaward orientation of contractors and subcontractors through (a) a conference or (b) a letter or other form of written communication.

42.501 General.

(a) A postaward orientation aids both Government and contractor personnel to (1) achieve a clear and mutual understanding of all contract requirements and (2) identify and resolve potential problems. However, it is not a substitute for the contractor's fully understanding the work requirements at the time offers are submitted, nor is it to be used to alter the final agreement arrived at in any negotiations leading to contract award.

(b) Postaward orientation is encouraged to assist small business and small disadvantaged business concerns (see Part 19).

(c) While cognizant Government or contractor personnel may request the contracting officer to arrange for orientation, it is up to the contracting officer to decide whether a postaward orientation in any form is necessary.

(d) Maximum benefits will be realized when orientation is conducted promptly after award.

42.502 Selecting contracts for postaward orientation.

When deciding whether postaward orientation is necessary and, if so, what form it shall take, the contracting officer shall consider, as a minimum, the—

(a) Nature and extent of the preaward survey and any other prior discussions with the contractor;

(b) Type, value, and complexity of the contract;

(c) Complexity and acquisition history of the product or service;

(d) Requirements for spare parts and related equipment;

(e) Urgency of the delivery schedule and relationship of the product or service to critical programs;

(f) Length of the planned production cycle;

(g) Extent of subcontracting;

(h) Contractor's performance history and experience with the product or service;

(i) Contractor's status, if any, as a small business or small disadvantaged business concern;

(j) Contractor's performance history with small business and small disadvantaged business subcontracting programs;

(k) Safety precautions required for hazardous materials or operations; and

(l) Complex financing arrangements, such as progress payments, advance payments, or guaranteed loans.

42.503 Postaward conferences.

42.503-1 Postaward conference arrangements.

(a) The contracting officer who decides that a conference is needed is responsible for—

(1) Establishing the time and place of the conference;

(2) Preparing the agenda, when necessary;

(3) Notifying appropriate Government representatives (e.g., contracting/contract administration office) and the contractor;

(4) Designating or acting as the chairperson;

(5) Conducting a preliminary meeting of Government personnel; and

(6) Preparing a summary report of the conference.

(b) When the contracting office initiates a conference, the arrangements may be made by that office or, at its request, by the contract administration office.

42.503-2 Postaward conference procedure.

The chairperson of the conference shall conduct the meeting. Unless a contract change is contemplated, the chairperson shall emphasize that it is not the purpose of the meeting to change the contract. The contracting officer may make commitments or give directions within the scope of the contracting officer's authority and shall put in writing and sign any commitment or direction, whether or not it changes the contract. Any change to the contract that results from the postaward conference shall be made only by a contract modification (see 43.101) referencing the applicable terms of the contract. Participants without authority to bind the Government shall not take action that in any way alters the contract. The chairperson shall include in the summary report (see 42.503-3 below) all information and guidance provided to the contractor.

42.503-3 Postaward conference report.

The chairperson shall prepare and sign a report of the postaward conference. The report shall cover all items discussed, including areas requiring resolution, controversial matters, the names of the participants assigned responsibility for further actions, and the due dates for the actions. The chairperson shall furnish copies of the report to the contracting office, the contract administration office, the contractor, and others who require the information.

42.504 Postaward letters.

In some circumstances, a letter or other written form of communication to the contractor may be adequate postaward orientation (in lieu of a conference). The letter should identify the Government representative responsible for administering the contract and cite any unusual or

significant contract requirements. The rules on changes to the contract in 42.503-2 also apply here.

42.505 Postaward subcontractor conferences.

(a) The prime contractor is generally responsible for conducting postaward conferences with subcontractors. However, the prime contractor may invite Government representatives to a conference with subcontractors, or the Government may request that the prime contractor initiate a conference with subcontractors. The prime contractor should ensure that representatives from involved contract administration offices are invited.

(b) Government representatives (1) must recognize the lack of privity of contract between the Government and subcontractors, (2) shall not take action that is inconsistent with or alters subcontracts, and (3) shall ensure that any changes in direction or commitment affecting the prime contract or contractor resulting from a subcontractor conference are made by written direction of the contracting officer to the prime contractor in the same manner as described in 42.503-2.

SUBPART 42.6—CORPORATE ADMINISTRATIVE CONTRACTING OFFICER

42.601 General.

Contractors with more than one operational location (e.g., division, plant, or subsidiary) often have corporate-wide policies, procedures, and activities requiring Government review and approval and affecting the work of more than one administrative contracting officer (ACO). In these circumstances, effective and consistent contract administration may require the assignment of a corporate administrative contracting officer (CACO) to deal with corporate management and to perform selected contract administration functions on a corporate-wide basis.

42.602 Assignment and location.

(a) A CACO may be assigned only when (1) the contractor has at least two locations with resident ACO's or (2) the need for a CACO is approved by the agency head or designee (for this purpose, a nonresident ACO will be considered as resident if at least 75 percent of the ACO's effort is devoted to a single contractor). One of the resident ACO's may be designated to perform the CACO functions, or a full-time CACO may be assigned. In determining the location of the CACO, the responsible agency shall take into account such factors as the location(s) of the corporate records, corporate office, major plant, cognizant government auditor, and overall cost effectiveness.

(b) A decision to initiate or discontinue a CACO assignment should be based on such factors as (1) the benefits of coordination and liaison at the corporate level, (2) the volume of Government sales, (3) the degree of control exercised by the contractor's corporate office over Government-oriented lower-tier operating elements, and (4) the impact of corporate policies and procedures on those elements.

(c) Responsibility for assigning a CACO shall be determined as follows:

(1) When all locations of a corporate entity are under the contract administration cognizance of a single agency, that agency is responsible.

(2) When the locations are under the contract administration cognizance of more than one agency, the agencies concerned shall agree on the responsible agency (normally on the basis of the agency with the largest unliquidated dollar balance of affected contracts). In such cases, agencies may sometimes also consider geographic location.

(d) The directory of contract administration components referenced in 42.102(a) includes a listing of CACO's and the contractors for which they are assigned responsibility. When the directory indicates that the services of a CACO are available, the provisions of Subpart 42.1 apply to the CACO functions.

42.603 Responsibilities.

(a) The CACO shall perform, on a corporate-wide basis, the contract administration functions (see Subpart 42.3) as designated by the responsible agency. Typical CACO functions include (1) the determination of final indirect cost rates for cost-reimbursement contracts, (2) establishment of advance agreements or recommendations on corporate/home office expense allocations, and (3) administration of Cost Accounting Standards (CAS) applicable to corporate-level and corporate-directed accounting practices.

(b) The CACO shall—

(1) Fully utilize the cognizant contract audit agency financial and advisory accounting services, including (i) advice regarding the acceptability of corporate-wide policies and (ii) advisory audit reports;

(2) Keep cognizant ACO's and auditors informed of important matters under consideration and determinations made; and

(3) Solicit their advice and participation as appropriate.

SUBPART 42.7—INDIRECT COST RATES

42.700 Scope of subpart.

This subpart prescribes policies and procedures for establishing (a) billing rates and (b) final indirect cost rates.

42.701 Definitions.

"Billing rate" means an indirect cost rate (a) established temporarily for interim reimbursement of incurred indirect costs and (b) adjusted as necessary pending establishment of final indirect cost rates.

"Business unit" (see 30.102).

"Final indirect cost rate" means the indirect cost rate established and agreed upon by the Government and the contractor as not subject to change. It is usually established after the close of the contractor's fiscal year (unless the parties decide upon a different period) to which it applies. In the case of cost-reimbursement research and development contracts with educational institutions, it may be predetermined; that is, established for a future period on the basis of cost experience with similar contracts, together with supporting data.

"Indirect cost" (see 31.001 and 31.203).

"Indirect cost rate" means the percentage or dollar factor that expresses the ratio of indirect expense incurred in a given period to direct labor cost, manufacturing cost, or another appropriate base for the same period.

42.702 Purpose.

(a) Establishing final indirect cost rates under this subpart provides—

(1) Uniformity of approach with a contractor when more than one contract or agency is involved;

(2) Economy of administration; and

(3) Timely settlement under cost-reimbursement contracts.

(b) Establishing billing rates provides a method for interim reimbursement of indirect costs at estimated rates subject to adjustment during contract performance and at the time the final indirect cost rates are established.

42.703 Policy.

(a) A single agency (see 42.705-1(a)) shall be responsible for establishing indirect cost rates for each business unit. These rates shall be binding on all agencies and their contracting offices, unless otherwise specifically prohibited by statute.

(b) Billing rates and final indirect cost rates shall be used in reimbursing indirect costs under cost-reimbursement contracts and in determining progress payments under fixed-price contracts.

(c) Contracting officers shall—

(1) Unless the quick-closeout procedure in 42.708 is used, use final indirect cost rates of a business unit for a given period, which shall be binding for all the cost-reimbursement contracts of the business unit for that period, subject to any specific limitation in a contract or advance agreement (when contracts of more than one agency are involved, see 42.101(c)); and

(2) Take into consideration established final indirect cost rates in negotiating the final price of fixed-price incentive and fixed-price redeterminable contracts and in other situations requiring that indirect costs be settled before contract prices are established (see 31.103(b)).

42.704 Billing rates.

(a) The contracting officer or auditor responsible under 42.705 for determining the final indirect cost rate ordinarily shall also be responsible for determining the billing rate.

(b) The contracting officer or auditor shall establish a billing rate on the basis of information resulting from recent review, previous audits or experience, or similar reliable data or experience of other contracting activities. In establishing the billing rate, the contracting officer or auditor should ensure that it is as close as possible to the final indirect cost rate anticipated for the contractor's fiscal period, as adjusted for any unallowable costs. When the contracting officer or auditor determines that the dollar value of contracts requiring use of a billing rate does not warrant submission of a detailed billing rate proposal, the billing rate may be established by making appropriate adjustments from the prior year's indirect cost experience to eliminate unallowable and nonrecurring costs and to reflect new or changed conditions.

(c) Once established, billing rates may be prospectively or retroactively revised by mutual agreement of the contracting officer or auditor and the contractor at either party's request, to prevent substantial overpayment or underpayment.

(d) The elements of indirect cost and the base or bases used in computing billing rates shall not be construed as determinative of the indirect costs to be distributed or of the bases of distribution to be used in the final settlement.

42.705 Final indirect cost rates.

Final indirect cost rates shall be established on the basis of (a) contracting officer determination procedure (see 42.705-1) or (b) auditor determination procedure (see 42.705-2).

42.705-1 Contracting officer determination procedure.

(a) *Applicability and responsibility.* Contracting officer determination shall be used for the following, with the indicated cognizant contracting officer responsible for establishing the final indirect cost rates:

(1) Business units of a multidivisional corporation under the cognizance of a corporate administrative contracting officer (see Subpart 42.6), with that officer responsible for the determination, assisted, as required, by the administrative contracting officers assigned to the individual business units. Negotiations may be conducted on a coordinated or centralized basis, depending upon the degree of centralization within the contractor's organization.

(2) Business units not under the cognizance of a corporate administrative contracting officer, but having a resident administrative contracting officer (see 42.602), with that officer responsible for the determination. For this purpose, a nonresident administrative contracting officer is considered as resident if at least 75 percent of the administrative contracting officer's time is devoted to a single contractor.

(3) Business units not included in subparagraph (1) or (2) above, but where the predominant interest (on the basis of unliquidated contract dollar amount) is in an agency whose procedures require contracting officer determination. In such cases, the responsible contracting officer will be as designated under that agency's procedures.

(4) Educational institutions (see 42.705-3 for responsibility and procedures).

(5) State and local governments (see 42.705-4).

(6) Nonprofit organizations other than educational and state and local governments (see 42.705-5).

(b) *Procedures.* (1) In accordance with the Allowable Cost and Payment clause at 52.216-7 or 52.216-13, the contractor shall submit to the contracting officer and, if required by agency procedures, to the cognizant auditor a final indirect cost rate proposal reflecting actual cost experience during the covered period, together with supporting cost or pricing data.

(2) The auditor shall submit to the contracting officer an advisory audit report (i) identifying any relevant advance agreements or restrictive terms of specific contracts and (ii) including the information required by 15.805-5(e).

(3) The contracting officer shall head the Government negotiating team, which includes the cognizant auditor and technical or functional personnel as required. Contracting offices having significant dollar interest shall be invited to participate in the negotiation and in the preliminary discussion of critical issues. Individuals or offices that have provided a significant input to the Government position should be invited to attend.

(4) The Government negotiating team shall develop a negotiation position.

(5) The cognizant contracting officer shall—

(i) Conduct negotiations;

(ii) Prepare a written indirect cost rate agreement conforming to the requirements of the contracts;

(iii) Prepare, sign, and place in the contractor general file (see 4.801(c)(3)) a negotiation memorandum covering (A) the disposition of significant matters in the advisory audit report, (B) reconciliation of all costs questioned, with identification of items and amounts allowed or disallowed in the final settlement as well as the disposition of period costing or allocability issues, (C) reasons why any recommendations of the auditor or other Government advisors were not followed, and (D) identification of cost or pricing data submitted during the negotiations and relied upon in reaching a settlement; and

(iv) Distribute resulting documents in accordance with 42.706.

42.705-2 Auditor determination procedure.

(a) *Applicability and responsibility.* (1) The cognizant Government auditor shall establish final indirect cost rates for business units not covered in 42.705-1(a).

(2) In addition, auditor determination may be used for business units that are covered in 42.705-1(a) when the contracting officer and auditor agree that the indirect costs can be settled with little difficulty and any of the following circumstances apply:

(i) The business unit has primarily fixed-price contracts, with only minor involvement in cost-reimbursement contracts.

(ii) The administrative cost of contracting officer determination would exceed the expected benefits.

(iii) The business unit does not have a history of disputes and there are few cost problems.

(iv) The contracting officer and auditor agree that special circumstances require auditor determination.

(b) *Procedures.* (1) The contractor shall submit to the cognizant contracting officer and auditor a final indirect cost rate proposal reflecting actual cost experience during the covered period,

together with supporting cost or pricing data.

(2) The auditor shall—

(i) Audit the proposal and seek agreement on it with the contractor;

(ii) Obtain from the contractor a Certificate of Current Cost or Pricing Data, if required (see 15.804-4);

(iii) In coordination with the affected contracting officers, prepare an indirect cost rate agreement conforming to the requirements of the contracts;

(iv) Prepare an audit report including the information required by 15.805-5(e);

(v) If agreement with the contractor is not reached, forward the audit report to the contracting officer designated by the agency with the predominant interest (on the basis of unliquidated contract dollar amounts) or, where applicable, the contracting officer designated in 42.705-2(a)(2) above, who will then resolve the disagreement; and

(vi) Distribute resulting documents in accordance with 42.706.

42.705-3 Educational institutions.

(a) *General.* (1) Postdetermined final indirect cost rates shall be used in the settlement of indirect costs for all cost-reimbursement contracts with educational institutions, unless predetermined final indirect cost rates are authorized and used (see paragraph (b) below).

(2) OMB Circular No. A-88, Indirect Cost Rates, Audit, and Audit Followup at Educational Institutions, (i) assigns each educational institution to a single Government agency for the negotiation of indirect cost rates and (ii) provides that those rates shall be accepted by all Federal agencies. Cognizant Government agencies and educational institutions are listed in the Directory of Federal Contract Audit Offices (see 42.102(a)).

(3) The cognizant agency shall establish the billing rates and final indirect cost rates at the educational institution, consistent with the requirements of this subpart, Subpart 31.3, and the OMB Circular. The agency shall follow the procedures outlined in 42.705-1(b).

(4) If the cognizant agency is unable to reach agreement with an institution, the appeals system of the cognizant agency shall be followed for resolution of the dispute.

(b) *Predetermined final indirect cost rates.* (1) Under cost-reimbursement research and development contracts with universities, colleges, or other educational institutions (41 U.S.C. 254a), payment for reimbursable indirect costs may be made on the basis of predetermined final indirect cost rates. The cognizant agency is not required to establish predetermined rates, but if they *are* established, their use must be extended to all the institution's Government contracts.

(2) In deciding whether the use of predetermined rates would be appropriate for the educational institution concerned, the agency should consider both the stability of the institution's indirect costs and bases over a period of years and any anticipated changes in the amount of the direct and indirect costs.

(3) Unless their use is approved at a level in the agency (see subparagraph (a)(2) above) higher than the contracting officer, predetermined rates shall not be used when—

(i) There has been no recent audit of the indirect costs;

(ii) There have been frequent or wide fluctuations in the indirect cost rates and the bases over a period of years; or

(iii) The estimated reimbursable costs for any individual contract are expected to exceed $1 million annually.

(4) (i) If predetermined rates are to be used and no rate has been previously established for the institution's current fiscal year, the agency shall obtain from the institution a proposal for a predetermined rate to be applied until the end of the fiscal year.

(ii) If the proposal is found to be generally acceptable, the agency shall negotiate the predetermined rates with the institution. The rates should be based on an audit of the institution's costs for the year immediately preceding the year in which the rates are being negotiated. If this is not possible, an earlier audit may be used, but appropriate steps should be taken to identify and evaluate significant variations in costs incurred or in bases used that may have a bearing on the reasonableness of the proposed rates. However, in the case of smaller contracts (e.g., $100,000 or less), an audit made at an earlier date is acceptable if (A) there have been no significant changes in the contractor's organization and (B) it is reasonably apparent that another audit would have little effect on the rates finally agreed upon and the potential for overpayment of indirect cost is relatively insignificant.

(5) If predetermined rates are used—

(i) The contracting officer shall include the negotiated rates and bases in the contract Schedule; and

(ii) See 16.307(i), which prescribes the clause at 52.216-15, Predetermined Indirect Cost Rates.

(6) Predetermined indirect cost rates shall be applicable for a period of not more than 1 year. The agency shall obtain the contractor's proposal for a new predetermined rate sufficiently in advance so that the new rate, based on current data, may be promptly negotiated near the beginning of the new fiscal year (see paragraphs (b) and (d) of the clause at 52.216-15, Predetermined Indirect Cost Rates).

(7) Contracting officers shall use billing rates established by the agency to reimburse the contractor for work performed during a period not covered by predetermined rates.

42.705-4 State and local governments.

OMB Circular No. A-87 concerning cost principles for state and local governments (see Subpart 31.6) establishes the cognizant agency concept and procedures for determining a cognizant agency for approving state and local government indirect costs associated with federally-funded programs and activities. The indirect cost rates negotiated by the cognizant agency will be used by all Federal agencies that also award contracts to these same state and local governments.

42.705-5 Nonprofit organizations other than educational and state and local governments.

See OMB Circular No. A-122.

42.706 Distribution of documents.

(a) The contracting officer or auditor shall promptly distribute executed copies of the indirect cost rate agreement to the contractor and to each affected contracting agency and shall provide copies of the agreement for the contract files, in accordance with the guidance for contract modifications in Subpart 4.2, Contract Distribution.

(b) Copies of the negotiation memorandum prepared under contracting officer determination or audit report prepared under auditor determination shall be furnished, as appropriate, to the contracting offices and Government audit offices.

42.707 Cost-sharing rates and limitations on indirect cost rates.

(a) Cost-sharing arrangements, when authorized, may call for the contractor to participate in the costs of the contract by accepting indirect cost rates lower than the anticipated actual rates. In such cases, a negotiated indirect cost rate ceiling may be incorporated into the contract for prospective application. For cost sharing under research and development contracts, see 35.003(b).

(b) (1) Other situations may make it prudent to provide a final indirect cost rate ceiling in a contract. Examples of such circumstances are when the proposed contractor—

(i) Is a new or recently reorganized company, and there is no past or recent record of incurred indirect costs;

(ii) Has a recent record of a rapidly increasing indirect cost rate due to a declining volume of sales without a commensurate decline in indirect expenses; or

(iii) Seeks to enhance its competitive position in a particular circumstance by basing its proposal on indirect cost rates lower than those that may reasonably be expected to occur during contract performance, thereby causing a cost overrun.

(2) In such cases, an equitable ceiling covering the final indirect cost rates may be negotiated and specified in the contract.

(c) When ceiling provisions are utilized, the contract shall also provide that (1) the Government will not be obligated to pay any additional amount should the final indirect cost rates exceed the negotiated ceiling rates and, (2) in the event the final indirect cost rates are less than the negotiated ceiling rates, the negotiated rates will be reduced to conform with the lower rates.

42.708 Quick-closeout procedure.

(a) The contracting officer responsible for contract closeout may negotiate the settlement of indirect costs for a specific contract, in advance of the determination of final indirect cost rates, if—

(1) The contract is physically complete;

(2) The amount of unsettled indirect cost to be allocated to the contract is relatively insignificant; and

(3) Agreement can be reached on a reasonable estimate of allocable dollars.

(b) Determinations of final indirect costs under the quick-closeout procedure provided for by the Allowable Cost and Payment clause at 52.216-7 or 52.216-13 shall be final for the contract it covers and no adjustment shall be made to other contracts for over- or under-recoveries of costs allocated or allocable to the contract covered by the agreement.

(c) Indirect cost rates used in the quick closeout of a contract shall not be considered a binding precedent when establishing the final indirect cost rates for other contracts.

SUBPART 42.8—DISALLOWANCE OF COSTS

42.800 Scope of subpart.

This subpart prescribes policies and procedures for (a) issuing notices of intent to disallow costs and (b) disallowing costs already incurred during the course of performance.

42.801 Notice of intent to disallow costs.

(a) At any time during the performance of a contract of a type referred to in 42.802, the cognizant contracting officer responsible for administering the contract may issue the contractor a written notice of intent to disallow specified costs incurred or planned for incurrence. However, before issuing the notice, the contracting officer responsible for administering the contract shall make every reasonable effort to reach a satisfactory settlement through discussions with the contractor.

(b) A notice of intent to disallow such costs usually results from monitoring contractor costs. The purpose of the notice is to notify the contractor as early as practicable during contract performance that the cost is considered unallowable under the contract terms and to provide for timely resolution of any resulting disagreement. In the event of disagreement, the contractor may submit to the contracting officer a written response. Any such response shall be answered by withdrawal of the notice or by making a written decision within 60 days.

(c) As a minimum, the notice shall—

(1) Refer to the contract's Notice of Intent to Disallow Costs clause;

(2) State the contractor's name and list the numbers of the affected contracts;

(3) Describe the costs to be disallowed, including estimated dollar value by item and applicable time periods, and state the reasons for the intended disallowance;

(4) Describe the potential impact on billing rates and forward pricing rate agreements;

(5) State the notice's effective date and the date by which written response must be received;

(6) List the recipients of copies of the notice; and

(7) Request the contractor to acknowledge receipt of the notice.

(d) The contracting officer issuing the notice shall furnish copies to all contracting officers cognizant of any segment of the contractor's organization.

(e) If the notice involves elements of indirect cost, it shall not be issued without coordination with the contracting officer or auditor having authority for final indirect cost settlement (see 42.705).

(f) In the event the contractor submits a response that disagrees with the notice (see paragraph (b) above), the contracting officer who issued the notice shall either withdraw the notice or issue the written decision, except when elements of indirect cost are involved, in which case the contracting officer responsible under 42.705 for determining final indirect cost rates shall issue the decision.

42.802 Contract clause.

The contracting officer shall insert the clause at 52.242-1, Notice of Intent to Disallow Costs, in solicitations and contracts when a cost-reimbursement contract, a fixed-price incentive contract, or a contract providing for price redetermination is contemplated.

42.803 Disallowing costs after incurrence.

Cost-reimbursement contracts, the cost-reimbursement portion of fixed-price contracts, letter contracts that provide for reimbursement of costs, and time-and-material and labor-hour contracts provide for disallowing costs during the course of performance after the costs have been incurred. The following procedures shall apply:

(a) *Contracting officer receipt of vouchers.* When contracting officers receive vouchers directly from the contractor and, with or without auditor assistance, approve or disapprove them, the process shall be conducted in accordance with the normal procedures of the individual agency.

(b) *Auditor receipt of vouchers.* (1) When authorized by agency regulations, the contract auditor may be authorized to (i) receive reimbursement vouchers directly from contractors, (ii) approve for payment those vouchers found acceptable, and (iii) suspend payment of questionable costs. The auditor shall forward approved vouchers for payment to the cognizant contracting, finance, or disbursing officer, as appropriate under the agency's procedures.

(2) If the examination of a voucher raises a question regarding the allowability of a cost under the contract terms, the auditor, after informal discussion as appropriate, may, where authorized by agency regulations, issue a notice of contract costs suspended and/or disapproved simultaneously to the contractor and the disbursing officer, with a copy to the cognizant contracting officer, for deduction from current payments with respect to costs claimed but not considered reimbursable.

(3) If the contractor disagrees with the deduction from current payments, the contractor may—

(i) Submit a written request to the cognizant contracting officer to consider whether the unreimbursed costs should be paid and to discuss the findings with the contractor;

(ii) File a claim under the Disputes clause, which the cognizant contracting officer will process in accordance with agency procedures; or

(iii) Do both of the above.

SUBPART 42.9—[RESERVED]

SUBPART 42.10—NEGOTIATING ADVANCE AGREEMENTS FOR INDEPENDENT RESEARCH AND DEVELOPMENT/BID AND PROPOSAL COSTS

42.1001 Definitions.

See 31.205-18(a).

42.1002 Applicability.

The procedures in this subpart shall be used for negotiating advance agreements containing dollar ceilings for allowability of independent research and development (IR&D) costs and bid and proposal (B&P) costs, when these agreements are required by 31.205-18(c)(1).

42.1003 Designation of lead negotiating agency.

A single lead agency shall negotiate all required advance agreements for IR&D/B&P costs for each company required to negotiate an advance agreement under 31.205-18(c)(1). These agreements are binding on the company and on all Government agencies, unless prohibited by statute. The lead agency shall be designated as follows:

(a) To implement section 203 of Pub. L. 91-441, as amended by Section 208 of Pub. L. 96-342, the Department of Defense (DOD) shall be the lead agency for each company receiving combined IR&D/B&P payments from DOD during the company's previous fiscal year exceeding the threshold in 31.205-18(c)(1).

(b) When DOD is not the lead agency as indicated in paragraph (a) preceding, and more than one agency has contracts with the company, the agency that paid the largest dollar amount of IR&D/B&P costs in the company's previous fiscal year shall (1) be the lead agency or (2) arrange for another agency having contracts with that company to be the lead agency.

(c) In the case of DOD, the term "lead negotiating agency" means the military service responsible for performing the negotiation of IR&D/B&P costs.

42.1004 Location of negotiators in a central office.

In order to facilitate participation, consistency, and interagency coordination, agencies with negotiating responsibilities shall locate at a central office(s) all personnel responsible for negotiating and executing advance agreements required under 31.205-18(c)(1). These agencies shall issue instructions on the use, by contracting officers, of estimated IR&D/B&P factors in forward pricing, interim billings, etc. Contracting officers shall obtain such factors, when applicable, from the cognizant central office.

42.1005 Lead negotiating agency responsibilities.

The lead agency shall perform the functions listed in paragraphs (a) through (h) following:

(a) Furnish contractors with guidance on the technical and financial information needed to support IR&D/B&P proposals, as well as how and when to submit the proposals.

(b) Perform, or arrange for performance of, a technical evaluation of the IR&D proposed by the contractor, to assist the contracting officer in evaluating the reasonableness and technical quality of the IR&D program. The technical evaluation shall include an opinion concerning the proposed IR&D program and any agency special rules on allowability.

(c) Provide the contractor with a contracting officer's determination concerning the proposed IR&D/B&P projects and any agency special rules on allowability.

(d) When advance agreements have not yet been negotiated, provide information regarding estimated ceilings, the allocation base, and indirect rate data, as appropriate, to contracting officers or other interested agency personnel who require information on IR&D/B&P costs for forward pricing and interim billing.

(e) Coordinate participation by affected agencies in prenegotiation meetings and in negotiations (see 31.109(f)).

(f) Prepare a prenegotiation position in coordination with the affected agencies.

(g) Negotiate advance agreements establishing dollar ceilings for IR&D/B&P costs allowable during the company's fiscal year for allocation to all work of that part of the company's operation covered by the agreement.

(h) Prepare advance agreements and distribute them to affected agencies (see 31.109(g)).

(i) Prepare negotiation memorandums and distribute them to affected agencies upon request. The contracting officer may delete from the distributed copy portions of a memorandum that are not pertinent to the affected agency. When a negotiation memorandum must contain company data subject to protection, that data should be so marked, and, when it is useful and feasible to do so, it may be separated from the body of the memorandum.

42.1006 Conducting negotiations.

(a) Each contractor required to negotiate an advance agreement under 31.205-18(c)(1) shall submit, in accordance with agency guidance, technical and financial information to support its proposed IR&D/B&P programs (see 42.1005(a)). Separate dollar ceilings shall be negotiated for IR&D costs and for B&P costs. In negotiating the ceilings, in addition to other considerations, contracting officers shall pay particular attention to—

(1) Comparison with the previous year's programs, including the level of Government participation;

(2) Changes in the company's current business activities and projected future business activities, to the extent these future activities can be determined with reasonable certainty;

(3) The results of the technical evaluation of IR&D;

(4) The extent to which the company's B&P program is well planned and managed; and

(5) The determination concerning the company's IR&D/B&P projects and any agency special rules on allowability.

(b) Negotiated ceilings must take into account the general rules of reasonableness (see 31.201-3) and the preceding considerations.

42.1007 Content of advance agreements.

Agreements negotiated in accordance with this subpart shall include the items specified in paragraphs (a) through (j) following:

(a) A dollar ceiling for total IR&D costs.

(b) A dollar ceiling for total B&P costs.

(c) A total dollar ceiling for IR&D/B&P costs equal to the sum of paragraphs (a) and (b) above.

(d) The base or other information necessary for allocating IR&D/B&P costs.

(e) A statement that a review in accordance with 42.1005 has been performed.

(f) For those companies meeting the threshold requirements, a provision that the recovery of IR&D/B&P costs under Government contracts shall not exceed the lesser of—

(1) Such contracts' allocable share of incurred costs up to the total ceiling specified in (c) above; or

(2) The amount of incurred costs as determined under any agency special rules on allowability.

(g) Any additional agreements concerning the allocability or allowability of IR&D costs or B&P costs.

(h) A provision stating whether recovery is authorized under either paragraph (a) or (b) above in excess of the established ceiling, provided the total recovery in the two categories does

not exceed the total ceiling in paragraph (c) above.

(i) A requirement that the lesser of (1) the current IR&D/B&P estimates or (2) the appropriate ceiling amounts shall be used by the Government and the contractor for estimating and pricing contractual actions. (Also see (e) above.)

(j) A requirement that the lesser of (1) the actual costs incurred or (2) the appropriate ceiling amounts shall be used by the Government and the contractor for final price determinations. (Also see (f) above.)

42.1008 Administrative appeals.

If negotiations are held and an advance agreement is not reached, the contracting officer shall make a determination of a reduced amount of payment for IR&D/B&P (see 31.205-18(c)(1)(v) and (vi)). Each lead negotiating agency shall establish an administrative appeals hearing group and procedures for hearing and deciding contractor appeals of the contracting officer's decision to reduce payment. Appeal procedures under this section are separate and distinct from board or court appeals under the Contract Disputes Act of 1978 (41 U.S.C. 601-613).

SUBPART 42.11—PRODUCTION SURVEILLANCE AND REPORTING

42.1101 General.

Production surveillance is a function of contract administration used to determine contractor progress and to identify any factors that may delay performance. Production surveillance involves Government review and analysis of (a) contractor performance plans, schedules, controls, and industrial processes and (b) the contractor's actual performance under them.

42.1102 Applicability.

This subpart applies to all contracts for supplies or services other than facilities, construction contracts, and Federal Supply Schedule contracts.

42.1103 Policy.

The contractor is responsible for timely contract performance. The Government will maintain surveillance of contractor performance as necessary to protect its interests. When the contracting office retains a contract for administration, the contracting officer administering the contract shall determine the extent of surveillance.

42.1104 Surveillance requirements.

(a) The contract administration office determines the extent of production surveillance on the basis of (1) the criticality (degree of importance to the Government) assigned by the contracting officer (see 42.1105) to the supplies or services and (2) consideration of the following factors:

(i) Contract requirements for reporting production progress and performance.

(ii) The contract performance schedule.

(iii) The contractor's production plan.

(iv) The contractor's history of contract performance.

(v) The contractor's experience with the contract supplies or services.

(vi) The contractor's financial capability.

(vii) Any supplementary written instructions from the contracting office.

(b) Contracts of values less than the small purchase threshold should not normally require production surveillance.

(c) In planning and conducting surveillance, contract administration offices shall make maximum use of any reliable contractor production control or data management systems.

(d) In performing surveillance, contract administration office personnel shall avoid any action that may (1) be inconsistent with any contract requirement or (2) result in claims of waivers, of changes, or of other contract modifications.

42.1105 Assignment of criticality designator.

Contracting officers shall assign a criticality designator to each contract in the space for designating the contract administration office, as follows:

Criticality Designator	*Criterion*
A	Critical contracts, including DX-rated contracts (see Subpart 12.3), contracts negotiated under public exigency (see 15.202), and contracts for major systems.
B	Contracts (other than those designated "A") for items needed to maintain a Government or contractor production or repair line, to preclude out-of-stock conditions or to meet user needs for nonstock items.
C	All contracts other than those designated "A" or "B."

42.1106 Reporting requirements.

(a) When information on contract performance status is needed, contracting officers may require contractors to submit production progress reports (see 42.1107(a)). Reporting requirements shall be limited to that information essential to Government needs and shall take maximum advantage of data output generated by contractor management systems.

(b) Contract administration offices shall review and verify the accuracy of contractor reports and advise the contracting officer of any required action. The accuracy of contractor-prepared reports shall be verified either by a program of continuous surveillance of the contractor's report-preparation system or by individual review of each report.

(c) The contract administration office may at any time initiate a report to advise the contracting officer (and the inventory manager, if one is designated in the contract) of any potential or actual delay in performance. This advice shall (1) be in writing, (2) be provided in sufficient time for the contracting officer to take necessary action, and (3) provide a definite recommendation, if action is appropriate.

42.1107 Contract clause.

(a) The contracting officer shall insert the clause at 52.242-2, Production Progress Reports, in solicitations and contracts when production progress reporting is required; unless a facilities contract, a construction contract, or a Federal Supply Schedule contract is contemplated.

(b) When the clause at 52.242-2 is used, the contracting officer shall specify appropriate reporting instructions in the Schedule (see 42.1106(a)).

SUBPART 42.12—NOVATION AND CHANGE-OF-NAME AGREEMENTS

42.1200 Scope of subpart.

This subpart prescribes policies and procedures for—

(a) Recognition of a successor in interest to Government contracts when contractor assets are transferred;

(b) Recognition of a change in a contractor's name; and

(c) Execution of novation agreements and change-of-name agreements by the responsible contracting officer.

42.1201 Definitions.

"Change-of-name agreement" means a legal instrument executed by the contractor and the Government that recognizes the legal change of name of the contractor without disturbing the original contractual rights and obligations of the parties.

"Novation agreement" means a legal instrument executed by (a) the contractor (transferor), (b) the successor in interest (transferee), and (c) the Government by which, among other things, the transferor guarantees performance of the contract, the transferee assumes all obligations under the contract, and the Government recognizes the transfer of the contract and related assets.

42.1202 Responsibility for executing agreements.

The contracting officer responsible for processing and executing novation and change-of-name agreements shall be determined as follows:

(a) If any of the affected contracts held by the transferor have been assigned to an administrative contracting officer (ACO) (see 2.1 and 42.202), the responsible contracting officer shall be—

(1) This ACO; or

(2) The ACO responsible for the corporate office, if affected contracts are in more than one plant or division of the transferor.

(b) If none of the affected contracts held by the transferor have been assigned to an ACO, the contracting officer responsible for the largest unsettled (unbilled plus billed but unpaid) dollar balance of contracts shall be the responsible contracting officer.

(c) If several transferors are involved, the responsible contracting officer shall be—

(1) The ACO administering the largest unsettled dollar balance; or

(2) The contracting officer (or ACO) designated by the agency having the largest unsettled dollar balance, if none of the affected contracts have been assigned to an ACO.

42.1203 Processing agreements.

(a) When a firm performing Government contracts wishes the Government to recognize (1) a successor in interest to these contracts or (2) a name change, the contractor shall submit a written request to the responsible contracting officer (see 42.1202).

(b) The responsible contracting officer shall—

(1) Promptly notify each contract administration office and contracting office affected by a proposed agreement for recognizing a successor in interest;

(2) Provide these offices with a list of all affected contracts; and

(3) Request submission within 30 days of their comments, which shall include technical considerations, if appropriate.

(c) The responsible contracting officer shall determine whether or not it is in the Government's interest to recognize the proposed successor in interest on the basis of—

(1) The comments received from the affected contract administration offices and contracting offices (failure to comment by the specified date shall be taken as consent); and

(2) A determination that the proposed successor is responsible under Subpart 9.1, Responsible Prospective Contractors.

(d) Before novation and change-of-name agreements are executed, the responsible contracting officer shall ensure that Government counsel has reviewed them for legal sufficiency.

(e) The responsible contracting officer shall (1) forward a signed copy of the executed novation or change-of-name agreement to the transferor and to the transferee and (2) retain a signed copy in the case file.

(f) Following distribution of the agreement, the responsible contracting officer shall—

(1) Prepare a Standard Form 30, Amendment of Solicitation/Modification of Contract, incorporating a summary of the agreement and attaching a complete list of contracts affected;

(2) Retain the original Standard Form 30 with the attached list in the case file;

(3) Send a signed copy of the Standard Form 30, with attached list to the transferor and to the transferee; and

(4) Send a copy of this Standard Form 30 with attached list to each contract administration office or contracting office involved, which shall be responsible for further appropriate distribution.

42.1204 Agreement to recognize a successor in interest (novation agreement).

(a) The law (41 U.S.C. 15) prohibits transfer of Government contracts. However, the Government may, in its interest, recognize a third party as the successor in interest to a Government contract when the third party's interest in the contract arises out of the transfer of (1) all the contractor's assets or (2) the entire portion of the assets involved in performing the contract. (See 14.404-2(k) for the effect of novation agreements after bid opening but before award.) Examples include but are not limited to—

(i) Sale of these assets with a provision for assuming liabilities;

(ii) Transfer of these assets incident to a merger or corporate consolidation; and

(iii) Incorporation of a proprietorship or partnership, or formation of a partnership.

(b) When it is in the Government's interest not to concur in the transfer of a contract from one company to another company, the original contractor remains under contractual obligation to the Government, and the contract may be terminated for reasons of default, should the original contractor not perform.

(c) When a contractor asks the Government to recognize a successor in interest, the responsible contracting officer shall obtain from the contractor three signed copies of the proposed novation agreement and one copy each, as applicable, of the following:

(1) An authenticated copy of the instrument effecting the transfer of assets; e.g., bill of sale, certificate of merger, contract, deed, agreement, or court decree.

(2) A list of all affected contracts and purchase orders remaining unsettled between the transferor and the Government, showing for each the (i) contract number and type, (ii) name and address of the contracting office, (iii) total dollar value as amended, and (iv) remaining unpaid balance.

(3) A certified copy of each resolution of the corporate parties' boards of directors authorizing the transfer of assets.

(4) A certified copy of the minutes of each corporate party's stockholder meeting necessary to approve the transfer of assets.

(5) An authenticated copy of the transferee's certificate and articles of incorporation, if a corporation was formed for the purpose of receiving the assets involved in performing the Government contracts.

(6) The opinion of legal counsel for the transferor and transferee stating that the transfer was properly effected under applicable law and the effective date of transfer.

(7) Evidence of the transferee's capability to perform the contracts.

(8) Balance sheets of the transferor and transferee as of the dates immediately before and after the transfer of assets, certified for accuracy by independent accountants.

(9) Evidence that any security clearance requirements have been met.

(10) The consent of sureties on all contracts listed under subparagraph (2) above if bonds are required, or a statement from the transferor that none are required.

(d) When recognizing a successor in interest to a Government contract is consistent with the Government's interest, the responsible contracting officer shall execute a novation agreement with the transferor and the transferee. It shall ordinarily provide in part that—

(1) The transferee assumes all the transferor's obligations under the contract;

(2) The transferor waives all rights under the contract against the Government;

(3) The transferor guarantees performance of the contract by the transferee (a satisfactory performance bond may be accepted instead of the guarantee); and

(4) Nothing in the agreement shall relieve the transferor or transferee from compliance with any Federal law.

(e) The responsible contracting officer shall use the following format for agreements when the transferor and transferee are corporations and all the transferor's assets are transferred. This format may be adapted to fit specific cases and may be used as a guide in preparing similar agreements for other situations.

NOVATION AGREEMENT

The ABC CORPORATION (Transferor), a corporation duly organized and existing under the laws of .....[*insert State*] with its principal office in .....[*insert city*]; the XYZ CORPORATION (Transferee), [*if appropriate add "formerly known as the EFG Corporation"*] a corporation duly organized and existing under the laws of .....[*insert State*] with its principal office in .....[*insert city*]; and the UNITED STATES OF AMERICA (Government) enter into this Agreement as of .....[*insert the date transfer of assets became effective under applicable State law*].

(a) THE PARTIES AGREE TO THE FOLLOWING FACTS:

(1) The Government, represented by various Contracting Officers of the .....[*insert name(s) of agency(ies)*], has entered into certain contracts with the Transferor, namely: .....[*insert contract or purchase order identifications*]; [*or delete "namely" and insert "as shown in the attached list marked 'Exhibit A' and incorporated in this Agreement by reference."*]. The term "the contracts," as used in this Agreement, means the above contracts and purchase orders and all other contracts and purchase orders, including all modifications, made between the Government and the Transferor before the effective date of this Agreement (whether or not performance and payment have been completed and releases executed if the Government or the Transferor has any remaining rights, duties, or obligations under these contracts and purchase orders). Included in the term "the contracts" are also all modifications made under the terms and conditions of these contracts and purchase orders between the Government and the Transferee, on or after the effective date of this Agreement.

(2) As of ....., 19.., the Transferor has transferred to the Transferee all the assets of the Transferor by virtue of a .....[*insert term descriptive of the legal transaction involved*] between the Transferor and the Transferee.

(3) The Transferee has acquired all the assets of the Transferor by virtue of the above transfer.

(4) The Transferee has assumed all obligations and liabilities of the Transferor under the contracts by virtue of the above transfer.

(5) The Transferee is in a position to fully perform all obligations that may exist under the contracts.

(6) It is consistent with the Government's interest to recognize the Transferee as the successor party to the contracts.

(7) Evidence of the above transfer has been filed with the Government.

[*When a change of name is also involved; e.g., a prior or concurrent change of the Transferee's name, an appropriate statement shall be inserted (see example in paragraph (8) below)*].

(8) A certificate dated....., 19.., signed by the Secretary of State of .....[*insert State*], to the effect that the corporate name of EFG CORPORATION was changed to XYZ CORPORATION on ....., 19.., has been filed with the Government.

(b) IN CONSIDERATION OF THESE FACTS, THE PARTIES AGREE THAT BY THIS AGREEMENT—

(1) The Transferor confirms the transfer to the Transferee, and waives any claims and rights against the Government that it now has or may have in the future in connection with the contracts.

(2) The Transferee agrees to be bound by and to perform each contract in accordance with the conditions contained in the contracts. The Transferee also assumes all obligations and liabilities of, and all claims against, the Transferor under the contracts as if the Transferee were the original party to the contracts.

(3) The Transferee ratifies all previous actions taken by the Transferor with respect to the contracts, with the same force and effect as if the action had been taken by the Transferee.

(4) The Government recognizes the Transferee as the Transferor's successor in interest in and to the contracts. The Transferee by this Agreement becomes entitled to all rights, titles, and interests of the Transferor in and to the contracts as if the Transferee were the original party to the contracts. Following the effective date of this Agreement, the term "Contractor," as used in the contracts, shall refer to the Transferee.

(5) Except as expressly provided in this Agreement, nothing in it shall be construed as a waiver of any rights of the Government against the Transferor.

(6) All payments and reimbursements previously made by the Government to the Transferor, and all other previous actions taken by the Government under the contracts, shall be considered to have discharged those parts of the Government's obligations under the contracts. All payments and reimbursements made by the Government after the date of this Agreement in the name of or to the Transferor shall have the same force and effect as if made to the Transferee, and shall constitute a complete discharge of the Government's obligations under the contracts, to the extent of the amounts paid or reimbursed.

(7) The Transferor and the Transferee agree that the Government is not obligated to pay or reimburse either of them for, or otherwise give effect to, any costs, taxes, or other expenses, or any related increases, directly or indirectly arising out of or resulting from the transfer or this Agreement, other than those that the Government in the absence of this transfer or Agreement would have been obligated to pay or reimburse under the terms of the contracts.

(8) The Transferor guarantees payment of all liabilities and the performance of all obligations that the Transferee (i) assumes under this Agreement or (ii) may undertake in the future should these contracts be modified under their terms and conditions. The Transferor waives notice of, and consents to, any such future modifications.

(9) The contracts shall remain in full force and effect, except as modified by this Agreement. Each party has executed this Agreement as of the day and year first above written.

42.1205 Agreement to recognize contractor's change of name.

(a) If only a change of the contractor's name is involved and the Government's and contractor's rights and obligations remain unaffected, the parties shall execute an agreement to reflect the name change. The contractor shall forward to the responsible contracting officer three signed copies of the Change-of-Name Agreement, and one copy each of the following:

(1) The document effecting the name change, authenticated by a proper official of the State having jurisdiction.

(2) The opinion of the contractor's legal counsel stating that the change of name was properly effected under

applicable law and showing the effective date.

(3) A list of all affected contracts and purchase orders remaining unsettled between the contractor and the Government, showing for each the (i) contract number and type, (ii) name and address of the contracting office, (iii) total dollar value as amended, and (iv) remaining unpaid balance.

(b) The following suggested format for an agreement may be adapted for specific cases:

CHANGE-OF-NAME AGREEMENT

The ABC CORPORATION (Contractor), a corporation duly organized and existing under the laws of .....[*insert State*], and the UNITED STATES OF AMERICA (Government), enter into this Agreement as of .....[*insert date when the change of name became effective under applicable State law*].

(a) THE PARTIES AGREE TO THE FOLLOWING FACTS:

(1) The Government, represented by various Contracting Officers of the ..... [*insert name(s) of agency(ies)*], has entered into certain contracts and purchase orders with the XYZ CORPORATION, namely: .....[*insert contract or purchase order identifications*]; [*or delete "namely" and insert "as shown in the attached list marked "Exhibit A" and incorporated in this Agreement by reference."*]. The term "the contracts," as used in this Agreement, means the above contracts and purchase orders and all other contracts and purchase orders, including all modifications, made by the Government and the Contractor before the effective date of this Agreement (whether or not performance and payment have been completed and releases executed if the Government or the Contractor has any remaining rights, duties, or obligations under these contracts and purchase orders).

(2) The XYZ CORPORATION, by an amendment to its certificate of incorporation, dated ....., 19.., has changed its corporate name to ABC CORPORATION.

(3) This amendment accomplishes a change of corporate name only and all rights and obligations of the Government and of the Contractor under the contracts are unaffected by this change.

(4) Documentary evidence of this change of corporate name has been filed with the Government.

(b) IN CONSIDERATION OF THESE FACTS, THE PARTIES AGREE THAT—

(1) The contracts covered by this Agreement are amended by substituting the name "ABC CORPORATION" for the name "XYZ CORPORATION" wherever it appears in the contracts; and

(2) Each party has executed this Agreement as of the day and year first above written.

SUBPART 42.13—[RESERVED]

SUBPART 42.14—TRAFFIC AND TRANSPORTATION MANAGEMENT

42.1401 General.

(a) The contract administration office (CAO) shall ensure that instructions to contractors result in the most efficient and economical use of carrier services and equipment. If the transportation data regarding f.o.b. origin contracts is insufficient for Government transportation management purposes, the CAO shall obtain the data used in the evaluation of offers.

(b) Transportation personnel assigned to or supporting the CAO, or appropriate agency personnel, are responsible for—

(1) Furnishing timely routings and releases for port shipments;

(2) Monitoring shipments to provide for carload or truckload quantities when practicable;

(3) Controlling and issuing U.S. Government bills of lading (GBL's) and determining proper freight classification descriptions;

(4) Reviewing documentation to ensure the proper distribution and validation of shipping documents;

(5) Developing, and advising on, transportation cost differentials brought on by proposed changes in contract terms; e.g., delivery schedules;

(6) Determining, for contract requirements, the size and carrying capability of carrier equipment to transport overdimensional and/or overweight supplies, hazardous materials, or supplies requiring special shipping arrangements;

(7) Developing information and reporting movements that may be the basis for negotiating special rates for volume movements or for rate adjustments (see 42.1402(b));

(8) Exercising control of irregularities in preservation, packing, loading, blocking and bracing, and other causes contributing to loss and damage; sealing of carrier equipment and documentation;

(9) Providing information on the use of transit arrangements;

(10) Recommending, when appropriate, prepayment by contractor for f.o.b. origin shipments or parcel post (see 42.1403-2 and 42.1404);

(11) Recommending, when appropriate, the use of commercial forms and procedures for small shipments of a recurring nature if transportation costs do not exceed $100, as authorized in 41 CFR 101-41.304-2 and, for the Department of Defense (DOD), in Chapter 24, Section XVII, paragraphs 120 through 124 of the Military Traffic Management Regulation (MTMR).

(12) Diverting, reconsigning, tracing, and expediting shipments; and

(13) Considering the capabilities of contractors for meeting new or emergency requirements that arise during the contract administration and using these capabilities when appropriate.

(14) Using routings through established consolidation stations when it is in the Government's interest.

(c) Civilian agencies shall consult and cooperate with the Office of Transportation of the General Services Administration (GSA) as required in 41 CFR 101-40. (See 47.105, Transportation assistance, for assistance to civilian Government activities or to military installations.)

42.1402 Volume movements within the continental United States.

(a) (1) For purposes of contract administration, a volume movement is—

(i) In DOD, the aggregate of freight shipments amounting to or exceeding 25 carloads, 25 truckloads, or 500,000 pounds, to move during the contract period from one origin point for delivery to one destination point or area; and

(ii) In civilian agencies, 50 short tons (100,000 pounds) in the aggregate to move during the contract period from one origin point for delivery to one destination point or area.

(2) Transportation personnel assigned to or supporting the CAO, or appropriate agency personnel, shall report planned and actual volume movements in accordance with agency regulations. DOD activities report to the Military Traffic Management Command (MTMC) under the Military Traffic Management Regulation (MTMR). Civilian agencies report to GSA, Office of Transportation, or other designated offices under the Federal Property Management Regulations (FPMR), specifically 41 CFR 101-40.305-2.

(b) Reporting of volume movements permits MTMC and GSA transportation personnel to determine the reasonableness of applicable current rates and, when appropriate, to negotiate adjusted or modified rates.

42.1403 Shipping documents covering f.o.b. origin shipments.

42.1403-1 U.S. Government bills of lading.

(a) Except as provided in 42.1403-2, when a contract specifies delivery of supplies f.o.b. origin with transportation costs to be paid by the Government, the contractor shall make shipments on U.S. Government bills of lading (GBL's), or on other shipping documents prescribed by MTMC in the case of seavan containers, furnished by the CAO or the appropriate agency transportation office. Each agency shall establish appropriate procedures by which the contractor shall obtain GBL's. The contracting officer shall not authorize the contractor to ship on commercial bills of lading for conversion to GBL's unless delivery is extremely urgent and GBL's are not readily available.

(b) The possible application of reduced rates under section 10721 of the Interstate Commerce Act for shipments on commercial bills of lading and the Commercial Bill of Lading Notations clause are discussed at 47.104.

(c) (1) The limited authority for the use of commercial forms and procedures to acquire freight or express transportation for small shipments of a recurring nature when transportation costs do not exceed $100, is prescribed in the Transportation Documentation and Audit Regulation, specifically 41 CFR 101-41.304-2.

(2) For DOD shipments, corresponding guidance is in Chapter 214 of the MTMR.

42.1403-2 Contractor-prepaid commercial bills of lading.

(a) If it is advantageous to the Government, the contracting officer may authorize the contractor to ship by common carriers on commercial bills of lading supplies, which have been acquired f.o.b. origin and are therefore Government property, to domestic destinations, including DOD air and water terminals. Such shipments shall not exceed 150 pounds by commercial air or 1,000 pounds by other commercial carriers and shall not have a security classification.

(b) The contracting officer may authorize the shipments under paragraph (a) above to be consolidated with the contractor's own prepaid shipments for delivery to one or more destinations, if all appropriate f.o.b. origin shipments under one or more Government contracts have been consolidated initially. The contractor may be authorized to consolidate less-than-carload or less-than-truckload Government shipments with its own shipments so that the Government can take advantage of lower carload or truckload freight costs. The Government shall assume its pro rata share of the combined shipment cost. Agency transportation personnel shall evaluate overall transportation costs before authorizing any movement to ensure savings to the Government consistent with other contract and traffic management considerations. When consolidation is authorized, a copy of the commercial bill of lading shall be mailed promptly to each consignee.

(c) Shipments under prepaid commercial bills of lading, as authorized in paragraph (a) above, do not require a contract modification. Unless otherwise provided in the contract, the supplies move for the account of, and at the risk of, the Government. The supplies become Government property when loaded on the carrier's equipment and the contractor has obtained the carrier's receipt. The contractor pays the transportation charges and is reimbursed by the Government. Loss or damage claims shall be processed in accordance with agency regulations.

(d) The contractor's invoice for reimbursement by the Government shall show the prepaid transportation charges or apportioned charges as agreed (see paragraph (b) above), as a separate item for each individual shipment. The contractor shall support the transportation charges with a copy of the carrier's receipted freight bill or other evidence of receipt, except as follows:

(1) A Government agency may determine that receipted freight bills or other evidence of receipt are not required for transportation charges of $25 or less.

(2) A Government agency may pay an invoiced but unsupported transportation charge of $100 or less per transaction (i.e., purchase, invoice, or aggregate billing or payment for multiple purchases), if—

(i) The contractor cannot reasonably provide a receipted freight bill; and

(ii) The agency has determined that the charges are reasonable. Determination of reasonableness may be based on—

(A) Past experience (authenticated transportation charges for similar shipments);

(B) Rate checks;

(C) Copies of previous freight bills submitted by the contractor; or

(D) Other information submitted by the contractor to substantiate the amount claimed.

(3) Receipted freight bills in support of invoiced transportation charges of $100 or less are not required for reimbursement by the Government, if—

(i) The underlying contract specifies retention by the contractor of all records for at least 3 years after final payment under the contract; and

(ii) The contractor certifies that payment of the transportation charges has been made and that the contractor will furnish evidence of payment when requested by the Government.

(e) Shipments and invoices shall not be split to reduce transportation charges to $100 or less per transaction as a means of avoiding the required documented support for the charges. See 42.1403-2(d)(1) for unsupported transportation charges of $25 or less.

42.1404 Shipments by parcel post or other classes of mail.

42.1404-1 Parcel post.

(a) (1) Use of parcel post or other classes of mail permits direct movements from source of supply to the user, without the intermediate documentation that is required when supplies are transported through depots or air or water terminals. However, the use of parcel post and other classes of mail shall be confined to deliveries of mailable matter that meet the size, weight, and distance limitations prescribed by the U.S. Postal Service. Contractors shall not divide delivery quantities into mailable parcels for the purpose of avoiding shipments by other modes of transportation.

(2) When parcel post or other classes of mail are used by contractors, they shall prepay the postage costs by using their own mailing labels or stamps and include prepaid postage costs as separate items in the invoices for supplies shipped.

(b) (1) Use of indicia mail (in lieu of stamps or cancellations) is not authorized. However, deviations from this ban may be granted. A request for a deviation should be processed to the U.S. Postal Service following agency procedures. If a deviation is granted, the agency shall follow the U.S. Postal Service permit requirements.

(2) When indicia mail is authorized, the contractor will be provided with official mailing labels, envelopes, or cards printed "Postage and Fees Paid." These must bear in every case (i) the printed return address of the agency concerned above the printed words "Official Business" and (ii) the proper permit imprint number. The name and address of a private person or firm shall not be shown.

(c) When a contractor uses the contractor's own label for making a shipment to a post office servicing military and other agency consignees outside the United States, the contractor shall stamp or imprint the parcel

immediately above the label in 1/4 inch block letters with (i) the name of the agency and (ii) the words "Official Mail-Contents for Official Use-Exempt from Customs Requirements." This permits identification and expedites handling within the postal system. Use of this marking does not eliminate the requirement for payment of postage by the contractor when so required by the contract or when the contractor is to be reimbursed for the cost of postage.

(d) Contractors may not insure shipments at Government expense for the purpose of recovery in case of loss and/or damage, except that minimum insurance required for the purposes of obtaining receipts at point of origin and upon delivery is authorized.

42.1404-2 Contract clauses.

(a) The contracting officer shall insert the clause at 52.242-10, F.o.b. Origin—Government Bills of Lading or Prepaid Postage, in solicitations and contracts when f.o.b. origin shipments are to be made using Government bills of lading or prepaid postage.

(b) The contracting officer shall insert the clause at 52.242-11, F.o.b. Origin—Government Bills of Lading or Indicia Mail, in solicitations and contracts when f.o.b. origin shipments are to be made using Government bills of lading or indicia mail, if indicia mail has been authorized by the U.S. Postal Service.

42.1405 Discrepancies incident to shipment of supplies.

(a) Discrepancies incident to shipment include overage, shortage, loss, damage, and other discrepancies between the quantity and/or condition of supplies received from commercial carriers and the quantity and/or condition of these supplies as shown on the covering bill of lading or other transportation document. Regulations and procedures for reporting and adjusting discrepancies in Government shipments are in Subpart 40.7 of the Federal Property Management Regulations (41 CFR 101-40.7). (Military installations shall consult "Reporting of Transportation Discrepancies in Shipments," AR 55-38, NAVSUP INST 4610.33C, AFR 75-18, MCO P4610.19, DLAR 4500.15).

(b) Generally, when the place of delivery is f.o.b. origin, the Government consignee at destination is also accountable for the supplies, and all claims or reports dealing with discrepancies shall be initiated at that point in accordance with the property accountability regulations of the agency concerned.

(c) If supplies are acquired on an f.o.b. destination basis, any claim arising from a discrepancy occurring in transit is a matter for settlement between the contractor and the carrier. However, the Government consignee shall (1) notify the carrier of the discrepancy by noting the exception on the carrier's delivery receipt and (2) furnish all available data to the CAO or appropriate agency office, which shall promptly transmit the data to the contractor.

42.1406 Report of shipment.

42.1406-1 Advance notice.

Military (and as required, civilian agency) storage and distribution points, depots, and other receiving activities require advance notice of shipments en route from contractors' plants. Generally, this notification is required only for minimum carload or truckload shipments. It facilitates arrangements for transportation control, labor, space, and use of materials handling equipment at destination. Also, timely receipt of notices by the consignee transportation office precludes the incurring of demurrage and vehicle detention charges.

42.1406-2 Contract clause.

The contracting officer shall insert the clause at 52.242-12, Report of Shipment (RESHIP), in solicitations and contracts when carload or truckload shipments will be made to DOD installations or, as required, to civilian agency facilities.

PART 43—CONTRACT MODIFICATIONS

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

43.000 Scope of part.

This part prescribes policies and procedures for preparing and processing contract modifications for all types of contracts including construction and architect-engineer contracts. It does not apply to—

(a) Orders for supplies or services not otherwise changing the terms of contracts or agreements (e.g., delivery orders under indefinite-delivery contracts); or

(b) Modifications for extraordinary contractual relief (see Part 50).

SUBPART 43.1—GENERAL

43.101 Definitions.

"Administrative change" means a unilateral (see 43.103(b)) contract change, in writing, that does not affect the substantive rights of the parties (e.g., a change in the paying office or the appropriation data).

"Change order" means a written order, signed by the contracting officer, directing the contractor to make a change that the Changes clause authorizes the contracting officer to order without the contractor's consent.

"Contract modification" means any written change in the terms of a contract (see 43.103).

"Effective date" has various meanings based on the circumstances in which it is used:

(a) For a solicitation amendment, change order, or administrative change, the effective date shall be the issue date of the amendment, change order, or administrative change.

(b) For a supplemental agreement, the effective date shall be the date agreed upon by the contracting parties.

(c) For a modification issued as a confirming notice of termination for the convenience of the Government, the effective date of the confirming notice shall be the same as the effective date of the initial notice.

(d) For a modification converting a termination for default to a termination for the convenience of the Government, the effective date shall be the same as the effective date of the termination for default.

(e) For a modification confirming the termination contracting officer's previous letter determination of the amount due in settlement of a contract termination for convenience, the effective date shall be the same as the effective date of the previous letter determination.

"Supplemental agreement" means a contract modification that is accomplished by the mutual action of the parties.

43.102 Policy.

(a) Only contracting officers acting within the scope of their authority are empowered to execute contract modifications on behalf of the Government. Other Government personnel shall not—

(1) Execute contract modifications;

(2) Act in such a manner as to cause the contractor to believe that they have authority to bind the Government; or

(3) Direct or encourage the contractor to perform work that should be the subject of a contract modification.

(b) Contract modifications, including changes that could be issued unilaterally, shall be priced before their execution if this can be done without adversely affecting the interest of the Government. If a significant cost increase could result from a contract modification and time does not permit negotiation of a price, at least a maximum price shall be negotiated unless impractical.

43.103 Types of contract modifications.

Contract modifications are of the following types:

(a) *Bilateral.* A bilateral modification (supplemental agreement) is a contract modification that is signed by the contractor and the contracting officer. Bilateral modifications are used to—

(1) Make negotiated equitable adjustments resulting from the issuance of a change order;

(2) Definitize letter contracts; and

(3) Reflect other agreements of the parties modifying the terms of contracts.

(b) *Unilateral.* A unilateral modification is a contract modification that is signed only by the contracting officer. Unilateral modifications are used, for example, to—

(1) Make administrative changes;

(2) Issue change orders;

(3) Make changes authorized by clauses other than a changes clause (e.g., Property clause, Options clause, Suspension of Work clause, etc.); and

(4) Issue termination notices.

43.104 Notification of contract changes.

(a) When a contractor considers that the Government has effected or may effect a change in the contract that has not been identified as such in writing and signed by the contracting officer, it is necessary that the contractor notify the Government in writing as soon as possible. This will permit the Government to evaluate the alleged change and (1) confirm that it is a change, direct the mode of further performance, and plan for its funding; (2) countermand the alleged change; or (3) notify the contractor that no change is considered to have occurred.

(b) The clause at 52.243-7, Notification of Changes, which is prescribed in 43.106, (1) incorporates the policy expressed in paragraph (a) above; (2) requires the contractor to notify the Government promptly of any Government conduct that the contractor considers a change to the contract, and (3) specifies the responsibilities of the contractor and the Government with respect to such notifications.

43.105 Availability of funds.

(a) The contracting officer shall not execute a contract modification that causes or will cause an increase in funds without having first obtained a certification of fund availability, except for modifications to contracts that—

(1) Are conditioned on availability of funds (see 32.703-2); or

(2) Contain a limitation of cost or funds clause (see 32.704).

(b) The certification required by paragraph (a) above shall be based on the negotiated price, except that modifications executed before agreement on price may be based on the best available estimate of cost.

43.106 Contract clause.

The contracting officer may insert a clause substantially the same as the clause at 52.243-7, Notification of Changes, in solicitations and contracts. The clause is available for use primarily in negotiated research and development or supply contracts for the acquisition of major weapon systems or principal subsystems. If the contract amount is expected to be less than $1,000,000, the clause shall not be used, unless the contracting officer anticipates that situations will arise that may result in a contractor alleging that the Government has effected changes other than those identified as such in writing and signed by the contracting officer.

SUBPART 43.2—CHANGE ORDERS

43.201 General.

(a) Generally, Government contracts contain a changes clause that permits the contracting officer to make unilateral changes, in designated areas, within the general scope of the contract. These are accomplished by issuing written change orders on Standard Form 30, Amendment of Solicitation/Modification of Contract (SF 30), unless otherwise provided (see 43.301).

(b) The contractor must continue performance of the contract as changed, except that in cost-reimbursement or incrementally funded contracts the contractor is not obligated to continue performance or incur costs beyond the limits established in the Limitation of Cost or Limitation of Funds clause (see 32.705-2).

(c) The contracting officer may issue a change order by telegraphic message under unusual or urgent circumstances; *provided*, that—

(1) Copies of the message are furnished promptly to the same addressees that received the basic contract;

(2) Immediate action is taken to confirm the change by issuance of a SF 30;

(3) The message contains substantially the information required by the SF 30 (except that the estimated change in price shall not be indicated), including in the body of the message the statement, "Signed by (Name), Contracting Officer"; and

(4) The contracting officer manually signs the original copy of the message.

43.202 Authority to issue change orders.

Change orders shall be issued by the contracting officer except when authority is delegated to an administrative contracting officer (see 42.202(c)).

43.203 Change order accounting procedures.

(a) Contractors' accounting systems are seldom designed to segregate the costs of performing changed work. Therefore, before prospective contractors submit offers, the contracting officer should advise them of the possible need to revise their accounting procedures to comply with the cost segregation requirements of the Change Order Accounting clause at 52.243-6.

(b) The following categories of direct costs normally are segregable and accountable under the terms of the Change Order Accounting clause:

(1) Nonrecurring costs (e.g., engineering costs and costs of obsolete or reperformed work).

(2) Costs of added distinct work caused by the change order (e.g., new subcontract work, new prototypes, or new retrofit or backfit kits).

(3) Costs of recurring work (e.g., labor and material costs).

43.204 Administration.

(a) *Change order documentation.* When change orders are not forward priced, they require two documents: the change order and a supplemental agreement reflecting the resulting equitable adjustment in contract terms. If an equitable adjustment in the contract price or delivery terms or both can be agreed upon in advance, only a supplemental agreement need be issued, but administrative changes and changes issued pursuant to a clause giving the Government a unilateral right to make a change (e.g., an option clause) initially require only one document.

(b) *Definitization.* (1) Contracting officers shall negotiate equitable

adjustments resulting from change orders in the shortest practicable time.

(2) Administrative contracting officers negotiating equitable adjustments by delegation under 42.302(b)(1), shall obtain the contracting officer's concurrence before adjusting the contract delivery schedule.

(3) Contracting offices and contract administration offices, as appropriate, shall establish suspense systems adequate to ensure accurate identification and prompt definitization of unpriced change orders.

(4) The contracting officer shall ensure that a cost analysis is made, if appropriate, under 15.805 and shall consider the contractor's segregable costs of the change, if available. If additional funds are required as a result of the change, the contracting officer shall secure the funds before making any adjustment to the contract.

(c) *Complete and final equitable adjustments.* To avoid subsequent controversies that may result from a supplemental agreement containing an equitable adjustment as the result of a change order, the contracting officer should—

(1) Ensure that all elements of the equitable adjustment have been presented and resolved; and

(2) Include, in the supplemental agreement, a release similar to the following:

CONTRACTOR'S STATEMENT OF RELEASE

In consideration of the modification(s) agreed to herein as complete equitable adjustments for the Contractor's.....(describe)..... "proposal(s) for adjustment," the Contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to the "proposal(s) for adjustment" (except for .....).

43.205 Contract clauses.

(a) (1) The contracting officer shall insert the clause at 52.243-1, Changes—Fixed-Price, in solicitations and contracts when a fixed-price contract for supplies is contemplated.

(2) If the requirement is for services, other than architect-engineer or other professional services, and no supplies are to be furnished, the contracting officer shall use the clause with its Alternate I.

(3) If the requirement is for services (other than architect-engineer services, transportation, or research and development) and supplies are to be furnished, the contracting officer shall use the clause with its Alternate II.

(4) If the requirement is for architect-engineer or other professional services, the contracting officer shall use the clause with its Alternate III.

(5) If the requirement is for transportation services, the contracting officer shall use the clause with its Alternate IV.

(6) If it is desired to include the clause in solicitations and contracts when a research and development contract is contemplated, the contracting officer shall use the clause with its Alternate V.

(b) (1) The contracting officer shall insert the clause at 52.243-2, Changes—Cost-Reimbursement, in solicitations and contracts when a cost-reimbursement contract for supplies is contemplated.

(2) If the requirement is for services and no supplies are to be furnished, the contracting officer shall use the clause with its Alternate I.

(3) If the requirement is for services and supplies are to be furnished, the contracting officer shall use the clause with its Alternate II.

(4) If the requirement is for construction, the contracting officer shall use the clause with its Alternate III.

(5) If a facilities contract is contemplated, the contracting officer shall use the clause with its Alternate IV.

(6) If it is desired to include the clause in solicitations and contracts when a research and development contract is contemplated, the contracting officer shall use the clause with its Alternate V.

(c) The contracting officer shall insert the clause at 52.243-3, Changes—Time-and-Materials or Labor-Hours, in solicitations and contracts when a time-and-materials or labor-hour contract is contemplated.

(d) The contracting officer shall insert the clause at 52.243-4, Changes, in solicitations and contracts for (1) dismantling, demolition, or removal of improvements; and (2) construction, when a fixed-price contract is contemplated and the contract amount is expected to exceed the applicable small purchase limitation in Part 13.

(e) The contracting officer shall insert the clause at 52.243-5, Changes and Changed Conditions, in solicitations and contracts for construction, when the contract amount is not expected to exceed the applicable small purchase limitation in Part 13.

(f) The contracting officer may insert a clause, substantially the same as the clause at 52.243-6, Change Order Accounting, in solicitations and contracts for supply and research and development contracts of significant technical complexity, if numerous changes are anticipated.

SUBPART 43.3—FORMS

43.301 Use of forms.

(a) (1) The Standard Form 30 (SF 30), Amendment of Solicitation/Modification of Contract, shall (except for the options stated in 43.301(a)(2)) be used for—

(i) Any amendment to a solicitation;

(ii) Change orders issued under the Changes clause of the contract;

(iii) Any other unilateral contract modification issued under a contract clause authorizing such modification without the consent of the contractor;

(iv) Administrative changes such as the correction of typographical mistakes, changes in the paying office, and changes in accounting and appropriation data;

(v) Supplemental agreements (see 43.103); and

(vi) Removal, reinstatement, or addition of funds to a contract.

(2) The SF 30 may be used for (i) modifications that change the price of contracts for the acquisition of petroleum as a result of economic price adjustment, and (ii) termination notices.

(3) If it is anticipated that a change will result in a price change, the estimated amount of the price change shall not be shown on copies of SF 30 furnished to the contractor.

(b) The Standard Form 36 (SF 36), Continuation Sheet, or a blank sheet of paper, may be used as a continuation sheet for a contract modification.

PART 44—SUBCONTRACTING POLICIES AND PROCEDURES

Sec.

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

44.000 Scope of part.

This part prescribes policies and procedures for consent to subcontracts and for review, evaluation, and approval of contractors' purchasing systems.

SUBPART 44.1—GENERAL

44.101 Definitions.

"Approved purchasing system" means a contractor's purchasing system that has been reviewed and approved in accordance with this part.

"Consent to subcontract" means the contracting officer's written consent for the prime contractor to enter into a particular subcontract.

"Contractor," as used in this part, means the total contractor organization or a separate entity of it, such as an affiliate, division, or plant, that performs its own purchasing.

"Contractor purchasing system review (CPSR)" means the complete evaluation of a contractor's purchasing of material and services, subcontracting, and subcontract management from development of the requirement through completion of subcontract performance.

"Subcontract," as used in this part, means any contract as defined in Subpart 2.1 entered into by a subcontractor to furnish supplies or services for performance of a prime contract or a subcontract. It includes but is not limited to purchase orders, and changes and modifications to purchase orders.

"Subcontractor," as used in this part, means any supplier, distributor, vendor, or firm that furnishes supplies or services to or for a prime contractor or another subcontractor.

44.102 Policy.

(a) Consent to subcontracts is required under 44.201 when the subcontract work is complex, the dollar value is substantial, or the Government's interest is not adequately protected by competition and the type of prime contract or subcontract.

(b) Consent requirements may be waived when the contractor's purchasing system has been reviewed and approved in accordance with Subpart 44.3.

SUBPART 44.2—CONSENT TO SUBCONTRACTS

44.201 Consent requirements.

44.201-1 Fixed-price prime contracts.

(a) Consent to subcontracts is not required under prime contracts that are firm-fixed-price or fixed-price with economic price adjustment provisions. (See paragraph (c) below for unpriced modifications.)

(b) If the contractor has an approved purchasing system, consent to subcontracts is not required under other fixed-price prime contracts, except for any subcontracts selected for special surveillance. (See 44.205).

(c) If the contractor does not have an approved purchasing system, consent to the subcontracts specified in paragraph (d) below is required—

(1) Under fixed-price incentive and fixed-price redeterminable prime contracts; and

(2) Under prime contracts that are firm-fixed-price or fixed-price with economic price adjustment provisions, only when a new subcontract results from an unpriced modification to the prime contract.

(d) Under prime contracts required to include the clause at 52.244-1, Subcontracts Under Fixed-Price Contracts, consent is required under paragraph (c) above for any subcontract that is—

(1) To be a cost-reimbursement, time-and-materials, or labor-hour contract estimated to be over $25,000, including any fee;

(2) Estimated to be over $100,000 (or less if the contract clause has been modified as permitted by its preface); or

(3) One of a number of subcontracts, under the prime contract, with a single subcontractor for the same or related supplies or services, which in the aggregate are estimated to be over $100,000 (or less, if the contract clause has been modified as permitted by its preface).

44.201-2 Cost-reimbursement and letter prime contracts.

(a) Consent is required under cost-reimbursement and letter prime contracts (except facilities contracts) for subcontracts (1) for fabrication, purchase, rental, installation, or other acquisition of special test equipment valued at more than $10,000 or of any items of industrial facilities, or (2) that have experimental, developmental, or research work as one of their purposes.

(b) If the contractor does not have an approved purchasing system, consent is also required, under cost-reimbursement and letter prime contracts for (1) cost-reimbursement, time-and-materials, or labor-hour subcontracts and (2) fixed-price subcontracts that exceed either $25,000 or 5 percent of the total estimated cost of the prime contract.

(c) If the contractor has an approved purchasing system, consent is not required for the subcontracts identified in paragraph (b) above, but advance notification is still required by 10 U.S.C. 2306(e) or 41 U.S.C 254(b).

(d) In contracts for acquisition of major systems, subsystems, or their components (see Part 34), consent is required for the subcontracts identified in paragraph (b) above, even though the contractor has an approved purchasing system.

44.201-3 Other prime contracts.

Except for purchase of raw material or commercial stock items, consent is required for all subcontracts under time-and-material contracts. Consent is required for subcontracts under prime contracts for—

(a) Architect-engineer services; and

(b) Mortuary services, refuse service, or shipment and storage of personal property, when an agency requires prior approval of subcontractors' facilities.

44.201-4 Contractor use of Government sources.

The contracting officer's written authorization for the contractor to purchase from Government sources (see Part 51) constitutes consent.

44.202 Contracting officer's evaluation.

44.202-1 Responsibilities.

(a) The cognizant administrative contracting officer (ACO) is responsible for consent to subcontracts, except when the contracting officer retains the contract for administration or withholds the consent responsibility from delegation to the ACO. In such cases, the contract administration office should assist the contracting office in its evaluation as requested.

(b) The responsible contracting officer shall—

(1) Promptly evaluate the contractor's requests for consent to subcontract;

(2) Obtain assistance in the evaluation from subcontracting, audit, pricing, technical, or other specialists as necessary; and

(3) Notify the contractor in writing of consent or the withholding of consent, including any changes or corrections required.

44.202-2 Considerations.

(a) The contracting officer responsible for consent shall review the request and supporting data and consider the following:

(1) Is the decision to subcontract consistent with the contractor's approved make-or-buy program, if any (see Subpart 15.7)?

(2) Is the subcontract for special test equipment or facilities that are available from Government sources (see Subpart 45.3)?

(3) Is the selection of the particular supplies, equipment, or services technically justified?

(4) Has the contractor complied with the prime contract requirements regarding labor surplus area or small business subcontracting, including, if applicable, its plan for subcontracting with small business concerns and small disadvantaged business concerns (see Part 19)?

(5) Was adequate price competition obtained or its absence properly justified?

(6) Did the contractor adequately assess and dispose of subcontractors' alternate proposals, if offered?

(7) Does the contractor have a sound basis for selecting and determining the responsibility of the particular subcontractor?

(8) Has the contractor performed adequate cost or price analysis or price comparisons and obtained accurate, complete, and current cost or pricing data, including any required certifications?

(9) Is the proposed subcontract type appropriate for the risks involved and consistent with current policy?

(10) Has adequate consideration been obtained for any proposed subcontract that will involve the use of Government-furnished facilities?

(11) Has the contractor adequately and reasonably translated prime contract technical requirements into subcontract requirements?

(12) Does the prime contractor comply with applicable cost accounting standards for awarding the subcontract?

(13) Is the proposed subcontractor on the Consolidated List of Debarred, Suspended, and Ineligible Contractors (see Subpart 9.4)?

(b) Particularly careful and thorough consideration under paragraph (a) above is necessary when—

(1) The prime contractor's purchasing system or performance is inadequate;

(2) Close working relationships or ownership affiliations between the prime and subcontractor may preclude free competition or result in higher prices;

(3) Subcontracts are proposed for award on a non-competitive basis, at prices that appear unreasonable, or at prices higher than those offered to the Government in comparable circumstances; or

(4) Subcontracts are proposed on a cost-reimbursement, time-and-materials, or labor-hour basis.

44.203 Consent limitations.

(a) The contracting officer's consent to a subcontract or approval of the contractor's purchasing system does not constitute a determination of the acceptability of the subcontract terms or price, or of the allowability of costs, unless the consent or approval specifies otherwise.

(b) Contracting officers shall not consent to—

(1) Cost-reimbursement subcontracts if the fee exceeds the fee limitations of 16.301-3;

(2) Subcontracts providing for payment on a cost-plus-a-percentage-of-cost basis;

(3) Subcontracts obligating the contracting officer to deal directly with the subcontractor;

(4) Subcontracts that make the results of arbitration, judicial determination, or voluntary settlement between the prime contractor and subcontractor binding on the Government; or

(5) Repetitive or unduly protracted use of cost-reimbursement, time-and-materials, or labor-hour subcontracts (contracting officers should follow the principles of 16.103(c)).

(c) Contracting officers should not refuse consent to a subcontract merely because it contains a clause giving the subcontractor the right of indirect appeal to an agency board of contract appeals if the subcontractor is affected by a dispute between the Government and the prime contractor. Indirect appeal means assertion by the subcontractor of the prime contractor's right to appeal or the prosecution of an appeal by the prime contractor on the subcontractor's behalf. The clause may also provide that the prime contractor and subcontractor shall be equally bound by the contracting officer's or board's decision. The clause may not attempt to obligate the contracting officer or the appeals board to decide questions that do not arise between the Government and the prime contractor or that are not cognizable under the clause at 52.233-1, Disputes.

44.204 Contract clauses.

(a) *Fixed-price contracts.* (1) Except as specified in (a)(2) below, the contracting officer—

(i) Shall insert the clause at 52.244-1, Subcontracts Under Fixed-Price Contracts, in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to exceed $500,000; and

(ii) May insert the clause in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is not expected to exceed $500,000, if the contracting officer determines that its use will be in the Government's interest.

(2) The clause shall not be used (i) in solicitations and contracts for mortuary services, refuse services, or shipment and storage of personal property, when an agency prescribed clause on approval of subcontractors' facilities is required, or (ii) in architect-engineer contracts.

(3) If the contracting officer elects to delete the requirement for advance notification of, or consent to, any subcontracts that were evaluated during negotiations (this election is not authorized for acquisition of major systems and subsystems or their components), the contracting officer shall use the clause with its Alternate I. See also 44.205.

(b) *Cost-reimbursement and letter contracts.* The contracting officer shall insert the clause at 52.244-2, Subcontracts Under Cost-Reimbursement and Letter Contracts, in solicitations and contracts when a cost-reimbursement or letter contract is contemplated. See also 44.205.

(c) *Time-and-materials and labor-hour contracts.* The contracting officer shall insert the clause at 52.244-3, Subcontracts Under Time-and-Materials and Labor-Hour Contracts, in solicitations and contracts when a time-and-materials and labor-hour contract is contemplated.

(d) *Architect-engineer contracts.* The contracting officer shall insert the clause at 52.244-4, Subcontractors and Outside Associates and Consultants, in fixed-price architect-engineer contracts.

(e) *Competition in subcontracting.* The contracting officer shall, when contracting by negotiation, insert the clause at 52.244-5, Competition in Subcontracting, in solicitations and contracts when the contract amount is expected to exceed the appropriate small purchase limitation in Part 13, unless—

(1) A firm-fixed-price contract, awarded on the basis of adequate price competition or whose prices are set by law or regulation, is contemplated; or

(2) A contract of the type and/or purpose identified in paragraphs (c) and (d) above is contemplated.

44.205 Special surveillance.

In exceptional circumstances, contracting officers may select subcontracts requiring extraordinary Government surveillance for special

surveillance, by specifying the selected subcontracts in the prime contract Schedule.

SUBPART 44.3—CONTRACTORS' PURCHASING SYSTEMS REVIEWS

44.301 Objective.

The objective of a contractor purchasing system review (CPSR) is to evaluate the efficiency and effectiveness with which the contractor spends Government funds and complies with Government policy when subcontracting. The review provides the administrative contracting officer (ACO) a basis for granting, withholding, or withdrawing approval of the contractor's purchasing system.

44.302 Requirements.

(a) Except as provided in paragraph (b) below, a CPSR shall be conducted for each contractor whose negotiated sales to the Government are expected to exceed $10 million during the next 12 months. Such sales include those represented by prime contracts, subcontracts under Government prime contracts, and modifications to competitively awarded contracts and formally advertised contracts (except when the negotiated price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public, or is set by law or regulation). Generally, a CPSR is not performed for a specific contract. The head of the agency responsible for contract administration may raise or lower the $10 million review level if such action is considered to be in the Government's best interest.

(b) A CPSR shall be conducted by the cognizant contract administration agency (see Subpart 42.3) at least every 3 years for contractors that continue to meet the requirements of paragraph (a) above. This review may be accomplished at one time or on a continuing basis. A more frequent review cycle may be established if warranted (e.g., when resident surveillance personnel are not assigned), and special reviews may be conducted when information reveals a deficiency or major change in the contractor's purchasing system.

44.303 Extent of review.

A CPSR requires a complete evaluation of the contractor's purchasing system. The considerations listed in 44.202-2 for consent evaluations of particular subcontracts shall also be used to evaluate the contractor's purchasing system, including the contractor's policies, procedures, and performance under that system. Special attention shall be given to—

(a) The degree of price competition obtained;

(b) Pricing policies and techniques, including methods of obtaining accurate, complete, and current cost or pricing data and certification as required;

(c) Methods of evaluating subcontractors' responsibility;

(d) Treatment accorded affiliates and other concerns having close working arrangements with the contractor;

(e) Policies and procedures pertaining to labor surplus area concerns and small business concerns, including small disadvantaged business concerns;

(f) Planning, award, and postaward management of major subcontract programs;

(g) Compliance with Cost Accounting Standards in awarding subcontracts; and

(h) Appropriateness of types of contracts used (see 16.103).

44.304 Surveillance.

(a) In the period between complete CPSR's, the ACO shall maintain a sufficient level of surveillance to assure that the contractor is effectively managing its purchasing program. The ACO shall make a determination annually to (1) continue approval based on surveillance or (2) request a CPSR or special review as a basis for continuing or withdrawing approval.

(b) Surveillance shall be accomplished in accordance with a plan developed by the ACO with the assistance of subcontracting, audit, pricing, technical, or other specialists as necessary. The plan shall cover pertinent phases of a contractor's purchasing system (preaward, postaward, performance, and contract completion) and pertinent operations that affect the contractor's purchasing and subcontracting. The plan shall also provide for reviewing the effectiveness of the contractor's corrective actions taken as a result of previous Government recommendations. Duplicative reviews of the same areas by CPSR and other surveillance monitors shall be avoided.

44.305 Granting, withholding, or withdrawing approval.

44.305-1 Responsibilities.

(a) The cognizant ACO is responsible for granting, withholding, or withdrawing approval of a contractor's purchasing system. The ACO shall—

(1) Approve a purchasing system only after a CPSR discloses that the contractor's purchasing policies and practices are efficient and provide adequate protection of the Government's interests;

(2) Between CPSR's, determine annually whether there are any significant deviations from approved policies and practices that would indicate a need for a special review or new CPSR to decide whether or not to withdraw approval; and

(3) Promptly notify the contractor in writing of the granting, withholding, or withdrawing of approval.

(b) If, upon expiration of approval of the contractor's purchasing system, the ACO has not specifically withheld, continued, or withdrawn approval, the approval shall continue for another 90 days. Any further extension requires written approval at least one level higher than the ACO.

44.305-2 Notification.

(a) The notification granting initial system approval or continuation of system approval shall include—

(1) Identification of the plant or plants where the review was conducted;

(2) The effective date of approval and period for which approval is valid;

(3) A statement that system approval—

(i) Applies to all Federal Government contracts at that plant to the extent that cross-servicing arrangments exist;

(ii) Waives the contractual requirement for advance notification in fixed-price contracts, but not for cost-reimbursement contracts;

(iii) Waives the contractual requirement for consent to subcontracts in fixed-price contracts and for specified subcontracts in cost-reimbursement contracts but not for those subcontracts, if any, selected for special surveillance and identified in the contract Schedule;

(iv) Shall automatically terminate at the end of the approval period (or approval period as extended);

(v) Shall automatically terminate when any significant change occurs in the system unless approved by the ACO; and

(vi) May be withdrawn at any time at the ACO's discretion.

(b) In exceptional circumstances, consent to certain subcontracts or classes of subcontracts may be required even though the contractor's purchasing system has been approved. The system approval notification shall identify the class or classes of subcontracts requiring consent. Reasons for selecting the subcontracts include the fact that a CPSR or continuing surveillance has revealed sufficient weaknesses in a particular area of subcontracting to warrant special attention by the ACO.

(c) When recommendations are made for improvement of an approved system, the contractor shall be requested to reply within 15 days with a position regarding the recommendations.

44.305-3 Withholding or withdrawing approval.

(a) The ACO shall withhold or withdraw approval of a contractor's purchasing system when there are major weaknesses or when the contractor is unable to provide sufficient information upon which to make an affirmative determination. The ACO may withdraw approval at any time on the basis of a determination that there has been a deterioration of the contractor's purchasing system or to protect the Government's interest. Approval shall be withheld or withdrawn when there is a recurring noncompliance with requirements, including but not limited to—

(1) Cost or pricing data (see 15.804);

(2) Implementation of cost accounting standards (see Part 30);

(3) Advance notification as required by the clauses prescribed in 44.204; or

(4) Small business subcontracting (see Subpart 19.7).

(b) When approval of the contractor's purchasing system is withheld or withdrawn, the ACO shall within 10 days after completing the in-plant review (1) inform the contractor in writing, (2) specify the deficiencies that must be corrected to qualify the system for approval, and (3) request the contractor to furnish within 15 days a plan for accomplishing the necessary actions. If the plan is accepted, the ACO shall make a follow-up review as soon as the contractor notifies the ACO that the deficiencies have been corrected.

44.306 Disclosure of approval status.

Upon request, the ACO may inform a contractor that the purchasing system of a proposed subconcontractor has been approved, but shall caution that the Government will not keep the contractor advised of any changes in the approval status. If the proposed subcontractor's purchasing system has not been examined or approved, the contractor shall be so advised.

44.307 Reports.

The ACO shall distribute copies of CPSR reports; notifications granting, continuing, withholding, or withdrawing system approval; and Government recommendations for improvement of an approved system, including the contractor's response, to at least—

(a) The cognizant contract audit office;

(b) Activities prescribed by the cognizant agency; and

(c) The contractor (except that furnishing copies of the contractor's response is optional).

PART 45—GOVERNMENT PROPERTY

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

45.000 Scope of part.

This part prescribes policies and procedures for providing Government property to contractors, contractors' use and management of Government property, and reporting, redistributing, and disposing of contractor inventory. It does not apply to providing property under any statutory leasing authority, except as to non-Government use of plant equipment under 45.407; to property to which the Government has acquired a lien or title solely because of partial, advance, or progress payments; or to disposal of real property.

SUBPART 45.1—GENERAL

45.101 Definitions.

(a) "Contractor-acquired property," as used in this part, means property acquired or otherwise provided by the contractor for performing a contract and to which the Government has title.

"Government-furnished property," as used in this part, means property in the possession of or directly acquired by the Government and subsequently made available to the contractor.

"Government property" means all property owned by or leased to the Government or acquired by the Government under the terms of the contract. It includes Government-furnished property.

"Plant equipment," as used in this part, means personal property of a capital nature (including equipment, machine tools, test equipment, furniture, vehicles, and accessory and auxiliary items) for use in manufacturing supplies, in performing services, or for any administrative or general plant purpose. It does not include special tooling or special test equipment.

"Property," as used in this part, means all property, both real and personal. It includes facilities, material, special tooling, special test equipment, and agency-peculiar property.

"Real property," as used in this part, means land and rights in land, ground improvements, utility distribution systems, and buildings and other structures. It does not include foundations and other work necessary for installing special tooling, special test equipment, or plant equipment.

"Special test equipment," as used in this part, means either single or multipurpose integrated test units engineered, designed, fabricated, or modified to accomplish special purpose testing in performing a contract. It consists of items or assemblies of equipment that are interconnected and interdependent so as to become a new functional entity for special testing purposes. It does not include material, special tooling, facilities (except foundations and similar improvements necessary for installing special test equipment), and plant equipment items used for general plant testing purposes.

"Special tooling," as used in this part, means jigs, dies, fixtures, molds, patterns, taps, gauges, other equipment and manufacturing aids, all components of these items, and replacement of these items, which are of such a specialized nature that without substantial modification or alteration their use is limited to the development or production of particular supplies or parts thereof or to the performance of particular services. It does not include material, special test equipment, facilities (except foundations and similar improvements necessary for installing special tooling), general or special machine tools, or similar capital items.

(b) Additional definitions also applying throughout this part appear in those subparts where the terms are most frequently used.

45.102 Policy.

Contractors are ordinarily required to furnish all property necessary to perform Government contracts. However, if contractors possess Government property, agencies shall—

(a) Eliminate to the maximum practical extent any competitive advantage that might arise from using such property;

(b) Require contractors to use Government property to the maximum practical extent in performing Government contracts;

(c) Permit the property to be used only when authorized;

(d) Charge appropriate rentals when the property is authorized for use on other than a rent-free basis;

(e) Require contractors to be responsible and accountable for, and keep the Government's official records of Government property in their possession or control (but see 45.105);

(f) Require contractors to review and provide justification for retaining Government property not currently in use; and

(g) Ensure maximum practical reutilization of contractor inventory (see 45.601) within the Government.

45.103 Responsibility and liability for Government property.

(a) Contractors are responsible and liable for Government property in their possession, unless otherwise provided by the contract.

(b) Generally, Government contracts do not hold contractors liable for loss of or damage to Government property when the property is provided under—

(1) Negotiated fixed-price contracts for which the contract price is not based upon (i) adequate price competition, (ii) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (iii) prices set by law or regulation;

(2) Cost-reimbursement contracts; or

(3) Facilities contracts.

(c) When justified by the circumstances, the contract may require the contractor to assume greater liability for loss of or damage to Government property than that contemplated by the

Government property clauses or the clause at 52.245-8, Liability for the Facilities. For example, this may be the case when the contractor is using Governmment property primarily for commercial work rather than Government work.

(d) If the Government provides Government property directly to a subcontractor, the terms of paragraph (b) above shall apply to the subcontractor.

(e) Subcontractors are liable for loss of or damage to Government property furnished through a prime contractor. However, if the prime contract is of a type listed in subparagraph (b)(1) or (2) above, the prime contractor may, after obtaining the contracting officer's consent, reduce the subcontractor's liability by including in the subcontract a clause similar to paragraph (g), Limited risk of loss, as provided in Alternate I of the clause at 52.245-2, Government Property (Fixed-Price Contracts), (for fixed-price contracts) or similar to the same paragraph of the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts) (for cost-reimbursement contracts). Before consenting to a clause that reduces the subcontractor's liability, the contracting officer should ensure that the Government's interests are sufficiently protected.

(f) A prime contractor that provides Government property to a subcontractor shall not be relieved of any responsibility to the Government that the prime contractor may have under the terms of the prime contract.

45.104 Review and correction of contractors' property control systems.

(a) The review and approval of a contractor's property control system shall be accomplished by the agency responsible for contract administration at a contractor's plant or installation. The review and approval of a contractor's property control system by one agency shall be binding on all other departments and agencies based on interagency agreements.

(b) The contracting officer or the representative assigned the responsibility as property administrator shall review contractors' property control systems to assure compliance with the Government property clauses of the contract.

(c) The property administrator shall notify the contractor in writing when its property control system does not comply with Subpart 45.5 or other contract requirements and shall request prompt correction of deficiencies. If the contractor does not correct the deficiencies within a reasonable period, the property administrator shall request action by the contracting officer administering the contract. The contracting officer shall—

(1) Notify the contractor in writing of any required corrections and establish a schedule for completion of actions;

(2) Caution the contractor that failure to take the required corrective actions within the time specified will result in withholding or withdrawing system approval; and

(3) Advise the contractor that its liability for loss of or damage to Government property may increase if approval is withheld or withdrawn.

45.105 Records of Government property.

(a) Contractor records of Government property established and maintained under the terms of the contract are the Government's official Government property records. Duplicate official records shall not be furnished to or maintained by Government personnel, except as provided in paragraph (b) below.

(b) Contracts may provide for the contracting office to maintain the Government's official Government property records when the contracting office retains contract administration and Government property is furnished to a contractor (1) for repair or servicing and return to the shipping organization, (2) for use on a Government installation, (3) under a local support service contract, (4) under a contract with a short performance period or involving Government property having an acquisition cost of $25,000 or less, or (5) when otherwise determined by the contracting officer to be in the Government's interest.

45.106 Government property clauses.

This section prescribes the principal Government property clauses. Other clauses pertaining to Government property are prescribed in Subpart 45.3.

(a) The contracting officer shall insert the clause at 52.245-1, Property Records, in solicitations and contracts when the conditions in 45.105(b) exist and the Government maintains the Government's official Government property records.

(b) (1) The contracting officer shall insert the clause at 52.245-2, Government Property (Fixed-Price Contracts), in solicitations and contracts when a fixed-price contract is contemplated, except as provided in paragraphs (d) and (e) below.

(2) If the contract is a negotiated fixed-price contract for which prices are not based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall use the clause with its Alternate I.

(3) If the contract is for the conduct of basic or applied research at nonprofit institutions of higher education or at nonprofit organizations whose primary purpose is the conduct of scientific research (see 35.014), the contracting officer shall use the clause with its Alternate II.

(c) The contracting officer shall insert the clause at 52.245-3, Identification of Government-Furnished Property, in addition to the clause at 52.245-2, Government Property (Fixed-Price Contracts), in solicitations and contracts when a fixed-price construction contract is contemplated under which the Government is to furnish Government property f.o.b. railroad cars at a specified destination or f.o.b. truck at the project site. The contract Schedule shall specify the point of delivery and may include special terms and conditions covering installation, preparation for operation, or equipment testing by the Government or by another contractor.

(d) The contracting officer may insert the clause at 52.245-4, Government-Furnished Property (Short Form), in solicitations and contracts when a fixed-price, time-and-material, or labor-hour contract is contemplated and (1) the acquisition cost of all Government-furnished property to be involved in the contract is $50,000 or less or (2) all Government-furnished property will be located at a Government-controlled worksite or installation and the contracting office will retain contract administration; unless a contract with an educational or nonprofit organization is contemplated.

(e) When the cost of the property furnished does not exceed $10,000, purchase orders for property repair need not include a Government property clause.

(f) (1) The contracting officer shall insert the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts), in solicitations and contracts when a cost-reimbursement, time-and-material, or labor-hour contract is contemplated, except as provided in paragraph (d) above.

(2) If the contract is for the conduct of basic or applied research at nonprofit institutions of higher education or at nonprofit organizations whose primary purpose is the conduct of scientific research (see 35.014), the contracting

officer shall use the clause with its Alternate I.

(g) The contracting officer shall insert the clause at 52.245-6, Liability for Government Property (Demolition Services), in addition to the clauses prescribed at 37.304, in solicitations and contracts for dismantling, demolition, or removal of improvements.

SUBPART 45.2—COMPETITIVE ADVANTAGE

45.201 General.

(a) The contracting officer shall, to the maximum practical extent, eliminate competitive advantage accruing to a contractor possessing Government production and research property (see 45.301). This is done by (1) adjusting the offers of those contractors by applying, for evaluation purposes only, a rental equivalent evaluation factor or, (2) when adjusting offers is not practical, by charging the contractor rent for using the property. Applying a rental equivalent factor is not appropriate in awarding negotiated contracts when the contracting officer determines that using the factor would not affect the choice of contractors.

(b) In evaluating offers, the contracting officer shall also consider any costs or savings to the Government related to providing such property, regardless of any competitive advantage that may result (see 45.202-3).

45.202 Evaluation procedures.

45.202-1 Rental equivalents.

If a rental equivalent evaluation factor is used, it shall be equal to the rent allocable to the proposed contract that would otherwise have been charged for the property, as computed in accordance with the clause at 52.245-9, Use and Charges. (See 45.205(b) for solicitation requirements.)

45.202-2 Rent.

If using a rental equivalent evaluation factor is not practical, and the competitive advantage is to be eliminated by charging rent, any offeror or subcontractor may use Government production and research property after obtaining the written approval of the contacting officer having cognizance of the property. Rent shall be charged in accordance with 45.403.

45.202-3 Other costs and savings.

(a) If furnishing Government production and research property will result in direct measurable costs that the Government must bear, additional factors shall be considered in evaluating bids or proposals. These factors shall be specified in the solicitation either as dollar amounts or as formulas and shall be limited to the cost of—

(1) Reactivation from storage;

(2) Rehabilitation and conversion; and

(3) Making the property available on an f.o.b. basis.

(b) If, under the terms of the solicitation, the contractor will bear the transportation cost of furnishing Government production and research property or the cost of making it suitable for use (such as when property is offered on an "as is" basis (see 45.308)), no additional evaluation factors related to those costs shall be used.

(c) If using Government production and research property will result in measurable savings to the Government, the dollar amount of these savings shall be specified in the solicitation and used in evaluating offers. Examples of such savings include—

(1) Savings occurring as a direct result of activating tools being maintained in idle status at known cost to the Government; and

(2) Avoiding the costs of deactivating and placing tools in layaway or storage or of maintaining them in an idle state, if the prospective costs are known. For these costs to be included in the evaluation, firm decisions must have been made that the tools will be laid away or stored if not used on the proposed contract and that such costs are not merely being deferred.

45.203 Postaward utilization requests.

When, after award, a contractor requests the use of special tooling or special test equipment, the administrative contracting officer shall obtain a fair rental or other adequate consideration if use is authorized. The value of the items, if known, and any amount included for them in the contract price shall be considered.

45.204 Residual value of special tooling and special test equipment.

(a) In awarding competitively negotiated contracts that permit the acquisition of special tooling or special test equipment, an evaluation may be made of the residual value of the property to the Government. This evaluation is appropriate when the contracting officer (1) determines that the property will have a reasonably foreseeable usefulness and related residual value beyond the period of use on the proposed contract and (2) anticipates that the cost of the property (as proposed by the several offerors) may be a factor in making the award. This evaluation is not appropriate if the contract will include the special tooling or special test equipment as a contract line item.

(b) The purpose of evaluating the residual value of special tooling or special test equipment is to apportion to each proposal only that part of the total cost of the property that represents the amount of useful life to be consumed during contract performance. Accordingly, the proposed price or cost may be reduced for evaluation purposes by an amount representing the residual value of such property to the Government. In estimating residual value, the contracting officer shall consider—

(1) The useful life of the special tooling and special test equipment to be acquired;

(2) Adaptability of the property for use by other contractors or by the Government;

(3) Reasonably foreseeable requirements for future use of the property; and

(4) The scrap or salvage value of the property.

(c) If the contacting officer decides to consider the residual value of special tooling or special test equipment, the solicitation shall so notify offerors and state the Government's reasonably foreseeable future requirements for the property.

45.205 Solicitation requirements.

(a) When Government production and research property (see 45.301) is offered for use in a competitive acquisition, solicitations will ordinarily require the contractor to assume all costs related to making the property available for use (such as payment of all transportation or rehabilitation costs).

(b) The solicitation shall describe the evaluation procedures to be followed, including rental charges or equivalents (see 45.202) and other costs or savings to be evaluated (see 45.202-3), and shall require all offerors to submit with their offers the following information:

(1) A list or description of all Government production and research property that the offeror or its subcontractors propose to use on a rent-free basis. The list shall include property offered for use in the solicitation, as well as property already in possession of the offeror and its subcontractors under other contracts.

(2) Identification of the facilities contract or other instrument under which property already in possession of the offeror and its subontractors is held, and the written permission for its use from the contracting officer having cognizance of the property.

(3) The dates during which the property will be available for use (including the first, last, and all

intervening months) and, for any property that will be used concurrently in performing two or more contracts, the amounts of the respective uses in sufficient detail to support proration of the rent.

(4) The amount of rent that would otherwise be charged, computed in accordance with 45.403.

(c) Solicitations shall provide that using Government production and research property (other than as described and permitted in the solicitation (see paragraph (b) above)) will not be authorized under the contract unless such use is approved in writing by the contracting officer cognizant of the property, and either rent calculated in accordance with the clause at 52.245-9, Use and Charges, is charged, or the contract price is reduced by an equivalent amount. (See 45.203 for postaward requests for special tooling and special test equipment and 45.204(c) for solicitation requirements for special tooling and special test equipment with residual value.)

SUBPART 45.3—PROVIDING GOVERNMENT PROPERTY TO CONTRACTORS

45.300 Scope of subpart.

This subpart prescribes policies and procedures for providing Government property to contractors.

45.301 Definitions.

"Agency-peculiar property," as used in this subpart, means Government-owned personal property that is peculiar to the mission of one agency (e.g., military or space property). It excludes Government material, special test equipment, special tooling, and facilities.

"Facilities," as used in this subpart and when used in other than a facilities contract, means property used for production, maintenance, research, development, or testing. It includes plant equipment and real property (see 45.101). It does not include material, special test equipment, special tooling, or agency-peculiar property. When used in a facilities contract, the term includes all property provided under that contract.

"Facilities contract," as used in this subpart, means a contract under which Government facilities are provided to a contractor or subcontractor by the Government for use in connection with performing one or more related contracts for supplies or services. It is used occasionally to provide special tooling or special test equipment. Facilities contracts may take any of the following forms:

(a) A facilities acquisition contract providing for the acquisition, construction, and installation of facilities.

(b) A facilities use contract providing for the use, maintenance, accountability, and disposition of facilities.

(c) A consolidated facilities contract, which is a combination of a facilities acquisition and a facilities use contract.

"Government production and research property," as used in this subpart, means Government-owned facilities, Government-owned special test equipment, and special tooling to which the Government has title or the right to acquire title.

"Material," as used in this subpart, means property that may be incorporated into or attached to a deliverable end item or that may be consumed or expended in performing a contract. It includes assemblies, components, parts, raw and processed materials, and small tools and supplies that may be consumed in normal use in performing a contract.

"Nonprofit organization," as used in this subpart, means any corporation, foundation, trust, or institution operated for scientific, educational, or medical purposes, not organized for profit, and no part of the net earnings of which inures to the benefit of any private shareholder or individual.

"Nonseverable," as used in this subpart, when related to Government production and research property, means property that cannot be removed after erection or installation without substantial loss of value or damage to the property or to the premises where installed.

45.302 Providing facilities.

45.302-1 Policy.

(a) Contractors shall furnish all facilities required for performing Government contracts except as provided in this subsection. Agencies shall not furnish facilities to contractors for any purpose, including restoration, replacement, or modernization, except as follows:

(1) For use in a Government-owned, contractor-operated plant operated on a cost-plus-fee basis.

(2) For support of industrial preparedness programs.

(3) As components of special tooling or special test equipment acquired or fabricated at Government expense.

(4) When, as a result of the prospective contractor's written statement asserting inability or unwillingness to obtain facilities, the agency head or designee determines that the contract cannot be fulfilled by any other practical means or that it is in the public interest to provide the facilities. If the contractor's inability to provide facilities is due to insufficient lead time, the Government may provide existing facilities until the contractor's facilities can be installed.

(5) As otherwise authorized by law or regulation.

(b) Agencies shall not—

(1) Furnish new facilities to contractors unless existing Government-owned facilities are either inadequate or cannot be economically furnished;

(2) Use research and development funds to provide contractors with new construction or improvements of general utility, unless authorized by law; or

(3) Provide facilities to contractors solely for non-Government use, unless authorized by law.

(c) Competitive solicitations shall not include an offer by the Government to provide new facilities, nor shall solicitations offer to furnish existing Government facilities that must be moved into a contractor's plant, unless adequate price competition cannot be otherwise obtained. Such solicitations shall require contractors to identify the Government-owned facilities desired to be moved into their plants.

(d) Government facilities with a unit cost of less than $10,000 shall not be provided to contractors unless—

(1) The contractor is a nonprofit institution of higher education or other nonprofit organization whose primary purpose is the conduct of scientific research;

(2) A contractor is operating a Government-owned plant on a cost-plus-fee basis;

(3) A contractor is performing on a Government establishment or installation;

(4) A contractor is performing under a contract specifying that it may acquire or fabricate special tooling, special test equipment, and components thereof subsequent to obtaining the approval of the contracting officer; or

(5) The facilities are unavailable from other than Government sources.

45.302-2 Facilities contracts.

(a) Facilities shall be provided to a contractor or subcontractor only under a facilities contract using the appropriate clauses required by 45.302-6, except as provided in 45.302-3.

(b) All facilities provided by a contracting activity for use by a contractor at any one plant or general location shall be governed by a single facilities contract, unless the contracting officer determines this to be impractical. Each agency should consolidate, to the

maximum practical extent, its facility contracts covering specific contractor locations.

(c) No fee shall be allowed under a facilities contract. Profit or fee (plus or minus) shall be considered in awarding any related supply or service contract, consistent with the profit guidelines of Subpart 15.9.

(d) Special tooling and special test equipment will normally be provided to a contractor under a supply contract, but may be provided under a facilities contract when administratively desirable.

(e) Agencies shall ensure that facility projects involving real property transactions comply with applicable laws (e.g., 10 U.S.C. 2676 and 41 U.S.C. 12 and 14).

45.302-3 Other contracts.

(a) Facilities may be provided to a contractor under a contract other than a facilities contract when—

(1) The actual or estimated cumulative acquisition cost of the facilities provided by the contracting activity to the contractor at one plant or general location does not exceed $100,000;

(2) The contract is for construction;

(3) The contract is for services and the facilities are to be used in connection with the operation of a Government-owned plant or installation; or

(4) The contract is for work within an establishment or installation operated by the Government.

(b) When a facilities contract is not used, the Government's interest shall normally be protected by using the appropriate Government property clause or, in the case of (a)(3) above, by appropriate portions of the facilities clauses.

45.302-4 Contractor use of Government-owned and -operated test facilities.

(a) Agencies may authorize onsite use by contractors of existing Government-owned and -operated test facilities in connection with Government contracts only when—

(1) No adequate commercial test capability is available;

(2) Substantial cost savings will result from using the Government-owned test facilities; or

(3) Otherwise authorized by law.

(b) When such use is authorized, the contracting officer shall obtain adequate consideration comparable to commercial rates.

45.302-5 Standby or layaway requirements.

A facilities contract may include requirements for maintenance and storage of Government production and research property in standby or layaway status. The contract shall include appropriate specifications for the care and maintenance of the property. If the Government is required to pay the contractor for maintenance and storage, the contract shall define what constitutes standby or layaway and specify when payments will begin and end. The contract may provide for reimbursing the contractor for any State or local property tax it is required to pay because of its possession of or interest in such property (see 31.205-41).

45.302-6 Required Government property clauses for facilities contracts.

(a) The contracting officer shall insert the clause at 52.245-7, Government Property (Consolidated Facilities), in solicitations and contracts when a consolidated facilities contract is contemplated (see 45.301).

(b) The contracting officer shall insert the clause at 52.245-8, Liability for the Facilities, in solicitations and contracts when a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated (see 45.301).

(c) The contracting officer shall insert the clause at 52.245-9, Use and Charges, in solicitations and contracts (1) when a consolidated facilities contract or a facilities use contract (see 45.301) or (2) when a fixed-price contract is contemplated, and Government production and research property is provided other than on a rent-free basis.

(d) The contracting officer shall insert the clause at 52.245-10, Government Property (Facilities Acquisition), in solicitations and contracts when a facilities acquisition contract is contemplated (see 45.301).

(e) (1) The contracting officer shall insert the clause at 52.245-11, Government Property (Facilities Use), in solicitations and contracts when a facilities use contract is contemplated (see 45.301).

(2) If the contract is for the conduct of basic or applied research at nonprofit institutions of higher education, or is awarded to a nonprofit organization whose primary purpose is the conduct of scientific research (see 35.014), the contracting officer shall use the clause with its Alternate I.

45.302-7 Optional property-related clauses for facilities contracts.

(a) The contracting officer may insert the clause at 52.245-12, Contract Purpose (Nonprofit Educational Institutions), in solicitations and contracts when a facilities use contract is contemplated and award may be made to a nonprofit educational institution (also see 45.302-6).

(b) The contracting officer may insert the clause at 52.245-13, Accountable Facilities (Nonprofit Educational Institutions), in solicitations and contracts when a facilities contract is contemplated and award may be made to a nonprofit educational institution (also see 45.302-6).

(c) The contracting officer may insert the clause at 52.245-14, Use of Government Facilities, in solicitations and contracts when a facilities use contract is contemplated and award may be made to a nonprofit educational institution (also see 45.302-6).

(d) The contracting officer may, under a proper delegation of authority, insert the clause at 52.245-15, Transfer of Title to the Facilities, in solicitations and contracts when a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated for the conduct of basic or applied research at nonprofit institutions of higher education, or at nonprofit organizations whose primary purpose is the conduct of scientific research (see 35.015 and 45.302-6).

(e) The contracting officer may insert the clause at 52.245-16, Facilities Equipment Modernization, in solicitations and contracts when a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated under which the Government will provide modernized or replacement facilities.

45.303 Providing material.

45.303-1 Policy.

Contractors shall ordinarily furnish all material for performing Government contracts. However, agencies should provide material to a contractor when necessary to achieve significant economy, standardization, or expedited production, or when it is otherwise in the Government's interest.

45.303-2 Procedures.

Solicitations shall specify material that the Government will furnish in sufficient detail (including requisitioning procedures) to enable offerors to evaluate it accurately. The contracting officer shall insert the appropriate Government property clause prescribed in 45.106, in all solicitations when the Government will provide material.

45.304 Providing motor vehicles.

Contractors shall ordinarily furnish any motor vehicles needed in performing Government contracts.

Agencies may provide contractors with motor vehicles only when—

(a) The number of vehicles required for use by contractor personnel is predictable and expected to remain fairly constant;

(b) The proposed contract will bear the entire cost of the vehicle program;

(c) The motor vehicles will not be used on any contract other than that for which the vehicles were provided, unless approved by the appropriate department or agency official;

(d) Prospective contractors do not have or would not be expected to have an existing and continuing capability for providing the vehicles from their own resources; and

(e) Substantial savings are expected.

45.305 Additional clauses for facilities contracts.

(a) (1) The contracting officer shall, when contracting by negotiation, insert the clause at 52.245-17, Special Tooling, in solicitations and contracts when a fixed-price contract is contemplated, the contracting officer decides (see 45.306-2(d)) to acquire rights to the contractor's special tooling, and it is not practical to identify the special tooling required.

(2) If the Government does not intend to acquire special tooling from subcontractors and an appropriate price reduction is obtained, the contracting officer shall use the clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.245-18, Special Test Equipment, in solicitations and contracts when contracting by negotiation and the contractor will acquire or fabricate special test equipment for the Government but the exact identification of the special test equipment to be acquired or fabricated is unknown.

(c) The contracting officer shall insert the clause at 52.245-19, Government Property Furnished "As Is," in solicitations and contracts when a contract other than a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated and Government production and research property is to be furnished "as is" (see 45.106 for additional clauses that may be required).

45.306 Providing special tooling.

45.306-1 Providing existing special tooling.

(a) The contracting officer shall offer existing Government special tooling to prospective contractors for use in Government work if it will not disrupt programs of equal or higher priority, it is otherwise advantageous to the Government, and use of the special tooling is authorized under 45.402(a). (See also 45.308 and 45.309.)

(b) Contracts authorizing the furnishing of existing special tooling shall contain a description of the special tooling, the terms and conditions of shipment, and the terms covering the cost of adapting and installing the tooling.

45.306-2 Acquiring special tooling.

(a) *General.* Contractors should ordinarily provide and retain title to special tooling required for contract performance when existing Government tooling is not available.

(b) *Competitive acquisitions.* Competition generally results in fair charges for amortizing special tooling costs. Therefore, the Government does not take title (or the right to title) to special tooling in competitive acquisitions, unless the contracting officer decides that it is advantageous to the Government.

(c) *Noncompetitive acquisitions.* When competition is inadequate, it is appropriate for the Government to acquire special tooling or rights to it because the Government typically pays the cost of special tooling, regardless of who owns it, and because it may facilitate competition in follow-on acquisitions. If the Government decides not to take title, the contracting officer shall consider using special contract provisions covering contractor plans for future recovery of any initial special tooling costs in follow-on competition acquisitions.

(d) *Criteria for acquisition.* In deciding whether to acquire special tooling or rights to it (or to exercise the Government's acquisition rights under contracts or subcontracts pursuant to the clause at 52.245-17, Special Tooling), the contracting officer shall consider the following factors. (In fixed-price contracts where a certificate of current cost or pricing data is not required, special tooling or rights to it shall not be acquired unless it is advantageous to the Government.)

(1) The current or probable future need of the Government for the items involved (including in-house use) and the estimated cost of producing them if not acquired.

(2) The estimated residual value of the items.

(3) The administrative burden and other expenses incident to reporting, recordkeeping, preparation, handling, transportation, and storage.

(4) The feasibility and probable cost of making the items available to other offerors in the event of future acquisitions.

(5) The amount offered by the contractor for the right to retain the items.

(6) The effect on future competition and contract pricing.

45.306-3 Acquiring special tooling under fixed-price contracts.

(a) If the Government will acquire identifiable special tooling under the contract, the solicitation—

(1) Shall identify each item or category of special tooling to be acquired as a contract line item;

(2) May group items costing less than $1,000 by category as a contract line item; and

(3) Shall not include the clause at 52.245-17, Special Tooling.

(b) In contracts in which the Government will not acquire special tooling, or rights to it, but will pay for a substantial portion of special tooling in the contract price of the supplies or services, special requirements may be included in the contract Schedule to recognize the Government's investment (e.g., a requirement governing the contractor's future amortization of special tooling costs under Government contracts).

(c) If the contracting officer has determined not to take title to special tooling, or rights to it, and there is substantial indication of future requirements for the supplies involved, solicitations may indicate current estimates of such requirements. Offerors shall be advised that such estimates are not a representation that the current estimates or any quantity will be purchased.

45.306-4 Acquiring special tooling under cost-reimbursement contracts.

Title to special tooling under cost-reimbursement contracts shall be acquired by using the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts).

45.307 Providing special test equipment.

45.307-1 General.

(a) Contracting officers shall offer existing Government-owned special test equipment to contractors, consistent with the conditions in 45.306-1(a). (See also 45.308 and 45.309.)

(b) Contracting officers may also authorize contractors to acquire special test equipment for the Government when it is advantageous to the Government under the criteria in 45.306-2(c) and existing special test equipment is not available.

45.307-2 Acquiring special test equipment.

(a) When special test equipment or components are known, the solicitation (and the contract) shall separately identify each item to be furnished by the Government or acquired or fabricated by the contractor for the Government. Individual items of less than $1,000 may be grouped by category.

(b) *Notice and approval.* Under negotiated contracts containing the clause at 52.245-18, Special Test Equipment, the contractor must notify the contracting officer if it intends to acquire or fabricate special test equipment. Within 30 days of receipt of the notice, the contracting officer shall—

(1) Review the proposed items for necessity and proper classification as "special" test equipment;

(2) Screen the availability of existing Government-owned test equipment in accordance with agency procedures; and

(3) Notify the contractor, approving or disapproving the acquisition or fabrication and, if it is disapproved, state whether the equipment will be furnished by the Government.

45.308 Providing Government production and research property "as is."

(a) The contracting officer may provide Government production and research property on an "as is" basis for performing fixed-price, time-and-material, and labor-hour contracts. It may also be furnished under a facilities contract, in which case the contract shall state that the contractor will not be reimbursed for transporting, installing, modifying, repairing, or otherwise making the property ready for use.

(b) When the property is provided under other than a facilities contract, the solicitation shall state that—

(1) Offerors may inspect the property before submitting offers and the conditions under which it may be inspected;

(2) The property is offered in its current condition, f.o.b. present location (provide specific locations);

(3) Offerors must satisfy themselves that the property is suitable for their use;

(4) The successful offeror shall bear the cost of transporting, installing, modifying, repairing, or otherwise making the property suitable for use; and

(5) Evaluations will be made in accordance with Subpart 45.2 to eliminate any competitive advantage resulting from using the property.

45.309 Providing Government production and research property under special restrictions.

(a) Government production and research property, other than foundations and similar improvements necessary for installing special tooling, special test equipment, or plant equipment, shall not be installed or constructed on land not owned by the Government in such fashion as to be nonseverable, unless the head of the contracting activity determines that the location is necessary, and the contract under which the property is provided contains—

(1) A requirement for the contractor to reimburse the Government for the fair value of the property at contract completion or termination or within a reasonable time thereafter (for example, the provision may require the contractor to purchase the property at a value determined by appraisal or at a price equal to its acquisition cost less depreciation at a specified rate);

(2) An option for the Government to acquire the underlying land; or

(3) An alternative provision that the agency head considers adequate to protect the Government's interests.

(b) If patent or other proprietary rights of a contractor may restrict the disposal of Government production and research property, the condition in either subparagraph (a)(1) or (a)(3) above shall be satisfied before the property is provided.

(c) If Government production and research property is not available to all offerors, the solicitation shall identify the offerors to whom the property is available.

45.310 Providing agency-peculiar property.

(a) Agency-peculiar property may be furnished to contractors when necessary for use as a standard or model, for testing the contractor's end item where suitable commercial equipment is not available, to establish equipment compatibility, or for other reasons that the contracting officer determines to be in the Government's interest.

(b) Agency-peculiar property may be furnished under a facilities contract, a supply or service contract containing the appropriate Government Property clause, or a special bailment agreement.

(c) Contracting officers shall provide special instructions for security, liability, maintenance, and/or property control, when agency-peculiar property requires special handling or safeguards.

SUBPART 45.4—CONTRACTOR USE AND RENTAL OF GOVERNMENT PROPERTY

45.400 Scope of subpart.

This subpart prescribes policies and procedures for contractor use and rental of Government production and research property.

45.401 Policy.

In performing Government contracts or subcontracts, Government production and research property in the possession of contractors or subcontractors shall be used to the greatest possible extent, provided that a competitive advantage is not conferred on the contractor or its subcontractors (see Subpart 45.2).

45.402 Authorizing use of Government production and research property.

(a) Contracting officers who believe it to be in the Government's interest for a prospective contractor or subcontractor to use existing Government production and research property shall authorize such use in the contract. The contracting officer shall confirm the availability of the property before authorizing its use on either a rental or rent-free basis.

(b) Unless the solicitation provides for the successful offeror to use Government production and research property in the offeror's possession, the solicitation shall require any offeror desiring to use such property to request the written concurrence of the contracting officer cognizant of the property. To preclude a competitive advantage, the contracting officer's concurrence should include any information required by Subpart 45.2.

(c) The contracting officer shall review the contractor's request for non-Government use of Government production and research property when the property is no longer required for performing Government contracts but is retained for spares or for mobilization and readiness requirements. (Also see 45.302-1(b)(3).)

45.403 Rental—Use and Charges clause.

(a) The contracting officer shall charge contractors rent for using Government production and research property, except as prescribed in 45.404 and 45.405. Rent shall be computed in accordance with the clause at 52.245-9, Use and Charges. If the agency head or designee determines it to be in the Government's interest, rent for classes of production and research property other than plant equipment identified in item (ii) of Table I of the clause at 52.245-9, Use and Charges, may be charged on the basis of use rather than the rental period, or on some other

equitable basis. In such cases, the clause at 52.245-9, Use and Charges, shall be appropriately modified.

(b) The contracting officer cognizant of the Government production and research property shall ensure the collection of any rent due the Government from the contractor.

45.404 Rent-free use.

(a) The rental required by 45.403 above does not apply to the following Government production and research property:

(1) That which is located in Government-owned, contractor-operated plants operated on a cost-plus-fee basis (but see 45.405).

(2) That which is left in place or installed on contractor-owned property for mobilization or future Government production purposes. However, rent computed in accordance with 45.403(a) shall apply to that portion of property or its capacity used or authorized for use.

(3) Items of equipment that are part of a general program approved by the Federal Emergency Management Agency (FEMA) and present unusual problems in relation to the time required for their preparation for shipment, installation, and operation because of size, complexity, or performance characteristics.

(4) Any other Government production and research property that may be excepted by FEMA.

(b) The contracting officer cognizant of the Government production and research property may grant written authorization for rent-free use of production and research property in the possession of nonprofit organizations when used for research, development, or educational work and—

(1) The use of the property is directly or indirectly in the national interest;

(2) The property will not be used for the direct benefit of a profitmaking organization; and

(3) The Government receives some direct benefit (such as rights to use the results of the work without charge) from its use. As a minimum, the contractor shall furnish a report on the work for which the property was provided.

(c) If the contracting officer has obtained adequate price or other consideration, Government production and research property may also be used rent-free under—

(1) Prime contracts that specifically authorize such use without charge; and

(2) Subcontracts of any tier, if the contracting officer awarding the prime contract has specifically authorized rent-free use by the subcontractor.

(d) After award, a contract may be modified to eliminate rent for using Government production and research property. In this case, the contract shall be equitably adjusted to reflect the elimination of rent and any other amount attributable thereto.

45.405 Contracts with foreign governments or international organizations.

Requests by, or for the benefit of, foreign governments or international organizations to use Government production and research property shall be processed and costs shall be recovered or rental charged in accordance with agency procedures.

45.406 Use of Government production and research property on independent research and development programs.

The contracting officer cognizant of Government production and research property in the possession of a contractor may authorize a contractor to use the property on an independent research and development (IR&D) program, if—

(a) Such use will not conflict with the primary use of the property or enable the contractor to retain property that could otherwise be released;

(b) The contractor agrees not to include as a charge against any Government contract the rental value of the property used on its IR&D program; and

(c) A rental charge for the portion of the contractor's IR&D program cost allocated to commercial work, computed in accordance with 45.403, is deducted from any agreed-upon Government share of the contractor's IR&D costs.

45.407 Non-Government use of plant equipment.

Requirements for authorization and dollar thresholds for non-Government use of specific types of plant equipment shall be set at the agency level. The following general policies and requirements shall be used by agencies in supplementing this section:

(a) The contracting officer's advance written approval shall be required for any non-Government use of active plant equipment. Before authorizing non-Government use exceeding 25 percent, the contracting officer shall obtain approval of the head (or designee) of the agency that awarded the contract to which the property is accountable.

(b) The approvals under paragraph (a) above may be granted only when it is in the Government's interest—

(1) To keep the equipment in a high state of operational readiness through regular use;

(2) Because substantial savings to the Government would accrue through overhead cost-sharing and receipt of rental; or

(3) To avoid an inequity to a contractor who is required by the Government to retain the equipment in place.

(c) If the contractor's request for non-Government use in excess of 25 percent is approved, the contracting officer may require the contractor to insure the property against loss or damage. Facilities contracts may be modified to require such insurance.

SUBPART 45.5—MANAGEMENT OF GOVERNMENT PROPERTY IN THE POSSESSION OF CONTRACTORS

45.500 Scope of subpart.

This subpart prescribes the minimum requirements contractors must meet in establishing and maintaining control over Government property. It applies to contractors organized for profit and, except as otherwise noted, to non-profit organizations. In order for the special requirements in this subpart governing nonprofit organizations to apply, the contract must identify the contractor as a nonprofit organization. If there is any inconsistency between this subpart and the terms of the contract under which the Government property is provided, the terms of the contract shall govern.

45.501 Definitions.

"Accessory item," as used in this subpart, means an item that facilitates or enhances the operation of plant equipment but which is not essential for its operation.

"Agency-peculiar property" (see 45.301).

"Auxiliary item," as used in this subpart, means an item without which the basic unit of plant equipment cannot operate.

"Contractor-acquired property" (see 45.101).

"Custodial records," as used in this subpart, means written memoranda of any kind, such as requisitions, issue hand receipts, tool checks, and stock record books, used to control items issued from tool cribs, tool rooms, and stockrooms.

"Discrepancies incident to shipment," as used in this subpart, means all deficiencies incident to shipment of Government property to or from a contractor's facility whereby differences exist between the property purported to have been shipped and property actually received. Such deficiencies include loss, damage, destruction, improper status and condition coding, errors in identity or classification, and improper consignment.

"Facilities" (see 45.301).

"Government-furnished property" (see 45.101).

"Government property" (see 45.101).

"Individual item record," as used in this subpart, means a separate card, form, document or specific line(s) of computer data used to account for one item of property.

"Material" (see 45.301).

"Nonprofit organization" (see 45.301).

"Plant equipment" (see 45.101).

"Property administrator," as used in this subpart, means an authorized representative of the contracting officer assigned to administer the contract requirements and obligations relating to Government property.

"Real property" (see 45.101).

"Salvage," as used in this subpart, means property that, because of its worn, damaged, deteriorated, or incomplete condition or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs, but has some value in excess of its scrap value.

"Scrap," as used in this subpart, means personal property that has no value except for its basic material content.

"Special test equipment" (see 45.101).

"Special tooling" (see 45.101).

"Stock record," as used in this subpart, means a perpetual inventory record which shows by nomenclature the quantities of each item received and issued and the balance on hand.

"Utility distribution system," as used in this subpart, includes distribution and transmission lines, substations, or installed equipment forming an integral part of the system by which gas, water, steam, electricity, sewerage, or other utility services are transmitted between the outside building or structure in which the services are used and the point of origin, disposal, or connection with some other system. It does not include communication services.

"Work-in-process," as used in this subpart, means material that has been released to manufacturing, engineering, design or other services under the contract and includes undelivered manufactured parts, assemblies, and products, either complete or incomplete.

45.502 Contractor responsibility.

(a) The contractor is directly responsible and accountable for all Government property in accordance with the provisions of the contract. This includes Government property in the possession or control of a subcontractor. The contractor shall establish and maintain a system in accordance with this subpart to control, protect, preserve, and maintain all Government property. This property control system shall be in writing unless the property administrator determines that maintaining a written system is unnecessary. The system shall be reviewed and, if satisfactory, approved in writing by the property administrator.

(b) The contractor shall maintain and make available the records required by this subpart and account for all Government property until relieved of that responsibility. The contractor shall furnish all necessary data to substantiate any request for relief from responsibility.

(c) (1) The contractor shall be responsible for the control of Government property under this Subpart 45.5 upon—

(i) Delivery of Government-furnished property into its custody or control;

(ii) Delivery, when property is purchased by the contractor and the contract calls for reimbursement by the Government (this requirement does not alter or modify contractual requirements relating to passage of title);

(iii) Approval of its claim for reimbursement by the Government or upon issuance for use in contract performance, whichever is earlier, of property withdrawn from contractor-owned stores and charged directly to the contract; or

(iv) Acceptance of title by the Government when title is acquired pursuant to specific contract clauses or as a result of change orders or contract termination.

(2) Property to which the Government has acquired a lien or title solely as a result of advance, progress, or partial payments is not subject to the requirements of this subpart.

(d) The contractor shall require subcontractors provided Government property under the prime contract to comply with the requirements of this subpart. Procedures for assuring subcontractor compliance shall be included in the contractor's property control system. Where the property administrator assigned to the contract has requested supporting property administration from another contract administration office, the contractor may accept the system approval of the supporting property administrator instead of performing duplicative actions to assure the subcontractor's compliance.

(e) If the property administrator finds any portion of the contractor's property control system to be inadequate, the contractor must take any necessary corrective action before the system can be approved. If the contractor and property administrator cannot agree regarding the adequacy of control and corrective action, the matter shall be referred to the contracting officer.

(f) When Government property (excluding misdirected shipments, see 45.505-12) is disclosed to be in the possession or control of the contractor but not provided under any contract, the contractor shall promptly (1) record such property according to the established property control procedure and (2) furnish to the property administrator all known circumstances and data pertaining to its receipt and a statement as to whether there is a need for its retention.

(g) The contractor shall promptly report all Government property in excess of the amounts needed to complete full performance under the contracts providing it or authorizing its use.

(h) When unrecorded Government property is found, both the cause of the discrepancy and actions taken or needed to prevent recurrence shall be determined and reported to the property administrator.

45.502-1 Receipts for Government property.

The contractor shall furnish written receipts for all or specified classes of Government property only when the property administrator deems it essential for maintaining minimum acceptable property controls. If evidence of receipt is required for contractor-acquired property, the contractor shall provide it before submitting its request for payment for the property. For Government-furnished property, the contractor shall provide the required receipt immediately upon receipt of the property.

45.502-2 Discrepancies incident to shipment.

(a) *Government-furnished property.* If overages, shortages, or damages are discovered upon receipt of Government-furnished property, the contractor shall provide a statement of the condition and apparent causes to the property administrator and to other activities specified in the approved property control system. Only that quantity of property actually received will be recorded on the official records.

(b) *Contractor-acquired property.* The contractor shall take all actions necessary in adjusting overages, shortages, or damages in shipment of contractor-acquired property from a vendor or supplier. However, when the shipment has moved by Government bill of lading and carrier liability is indicated, the contractor shall report the

discrepancy in accordance with paragraph (a) above.

45.503 Relief from responsibility.

(a) Unless the contract or contracting officer provides otherwise, the contractor shall be relieved of property control responsibility for Government property by—

(1) Reasonable and proper consumption of property in the performance of the contract as determined by the property administrator;

(2) Retention by the contractor, with the approval of the contracting officer, of property for which the Government has received consideration;

(3) The authorized sale of property, provided the proceeds are received by or credited to the Government;

(4) Shipment from the contractor's plant, under Government instructions, except when shipment is to a subcontractor or other location of the contractor; or

(5) A determination by the contracting officer of the contractor's liability for any property that is lost, damaged, destroyed, or consumed in excess of that normally anticipated in a manufacturing or processing operation, if—

(i) The determination is furnished to the contractor in writing;

(ii) The Government is reimbursed where required by the determination; and

(iii) Property rendered unserviceable by damage is properly disposed of, and the determination is cross-referenced to the shipping or other documents evidencing disposal.

(b) Nonprofit organizations are relieved of responsibility for Government property when title to the property is transferred to the contractor (see 35.014).

45.504 Contractor's liability.

(a) Subject to the terms of the contract and the circumstances surrounding the particular case, the contractor may be liable for shortages, loss, damages, or destruction of Government property. The contractor may also be liable when the use or consumption of Government property unreasonably exceeds the allowances provided for by the contract, the bill of material, or other appropriate criteria.

(b) The contractor shall investigate and report to the property administrator all cases of loss, damage, or destruction of Government property in its possession or control as soon as the facts become known or when requested by the property administrator. A report shall also be furnished when completed and accepted products or end items are lost, damaged, or destroyed while in the contractor's possession or control.

(c) The contractor shall require any of its subcontractors possessing or controlling Government property accountable under the contract to investigate and report all instances of loss, damage, or destruction of such property.

45.505 Records and reports of Government property.

(a) The contractor's property control records shall constitute the Government's official property records unless an exception has been authorized. The contractor shall establish and maintain adequate control records for all Government property, including property provided to and in the possession or control of a subcontractor. The property control records specified in this section are the minimum required by the Government. Unless the property administrator directs otherwise, when a subcontractor has an approved property control system for Government property provided under its own prime contracts, the contractor shall use the records created and maintained under that system.

(b) The contractor's property control system shall provide financial accounts for Government-owned property in the contractor's possession or control. The system shall be subject to internal control standards and be supported by property records for such property.

(c) Official Government property records must identify all Government property and provide a complete, current, auditable record of all transactions. The records shall be safeguarded from tampering or destruction. Records shall be accessible to authorized Government personnel.

(d) Separate property records for each contract are desirable, but a consolidated property record may be maintained if it provides the required information.

(e) Special tooling and special test equipment fabricated from materials that are the property of the Government shall be recorded as Government-owned immediately upon fabrication. Special tooling and special test equipment fabricated from materials that are the property of the contractor shall be recorded as Government property at the time title passes to the Government.

(f) Property records of the type established for components acquired separately shall be used for serviceable components permanently removed from items of Government property as a result of modification.

(g) The contractor's property control system shall contain a system or technique to locate any item of Government property within a reasonable period of time.

45.505-1 Basic information.

Unless summary records are used as authorized under 45.505-5(a), the contractor's property control records shall provide the following basic information for every item of Government property in the contractor's possession, regardless of value (other subsections of 45.505 require additional information for specific categories of Government property):

(a) The name, description, and National Stock Number (if furnished by the Government or available in the property control system).

(b) Quantity received (or fabricated), issued, and on hand.

(c) Unit price (and unit of measure).

(d) Contract number or equivalent code designation.

(e) Location.

(f) Disposition.

(g) Posting reference and date of transaction.

45.505-2 Records of pricing information.

(a) *Requirement for unit prices.* (1) The contractor's property control system shall contain the unit price for each item of Government property except as provided in (b) below. When a contractor records the unit price of property on other than the quantitative inventory records, those supplementary records shall become part of the official Government property records.

(2) *(Note: This subparagraph (2) does not apply to nonprofit organizations.)* The requirement that unit prices be contained in the official Government property records does not apply to those separate property records located at a contractor's secondary sites and subcontractor plants; *provided*, that—

(i) Records maintained by the prime contractor at its primary site include unit prices; and

(ii) The prime contractor agrees to furnish actual or estimated unit prices to the secondary site or subcontractor as the need arises.

(3) When definite information as to unit price cannot be obtained, reasonable estimates will be used.

(b) *Determining unit price.* (1) *Contractor-acquired and contractor-fabricated property.* Except for items fabricated by nonprofit organizations for research and development purposes, the unit price of contractor-acquired and contractor-fabricated property shall be determined in accordance with the

system established by the contractor in conformance with consistently applied sound accounting principles. Generally, separate unit prices should be applied to items of special tooling and special test equipment fabricated or acquired by the contractor. However, if the contractor's accounting system is acceptable, and if maintaining detailed cost records results in excessive accounting cost or is otherwise impracticable, group pricing may be used for special tooling, special test equipment, and work-in-process in accordance with the contractor's acceptable cost accounting system. All processed material, fabricated parts, components, and assemblies charged to the contractor's work-in-process inventory, including items in temporary storage while awaiting processing, may be considered as work-in-process for this purpose.

(2) *Government-furnished property.* The Government shall determine and furnish to the contractor the unit price of Government-furnished property. Transportation and installation costs shall not generally be considered as part of the unit price for this purpose. Normally, the unit price of Government-furnished property will be provided on the document covering shipment of the property to the contractor. In the event the unit price is not provided on the document, the contractor will take action to obtain the information.

45.505-3 Records of material.

(a) *General.* All Government material furnished to the contractor, as well as other material to which title has passed to the Government by reason of allocation from contractor-owned stores or purchase by the contractor for direct charge to a Government contract or otherwise, shall be recorded in accordance with the contractor's property control system and the requirements of this section.

(b) *Consolidated stock record.* When a contractor has more than one Government contract under which Government material is provided, a consolidated record for materials may be authorized by the property administrator, *provided*, the total quantity of any item is allocated to each contract by contract number and each requisition of material from contractor-owned stores is charged to the contract on which the material is to be used. The supporting document or issue slip shall show the contract number or equivalent code designation to which the issue is charged.

(c) *Custodial records.* The contractor shall maintain custodial records for tool crib items, guard force items, protective clothing, and other items issued to individuals for use in their work.

(d) *Use of receipt and issue documents. (Note: This paragraph (d) does not apply to nonprofit organizations.)* The property administrator may authorize the contractor to maintain, in lieu of stock records, a file of appropriately cross-referenced documents evidencing receipt, issue, and use of Government-provided material that is issued for immediate consumption and is not entered in the inventory record as a matter of sound business practice. This method of control may be authorized for—

(1) Material charged through overhead;

(2) Material under research and development contracts;

(3) Subcontracted or outside production items;

(4) Nonstock or special items;

(5) Items that are produced for direct charge to a contract, or are acquired and issued for installation upon receipt, and involve no spoilage; and

(6) Items issued from contractor-owned inventory direct to production or maintenance, etc.

(e) *Material issued directly upon receipt. (Note: This paragraph (e) applies only to nonprofit organizations.)*

(1) Under fixed-price contracts, the contractor's documents evidencing receipt and issue will be accepted as property control records for Government-furnished material issued directly by the contractor upon receipt so as to be considered consumed under the contract.

(2) Under cost-reimbursement contracts, Government invoices, contractor's purchase documents, or other evidence of acquisition and issue will be accepted as adequate property records for material furnished to or acquired by the contractor and issued directly so as to be considered consumed under the contract.

(f) *Multicontract cost and material control. (Note: This paragraph (f) does not apply to nonprofit organizations.)*

(1) *Description and scope.* A multicontract cost and material control system substitutes a system of financial accounting for the requirements for physical identification of Government material. The system operates as follows:

(i) The contractor may acquire, requisition, receive, store, and issue like items of material for the total requirements of all contracts involved in the system without identifying the material to each contract.

(ii) The contractor may commingle, during any stage of contract performance, Government-owned and contractor-owned material and work-in-process that was furnished, acquired, or produced for all Government contracts covered by the system, without physical segregation or identification to the individual contracts.

(iii) In lieu of physical segregation and identification to individual contracts, periodic calculation of requirements and distribution of costs to all contracts permits the allocation of costs of material to products delivered. This system, by reflecting the material expended to perform each contract at any stage in production, permits usage analysis to determine the reasonableness of consumption and expenditure of Government material.

(iv) The system may include all Government contracts of any type that involve common repetitive operations.

(v) The system does not require commingling of all common materials under all contracts. For example, items of Government-furnished material of high value or in short supply may be excluded from commingling and reserved for use in performing the contract under which furnished.

(vi) The contractor shall take physical inventories of material in stores included in the systems (other than work-in-process) at least annually, extend and reconcile prices to the quantitative balance for each item, and record adjustments in the stock record and financial inventory control accounts. Such physical inventories and adjustments, as well as equitable distribution to cost accounts of any inventory losses, shall be reviewed by and are subject to the approval of the property administrator.

(2) *Criteria.* A multicontract cost and material control system may be authorized if—

(i) The contractor demonstrates that adopting the system will result in savings or improved operations or that it will otherwise be in the Government's interest;

(ii) The system is applied to existing Government contracts only and excludes materials acquired or costs incurred for non-Government work or in anticipation of future Government work; and

(iii) The contractor's accounting system is adequate to—

(A) Provide on a complete and timely basis a clear "audit trail" from costs of materials acquired for each contract to materials used or disposed of on each contract;

(B) Reflect separately for Government-furnished and contractor-acquired material in stores (except work-in-process) the inventory balances as affected by receipts, issues, adjustments, and other dispositions;

(C) Determine unit costs for each identifiable part, component, subassembly, assembly, end item, and contract item;

(D) Calculate amounts for cost reimbursements and progress payments during the life of the contract by applying or allocating such unit costs developed through each stage of work-in-process to contract items for the requirements of each contract; and

(E) Assure that when Government material furnished for use under one contract is authorized for use on another contract, the initial contract receives credit.

(3) *Authorization.* The administrative contracting officer may authorize a contractor who is performing or will perform more than one Government contract to use the multicontract cost and material control system. The property administrator shall approve whatever detailed operating procedures are necessary for each system authorized.

(4) *Requirement.* Whenever a multicontract cost and material control system is authorized, the contractor's financial accounts shall include all material in the system acquired or furnished for Government work and shall satisfy the requirements in subdivision (f)(2)(iii) of 45.505-3 above.

45.505-4 Records of special tooling and special test equipment.

(Note: The special tooling requirements of this subsection 45.505-4 do not apply to nonprofit organizations except for paragraph (c).)

(a) The contractor's property control system shall provide the basic information listed in 45.505-1 regarding each item of Government-owned special tooling and special test equipment, including any general purpose test equipment incorporated as components in such a manner that removal and reuse may be feasible and economical.

(b) If the contractor uses group pricing of special tooling or special test equipment, as recognized in 45.505-2(b), unit prices may be computed when required.

(c) In the case of special tooling acquired or fabricated by nonprofit organizations or furnished by the Government to nonprofit organizations for research and development, the Government invoices, contractor's purchase document, or other documents that evidence acquisition or issue will be accepted as adequate property control records.

(d) Records identifying special tooling and special test equipment shall include the identification number and item on which used.

(e) The contractor shall, when specified by the contract, identify and report special tooling and special test equipment by retention category (e.g., assembly tooling or critical tooling for spares or replacements).

45.505-5 Records of plant equipment.

(a) The contractor shall maintain individual item records for each item of plant equipment having a unit cost of $5,000 or more. Summary stock records may be maintained for plant equipment costing less than $5,000 per unit, except where the contract administration office determines that individual item records are necessary for effective control, calibration, or maintenance.

(b) In addition to the information required in 45.505-1, the contractor's records of Government-owned plant equipment, regardless of value, shall include—

(1) Federal Supply Code for the manufacturer (as listed in Cataloging Handbook H4-1 and H4-2) (available from the Superintendent of Documents, Government Printing Office (GPO), Washington, D.C. 20402);

(2) Federal Supply Classification (Cataloging Handbooks H2-1, H2-2, and H2-3) (available from GPO); and

(3) The original manufacturer's model or part number.

(c) For each item of Government-owned plant equipment having a unit cost of $5,000 or more, the contractor shall, in addition to the requirements of (b) above, include—

(1) Serial number and year built (when available);

(2) Government identification/tag number; and

(3) Acquisition and disposition document references and dates.

(d) The property administrator may determine that the information in (c)(1) and (2) above should be recorded in the property records for plant equipment costing less than $5,000.

(e) Accessory and auxiliary equipment shall be recorded on the record of the associated item of plant equipment. If the accessory or auxiliary item is not attached to, a part of, or acquired for use with a specific item of plant equipment, it shall be recorded either in an individual item record or in a summary stock record. When accessory and auxiliary items are permanently separated from the basic item of plant equipment, the unit price of the basic item shall be appropriately reduced.

45.505-6 Special reports of plant equipment.

An agency may set requirements for any special reports of plant equipment it determines necessary.

45.505-7 Records of real property.

(a) The contractor shall maintain an itemized record of the description, location, acquisition cost, and disposition of all Government real property (including unimproved real property); all alterations, all construction work, and sites connected with such alteration and construction, acquired by purchase, lease, or otherwise. These records, including maps, drawings, plans, specifications, and supplementary data where necessary, shall (1) be complete, (2) show the original cost of the property and improvements and the cost of any changes and additions, and (3) be appropriately indexed.

(b) Costs incurred by the contractor or the Government for new construction, including erection, installation, or assembly of Government real property in possession of the contractor, shall be capitalized in the official Government real property records and financial accounts maintained by the contractor for the Government.

(c) Costs incurred for additions, expansions, extensions, conversions, alterations, and improvements, including applicable portions of capital maintenance, that increase the value, life, utility, capability, or serviceability of Government real property shall be capitalized.

(d) Costs incurred for portable buildings or facilities specifically constructed for tests that involve destruction of the facility shall not be capitalized in the Government real property records or financial accounts.

(e) Costs incurred for maintenance, repair, or rearrangement to maintain the Government real property in good physical condition, utility, capacity, or serviceability shall be charged to expense, and the real property records shall not be affected.

(f) When Government-owned real property is sold, transferred, donated, destroyed by fire or other cause, abandoned-in-place, or condemned, the financial accounts shall be reduced by the presently recorded cost and the real property records annotated with a supporting statement, including pertinent facts.

45.505-8 Records of scrap or salvage.

(a) The contractor shall maintain records of all scrap or salvage generated, except as provided in 45.507. These records shall conform to the contractor's established system of scrap and salvage control approved by the property administrator.

(b) The contractor's property control system shall provide the following information:

(1) Contract number, if practical, or equivalent code designation from which the scrap or salvage derived.

(2) Nomenclature or description of salvable items or classification (material content) of scrap.

(3) Quantity on hand.

(4) Posting reference and date of transaction.

(5) Disposition.

45.505-9 Records of related data and information.

The contractor shall maintain property control and accountability, in accordance with sound business practice, of manufacturing or assembly drawings; installation, operation, repair, or maintenance instructions; and other similar information furnished to the contractor by the Government or generated or acquired by the contractor under the contract and for which title vests in the Government. The requirements of this subpart do not otherwise apply to such property.

45.505-10 Records of completed products.

The contractor shall maintain a record of all completed products produced under a contract as follows:

(a) When there is no time lapse between Government inspection and acceptance of the completed products and shipment from the plant site, the records shall, as a minimum, consist of a summary of quantities accepted and shipped. When end items are accepted by the Government and stored with the contractor awaiting shipment, the record shall identify quantities stored, location, and disposition action.

(b) On contracts that provide for the contractor to retain completed products for further use under the contract or other contracts, such items shall be considered "Government-furnished property" upon acceptance and shall be recorded as required by this subpart.

(c) When completed products are returned to a contractor under the terms of a warranty clause, the contractor shall maintain, by contract, a record containing a description of the items involved, quantities received and returned to the Government, and other pertinent data necessary to determine that a proper accounting for all property has been made.

45.505-11 Records of transportation and installation costs of plant equipment.

(Note: This subsection 45.505-11 does not apply to nonprofit organizations.)

(a) *Transportation costs.* (1) The contractor shall record within the property control system the transportation and installation costs directly borne by the Government for each item of Government-owned plant equipment with an acquisition cost of $5,000 or more. The administrative contracting officer may require the contractor to provide such recorded costs for use in computing rental charges.

(2) If transportation costs are not included in the price of equipment delivered, the contractor shall contact the property administrator for instructions for obtaining applicable freight data.

(b) *Installation costs.* (1) When the contractor performs installation, the cost shall be computed in accordance with the contractor's accounting system (if the system is acceptable for other contract cost determination purposes) and recorded in the property record.

(2) When installation is subcontracted, the contractor shall record the cost paid to the subcontractor in the property record.

(3) When installation costs are included in the price of equipment delivered to the using location, the property records should be so annotated.

45.505-12 Records of misdirected shipments.

The contractor's property control system shall provide the following information regarding each misdirected shipment of Government property received:

(a) Identity of shipment, such as shipping document or bill of lading.

(b) Origin of shipment.

(c) Content (items in the shipment) per shipping documents, if available.

(d) Location.

(e) Disposition.

45.505-13 Records of property returned for rework.

(a) The contractor shall maintain quantitative records of property returned for processing to assure control from time of receipt through return of the items to the Government. The contractor shall establish item records under its property control system and shall include the information required in 45.505-1.

(b) The records shall specify the quantity of units returned to the Government and the quantity otherwise disposed of with proper authority.

45.505-14 Reports of Government property.

(a) The contractor's property control system should provide annually the total acquisition cost of Government property for which the contractor is accountable under each contract with each agency, including Government property at subcontractor plants and alternate locations, in the following classifications (property classifications may be varied to meet individual agency needs):

(1) Land and rights therein.

(2) Other real property, including utility distribution systems, buildings, structures, and improvements thereto.

(3) Plant equipment of $5,000 or more.

(4) Plant equipment of less than $5,000.

(b) The contractor shall report the information under paragraph (a) as directed by the contracting officer.

45.506 Identification.

(a) The contractor shall identify, mark, and record all Government property promptly upon receipt, unless exempted by this section, and shall record assigned numbers on all applicable documents pertaining to the property control system. Markings shall be removed or obliterated when Government property is sold, scrapped, or donated.

(b) All Government material and plant equipment having an acquisition cost less than $5,000 shall be identified as Government property except in those cases where—

(1) No material or plant equipment of the same type costing less than $5,000 at the same location is owned by the contractor, its employees, or other contracting agencies;

(2) Adequate physical control is maintained over protective clothing, tool crib, guard force, and other items issued to individuals for use in their work;

(3) Property is of bulk type, or its general nature of packing or handling precludes adequate marking; or

(4) Property is commingled, as authorized by 45.507.

(c) In accordance with procedures approved by the property administrator, the contractor shall mark Government-owned special tooling and special test equipment with a serial number and the identity of the agency owning the property. If marking will damage the equipment or is otherwise impracticable, the contractor shall promptly report the problem to the property administrator. The contractor shall mark in a manner similar to plant equipment all

components of special test equipment that have an acquisition cost of $5,000 or more and are incorporated in a manner that makes removal and reutilization feasible and economical.

(d) The contractor shall identify Government-owned plant equipment as such, unless (1) summary records are used as authorized under 45.505-5(a), (2) it is excluded under 45.506(b), or (3) when the size or nature of the equipment makes identification impracticable. (Excepted items shall be entered and described on the equipment property record.) Property shall be identified by a legible, permanent, conspicuous, and tamper-proof method (e.g., decals, plates, stamping, etc.). Identification shall consist of a serial number and an indication of Government ownership (unless already properly identified as Government property). For items included in a standard agency registration system, registration numbers obtained from the owning agency through the property administrator may be used in lieu of other identification numbers.

(e) Accessory or auxiliary equipment associated with a specific item of plant equipment and recorded on the property records need not be marked with an identification number, unless necessary to assure its return with the associated basic item.

45.507 Segregation of Government property.

Government property shall be kept physically separate from contractor-owned property. However, when advantageous to the Government and consistent with the contractor's authority to use such property, the property may be commingled—

(a) When the Government property is special tooling, special test equipment, or plant equipment clearly identified and recorded as Government property;

(b) When approved by the property administrator in connection with research and development contracts;

(c) When material is included in a multicontract cost and material control system (however, see 45.505-3(f));

(d) When (1) scrap of a uniform nature is produced from both Government-owned and contractor-owned material and physical segregation is impracticable, (2) scrap produced from Government-owned material is insignificant in consideration of the cost of segregation and control, or (3) Government contracts involved are fixed-price and provide for the retention of the scrap by the contractor; or

(e) When otherwise approved by the property administrator.

45.508 Physical inventories.

The contractor shall periodically physically inventory all Government property (except materials issued from stock for manufacturing, research, design, or other services required by the contract) in its possession or control and shall cause subcontractors to do likewise. Physical inventories consist of sighting, tagging or marking, describing, recording, reporting, and reconciling the property with the records. The contractor, with the approval of the property administrator, shall establish the type, frequency, and procedures. Type and frequency of inventory should be based on the contractor's established practices, the type and use of the Government property involved, or the amount of Government property involved and its monetary value, and the reliability of the contractor's property control system. Type and frequency of physical inventories normally will not vary between contracts being performed by the contractor, but may vary with the types of property being controlled. Personnel who perform the physical inventory shall not be the same individuals who maintain the property records or have custody of the property unless the contractor's operation is too small to do otherwise.

45.508-1 Inventories upon termination or completion.

(a) *General.* Immediately upon termination or completion of a contract, the contractor shall perform and cause each subcontractor to perform a physical inventory, adequate for disposal purposes, of all Government property applicable to the contract, unless the requirement is waived as provided in paragraph (b) below.

(b) *Exception.* The requirement for physical inventory at the completion of a contract may be waived by the property administrator when the property is authorized for use on a follow-on contract; *provided*, that—

(1) Experience has established the adequacy of property controls and an acceptable degree of inventory discrepancies; and

(2) The contractor provides a statement indicating that record balances have been transferred in lieu of preparing a formal inventory list and that the contractor accepts responsibility and accountability for those balances under the terms of the follow-on contract.

(c) *Listings for disposal purposes.* (Note: This paragraph (c) applies only to nonprofit organizations.)

(1) Standard items that have been modified may be described on listings for disposal purposes as standard items with a general description of the modification.

(2) Items that have been fabricated, such as test equipment, shall be described in sufficient detail to permit a potential user to determine whether they are of sufficient interest to warrant further inspection.

45.508-2 Reporting results of inventories.

The contractor shall, as a minimum, submit the following to the property administrator promptly after completing the physical inventory:

(a) A listing that identifies all discrepancies disclosed by a physical inventory.

(b) A signed statement that physical inventory of all or certain classes of Government property was completed on a given date and that the official property records were found to be in agreement except for discrepancies reported.

45.508-3 Quantitative and monetary control.

When requested by the contracting officer, the contractor's reports of results of physical inventory shall be prepared on a quantitative and monetary basis and segregated by categories of property.

45.509 Care, maintenance, and use.

The contractor shall be responsible for the proper care, maintenance, and use of Government property in its possession or control from the time of receipt until properly relieved of responsibility, in accordance with sound industrial practice and the terms of the contract. The removal of Government property to storage, or its contemplated transfer, does not relieve the contractor of these responsibilities.

45.509-1 Contractor's maintenance program.

(a) Consistent with the terms of the contract, the contractor's maintenance program shall provide for—

(1) Disclosure of need for and the performance of preventive maintenance;

(2) Disclosure and reporting of need for capital rehabilitation; and

(3) Recording of work accomplished under the program.

(b) Preventive maintenance is maintenance performed on a regularly scheduled basis to prevent the occurrence of defects and to detect and correct minor defects before they result in serious consequences. An effective preventive maintenance program shall include at least—

(1) Inspection of buildings at periodic intervals to assure detection of deterioration and the need for repairs;

(2) Inspection of plant equipment at periodic intervals to assure detection of maladjustment, wear, or impending breakdown;

(3) Regular lubrication of bearings and moving parts in accordance with a lubrication plan;

(4) Adjustments for wear, repair, or replacement of worn or damaged parts and the elimination of causes of deterioration;

(5) Removal of sludge, chips, and cutting oils from equipment that will not be used for a period of time;

(6) Taking necessary precautions to prevent deterioration caused by contamination, corrosion, and other substances; and

(7) Proper storage and preservation of accessories and special tools furnished with an item of plant equipment but not regularly used with it.

(c) The contractor's maintenance program shall provide for disclosing and reporting the need for major repair, replacement, and other capital rehabilitation work for Government property in its possession or control.

(d) The contractor shall keep records of maintenance actions performed and any deficiencies in the Government property discovered as a result of inspections.

45.509-2 Use of Government property.

(a) The contractor's procedures shall be in writing and adequate (1) to assure that Government property will be used only for those purposes authorized in the contract and that any required approvals will be obtained, and (2) to provide a basis for determining and allocating rental charges.

(b) The procedures shall—

(1) Establish a minimum level of use below which an analysis of need shall be made and retention justified, except for inactive package plants and standby lines (the use level may be established for individual items or families of items, depending upon circumstances of use);

(2) Provide for recording authorized and actual use consistent with the established use levels;

(3) Require periodic analyses of production needs for plant equipment utilization based upon known requirements; and

(4) Provide for prompt reporting to the contracting officer of all plant equipment for which retention is not justified.

45.510 Property in possession of subcontractors.

The contractor shall require any of its subcontractors possessing or controlling Government property to adequately care for and maintain that property and assure that it is used only as authorized by the contract. The contractor's approved property control system shall include procedures necessary for accomplishing this responsibility.

45.511 Audit of property control system.

The Government may audit the contractor's property control system as frequently as conditions warrant. These audits may take place at any time during contract performance, upon contract completion or termination, or at any time thereafter during the period the contractor is required to retain such records. The contractor shall make all such records and related correspondence available to the auditors.

SUBPART 45.6—REPORTING, REDISTRIBUTION, AND DISPOSAL OF CONTRACTOR INVENTORY

45.600 Scope of subpart.

This subpart establishes policies and procedures for the reporting, redistribution, and disposal of Government property excess to contracts and of property that forms the basis of a claim against the Government (e.g., termination inventory under fixed-price contracts). This subpart does not apply to the disposal of real property or to property for which the Government has a lien or title solely as a result of advance or progress payments that have been liquidated.

45.601 Definitions.

"Common item," as used in this subpart, means material that is common to the applicable Government contract and the contractor's other work.

"Contractor-acquired property" (see 45.101).

"Contractor inventory," as used in this subpart, means—

(a) Any property acquired by and in the possession of a contractor or subcontractor under a contract for which title is vested in the Government and which exceeds the amounts needed to complete full performance under the entire contract;

(b) Any property that the Government is obligated or has the option to take over under any type of contract as a result either of any changes in the specifications or plans thereunder or of the termination of the contract (or subcontract thereunder), before completion of the work, for the convenience or at the option of the Government; and

(c) Government-furnished property that exceeds the amounts needed to complete full performance under the entire contract.

"Government-furnished property" (see 45.101).

"Government property" (see 45.101).

"Line item," as used in this subpart, means a single line entry on a reporting form that indicates a quantity of property having the same description and condition code from any one contract at any one reporting location.

"Personal property," as used in this subpart, means property of any kind or interest in it except real property, records of the Federal Government, and naval vessels of the following categories: battleships, cruisers, aircraft carriers, destroyers, and submarines.

"Plant clearance," as used in this subpart, means all actions relating to the screening, redistribution, and disposal of contractor inventory from a contractor's plant or work site. The term "contractor's plant" includes a contractor-operated Government facility.

"Plant clearance officer," as used in this subpart, means an authorized representative of the contracting officer assigned responsibility for plant clearance.

"Plant clearance period," as used in this subpart, means the period beginning on the effective date of contract completion or termination and ending 90 days (or such longer period as may be agreed to) after receipt by the contracting officer of acceptable inventory schedules for each property classification. The final phase of the plant clearance period means that period after receipt of acceptable inventory schedules.

"Plant equipment" (see 45.101).

"Precious metals," as used in this subpart, means uncommon and highly valuable metals characterized by their superior resistance to corrosion and oxidation. Included are silver, gold, and the platinum group metals—platinum, palladium, iridium, osmium, rhodium, and ruthenium.

"Property administrator" (see 45.501).

"Public body" means any State, Territory, or possession of the United States, any political subdivision thereof, the District of Columbia, the Commonwealth of Puerto Rico, any agency or instrumentality of any of the foregoing, any Indian tribe, or any agency of the Federal Government.

"Real property" (see 45.101).

"Reportable property," as used in this subpart, means contractor inventory

that must be reported for screening in accordance with this subpart before disposition as surplus.

"Reporting activity," as used in this subpart, means the Government activity that initiates the Standard Form 120, Report of Excess Personal Property (or when acceptable to GSA, by data processing output).

"Salvage" (see 45.501).

"Scrap" (see 45.501).

"Screening completion date," as used in this subpart, means the date on which all screening required by this subpart is to be completed. It includes screening within the Government and the donation screening period.

"Serviceable or usable property," as used in this subpart, means property that has a reasonable prospect of use or sale either in its existing form or after minor repairs or alterations.

"Special test equipment" (see 45.101).

"Special tooling" (see 45.101).

"Surplus property," as used in this subpart, means contractor inventory not required by any Federal agency.

"Surplus Release Date (SRD)," as used in this subpart, means the date on which screening of personal property for Federal use is completed and the property is not needed for any Federal use. On that date, property becomes surplus and is eligible for donation.

"Termination inventory," as used in this subpart, means any property purchased, supplied, manufactured, furnished, or otherwise acquired for the performance of a contract subsequently terminated and properly allocable to the terminated portion of the contract. It includes Government-furnished property. It does not include any facilities, material, special test equipment, or special tooling that are subject to a separate contract or to a special contract requirement governing their use or disposition.

"Work-in-process" (see 45.501).

45.602 Reserved.

45.603 Disposal methods.

An agency may exercise its rights to require delivery of any contractor inventory. If the agency does not exercise these rights, the contractor inventory shall be disposed of by one of the following methods in the priority indicated:

(a) Purchase or retention at cost by prime contractor or subcontractor of contractor-acquired property (see 45.605-1).

(b) Return of contractor-acquired property to suppliers (see 45.605-2).

(c) Use within the Government through the use of prescribed screening procedures (see 45.608).

(d) Donation to eligible donees (see 45.609).

(e) Sale (including purchase or retention at less than cost by the prime contractor or subcontractor)(see 45.610).

(f) Donation to public bodies in lieu of abandonment (see 45.611).

(g) Abandonment or destruction (see 45.611).

45.604 Restrictions on purchase or retention of contractor inventory.

A contractor's or subcontractor's authority to purchase, retain, or dispose of contractor inventory is subject to any contract provisions and to applicable Government restrictions on the disposition of property that is classified for security reasons, possesses military offensive or defensive characteristics, or is dangerous to public health, safety, or welfare.

45.605 Contractor-acquired property.

45.605-1 Purchase or retention at cost.

(a) The plant clearance officer shall encourage contractors to purchase or retain contractor-acquired property at cost. However, the contractor shall not include any part of the cost of property purchased or retained in any claim for reimbursement against the Government. Under cost-reimbursement contracts, appropriate adjustments shall be made for previously reimbursed costs. When the property is for use on a continuing Government contract or commercial operation, handling and transportation charges may be considered an allowable cost (included in the contractor's settlement proposal as "other costs" in the case of a termination), provided that the charges are reasonable.

(b) If a contractor purchases or retains contractor inventory for use on a continuing Government contract that is subsequently terminated, the property shall be allocated to the continuing contract, even though its purchase would otherwise constitute undue anticipation of production schedules. If, as a result of the purchase or retention of property from a terminated contract for use on other Government contracts, the contractor terminates subcontracts under the other Government contracts, reasonable termination charges of the subcontracts may be included as an allocable cost under the contract that generated the excess property.

45.605-2 Return to suppliers.

The plant clearance officer shall encourage contractors to return allocable quantities of contractor-acquired property to suppliers for full credit less either the supplier's normal restocking charge or 25 percent of the cost, whichever is less. Contractors may be reimbursed for reasonable transportation, handling, and restocking charges, but not for the cost of the returned property. Under cost-reimbursement contracts, appropriate adjustments shall be made for costs previously reimbursed.

45.605-3 Cost-reimbursement contracts.

Under cost-reimbursement contracts, property purchased or retained by the contractor or returned to suppliers shall not be reported on inventory schedules. The cognizant contract administration office, in coordination with the cognizant auditor, shall periodically review such transactions to protect the Government's interests.

45.606 Inventory schedules.

45.606-1 Submission.

(a) When property is no longer needed to perform the contract, the contractor shall prepare inventory schedules in accordance with the contract and instructions from the plant clearance officer and shall promptly submit the schedules to the cognizant contract administration office. Detailed instructions and requirements governing preparing and submitting inventory schedules are contained in 45.606-5. Agencies may use special inventory schedules for intra-agency screening of particular categories of contractor inventory (e.g., plant equipment of $5,000 or more). Such schedules may also be used for screening with other Federal agencies after coordination with GSA.

(b) The certificate on the inventory schedule (which tenders title to the property) must be executed when contractor inventory is reported. The prime contractor shall execute this certificate, except that for subcontractor termination inventory the subcontractor shall execute the certificate.

45.606-2 Common items.

The contractor's inventory schedules shall not include any items that the contractor can reasonably use on other work without financial loss. However, the schedules shall include common items specified by the contracting officer for delivery to the Government or which are Government-furnished property.

45.606-3 Acceptance.

(a) Within 15 days after receipt of inventory schedules, the plant clearance officer shall review them, determine their acceptability, and request the contractor to correct any inadequate listings. Inventory schedules should not be rejected if the information is adequate for disposal purposes, even if complete cost data on work-in-process

are not available. Rejection shall be limited, when possible, to specific items and shall not necessarily render the entire schedule unacceptable. If substantial errors are discovered that were not apparent on termination inventory schedules previously found acceptable, the final phase of a plant clearance period shall not begin until corrected schedules have been submitted, unless the plant clearance officer determines otherwise.

(b) The plant clearance officer, with the assistance of other Government personnel as necessary, shall verify that (1) the inventory is present at the location indicated, (2) the inventory is allocable to the contract, (3) the quantity and condition are correctly stated, and (4) the contractor has endeavored to divert items to other work or to return contractor-acquired property to the supplier for appropriate credit. The verification may be recorded on SF 1423, Inventory Verification Survey. The plant clearance officer shall require the contractor to promptly correct any discrepancies on the inventory schedule or resubmit the schedule as necessary.

45.606-4 Withdrawals.

If, before final disposition, the contractor becomes aware that any items of contractor-acquired property listed in the inventory schedules are usable on other work without financial loss, the contractor shall purchase the items or retain them at cost and amend the inventory schedules and claim accordingly. Upon notifying the plant clearance officer, the contractor may purchase or retain at cost any other items of property included in the inventory schedules. Withdrawal of any Government-furnished property is subject to the written approval of the plant clearance officer. If withdrawal is requested after screening has started, the plant clearance officer shall notify immediately the appropriate screening activity.

45.606-5 Instructions for preparing and submitting schedules of contractor inventory.

(a) *Use of forms.* The contractor shall report contractor inventory on the following forms, as appropriate.

(1) *Standard Form 1426, Inventory Schedule A (Metals in Mill Product Form) and SF 1427, Inventory Schedule A - Continuation Sheet.* These forms are to be used to list metals in raw or primary form as furnished by the mill and on which there has been no subsequent fabricating operations. They are also to be used for listing nonmetallic materials, such as plastics, rubber, or lumber, in mill product form. They are not to be used for listing castings or forgings, which shall be reported on SF 1428.

(2) *Standard Form 1428, Inventory Schedule B and SF 1429, Inventory Schedule B - Continuation Sheet.* These forms are to be used to list all contractor inventory (including plant equipment) for which Standard Forms 1426, 1430, 1432, or 1434 are not appropriate. However, agencies may direct listing of particular categories of plant equipment on agency forms when standard forms are not appropriate. (See 45.505-6 and 45.606-1(a).)

(3) *Standard Form 1430, Inventory Schedule C (Work in Process) and SF 1431, Inventory Schedule C - Continuation Sheet.* These forms are to be used to list all work in process.

(4) *Standard Form 1432, Inventory Schedule D (Special Tooling and Special Test Equipment) and SF 1433, Inventory Schedule D - Continuation Sheet.* These forms are to be used to list such contractor inventory as dies, jigs, gauges, fixtures, special tools, and special test equipment.

(5) *Standard Form 1434, Termination Inventory Schedule E.* This is a short form to be used with SF 1438, Settlement Proposal (Short Form). Applicability is limited to termination settlement proposals under $10,000.

(b) *Submission.*

(1) Contractors shall report contractor inventory promptly after determining it to be excess, unless a later date is authorized by the contract or the plant clearance officer.

(2) Unless contract provisions or agency regulations prescribe otherwise, 12 copies of inventory schedules listing serviceable or salvable items and 6 copies of inventory schedules listing scrap items shall be presented to the plant clearance officer at the cognizant contract administration office.

(3) The standard inventory schedule forms may be reproduced by contractors, provided no change is made in size or format. Machine listings may be submitted if all essential elements of data are included and the appropriate signed standard form is submitted as a cover sheet.

(4) The appropriate continuation sheet shall be used when more than one page is needed.

(5) Partial schedules may be submitted when they cover substantial portions of a particular property classification of contractor inventory. The first page of each schedule submitted shall be identified as partial or final in the title block of the schedule.

(6) The contractor should consult with the plant clearance officer when in doubt as to item descriptions or other inventory schedule requirements.

(c) *Grouping contractor inventory for reporting purposes.* All line items of contractor inventory shall be grouped into the following categories in the order indicated and reported on separate forms (line items may not be divided for the purpose of avoiding screening requirements):

(1) *Classified property.* This category includes all property bearing a security classification, regardless of acquisition cost. Classified property should be further subdivided into the same categories as unclassified property (see paragraph (3) below).

(2) *Government-furnished property.* This category should be subdivided into the same categories as unclassified property (see paragraph (3) below).

(3) *Unclassified property.* Unclassified property shall be subdivided as follows:

(i) Special tooling, regardless of acquisition cost.

(ii) Scrap, regardless of acquisition cost.

(iii) Salvage, regardless of acquisition cost.

(iv) Remaining property having a line item acquisition cost of $500 or less.

(v) Property having a line item acquisition cost of more than $500, further separated into the following categories (these categories may be revised to suit agency needs):

(A) Aeronautical material and equipment.

(B) Electronic material and equipment.

(C) Special test equipment.

(D) Other serviceable or usable property.

(d) *General instructions for completing forms.* The inventory schedule forms are self-explanatory, except for the following general instructions and the specific instructions in paragraph (e) below.

(1) If the inventory applies solely to one contract modification, indicate the contract modification number in the same block as the prime contract number. If the inventory results from the termination of a contract, enter the termination docket number in the same block as the prime contract number.

(2) Provide in column b an accurate and complete commercial description for each item of serviceable contractor inventory. Where practical, show the manufacturer's name, address, and catalog number. Describe other items in sufficient detail to permit the Government to determine appropriate disposition. Include in descriptions for all line items the National Stock Number furnished to the contractor with Government-furnished property and the

National Stock Number available in the contractor's property control system.

(3) Identify in column b any industrial diamonds, diamond swarf, and property containing economically recoverable quantities of precious metals by the type of metal and express the quantity of the metal in the appropriate weight unit or in the percentage of total content.

(4) Enter in column c one of the following codes to indicate the condition of each item of material:

Code 1, Unused-good. Unused property that is usable without repairs and identical or interchangeable with new items from normal supply sources.

Code 2, Unused-fair. Unused property that is usable without repairs, but is deteriorated or damaged to the extent that utility is somewhat impaired.

Code 3, Unused-poor. Unused property that is usable without repairs, but is considerably deteriorated or damaged. Enough utility remains to classify the property better than salvage.

Code 4, Used-good. Used property that is usable without repairs and most of its useful life remains.

Code 5, Used-fair. Used property that is usable without repairs, but is somewhat worn or deteriorated and may soon require repairs.

Code 6, Used-poor. Used property that may be used without repairs, but is considerably worn or deteriorated to the degree that remaining utility is limited or major repairs will soon be required.

Code 7, Repairs required-good. Required repairs are minor and should not exceed 15 percent of original acquisition cost.

Code 8, Repairs required-fair. Required repairs are considerable and are estimated to range from 16 percent to 40 percent of original acquisition cost.

Code 9, Repairs required-poor. Required repairs are major because property is badly damaged, worn, or deteriorated, and are estimated to range from 41 percent to 65 percent of original acquisition cost.

Code X, Salvage. Property has some value in excess of its basic material content, but repair or rehabilitation to use for the originally intended purpose is clearly impractical. Repair for any use would exceed 65 percent of the original acquisition cost.

Code S, Scrap. Material that has no value except for its basic material content.

(5) Enter in columns e and f the standard or invoiced cost of the material being reported. If such data are not available, enter the estimated cost, identified by the symbol "(e)".

(6) Enter after the amount of the contractor's offer in column g the letter "A" if a credit for acquisition has been authorized or approved by the plant clearance officer. Enter the letter "C" if the amount represents your offer to acquire the item. In either case, enter the quantity on a second line if it is less than the full quantity shown in column d.

(e) *Instructions for completing specific forms.* The following instructions are in addition to the general instructions in paragraph (d) and the self-explanatory blocks on the inventory forms.

(1) *Inventory Schedule A (Metals in Mill Product Form) (SF 1426).*

(i) *Classification.* List each type of metal (such as aluminum or carbon steel) on a separate form, with the name or alloy shown in the Property Classification block. List like forms of the metal or alloy together in sequence. (For example, for carbon steel, group all the strip, followed by sheets, followed by the bar stock, etc.)

(ii) *Description.* Enter in column b the full commercial description and weight for all items. Identify the material specification entered in column b2 as either a Government specification or that of a particular industrial society or manufacturer. Complete columns b3, b4, and b5 to show the thickness, width, and length.

(2) *Inventory Schedule B (SF 1428).*

(i) *Classification.* Use a separate form for each classification. Enter the name of the classification in the Property Classification block. Items having no commercial value should be placed in a single classification designated "no commercial value." The term "raw materials (other than metals)" means material in primary form. Examples are plastics, textiles, lumber, and chemicals. Arrange items in sequence under separate subheadings. For example, under the classification "chemicals," group separately all acids, all alkalis, all resins, etc.

(ii) *Description.* In the inventory description for plant equipment (see 45.101 for definition), include the following as a minimum:

(A) Nomenclature or description of the item and Federal Supply Classification (see Cataloging Handbooks H2-1, H2-2, and H2-3).

(B) Federal Supply Code for Manufacturers (see Cataloging Handbooks H4-1 and H4-2) and, if available in the contractor's property control system, the name and address of the equipment manufacturer.

(C) Model/part number.

(3) *Inventory Schedule C (Work in Process) (SF 1430).*

(i) *Classification.* No classification of items is required. Do not list finished components on this form (use SF 1428).

(ii) *Description.* Enter in column b a description in sufficient detail to permit the Government to determine the appropriate disposition. Estimate percentage of completion for each line item.

(iii) *Condition* (column c). Generally, conditions X (salvage) or S (scrap) are applicable to work in process (see paragraph (d)(4) above).

(4) *Inventory Schedule D (Special Tooling and Special Test Equipment) (SF 1432).*

(i) *Classification.* Use a new form for each general classification, such as dies, jigs, gauges, fixtures, special tooling, and special test equipment.

(ii) *Description.* Furnish a description which will enable the plant clearance officer or screener to determine the appropriate disposition. Include tool nomenclature, tool number, related product part number, or function which the tool performs. Designate special tooling usable for maintenance programs by placing the letter "M" in the left-hand column, "For Use of Contracting Agency Only."

(5) *Termination Inventory Schedule E (SF 1434).*

(i) *Classification.* No special classification is required, but similar items should be grouped together. Several classifications may be listed on one form.

(ii) *Description.* Enter in column b the full commercial description of all items which have commercial value. For other items, furnish a description in sufficient detail to permit the Government to determine the appropriate disposition.

45.607 Scrap.

45.607-1 General.

(a) The contractor need not itemize scrap on inventory schedules if (1) the material is physically segregated in the contractor's plant and (2) the contractor submits a statement describing the material, estimating its cost, and providing other information necessary for the plant clearance officer to verify whether the property is scrap. The contractor shall sort the scrap to the extent economically feasible to assure the highest sale proceeds.

(b) The plant clearance officer shall review the schedules of property reported as scrap and, if necessary, physically inspect the property involved. If the plant clearance officer determines that any of the property is serviceable, usable, or salvable, the contractor shall

resubmit it on appropriate inventory schedules.

45.607-2 Recovering precious metals.

(a) GSA is responsible for initiating the Government-wide precious metals recovery program (see FPMR 101-42.3 for procedures and requirements in recovering precious metals).

(b) Agencies shall assure that contractors generating contractor inventory containing precious metal-bearing scrap identify and promptly report such items. Agencies are also responsible for establishing and maintaining a program for recovering precious metals. Agencies having no recovery and disposal facility available may request information or recovery assistance from the GSA regional office serving the area or the DOD Precious Metals Recovery Program Manager, Attention DLA-SIP, Cameron Station, Alexandria, VA 22314.

(c) Precious metals shall be packaged in nonporous, smooth containers in a manner to prevent loss through leakage or damage to the containers. (Glass containers shall not be used.) Grindings or sweepings shall not be packaged in paper or wooden containers, because loss occurs by adhesion to the containers. Containers shall be marked to show the type of precious metals.

(d) The shipping document shall indicate the net weight of each item to the nearest ounce (troy or avoirdupois). Shipment shall be made by the most economical means available, consistent with adequate safeguards to prevent loss or theft.

45.608 Screening of contractor inventory.

45.608-1 General.

(a) Serviceable or usable property included in the contractor's inventory schedules that is not purchased or retained by the prime contractor or subcontractor or returned to suppliers shall be screened for use by Government agencies before disposition by donation or sale. Agencies shall assure the widespread dissemination of information concerning the availability of contractor inventory.

(b) There are four categories of screening: standard, agency, limited, and special items. The plant clearance officer shall determine the categories of screening required, initiate prescribed screening, and assure accomplishment of transfer and donation.

Table 45-1 lists the type of property and screening period for each of these categories. When circumstances warrant, the plant clearance officer may extend the period for agency screening or arrange for more extensive screening than that prescribed. In the event of a conflict between Table 45-1 and a specific contract requirement, items shall be screened as provided by the contract.

Table 45-1

Screening Requirements by Type of Property

Screening Categories	Type of Property	Period
Standard	Line items in excess of $500	90 days/(see 45.608-2)
Agency	Special tooling, perishables, property bearing a security classification, property dangerous to public health and safety, regardless of acquisition cost, and agency-peculiar property	30 days/(See 45.608-3)
Limited	Special tooling, scrap and salvage, property in condition codes 3, 6, 9, X, and S, work-in-process, inventory schedules (the total acquisition cost of which is reported as $2,500 or less), and line items of $500 or less (except perishables, property bearing a security classification, and property dangerous to public health and safety)	30 days/(see 45.608-4)
Special Items	Special test equipment with standard components	(see 45.608-5(a))
	Special test equipment without standard components	(see 45.608-5(b))
	Printing equipment	(see 45.608-5(c))
	Automatic data processing equipment	(see 45.608-5(d))
	Nuclear materials	(see 45.608-5(e))

45.608-2 Standard screening.

(a) Standard screening applies to serviceable property with a line item value in excess of $500 that does not meet the criteria for another screening category.

(b) Standard screening begins on the date the plant clearance officer receives acceptable contractor inventory schedules and ends 90 days thereafter. The period is broken into three phases as follows:

(1) *1st through 30th day—screening by the contracting agency.* The agency shall screen the listed items for its use. When screening is completed, the plant clearance officer shall delete the retained items from the schedules.

(2) *31st through 75th day—screening by all Federal agencies.* Not later than the 31st day, the plant clearance officer shall send four copies of the revised schedules and Standard Form (SF) 120, Report of Excess Personal Property, to the General Services Administration (GSA) regional office that serves the region in which the property is located. If the plant clearance officer receives a request for property transfer after submission of the SF 120, and before receiving a GSA property transfer order, a prompt request shall be forwarded to GSA for approval to withdraw the items from the inventory schedule. The regional GSA office will prepare and issue circulars and catalogs to all Federal agencies within the region. GSA will honor requests for transfer of property on a "first-come first-served" basis through the 75th day. The GSA regional office will transmit to the plant clearance officer the approved orders and shipping instructions for property to be transferred. The 75th day is the surplus release date and will be shown on the SF 120. The plant clearance officer may not extend this date.

(3) *76th through 90th day—screening by GSA for possible donation.* During this period, GSA will arrange for screening of all remaining property for possible donation to eligible donees. Procedures for donation are in 45.609. The 90th day is the screening completion date and will be shown on the SF 120. The plant clearance officer shall not extend this date.

45.608-3 Agency screening.

Agency screening is the procedure for screening certain types of property (see Table 45-1) only within the contracting agency. The screening period begins on the date the plant clearance officer receives acceptable inventory schedules and ends 30 days later.

45.608-4 Limited screening.

(a) Items that are scrap or salvage or that otherwise have a limited potential for use (except special tooling) are not ordinarily subject to standard or agency screening. The plant clearance officer shall include listings of such property in a special file, which shall be made available to GSA for limited screening. The screening period for such property begins on the date the plant clearance officer receives acceptable inventory schedules and ends 30 days later. This period is apportioned into two phases, as follows:

(1) 1st through 15th day—GSA selection of items for Federal utilization.

(2) 16th through 30th day—GSA selection of items for donation.

(b) For special tooling, the screening period described in paragraph (a) above begins upon completion of agency screening.

45.608-5 Special items screening.

Special procedures are established for the following types of property:

(a) *Special test equipment with standard components.* (1) Contractors reporting special test equipment that contains standard, general, or multipurpose components will describe the composite unit to clearly reflect its capability. Standard components that

can be economically removed and reused will be listed and described in sufficient detail to permit screening.

(2) If the contractor has a requirement for the standard components to meet other approved special test equipment or facilities requirements, the contractor shall annotate the SF 1432, Inventory Schedule D (Special Tooling and Special Test Equipment), to reflect this requirement. Screening shall be accomplished in accordance with agency procedures for the first 30 days. If there are no agency requirements for the composite unit, and if the administrative contracting officer approves the retention, the contractor shall have priority for the standard components for which it has indicated a requirement.

(3) Standard components that have not been retained by the agency or the contractor shall be screened in accordance with standard requirements for the 31st through 75th day. Standard components shall not be removed from the composite unit until a requirement has been established. If no requirements exist, the composite units shall be donated or sold in accordance with prescribed procedures.

(b) *Special test equipment without standard components.* Special test equipment without standard components shall receive agency screening for 30 days. Items for which no requirements exist shall receive limited screening for an additional 30 days.

(c) *Printing equipment.* Agencies shall report all printing equipment excess to their requirements to the Public Printer, Government Printing Office, North Capitol and H Streets, NW, Washington, DC 20401, after screening within the agency (see 44 U.S.C. 312). If the Public Printer indicates no requirements, the reporting activity shall submit the listing of printing equipment to the General Services Administration for further use and donation screening.

(d) *Procedures for automatic data processing equipment (ADPE).* (1) The plant clearance officer shall report ADPE items on SF 120, Report of Excess Personal Property (or when acceptable to GSA, by data processing output). This requirement applies, regardless of Federal Supply Class, to Government-owned ADPE or to ADPE leased by the contractor under terms providing the Government an option to purchase (or other residual interests, including the right to use until expiration of the lease). ADPE should be reported as soon as it is possible to project the release date, within the following reporting schedule:

(i) Government-owned ADPE shall be reported upon receipt of notice of complete termination or when it is determined that the property will no longer be needed on the contract. After completion of screening within the agency, schedules listing ADPE shall be referred to GSA for a 90-day screening period.

(ii) Leased ADPE, which is charged to one or more cost-reimbursement contracts, shall be reported promptly on a separate SF 120 when it is determined that the property will no longer be needed on the contracts. To preclude unnecessary lease costs, the release date established shall not extend the rental period beyond the date it can be released to the lessor. A quotation shall be requested from the lessor projecting the reduced price at which the equipment may be purchased based on accumulated rental credits through the anticipated release date. A copy of this quotation should be attached to the Standard Form 120, but submission of the Standard Form 120 should not be delayed pending receipt of this information.

(2) The following information shall be reported on SF 120:

(i) A complete list of each equipment item, identified by manufacturer's series and model number, and modifications and attachments applied to each component (including identification number if Government-owned); type of maintenance contract; contractor; and monthly cost.

(ii) A separate attachment showing the time in service for each component, average use (hours per month), average downtime per month for the 12-month period immediately preceding the report, and, if appropriate, a narrative description of any history of repeated equipment failure.

(iii) A list of compilers and software packages, such as executive routines, engineering drawings, and maintenance manuals, available with the equipment.

(iv) In the case of a complete equipment configuration, information regarding power and air conditioning requirements.

(e) *Nuclear materials.* (1) The possession, use, and transfer of certain nuclear materials are subject to the regulatory controls of the Nuclear Regulatory Commission (NRC). The materials are defined as follows:

(i) By-product material—any radioactive material (except special nuclear material) yielded in or made radioactive by exposure to the radiation incident to producing or using special nuclear material.

(ii) Source material—uranium or thorium, or any combination thereof, in any physical or chemical form; or ores which contain by weight one-twentieth of 1 percent (0.05 percent) or more of uranium, thorium, or any combination thereof. Source material does not include special nuclear material.

(iii) Special nuclear material—plutonium, uranium 233, uranium enriched in the isotope 233 or in the isotope 235, and any other material that the NRC determines to be special nuclear material (but not including source material); or any material artificially enriched by any nuclear material.

(2) Plant clearance officers shall submit listings of excess nuclear material in the categories described above for screening by the contracting activity. If there are no requirements, the ultimate method of disposal shall be dependent upon the license issued by the NRC or the respective states and pertinent Federal and agency regulations.

(f) *Construction and construction-related architect-engineer materials.*

(1) *Applicability* (i) This paragraph covers disposition of contractor inventory generated under construction contracts and construction-related architect-engineer contracts.

(ii) It applies to termination inventory and to any other inventory that is excess (A) because of a contract modification or (B) under a price-revision contract; *provided*, the cost is included in a request for equitable adjustment or for price revision.

(iii) It applies also to (A) property excess to the requirement of cost-reimbursement contracts and (B) excess Government-furnished property under both fixed-price and cost-reimbursement contracts.

(2) *Separate schedules.* Construction equipment shall be submitted on separate inventory schedules.

(3) *Return of materials to stock.* Materials taken from stock and shipped to the construction site are common items and shall be returned to stock, unless the contractor establishes that they cannot be used without loss. Contractors shall not include in settlement proposals the cost of returned materials, but costs in connection with withdrawing, replacing, or transporting them may be included as "Other Costs."

(4) *Allocability of contractor-acquired material on inventory schedules.* The contracting officer is responsible for determining whether—

(i) Property listed on inventory schedules is qualitatively and quantitatively allocable to the terminated contract (or its terminated portion), taking into account any work in place; and (when appropriate)

(ii) The difference between the cost of allocable property on the inventory schedules and the total cost of property included in the settlement has either been (A) incorporated in the work or (B) consumed in performing the work.

(5) *Contractor's certificate—property incorporated in work.* Any settlement proposal that includes the cost of property (materials, etc.) incorporated in the work must include the contractor's certification that all property not listed on the inventory schedules has been incorporated in the work or consumed in performing the work.

(6) *Inventory at construction site.* The contracting officer shall make every effort to relieve the contractor, as promptly as possible, of responsibility for preserving and protecting termination inventory located at the construction site. As promptly as possible, the contractor shall remove the property (including construction equipment) that is not to be listed on inventory schedules.

(7) *Contracts for other agencies.* Under contracts funded by an agency other than the agency administering the contract, the funding agency has first priority to the property listed on the inventory schedules.

45.608-6 Waiver of screening requirements.

Agency heads or their designees may authorize exceptions from screening requirements; *provided*, (a) there are compelling circumstances clearly in the Government's interest and (b) the contracting agency prepares a written notice, including justification, and provides a copy to the Administrator, General Services Administration, and the contract administration office 10 days before the effective date of the exception.

45.608-7 Reimbursement of costs for transfer of contractor inventory.

The contracting agency shall not be reimbursed for the acquisition cost of any property selected by another agency. However, except for termination inventory, the transferee will pay any transfer costs that are not the contractor's responsibility. These costs include packing, crating, preparation for shipment, loading, and transportation. Costs incident to the transfer of termination inventory are ordinarily included in the contractor's settlement proposal and are not payable by the transferee. The contract administration office is responsible for obtaining packing, crating, and handling services. To accelerate plant clearance, the transferee shall include all appropriate data, including funding data, in the transfer or shipping document.

45.608-8 Report of excess personal property (SF 120).

(a) This subsection provides instructions for completing SF 120, Report of Excess Personal Property, when reporting contractor inventory in accordance with 45.608-2. (For reporting other agency excess personal property, see 41 CFR 101-43.4901-120-1, Instructions for preparing SF 120).

(b) All items on the form are self-explanatory, except as follows:

Item 1, Report number. Enter the serial number of the report and any other identifying number or symbol required by the reporting agency. If the report is a correction or withdrawal (complete or partial) of a prior report, the original report number shall be entered, followed by the letter a, b, or c, etc., to identify the number of successive correcting or withdrawing reports.

Item 3, Total cost. Enter the total of all amounts shown on the inventory schedules.

Item 4, Type of report.

Box b—Check if necessary to correct an original report and complete items 1, 2, 3, 4, 5, and 7. Complete the remaining items only to the extent necessary to show the correction.

Box c—Check for partial withdrawals of contractor inventory previously reported and complete items 1, 2, 3, 4, 5, and 7. Re-identify in column 18(b) the line items or portions of line items withdrawn. In column 18(e), show the number of units withdrawn. In column 18(g), show the acquisition cost of the units withdrawn. In item 3, enter the total acquisition cost of all items withdrawn.

Box d—Check for total withdrawal of contractor inventory previously reported and complete items 1, 2, 3, 4, 5, and 7. Provide explanatory remarks in column 18(b).

Item 5, To. Enter the name and address of the GSA regional office cognizant of the location of the property. (ADPE, except supply items under $1500, is reported to the Central Office GSA.)

Item 6, Appropriation or fund to be reimbursed. No entry shall be made in this item if the net proceeds are to be deposited in the Treasury as miscellaneous receipts (see 45.610-3). However, in exchange/sale transactions an appropriation number is required.

Item 8, Report approved by. Enter signature and title of the Federal official approving report.

Item 12, GSA control number. Not to be used by reporting activity.

Item 13, FSC group number, if known.

Item 14, Location of property. Enter the name of contractor holding the property and the specific address where the property is located.

Item 15, Reimbursement required. Enter X in the block designated "No."

Item 16, Agency control number. Leave blank.

Item 17, Surplus release date (see 45.608-2). To be entered by GSA.

Item 18, Excess property list. Leave blank.

Column a, Item number. Leave blank.

Column b, Description. Enter the following information:

(1) Identification of attached inventory schedules and the number of pages for each schedule.

(2) The screening completion date (see 45.608-2).

(3) The following notation: "If the property described herein is not termination inventory, it is imperative that fund appropriations for the transportation, packing, crating, and handling of the materials be furnished with the transfer order."

(4) Contract number.

(5) When reporting motor vehicles in Federal Supply Groups 23, 24, and 38—

(i) In column 18(b), the estimated one-time cost of repairs (parts and labor); and

(ii) In column 18(c), a condition code based on the estimated cost of repairs.

(c) Columns c through h. Leave blank, except as they are used for 5(ii) above.

45.609 Donations.

(a) Property may be donated only after it has been determined to be surplus following appropriate utilization screening. The donation of surplus property to an authorized donee is subordinate to any need for property by a Federal agency.

(b) The GSA is responsible for making necessary arrangements for donation screening of serviceable property during the last 15 days of the 90-day screening period.

(c) Items that have been selected for donation shall not be retained longer than 42 calendar days from the surplus release date. The plant clearance officer shall authorize release to the eligible donees immediately upon receipt of GSA approval and shipping instructions. If approval and shipping instructions, including provision for payment of all costs incident to donation, are not received within the 42-day period, the property shall be otherwise disposed of as surplus. All costs incident to donation that are not the responsibility of the contractor shall be borne by the donee.

(d) Agencies having a current essential requirement may withdraw

property undergoing donation screening. In all other cases, property may be withdrawn only after GSA concurrence.

45.610 Sale of surplus contractor inventory.

45.610-1 Responsibility.

(a) The Administrator, GSA, exercises general supervision and direction over the disposition of surplus personal property, including sales of surplus contractor inventory. Policy and procedures for sales of contractor inventory are contained in the Federal Property Management Regulations (FPMR) 41 CFR Part 101-45. Sales of contractor inventory under the control of the Department of Defense are conducted in accordance with the DOD Supplement to the FAR.

(b) Reportable property submitted to GSA on SF 120 for utilization screening and not otherwise transferred or donated will automatically be programmed for sale by the GSA regional office.

(c) All other property requiring sale shall be reported to GSA on SF 126, Report of Personal Property for Sale, and in accordance with any additional instructions provided by the GSA regional office cognizant of the location where the property is physically located.

45.610-2 Exemptions from sale by GSA.

(a) Agency heads may seek exemptions from the Administrator, GSA, by submitting a letter explaining the impairment or adverse effect of sale by GSA and justifying the need for the exemption.

(b) GSA regional offices may authorize sale by the reporting activity of perishable items or small lots of limited-value property at isolated locations.

45.610-3 Proceeds of sale.

Proceeds of any sale are to be credited to the Treasury of the United States as miscellaneous receipts, except where the contract or any subcontract thereunder authorizes the proceeds to be credited to the price or cost of the work (40 U.S.C. 485(a) and (e)).

45.610-4 Contractor inventory in foreign countries.

Contractor inventory located in foreign countries shall be sold or disposed of in accordance with agency procedures (see 40 U.S.C. 511-514).

45.611 Destruction or abandonment.

(a) Surplus property may be destroyed or abandoned only after every effort has been made to dispose of it by other authorized methods. Before authorizing destruction or abandonment, the plant clearance officer shall determine in writing that—

(1) The property has no commercial value and no value to the Government;

(2) The estimated cost of care and handling is greater than the probable sale price; or

(3) Because of its nature, the property constitutes a danger to public health, safety, or welfare.

(b) Unless permitted by the contract, no contractor inventory shall be abandoned on the contractor's premises without the contractor's written consent.

(c) Surplus property for which a determination has been made under subparagraph (a)(1) or (2) above may, however, be donated to public bodies in lieu of abandonment or destruction. All costs incident to donation shall be borne by the donee.

45.612 Removal and storage.

45.612-1 General.

Contractor inventory shall be removed from the contractor's premises as soon as possible to preclude storage expenses.

45.612-2 Special storage at the contractor's risk.

When the contractor finds it necessary to remove property from the premises before expiration of the plant clearance period, the contractor may, with the concurrence of the plant clearance officer, store property in a warehouse or other storage location on or off the contractor's premises. Storage shall in no way modify the contractor's responsibility for the property. The expense of storage, including any cost incident to the transportation to and from the storage area, shall normally be borne by the contractor and shall not be charged directly or indirectly to Government contracts unless the contracting officer determines that the storage is for the convenience of the Government.

45.612-3 Special storage at the Government's expense.

(a) Contractor inventory may be stored at the Government's expense only when the contracting officer determines that it should be retained in storage for anticipated use.

(b) When the plant clearance officer recommends that the contracting office execute a storage agreement with the contractor, the request shall be accompanied with adequate data to justify the agreement (e.g., property to be stored, storage period, and cost to the Government).

(c) If the contractor will not agree to storage on its premises, the plant clearance officer shall submit adequate information to permit a decision by the contracting office for storage on a Government or commercial facility (e.g., storage space required; necessary packing, crating, and shipping services; and information as to available Government or commercial storage facilities in the local area).

45.613 Property disposal determinations.

Written determinations supporting abandonment, destruction, or other appropriate disposition shall be made by the plant clearance officer and reviewed by an appropriate reviewing authority within the agency.

45.614 Subcontractor inventory.

(a) The disposal policies and procedures in this subpart are applicable to contractor inventory in the possession of subcontractors, except inventory under terminated subcontracts for which the termination contracting officer has authorized the prime contractor to conclude settlements (see 49.108).

(b) Subcontractors in all tiers shall prepare inventory schedules in accordance with the requirements of this subpart. Forms prescribed for use by prime contractors may be used by subcontractors, but their use is not required if substantially equivalent information is provided. Subcontractor inventory and any disposal recommendations (including scrap recommendations) shall be reported through the next-higher-tier subcontractor to the contractor, who is responsible for reporting property to the cognizant plant clearance officer. The prime contractor and each subcontractor are responsible for review and approval of inventory schedules submitted by their respective next-lower-tier subcontractors.

(c) In the interest of expediting disposition of termination inventory, the contracting officer cognizant of the prime contractor may authorize subcontractors to submit their next-lower-tier subcontractor's inventory schedules directly to the prime contractor for transmittal to the contracting officer for review and disposition instructions. Any rights which the prime contractor has or acquires in the inventory of first-tier or lower-tier subcontractors shall, to the extent directed by the contracting officer, be exercised for the benefit of the Government in accordance with the provisions of the prime contract.

(d) Contract administration offices should generally secure assistance from other offices for verification, screening, and plant clearance action when

property is located outside their geographic areas.

45.615 Accounting for contractor inventory.

Following disposition of all contractor inventory, and after due application of proceeds, the plant clearance officer shall prepare SF 1424, Inventory Disposal Report, accounting for all property reported by the contractor and its disposition. The report shall indicate any inventory lost, damaged, destroyed, or otherwise unaccounted for, as well as any changes in quantity or value of inventory made by the contractor after submission of the initial schedules. The report shall be transmitted to the property administrator or, for termination inventory, to the termination contracting officer.

PART 46—QUALITY ASSURANCE

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

46.000 Scope of part.

This part prescribes policies and procedures to ensure that supplies and services acquired under Government contract conform to the contract's quality and quantity requirements. Included are inspection, acceptance, warranty, and other measures associated with quality requirements.

SUBPART 46.1—GENERAL

46.101 Definitions.

"Acceptance," as used in this part, means the act of an authorized representative of the Government by which the Government, for itself or as agent of another, assumes ownership of existing identified supplies tendered or approves specific services rendered as partial or complete performance of the contract.

"Contract quality requirements," means the technical requirements in the contract relating to the quality of the product or service and those contract clauses prescribing inspection, and other quality controls incumbent on the contractor, to assure that the product or service conforms to the contractual requirements.

"Government contract quality assurance," means the various functions, including inspection, performed by the Government to determine whether a contractor has fulfilled the contract obligations pertaining to quality and quantity.

"Inspection," means examining and testing supplies or services (including, when appropriate, raw materials, components, and intermediate assemblies) to determine whether they conform to contract requirements.

"Off-the-shelf item," means an item produced and placed in stock by a contractor, or stocked by a distributor, before receiving orders or contracts for its sale. The item may be commercial or produced to military or Federal specifications or description.

"Subcontractor" (see 44.101).

"Testing," means that element of inspection that determines the properties or elements, including functional operation of supplies or their components, by the application of established scientific principles and procedures.

46.102 Policy.

Agencies shall ensure that—

(a) Contracts include inspection and other quality requirements, including warranty clauses when appropriate, that are determined necessary to protect the Government's interest.

(b) Supplies or services tendered by contractors meet contract requirements;

(c) Government contract quality assurance is conducted before acceptance (except as otherwise provided in this part), by or under the direction of Government personnel;

(d) No contract precludes the Government from performing inspection;

(e) Nonconforming supplies or services are rejected, except as otherwise provided in 46.407; and

(f) The quality assurance and acceptance services of other agencies are used when this will be effective, economical, or otherwise in the Government's interest (see Subpart 42.1.)

46.103 Contracting office responsibilities.

Contracting offices are responsible for—

(a) Receiving from the activity responsible for technical requirements any specifications for inspection, testing, and other contract quality requirements essential to ensure the integrity of the supplies or services (the activity responsible for technical requirements is responsible for prescribing such inspection, testing, and other contract quality requirements);

(b) Including in solicitations and contracts the appropriate requirements for the contractor's control of quality for the supplies or services to be acquired;

(c) Issuing any necessary instructions to the cognizant contract administration office and acting on recommendations submitted by that office (see 42.301 and 46.104(f); and

(d) When contract administration is retained (see 42.203), verifying that the contractor fulfills the contract quality requirements.

46.104 Contract administration office responsibilities.

When a contract is assigned for administration to the contract administration office cognizant of the contractor's plant, that office, unless specified otherwise, shall—

(a) Develop and apply efficient procedures for performing Government contract quality assurance actions under the contract in accordance with the written direction of the contracting office;

(b) Perform all actions necessary to verify whether the supplies or services conform to contract quality requirements;

(c) Maintain, as part of the performance records of the contract, suitable records reflecting—

(1) The nature of Government contract quality assurance actions, including, when appropriate, the number of observations made and the number and type of defects; and

(2) Decisions regarding the acceptability of the products, the processes, and the requirements, as well as action to correct defects.

(d) Implement any specific written instructions from the contracting office;

(e) Report to the contracting office any defects observed in design or technical requirements, including contract quality requirements; and

(f) Recommend any changes necessary to the contract, specifications, instructions, or other requirements that will provide more effective operations or eliminate unnecessary costs (see 42.102(e) and 46.103(c)).

46.105 Contractor responsibilities.

(a) The contractor is responsible for carrying out its obligations under the contract by—

(1) Controlling the quality of supplies or services;

(2) Tendering to the Government for acceptance only those supplies or services that conform to contract requirements;

(3) Ensuring that vendors or suppliers of raw materials, parts, components, subassemblies, etc., have an acceptance quality control system; and

(4) Maintaining substantiating evidence, when required by the contract, that the supplies or services conform to contract quality requirements, and furnishing such information to the Government as required.

(b) The contractor may be required to provide and maintain an inspection system or program for the control of quality that is acceptable to the Government (see 46.202).

(c) The control of quality by the contractor may relate to, but is not limited to—

(1) Manufacturing processes, to ensure that the product is produced to, and meets, the contract's technical requirements;

(2) Drawings, specifications, and engineering changes, to ensure that manufacturing methods and operations meet the contract's technical requirements;

(3) Testing and examination, to ensure that practices and equipment provide the means for optimum evaluation of the characteristics subject to inspection;

(4) Reliability and maintainability assessment (life, endurance, and continued readiness);

(5) Fabrication and delivery of products, to ensure that only conforming products are tendered to the Government;

(6) Technical documentation, including drawings, specifications, handbooks, manuals, and other technical publications;

(7) Preservation, packaging, packing, and marking; and

(8) Procedures and processes for services to ensure that services meet contract performance requirements.

(d) The contractor is responsible for performing all inspections and test required by the contract except those specifically reserved for performance by the Government (see 46.201(c).

SUBPART 46.2—CONTRACT QUALITY REQUIREMENTS

46.201 General.

(a) The contracting officer shall include in the solicitation and contract the appropriate quality requirements. The type and extent of contract quality requirements needed depends on the particular acquisition and may range from inspection at time of acceptance to a requirement for the contractor's implementation of a comprehensive program for controlling quality.

(b) As feasible, solicitations and contracts may provide for alternative, but substantially equivalent, inspection methods to obtain wide competition and low cost. The contracting officer may also authorize contractor-recommended alternatives when in the Government's interest and approved by the activity responsible for technical requirements.

(c) Although contracts generally make contractors responsible for performing inspection before tendering supplies to the Government, there are situations in which contracts will provide for specialized inspections to be performed solely by the Government. Among situations of this kind are—

(1) Tests that require use of specialized test equipment or facilities not ordinarily available in suppliers' plants or commercial laboratories (e.g., ballistic testing of ammunition, unusual environmental tests, and simulated service tests); and

(2) Contracts that require Government testing for first article approval (see Subpart 9.3).

(d) Except as otherwise specified by the contract, required contractor testing may be performed in the contractor's or subcontractor's laboratory or testing facility, or in any other laboratory or testing facility acceptable to the Government.

46.202 Types of contract quality requirements.

Contract quality requirements fall into three general categories, depending on the extent of quality assurance needed by the Government for the acquisition involved.

46.202-1 Government reliance on inspection by contractor.

(a) Except as specified in (b) below, the Government shall rely on the contractor to accomplish all inspection and testing needed to ensure that supplies or services acquired under small purchases conform to contract quality requirements before they are tendered to the Government (see 46.301).

(b) The Government shall not rely on inspection by the contractor if the contracting officer determines that the Government has a need to test the supplies or services in advance of their tender for acceptance, or to pass upon the adequacy of the contractor's internal

work processes. In making the determination, the contracting officer shall consider—

(1) The nature of the supplies and services being purchased and their intended use (see 46.204 and Table 46-1);

(2) The potential losses in the event of defects;

(3) The likelihood of uncontested replacement or correction of defective work; and

(4) The cost of detailed Government inspection.

46.202-2 Standard inspection requirements.

(a) Standard inspection requirements are contained in the clauses prescribed in 46.302 through 46.308, and 46.310, and in the product and service specifications that are included in solicitations and contracts.

(b) The clauses referred to in (a) above—

(1) Require the contractor to provide and maintain an inspection system that is acceptable to the Government;

(2) Give the Government the right to make inspections and tests while work is in process; and

(3) Require the contractor to keep complete, and make available to the Government, records of its inspection work.

46.202-3 Higher-level contract quality requirements.

(a) Higher-level contract quality requirements are contained in the clause prescribed in 46.311. Such requirements are appropriate in solicitations and contracts for complex and critical items (see 46.203(b) and (c) or when the technical requirements of the contract are such as to require—

(1) Control of such things as work operations, in-process controls, and inspection (see 46.204 and Table 46-1); or

(2) Attention to such factors as organization, planning, work instructions, documentation control, and advanced metrology.

(b) If it is in the Government's interest to require that higher-level contract quality requirements be maintained, the contract shall require the contractor to comply with a Government-specified inspection system, quality control system, or quality program (e.g., MIL-I-45208, MIL-Q-9858, NHB 5300.4(1B), NHB 5300.4(1C), FED-STD-368, or ANSI/ASME NQA-1). The contracting officer shall consult technical personnel before including one of these specifications in a contract.

46.203 Criteria for use of contract quality requirements.

The extent of contract quality requirements, including contractor inspection, required under a contract shall usually be based upon the classification of the contract item (supply or service) as determined by its technical description, its complexity, and the criticality of its application.

(a) *Technical description.* Contract items may be technically classified as—

(1) Commercial (described in commercial catalogs, drawings, or industrial standards);

(2) Military-Federal (described in Government drawings and specifications); or

(3) Off-the-shelf (see 46.101).

(b) *Complexity.* (1) Complex items have quality characteristics, not wholly visible in the end item, for which contractual conformance must be established progressively through precise measurements, tests, and controls applied during purchasing, manufacturing, performance, assembly, and functional operation either as an individual item or in conjunction with other items.

(2) Noncomplex items have quality characteristics for which simple measurement and test of the end item are sufficient to determine conformance to contract requirements.

(c) *Criticality.* (1) A critical application of an item is one in which the failure of the item could injure personnel or jeopardize a vital agency mission. A critical item may be either peculiar, meaning it has only one application, or common, meaning it has multiple applications.

(2) A noncritical application is any other application. Noncritical items may also be either peculiar or common.

46.204 Application of criteria.

Subject to mandatory limitations contained in the clause prescriptions (see Subpart 46.3), Table 46-1 may be used as a guide in selecting the appropriate contract quality requirements. Where circumstances warrant, the contracting officer may specify a requirement different from that arrived at through use of the table, except for off-the-shelf items.

TABLE 46-1 CONTRACT QUALITY REQUIREMENTS GUIDE

Item		Type of Contract	
Technical Description	Complexity	Application	Quality Requirement
Commercial	Noncomplex	Noncritical Common	Contractor inspection (46.202-1)
Commercial	Noncomplex	Noncritical Peculiar	Contractor inspection (46.202-1)
Commercial	Noncomplex	Critical	Standard inspection (46.202-2)
Commercial	Complex	Noncritical Common	Contractor inspection (46.202-1)
Commercial	Complex	Noncritical Peculiar	Standard inspection (46.202-2)
Commercial	Complex	Critical	Higher-level (46.202-3)
Military-Federal	Noncomplex	Noncritical Common	Standard inspection (46.202-2)
Military-Federal	Noncomplex	Noncritical Peculiar	Standard inspection (46.202-2)
Military-Federal	Noncomplex	Critical	Higher-level (46.202-3)
Military-Federal	Complex	Noncritical Common	Standard inspection (46.202-2)
Military-Federal	Complex	Noncritical Peculiar	Higher-level (46.202-3)
Military-Federal	Complex	Critical	Higher-level (46.202-3)
Off-the-shelf	All	Noncritical	Contractor inspection (46.202-1)
Off-the-shelf	All	Critical	Standard inspection (46.202-2)

SUBPART 46.3—CONTRACT CLAUSES

46.301 Contractor inspection requirements.

The contracting officer shall insert the clause at 52.246-1, Contractor Inspection Requirements, in solicitations and contracts for supplies or services when the contract amount is expected to be within the small purchase limitation and (a) inclusion of the clause is necessary to ensure an explicit understanding of the contractor's inspection responsibilities, or (b) inclusion of the clause is required under agency procedures. The clause shall not be used if the contracting officer has made the determination specified in 46.202-1(b).

46.302 Fixed-price supply contracts.

The contracting officer shall insert the clause at 52.246-2, Inspection of Supplies—Fixed-Price, in solicitations and contracts for supplies, or services that involve the furnishing of supplies, when a fixed-price contract is contemplated and the contract amount is expected to exceed the small

purchase limitation. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be within the small purchase limitation and inclusion of the clause is in the Government's interest. If a fixed-price incentive contract is contemplated, the contracting officer shall use the clause with its Alternate I. If a fixed-ceiling-price contract with retroactive price redetermination is contemplated, the contracting officer shall use the clause with its Alternate II.

46.303 Cost-reimbursement supply contracts.

The contracting officer shall insert the clause at 52.246-3, Inspection of Supplies—Cost-Reimbursement, in solicitations and contracts for supplies, or services that involve the furnishing of supplies, when a cost-reimbursement contract is contemplated.

46.304 Fixed-price service contracts.

The contracting officer shall insert the clause at 52.246-4, Inspection of Services—Fixed-Price, in solicitations and contracts for services, or supplies that involve the furnishing of services, when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be within the small purchase limitation and inclusion is in the Government's interest.

46.305 Cost-reimbursement service contracts.

The contracting officer shall insert the clause at 52.246-5, Inspection of Services—Cost Reimbursement, in solicitations and contracts for services, or supplies that involve the furnishing of services, when a cost-reimbursement contract is contemplated.

46.306 Time-and-material and labor-hour contracts.

The contracting officer shall insert the clause at 52.246-6, Inspection—Time-and-Material and Labor-Hour, in solicitations and contracts when a time-and-material contract or a labor-hour contract is contemplated. If Government inspection and acceptance are to be performed at the contractor's plant, the contracting officer shall use the clause with its Alternate I. If a labor-hour contract is contemplated, and if no specific reimbursement for materials furnished is intended, the contracting officer may use the clause with its Alternate II.

46.307 Fixed-price research and development contracts.

(a) The contracting officer shall insert the clause at 52.246-7, Inspection of Research and Development—Fixed-Price, in solicitations and contracts for research and development when (1) the primary objective of the contract is the delivery of end items other than designs, drawings, or reports, (2) a fixed-price contract is contemplated, and (3) the contract amount is expected to exceed the small purchase limitation; unless use of the clause is impractical and the clause prescribed in 46.309 is considered to be more appropriate.

(b) The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be within the small purchase limitation, and its use is in the Government's interest.

46.308 Cost-reimbursement research and development contracts.

The contracting officer shall insert the clause at 52.246-8, Inspection of Research and Development—Cost-Reimbursement, in solicitations and contracts for research and development when (a) the primary objective of the contract is the delivery of end items other than designs, drawings, or reports, and (b) a cost-reimbursement contract is contemplated; unless use of the clause is impractical and the clause prescribed in 46.309 is considered to be more appropriate. If it is contemplated that the contract will be on a no-fee basis, the contracting officer shall use the clause with its Alternate I.

46.309 Research and development contracts (short form).

The contracting officer shall insert the clause at 52.246-9, Inspection of Research and Development (Short Form), in solicitations and contracts for research and development when (a) the primary objective of the contract is the delivery of end items other than designs, drawings, or reports, and (b) the clause is considered to be more appropriate than the clause prescribed in 46.307 or the clause prescribed in 46.308.

46.310 Facilities contracts.

The contracting officer shall insert the clause at 52.246-10, Inspection of Facilities, in solicitations and contracts when a facilities contract is contemplated.

46.311 Higher-level contract quality requirement.

The contracting officer shall insert the clause at 52.246-11, Higher-Level Contract Quality Requirement (Government Specification), in solicitations and contracts when the inclusion of a higher-level contract quality requirement is appropriate (see 46.202-3).

46.312 Construction contracts.

The contracting officer shall insert the clause at 52.246-12, Inspection of Construction, in solicitations and contracts for construction when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be within the small purchase limitation, and its use is in the Government's interest.

46.313 Contracts for dismantling, demolition, or removal of improvements.

The contracting officer shall insert the clause at 52.246-13, Inspection—Dismantling, Demolition, or Removal of Improvements, in solicitations and contracts for dismantling, demolition, or removal of improvements.

46.314 Transportation contracts.

The contracting officer shall insert the clause at 52.246-14, Inspection of Transportation, in solicitations and contracts for freight transportation services (including local drayage) by rail, motor (including bus), domestic freight forwarder, and domestic water carriers (including inland, coastwise, and intercoastal). The contracting officer shall not use the clause for the acquisition of transportation services by domestic or international air carriers or by international ocean carriers, or to freight services provided under bills of lading or to those negotiated for reduced rates under 49 U.S.C. 10721(b)(1). (See Part 47, Transportation.)

46.315 Certificate of conformance.

The contracting officer shall insert the clause at 52.246-15, Certificate of Conformance, in solicitations and contracts for supplies or services when the conditions in 46.504 apply.

46.316 Responsibility for supplies.

The contracting officer shall insert the clause at 52.246-16, Responsibility for Supplies, in solicitations and contracts for (a) supplies, (b) services involving the furnishing of supplies, or (c) research and development, when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is not expected to exceed the small purchase limitation

and inclusion of the clause is authorized under agency procedures.

SUBPART 46.4—GOVERNMENT CONTRACT QUALITY ASSURANCE

46.401 General.

(a) Government contract quality assurance shall be performed at such times (including any stage of manufacture or performance of services) and places (including subcontractors' plants) as may be necessary to determine that the supplies or services conform to contract requirements.

(b) Each contract shall designate the place or places where the Government reserves the right to perform quality assurance.

(c) If the contract provides for performance of Government quality assurance at source, the place or places of performance may not be changed without the authorization of the contracting officer.

(d) If a contract provides for delivery and acceptance at destination and the Government inspects the supplies at a place other than destination, the supplies shall not ordinarily be reinspected at destination, but should be examined for quantity, damage in transit, and possible substitution or fraud.

(e) Government inspection shall be performed by or under the direction or supervision of Government personnel.

(f) Government inspection shall be documented on an inspection or receiving report form or commercial shipping document/packing list, under agency procedures (see Subpart 46.6).

(g) Agencies may prescribe the use of inspection approval or disapproval stamps to identify and control supplies and material that have been inspected for conformance with contract quality requirements.

46.402 Government contract quality assurance at source.

Agencies shall perform contract quality assurance, including inspection, at source if—

(a) Performance at any other place would require uneconomical disassembly or destructive testing;

(b) Considerable loss would result from the manufacture and shipment of unacceptable supplies, or from the delay in making necessary corrections;

(c) Special required instruments, gauges, or facilities are available only at source;

(d) Performance at any other place would destroy or require the replacement of costly special packing and packaging;

(e) A higher-level contract quality requirement is included in the contract (see 46.202-3);

(f) Government inspection during contract performance is essential;

(g) Supplies requiring inspection are destined for points of embarkation for overseas shipment (unless the contracting officer determines in advance that necessary inspection functions can be provided at such points); or

(h) It is determined for other reasons to be in the Government's interest.

46.403 Government contract quality assurance at destination.

(a) Government contract quality assurance that can be performed at destination is normally limited to inspection of the supplies or services. Inspection shall be performed at destination under the following circumstances—

(1) Supplies are purchased off-the-shelf and require no technical inspection;

(2) Necessary testing equipment is located only at destination;

(3) Perishable subsistence supplies purchased within the United States, except that those supplies destined for overseas shipment will normally be inspected for condition and quantity at points of embarkation;

(4) Brand name products purchased for authorized resale through commissaries or similar facilities (however, supplies destined for direct overseas shipment may be accepted by the contracting officer or an authorized representative on the basis of a tally sheet evidencing receipt of shipment signed by the port transportation officer or other designated official at the transshipment point);

(5) The products being purchased are processed under direct control of the National Institutes of Health or the Food and Drug Administration of the Department of Health and Human Services;

(6) The contract is for services performed at destination; or

(7) It is determined for other reasons to be in the Government's interest.

(b) Overseas inspection of supplies shipped from the United States shall not be required except in unusual circumstances, and then only when the contracting officer determines in advance that inspection can be performed or makes necessary arrangements for its performance.

46.404 Government contract quality assurance of small purchases.

(a) In determining the type and extent of Government contract quality assurance to be required for small purchases, the contracting officer shall consider the criticality of application of the supplies or services, the amount of possible losses, and the likelihood of uncontested replacement of defective work (see 46.202-1).

(b) When the conditions in 46.202-1(b) apply, the following policies shall govern:

(1) Unless a special situation exists, the Government shall inspect small purchases at destination and only for type and kind; quantity; damage; operability (if readily determinable); and preservation, packaging, packing, and marking, if applicable.

(2) Special situations may require more detailed quality assurance and the use of a standard inspection or higher-level contract quality requirement. These situations include those listed in 46.402 and contracts for items having critical applications. See Table 46-1 at 46.204 for other possible situations.

(3) Detailed Government inspection may be limited to those characteristics that are special or likely to cause harm to personnel or property. When repetitive purchases of the same item are made from the same manufacturer with a history of defect-free work, Government inspection may be reduced to a periodic check of occasional purchases.

46.405 Subcontracts.

(a) Government contract quality assurance on subcontracted supplies or services shall be performed only when required in the Government's interest. The primary purpose is to assist the contract administration office cognizant of the prime contractor's plant in determining the conformance of subcontracted supplies or services with contract requirements or to satisfy one or more of the factors included in (b) below. It does not relieve the prime contractor of any responsibilities under the contract. When appropriate, the prime contractor shall be requested to arrange for timely Government access to the subcontractor facility.

(b) The Government shall perform quality assurance at the subcontract level when—

(1) The item is to be shipped from the subcontractor's plant to the using activity and inspection at source is required;

(2) The conditions for quality assurance at source are applicable (see 46.402);

(3) The contract specifies that certain quality assurance functions, which can be performed only at the subcontractor's

plant, are to be performed by the Government; or

(4) It is otherwise required by the contract or determined to be in the Government's interest.

(c) Supplies or services for which certificates, records, reports, or similar evidence of quality are available at the prime contractor's plant shall not be inspected at the subcontractor's plant, except occasionally to verify this evidence or when required under (b) above.

(d) All oral and written statements and contract terms and conditions relating to Government quality assurance actions at the subcontract level shall be worded so as not to—

(1) Affect the contractual relationship between the prime contractor and the Government, or between the prime contractor and the subcontractor;

(2) Establish a contractual relationship between the Government and the subcontractor; or

(3) Constitute a waiver of the Government's right to accept or reject the supplies or services.

46.406 Foreign governments.

Government contract quality assurance performed for foreign governments or international agencies shall be administered according to the foreign policy and security objectives of the United States. Such support shall be furnished only when consistent with or required by legislation, executive orders, or agency policies concerning mutual international programs.

46.407 Nonconforming supplies or services.

(a) Contracting officers should reject supplies or services not conforming in all respects to contract requirements (see 46.102). In those instances where deviation from this policy is found to be in the Government's interest, such supplies or services may be accepted only as authorized in this section.

(b) Contractors ordinarily shall be given an opportunity to correct or replace nonconforming supplies or services when this can be accomplished within the required delivery schedule. Unless the contract specifies otherwise (as may be the case in some cost-reimbursement contracts), correction or replacement shall be without additional cost to the Government. Subparagraph (e)(2) of the clause at 52.246-2, Inspection of Supplies—Fixed-Price, reserves to the Government the right to charge the contractor the cost of Government reinspection and retests because of prior rejection.

(c) (1) In situations not covered by (b) above, the contracting officer shall ordinarily reject supplies or services when the nonconformance adversely affects safety, health, reliability, durability, performance, interchangeability of parts or assemblies, weight or appearance (where a consideration), or any other basic objective of the specification. However, there may be circumstances (e.g., reasons of economy or urgency) when acceptance of such supplies or services is determined by the contracting officer to be in the Government's interest. The contracting officer shall make this determination, based upon—

(i) Advice of the technical activity that the material is safe to use, and will perform its intended purpose;

(ii) Information regarding the nature and extent of the nonconformance;

(iii) A request from the contractor for acceptance of the supplies or services (if feasible);

(iv) A recommendation for acceptance or rejection, with supporting rationale; and

(v) The contract adjustment considered appropriate, including any adjustment offered by the contractor.

(2) The cognizant contract administration office, or other Government activity directly involved, shall furnish this data to the contracting officer in writing, except that in urgent cases it may be furnished orally and later confirmed in writing. Before making a decision to accept, the contracting officer shall obtain the concurrence of the activity responsible for the technical requirements of the contract and, where health factors are involved, of the responsible health official of the agency concerned.

(d) If the nonconformance is minor, in that it does not affect any of the factors referred to in (c) above, the cognizant contract administration office may make the determination to accept or reject, except where this authority is withheld by the contracting office of the contracting activity. To assist in making this determination, the contract administration office may establish a joint contractor-contract administrative office review group. Acceptance of nonconforming supplies that affect any of the factors referred to in (c) above is outside the scope of the review group and must be handled as specified there.

(e) Contracting officers shall discourage the repeated tender of nonconforming supplies or services, including those with only minor nonconformances, by appropriate action, such as rejection and documenting the contractor's performance record.

(f) Each contract under which nonconforming supplies or services are accepted as authorized in (c) above shall be modified to provide for an equitable price reduction or other consideration. However, when supplies or services involving minor nonconformances are accepted, the contract shall not be modified unless (1) it appears that the savings to the contractor in fabricating the nonconforming supplies or performing the nonconfomring services will exceed the cost to the Government of processing the modification, or (2) the Government's interests otherwise require a contract modification.

(g) Notices of rejection shall include the reasons for rejection and be furnished promptly to the contractor. Promptness in giving this notice is essential because, if timely nature of rejection is not furnished, acceptance may in certain cases be implied as a matter of law. The notice shall be in writing if—

(1) The supplies or services have been rejected at a place other than the contractor's plant;

(2) The contractor persists in offering nonconforming supplies or services for acceptance; or

(3) Delivery or performance was late without excusable cause.

46.408 Single-agency assignments of Government contract quality assurance.

(a) Government-wide responsibility for quality assurance support for acquisitions of certain commodities is assigned as follows:

(1) For drugs, biologics, and other medical supplies—the Food and Drug Administration;

(2) For food, except seafood—the Department of Agriculture.

(3) For seafood—the National Marine Fisheries Service of the Department of Commerce.

(b) Agencies requiring quality assurance support for acquiring these supplies should request the support directly from the cognizant office.

SUBPART 46.5—ACCEPTANCE

46.501 General.

Acceptance constitutes acknowledgment that the supplies or services conform with applicable contract quality and quantity requirements, except as provided in this subpart and subject to other terms and conditions of the contract. Acceptance may take place before delivery, at the time of delivery, or after delivery, depending on the provisions of the terms and conditions of the contract. Supplies

or services shall ordinarily not be accepted before completion of Government contract quality assurance actions (however, see 46.504). Acceptance shall ordinarily be evidenced by execution of an acceptance certificate on an inspection or receiving report form or commercial shipping document/packing list.

46.502 Responsibility for acceptance.

Acceptance of supplies or services is the responsibility of the contracting officer. When this responsibility is assigned to a cognizant contract administration office or to another agency (see 42.102(c)), acceptance by that office or agency is binding on the Government.

46.503 Place of acceptance.

Each contract shall specify the place of acceptance. Contracts that provide for Government contract quality assurance at source shall ordinarily provide for acceptance at source. Contracts that provide for Government contract quality assurance at destination shall ordinarily provide for acceptance at destination. (For transportation terms, see Subpart 47.3). Supplies accepted at a place other than destination shall not be reinspected at destination for acceptance purposes, but should be examined at destination for quantity, damage in transit, and possible substitution or fraud.

46.504 Certificate of conformance.

A certificate of conformance (see 46.315) may be used in certain instances instead of source inspection (whether the contract calls for acceptance at source or destination) at the discretion of the contracting officer if the following conditions apply:

(a) Acceptance on the basis of a contractor's certificate of conformance is in the Government's interest.

(b) (1) Small losses would be incurred in the event of a defect; or

(2) Because of the contractor's reputation or past performance, it is likely that the supplies or services furnished will be acceptable and any defective work would be replaced, corrected, or repaired without contest. In no case shall the Government's right to inspect supplies under the inspection provisions of the contract be prejudiced.

46.505 Transfer of title and risk of loss.

(a) Title to supplies shall pass to the Government upon formal acceptance, regardless of when or where the Government takes physical possession, unless the contract specifically provides for earlier passage of title.

(b) Unless the contract specifically provides otherwise, risk of loss of or damage to supplies shall remain with the contractor until, and shall pass to the Government upon—

(1) Delivery of the supplies to a carrier if transportation is f.o.b. origin; or

(2) Acceptance by the Government or delivery of the supplies to the Government at the destination specified in the contract, whichever is later, if transportation is f.o.b. destination.

(c) Paragraph (b) above shall not apply to supplies that so fail to conform to contract requirements as to give a right of rejection. The risk of loss of or damage to such nonconforming supplies remains with the contractor until cure or acceptance. After cure or acceptance, paragraph (b) above shall apply.

(d) Under paragraph (b) above, the contractor shall not be liable for loss of or damage to supplies caused by the negligence of officers, agents, or employees of the Government acting within the scope of their employment.

(e) The policy expressed in (a) through (d) above is specified in the clause at 52.246-16, Responsibility for Supplies, which is prescribed in 46.316.

SUBPART 46.6—MATERIAL INSPECTION AND RECEIVING REPORTS

Agencies shall prescribe procedures and instructions for the use, preparation, and distribution of material inspection and receiving reports and commercial shipping document/packing lists to evidence Government inspection (see 46.401) and acceptance (see 46.501).

SUBPART 46.7—WARRANTIES

46.701 Definitions.

"Acceptance" (see 46.101).

"Correction," as used in this subpart, means the elimination of a defect.

"Warranty," as used in this subpart, means a promise or affirmation given by a contractor to the Government regarding the nature, usefulness, or condition of the supplies or performance of services furnished under the contract.

46.702 General.

(a) The principal purposes of a warranty in a Government contract are (1) to delineate the rights and obligations of the contractor and the Government for defective items and services and (2) to foster quality performance.

(b) Generally, a warranty should provide—

(1) A contractual right for the correction of defects notwithstanding any other requirement of the contract pertaining to acceptance of the supplies or services by the Government; and

(2) A stated period of time or use, or the occurrence of a specified event, after acceptance by the Government to assert a contractual right for the correction of defects.

(c) The benefits to be derived from a warranty must be commensurate with the cost of the warranty to the Government.

46.703 Criteria for use of warranties.

The use of warranties is not mandatory. In determining whether a warranty is appropriate for a specific acquisition, the contracting officer shall consider the following factors:

(a) *Nature and use of the supplies or services.* This includes such factors as—

(1) Complexity and function;

(2) Degree of development;

(3) State of the art;

(4) End use;

(5) Difficulty in detecting defects before acceptance; and

(6) Potential harm to the Government if the item is defective.

(b) *Cost.* Warranty costs arise from—

(1) The contractor's charge for accepting the deferred liability created by the warranty; and

(2) Government administration and enforcement of the warranty (see paragraph (c) below).

(c) *Administration and enforcement.* The Government's ability to enforce the warranty is essential to the effectiveness of any warranty. There must be some assurance that an adequate administrative system for reporting defects exists or can be established. The adequacy of a reporting system may depend upon such factors as the—

(1) Nature and complexity of the item;

(2) Location and proposed use of the item;

(3) Storage time for the item;

(4) Distance of the using activity from the source of the item;

(5) Difficulty in establishing existence of defects; and

(6) Difficulty in tracing responsibility for defects.

(d) *Trade practice.* In many instances an item is customarily warranted in the trade, and, as a result of that practice, the cost of an item to the Government will be the same whether or not a warranty is included. In those instances, it would be in the Government's interest to include such a warranty.

(e) *Reduced requirements.* The contractor's charge for assumption of added liability may be partially or completely offset by reducing the Government's contract quality

assurance requirements where the warranty provides adequate assurance of a satisfactory product.

46.704 Authority for use of warranties.

The use of a warranty in an acquisition shall be approved in accordance with agency procedures.

46.705 Limitations.

(a) Except for the warranties in the clauses at 52.246-3, Inspection of Supplies—Cost-Reimbursement, and 52.246-8, Inspection of Research and Development—Cost-Reimbursement, the contracting officer shall not include warranties in cost-reimbursement contracts, unless authorized in accordance with agency regulations (see 46.708).

(b) Warranty clauses shall not limit the Government's rights under an inspection clause (see Subpart 46.3) in relation to latent defects, fraud, or gross mistakes that amount to fraud.

(c) Except for warranty clauses in construction contracts, warranty clauses shall provide that the warranty applies notwithstanding inspection and acceptance or other clauses or terms of the contract.

46.706 Warranty terms and conditions.

(a) To facilitate the pricing and enforcement of warranties, the contracting officer shall ensure that warranties clearly state the—

(1) Exact nature of the item and its components and characteristics that the contractor warrants;

(2) Extent of the contractor's warranty including all of the contractor's obligations to the Government for breach of warranty;

(3) Specific remedies available to the Government; and

(4) Scope and duration of the warranty.

(b) The contracting officer shall consider the following guidelines when preparing warranty terms and conditions:

(1) *Extent of contractor obligations* (i) Generally, the contractor's obligations under warranties extend to all defects discovered during the warranty period, but do not include damage caused by the Government. When a warranty for the entire item is not advisable, a warranty may be required for a particular aspect of the item that may require special protection (e.g., installation, components, accessories, subassemblies, preservation, packaging, and packing, etc.).

(ii) If the Government specifies the design of the end item and its measurements, tolerances, materials, tests, or inspection requirements, the contractor's obligations for correction of defects shall usually be limited to defects in material and workmanship or failure to conform to specifications. If the Government does not specify the design, the warranty extends also to the usefulness of the design.

(iii) If express warranties are included in a contract (except contracts for commercial items), all implied warranties of merchantability and fitness for a particular purpose shall be negated by the use of specific language in the clause (see clauses 52.246-17, Warranty of Supplies of a Noncomplex Nature; 52.246-18, Warranty of Supplies of a Complex Nature; and 52.246-19, Warranty of Systems and Equipment under Performance Specifications or Design Criteria).

(2) *Remedies* (i) Normally, a warranty shall provide as a minimum that the Government may (A) obtain an equitable adjustment of the contract, or (B) direct the contractor to repair or replace the defective items at the contractor's expense.

(ii) If it is not practical to direct the contractor to make the repair or replacement, or, because of the nature of the item, the repair or replacement does not afford an appropriate remedy to the Government, the warranty should provide alternate remedies, such as authorizing the Government to—

(A) Retain the defective item and reduce the contract price by an amount equitable under the circumstances; or

(B) Arrange for the repair or replacement of the defective item, by the Government or by another source, at the contractor's expense.

(iii) If it can be foreseen that it will not be practical to return an item to the contractor for repair, to remove it to an alternate source for repair, or to replace the defective item, the warranty should provide that the Government may repair, or require the contractor to repair, the item in place at the contractor's expense. The contract shall provide that in the circumstance where the Government is to accomplish the repair, the contractor will furnish at the place of delivery the material or parts, and the installation instructions required to successfully accomplish the repair.

(iv) Unless provided otherwise in the warranty, the contractor's obligation to repair or replace the defective item, or to agree to an equitable adjustment of the contract, shall include responsibility for the costs of furnishing all labor and material to (A) reinspect items that the Government reasonably expected to be defective, (B) accomplish the required repair or replacement of defective items, and (C) test, inspect, package, pack, and mark repaired or replaced items.

(v) If repair or replacement of defective items is required, the contractor shall generally be required by the warranty to bear the expense of transportation for returning the defective item from the place of delivery specified in the contract (irrespective of the f.o.b. point or the point of acceptance) to the contractor's plant and subsequent return. When defective items are returned to the contractor from other than the place of delivery specified in the contract, or when the Government exercises alternate remedies, the contractor's liability for transportation charges incurred shall not exceed an amount equal to the cost of transportation by the usual commercial method of shipment between the place of delivery specified in the contract and the contractor's plant and subsequent return.

(3) *Duration of the warranty.* The time period or duration of the warranty must be clearly specified and shall be established after consideration of such factors as (i) the estimated useful life of the item, (ii) the nature of the item including storage or shelf-life, and (iii) trade practice. The period specified shall not extend the contractor's liability for patent defects beyond a reasonable time after acceptance by the Government.

(4) *Notice.* The warranty shall specify a reasonable time for furnishing notice to the contractor regarding the discovery of defects. This notice period, which shall apply to all defects discovered during the warranty period, shall be long enough to assure that the Government has adequate time to give notice to the contractor. The contracting officer shall consider the following factors when establishing the notice period:

(i) The time necessary for the Government to discover the defects.

(ii) The time reasonably required for the Government to take necessary administrative steps and make a timely report of discovery of the defects to the contractor.

(iii) The time required to discover and report defective replacements.

(5) *Markings.* The packaging and preservation requirements of the contract shall require the contractor to stamp or mark the supplies delivered or otherwise furnish notice with the supplies of the existence of the warranty. The purpose of the markings or notice is to inform Government personnel who store, stock, or use the supplies that the supplies are under warranty. Markings may be brief but should include (i) a brief statement that

a warranty exists, (ii) the substance of the warranty, (iii) its duration, and (iv) who to notify if the supplies are found to be defective. For commercial items (see 46.709), the contractor's trade practice in warranty marking is acceptable if sufficient information is presented for supply personnel and users to identify warranted supplies.

(6) *Consistency.* Contracting officers shall ensure that the warranty clause and any other warranty conditions in the contract (e.g., in the specifications or an inspection clause) are consistent. To the extent practicable, all of the warranties to be contained in the contract should be expressed in the warranty clause.

46.707 Pricing aspects of fixed-price incentive contract warranties.

If a fixed-price incentive contract contains a warranty (see 46.708), the estimated cost of the warranty to the contractor should be considered in establishing the incentive target price and the ceiling price of the contract. All costs incurred, or estimated to be incurred, by the contractor in complying with the warranty shall be considered when establishing the total final price. Contractor compliance with the warranty after the establishment of the total final price shall be at no additional cost to the Government.

46.708 Warranties of data.

Warranties of data shall be developed and used in accordance with agency regulations.

46.709 Warranties of commercial items.

If a warranty of commercial items is appropriate, the contracting officer may include a warranty of supplies clause modified for commercial items (see the clause at 52.246-17, Warranty of Supplies of a Noncomplex Nature, Alternate I, and 52.246-18, Warranty of Supplies of a Complex Nature, Alternate I). More appropriate warranty language may be included if the contracting officer determines that the Government's planned usage of the item is inconsistent with the item's normal usage, or that Government specifications have substantially altered the item. The Government may adopt the contractor's standard commercial warranty if the contracting officer determines it is not inconsistent with the rights that would be afforded the Government under a warranty of supplies clause (see the clauses at 52.246-17, Warranty of Supplies of a Noncomplex Nature, and 52.246-18, Warranty of Supplies of a Complex Nature) or other terms of the contract.

46.710 Contract clauses.

The clauses and alternates prescribed in this section may be used in solicitations and contracts in which inclusion of warranty coverage is appropriate. However, because of the many situations that may influence the warranty terms and conditions appropriate to a particular acquisition, the contracting officer may vary the terms and conditions of the clauses and alternates to the extent necessary. The alternates prescribed in this section address the clauses; however, the conditions pertaining to each alternate must be considered if the terms and conditions are varied to meet a particular need.

(a) (1) The contracting officer may insert a clause substantially the same as the clause at 52.246-17, Warranty of Supplies of a Noncomplex Nature, in solicitations and contracts for noncomplex items when a fixed-price supply contract is contemplated and the use of a warranty clause has been approved under agency procedures.

(2) If commercial items are to be acquired, the contracting officer may use the clause with its Alternate I.

(3) If it is desirable to specify that necessary transportation incident to correction or replacement will be at the Government's expense (as might be the case if, for example, the cost of a warranty would otherwise be prohibitive), the contracting officer may use the clause with its Alternate II.

(4) If the supplies cannot be obtained from another source, the contracting officer may use the clause with its Alternate III.

(5) If a fixed-price incentive contract is contemplated, the contracting officer may use the clause with its Alternate IV.

(6) If it is anticipated that recovery of the warranted item will involve considerable Government expense for disassembly and/or reassembly of larger items, the contracting officer may use the clause with its Alternate V.

(b) (1) The contracting officer may insert a clause substantially the same as the clause at 52.246-18, Warranty of Supplies of a Complex Nature, in solicitations and contracts for deliverable complex items when a fixed-price supply or research and development contract is contemplated and the use of a warranty clause has been approved under agency procedures.

(2) If commercial items are to be acquired, the contracting officer may use the clause with its Alternate I.

(3) If it is desirable to specify that necessary transportation incident to correction or replacement will be at the Government's expense (as might be the case if, for example, the cost of a warranty would otherwise be prohibitive), the contracting officer may use the clause with its Alternate II.

(4) If a fixed-price incentive contract is contemplated, the contracting officer may use the clause with its Alternate III.

(5) If it is anticipated that recovery of the warranted item will involve considerable Government expense for disassembly and/or reassembly of larger items, the contracting officer may use the clause with its Alternate IV.

(c) (1) The contracting officer may insert a clause substantially the same as the clause at 52.246-19, Warranty of Systems and Equipment under Performance Specifications or Design Criteria, in solicitations and contracts when performance specifications or design are of major importance; a fixed-price supply, service, or research and development contract for systems and equipment is contemplated; and the use of a warranty clause has been approved under agency procedures.

(2) If it is desirable to specify that necessary transportation incident to correction or replacement will be at the Government's expense (as might be the case if, for example, the cost of a warranty would otherwise be prohibitive), the contracting officer may use the clause with its Alternate I.

(3) If a fixed-price incentive contract is contemplated, the contracting officer may use the clause with its Alternate II.

(4) If it is anticipated that recovery of the warranted item will involve considerable Government expense for disassembly and/or reassembly of larger items, the contracting officer may use the clause with its Alternate III.

(d) The contracting officer may insert a clause substantially the same as the clause at 52.246-20, Warranty of Services, in solicitations and contracts for services when a fixed-price contract for services is contemplated and the use of a warranty clause has been approved under agency procedures; unless a clause substantially the same as the clause at 52.246-19, Warranty of Systems and Equipment under Performance Specifications or Design Criteria, has been used.

(e) (1) The contracting officer may insert a clause substantially the same as the clause at 52.246-21, Warranty of Construction, in solicitations and contracts when a fixed-price construction contract (see 46.705(c)) is contemplated and the use of a warranty clause has been approved under agency procedures.

(2) If the Government specifies in the contract the use of any equipment by

"brand name and model," the contracting officer may use the clause with its Alternate I.

SUBPART 46.8—CONTRACTOR LIABILITY FOR LOSS OF OR DAMAGE TO PROPERTY OF THE GOVERNMENT

46.800 Scope of subpart.

This subpart prescribes policies and procedures for limiting contractor liability for loss of or damage to property of the Government that (a) occurs after acceptance and (b) results from defects or deficiencies in the supplies delivered or services performed.

46.801 Applicability.

(a) The subpart applies to contracts other than those for (1) automatic data processing, (2) telecommunications, (3) construction, (4) architect-engineer services and (5) maintenance and rehabilitation of real property. This subpart does not apply to items priced at or based on catalog or market prices except as indicated in 46.804.

(b) See Subpart 46.7, Warranties, for policies and procedures concerning contractor liability caused by nonconforming technical data.

46.802 Definition.

"High-value item," as used in this subpart, means a contract end item that (a) has a high unit cost (normally exceeding $100,000 per unit), such as an aircraft, an aircraft engine, a communication system, a computer system, a missile, or a ship, and (b) is designated by the contracting officer as a high-value item.

46.803 Policy.

(a) *General.* The Government will generally act as a self-insurer by relieving contractors, as specified in this subpart, of liability for loss of or damage to property of the Government that (1) occurs after acceptance of supplies delivered or services performed under a contract and (2) results from defects or deficiencies in the supplies or services. However, the Government will not relieve the contractor of liability for loss of or damage to the contract end item itself, except for high-value items.

(b) *High-value items.* In contracts requiring delivery of high-value items, the Government will relieve contractors of contractual liability for loss of or damage to those items. However, this relief shall not limit the Government's rights arising under the contract to—

(1) Have any defective item or its components corrected, repaired, or replaced when the defect or deficiency is discovered before the loss of or damage to a high-value item occurs; or

(2) Obtain equitable relief when the defect or deficiency is discovered after such loss or damage occurs.

(c) *Exception.* The Government will not provide contractual relief under paragraphs (a) and (b) above when contractor liability can be preserved without increasing the contract price.

(d) *Limitations.* Subject to the specific terms of the limitation of liability clause included in the contract, the relief provided under paragraphs (a) and (b) above does not apply—

(1) To the extent that contractor liability is expressly provided under a contract clause authorized by this regulation;

(2) When a defect or deficiency in, or the Government's acceptance of, the supplies or services results from willful misconduct or lack of good faith on the part of the contractor's managerial personnel; or

(3) To the extent that any contractor insurance, or self-insurance reserve, covers liability for loss or damage suffered by the Government through purchase or use of the supplies delivered or services performed under the contract.

46.804 Items priced at or based on catalog or market prices.

Contractors generally (a) carry product liability or similar insurance, or maintain a reserve for self-insurance, covering liability arising from defective items and (b) reflect its cost in catalog or market prices. Therefore, for items being priced at or based on catalog or market prices (see 15.804-3(c)), contracting officers should not provide relief under the policy in 46.803 by including a clause prescribed in 46.805, unless they obtain an appropriate reduction from the catalog or market price to reflect reduced contractor liability.

46.805 Contract clauses.

(a) *Contracts over $25,000.* The contracting officer shall insert the appropriate clause or combination of clauses specified in subparagraphs (1) through (5) below in solicitations and contracts when the contract amount is expected to be over $25,000 and the contract is subject to the requirements of this subpart as indicated in 46.801:

(1) In contracts requiring delivery of end items that are not high-value items, insert the clause at 52.246-23, Limitation of Liability.

(2) In contracts requiring delivery of high-value items, insert the clause at 52.246-24, Limitation of Liability—High-Value Items.

(3) In contracts requiring delivery of both high-value items and other end items, insert both clauses prescribed in (1) and (2) above, Alternate I of the clause at 52.246-24, and identify clearly in the contract schedule the line items designated as high-value items.

(4) In contracts requiring the performance of services, insert the clause at 52.246-25, Limitation of Liability—Services.

(5) In contracts requiring both the performance of services and the delivery of end items, insert the clause prescribed in subparagraph (4) above and the appropriate clause or clauses prescribed in subparagraph (1), (2), or (3) above, and identify clearly in the contract schedule any high-value line items.

(b) *Contracts of $25,000 or less.* The clauses prescribed by paragraph (a) above are not required for contracts of $25,000 or less. However, in response to a contractor's specific request, the contracting officer may insert the clauses prescribed in subparagraph (1) or (4) above in a contract of $25,000 or less, obtaining any price reduction that is appropriate.

46.806 Subcontracts.

(a) The clause at 52.246-23, Limitation of Liability, and the clause at 52.246-25, Limitation of Liability—Services, each require the contractor to insert the same clause in all subcontracts.

(b) The clause at 52.246-24, Limitation of Liability—High-Value Items, and its Alternate I require the contractor to insert that clause, the clause at 52.246-23, Limitation of Liability, or both, as appropriate, in all subcontracts. However, they require the contractor to obtain the contracting officer's written approval before including the clause at 52.246-24, Limitation of Liability—High-Value Items. The contracting officer shall approve the use of this clause in a subcontract only if the clause would have been used had the subcontract been a prime contract with the Government.

PART 47—TRANSPORTATION

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

47.000 Scope of part.

(a) This part prescribes policies and procedures for—

(1) Applying transportation and traffic management considerations in the acquisition of supplies; and

(2) Acquiring transportation or transportation-related services by contract methods other than bills of lading, transportation requests, transportation warrants, and similar transportation forms. Even though the FAR does not regulate the acquisition of transportation or transportation-related services when the bill of lading is the contract, this contract method is widely used and, therefore, relevant guidance on the use of the bill of lading, particularly the Government bill of lading (GBL), is provided in this part.

(b) The definitions in this part have been condensed from statutory definitions. In case of inconsistency between the language of this part and the statutory requirements, the statute shall prevail.

47.001 Definitions.

"Carrier" or "commercial carrier" means a common carrier or a contract carrier.

"Common carrier," as used in this part, means a person holding itself out to the general public to provide transportation for compensation.

"Contract carrier" means a person providing transportation for compensation under continuing agreements with one person or a limited number of persons.

"CONUS" or "Continental United States" means the 48 contiguous states and the District of Columbia.

"F.o.b." means free on board. This term is used in conjunction with a physical point to determine (a) the responsibility and basis for payment of freight charges and (b) unless otherwise agreed, the point at which title for goods passes to the buyer or consignee.

"F.o.b. origin" means free on board at origin; i.e., the seller or consignor places the goods on the conveyance by which they are to be transported. Unless the contract provides otherwise, cost of shipping and risk of loss are borne by the buyer or consignee.

"F.o.b. destination" means free on board at destination; i.e., the seller or consignor delivers the goods on seller's or consignor's conveyance at destination. Unless the contract provides otherwise, cost of shipping and risk of loss are borne by the seller or consignor.

"Freight" means supplies, goods, and transportable property.

"Shipment," as used in this part, means freight transported or to be transported.

47.002 Applicability.

(a) All Government personnel concerned with the activities listed in subparagraphs (1) through (4) below shall follow the regulations in Part 47 as applicable:

(1) Acquisition of supplies.

(2) Acquisition of transportation and transportation-related services.

(3) Transportation assistance and traffic management.

(4) The making and administration of contracts under which payments are made from Government funds for (i) the transportation of supplies, (ii) transportation-related services, or (iii) transportation of contractor personnel and their personal belongings.

(b) Subpart 42.14, Traffic and Transportation Management, shall be used for administering transportation contracts, transportation-related contracts, and those portions of supply and other contracts that involve transportation.

SUBPART 47.1—GENERAL

47.101 Policies.

(a) The contracting officer shall obtain traffic management advice and assistance (see 47.105) in the consideration of transportation factors required for—

(1) Solicitations and awards;

(2) Contract administration, modification, and termination; and

(3) Transportation of property by the Government to and from contractors' plants.

(b) (1) The preferred method of transporting supplies for the Government is by commercial carriers. However, Government-owned, leased, or chartered vehicles, aircraft, and vessels may be used if (i) they are available and not fully utilized, (ii) their use will result in substantial economies, and (iii) their use is in accordance with all applicable statutes, agency policies and regulations.

(2) If the three circumstances listed in subparagraph (b)(1) above apply, Government vehicles may be used for purposes such as—

(i) Local transportation of supplies between Government installations;

(ii) Pickup and delivery services that commercial carriers do not perform in connection with line-haul transportation;

(iii) Transportation of supplies to meet emergencies; and

(iv) Accomplishment of program objectives that cannot be attained by using commercial carriers.

(c) Agencies shall not accord preferential treatment to any mode of transportation or to any particular carrier either in awarding or administering contracts for the acquisition of supplies or in awarding contracts for the acquisition of transportation. (See Subparts 47.2 and 47.3 for situations in which the contracting officer is permitted to use specific modes of transportation.)

(d) Agencies shall place with small business concerns purchases and contracts for transportation and transportation-related services as prescribed in Part 19.

(e) Agencies shall comply with the Fly America Act, the Cargo Preference Act, and related statutes as prescribed in Subparts 47.4, Air Transportation by U.S.-Flag Carriers, and 47.5, Ocean Transportation by U.S.-Flag Vessels.

47.102 Transportation insurance.

(a) The Government generally (1) retains the risk of loss of and/or damage to its property that is not the legal liability of commercial carriers and (2) does not buy insurance coverage for its property in the possession of commercial carriers (40 U.S.C. 726). (See Part 28, Bonds and Insurance.)

(b) Under special circumstances the Government may, if such action is considered necessary and in the Government's interest, (1) buy insurance coverage for Government property or (2) require the carrier to (i) assume full responsibility for loss of or damage to the Government property in its possession and (ii) buy insurance to cover the carrier's assumed responsibility. The cost of this insurance to the carrier shall be part of the transportation cost. (The Secretary of the Treasury prescribes regulations regarding shipments of valuables in 31 CFR 261 and 262.)

(c) (1) If special circumstances dictate the need for the Government to buy insurance coverage, the contracting officer shall ascertain that (i) there is no statutory prohibition and (ii) funds for insurance are available.

(2) The contracting officer shall document the need and authorization for insurance coverage in the contract file.

47.103 Transportation Documentation and Audit Regulation (TDA).

(a) The United States Government bill of lading (GBL) generally shall be used for the transportation of property of the United States for which the Government pays the transportation charges directly to commercial carriers.

(b) (1) Regulations and procedures governing the GBL, documentation, payment, and audit of transportation services acquired by the United States Government are prescribed in 41 CFR 101-41, Transportation Documentation and Audit. Included in this regulation, among others, is the limited authority for the use of commercial forms and procedures to acquire freight or express transportation for small shipments of a recurring nature when transportation costs do not exceed $100.

(2) For DOD shipments, corresponding guidance is in Chapter 214 of the Military Traffic Management Regulation (MTMR).

(c) Subsection 42.1403-2 prescribes regulations and procedures for the occasional use of contractor-prepaid commercial bills of lading for the transportation of supplies weighing not more than 1,000 pounds that are acquired by the Government on f.o.b. origin terms.

47.104 Government rate tenders under section 10721 of the Interstate Commerce Act.

47.104-1 Government freight.

(a) Common carriers subject to the jurisdiction of the Interstate Commerce Commission may under the provisions of 49 U.S.C. 10721 offer to transport persons or property for the account of the United States without charge or at reduced rates.

(b) Section 10721 rates are published in Government rate tenders and apply to shipments moving for the account of the Government; i.e., on—

(1) Government bills of lading;

(2) Commercial bills of lading endorsed to show that such bills of lading are to be exchanged for, or converted to, Government bills of lading at destination after delivery to the consignees; or

(3) Commercial bills of lading endorsed to show that total transportation charges are assignable to, and will be reimbursed by, the Government (see the clause at 52.247-1, Commercial Bill of Lading Notations).

(c) Government agencies ma negotiate with carriers for additional or revised section 10721 rates in appropriate situations. Only qualified transportation officers shall carry out these negotiations. (See 47.105 for transportation assistance.) The following are examples of situations in which negotiations for additional or revised section 10721 rates may be appropriate:

(1) Volume movements are expected.

(2) Shipments will be made on a recurring basis between designated places, and substantial savings in transportation costs appear possible even though a volume movement is not involved.

(3) Transit arrangements are feasible and advantageous to the Government.

47.104-2 Fixed-price contracts.

(a) *F.o.b. destination.* Section 10721 quotations do not apply to shipments under fixed-price f.o.b. destination contracts (delivered price).

(b) *F.o.b. origin.* Under fixed-price f.o.b. origin contracts, shipments normally shall be made on GBL's. However, if it is advantageous to the Government, the contracting officer may occasionally require the contractor to prepay the freight charges to a specific destination. In such cases, the contractor shall use a commercial bill of lading and be reimbursed for the direct and actual transportation cost as a separate item in the invoice. The clause at 52.247-1, Commercial Bill of Lading Notations, will ensure that the Government in this type of arrangement obtains the benefit of section 10721 rates.

47.104-3 Cost-reimbursement contracts.

(a) The Interstate Commerce Commission has ruled that section 10721 rates may be applied to shipments other than those made by the Government if the total benefit accrues to the Government; i.e., the Government must pay the charges or directly and completely reimburse the party that initially bears the freight charges. Therefore, section 10721 rates may be used for shipments moving on commercial bills of lading in cost-reimbursement contracts under which the transportation costs are direct and allowable costs under the cost principles of Part 31.

(b) Section 10721 rates may be applied to the movement of household goods and personal effects of contractor employees who are relocated for the convenience and at the direction of the Government and whose total transportation costs are reimbursed by the Government.

(c) The clause at 52.247-1, Commercial Bill of Lading Notations, will ensure that the Government receives the benefit of lower section 10721 rates in cost-reimbursement contracts as described in paragraphs (a) and (b) above.

(d) Contracting officers shall—

(1) Include in contracts a statement requiring the contractor to use carriers that offer acceptable service at reduced rates if available; and

(2) Ensure that contractors receive the name and location of the transportation officer designated to furnish support and guidance when using Government rate tenders under 47.104-5(b).

(e) Transportation officers shall—

(1) Advise and assist contracting officers and contractors; and

(2) Make available to contractors the names of carriers that provide service under section 10721 quotations, cite applicable rate tenders, and advise contractors of the statement that must be shown on the carrier's commercial bill of lading (see the clause at 52.247-1, Commercial Bill of Lading Notations).

47.104-4 Contract clause.

(a) The contracting officer, in order to ensure the application of section 10721 rates, shall insert the clause at 52.247-1, Commercial Bill of Lading Notations, in solicitations and contracts when the contracts will be—

(1) Cost-reimbursement contracts, including those that may involve the movement of household goods (see 47.104-3(b)); or

(2) Fixed-price f.o.b. origin contracts (other than small purchases under Part 13) (see 47.104-2(b) and 47.104-3).

(b) The contracting officer may insert the clause at 52.247-1, Commercial Bill of Lading Notations, in solicitations and contracts awarded under the small purchase procedures in Part 13 when it is contemplated that the delivery terms will be f.o.b. origin.

47.104-5 Citation of Government rate tenders.

When section 10721 rates apply, transportation officers or contractors, as appropriate, shall identify the applicable Government rate tender by endorsement on bills of lading, including—

(a) GBL's or commercial bills of lading to be converted to GBL's (see 41 CFR 101-41.303, Conversion of commercial bills of lading to GBL's); and

(b) Properly endorsed commercial bills of lading when transportation charges are reimbursable (see 47.104-2(b) and 47.104-3).

47.105 Transportation assistance.

(a) Civilian Government activities that do not have transportation officers, or otherwise need assistance on transportation matters, shall obtain assistance from (1) the GSA Regional Office of Transportation that provides support to the activity or (2) the transportation element of the contract administration office designated in the contract.

(b) Military installations shall obtain transportation assistance from the transportation office of the contracting activity, unless another military activity has been designated as responsible for furnishing assistance, guidance, or data. Military transportation offices shall request needed additional aid from the appropriate area headquarters of the Military Traffic Management Command (MTMC).

SUBPART 47.2—CONTRACTS FOR TRANSPORTATION OR FOR TRANSPORTATION-RELATED SERVICES

47.200 Scope of subpart.

(a) This subpart prescribes procedures for the acquisition by formally advertised or negotiated contracts of—

(1) Freight transportation (including local drayage) from rail, motor (including bus), domestic water (including inland, coastwise, and intercoastal) carriers, and from freight forwarders; and

(2) Transportation-related services including but not limited to stevedoring, storage, packing, marking, and ocean freight forwarding.

(b) Except as provided in paragraph (c) below, this subpart does not apply to—

(1) The acquisition of freight transportation from (i) domestic or international air carriers and (ii) international ocean carriers (see Subparts 47.4 and 47.5);

(2) Freight transportation acquired by bills of lading;

(3) Freight transportation for which rates are negotiated under 49 U.S.C. 10721(b)(1); or

(4) Small purchases under Part 13.

(c) With appropriate modifications, the procedures in this subpart may be applied to the acquisition of freight transportation from the carriers listed in subparagraph (b)(1) above and passenger transportation from any carrier or mode.

(d) The procedures in this subpart are applicable to the transportation of household goods and personal effects of persons being relocated at Government expense except when acquired—

(1) Under the commuted rate schedules as required in the Federal Travel Regulation (41 CFR 101-7);

(2) By U.S. Government bill of lading (GBL); or

(3) By DOD under the Personal Property Management Regulation (DOD 4500.34R).

(e) Additional guidance for DOD acquisition of freight and passenger transportation is in the Military Traffic Management Regulation.

47.201 Definitions.

"General freight," as used in this subpart, means supplies, goods, and transportable property not encompassed in the definitions of "household goods" or "office furniture."

"Household goods," as used in this subpart, means personal property that belongs to a person and that person's immediate family and includes, but is

not limited to household furnishings, equipment and appliances, furniture, clothing, books, and similar property (see 41 CFR 101-7).

"Office furniture," as used in this subpart, means furniture, equipment, fixtures, records, and other equipment and materials used in Government offices, hospitals, and similar establishments.

47.202 Presolicitation planning.

Contracting officers shall inform activities that plan to acquire transportation or transportation-related services of the applicable lead-time requirements, that is—

(a) The Service Contract Act of 1965 (SCA) requirement for submission of Standard Form 98, Notice of Intention to Make a Service Contract and Response to Notice, to the Department of Labor not less than the number of days prescribed by the Department of Labor before the issuance of an invitation for bid, request for proposal, or commencement of negotiations for any contract exceeding $2,500 that may be subject to the SCA (see Subpart 22.10);

(b) The possible requirement to provide, during the solicitation period, time for prospective offerors or contractors to inspect origin and destination locations; or

(c) The possible requirement for inspection by agency personnel of prospective contractor facilities and equipment.

47.203 Transportation term contracts.

(a) Transportation term contracts are indefinite delivery requirements contracts for transportation or for transportation-related services. They are particularly useful for local drayage and office relocations within a metropolitan area.

(b) Transportation term contracts shall contain descriptions of the services to be performed; rates and charges for these services; the geographical area of coverage; the term of the contract; and minimum or maximum order limitations by dollar amount, shipment size, or other criteria.

(c) If appropriate, the transportation term contract shall require the contractor to provide the services covered to any Government agency that issues an order for these services under the contract. If so—

(1) Agencies may place orders for transportation or for transportation-related services under existing term contracts without further consideration of competition, as these term contracts are awarded on a price-competitive basis; and

(2) Agency personnel shall ensure that the orders they place conform to the contract, including any minimum or maximum order limitations.

(d) Policies and procedures regarding the use of GSA term contracts for transportation or for transportation-related services by civilian executive agencies are prescribed in 41 CFR 101-40.109.

47.204 Single-movement contracts.

Single-movement contracts may be awarded for unique transportation services that are not otherwise available under carrier tariffs or covered by DOD or GSA contracts; e.g., special requirements at origin and/or destination.

47.205 Availability of term contracts and basic ordering agreements for transportation or for transportation-related services.

(a) All Government agencies may contract for transportation or for transportation-related services and execute basic ordering agreements (BOA's) (see Subpart 16.7) unless agency regulations prescribe otherwise. However, it is generally more economical and efficient for most agencies to make use of term contracts and basic ordering agreements that have been executed by agencies that employ personnel experienced in contracting for transportation or for transportation-related services. The Department of Defense (DOD) and the General Services Administration (GSA) contract for transportation or for transportation-related services on behalf of other activities and agencies. For instance, GSA awards term contracts for services such as local drayage, office moves, and ocean-freight forwarding (see 47.105 for assistance).

(b) Agencies may obtain transportation or transportation-related services for which the cost does not exceed the small purchase limitation under the small purchase procedures in Part 13, if term contracts or basic ordering agreements are not available.

47.206 Preparation of solicitations and contracts.

47.206-1 General.

(a) Contracting officers shall prepare solicitations and contracts for transportation or for transportation-related services as prescribed elsewhere in the FAR for fixed-price service contracts to the extent that those requirements are applicable and not inconsistent with the requirements in Subpart 47.2.

(b) In addition, the contracting officer shall include in solicitations and contracts for transportation or for transportation-related services provisions, clauses and instructions as prescribed in section 47.207.

47.206-2 Exclusion of offers.

(a) Except as specified in paragraph (b) below, solicitation specifications shall permit competition among all modes of transportation, consistent with the law and with safety regulations.

(b) Solicitations may be restricted to a particular mode or to particular modes only if the excluded mode or modes cannot reasonably meet the required service.

(c) Contracting officers shall (1) state in solicitations the types of carriers from which offers will not be accepted and (2) place in the contract file a written determination prepared by the transportation officer, supporting the need and basis for this exclusion.

47.207 Solicitation provisions, contract clauses, and special requirements.

The contracting officer shall include provisions, clauses, and special requirements in solicitations and contracts for transportation or for transportation-related services as prescribed in 47.207-1 through 47.207-9.

47.207-1 Qualifications of offerors.

(a) *Operating authorities.* The contracting officer shall insert the clause at 52.247-2, Permits, Authorities, or Franchises, when regulated transportation is involved. The clause need not be used when a Federal office move is intrastate and the contracting officer determines that it is in the Government's interest not to apply the requirement for holding or obtaining State authority to operate within the State.

(b) *Performance capability for Federal office moving contracts.* (1) The contracting officer shall insert the clause at 52.247-3, Capability to Perform a Contract for the Relocation of a Federal Office, when a Federal office is relocated, to ensure that offerors are capable to perform interstate or intrastate moving contracts involving the relocation of Federal offices.

(2) If a Federal office move is intrastate and the contracting officer determines that it is in the Government's interest not to apply the requirements for holding or obtaining State authority to operate within the State, and to maintain a facility within the State or commercial zone, the contracting officer shall use the clause with its Alternate I.

(c) *Inspection of shipping and receiving facilities.* The contracting officer shall insert the provision at

52.247-4, Inspection of Shipping and Receiving Facilities, when it is desired for offerors to inspect the shipping, receiving, or other sites to ensure realistic bids.

(d) *Familiarization with conditions.* The contracting officer shall insert the clause at 52.247-5, Familiarization with Conditions, to ensure that offerors become familiar with conditions under which and where the services will be performed.

(e) *Financial statement.* The contracting officer shall insert the provision at 52.247-6, Financial Statement, to ensure that offerors are prepared to furnish financial statements.

47.207-2 Duration of contract and time of performance.

The contracting officer shall—

(a) Establish a specific expiration date (month, day, and year) for the contract or state the length of time that the contract will remain in effect; e.g., 6 months commencing from the date of award; and

(b) Include the following items as appropriate:

(1) A statement of the time period during which the service is required when the service is a one-time job; e.g., a routine office relocation.

(2) A time schedule for the performance of segments of a major job; e.g., an office relocation for which the work phases must be coordinated to meet other needs of the agency.

(3) Statements of performance times for particular services; e.g., pickup and delivery services. Specify—

(i) On which days of the week and during which hours of the day pickup and delivery services may be required;

(ii) The maximum time allowable to the contractor for accomplishing delivery under regular or priority service; and

(iii) How much advance notice the contractor will be given for regular pickup services and, if applicable, priority pickup services.

47.207-3 Description of shipment, origin, and destination.

(a) *Origin of shipments.* The contracting officer shall include in solicitations full details regarding the location from which the freight is to be shipped. For example, if a single location is shown, furnish the shipper's name, street address, city, State, and ZIP code. If several or indefinite locations are involved, as in the case of multiple shippers or drayage contracts, describe the area of origin including boundaries and ZIP codes.

(b) *Destination of shipments.* The contracting officer shall include full details regarding delivery points. For example, if a single delivery point is shown, furnish the consignee's name, street address, city, State, and ZIP code. If several or indefinite delivery points are involved, describe the delivery area, including boundaries and ZIP codes.

(c) *Description of the freight.* The contracting officer shall include in solicitations—

(1) An inventory if the freight consists of nonbulk items; and

(2) The freight classification description, which should be obtained from the transportation office. If a freight classification description is not available, use a clear nontechnical description. Include additional details necessary to ensure that the prospective offerors have complete information about the freight; e.g., size, weight, hazardous material, whether packed for export, or unusual value.

(d) *Exclusion of freight.* The contracting officer shall (1) clearly identify any freight or types of shipments that are subject to exclusion; e.g., bulk freight, hazardous commodities, or shipments under or over specified weights; and (2) insert a clause substantially the same as the clause at 52.247-7, Freight Excluded, when any commodities or types of shipments have been identified for exclusion.

(e) *Quantity.* (1) The contracting officer shall state the actual weight of the freight or a reasonably accurate estimate. The following are examples:

(i) If the contract covers transportation services required over an extended period of time, include a schedule of actual or estimated tonnage or number of items to be transported per week, month, or other time period.

(ii) If the contract covers a group movement of household goods, give an estimate of the aggregate weights and the basis for determining the aggregate weight.

(2) The contracting officer shall insert the clause at 52.247-8, Estimated Weights or Quantities Not Guaranteed, when weights or quantities are estimates.

47.207-4 Determination of weights.

The contracting officer shall specify in the contract the method of determining the weights of shipments as appropriate for the kind of freight involved and the type of service required.

(a) *Shipments of freight other than household goods and office furniture.*

(1) The contracting officer shall insert the clause at 52.247-9, Agreed Weight—General Freight, when the shipping activity determines the weight of shipments of freight other than household goods or office furniture.

(2) The contracting officer shall insert the clause at 52.247-10, Net Weight—General Freight, when the weight of shipments of freight other than household goods or office furniture is not known at the time of shipment and the contractor is responsible for determining the net weight of the shipments.

(b) *Shipments of household goods or office furniture.* The contracting officer shall insert the clause at 52.247-11, Net Weight—Household Goods or Office Furniture, when movements of Government employees' household goods or relocations of Government offices are involved.

47.207-5 Contractor responsibilities.

Contractor responsibilities vary with the kinds of freight to be shipped and services required. The contracting officer shall specify clearly those service requirements that are not considered normal transportation or transportation-related requirements.

(a) *Type of equipment.* If appropriate, the contracting officer shall specify the type and size of equipment to be furnished by the contractor. Otherwise, state that the contractor shall furnish clean and sound closed-type equipment of sufficient size to accommodate the shipment.

(b) *Supervision, labor, or materials.* The contracting officer shall insert a clause substantially the same as the clause at 52.247-12, Supervision, Labor, or Materials, when the contractor is required to furnish supervision, labor, or materials.

(c) *Accessorial services—moving contracts.* The contracting officer shall insert a clause substantially the same as the clause at 52.247-13, Accessorial Services—Moving Contracts, in contracts for the transportation of household goods or office furniture.

(d) *Receipt of shipment.* The contracting officer shall insert the clause at 52.247-14, Contractor Responsibility for Receipt of Shipment.

(e) *Loading and unloading.* The contracting officer shall insert the clause at 52.247-15, Contractor Responsibility for Loading and Unloading, when the contractor is responsible for loading and unloading shipments.

(f) *Return of undelivered freight.* The contracting officer shall insert the clause at 52.247-16, Contractor Responsibility for Returning Undelivered Freight, when the contractor is responsible for returning undelivered freight.

47.207-6 Rates and charges.

(a) (1) The contracting officer shall include in the solicitation a statement

that the charges in the contract shall not exceed the contractor's charges for the same service that is—

(i) Available to the general public; or

(ii) Otherwise tendered to the Government.

(2) The contracting officer shall insert the clause at 52.247-17, Charges.

(b) The contracting officer shall include in the solicitation a tabulation listing each required service and the basis for the rate (price); e.g., "unit of weight" or "per work-hour," leaving sufficient space for offerors to insert the rates offered for each service.

(c) The following guidelines apply to the composition of a tabulation of transportation or of transportation-related services and their rate (price) bases:

(1) *Combination of pricing bases.* If various types of services with different bases for assessing charges are required under the same contract, show each service separately and the applicable basis for that service.

(2) *Hourly rate basis.* If charges are based on an hourly rate, state the method for charging for fractions of an hour; e.g., (i) a period of 30 minutes or less is charged at one-half the hourly rate and (ii) the hourly rate applies to any portion of an hour that exceeds 30 minutes.

(3) *Shipments of varying weights.* If charges are based on weight and shipments will vary in weight, request rates on a graduated weight basis. Include a table of graduated weights for offerors to insert rates.

(4) *Multiple origins and/or destinations.* Specify whether rates are requested for each origin and/or each destination or for specific groups of origins and/or destinations.

(5) *Multiple shipments from one origin.* If multiple shipments will be tendered at one time to the contractor for delivery to two or more consignees at the same destination, request the rate applicable to the aggregate weight. If such shipments are for delivery to various destinations along the route between origin and last destination, request the rate applicable to the aggregate weight and a stopoff charge for each intermediate destination.

(i) The contracting officer shall insert the clause at 52.247-18, Multiple Shipments, when multiple shipments are tendered at one time to the contractor for transportation from one origin to two or more consignees at the same destination.

(ii) The contracting officer shall insert the clause at 52.247-19, Stopping in Transit for Partial Unloading, when multiple shipments are tendered at one time to the contractor for transportation from one origin to two or more consignees along the route between origin and last destination.

(6) *Estimated quantities or weights.* The contracting officer shall insert in solicitations the provision at 52.247-20, Estimated Quantities or Weights for Evaluation of Offers, when quantities or weights of shipments between each origin and destination are not known, stating estimated quantity or weight for each origin/destination pair.

(7) *Additional services.* If services in addition to those covered in the basic rate are anticipated; e.g., inside delivery, state the conditions under which payment will be made for those services.

47.207-7 Liability and insurance.

(a) The contracting officer shall specify—

(1) The contractor's liability for injury to persons or damage to property other than the freight being transported;

(2) The contractor's liability for loss of and/or damage to the freight being transported; and

(3) The amount of insurance the contractor is required to maintain.

(b) When the contractor's liability for loss of and/or damage to the freight being transported is not specified, the usual measure of liability as prescribed in section 11707 of the Interstate Commerce Act (49 U.S.C. 11707) applies.

(c) The contracting officer shall insert the clause at 52.247-21, Contractor Liability for Personal Injury and/or Property Damage.

(d) The contracting officer shall insert the clause at 52.247-22, Contractor Liability for Loss of and/or Damage to Freight other than Household Goods, in solicitations and contracts for the transportation of freight other than household goods.

(e) The contracting officer shall insert the clause at 52.247-23, Contractor Liability for Loss of and/or Damage to Household Goods, in solicitations and contracts for the transportation of household goods, including the rate per pound appropriate to the situation.

(f) When freight is not shipped under rates subject to released or declared value, see 28.313(a) and the clause at 52.228-9, Cargo Insurance.

(g) When the contracting officer determines that vehicular liability and/or general public liability insurance required by law are not sufficient for a contract, see 28.313(b) and the clause at 52.228-10, Vehicular and General Public Liability Insurance.

47.207-8 Government responsibilities.

(a) The contracting officer shall state clearly the Government's responsibilities that have a direct bearing on the contractor's performance under the contract; e.g., the Government's responsibility to notify the contractor in advance when hazardous materials are included in a shipment.

(1) *Advance notification.* The contracting officer shall insert the clause at 52.247-24, Advance Notification by the Government, when the Government is responsible for notifying the contractor of specific service times or unusual shipments.

(2) *Government equipment with or without operators* (i) The contracting officer shall insert the clause at 52.247-25, Government-Furnished Equipment with or without Operators, when the Government furnishes equipment with or without operators.

(ii) Insert the kind of equipment and the locations where the equipment will be furnished.

(3) *Direction and marking.* The contracting officer shall insert the clause at 52.247-26, Government Direction and Marking, when office relocations are involved.

(b) The contracting officer shall insert the clause at 52.247-27, Contract Not Affected by Oral Agreement.

47.207-9 Annotation and distribution of shipping and billing documents.

(a) The contracting officer shall state in detail the responsibilities of the contractor, the contracting agency, and, if appropriate, the consignee for the annotation and distribution of shipping and billing documents. See 41 CFR 101-41, Transportation Documentation and Audit (TDA).

(b) In instances of mass movements of freight made available to the contractor at one time, it is particularly important that the contracting officer specifies that bills of lading be cross-referenced so that the Government benefits from applicable volume rates.

(c) The contracting officer shall insert the clause at 52.247-28, Contractor's Invoices, in drayage or other term contracts.

SUBPART 47.3—TRANSPORTATION IN SUPPLY CONTRACTS

47.300 Scope of subpart.

(a) This subpart prescribes policies and procedures for the application of transportation and traffic management considerations in the acquisition of supplies. The terms and conditions contained in this subpart are applicable to fixed-price contracts.

(b) If a special requirement exists for application of any of these terms and

conditions to other types of contracts; e.g., cost-reimbursement contracts, for which transportation arrangements are normally the responsibility of the contractor and transportation costs are allowable (see 31.205-45), the contracting officer shall use the terms and conditions prescribed in this subpart as a guide for (1) contract coverage of transportation and (2) instructions to the contractor to minimize the ultimate transportation costs to the Government.

47.301 General.

(a) Transportation and traffic management factors are important in awarding and administering contracts to ensure that (1) acquisitions are made on the basis most advantageous to the Government and (2) supplies arrive in good order and condition and on time at the required place. (See 47.104 for possible reduced transportation rates for Government shipments).

(b) The requiring activity shall—

(1) Consider all transportation factors including present and future requirements, positioning of supplies, and subsequent distribution to the extent known or ascertainable; and

(2) Provide the contracting office with information and instructions reflecting transportation factors applicable to the particular acquisition.

47.301-1 Responsibilities of contracting officers.

(a) Contracting officers shall obtain from traffic management offices transportation factors required for (1) solicitations and awards and (2) contract administration, modification, and termination, including the movement of property by the Government to and from contractors' plants.

(b) Contracting officers shall request transportation office participation especially before making an initial acquisition of supplies that are unusually large, heavy, high, wide, or long; have sensitive or dangerous characteristics; or lend themselves to containerized movements from the source. In determining total transportation charges, contracting officers shall also consider additional costs arising from factors such as the use of special equipment, excess blocking and bracing material, or circuitous routing.

47.301-2 Participation of transportation officers.

Agencies' transportation officers shall participate in the solicitation and evaluation of bids to ensure that all necessary transportation factors, such as transportation costs, transit arrangements, time in transit, and port capabilities, are considered and result in solicitations and contracts advantageous to the Government. Transportation officers shall provide traffic management assistance throughout the acquisition cycle (see 47.105 Transportation assistance).

47.301-3 Using the Defense Transportation System (DTS).

(a) All military and civilian agencies shipping, or arranging for the acquisition and shipment by Government contractors, through the use of military-controlled transport or through military transshipment facilities shall follow Department of Defense (DOD) Regulation 45.000.32-R, Military Standard Transportation and Movement Procedures (MILSTAMP). MILSTAMP establishes uniform procedures and documents for the generation, documentation, communication, and use of transportation information, thus providing the capability for control of shipments moving in the DTS. MILSTAMP has been implemented on a world-wide basis.

(b) Contracting activities are responsible for (1) ensuring that the requirements of the MILSTAMP regulation are included in appropriate contracts for all applicable shipments and (2) enforcing these requirements with regard to shipments under their control. This includes requirements relating to documentation, marking, advance notification of shipment dates, and terminal clearances.

(c) Contractual documents shall designate a contract administration office (see 42.202(d)) as the contract point to which the contractor will provide necessary information to (1) effect MILSTAMP documentation and movement control, including air or water terminal shipment clearances, and (2) obtain data necessary for shipment marking and freight routing. Contractual documents shall specify that the contractor shall not ship directly to a military air or water port terminal without authorization from the designated contract administration office (see 47.305-6(f)).

47.302 Place of delivery—f.o.b. point.

(a) The policies and procedures in 47.304-1, -2, and -3 govern the transportation of supplies from sources in the Continental United States (CONUS), except when identifiable costs, nature of the supplies (security, safety, or value), delivery requirements (premium modes of transport, escorts, transit arrangements, and tentative conditions), or other advantages, limitations, or requirements dictate otherwise. The policies and procedures in 47.304-4 govern the transportation of supplies from sources outside CONUS.

(b) Generally, the contracting officer shall solicit offers, and award contracts, with delivery terms on the basis prescribed in 47.304. The contracting officer shall document the contract file (see 4.801) with justifications for solicitations that do not specify delivery on the basis prescribed in 47.304.

(c) (1) The place of performance of Government acquisition quality assurance actions and the place of acceptance shall not control the delivery term, except that if acceptance is at destination, transportation shall be f.o.b. destination (see 47.304-1(f)).

(2) The fact that transportation is f.o.b. destination does not alone necessitate changing the place of acceptance from origin to destination; and the fact that acceptance is at origin does not necessitate an f.o.b. origin delivery term. Providing for inspection and acceptance at origin (if appropriate under 46.402), in conjunction with an f.o.b. destination term, may be advantageous to both the Government and the contractor. Acceptance of title at origin by the Government permits payment of the contractor, provided the invoice is supported either by a copy of the signed commercial bill of lading (indicating the carrier's receipt of the supplies covered by the invoice for transportation to the particular destination specified in the contract) or by other appropriate evidence of shipment to the particular destination for the contractor's account.

47.303 Standard delivery terms and contract clauses.

Standard delivery terms are listed in 47.303-1 through 47.303-16.

47.303-1 F.o.b. origin.

(a) *Explanation of delivery term.* "F.o.b. origin" means free of expense to the Government delivered—

(1) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipment will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(2) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(3) To a U.S. Postal Service facility; or

(4) If stated in the solicitation, to any Government-designated point located within the same commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR 1048).

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) (i) Order specified carrier equipment when requested by the Government; or

(ii) If not specified, order appropriate carrier equipment not in excess of capacity to accommodate shipment;

(3) Deliver the shipment in good order and condition to the carrier, and load, stow, trim, block, and/or brace carload or truckload shipment (when loaded by the contractor) on or in the carrier's conveyance as required by carrier rules and regulations;

(4) Be responsible for any loss of and/or damage to the goods—

(i) Occurring before delivery to the carrier;

(ii) Resulting from improper packing and marking; or

(iii) Resulting from improper loading, stowing, trimming, blocking, and/or bracing of the shipment, if loaded by the contractor on or in the carrier's conveyance;

(5) Complete the Government bill of lading supplied by the ordering agency or, when a Government bill of lading is not supplied, prepare a commercial bill of lading or other transportation receipt. The bill of lading shall show—

(i) A description of the shipment in terms of the governing freight classification or tariff (or Government rate tender) under which lowest freight rates are applicable;

(ii) The seals affixed to the conveyance with their serial numbers or other identification;

(iii) Lengths and capacities of cars or trucks ordered and furnished;

(iv) Other pertinent information required to effect prompt delivery to the consignee, including name, delivery address, postal address and ZIP code of consignee, routing, etc.;

(v) Special instructions or annotations requested by the ordering agency for commercial bills of lading; e.g., (A) "to be converted to a Government bill of lading," or (B) "this shipment is the property of, and the freight charges paid to the carrier(s) will be reimbursed by, the Government"; and

(vi) The signature of the carrier's agent and the date the shipment is received by the carrier; and

(6) Distribute the copies of the bill of lading, or other transportation receipts, as directed by the ordering agency.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-29, F.o.b. Origin, when the delivery term is f.o.b. origin.

47.303-2 F.o.b. origin, contractor's facility.

(a) *Explanation of delivery term.* "F.o.b. origin, contractor's facility" means free of expense to the Government delivered on board the indicated type of conveyance of the carrier (or of the Government if specified) at the designated facility, on the named street or highway, in the city, county, and State from which the shipment will be made.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-30, F.o.b. Origin, Contractor's Facility, when the delivery term is f.o.b. origin, contractor's facility.

47.303-3 F.o.b. origin, freight allowed.

(a) *Explanation of delivery term.* "F.o.b. origin, freight allowed" means—

(1) Free of expense to the Government delivered—

(i) On board the indicated type or conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipments will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same commercial zone as the f.o.b origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR 1048); and

(2) An allowance for freight, based on applicable published tariff rates (or Government rate tenders) between the points specified in the contract, is deducted from the contract price.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-31, F.o.b. Origin, Freight Allowed, when the delivery term is f.o.b. origin, freight allowed.

47.303-4 F.o.b. origin, freight prepaid.

(a) *Explanation of delivery term.* "F.o.b. origin, freight prepaid" means—

(1) Free of expense to the Government delivered—

(i) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipments will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same commercial zone as the f.o.b origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR 1048); and

(2) The cost of transportation, ultimately the Government's obligation, is prepaid by the contractor to the point specified in the contract.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b), except that the contractor shall prepare commercial bills of lading or other transportation receipts and shall prepay all freight charges to the extent specified in the contract.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-32, F.o.b. Origin, Freight Prepaid, when the delivery term is f.o.b. origin, freight prepaid.

47.303-5 F.o.b. origin, with differentials.

(a) *Explanation of delivery term.* "F.o.b. origin, with differentials" means—

(1) Free of expense to the Government delivered—

(i) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and

State from which the shipments will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR 1048); and

(2) Differentials for mode of transportation, type of vehicle, or place of delivery as indicated in contractor's offer may be added to the contract price.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-33, F.o.b. Origin, with Differentials, when it is likely that offerors may include in f.o.b. origin offers a contingency to compensate for unfavorable routing conditions by the Government at the time of shipment.

47.303-6 F.o.b. destination.

(a) *Explanation of delivery term.* "F.o.b. destination" means—

(1) Free of expense to the Government delivered, on board the carrier's conveyance, at a specified delivery point where the consignee's facility (plant, warehouse, store, lot, or other location to which shipment can be made) is located; and

(2) Supplies shall be delivered to the destination consignee's wharf (if destination is a port city and supplies are for export), warehouse unloading platform, or receiving dock, at the expense of the contractor. The Government shall not be liable for any delivery, storage, demurrage, accessorial, or other charges involved before the actual delivery (or "constructive placement" as defined in carrier tariffs) of the supplies to the destination, unless such charges are caused by an act or order of the Government acting in its contractual capacity. If rail carrier is used, supplies shall be delivered to the specified unloading platform of the consignee. If motor carrier (including "piggyback") is used, supplies shall be delivered to truck tailgate at the unloading platform of the consignee. If the contractor uses rail carrier or freight forwarder for less than carload shipments, the contractor shall ensure that the carrier will furnish tailgate delivery if transfer to truck is required to complete delivery to consignee.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements;

(2) Prepare and distribute commercial bills of lading;

(3) Deliver the shipment in good order and condition to the point of delivery specified in the contract;

(4) Be responsible for any loss of and/or damage to the goods occurring before receipt of the shipment by the consignee at the delivery point specified in the contract;

(5) Furnish a delivery schedule and designate the mode of delivering carrier; and

(6) Pay and bear all charges to the specified point of delivery.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-34, F.o.b. Destination, when the delivery term is f.o.b. destination.

47.303-7 F.o.b. destination, within consignee's premises.

(a) *Explanation of delivery term.* "F.o.b. destination, within consignee's premises" means free of expense to the Government delivered and laid down within the doors of the consignee's premises, including delivery to specific rooms within a building if so specified.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-6(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-35, F.o.b. Destination, within Consignee's Premises, when the delivery term is f.o.b. destination, within consignee's premises.

47.303-8 F.a.s. vessel, port of shipment.

(a) *Explanation of delivery term.* "F.a.s. vessel, port of shipment" means free of expense to the Government delivered alongside the ocean vessel and within reach of its loading tackle at the specified port of shipment.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) (i) Deliver the shipment in good order and condition alongside the ocean vessel and within reach of its loading tackle, at the point of delivery and on the date or within the period specified in the contract; and

(ii) Pay and bear all applicable charges, including transportation costs, wharfage, handling, and heavy lift charges, if necessary, up to this point;

(3) Provide a clean dock or ship's receipt;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment to the point specified in the contract; and

(5) At the Government's request and expense, assist in obtaining the documents required for (i) exportation or (ii) importation at destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-36, F.a.s. Vessel, Port of Shipment, when the delivery term is f.a.s. vessel, port of shipment.

47.303-9 F.o.b. vessel, port of shipment.

(a) *Explanation of delivery term.* "F.o.b. vessel, port shipment" means free of expense to the Government loaded, stowed, and trimmed on board the ocean vessel at the specified port of shipment.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) (i) Deliver the shipment on board the ocean vessel in good order and condition on the date or within the period fixed; and

(ii) Pay and bear all charges incurred in placing the shipment actually on board;

(3) Provide a clean ship's receipt or on-board ocean bill of lading;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment on board the ocean vessel; and

(5) At the Government's request and expense, assist in obtaining the documents required for (i) exportation or (ii) importation at destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-37, F.o.b. Vessel, Port of Shipment, when the

delivery term is f.o.b. vessel, port of shipment.

47.303-10 F.o.b. inland carrier, point of exportation.

(a) *Explanation of delivery term.* "F.o.b. inland carrier, point of exportation" means free of expense to the Government, on board the conveyance of the inland carrier, delivered to the specified point of exportation.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) Prepare and distribute commercial bills of lading;

(3) (i) Deliver the shipment in good order and condition in or on the conveyance of the carrier on the date or within the period specified; and

(ii) Pay and bear all applicable charges, including transportation costs, to the point of delivery specified in the contract;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment to the point of delivery specified in the contract; and

(5) At the Government's request and expense, assist in obtaining the documents required for (i) exportation or (ii) importation at destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-38, F.o.b. Inland Carrier, Point of Exportation, when the delivery term is f.o.b. inland carrier, point of exportation.

47.303-11 F.o.b. inland point, country of importation.

(a) *Explanation of delivery term.* "F.o.b. inland point, country of importation" means free of expense to the Government, on board the indicated type of conveyance of the carrier, delivered to the specified inland point where the consignee's facility is located.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods;

(2) (i) Deliver, in or on the inland carrier's conveyance, the shipment in good order and condition to the specified inland point where the consignee's facility is located;

(ii) Pay and bear all applicable charges incurred up to the point of delivery, including transportation costs; export, import, or other fees or taxes; costs of landing; wharfage costs; customs duties and costs of certificates of origin; consular invoices; and other documents that may be required for importation; and

(3) Be responsible for any loss of and/or damage to the goods until their arrival on or in the carrier's conveyance at the specified inland point.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-39, F.o.b. Inland Point, Country of Importation, when the delivery term is f.o.b. inland point, country of importation.

47.303-12 Ex dock, pier, or warehouse, port of importation.

(a) *Explanation of delivery term.* "Ex dock, pier, or warehouse, port of importation" means free of expense to the Government delivered on the designated dock or pier or in the warehouse at the specified port of importation.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods;

(2) (i) Deliver shipment in good order and condition; and

(ii) Pay and bear all charges up to the point of delivery specified in the contract, including transportation costs; export, import, or other fees or taxes; costs of wharfage and landing, if any; customs duties; and costs of certificates of origin, consular invoices, or other documents that may be required for exportation or importation; and

(3) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment to the point of delivery specified in the contract.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-40, Ex Dock, Pier, or Warehouse, Port of Importation, when the delivery term is ex dock, pier, or warehouse, port of importation.

47.303-13 C.& f. destination.

(a) *Explanation of delivery term.* "C.& f. destination" means free of expense to the Government delivered on board the ocean vessel to the specified point of destination, with the cost of transportation paid by the contractor.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements;

(2) (i) Deliver the shipment in good order and condition; and

(ii) Pay and bear all applicable charges to the point of destination specified in the contract, including transportation costs and export taxes or other fees or charges levied because of exportation;

(3) Obtain and dispatch promptly to the Government clean on-board ocean bills of lading to the specified point of destination;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery; and

(5) At the Government's request and expense, provide certificates of origin, consular invoices, or any other documents issued in the country of origin or of shipment, or both, that may be required for importation into the country of destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-41, C.&f. Destination, when the delivery term is c.& f. destination.

47.303-14 C.i.f. destination.

(a) *Explanation of delivery term.* "C.i.f destination" means free of expense to the Government delivered on board the ocean vessel to the specified point of destination, with the cost of transportation and marine insurance paid by the contractor.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-13(b), except that, in addition, the contractor shall obtain and dispatch to the Government an insurance policy or certificate providing the amount and extent of marine insurance coverage specified in the contract or agreed upon by the Government contracting officer.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-42, C.i.f. Destination, when the delivery term is c.i.f. destination.

47.303-15 F.o.b. designated air carrier's terminal, point of exportation.

(a) *Explanation of delivery term.* "F.o.b. designated air carrier's terminal, point of exportation" means free of expense to the Government loaded

aboard the aircraft, or delivered to the custody of the air carrier (if only the air carrier performs the loading), at the air carrier's terminal specified in the contract.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for air transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) (i) Deliver the shipment in good order and condition into the conveyance of the carrier, or to the custody of the carrier (if only the carrier performs the loading), at the point of delivery and on the date or within the period specified in the contract; and

(ii) Pay and bear all applicable charges up to this point;

(3) Provide a clean Government bill of lading and/or air waybill;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the goods to the point specified in the contract; and

(5) At the Government's request and expense, assist in obtaining the documents required for the purpose of exportation.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-43, F.o.b. Designated Air Carrier's Terminal, Point of Exportation, when the delivery term is f.o.b. designated air carrier's terminal, point of exportation.

47.303-16 F.o.b. designated air carrier's terminal, point of importation.

(a) *Explanation of delivery term.* "F.o.b. designated air carrier's terminal, point of importation" means free of expense to the Government delivered to the air carrier's terminal at the point of importation specified in the contract.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for air transportation in conformance with carrier requirements to protect the goods;

(2) Prepare and distribute bills of lading or air waybills;

(3) (i) Deliver the shipment in good order and condition to the point of delivery specified in the contract; and

(ii) Pay and bear all charges incurred up to the point of delivery specified in the contract, including transportation costs; export, import, or other fees or taxes; cost of landing, if any; customs duties; and costs of certificates of origin, consular invoices, or other documents that may be required for exportation or importation; and

(4) Be responsible for any loss of and/or damage to the goods until delivery of the goods to the Government at the designated air carrier's terminal.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-44, F.o.b. Designated Air Carrier's Terminal, Point of Importation, when the delivery term is f.o.b. designated air carrier's terminal, point of importation.

47.304 Determination of delivery terms.

47.304-1 General.

(a) The contracting officer shall determine f.o.b. terms generally on the basis of overall costs, giving due consideration to the criteria given in 47.304.

(b) Solicitations shall specify whether offerors must submit offers f.o.b. origin, f.o.b. destination, or both; or whether offerors may choose the basis on which they make an offer. The contracting officer shall consider the most advantageous delivery point, such as (1) f.o.b. origin, carrier's equipment, wharf, or specified freight station near contractor's plant; or (2) f.o.b. destination.

(c) In determining whether f.o.b. origin or f.o.b. destination is more advantageous to the Government, the contracting officer shall consider the availability of lower freight rates (Government rate tenders) to the Government for f.o.b. origin acquisitions. F.o.b. origin contracts also present other desirable traffic management features, in that they—

(1) Permit use of transit privileges (see 47.305-13);

(2) Permit diversions to new destinations without price adjustment for transportation (see 47.305-11);

(3) Facilitate use of special routings or types of equipment (e.g., circuitous routing or oversize shipments) (see 47.305-14);

(4) Facilitate, if necessary, use of premium cost transportation and permit Government-controlled transportation;

(5) Permit negotiations for reduced freight rates (see 47.104-1(b)); and

(6) Permit use of small shipment consolidation stations.

(d) When destinations are tentative or unknown, the solicitation shall be f.o.b. origin only (see 47.305-5).

(e) When the size or quantity of supplies with confidential or higher security classification requires commercial transportation services, the contracting officer shall generally specify f.o.b. origin acquisitions.

(f) When acceptance must be at destination, solicitation shall be on an f.o.b. destination only basis.

(g) Following are examples of situations when solicitations shall normally be on an f.o.b. destination only basis because it is advantageous to the Government (see 47.305-4):

(1) Bulk supplies, such as coal, that require other than Government-owned or operated handling, storage, and loading facilities, are destined for shipment outside the continental United States.

(2) Steel or other bulk construction products are destined for shipment outside the continental United States.

(3) Supplies consist of forest products such as lumber.

(4) Perishable or medical supplies are subject to in-transit deterioration.

(5) Evaluation of f.o.b. origin offers is anticipated to result in increased administrative lead time or administrative cost that would outweigh the potential advantages of an f.o.b. origin determination.

47.304-2 Shipments within CONUS.

(a) Solicitations shall provide that offers may be submitted on the basis of either or both f.o.b origin and f.o.b. destination and that they will be evaluated on the basis of the lowest overall cost to the Government.

(b) When sufficient reasons exist not to follow this policy, the contract file shall be documented to include the reasons.

47.304-3 Shipments from CONUS for overseas delivery.

(a) When Government acquisitions involve shipments from CONUS to overseas destinations, delivery f.o.b. origin may afford not only the economies of lower freight rates available to the Government within the United States, but also flexibility for selection of (1) the port of export and (2) the ocean transportation providing the lowest overall cost to the Government.

(b) (1) Unless there are valid reasons to the contrary (see 47.304-5), acquisition of supplies originating within CONUS for ultimate delivery to destinations outside CONUS shall be made on the basis of f.o.b. origin. This policy applies to supplies and equipment to be shipped either directly to a port area for export or to a storage or holding area for subsequent forwarding to a port area for export.

(2) Justification for the solicitation of offers on other than an f.o.b. origin basis

shall be recorded and the contract file documented accordingly.

(c) Export cargo involves considerations of operational and cost factors from the point of origin within CONUS to the overseas port destination. The lowest cost of shipping can be determined only by evaluating and comparing the various prospective landed costs (including inland, terminal, and ocean costs). Also, agencies may have export licensing privileges for shipments to foreign destinations. The contracting officer shall obtain advice from the transportation officer to ensure full use of these privileges.

47.304-4 Shipments originating outside CONUS.

(a) Unless there are valid reasons to the contrary (see 47.304-5), acquisition of supplies originating outside CONUS for ultimate delivery to destinations within CONUS or elsewhere, regardless of the quantity of the shipments, shall be on the basis of f.o.b. origin or f.o.b. destination, whichever is more advantageous to the Government.

(b) The contracting officer shall request the advice of the transportation officer to determine the most appropriate place of delivery to be specified in acquisition documents, giving full consideration to the possible use of Government transportation facilities, reduced rates available, special licensing or custom requirements, and availability of U.S.-flag shipping services between the points involved (see Subpart 47.5).

47.304-5 Exceptions.

(a) Unusual conditions or circumstances may require the use of terms other than f.o.b. origin or f.o.b. destination. Such conditions or circumstances include, but are not limited to—

(1) Transportation disabilities at origin or destination;

(2) Mode of transportation required;

(3) Availability of Government or commercial loading, unloading, or transshipment facilities;

(4) Characteristics of the supplies;

(5) Trade customs related to certain supplies;

(6) Origins or destinations in Alaska and Hawaii; and

(7) Program requirements.

(b) Contracting officers shall obtain assistance from transportation officers before issuing solicitations when unusual conditions or circumstances exist that relate to f.o.b. terms.

47.305 Solicitation provisions, contract clauses, and transportation factors.

(a) The contracting officer shall coordinate transportation factors with the transportation office during the planning, solicitation, and award phases of the acquisition process (see 47.105).

(b) To the extent feasible, activities shall schedule deliveries to effect savings in transportation costs, and concomitant reductions in energy consumption by carriers (see 47.305-7 and 47.305-8 for specific possibilities).

47.305-1 Solicitation requirements.

When the acquisition of supplies is on f.o.b. origin or f.o.b. destination delivery terms, the contracting officer shall include in solicitations a requirement that the offeror furnish the Government as much of the following data as is applicable to the particular acquisition:

(a) Modes of transportation and, if rail transportation is used, names of rail carriers serving the offeror's facility.

(b) The number of railroad cars, motor trucks, or other conveyances that can be loaded per day.

(c) Type of packaging; e.g., box, carton, crate, drum, bundle, skids, and when applicable, package number from the governing freight classification.

(d) Number of units packed in one container.

(e) Guaranteed maximum shipping weight; cubic measurement; and length, width, and height of each container.

(f) Minimum size of each shipment.

(g) Number of containers or units that can be loaded in a car, truck, or other conveyance of the size normally used (specify type and size) for the commodity.

(h) Description of material in terms of the governing freight classification or tariff (or Government rate tender) under which lowest freight rates are applicable.

(i) Benefits available to the Government under transit arrangements made by the offeror.

(j) Other requirements as stated under specific section headings.

47.305-2 Solicitations f.o.b. origin and f.o.b. destination—lowest overall cost.

(a) Solicitations, when appropriate, shall specify that offers may be f.o.b. origin, f.o.b. destination, or both; and that they will be evaluated on the basis of the lowest overall cost to the Government.

(b) When offers are solicited on the basis of both f.o.b. origin and f.o.b. destination, the contracting officer shall insert in solicitations the provision at 52.247-45, F.o.b. Origin and/or F.o.b. Destination Evaluation.

47.305-3 F.o.b. origin solicitations.

When preparing f.o.b. origin solicitations, the contracting officer shall refer to 47.303, where f.o.b. origin clauses relating to standard delivery terms are prescribed, and to 42.1404-2, where the use of bills of lading, parcel post, and indicia mail is prescribed. Supply solicitations that will or may result in f.o.b. origin contracts shall also contain requirements, information, provisions, and clauses concerning the following items:

(a) Delivery in carload or truckload lots f.o.b. carrier's equipment, wharf, or freight station.

(b) The requirement that the offeror furnish the following information with the offer:

(1) Location of the offeror's actual shipping point(s) (street address, city, State, and ZIP code) from which supplies will be delivered to the Government.

(2) Whether the offeror's shipping point has a private railroad siding, and the name of the rail carrier serving it.

(3) When the offeror's shipping point does not have a private siding, the names and addresses of the nearest public rail siding and of the carrier serving it. (This will enable transportation officers, when issuing routing instructions, to select the mode of transportation that will provide the required service at the lowest possible overall cost.)

(4) (i) The quantity of supplies to be shipped from each shipping point.

(ii) The contracting officer shall insert in f.o.b. origin solicitations the provision at 52.247-46, Shipping Point(s) Used in Evaluation of F.o.b. Origin Offers, when price evaluation for shipments from various shipping points is contemplated.

(c) When delivery is "f.o.b. origin, contractor's facility," and the designated facility is not covered by the line-haul transportation rate, the charges required to deliver the shipment to the point where the line-haul rate is applicable.

(d) When delivery is "f.o.b. origin, freight allowed," the basis on which transportation charges will be allowed, including the origin and destination from and to which transportation charges will be allowed.

(e) If f.o.b. origin offers only are desired, a statement that offers submitted on any other basis will be rejected as nonresponsive.

(f) (1) The methods of transportation used in evaluating offers. The Government normally uses land transportation by regulated common carriers between points in the 48 contiguous United States and the District of Columbia.

(2) The contracting officer shall insert the provision at 52.247-47, Evaluation—F.o.b. Origin, in solicitations that require prices f.o.b. origin for the purpose of

establishing the basis on which offers will be evaluated. Transportation methods other than land may be substituted when evaluating offers; e.g., air, pipeline, barge, or ocean tanker.

(g) (1) When it is believed that prospective contractors are likely to include in f.o.b. origin offers a contingency to compensate for what may be an unfavorable routing condition by the Government at the time of shipment, the contracting officer may permit prospective contractors to state in offers a reimbursable differential that represents the cost of bringing the supplies to any f.o.b. origin place of delivery specified by the Government at the time of shipment (see the clause at 52.247-33, F.o.b. Origin, with Differentials).

(2) Following are situations that might impose on the contractor a substantial cost above "at plant" or "commercial shipping point" prices because of Government-required routings:

(i) The loading nature of the supplies; e.g., wheeled vehicles.

(ii) The different methods of shipment specified by the Government; e.g., towaway, driveaway, tri-level vehicle, or rail car, that may increase the contractor's cost in varying amounts for bringing the supplies to, or loading and bracing the supplies at, the specified place of delivery.

(iii) The contractor's f.o.b. origin shipping point is a port city served by United States inland, coastwise, or intercoastal water transportation, and the contractor would incur additional costs to make delivery f.o.b. a wharf in that city to accommodate water routing specified by the Government.

(iv) The contractor's plant does not have a private rail siding and in order to ship by Government-specified rail routing, the contractor would be required to deliver the supplies to a public siding or freight terminal and to load, brace, and install dunnage in rail cars.

47.305-4 F.o.b. destination solicitations.

(a) When preparing f.o.b destination solicitations, the contracting officer shall refer to 47.303 for the prescription of f.o.b. destination clauses relating to standard delivery terms.

(b) If f.o.b. destination only offers are desired, the solicitation shall state that offers submitted on a basis other than f.o.b. destination will be rejected as nonresponsive.

(c) When supplies will or may be purchased f.o.b. destination but inspection and acceptance will be at origin, the contracting officer shall insert in solicitations and contracts the clause at 52.247-48, F.o.b. Destination—Evidence of Shipment.

47.305-5 Destination unknown.

(a) (1) When destinations are unknown, solicitations shall be f.o.b. origin only.

(2) The contracting officer shall include in the contract file justifications for such solicitations.

(b) (1) When the exact destination of the supplies to be acquired is not known, but the general location of the users can be reasonably established, the acquiring activity shall designate tentative destinations for the purpose of computing transportation costs, showing estimated quantities for each tentative destination.

(2) The contracting officer shall insert in solicitations the provision at 52.247-49, Destination Unknown, when destinations are tentative and only for the purpose of evaluating offers.

(3) If it is necessary to control subsequent shipping weights, the solicitation shall state that subsequent shipments shall be made in carloads or truckloads (see the clause at 52.247-59, F.o.b. Origin—Carload and Truckload Shipments).

(c) (1) When exact destinations are not known and it is impracticable to establish tentative or general delivery places for the purpose of evaluating transportation costs, the contracting officer shall insert in solicitations the provision at 52.247-50, No Evaluation of Transportation Costs.

(2) The solicitation shall also state that the transportation costs of subsequent shipments must be controlled (see, for example, the clause at 52.247-61, F.o.b. Origin—Minimum Size of Shipments).

47.305-6 Shipments to ports and air terminals.

(a) When supplies are acquired on the basis of the delivery terms in 47.303-8 through 47.303-16, the solicitation shall include a requirement that the offeror furnish the Government the following information:

(1) When the delivery term is "f.a.s. vessel, port of shipment," "f.o.b. vessel, port of shipment," or "f.o.b. inland carrier, point of exportation," the required data shall include—

(i) A delivery schedule in number of units and/or long or short tons;

(ii) Maximum quantities available per shipment;

(iii) The quantity that can be made available for loading to vessel per running day of 24 hours (if acquisition involves a commodity to be shipped in bulk);

(iv) The minimum leadtime required to make supplies available for loading to vessel; and

(v) The port and pier or other designation and, when applicable, the maximum draft of vessel (in feet) that can be accommodated.

(2) When the delivery term is "f.o.b. inland point, country of importation" or "f.o.b. designated air carrier's terminal, point of importation," the required data shall include—

(i) A delivery schedule in number of units and/or long or short tons;

(ii) Maximum quantities available per shipment; and

(iii) Other data appropriate to shipment by air carrier.

(3) When the delivery term is "ex dock, pier, or warehouse, port of importation" or "c.& f. destination," the required data shall include—

(i) A delivery schedule in number of units and/or long or short tons;

(ii) Maximum quantities available per shipment; and

(iii) The number of containers or units that can be loaded in a car, truck, or other conveyance of the size normally used (specify type and size) for the commodity.

(4) When the delivery term is "c.i.f. destination," the required data shall include—

(i) The same as specified in 47.305-6(a)(3); and

(ii) The amount and type of marine insurance coverage; e.g., whether the coverage is "With Average" or "Free of Particular Average" and whether it covers any special risks or excludes any of the usual risks associated with the specific commodity involved.

(5) When the delivery term is "f.o.b. designated air carrier's terminal, point of exportation," the required data shall include—

(i) A delivery schedule in number of units, type of package, and individual weight and dimensions of each package;

(ii) Minimum leadtime required to make supplies available for loading into aircraft;

(iii) Name of airport and location to which shipment will be delivered; and

(iv) Other data appropriate to shipment by air carrier.

(b) When supplies are acquired for known destinations outside CONUS and originate within CONUS, the contracting officer shall, for transportation evaluation purposes, note in the solicitation the CONUS port of loading or point of exit (aerial or water) and the water port of debarkation that serves the overseas destination.

(c) The contracting officer may also, for evaluation purposes, list in the

solicitation other CONUS ports that meet the eligibility criteria compatible with the nature and quantity of the supplies, their destination, type of carrier required, and specified overseas delivery dates. This permits offerors that are geographically remote from the port that normally serves the overseas destination to be competitive as far as transportation costs are concerned.

(d) Unless logistics requirements limit the ports of loading to the ports listed in the solicitation, the solicitation shall state that—

(1) Offerors may nominate additional ports (including ports in Alaska and Hawaii) more favorably located to their shipping points; and

(2) These ports will be considered in the evaluation of offers if they possess all requisite capabilities of the listed ports in relation to the supplies being acquired.

(e) When supplies are to be exported through CONUS ports and offers are solicited on an f.o.b. origin or f.o.b. destination basis, the contracting officer shall insert in solicitations the provision at 52.247-51, Evaluation of Export Offers. The contracting officer shall use the provision with its—

(1) Alternate I, when the CONUS ports of export are DOD water terminals;

(2) Alternate II, when offers are solicited on an f.o.b. origin only basis; or

(3) Alternate III, when offers are solicited on an f.o.b. destination only basis.

(f) (1) When the supplies are to move in the Defense Transportation System (DTS) (see 47.301-3), the contract shall specify that—

(i) A Transportation Control Movement Document (TCMD) must be dispatched to the appropriate DOD air or water clearance authority in accordance with MILSTAMP procedures for all shipments consigned to DOD air or water terminal transshipment points; and

(ii) An Export Release must be obtained for supplies to be transshipped via a water port of loading to overseas destinations, except for shipments for which an Export Release is not required, generally shipments of less than 10,000 pounds, (see paragraph 202024 of the Military Traffic Management Regulation (MTMR) (AR 55-355, NAVSUP 4600.70, MCO 4600.14A, AFM 75-2, DLAR 4500.3).

(2) When shipments will be consigned to DOD air or water terminal transshipment points, the contracting officer shall insert in solicitations and contracts the clause at 52.247-52, Clearance and Documentation Requirements—Shipments to DOD Air or Water Terminal Transshipment Points.

(g) When a contract will not generate any shipments that require an Export Release, only the DOD CONUS ports that serve the overseas destination shall be listed in the solicitation (see MILSTAMP at 47.301-3), except that the responsible contracting officer may limit the water ports listed when such limitation is considered necessary to meet delivery or other requirements.

(h) The award shall specify the United States ports of loading that afford the lowest overall cost to the overseas destination.

(i) When supplies will be from origins outside CONUS to destinations either within or outside CONUS, the contracting officer shall use the appropriate f.o.b. term and include evaluation-of-offers information.

(j) In furtherance of the Cargo Preference Act of 1954 (46 U.S.C. 1241(b)), to encourage and foster the American Merchant Marine, the port of delivery of supplies originating outside the United States and shipped by ocean vessel shall be based on the availability of United States-flag vessels between the ports involved, unless the acquiring activity has given other specific instructions. (See Subpart 47.5—Ocean Transportation by U.S.-Flag Vessels.)

(k) For application of the Fly America Act to the transportation of supplies and personnel when the Government is responsible for the transportation costs, see Subpart 47.4—Air Transportation by U.S.-Flag Carriers.

(l) Military and civilian agencies shall obtain assistance from transportation offices in connection with all export shipments (see 47.105).

47.305-7 Quantity analysis, direct delivery, and reduction of crosshauling and backhauling.

(a) *Quantity analysis.* (1) The requiring activity shall consider the acquisition of carload or truckload quantities.

(2) When additional quantities of the supplies being acquired can be transported at lower unit transportation costs or with a relatively small increase in total transportation costs, with no impairment to the program schedule, the contracting officer shall ascertain from the requiring activity whether there is a known requirement for additional quantities. This may be the case, for example, when the additional quantity could profitably be stored by the activity for future use, or could be distributed advantageously to several using activities on the same transportation route or in the same geographical area.

(b) *Direct delivery.* When it is the usual practice of a requiring activity to acquire supplies in large quantities for shipment to a central point and subsequent distribution to using activities, as needed, consideration shall be given, if sufficient quantities are involved to warrant scheduling direct delivery, to the feasibility of providing for direct delivery from the contractor to the using activity, thereby reducing the cost of transportation and handling.

(c) *Crosshauling and backhauling.* The contracting officer shall select distribution and transshipment facilities intermediate to origins and ultimate destinations to reduce crosshauling and backhauling; i.e., the transportation of personal property of the same kind in opposite directions or the return of the property to or through areas previously traversed in shipment.

47.305-8 Consolidation of small shipments and the use of stopoff privileges.

(a) *Consolidation of small shipments.* Consolidation of small shipments into larger lots frequently results in lower transportation costs. Therefore, the contracting officer, after consultation with the transportation office and the activity requiring the supplies, may revise the delivery schedules to provide for deliveries in larger quantities.

(b) *Stopping for partial unloading.* When feasible, schedules for delivery of supplies to multiple destinations shall be consolidated and the stopoff privileges permitted under carrier tariffs shall be used for partial unloading at one or more points directly en route between the point of origin and the last destination.

47.305-9 Commodity description and freight classification.

(a) Generally, the freight rate for supplies is based on the rating applicable to the freight classification description published in tariffs filed with Federal and State regulatory bodies. Therefore, the contracting officer shall show in the solicitation a complete description of the commodity to be acquired and of packing requirements to determine proper transportation charges for the evaluation of offers. If supplies cannot be properly classified through reference to freight classification tariffs or if doubt exists, the contracting officer shall obtain the applicable freight classification from the transportation office. In some situations prospective contractors have established an official freight classification description that can be applied.

(b) (1) When the supplies being acquired are new to the supply system, nonstandard, or modifications of previously shipped items, and different freight classifications may apply, the contracting officer shall insert in solicitations the provision at 52.247-53, Freight Classification Description.

(2) The contracting officer shall alert the transportation officer to the possibility of negotiations for appropriate freight classification ratings and reasonable transportation rates.

(c) The solicitation shall contain adequate descriptions of explosives and other dangerous supplies according to (1) the regular freight classification and (2) the hazardous material description and hazard class as shown in 49 CFR 172.101.

(d) The contracting officer shall furnish the freight classification information developed in 47.305-9(a), (b), and (c) above to the contract administration office.

47.305-10 Packing, marking, and consignment instructions.

(a) Acquisition documents shall include packing and marking requirements necessary to prevent deterioration of supplies and damages due to the hazards of shipping, handling, and storage, and, when appropriate, marking in accordance with the requirements of 49 CFR 172.300.

(b) Contracts shall include complete consignment and marking instructions at the time the contract is awarded to ensure that supplies are delivered to proper destinations without delay. If complete consignment information is not initially known, the contracting officer shall issue amended delivery instructions under the Changes clause of the contract (see 43.205) as soon as the information becomes known.

(c) If necessary to meet required delivery schedules, the contracting officer may issue instructions by telephone, teletype, or telegram. The contracting officer shall confirm these instructions in writing.

(d) Marking and consignment instructions for military shipments shall conform to the current issue of MIL-STD-129 (Military Standard Marking for Shipment and Storage) and other applicable DOD regulations. Shipments for civilian agencies shall be marked as specified in Federal Standard 123, Marking for Domestic Shipment (Civil Agencies).

47.305-11 Options in shipment and delivery.

Although the clauses prescribed in Subpart 43.2 allow certain changes to be made in regard to shipment and delivery, it may be desirable to provide specifically for certain options in the solicitation.

(a) The Government may reserve the right to—

(1) Direct deliveries of all or part of the contract quantity to destinations or to consignees other than those specified in the solicitation and in the contract;

(2) Direct shipments in quantities that may require transportation rates different from those on which the contract price is based; and

(3) Direct shipments by a mode of transportation other than that stipulated in the solicitation and in the contract.

(b) (1) When the transportation charges are for the account of the contractor, and changes in transportation requirements directed by the Government result in an increase or a decrease in transportation costs, an appropriate equitable adjustment shall be made.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-54, Diversion of Shipment under F.o.b. Destination Contracts, when transportation charges are for the account of the contractor and may need adjustments because of diversion of shipments.

47.305-12 Delivery of Government-furnished property.

(a) (1) When Government property is furnished to a contractor and transportation costs to the Government are a factor in the evaluation of offers, the contracting officer shall include in the solicitation a clear description of the property, its location, and other information necessary for the preparation of cost estimates.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-55, F.o.b. Point for Delivery of Government-Furnished Property, when Government property is to be furnished under a contract and the Government will be responsible for transportation arrangements and costs.

(b) The contracting officer shall describe explosive and dangerous material according to (1) the regular freight classification and (2) the hazardous material description and hazard class as shown in 49 CFR 172.101.

47.305-13 Transit arrangements.

(a) *Transit privileges.* (1) Transit arrangements permit the stopping of a carload or truckload shipment at a specific intermediate point en route to the final destination for storage, processing, or other purposes, as specified in carrier tariffs or rate tenders. A single through rate is charged from origin to final destination plus a transit or other related charge, rather than a more expensive combination of rates to and from the transit point.

(2) The contracting officer shall consider possible benefits available to the Government through the use of existing transit arrangements or through efforts to obtain additional transit privileges from the carriers. Solicitations incorporating transit arrangements shall be restricted to f.o.b. origin offers, as f.o.b. destination offers can only quote fixed overall delivered prices at first destination.

(3) (i) Traffic management personnel shall furnish information and analyses of situations in which transit arrangements may be beneficial. The quantity to be awarded must be of sufficient tonnage to ensure that carload/truckload shipments can be made by the contractor, and there should be reasonable certainty that shipments out of the transit point will be requested in carload/truckload quantities.

(ii) The contracting officer shall insert in solicitations the provision at 52.247-56, Transit Arrangements, when benefits may accrue to the Government because transit arrangements may apply.

(b) *Transit credits.* (1) In evaluations of f.o.b. origin offers for large quantities of supplies that contractors normally have in process or storage at intermediate points, contracting officers shall make use of contractors' earned commercial transit credits, which are recorded with the carriers. A transit credit represents the transportation costs for a recorded tonnage from the initial point to an intermediate point. The remaining transportation charges from the intermediate point to the Government destination, because they are based on through rates, are frequently lower than the transportation charges that would apply for the same tonnage if the intermediate point were the initial origin point.

(2) If transit credits apply, the contract shall state that the contractor shall ship the goods on prepaid commercial bills of lading, subject to reimbursement by the Government. The contracting officer shall ensure that this does not preclude a proper change in delivery terms under the Changes clause. The shipments move for the account and at the risk of the Government, as they become Government property at origin.

(3) The contractor shall show the transportation and transit charges as separate amounts on the invoice for each individual shipment. The amount to be reimbursed by the Government shall not exceed the amount quoted in

the offer. Regulations and procedures regarding contractor prepaid transportation charges are prescribed in 42.1403-2.

(4) The contracting officer shall insert in solicitations and contracts the clause at 52.247-57, Transportation Transit Privilege Credits, when supplies are of such a nature, or when it is the custom of the trade, that offerors may have potential transit credits available and the Government may reduce transportation costs through the use of transit credits.

47.305-14 Mode of transportation.

Generally, solicitations shall not specify a particular mode of transportation or a particular carrier. If the use of particular types of carriers is necessary to meet program requirements, the solicitation shall provide that only offers involving the specified types of carriers will be considered. The contracting officer shall obtain all specifications for mode, route, delivery, etc., from the transportation office.

47.305-15 Loading responsibilities of contractors.

(a) (1) Contractors are responsible for loading, blocking, and bracing carload shipments as specified in standards published by the Association of American Railroads.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-58, Loading, Blocking, and Bracing of Freight Car Shipments, when supplies may be shipped in carload lots by rail.

(b) If the nature of the supplies or safety, environmental, or transportability factors require special methods for securing the supplies on the carrier's equipment, or if only a special mode of transportation or type vehicle is appropriate, the contracting officer shall include in solicitations detailed specifications that have been coordinated with the transportation office.

47.305-16 Shipping weights and dimensions.

(a) *Required shipping weights.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-59, F.o.b. Origin—Carload and Truckload Shipments, when it is contemplated that they may result in f.o.b. origin contracts with shipments in carloads or truckloads. This will facilitate realistic freight cost evaluations of offers and ensure that contractors produce economical shipments of agreed size.

(b) *Guaranteed shipping weights and dimensions.* (1) The contracting officer shall insert in solicitations and contracts the clause at 52.247-60, Guaranteed Maximum Shipping Weights and Dimensions, when maximum shipping weights and dimensions of the supplies are required to evaluate offers as to transportation costs. The contracting officer shall use the clause with its Alternate I, when the contracting officer determines that offers not containing guaranteed maximum weights and dimensions will be considered.

(2) The award document shall show the weights and dimensions used in the evaluation.

(c) *Minimum size of shipments.* When volume rates may apply, the contracting officer shall insert in solicitations and contracts the clause at 52.247-61, F.o.b. Origin—Minimum Size of Shipments.

(d) *Specific quantities unknown.*. (1) When total requirements and destinations to which shipments will be made are known, but the specific quantity to be shipped to each destination cannot be predetermined, solicitations shall state that offers are to be submitted on the basis of delivery "f.o.b. origin" and/or "f.o.b. destination" and that offers will be evaluated on both bases.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-62, Specific Quantities Unknown, when total requirements and destinations to which shipments will be made are known, but the specific quantity to be shipped to each destination cannot be predetermined. This clause protects the interests of both the Government and the contractor during the course of the performance of the contract.

47.306 Transportation factors in the evaluation of offers.

When evaluating offers, contracting officers shall consider transportation and transportation-related costs as well as the offerors' shipping and receiving facilities.

47.306-1 Transportation cost determinations.

When requesting the transportation officer to assist in evaluating offers, the contracting officer shall give the transportation officer all pertinent data, including the following information:

(a) A complete description of the commodity being acquired including packaging instructions.

(b) Planned date of award.

(c) Date of initial shipment.

(d) Total quantity to be shipped (including weight and cubic content, when appropriate).

(e) Delivery schedule.

(f) Contract period.

(g) Possible use of transit privileges, including stopoffs for partial loading or unloading, or both.

47.306-2 Lowest overall transportation costs.

(a) For the evaluation of offers, the transportation officer shall give to the contracting officer, and the contracting officer shall use, the lowest available freight rates and related accessorial and incidental charges that (1) are in effect on, or become effective before, the expected date of the initial shipment and (2) are on file or published on the date of the bid opening.

(b) If rates or related charges become available after the bid opening or the due date of offers, they shall not be used in the evaluation unless they cover transportation for which no applicable rates or accessorial or incidental costs were in existence at the time of bid opening or due date of the offers.

47.306-3 Adequacy of loading and unloading facilities.

(a) When determining the transportation capabilities of an offeror, the contracting officer shall consider the type and adequacy of the offeror's shipping facilities, including the ability to consolidate and ship in carload or truckload lots.

(b) The contracting officer shall consider the type and adequacy of the consignee's receiving facilities to avoid shipping schedules that cannot be properly accommodated.

SUBPART 47.4—AIR TRANSPORTATION BY U.S.-FLAG CARRIERS

47.401 Definitions.

"Air freight forwarder" means an indirect air carrier that is responsible for the transportation of property from the point of receipt to the point of destination, and utilizes for the whole or any part of such transportation the services of a direct air carrier or its agent, or of another air freight forwarder.

"Gateway airport abroad" means the airport from which the traveler last embarks en route to the United States or at which the traveler first debarks incident to travel from the United States.

"Gateway airport in the United States" means the last U.S. airport from which the traveler's flight departs or the first U.S. airport at which the traveler's flight arrives.

"International air transportation" means transportation by air between a place in the United States and a place

outside the United States or between two places both of which are outside the United States.

"United States," as used in this subpart, means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and possessions of the United States.

"U.S.-flag air carrier" means an air carrier holding a certificate under section 401 of the Federal Aviation Act of 1958 (49 U.S.C. 1371).

47.402 Policy.

Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 1517) (Fly America Act) requires that Federal employees and their dependents, consultants, contractors, grantees, and others use U.S.-flag air carriers for U.S. Government-financed international air travel and transportation of their personal effects or property, to the extent service by these carriers is available.

47.403 Guidelines for implementation of the Fly America Act.

This section 47.403 is based on the Guidelines for Implementation of the Fly America Act (case number B-138942), issued by the Comptroller General of the United States on March 31, 1981.

47.403-1 Availability and unavailability of U.S.-flag air carrier service.

(a) If a U.S.-flag air carrier cannot provide the international air transportation needed or if the use of U.S.-flag air carrier service would not accomplish an agency's mission, foreign-flag air carrier service may be deemed necessary.

(b) U.S.-flag air carrier service is considered available even though—

(1) Comparable or a different kind of service can be provided at less cost by a foreign-flag air carrier;

(2) Foreign-flag air carrier service is preferred by, or is more convenient for, the agency or traveler; or

(3) Service by a foreign-flag air carrier can be paid for in excess foreign currency (unless U.S.-flag air carriers decline to accept excess or near excess foreign currencies for transportation payable only out of such monies).

(c) Except as provided in paragraph 47.403-1(a), U.S.-flag air carrier service shall be used for U.S. Government-financed commercial foreign air travel if service provided by U.S.-flag air carriers is available. In determining availability of a U.S.-flag air carrier, the following scheduling principles shall be followed unless their application would result in the last or first leg of travel to or from the United States being performed by a foreign-flag air carrier:

(1) U.S.-flag air carrier service available at point of origin shall be used to destination or, in the absence of direct or through service, to the farthest interchange point on a usually traveled route.

(2) When an origin or interchange point is not served by a U.S.-flag air carrier, foreign-flag air carrier service shall be used only to the nearest interchange point on a usually traveled route to connect with U.S.-flag air carrier service.

(3) When a U.S.-flag air carrier involuntarily reroutes the traveler via a foreign-flag air carrier, the foreign-flag air carrier may be used notwithstanding the availability of alternative U.S.-flag air carrier service.

(d) For travel between a gateway airport in the United States and a gateway airport abroad, passenger service by U.S.-flag air carrier shall not be considered available if—

(1) The gateway airport abroad is the traveler's origin or destination airport and the use of U.S.-flag air carrier service would extend the time in a travel status, including delay at origin and accelerated arrival at destination, by at least 24 hours more than travel by a foreign-flag air carrier; or

(2) The gateway airport abroad is an interchange point and the use of U.S.-flag air carrier service would require the traveler to wait 6 hours or more to make connections at that point, or if delayed departure from, or accelerated arrival at, the gateway airport in the United States would extend time in a travel status by at least 6 hours more than travel by a foreign-flag air carrier.

(e) For travel between two points outside the United States, the rules in paragraphs 47.403-1(a), (b), and (c) shall be applicable, but passenger service by a U.S.-flag air carrier shall not be considered to be reasonably available if—

(1) Travel by a foreign-flag air carrier would eliminate two or more aircraft changes en route;

(2) One of the two points abroad is the gateway airport en route to or from the United States and the use of a U.S.-flag air carrier would extend the time in a travel status by at least 6 hours more than travel by a foreign-flag air carrier including delay at origin, delay en route, and accelerated arrival at destination.

(f) For all short-distance travel under either paragraph (d) or paragraph (e) of 47.403-1, U.S. air carrier service shall not be considered available when the elapsed traveltime on a scheduled flight from origin to destination airport by foreign-flag air carrier is 3 hours or less and service by a U.S.-flag air carrier would involve twice such traveltime.

47.403-2 Air transport agreements between the United States and foreign governments.

Nothing in the guidelines of the Comptroller General (see 47.403) shall preclude, and no penalty shall attend, the use of a foreign-flag air carrier that provides transportation under an air transport agreement between the United States and a foreign government, the terms of which are consistent with the international aviation policy goals at 49 U.S.C. 1502(b) and provide reciprocal rights and benefits.

47.403-3 Disallowance of expenditures.

(a) Agencies shall disallow expenditures for U.S. Government-financed commercial international air transportation on foreign-flag air carriers unless there is attached to the appropriate voucher a certificate or memorandum adequately explaining why service by U.S.-flag air carriers was not available, or why it was necessary to use foreign-flag air carriers.

(b) When the travel is by indirect route or the traveler otherwise fails to use available U.S.-flag air carrier service, the amount to be disallowed against the traveler is based on the loss of revenues suffered by U.S.-flag air carriers as determined under the following formula, which is prescribed and more fully explained in 56 Comp. Gen. 209 (1977):

$$\left(\frac{\text{Sum of U.S.-flag carrier segment mileage, authorized}}{\text{Sum of all segment mileage, authorized}} \times \text{Fare payable by Government}\right) \text{ MINUS } \left(\frac{\text{Sum of U.S.-flag carrier segment mileage, traveled}}{\text{Sum of all segment mileage, traveled}} \times \text{Through fare paid}\right)$$

(c) The justification requirement is satisfied by the contractor's use of the certification contained in the clause at 52.247-63, Preference for U.S.-Flag Air Carriers. (See 47.405.)

47.404 Air freight forwarders.

(a) Agencies may use air freight forwarders that are engaged in international air transportation (49 U.S.C. 1301(24)(c)) for U.S. Government-financed movements of property. The rule on disallowance of expenditures in 47.403-3(a) applies also to the air carriers used by these international air freight forwarders.

(b) Agency personnel shall inform international air freight forwarders that to facilitate prompt payments of their bills, they shall submit with their bills (1) a copy of the airway bill or manifest showing the air carriers used and (2) justification certifications for the use of foreign-flag air carriers. A certification similar to the one shown in the clause at 52.247-63, Preference for U.S.-Flag Air Carriers, satisfies the justification requirement.

47.405 Contract clause.

The contracting officer shall insert the clause at 52.247-63, Preference for U.S.-Flag Air Carriers, in solicitations and contracts whenever it is possible that U.S. Government-financed international air transportation of personnel (and their personal effects) or property will be required in the performance of the contract. This clause does not apply to small purchases made under Part 13.

SUBPART 47.5—OCEAN TRANSPORTATION BY U.S.-FLAG VESSELS

47.500 Scope of subpart.

This subpart prescribes policy and procedures for giving preference to U.S.-flag vessels when transportation of supplies by ocean vessel is required.

47.501 Definitions.

"Dry bulk carrier" means a vessel used primarily for the carriage of shipload lots of homogeneous unmarked nonliquid cargoes such as grain, coal, cement, and lumber.

"Dry cargo liner" means a vessel used for the carriage of heterogeneous marked cargoes in parcel lots. However, any cargo may be carried in these vessels, including part cargoes of dry bulk items or, when carried in deep tanks, bulk liquids such as petroleum and vegetable oils.

"Foreign-flag vessel" means any vessel of foreign registry including vessels owned by U.S. citizens but registered in a nation other than the United States.

"Government vessel," as used in this subpart, means a vessel owned by the U.S. Government and operated directly by the Government or for the Government by an agent or contractor, including a privately owned U.S.-flag vessel under bareboat charter to the Government.

"Privately owned U.S.-flag commercial vessel," as used in this subpart, means a vessel (a) registered and operated under the laws of the United States, (b) used in commercial trade of the United States, (c) owned and operated by U.S. citizens, including a vessel under voyage or time charter to the Government, and (d) a Government-owned vessel under bareboat charter to, and operated by, U.S. citizens.

"Tanker" means a vessel used primarily for the carriage of bulk liquid cargoes such as liquid petroleum products, vegetable oils, and molasses.

"U.S.-flag vessel," as used in this subpart, when used independently means either a Government vessel or a privately owned U.S.-flag commercial vessel.

47.502 Policy.

(a) The policy of the United States regarding the use of U.S.-flag vessels is stated in the following acts:

(1) The Cargo Preference Act of 1904 (10 U.S.C. 2631), which requires the Department of Defense to use only U.S.-flag vessels for ocean transportation of supplies for the Army, Navy, Air Force, or Marine Corps unless those vessels are not available at fair and reasonable rates.

(2) The Merchant Marine Act of 1936 (46 U.S.C. 1101), which declares it is the policy of the United States to foster the development and encourage the maintenance of its merchant marine.

(3) The Cargo Preference Act of 1954 (46 U.S.C. 1241(b), which is Section 901(b) of the Merchant Marine Act). Under this Act, Government agencies acquiring, either within or outside the United States, supplies that may require ocean transportation shall ensure that at least 50 percent of the gross tonnage of these supplies (computed separately for dry bulk carriers, dry cargo liners, and tankers) is transported on privately owned U.S.-flag commercial vessels to the extent that such vessels are available at rates that are fair and reasonable for U.S.-flag commercial vessels. This applies when the supplies are—

(i) Acquired for the account of the United States;

(ii) Furnished to, or for the account of, a foreign nation without provision for reimbursement;

(iii) Furnished for the account of a foreign nation in connection with which the United States advances funds or credits, or guarantees the convertibility of foreign currencies; or

(iv) Acquired with advance of funds, loans, or guaranties made by or on behalf of the United States.

(b) Additional policies providing preference for the use of U.S.-flag vessels are contained in—

(1) 10 U.S.C. 2634 for the transporation of privately-owned vehicles belonging to service members when making permanent change of station moves;

(2) 46 U.S.C. 1241(a) for official business travel by officers and employees of the United States and for the transportation of their personal effects; and

(3) 46 U.S.C. 1241(e) for the transportation of motor vehicles owned by Government personnel when transportation is at Government expense or otherwise authorized by law.

(c) The provisions of the Cargo Preference Act of 1954 may be temporarily waived when the Congress, the President, or the Secretary of Defense declares that an emergency justifying a temporary waiver exists and so notifies the appropriate agency or agencies.

47.503 Applicability.

(a) Except as stated in paragraph (b) below and in 47.504, the Cargo Preference Acts of 1904 and 1954 described in 47.502(a) apply to the following cargoes:

(1) Supplies owned by the Government and in the possession of—

(i) The Government;

(ii) A contractor; or

(iii) A subcontractor at any tier.

(2) Supplies for use of the Government that are contracted for and require subsequent delivery to a Government activity but are not owned by the Government at the time of shipment.

(3) Supplies not owned by the Government at the time of shipment that are to be transported for distribution to foreign assistance programs, but only if these supplies are not acquired or contracted for with local currency funds (see 47.504(b)).

(b) Government-owned supplies to be shipped commercially that are (1) in the possession of a department, a contractor, or a subcontractor at any tier and (2) for use of military departments shall be transported exclusively in privately owned U.S.-flag commercial vessels if such vessels are available at rates that are fair and reasonable for U.S.-flag commercial vessels.

(c) The 50-percent requirement shall not prevent the use of privately owned U.S.-flag commercial vessels for transportation of up to 100 percent of the cargo subject to the Cargo Preference Act of 1954.

47.504 Exceptions.

The policy and procedures in this subpart do not apply to the following:

(a) Shipments aboard vessels of the Panama Canal Commission or as required or authorized by law or treaty.

(b) Ocean transportation between foreign countries of supplies purchased with foreign currencies made available, or derived from funds that are made available, under the Foreign Assistance Act of 1961 (22 U.S.C. 2353).

(c) Shipments of classified supplies when the classification prohibits the use of non-Government vessels.

(d) Small purchases under Part 13.

47.505 Construction contracts.

(a) Except as stated in paragraph (b) below, construction contractors, including subcontractors and suppliers, engaged in overseas work shall comply with the policies and regulations in this subpart.

(b) These requirements shall not apply to military assistance, foreign aid, or similar projects under the auspices of the U.S. Government when the recipient nation furnishes, or pays for, at least 50 percent of the transportation, in which event foreign-flag vessels may be used for a portion not to exceed 50 percent of the gross tonnage for the project.

47.506 Procedures.

(a) The contracting officer shall obtain assistance from the transportation activity (see 47.105) in developing appropriate shipping instructions and delivery terms for inclusion in solicitations and contracts that may involve ocean transportation of supplies subject to the requirements of the Cargo Preference Act of 1954 (see 47.502(a)(3)).

(b) When the contractor notifies the contracting officer that a privately owned U.S.-flag commercial vessel is not available, the contracting officer shall seek assistance from the transportation activity.

(c) For purposes of determining the availability of privately owned U.S.-flag commercial vessels at fair and reasonable rates, rates filed and published in accordance with the requirements of the Federal Maritime Commission may be accepted as fair and reasonable. When applicable rates for charter cargoes are not in published tariffs, a determination as to whether the rates are fair and reasonable shall be obtained from the Maritime Administration.

(d) The Maritime Administration has issued regulations (46 CFR 381) that require agencies to submit reports regarding ocean shipments. Contracting officers shall follow agency regulations when preparing, or furnishing information for, these reports.

47.507 Contract clauses.

(a) The contracting officer shall insert the clause at 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels, in solicitations and contracts that may involve ocean transportation of supplies subject to the Cargo Preference Act of 1954. (For application of the Cargo Preference Act of 1954, see 47.502(a)(3), 47.503(a), and 47.504.)

(b) If an applicable statute requires, or if it has been determined under agency procedures, that the supplies to be furnished under contracts shall be transported exclusively in privately owned U.S.-flag commercial vessels (see 47.502(a)(1) and 47.503(b)), use the basic clause with its Alternate I.

(c) If an applicable statute requires, or it has been determined under agency procedures, that supplies, materials, or equipment to be shipped under construction contracts shall be transported exclusively in privately owned U.S.-flag commercial vessels (see 47.505), use the basic clause with its Alternate II.

(d) The contracting officer may insert in solicitations and contracts, under agency procedures, additional appropriate clauses concerning the vessels to be used.

PART 48—VALUE ENGINEERING

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

48.000 Scope of part.

This part prescribes policies and procedures for using and administering value engineering techniques in contracts.

48.001 Definitions.

"Acquisition savings," as used in this part, means saving resulting from the application of a value engineering change proposal (VECP) to contracts awarded by the same contracting office or its successor (and by other contracting offices if included in an extended sharing base under 48.102(e)) for essentially the same unit. Acquisition savings include—

(a) Instant contract savings, which are the net cost reductions on the contract under which the VECP is submitted and accepted, and which are equal to the instant unit cost reduction multiplied by the number of instant contract units affected by the VECP, less the contractor's allowable development and implementation costs;

(b) Concurrent contract savings, which are measurable net reductions in the prices of other contracts that are definitized and ongoing at the time the VECP is accepted; and

(c) Future contract savings, which are the product of the future unit cost reduction multiplied by the number of future contract units scheduled for delivery during the sharing period (but see 48.102(f)). If the instant contract is a multiyear contract, future contract savings include savings on all quantities funded after VECP acceptance.

"Collateral costs," as used in this part, means agency costs of operation, maintenance logistic support, or Government-furnished property.

"Collateral savings," as used in this part, means those measurable net reductions resulting from a VECP in the agency's overall projected collateral costs, exclusive of acquisition savings, whether or not the acquisition cost changes.

"Contracting office," as used in this part, includes any contracting office that the acquisition is transferred to, such as another branch of the agency or another agency's office that is performing a joint acquisition action.

"Contractor's development and implementation costs," as used in this part, means those costs the contractor incurs on a VECP specifically in developing, testing, preparing, and submitting the VECP, as well as those costs the contractor incurs to make the contractual changes required by Government acceptance of a VECP.

"Future unit cost reduction," as used in this part, means the instant unit cost reduction adjusted as the contracting officer considers necessary for projected learning or changes in quantity during the sharing period. It is calculated at the time the VECP is accepted and applies either (a) throughout the sharing period, unless the contracting officer decides that recalculation is necessary because conditions are significantly different from those previously anticipated or (b)

to the calculation of a lump-sum payment, which cannot later be revised.

"Government costs," as used in this part, means those agency costs that result directly from developing and implementing the VECP, such as any net increases in the cost of testing, operations, maintenance, and logistics support. The term does not include the normal administrative costs of processing the VECP or any increase in instant contract cost or price resulting from negative instant contract savings.

"Instant contract," as used in this part, means the contract under which the VECP is submitted. It does not include increases in quantities after acceptance of the VECP that are due to contract modifications, exercise of options, or additional orders. If the contract is a multiyear contract, the term does not include quantities funded after VECP acceptance. In a fixed-price contract with prospective price redetermination, the term refers to the period for which firm prices have been established.

"Instant unit cost reduction" means the amount of the decrease in unit cost of performance (without deducting any contractor's development or implementation costs) resulting from using the VECP on the instant contract. In service contracts, the instant unit cost reduction is normally equal to the number of hours per line-item task saved by using the VECP on the instant contract, multiplied by the appropriate contract labor rate.

"Negative instant contract savings" means the increase in the instant contract cost or price when the acceptance of a VECP results in an excess of the contractor's allowable development and implementation costs over the product of the instant unit cost reduction multiplied by the number of instant contract units affected.

"Net acquisition savings" means total acquisition savings, including instant, concurrent, and future contract savings, less Government costs.

"Sharing base," as used in this part, means the number of affected end items on contracts of the contracting office accepting the VECP or, if the sharing base has been extended under 48.102(e), the number of affected end items on contracts of the contracting offices within the extended base.

"Sharing period," as used in this part, means the period beginning with acceptance of the first unit incorporating the VECP and ending at the later of (a) 3 years after the first unit affected by the VECP is accepted or (b) the last scheduled delivery date of an item affected by the VECP under the instant contract delivery schedule in effect at the time the VECP is accepted (but see 48.102(f)).

"Unit," as used in this part, means the item or task to which the contracting officer and the contractor agree the VECP applies.

"Value engineering change proposal (VECP)" means a proposal that—

(a) Requires a change to the instant contract to implement; and

(b) Results in reducing the overall projected cost to the agency without impairing essential functions or characteristics; *provided*, that it does not involve a change—

(1) In deliverable end item quantities only;

(2) In research and development (R&D) items or R&D test quantities that are due solely to results of previous testing under the instant contract; or

(3) To the contract type only.

SUBPART 48.1—POLICIES AND PROCEDURES

48.101 General.

(a) Value engineering is the formal technique by which contractors may (1) voluntarily suggest methods for performing more economically and share in any resulting savings or (2) be required to establish a program to identify and submit to the Government methods for performing more economically. Value engineering attempts to eliminate, without impairing essential functions or characteristics, anything that increases acquisition, operation, or support costs.

(b) There are two value engineering approaches:

(1) The first is an incentive approach in which contractor participation is voluntary and the contractor uses its own resources to develop and submit any value engineering change proposals (VECP's). The contract provides for sharing of savings and for payment of the contractor's allowable development and implementation costs only if a VECP is accepted. This voluntary approach should not in itself increase costs to the Government.

(2) The second approach is a mandatory program in which the Government requires and pays for a specific value engineering program effort. The contractor must perform value engineering of the scope and level of effort required by the Government's program plan and included as a separately priced item of work in the contract Schedule. Except in architect-engineer contracts, the contractor shares in savings on accepted VECP's, but at a lower percentage rate than under the voluntary approach. The objective of this value engineering program requirement is to ensure that the contractor's value engineering effort is applied to areas of the contract that offer opportunities for considerable savings consistent with the functional requirements of the end item of the contract.

48.102 Policies.

(a) Agencies shall provide contractors a substantial financial incentive to develop and submit VECP's. However, the agency head may elect to exempt the agency completely (or exempt a category of contracts) from the requirements of this Part 48.

(b) Agencies shall provide contractors (1) objective and expeditious processing of VECP's submitted and (2) a fair share of the savings on accepted VECP's.

(c) By requiring incorporation of value engineering clauses in appropriate subcontracts, agencies shall encourage subcontractors to submit VECP's.

(d) Value engineering incentive payments do not constitute profit or fee within the limitations imposed by 10 U.S.C. 2306(d) and 41 U.S.C. 254(b) (see 15.903(e)).

(e) The agency head or a designee shall, to the maximum extent feasible, extend the sharing base to include affected end items on contracts of the entire agency or any part of it by determining in writing that to do so would be more equitable or would significantly increase contractor participation. The agency head or a designee may delegate to the head of a contracting activity authority to extend the sharing base to include the entire contracting activity or any part of it.

(f) In the case of contracts for items requiring an extended period for production (e.g., ship construction, major system acquisition), agencies may prescribe sharing of future contract savings on all future contract units to be delivered under contracts awarded for essentially the same item during the sharing period, even if the scheduled delivery date is outside the sharing period. For engineering-development and low-rate-initial-production contracts, the future sharing shall be on scheduled deliveries equal in number to the quantity required over the highest 36 consecutive months of planned production, based on planning or production documentation at the time the VECP is accepted.

(g) Agencies shall establish procedures for funding and payment of the contractor's share of collateral savings and future contract savings.

48.103 Processing value engineering change proposals.

(a) Instructions to the contractor for preparing a VECP and submitting it to the Government are included in paragraphs (c) and (d) of the value engineering clauses prescribed in Subpart 48.2. Upon receiving a VECP, the contracting officer or other designated official shall promptly process and objectively evaluate the VECP in accordance with agency procedures.

(b) The contracting officer is responsible for accepting or rejecting the VECP within 45 days from its receipt by the Government. If the Government will need more time to evaluate the VECP, the contracting officer shall notify the contractor promptly in writing, giving the reasons and the anticipated decision date. If the VECP is rejected, the contracting officer shall notify the contractor promptly in writing, giving the reasons. A VECP is accepted by a contract modification. The contracting officer shall cite the contract's value engineering clause when modifying the contract to incorporate a VECP or when making any value-engineering-related change.

(c) The following Government decisions are not subject to the Disputes clause or otherwise subject to litigation under the Contract Disputes Act of 1978 (41 U.S.C. 601-613):

(1) The decision to accept or reject a VECP.

(2) The determination of collateral costs or collateral savings.

(3) The decision as to which of the sharing rates applies when Alternate II of the clause at 52.248-1, Value Engineering, is used.

48.104 Sharing arrangements.

48.104-1 Sharing acquisition savings.

(a) *Supply or service contracts.* (1) The sharing base for acquisition savings is normally the number of affected end items on contracts of the contracting office accepting the VECP. When the agency head or designee has extended the sharing base under 48.102(e), the contracting officer shall specify the scope of the extended sharing base in the contract Schedule. The sharing rates (Government/contractor) for net acquisition savings for supplies and services are based on the type of contract, the value engineering clause or alternate used, and the type of savings, as follows:

GOVERNMENT/CONTRACTOR SHARES OF NET ACQUISITION SAVINGS

(figures in percent)

Contract Type	Sharing Arrangement			
	Incentive (voluntary)		Program requirement (mandatory)	
	Instant contract rate	Concurrent and future rate	Instant contract rate	Concurrent and future contract rate
Fixed-price (other than incentive)	50/50	50/50	75/25	75/25
Incentive (fixed-price or cost)	*	50/50	*	75/25
Cost- reimbursement (other than incentive)**	75/25	75/25	85/15	85/15

*Same sharing arrangement as the contract's profit or fee adjustment formula.

**Includes cost-plus-award-fee contracts.

(2) Acquisition savings may be realized on the instant contract, concurrent contracts, and future contracts. The contractor is entitled to a percentage share (see subparagraph (1) above) of any net acquisition savings. Net acquisition savings result when the total of acquisition savings becomes greater than the total of Government costs and any negative instant contract savings. This may occur on the instant contract or it may not occur until reductions have been negotiated on concurrent contracts or until future contract savings are calculated, either through lump-sum payment or as each future contract is awarded. The contractor's profit or fee shall be excluded when calculating instant and future contract savings.

(i) When the instant contract is not an incentive contract, the contractor's share of new acquisition savings is calculated and paid each time such savings are realized. This may occur once, several times, or, in rare cases, not at all.

(ii) When the instant contract is an incentive contract, the contractor shares in instant contract savings through the contract's incentive structure. In calculating acquisition savings under incentive contracts, the contracting officer shall add any negative instant contract savings to the target cost or to the target price and ceiling price and then offset these negative instant contract savings and any Government costs against concurrent and future contract savings.

(3) The contractor shares in the savings on all affected units scheduled for delivery during the sharing period (but see 48.102(f)). The contractor is responsible for maintaining, for 3 years after final payment on the contract under which the VECP was accepted, records adequate to identify the first delivered unit incorporating the applicable VECP.

(4) Contractor shares of savings are paid through the contract under which the VECP was accepted. On incentive contracts, the contractor's share of concurrent and future contract savings and of collateral savings shall be paid as a separate firm-fixed-price contract line item on the instant contract.

(5) Within 3 months after concurrent contracts have been modified to reflect price reductions attributable to use of the VECP, the contracting officer shall modify the instant contract to provide the contractor's share of savings.

(6) The contractor's share of future contract savings may be paid as subsequent contracts are awarded or in a lump-sum payment at the time the VECP is accepted. The lump-sum method may be used only if the contracting officer has established that this is the best way to proceed and the contractor agrees. The contracting officer ordinarily shall make calculations as future contracts are awarded and, within 3 months after their award, modify the instant contract to provide the contractor's share of savings. For future contract savings calculated under the optional lump-sum method, the sharing base is an estimate of the number of items that the contracting office (but see 48.102(e) and subparagraph (1) above) will purchase for delivery during the sharing period. In deciding whether or not to use the more convenient lump-sum method for an individual VECP, the contracting officer shall consider—

(i) The accuracy with which the number of items to be delivered during the sharing period can be estimated and the probability of actual production of the projected quantity;

(ii) The availability of funds for a lump-sum payment; and

(iii) The administrative expense of amending the instant contract as future contracts are awarded.

(b) *Construction contracts.* Sharing on construction contracts applies only to savings on the instant contract and to collateral savings. The contractor's share of savings is determined by subtracting Government costs from instant contract savings and multiplying the result by (1) 55 percent for fixed-price contracts or (2) 25 percent for cost-reimbursement contracts. Value engineering sharing does not apply to incentive construction contracts.

48.104-2 Sharing collateral savings.

(a) The Government shares collateral savings with the contractor, unless the

head of the contracting activity has determined that the cost of calculating and tracking collateral savings will exceed the benefits to be derived (see 48.201(e)).

(b) The contractor's share of collateral savings is 20 percent of the estimated savings to be realized during an average year of use but shall not exceed (1) the contract's firm-fixed-price, target price, target cost, or estimated cost, at the time the VECP is accepted, or (2) $100,000, whichever is greater. In determining collateral savings, the contracting officer shall consider any degradation of performance, service life, or capability. (See 48.104-1(a)(4) for payment of collateral savings through the instant contract.)

48.104-3 Sharing alternative—no-cost settlement method.

To minimize the administrative costs for both parties when there is a known continuing requirement for the unit, consideration should be given to the settlement of a VECP submitted against the VE Incentive clause of the contract at no cost to either party. Under this method of settlement, the contractor would keep all of the savings on the instant contract, and all savings on its concurrent contracts only. The Government would keep all savings resulting from concurrent contracts placed on other sources, savings from all future contracts and all collateral savings. Use of this method must be by mutual agreement of both parties for individual VECPs.

48.105 Relationship to other incentives.

Contractors should be offered the fullest possible range of motivation, yet the benefits of an accepted VECP should not be rewarded both as value engineering shares and under performance, design-to-cost, or similar incentives of the contract. To that end, when performance, design-to-cost, or similar targets are set and incentivized, the targets of such incentives affected by the VECP are not adjusted because of the acceptance of the VECP. Only those benefits of an accepted VECP not rewardable under other incentives are rewarded under a value engineering clause.

SUBPART 48.2—CONTRACT CLAUSES

48.201 Clauses for supply or service contracts.

(a) *General.* The contracting officer shall insert a value engineering clause in solicitations and contracts when the contract amount is expected to be $100,000 or more, except as specified in subparagraphs (1) through (5) and in paragraph (f) below. A value engineering clause may be included in contracts of lesser value if the contracting officer sees a potential for significant savings. Unless the chief of the contracting office authorizes its inclusion, the contracting officer shall *not* include a value engineering clause in solicitations and contracts—

(1) For research and development other than full-scale development;

(2) For engineering services from not-for-profit or nonprofit organizations;

(3) For personal services (see Subpart 37.1);

(4) Providing for product or component improvement, unless the value engineering incentive application is restricted to areas not covered by provisions for product or component improvement;

(5) For commercial products (see Part 11) that do not involve packaging specifications or other special requirements or specifications; or

(6) When the agency head has elected to exempt the agency (or a category of contracts) from the requirements of this Part 48.

(b) *Value engineering incentive.* To provide a value engineering incentive, the contracting officer shall insert the clause at 52.248-1, Value Engineering, in solicitations and contracts except as provided in paragraph (a) above (but see subparagraph (e)(1) below).

(c) *Value engineering program requirement.* (1) If a mandatory value engineering effort is appropriate (i.e., if the contracting officer considers that substantial savings to the Government may result from a sustained value engineering effort of a specified level), the contracting officer shall use the clause with its Alternate I (but see subparagraph (e)(2) below).

(2) The value engineering program requirement may be specified by the Government in the solicitation or, in the case of negotiated contracting, proposed by the contractor as part of its offer and included as a subject for negotiation. The program requirement shall be shown as a separately priced line item in the contract Schedule.

(d) *Value engineering incentive and program requirement.* (1) If both a value engineering incentive and a mandatory program requirement are appropriate, the contracting officer shall use the clause with its Alternate II (but see subparagraph (e)(3) below).

(2) The contract shall restrict the value engineering program requirement to well-defined areas of performance designated by line item in the contract Schedule. Alternate II applies a value engineering program to the specified areas and a value engineering incentive to the remaining areas of the contract.

(e) *Collateral savings computation not cost-effective.* If the head of the contracting activity determines for a contract or class of contracts that the cost of computing and tracking collateral savings will exceed the benefits to be derived, the contracting officer shall use the clause with its—

(1) Alternate III if a value engineering incentive is involved;

(2) Alternate III and Alternate I if a value engineering program requirement is involved; or

(3) Alternate III and Alternate II if *both* an incentive and a program requirement are involved.

(f) *Architect-engineer contracts.* (1) The clause at 52.248-1, Value Engineering, with or without its Alternate III, both of which provide incentive sharing, may be used in solicitations and contracts for architect-engineer services only when specifically authorized by agency acquisition regulations. Alternates I and II, which require a mandatory value engineering effort and provide sharing on accepted VECP's, shall not be used in architect-engineer contracts.

(2) The contracting officer shall insert the clause at 52.248-2, Value Engineering Program—Architect-Engineer, in architect-engineer contracts when a mandatory value engineering program requirement is appropriate (see paragraph (c) above).

(3) When the clause at 52.248-2, Value Engineering Program—Architect-Engineer, is used, the contract schedule shall show the program requirement as a separately priced line item (this clause makes no provision for sharing of savings on accepted VECP's resulting from the program effort).

(g) In no event shall the clause at 52.248-1, Value Engineering, and 52.248-2, Value Engineering Program—Architect Engineer, be used in the same contract.

48.202 Clause for construction contracts.

The contracting officer shall insert the clause at 52.248-3, Value Engineering—Construction, in construction solicitations and contracts when the contract amount is estimated to be $100,000 or more, unless an incentive contract is contemplated. The contracting officer may include the clause in contracts of lesser value if the contracting officer sees a potential for significant savings. The contracting officer shall not include the clause in incentive-type construction contracts. If the head of the contracting activity determines that the cost of computing and tracking collateral savings for a contract will exceed the benefits to be

derived, the contracting officer shall use the clause with its Alternate I.

PART 49—TERMINATION OF CONTRACTS

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

49.000 Scope of part.

This part establishes policies and procedures relating to the complete or partial termination of contracts for the convenience of the Government or for default. It prescribes contract clauses relating to termination and excusable delay and includes instructions for using termination and settlement forms.

49.001 Definitions.

"Claim," as used in this part, means the same as the language in 33.001.

"Continued portion of the contract," as used in this part, means the portion of a partially terminated contract that the contractor must continue to perform.

"Effective date of termination" means the date on which the notice of termination requires the contractor to stop performance under the contract. If the termination notice is received by the contractor subsequent to the date fixed for termination, then the effective date of termination means the date the notice is received.

"Other work," as used in this part, means any current or scheduled work of the contractor, whether Goverment or commercial, other than work related to the terminated contract.

"Partial termination" means the termination of a part, but not all, of the work that has not been completed and accepted under a contract.

"Settlement agreement," as used in this part, means a written agreement in the form of an amendment to a contract

settling all or a severable portion of a settlement proposal.

"Settlement proposal," as used in this part, means a proposal for effecting settlement of a contract terminated in whole or in part, submitted by a contractor or subcontractor in the form, and supported by the data, required by this part. A settlement proposal is included within the generic meaning of the word "claim" under false claims acts (see 18 U.S.C. 287 and 31 U.S.C. 231).

"Terminated portion of the contract" means the portion of a terminated contract that relates to work or end items not completed and accepted before the effective date of termination that the contractor is not to continue to perform. For construction contracts that have been completely terminated for convenience, it means the entire contract, notwithstanding the completion of, and payment for, individual items of work before termination.

"Termination contracting officer" means a contracting officer who is settling terminated contracts (see "Contracting officer" in 2.1).

"Termination inventory" means the same as the language in 45.601.

"Unsettled contract change" means any contract change or contract term for which a definitive modification is required but has not been executed.

49.002 Applicability.

(a) This part applies to contracts that provide for termination for the convenience of the Government or for the default of the contractor (see also 13.504(b)).

(b) Contractors shall use this part, unless inappropriate, to settle subcontracts terminated as a result of modification of prime contracts. The contracting officer shall use this part as a guide in evaluating settlements of subcontracts terminated for the convenience of a contractor whenever the settlement will be the basis of a proposal for reimbursement from the Government under a cost-reimbursement contract.

(c) The contracting officer may use this part in determining an equitable adjustment resulting from a modification under the Changes clause of any contract, except cost-reimbursement contracts.

(d) When action to be taken or authority to be exercised under this part depends upon the "amount" of the settlement proposal, that amount shall be determined by deducting from the gross settlement proposed the amounts payable for completed articles or work at the contract price and amounts for the settlement of subcontractor settlement proposals. Credits for retention or other disposal of termination inventory and amounts for advance or partial payments shall not be deducted.

SUBPART 49.1—GENERAL PRINCIPLES

49.100 Scope of subpart.

(a) This subpart deals with—

(1) The authority and responsibility of contracting officers to terminate contracts in whole or in part for the convenience of the Government or for default;

(2) Duties of the contractor and the contracting officer after issuance of the notice of termination;

(3) General procedures for the settlement of terminated contracts; and

(4) Settlement agreements.

(b) Additional principles applicable to the termination for convenience and settlement of fixed-price and cost-reimbursement contracts are included in Subparts 49.2 and 49.3. Additional principles applicable to the termination of contracts for default are included in Subpart 49.4.

49.101 Authorities and responsibilities.

(a) The termination clauses or other contract clauses authorize contracting officers to terminate contracts for convenience, or for default, and to enter into settlement agreements under this regulation.

(b) The contracting officer shall terminate contracts, whether for default or convenience, only when it is in the Government's interest. The contracting officer shall effect a no-cost settlement instead of issuing a termination notice when (1) it is known that the contractor will accept one, (2) Government property was not furnished, and (3) there are no outstanding payments, debts due the Government, or other contractor obligations.

(c) When the price of the undelivered balance of the contract is less than $2,000, the contract should not normally be terminated for convenience but should be permitted to run to completion.

(d) After the contracting officer issues a notice of termination, the termination contracting officer (TCO) is responsible for negotiating any settlement with the contractor, including a no-cost settlement if appropriate. Auditors and TCO's shall promptly schedule and complete audit reviews and negotiations, giving particular attention to the need for timely action on settlements estimated at less than $100,000 involving small business concerns.

(e) If the same item is under contract with both large and small business concerns and it is necessary to terminate for convenience part of the units still to be delivered, preference shall be given to the continuing performance of small business contracts over large business contracts unless the chief of the contracting office determines that this is not in the Government's interest.

49.102 Notice of termination.

(a) *General.* The contracting officer shall terminate contracts for convenience or default only by a written notice to the contractor (see 49.601). When the notice is mailed, it shall be sent by certified mail, return receipt requested. When the contracting office arranges for hand delivery of the notice, a written acknowledgement shall be obtained from the contractor. The notice shall state—

(1) That the contract is being terminated for the convenience of the Government (or for default) under the contract clause authorizing the termination;

(2) The effective date of termination;

(3) The extent of termination;

(4) Any special instructions; and

(5) The steps the contractor should take to minimize the impact on personnel if the termination, together with all other outstanding terminations, will result in a significant reduction in the contractor's work force (see paragraph (g) of the notice in 49.601-2). If the termination notice is by telegram, include these "steps" in the confirming letter or modification.

(b) *Distribution of copies.* The contracting officer shall simultaneously send the termination notice to the contractor, and a copy to the contract administration office and to any known assignee, guarantor, or surety of the contractor.

(c) *Amendment of termination notice.* The contracting officer may amend a termination notice to—

(1) Correct nonsubstantive mistakes in the notice;

(2) Add supplemental data or instructions; or

(3) Rescind the notice if it is determined that items terminated had been completed or shipped before the contractor's receipt of the notice.

(d) *Reinstatement of terminated contracts.* Upon written consent of the contractor, the contracting office may reinstate the terminated portion of a contract in whole or in part by amending the notice of termination if it has been determined in writing that—

(1) Circumstances clearly indicate a requirement for the terminated items; and

(2) Reinstatement is advantageous to the Government.

49.103 Methods of settlement.

Settlement of terminated cost-reimbursement contracts and fixed-price contracts terminated for convenience may be effected by (a) negotiated agreement, (b) determination by the TCO, (c) costing-out under vouchers using SF 1034, Public Voucher for Purchases and Services Other Than Personal, for cost-reimbursement contracts (as prescribed in Subpart 49.3), or (d) a combination of these methods. When possible, the TCO should negotiate a fair and prompt settlement with the contractor. The TCO shall settle a settlement proposal by determination only when it cannot be settled by agreement.

49.104 Duties of prime contractor after receipt of notice of termination.

After receipt of the notice of termination, the contractor shall comply with the notice and the termination clause of the contract, except as otherwise directed by the TCO. The notice and clause applicable to convenience terminations generally require that the contractor—

(a) Stop work immediately on the terminated portion of the contract and stop placing subcontracts thereunder;

(b) Terminate all subcontracts related to the terminated portion of the prime contract;

(c) Immediately advise the TCO of any special circumstances precluding the stoppage of work;

(d) Perform the continued portion of the contract and submit promptly any request for an equitable adjustment of price for the continued portion, supported by evidence of any increase in the cost, if the termination is partial;

(e) Take necessary or directed action to protect and preserve property in the contractor's possession in which the Government has or may acquire an interest and, as directed by the TCO, deliver the property to the Government;

(f) Promptly notify the TCO in writing of any legal proceedings growing out of any subcontract or other commitment related to the terminated portion of the contract;

(g) Settle outstanding liabilities and proposals arising out of termination of subcontracts, obtaining any approvals or ratifications required by the TCO;

(h) Promptly submit the contractor's own settlement proposal, supported by appropriate schedules; and

(i) Dispose of termination inventory, as directed or authorized by the TCO.

49.105 Duties of termination contracting officer after issuance of notice of termination.

(a) Consistent with the termination clause and the notice of termination, the TCO shall—

(1) Direct the action required of the prime contractor;

(2) Examine the settlement proposal of the prime contractor and, when appropriate, the settlement proposals of subcontractors;

(3) Promptly negotiate settlement with the contractor and enter into a settlement agreement; and

(4) Promptly settle the contractor's settlement proposal by determination for the elements that cannot be agreed on, if unable to negotiate a complete settlement.

(b) To expedite settlement, the TCO may request specially qualified personnel to—

(1) Assist in dealings with the contractor;

(2) Advise on legal and contractual matters;

(3) Conduct accounting reviews and advise and assist on accounting matters; and

(4) Perform the following functions regarding termination inventory (see Subpart 45.6):

(i) Verify its existence.

(ii) Determine qualitative and quantitative allocability.

(iii) Make recommendations concerning serviceability.

(iv) Undertake necessary screening and redistribution.

(v) Assist the contractor in accomplishing other disposition.

(c) The TCO should promptly hold a conference with the contractor to develop a definite program for effecting the settlement. When appropriate in the judgment of the TCO, after consulting with the contractor, principal subcontractors should be requested to attend. Topics that should be discussed at the conference and documented include—

(1) General principles relating to the settlement of any settlement proposal, including obligations of the contractor under the termination clause of the contract;

(2) Extent of the termination, point at which work is stopped, and status of any plans, drawings, and information that would have been delivered had the contract been completed;

(3) Status of any continuing work;

(4) Obligation of the contractor to terminate subcontracts and general principles to be followed in settling subcontractor settlement proposals;

(5) Names of subcontractors involved and the dates termination notices were issued to them;

(6) Contractor personnel handling review and settlement of subcontractor settlement proposals and the methods being used;

(7) Arrangements for transfer of title and delivery to the Government of any material required by the Government;

(8) General principles and procedures to be followed in the protection, preservation, and disposition of the contractor's and subcontractors' termination inventories, including the preparation of termination inventory schedules;

(9) Contractor accounting practices and preparation of SF 1439 (Schedule of Accounting Information (49.602-3);

(10) Form in which to submit settlement proposals;

(11) Accounting review of settlement proposals;

(12) Any requirement for interim financing in the nature of partial payments;

(13) Tentative time schedule for negotiation of the settlement, including submission by the contractor and subcontractors of settlement proposals, termination inventory schedules, and accounting information schedules;

(14) Actions taken by the contractor to minimize impact upon employees affected adversely by the termination (see paragraph (g) of the letter notice in 49.601-2); and

(15) Obligation of the contractor to furnish accurate, complete, and current cost or pricing data, and to certify to that effect in accordance with 15.804-4(h) when the amount of a termination settlement agreement, or a partial termination settlement agreement plus the estimate to complete the continued portion of the contract exceeds the threshold in 15.804.

49.105-1 Termination status reports.

When the TCO and contracting officer are in different activities, the TCO will furnish periodic status reports on termination actions to the contracting office upon request. The contracting office shall specify the information required.

49.105-2 Release of excess funds.

(a) The TCO shall estimate the funds required to settle the termination at the earliest practical date. Based on this estimate, the TCO shall recommend the release of excess funds to the contracting office within 30 days after receipt of the termination notice.

However, unless requested by the contracting office, the TCO shall not recommend amounts under $1,000.

(b) The TCO shall maintain continuous surveillance of required funds to permit timely release of any additional excess funds (a recommended format for release of excess funds is in 49.604). If previous releases of excess funds result in a shortage of the amount required for settlement, the TCO shall inform the contracting office, which shall reinstate the funds within 30 days.

49.105-3 Termination case file.

The TCO responsible for negotiating the final settlement shall establish a separate case file for each termination. This file will include memoranda and records of all actions relative to the settlement (see 4.801).

49.105-4 Cleanup of construction site.

In the case of terminated construction contracts, the contracting officer shall direct action to ensure the cleanup of the site, protection of serviceable materials, removal of hazards, and other action necessary to leave a safe and healthful site.

49.106 Fraud or other criminal conduct.

If the TCO suspects fraud or other criminal conduct related to the settlement of a terminated contract, the TCO shall discontinue negotiations and report the facts under agency procedures.

49.107 Audit of prime contract settlement proposals and subcontract settlements.

(a) The TCO shall refer each prime contractor settlement proposal of $25,000 or more to the appropriate audit agency for review and recommendations. The TCO may submit settlement proposals of less than $25,000 to the audit agency. Referrals shall indicate any specific information or data that the TCO desires and shall include facts and circumstances that will assist the audit agency in performing its function. The audit agency shall develop requested information and may make any further accounting reviews it considers appropriate. After its review, the audit agency shall submit written comments and recommendations to the TCO. When a formal examination of settlement proposals under $25,000 is not warranted, the TCO will perform or have performed a desk review and include a written summary of the review in the termination case file.

(b) The TCO shall refer subcontract settlements received for approval or ratification to the appropriate audit agency for review and recommendations when (1) the amount exceeds $50,000 or (2) the TCO wants a complete or partial accounting review. The audit agency shall submit written comments and recommendations to the TCO. The review by the audit agency does not relieve the prime contractor or higher tier subcontractor of the responsibility for performing an accounting review.

(c) (1) The responsibility of the prime contractor and of each subcontractor (see 49.108) includes performance of accounting reviews and any necessary field audits. However, the TCO should request the Government audit agency to perform the accounting review of a subcontractor's settlement proposal when—

(i) A subcontractor objects, for competitive reasons, to an accounting review of its records by an upper tier contractor;

(ii) The Government audit agency is currently performing audit work at the subcontractor's plant, or can perform the audit more economically or efficiently;

(iii) Audit by the Government is necessary for consistent audit treatment and orderly administration; or

(iv) The contractor has a substantial or controlling financial interest in the subcontractor.

(2) The audit agency should avoid duplication of accounting reviews performed by the upper tier contractor on subcontractor settlement proposals. However, this should not preclude the Government from making additional reviews when appropriate. When the contractor is performing accounting reviews according to this section, the TCO should request the audit agency to periodically examine the contractor's accounting review procedures and performance, and to make appropriate comments and recommendations to the TCO.

(d) The audit report is advisory only, and is for the TCO to use in negotiating a settlement or issuing a unilateral determination. Government personnel handling audit reports must be careful not to reveal privileged information or information that will jeopardize the negotiation position of the Government, the prime contractor, or a higher tier subcontractor. Consistent with this, and when in the Government's interest, the TCO may furnish audit reports under paragraph (c) above to prime and higher tier subcontractors for their use in settling subcontract settlement proposals.

49.108 Settlement of subcontract settlement proposals.

49.108-1 Subcontractor's rights.

A subcontractor has no contractual rights against the Government upon the termination of a prime contract. A subcontractor may have rights against the prime contractor or intermediate subcontractor with whom it has contracted. Upon termination of a prime contract, the prime contractor and each subcontractor are responsible for the prompt settlement of the settlement proposals of their immediate subcontractors.

49.108-2 Prime contractor's rights and obligations.

(a) Termination for convenience clauses provide that after receipt of a termination notice the prime contractor shall, unless directed otherwise by the TCO, terminate all subcontracts to the extent that they relate to the performance of prime work terminated. Therefore, prime contractors should include a termination clause in their subcontracts for their own protection. Suggestions regarding use of subcontract termination clauses are in Subpart 49.5.

(b) The failure of a prime contractor to include an appropriate termination clause in any subcontract, or to exercise the clause rights, shall not—

(1) Affect the Government's right to require the termination of the subcontract; or

(2) Increase the obligation of the Government beyond what it would have been if the subcontract had contained an appropriate clause.

(c) In any case, the reasonableness of the prime contractor's settlement with the subcontractor should normally be measured by the aggregate amount due under paragraph (f) of the subcontract termination clause suggested in 49.502(e). The TCO shall allow reimbursement in excess of that amount only in unusual cases and then only to the extent that the terms of the subcontract did not unreasonably increase the rights of the subcontractor.

49.108-3 Settlement procedure.

(a) Contractors shall settle with subcontractors in general conformity with the policies and principles relating to settlement of prime contracts in this subpart and Subparts 49.2 or 49.3. However, the basis and form of the subcontractor's settlement proposal must be acceptable to the prime contractor or the next higher tier subcontractor. Each settlement must be supported by accounting data and other information sufficient for adequate review by the Government. In no event

will the Government pay the prime contractor any amount for loss of anticipatory profits or consequential damages resulting from the termination of any subcontract (but see 49.108-5).

(b) Except as provided in 49.108-4, the TCO shall require that (1) all subcontractor termination inventory be disposed of and accounted for in accordance with Part 45 and (2) the prime contractor submit, for approval or ratification, all termination settlements with subcontractors. The prime contractor shall certify that the subcontractor settlement proposals have been examined, that they are allocable to the terminated portion of the prime contract, and that the settlements are fair and reasonable, were negotiated in good faith, and are not more favorable to the subcontractors than if the Government were not involved. The contractor shall also certify that all immediate subcontractors have submitted substantially the same certification. For settlements with lower tier subcontractors, the contractor shall certify that there is no information known to the contractor that causes doubt about the reasonableness or allocability of the settlements to the terminated portion of the prime contract.

(c) The TCO shall promptly examine each subcontract settlement received to determine that the subcontract termination was made necessary by the termination of the prime contract (or by issuance of a change order—see 49.002(b)). The TCO will also determine if the settlement was arrived at in good faith, is reasonable in amount, and is allocable to the terminated portion of the contract (or, if allocable only in part, that the proposed allocation is reasonable). In considering the reasonableness of any subcontract settlement, the TCO shall generally be guided by the provisions of this part relating to the settlement of prime contracts, and shall comply with any applicable requirements of 49.107 and 49.111 relating to accounting and other reviews. After the examination, the TCO shall notify the contractor in writing of (1) approval or ratification, or (2) the reasons for disapproval.

49.108-4 Authorization for subcontract settlements without approval or ratification.

(a) (1) The TCO may, upon written request, give written authorization to the prime contractor to conclude settlements of subcontracts terminated in whole or in part without approval or ratification when the amount of settlement (see 49.002(d)) is $25,000 or less, if—

(i) The TCO is satisfied with the adequacy of the procedures used by the contractor in settling settlement proposals, including proposals for retention, sale, or other disposal of termination inventory of the immediate and lower tier subcontractors (the TCO shall obtain the advice and recommendations of (A) the appropriate audit agency relating to the adequacy of the contractor's audit administration, including personnel, and (B) the cognizant plant clearance officer relating to the adequacy of the contractor's procedures and personnel for the administration of property disposal matters);

(ii) Any termination inventory included in determining the amount of the settlement will be disposed of as directed by the prime contractor, generally using the requirements of 45.614, except that the disposition of the inventory shall not (A) be subject to review by the TCO under 49.108-3(c) or 45.607, or (B) be subject to the screening requirements in 45.608; and

(iii) A certificate similar to the certificate in the settlement proposal form in 49.602-1(a) will accompany the settlement.

(2) Except as provided in subparagraph (4) below, authority granted to a prime contractor under subparagraph (1) above by any TCO shall apply to all Executive agencies' prime contracts that are terminated, or modified by change orders.

(3) Except as provided in subparagraph (4) below, the TCO shall accept, as part of the prime contractor's settlement proposal, settlements of terminated lower tier subcontracts concluded by any of the prime contractor's immediate or lower tier subcontractors who have been granted authority as prime contractors to settle subcontracts; *provided*, that the settlement is within the limit of the authority. Authorization to settle proposals of lower tier subcontractors shall not be granted directly to subcontractors. However, a prime contractor authorized to approve subcontractor settlements may also exercise this authority in its capacity as a subcontractor, with respect to its terminated subcontracts and orders. When exercising this authority as a subcontractor, the contractor shall notify the purchaser.

(4) The provisions of subparagraphs (1), (2), and (3) above shall not apply to contracts under the administration of any contracting officer if the contracting officer so notifies the prime contractor concerned. This notice shall (i) be in writing, and (ii) if subparagraph (3) above is involved, specify any subcontractor affected.

(b) Section 45.614 shall apply to disposal of completed end items allocable to the terminated subcontract. However, these items may be disposed of without review by the TCO under 49.108-3 or 45.607, and without screening under 45.608, if the total amount (at the subcontract price) when added to the amount of the settlement does not exceed the amount authorized under this subsection.

(c) A TCO granting the authorization in subparagraph (a)(1) above shall periodically (at least annually) make a selective review of settlements and settlement procedures to determine if the contractor is making adequate reviews and fair settlements, and whether the authorization should remain in effect. The TCO shall obtain the advice and recommendations of the appropriate audit agency and the cognizant plant clearance officer. When it is determined that the contractor's procedures are not adequate, or that improper settlements are being made, or when the authority has not been used in the preceding 2 years, the TCO shall revoke the authorization by written notice to the contractor, effective on the date of receipt.

(d) The contractor may make any number of separate settlements with a single subcontractor but shall not divide settlement proposals solely to bring them under an authorization limit. Separate settlement proposals that would normally be included in a single proposal, such as those based on a series of separate orders for the same item under one contract, shall be consolidated whenever possible.

(e) Upon written request of the contractor, the TCO may increase an authorization granted under subparagraph (a)(1) above to authorize the contractor to conclude settlements between $25,000 and $50,000 under a particular prime contract. The TCO may limit the increased authorization to specific subcontracts or classes of subcontracts.

(f) Authorizations granted under this 49.108-4 shall not authorize the settlement of requisitions or orders placed with any unit within the contractor's corporate entity.

(g) Recommended formats for a request to settle subcontractor settlement proposals and the TCO's letter of authorization to the contractor are in 49.605 and 49.606, respectively.

49.108-5 Recognition of judgments and arbitration awards.

(a) When a subcontractor obtains a final judgment against a prime contractor, the TCO shall, for the purposes of settling the prime contract, treat the amount of the judgment as a cost of settling with the contractor, to the extent the judgment is properly allocable to the terminated portion of the prime contract, if—

(1) The prime contractor has made reasonable efforts to include in the subcontract a termination clause described in 49.502(e), 49.503(c), or a similar clause excluding payment of anticipatory profits or consequential damages;

(2) The provisions of the subcontract relating to the rights of the parties upon its termination are fair and reasonable and do not unreasonably increase the common law rights of the subcontractor;

(3) The contractor made reasonable efforts to settle the settlement proposal of the subcontractor;

(4) The contractor gave prompt notice to the contracting officer of the initiation of the proceedings in which the judgment was rendered and did not refuse to give the Government control of the defense of the proceedings; and

(5) The contractor diligently defended the suit or, if the Government assumed control of the defense of the proceedings, rendered reasonable assistance requested by the Government.

(b) If the conditions in subparagraphs (a)(1) through (5) above are not all met, the TCO may allow the contractor the part of the judgment considered fair for settling the subcontract settlement proposal, giving due regard to the policies in this part for settlement of proposals.

(c) When a contractor and a subcontractor submit the subcontractor's settlement proposal to arbitration under any applicable law or contract provision; the TCO shall recognize the arbitration award as the cost of settling the proposal of the contractor to the same extent and under the same conditions as in paragraphs (a) and (b) above.

49.108-6 Delay in settling subcontractor settlement proposals.

When a prime contractor's inability to settle with a subcontractor delays the settlement of the prime contract, the TCO may settle with the prime contractor. The TCO shall except the subcontractor settlement proposal from the settlement in whole or part and reserve the rights of the Government and the prime contractor with respect to the subcontractor proposal.

49.108-7 Government assistance in settling subcontracts.

In unusual cases the TCO may determine, with the consent of the prime contractor, that it is in the Government's interest to provide assistance to the prime contractor in the settlement of a particular subcontract. In these situations, the Government, the prime contractor, and a subcontractor may enter into an agreement covering the settlement of one or more subcontracts. In these settlements, the subcontractor shall be paid through the prime contractor as part of the overall settlement with the prime contractor.

49.108-8 Assignment of rights under subcontracts.

(a) The termination for convenience clauses in 52.249, except the short-form clauses, obligate the prime contractor to assign to the Government, as directed by the TCO, all rights, titles, and interest under any subcontract terminated because of termination of the prime contract. The TCO shall not require the assignment unless it is in the Government's interest.

(b) The termination for convenience clauses (except the short-form clauses) also provide the Government the right, in its discretion, to settle and pay any settlement proposal arising out of the termination of subcontracts. This right does not obligate the Government to settle and pay settlement proposals of subcontractors. As a general rule, the prime contractor is obligated to settle and pay these proposals. However, when the TCO determines that it is in the Government's interest, the TCO shall, after notifying the contractor, settle the subcontractor's proposal using the procedures for settlement of prime contracts. An example in which the Government's interest would be served is when a subcontractor is a sole source and it appears that a delay by the prime contractor in settlement or payment of the subcontractor's proposal will jeopardize the financial position of the subcontractor. Direct settlements with subcontractors are not encouraged.

49.109 Settlement agreements.

49.109-1 General.

When a termination settlement has been negotiated and all required reviews have been obtained, the contractor and the TCO shall execute a settlement agreement on Standard Form 30 (Amendment of Solicitation/Modification of Contract) (see 49.603). The settlement shall cover (a) any setoffs that the Government has against the contractor that may be applied against the terminated contract and (b) all settlement proposals of subcontractors, except proposals that are specifically excepted from the agreement and reserved for separate settlement.

49.109-2 Reservations.

(a) The TCO shall—

(1) Reserve in the settlement agreement any rights or demands of the parties that are excepted from the settlement;

(2) Ensure that the wording of the reservation does not create any rights for the parties beyond those in existence before execution of the settlement agreement;

(3) Mark each applicable settlement agreement with "This settlement agreement contains a reservation" and retain the contract file until the reservation is removed;

(4) Ensure that sufficient funds are retained to cover complete settlement of the reserved items; and

(5) At the appropriate time, prepare a separate settlement of reserved items and include it in a separate settlement agreement.

(b) A recommended format for settlement of reservations appears in 49.603-9.

49.109-3 Government property.

Before execution of a settlement agreement, the TCO shall determine the accuracy of the Government property account for the terminated contract. If an audit discloses property for which the contractor cannot account, the TCO shall reserve in the settlement agreement the rights of the Government regarding that property or make an appropriate deduction from the amount otherwise due the contractor.

49.109-4 No-cost settlement.

The TCO shall execute a no-cost settlement agreement (see 49.603-6 or 49.603-7, as applicable) if (a) the contractor has not incurred costs for the terminated portion of the contract or (b) the contractor is willing to waive the costs incurred and (c) no amounts are due the Government under the contract.

49.109-5 Partial settlements.

The TCO should attempt to settle in one agreement all rights and liabilities of the parties under the contract except those arising from any continued portion of the contract. Generally, the TCO shall not attempt to make partial settlements covering particular items of the prime contractor's settlement proposal. However, when a TCO cannot promptly complete settlement under the terminated contract, a partial settlement may be entered into if (a) the issues on which agreement has been reached are

clearly severable from other issues and (b) the partial settlement will not prejudice the Government's or contractor's interests in disposing of the unsettled part of the settlement proposal.

49.109-6 Joint settlement of two or more settlement proposals.

(a) With the consent of the contractor, the TCO or TCO's concerned may negotiate jointly two or more termination settlement proposals of the same contractor under different contracts, even though the contracts are with different contracting offices or agencies. In such cases, accounting work shall be consolidated to the greatest extent practical. The resulting settlement may be evidenced by one settlement agreement covering all contracts involved or by a separate agreement for each contract involved.

(b) When the settlement agreement covers more than one contract, it shall (1) clearly identify the contracts involved, (2) assign an amendment modification number to each contract, (3) apportion the total amount of the settlement among the several contracts on some reasonable basis, (4) have attached or incorporated a schedule showing the apportionment, and (5) be distributed and attached to each contract involved in the same manner as other contract modifications.

49.109-7 Settlement by determination.

(a) *General.* If the contractor and TCO cannot agree on a termination settlement, or if a settlement proposal is not submitted within the period required by the termination clause, the TCO shall issue a determination of the amount due consistent with the termination clause, including any cost principles incorporated by reference. The TCO shall comply with 49.109-1 through 49.109-6 in making a settlement by determination and with 49.203 in making an adjustment for loss, if any. Copies of determinations shall receive the same distribution as other contract modifications.

(b) *Notice to contractor.* Before issuing a determination of the amount due the contractor, the TCO shall give the contractor at least 15 days notice by certified mail (return receipt requested) to submit written evidence, so as to reach the TCO on or before a stated date, substantiating the amount previously proposed.

(c) *Justification of settlement proposal.* (1) The contractor has the burden of establishing, by proof satisfactory to the TCO, the amount proposed.

(2) The contractor may submit vouchers, verified transcripts of books of account, affidavits, audit reports, and other documents as desired. The TCO may request the contractor to submit additional documents and data, and may request appropriate accountings, investigations, and audits.

(3) The TCO may accept copies of documents and records without requiring original documents unless there is a question of authenticity.

(4) The TCO may hold any conferences considered appropriate (i) to confer with the contractor, (ii) to obtain additional information from Government personnel or from independent experts, or (iii) to consult persons who have submitted affidavits or reports.

(d) *Determinations.* After reviewing the information available, the TCO shall determine the amount due and shall transmit a copy of the determination to the contractor by certified mail (return receipt requested), or by any other method that provides evidence of receipt. The transmittal letter shall advise the contractor that the determination is a final decision from which the contractor may appeal under the Disputes clause, except as shown in paragraph (f) below. The determination shall specify the amount due the contractor and will be supported by detailed schedules conforming generally to the forms for settlement proposals prescribed in 49.602-1 and by additional information, schedules, and analyses as appropriate. The TCO shall explain each major item of disallowance. The TCO need not reconsider any other action relating to the terminated portion of the contract that was ratified or approved by the TCO or another contracting officer.

(e) *Preservation of evidence.* The TCO shall retain all written evidence and other data relied upon in making a determination, except that copies of original books of account need not be made. The TCO shall return books of account, together with other original papers and documents, to the contractor within a reasonable time.

(f) *Appeals.* The contractor may appeal, under the Disputes clause, any settlement by determination, except when the contractor has failed to submit the settlement proposal within the time provided in the contract and failed to request an extension of time. The pendency of an appeal shall not affect the authority of the TCO to settle the settlement proposal or any part by negotiation with the contractor at any time before the appeal is decided.

(g) *Decision on the contractor's appeal.* The TCO shall give effect to a decision of the Court of Claims or a board of contract appeals, when necessary, by an appropriate modification to the contract. When appropriate, the TCO should obtain a release from the contractor. TCO's are authorized to modify the formats of settlement agreements in 49.603 to agree with this provision.

49.110 Negotiation memorandum.

(a) The TCO shall, at the conclusion of negotiations, prepare a memorandum containing the principal elements of the settlement for inclusion in the termination case file and for use by reviewing authorities.

(b) If the settlement was negotiated on the basis of individual items, the TCO shall specify the factors considered for each item. If the settlement was negotiated on an overall lump-sum basis, the TCO need not evaluate each item or group of items individually, but shall support the total amount of the recommended settlement in reasonable detail. The memorandum shall include explanations of matters involving differences and doubtful questions settled by agreement, and the factors considered. The TCO should include any other matters that will assist reviewing authorities in understanding the basis for the settlement.

49.111 Review of proposed settlements.

Each agency shall establish procedures, when necessary, for the administrative review of proposed termination settlements. When one agency provides termination settlement services for another agency, the agency providing the services shall also perform the settlement review function.

49.112 Payment.

49.112-1 Partial payments.

(a) *General.* If the contract authorizes partial payments on settlement proposals before settlement, a prime contractor may request them on the form prescribed in 49.602-4 at any time after submission of interim or final settlement proposals. The Government will process applications for partial payments promptly. A subcontractor shall submit its application through the prime contractor which shall attach its own invoice and recommendations to the subcontractor's application. Partial payments to a subcontractor shall be made only through the prime contractor and only after the prime contractor has submitted its interim or final settlement proposal. Except for undelivered acceptable finished products, partial payments shall not be made for profit or fee claimed under the terminated

portion of the contract. In exercising discretion on the extent of partial payments to be made, the TCO shall consider the diligence of the contractor in settling with subcontractors and in preparing its own settlement proposal.

(b) *Amount of partial payment.* Before approving any partial payment, the TCO shall obtain any desired accounting, engineering, or other specialized reviews of the data submitted in support of the contractor's settlement proposal. If the reviews and the TCO's examination of the data indicate that the requested partial payment is proper, reasonable payments may be authorized in the discretion of the TCO up to—

(1) 100 percent of the contract price, adjusted for undelivered acceptable items completed before the termination date, or later completed with the approval of the TCO (see 49.205);

(2) 100 percent of the amount of any subcontract settlement paid by the prime contractor if the settlement was approved or ratified by the TCO under 49.108-3(c) or was authorized under 49.108-4;

(3) 90 percent of the direct cost of termination inventory, including costs of raw materials, purchased parts, supplies, and direct labor;

(4) 90 percent of other allowable costs (including settlement expense and manufacturing and administrative indirect costs) allocable to the terminated portion of the contract and not included in subparagraphs (1), (2), or (3) above; and

(5) 100 percent of partial payments made to subcontractors under this section.

(c) *Recognition of assignments.* When an assignment of claims has been made under the contract, the Government shall not make partial payments to other than the assignee unless the parties to the assignment consent in writing (see 32.805(e)).

(d) *Security for partial payments.* If any partial payment is made for completed end items or for costs of termination inventory, the TCO shall protect the Government's interest. This shall be done by obtaining title to the completed end items or termination inventory, or by the creation of a lien in favor of the Government, paramount to all other liens, on the completed end items or termination inventory, or by other appropriate means.

(e) *Deductions in computing amount of partial payments.* The TCO shall deduct from the gross amount of any partial payment otherwise payable under 49.112-1(b)—

(1) All unliquidated balances of progress and advance payments (including interest) made to the contractor, which are allocable to the terminated portion of the contract; and

(2) The amounts of all credits arising from the purchase, retention, or sale of property, the costs of which are included in the application for payment.

(f) *Limitation on total amount.* The total amount of all partial payments shall not exceed the amount that will, in the opinion of the TCO, become due to the contractor because of the termination.

(g) *Effect of overpayment.* If the total of partial payments exceeds the amount finally determined due on the settlement proposal, the contractor shall repay the excess to the Government on demand, together with interest. The interest shall be computed at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2) from the date the excess payment was received by the contractor to the date of repayment. However, interest will not be charged for any (1) excess payment attributable to a reduction in the settlement proposal because of retention or other disposition of termination inventory, until 10 days after the date of the retention or disposition, or a later date determined by the TCO, or (2) overpayment under cost-reimbursement research and development contracts without profit or fee if the overpayments are repaid to the Government within 30 days after demand.

(h) *Certification and approval of partial payments.* (1) The contractor shall place the following certification on vouchers or invoices for partial payments:

The payment covered by this voucher is a partial payment on the Contractor's settlement proposal under contract No. ..... made under Part 49 of the Federal Acquisition Regulation.

(2) The TCO shall approve the invoice or voucher by noting on it the following:

Payment of $..... is approved.

49.112-2 Final payment.

(a) *Negotiated settlement.* After execution of a settlement agreement, the contractor shall submit a voucher or invoice showing the amount agreed upon, less any portion previously paid. The TCO shall attach a copy of the settlement agreement to the voucher or invoice and forward the documents to the disbursing officer for payment.

(b) *Settlement by determination.* If the settlement is by determination and—

(1) There is no appeal within the allowed time, the contractor shall submit a voucher or invoice showing the amount determined due, less any portion previously paid; or

(2) There is an appeal, the contractor shall submit a voucher or invoice showing the amount finally determined due on the appeal, less any portion previously paid. Pending determination of any appeal, the contractor may submit vouchers or invoices for charges that are not directly involved with the portion being appealed, without prejudice to the rights of either party on the appeal.

(c) *Construction contracts.* In the case of construction contracts, before forwarding the final payment voucher, the contracting officer shall ascertain whether there are any outstanding labor violations. If so, the contracting officer shall determine the amount to be withheld from the final payment (see Subpart 22.4).

(d) *Interest.* The Government shall not pay interest on the amount due under a settlement agreement or a settlement by determination. The Government may, however, pay interest on a successful contractor appeal from a contracting officer's determination under the Disputes clause at 52.233-1.

49.113 Cost principles.

The cost principles and procedures in the applicable subpart of Part 31 shall, subject to the general principles in 49.201, (a) be used in asserting, negotiating, or determining costs relevant to termination settlements under contracts with other than educational institutions, and (b) be a guide for the negotiation of settlements under contracts for experimental, developmental, or research work with educational institutions (but see 31.104).

49.114 Unsettled contract changes.

(a) Before settlement of a completely terminated contract, the TCO shall obtain from the contracting office a list of all related unsettled contract changes. The TCO shall settle, as part of final settlement, all unsettled contract changes after obtaining the recommendations of the contracting office concerning the changes.

(b) When the contract has been partially terminated, any outstanding unsettled contract changes will usually be handled by the contracting officer. However, the contracting officer may delegate this function to the TCO.

49.115 Settlement of terminated incentive contracts.

(a) *Fixed-price incentive contracts.* The TCO shall settle terminated fixed-price incentive (FPI) contracts under the provisions of paragraph (j) of the clause at 52.216-16, Incentive Price Revision—Firm Target, and 52.249-2, Termination for Convenience of the Government (Fixed-Price).

(1) *Partial termination.* Under a partially terminated contract, the TCO shall negotiate a settlement as provided in the termination clause of the contract, and paragraph (j) of the clause at 52.216-16, Incentive Price Revision—Firm Target, or paragraph (1) of the clause at 52.216-17, Incentive Price Revision—Successive Targets. The contracting officer shall apply the incentive price revision provisions to completed items accepted by the Government, including any for which the contractor may request reimbursement in the settlement proposal. The TCO shall reimburse the contractor at target price for completed articles included in the settlement proposal for which a final price has not been established. The TCO shall incorporate in the settlement agreement an appropriate reservation as to final price for these completed articles.

(2) *Complete termination.* If any items were delivered and accepted by the Government, the contracting officer shall establish prices under the incentive provisions of the contract. On the terminated portion of the contract, the provisions of the termination clause (see 52.249-2, Termination for Convenience of the Government (Fixed-Price)) shall govern and the provisions of the incentive clause shall not apply. The TCO responsible for the termination settlement will ensure, on the basis of evidence considered proper (including coordination with the contracting officer), that no portion of the costs considered in the negotiations under the incentive provisions are included in the termination settlement.

(b) *Cost-plus-incentive-fee contracts.* The TCO shall settle terminated cost-plus-incentive-fee contracts under the clause at 52.249-6, Termination (Cost-Reimbursement).

(1) *Partial termination.* Under a partial termination, the TCO shall limit the settlement to an adjustment of target fee as provided in paragraph (e) of the clause at 52.216-10, Incentive Fee. The settlement agreement shall include a reservation regarding any adjustment of target cost resulting from the partial termination. The contracting officer shall adjust the target cost, if required.

(2) *Complete termination.* The parties shall negotiate the settlement under the provisions of Subpart 49.3 and the clause at 52.249-6, Termination (Cost-Reimbursement). The fee shall be adjusted on the basis of the target fee, and the incentive provisions shall not be applied or considered.

SUBPART 49.2—ADDITIONAL PRINCIPLES FOR FIXED-PRICE CONTRACTS TERMINATED FOR CONVENIENCE

49.201 General.

(a) A settlement should compensate the contractor fairly for the work done and the preparations made for the terminated portions of the contract, including a reasonable allowance for profit. Fair compensation is a matter of judgment and cannot be measured exactly. In a given case, various methods may be equally appropriate for arriving at fair compensation. The use of business judgment, as distinguished from strict accounting principles, is the heart of a settlement.

(b) The primary objective is to negotiate a settlement by agreement. The parties may agree upon a total amount to be paid the contractor without agreeing on or segregating the particular elements of costs or profit comprising this amount.

(c) Cost and accounting data may provide guides, but are not rigid measures, for ascertaining fair compensation. In appropriate cases, costs may be estimated, differences compromised, and doubtful questions settled by agreement. Other types of data, criteria, or standards may furnish equally reliable guides to fair compensation. The amount of recordkeeping, reporting, and accounting related to the settlement of terminated contracts should be kept to a minimum compatible with the reasonable protection of the public interest.

49.202 Profit.

(a) The TCO shall allow profit on preparations made and work done by the contractor for the terminated portion of the contract but not on the settlement expenses. Anticipatory profits and consequential damages shall not be allowed (but see 49.108-5). Profit for the contractor's efforts in settling subcontractor proposals shall not be based on the dollar amount of the subcontract settlement agreements but the contractor's efforts will be considered in determining the overall rate of profit allowed the contractor. Profit shall not be allowed the contractor for material or services that, as of the effective date of termination, have not been delivered by a subcontractor, regardless of the percentage of completion. The TCO may use any reasonable method to arrive at a fair profit.

(b) In negotiating or determining profit, factors to be considered include—

(1) Extent and difficulty of the work done by the contractor as compared with the total work required by the contract (engineering estimates of the percentage of completion ordinarily should not be required, but if available should be considered);

(2) Engineering work, production scheduling, planning, technical study and supervision, and other necessary services;

(3) Efficiency of the contractor, with particular regard to—

(i) Attainment of quantity and quality production;

(ii) Reduction of costs;

(iii) Economic use of materials, facilities, and manpower; and

(iv) Disposition of termination inventory;

(4) Amount and source of capital and extent of risk assumed;

(5) Inventive and developmental contributions, and cooperation with the Government and other contractors in supplying technical assistance;

(6) Character of the business, including the source and nature of materials and the complexity of manufacturing techniques;

(7) The rate of profit that the contractor would have earned had the contract been completed;

(8) The rate of profit both parties contemplated at the time the contract was negotiated; and

(9) Character and difficulty of subcontracting, including selection, placement, and management of subcontracts, and effort in negotiating settlements of terminated subcontracts.

(c) When computing profit on the terminated portion of a construction contract, the contracting officer shall—

(1) Comply with paragraphs (a) and (b) above;

(2) Allow profit on the prime contractor's settlements with construction subcontractors for actual work in place at the job site; and

(3) Exclude profit on the prime contractor's settlements with construction subcontractors for materials on hand and for preparations made to complete the work.

49.203 Adjustment for loss.

(a) In the negotiation or determination of any settlement, the TCO shall not allow profit if it appears that the contractor would have incurred a loss had the entire contract been completed. The TCO shall negotiate or determine the amount of loss and make an adjustment in the amount of settlement as specified in paragraph (b) or (c) below. In estimating the cost to complete, the TCO shall consider

expected production efficiencies and other factors affecting the cost to complete.

(b) If the settlement is on an inventory basis (see 49.206-2(a)), the contractor shall not be paid more than the total of the amounts in subparagraphs (1), (2), and (3) below, less all disposal credits and all unliquidated advance and progress payments previously made under the contract:

(1) The amount negotiated or determined for settlement expenses.

(2) The contract price, as adjusted, for acceptable completed end items (see 49.205).

(3) The remainder of the settlement amount otherwise agreed upon or determined (including the allocable portion of initial costs (see 31.205-42(c)), reduced by multiplying the remainder by the ratio of (i) the total contract price to (ii) the total cost incurred before termination plus the estimated cost to complete the entire contract.

(c) If the settlement is on a total cost basis (see 49.206-2(b)), the contractor shall not be paid more than the total of the amounts in subparagraphs (1) and (2) below, less all disposal and other credits, all advance and progress payments, and all other amounts previously paid under the contract:

(1) The amount negotiated or determined for settlement expenses.

(2) The remainder of the total settlement amount otherwise agreed upon or determined (lines 7 and 14 of SF 1436, Settlement Proposal (Total Cost Basis)) reduced by multiplying the remainder by the ratio of (i) the total contract price to (ii) the remainder plus the estimated cost to complete the entire contract.

49.204 Deductions.

From the amount payable to the contractor under a settlement, the TCO shall deduct—

(a) The agreed price for any part of the termination inventory purchased or retained by the contractor, and the proceeds from any materials sold that have not been paid or credited to the Government;

(b) The fair value, as determined by the TCO, of any part of the termination inventory that, before transfer of title to the Government or to a buyer under Part 45, is destroyed, lost, stolen, or so damaged as to become undeliverable (normal spoilage is excepted, as is inventory for which the Government has expressly assumed the risk of loss); and

(c) Any other amounts as appropriate in the particular case.

49.205 Completed end items.

(a) Promptly after the effective date of termination, the TCO shall (1) have all undelivered completed end items inspected and accepted if they comply with the contract requirements, and (2) determine which accepted end items are to be delivered under the contract. The contractor shall invoice accepted and delivered end items at the contract price in the usual manner and shall not include them in the settlement proposal. When completed end items, though accepted, are not to be delivered under the contract, the contractor shall include them in the settlement proposal at the contract price, adjusted for any saving of freight or other charges, together with any credits for their purchase, retention, or sale.

(b) Work in place accepted by the Government under a construction contract is not considered a completed item even though that work may have been paid for at unit prices specified in the contract.

49.206 Settlement proposals.

49.206-1 Submission of settlement proposals.

(a) Subject to the provisions of the termination clause, the contractor should promptly submit to the TCO a settlement proposal for the amount claimed because of the termination. The final settlement proposal must be submitted within one year from the effective date of the termination, unless the period is extended by the TCO. Termination charges under a single prime contract involving two or more divisions or units of the prime contractor may be consolidated and included in a single settlement proposal.

(b) The settlement proposal must cover all cost elements including settlements with subcontractors and any proposed profit. With the consent of the TCO, proposals may be filed in successive steps covering separate portions of the contractor's costs. Such interim proposals shall include all costs of a particular type, except as the TCO may authorize otherwise.

(c) Settlement proposals must be on the forms prescribed in 49.602 unless the forms are inadequate for a particular contract. Settlement proposals must be in reasonable detail supported by adequate accounting data. Actual, standard (appropriately adjusted), or average costs may be used in preparing settlement proposals if they are determined under generally recognized accounting principles consistently followed by the contractor. When actual, standard, or average costs are not reasonably available, estimated costs may be used if the method of arriving at the estimates is approved by the TCO. Contractors shall not be required to maintain unduly elaborate cost accounting systems merely because their contracts may subsequently be terminated.

(d) The contractor may use the Settlement Proposal (Short Form), SF 1438 (see 49.602-1(d) and 53.249), when the total proposal is less than $10,000, unless otherwise instructed by the TCO. Settlement proposals that would normally be included in a single settlement proposal; e.g., those based on a series of separate orders for the same item under one contract, should be consolidated whenever possible and not divided to bring them below $10,000.

(e) The Schedule of Accounting Information, SF 1439, must be submitted for each termination under a contract for which a settlement proposal is submitted, except when the Standard Form 1438 is used. Although several interim proposals may be submitted, SF 1439 need be submitted only once unless, subsequent to filing the original form, major changes occur in the information submitted.

49.206-2 Bases for settlement proposals.

(a) *Inventory basis.* (1) Use of the inventory basis for settlement proposals is preferred. Under this basis, the contractor may propose only costs allocable to the terminated portion of the contract, and the settlement proposal must itemize separately—

(i) Metals, raw materials, purchased parts, work in process, finished parts, components, dies, jigs, fixtures, and tooling, at purchase or manufacturing cost;

(ii) Charges such as engineering costs, initial costs, and general administrative costs;

(iii) Costs of settlements with subcontractors;

(iv) Settlement expenses; and

(v) Other proper charges.

(2) An allowance for profit (49.202) or adjustment for loss (49.203(b)) must be made to complete the gross settlement proposal. All unliquidated advance and progress payments and all disposal and other credits known when the proposal is submitted must then be deducted.

(3) This inventory basis is also appropriate for use under the following circumstances:

(i) The partial termination of a construction or related professional services contract.

(ii) The partial or complete termination of supply orders under any terminated construction contract.

(iii) The complete termination of a unit-price (as distinguished from a lump-sum) professional services contract.

(b) *Total cost basis.* (1) When use of the inventory basis is not practicable or will unduly delay settlement, the total-cost basis (SF-1436) may be used if approved in advance by the TCO as in the following examples:

(i) If production has not commenced and the accumulated costs represent planning and preproduction or "get ready" expenses.

(ii) If, under the contractor's accounting system, unit costs for work in process and finished products cannot readily be established.

(iii) If the contract does not specify unit prices.

(iv) If the termination is complete and involves a letter contract.

(2) When the total-cost basis is used under a complete termination, the contractor must itemize all costs incurred under the contract up to the effective date of termination. The costs of settlements with subcontractors and applicable settlement expenses must also be added. An allowance for profit (49.202) or adjustment for loss (49.203(c)) must be made. The contract price for all end items delivered or to be delivered and accepted must be deducted. All unliquidated advance and progress payments and disposal and other credits known when the proposal is submitted must also be deducted.

(3) When the total-cost basis is used under a partial termination, the settlement proposal shall not be submitted until completion of the continued portion of the contract. The settlement proposal must be prepared as in subparagraph (2) above, except that all costs incurred to the date of completion of the continued portion of the contract must be included.

(4) If a construction contract or a lump-sum professional services contract is completely terminated, the contractor shall—

(i) Use the total cost basis of settlement;

(ii) Omit Line 10 "Deduct-Finished Product Invoiced or to be Invoiced" from Section II of Standard Form-1436) Settlement Proposal (Total Cost Basis); and

(iii) Reduce the gross amount of the settlement by the total of all progress and other payments.

(c) *Other basis.* Settlement proposals may not be submitted on any basis other than paragraph (a) or (b) above without the prior approval of the chief of the contracting or contract administration office

49.207 Limitation on settlements.

The total amount payable to the contractor for a settlement, before deducting disposal or other credits and exclusive of settlement costs, must not exceed the contract price less payments otherwise made or to be made under the contract.

49.208 Equitable adjustment after partial termination.

Under the termination clause, after partial termination, a contractor may request an equitable adjustment in the price or prices of the continued portion of a fixed-price contract. The TCO shall forward the proposal to the contracting officer except when negotiation authority is delegated to the TCO. The contractor shall submit the proposal on SF-1411, Contract Pricing Proposal Cover Sheet.

(a) When the contracting officer retains responsibility for negotiating the equitable adjustment and executing a supplemental agreement, the contracting officer shall ensure that no portion of an increase in price is included in a termination settlement made or in process.

(b) The TCO shall also ensure that no portion of the costs included in the equitable adjustment are included in the termination settlement.

SUBPART 49.3—ADDITIONAL PRINCIPLES FOR COST-REIMBURSEMENT CONTRACTS TERMINATED FOR CONVENIENCE

49.301 General.

Termination clauses for cost-reimbursement contracts (see 49.503(a)) provide for the settlement of costs and fee, if any. The contract clauses governing costs shall determine what costs are allowable.

49.302 Discontinuance of vouchers.

(a) When the contract has been completely terminated, the contractor shall not use Standard Form 1034 (Public Voucher for Purchases and Services Other than Personal) after the last day of the sixth month following the month in which the termination is effective. The contractor may elect to stop using vouchers at any time during the 6-month period. When the contractor has vouchered out all costs within the 6-month period, a proposal for fee, if any, may be submitted on SF 1437 (see 49.602-1) or by letter appropriately certified. The contractor must submit a substantiated proposal for fee to the TCO within 1 year from the effective date of termination, unless the period is extended by the TCO. When the use of vouchers is discontinued, the contractor shall submit all unvouchered costs and the proposed fee, if any, as specified in 49.303.

(b) When the contract is partially terminated, 49.304 shall apply.

49.303 Procedure after discontinuing vouchers.

49.303-1 Submission of settlement proposal.

The contractor shall submit a final settlement proposal covering unvouchered costs and any proposed fee to the TCO within 1 year from the effective date of termination, unless the period is extended by the TCO. The contractor shall use the form prescribed in 49.602-1, unless the TCO authorizes otherwise. The proposal shall not include costs that have been—

(a) Finally disallowed by the contracting officer; or

(b) Previously vouchered and formally questioned by the Government but not yet decided as to allowability.

49.303-2 Audit of settlement proposal.

The TCO shall submit the settlement proposal to the appropriate audit agency for review (see 49.107). However, if the settlement proposal is limited to an adjustment of fee, no referral to the audit agency is required.

49.303-3 Adjustment of indirect costs.

(a) If the contract contains the clause at 52.216-7, Allowable Cost and Payment, and it appears that adjustment of indirect costs will unduly delay final settlement, the TCO, after obtaining information from the appropriate audit agency, may agree with the contractor to—

(1) Negotiate the amount of indirect costs for the contract period for which final indirect cost rates have not been negotiated, or to use billing rates as final rates for this period if the billing rates appear reasonable; or

(2) Reserve any indirect cost adjustment in the final settlement agreement, pending establishment of negotiated rates under Subpart 42.7.

(b) When an amount of indirect cost is negotiated under subparagraph (a)(1) above, the contractor shall eliminate the indirect cost and the related direct costs on which it was based from the total pool and base used to compute indirect costs for other contracts performed during the applicable accounting period.

49.303-4 Final settlement.

(a) The TCO shall proceed with the settlement and execution of a settlement agreement upon receipt of the audit report, if applicable, and the contract

audit closing statement covering vouchered costs.

(b) The TCO shall adjust the fee as provided in 49.305.

(c) The final settlement agreement may include all demands of the Government and proposals of the contractor under the terminated contract. However, no amount shall be allowed for any item of cost disallowed by the Government, nor for any other item of cost of the same nature.

(d) If an overall settlement of costs is agreed upon, agreement on each element of cost is not necessary. If appropriate, differences may be compromised and doubtful questions settled by agreement. An overall settlement shall not include costs that are clearly not allowable under the terms of the contract.

49.304 Procedure for partial termination.

49.304-1 General.

(a) In a partial termination, the TCO shall limit the settlement to an adjustment of the fee, if any, and with the concurrence of the contracting office, to a reduction in the estimated cost. The TCO shall adjust the fee as provided in 49.304-2 and 49.305, unless—

(1) The terminated portion is clearly severable from the balance of the contract; or

(2) Performance of the contract is virtually complete, or performance of any continued portion is only on subsidiary items or spare parts, or is otherwise not substantial.

(b) In the case of the exceptions in paragraph (a), the procedures in 49.302 and 49.303 apply.

49.304-2 Submission of settlement proposal (fee only).

The contractor shall limit the settlement proposal to a proposed reduction in the amount of fee. The final settlement proposal shall be submitted to the TCO within one year from the effective date of termination, unless the period is extended by the TCO. The proposal may be submitted in the form prescribed in 49.602-1 or by letter appropriately certified. The contractor shall substantiate the amount of fee claimed (see 49.305).

49.304-3 Submission of vouchers.

When a partial termination settlement is limited to adjustment of fee, the contractor shall continue to submit the SF 1034, Public Voucher for Purchases and Services Other than Personal, for costs reimbursable under the contract. The contractor shall not be reimbursed for costs of settlements with subcontractors unless required approvals or ratifications have been obtained (see 49.108).

49.305 Adjustment of fee.

49.305-1 General.

(a) The TCO shall determine the adjusted fee to be paid, if any, in the manner provided by the contract. The determination is generally based on a percentage of completion of the contract or of the terminated portion. When this basis is used, factors such as the extent and difficulty of the work performed by the contractor (e.g., planning, scheduling, technical study, engineering work production and supervision, placing and supervising subcontracts, and work performed by the contractor in (1) stopping performance, (2) settling terminated subcontracts, and (3) disposing of termination inventory) shall be compared with the total work required by the contract or by the terminated portion. The contractor's adjusted fee shall not include an allowance for fee for subcontract effort included in subcontractors' settlement proposals.

(b) The ratio of costs incurred to the total estimated cost of performing the contract or the terminated portion is only one factor in computing the percentage of completion. This percentage may be either greater or less than that indicated by the ratio of costs incurred, depending upon the evaluation by the TCO of other pertinent factors.

49.305-2 Construction contracts.

(a) The percentage of completion basis refers to the contractor's total effort and not solely to the actual construction work. Generally, the effort of a contractor under a cost-reimbursement construction or professional services contract can be segregated into factors such as (1) mobilization including organization, (2) use of finances, (3) contracting for and receipt of materials, (4) placement of subcontracts, (5) preparation of shop drawings, (6) work in place performed by own forces, (7) supervision of subcontractors' work (8) job administration, and (9) demobilization.

(b) Each of the applicable factors in paragraph (a) above shall be assigned a weighted value depending on its importance and difficulty. The total weight value of all factors should be easily divisible (e.g., by 100) to determine percentages. The percentage of completion of each factor must be established based upon the specific facts of each contract. When totaled, the percentage of completion of each factor applied to the weighted value of each factor results in the overall percentage of contract completion. The percentage of completion is then applied to the total contract fee or to the fee applicable to the terminated portion of the contract to arrive at an equitable adjustment.

SUBPART 49.4—TERMINATION FOR DEFAULT

49.401 General.

(a) Termination for default is generally the exercise of the Government's contractual right to completely or partially terminate a contract because of the contractor's actual or anticipated failure to perform its contractual obligations.

(b) If the contractor can establish, or it is otherwise determined that the contractor was not in default or that the failure to perform is excusable; i.e., arose out of causes beyond the control and without the fault or negligence of the contractor, the default clauses prescribed in 49.503 and located at 52.249 provide that a termination for default will be considered to have been a termination for the convenience of the Government, and the rights and obligations of the parties governed accordingly.

(c) The Government may, in appropriate cases, exercise termination or cancellation rights in addition to those in the contract clauses (see for example, paragraph (h) of the Default clause at 52.249-8).

(d) For default terminations of orders under Federal Supply Schedule contracts, see Subpart 8.4.

(e) Notwithstanding the provisions of this 49.401, the contracting officer may, with the written consent of the contractor, reinstate the terminated contract by amending the notice of termination, after a written determination is made that the supplies or services are still required and reinstatement is advantageous to the Government.

49.402 Termination of fixed-price contracts for default.

49.402-1 The Government's right.

Under contracts containing the Default clause at 52.249-8, the Government has the right, subject to the notice requirements of the clause, to terminate the contract completely or partially for default if the contractor fails to (a) make delivery of the supplies or perform the services within the time specified in the contract, (b) perform any other provision of the contract, or (c) make progress and that failure endangers performance of the contract.

49.402-2 Effect of termination for default.

(a) Under a termination for default, the Government is not liable for the contractor's costs on undelivered work

and is entitled to the repayment of advance and progress payments, if any, applicable to that work. The Government may elect, under the Default clause, to require the contractor to transfer title and deliver to the Government completed supplies and manufacturing materials, as directed by the contracting officer.

(b) The contracting officer shall not use the Default clause as authority to acquire any completed supplies or manufacturing materials unless it has been ascertained that the Government does not already have title under some other provision of the contract. The contracting officer shall acquire manufacturing materials under the Default clause for furnishing to another contractor only after considering the difficulties the other contractor may have in using the materials.

(c) Subject to paragraph (d) below, the Government shall pay the contractor the contract price for any completed supplies, and the amount agreed upon by the contracting officer and the contractor for any manufacturing materials, acquired by the Government under the Default clause.

(d) The Government must be protected from overpayment that might result from failure to provide for the Government's potential liability to laborers and material suppliers for lien rights outstanding against the completed supplies or materials after the Government has paid the contractor for them. To accomplish this, before paying for supplies or materials, the contracting officer shall take one or more of the following measures:

(1) Ascertain whether the payment bonds, if any, furnished by the contractor are adequate to satisfy all lienors' claims or whether it is feasible to obtain similar bonds to cover outstanding liens.

(2) Require the contractor to furnish appropriate statements from laborers and material suppliers disclaiming any lien rights they may have to the supplies and materials.

(3) Obtain appropriate agreement by the Government, the contractor, and lienors ensuring release of the Government from any potential liability to the contractor or lienors.

(4) Withhold from the amount due for the supplies or materials any amount the contracting officer determines necessary to protect the Government's interest, but only if the measures in subparagraphs (d)(1), (2), and (3) above cannot be accomplished or are considered inadequate.

(5) Take other appropriate action considering the circumstances and the degree of the contractor's solvency.

(e) The contractor is liable to the Government for any excess costs incurred in acquiring supplies and services similar to those terminated for default (see 49.402-6), and for any other damages, whether or not repurchase is effected (see 49.402-7).

49.402-3 Procedure for default.

(a) When a default termination is being considered, the Government shall decide which type of termination action to take (i.e., default, convenience, or no-cost cancellation) only after review by contracting and technical personnel, and by counsel, to ensure the propriety of the proposed action.

(b) The administrative contracting officer shall not issue a show cause notice or cure notice without the prior approval of the contracting office, which should be obtained by the most expeditious means.

(c) Subdivision (a)(1)(i) of the Default clause covers situations when the contractor has defaulted by failure to make delivery of the supplies or to perform the services within the specified time. In these situations, no notice of failure or of the possibility of termination for default is required to be sent to the contractor before the actual notice of termination (but see paragraph (e) below). However, if the Government has taken any action that might be construed as a waiver of the contract delivery or performance date, the contracting officer shall send a notice to the contractor setting a new date for the contractor to make delivery or complete performance. The notice shall reserve the Government's rights under the Default clause.

(d) Subdivisions (a)(1)(ii) and (a)(1)(iii) of the Default clause cover situations when the contractor fails to perform some of the other provisions of the contract (such as not furnishing a required performance bond) or so fails to make progress as to endanger performance of the contract. If the termination is predicated upon this type of failure, the contracting officer shall give the contractor written notice specifying the failure and providing a period of 10 days (or longer period as necessary) in which to cure the failure. When appropriate, this notice may be made a part of the notice described in subparagraph (e)(1) below. Upon expiration of the 10 days (or longer period), the contracting officer may issue a notice of termination for default unless it is determined that the failure to perform has been cured. A format for a cure notice is in 49.607.

(e) (1) If termination for default appears appropriate, the contracting officer should, if practicable, notify the contractor in writing of the possibility of the termination. This notice shall call the contractor's attention to the contractual liabilities if the contract is terminated for default, and request the contractor to show cause why the contract should not be terminated for default. The notice may further state that failure of the contractor to present an explanation may be taken as an admission that no valid explanation exists. When appropriate, the notice may invite the contractor to discuss the matter at a conference. A format for a show cause notice is in 49.607.

(2) When a termination for default appears imminent, the contracting officer may provide a written notification of that fact (not an actual notice of default) to the surety.

(3) If requested by the surety, and agreed to by the contractor and any assignees, arrangements may be made to have future checks mailed to the contractor in care of the surety. In this case, the contractor must forward a written request to the designated disbursing officer specifically directing a change in address for mailing checks.

(4) If the contractor is a small business firm, the contracting officer shall immediately provide a copy of any cure notice or show cause notice to the contracting office's small business specialist and the Small Business Administration Regional Office nearest the contractor. The contracting officer should, whenever practicable, consult with the small business specialist before proceeding with a default termination (see also 49.402-4).

(f) The contracting officer shall consider the following factors in determining whether to terminate a contract for default:

(1) The terms of the contract and applicable laws and regulations.

(2) The specific failure of the contractor and the excuses for the failure.

(3) The availability of the supplies or services from other sources.

(4) The urgency of the need for the supplies or services and the period of time required to obtain them from other sources, as compared with the time delivery could be obtained from the delinquent contractor.

(5) The degree of essentiality of the contractor in the Government acquisition program and the effect of a termination for default upon the contractor's capability as a supplier under other contracts.

(6) The effect of a termination for default on the ability of the contractor to liquidate guaranteed loans, progress payments, or advance payments.

(7) Any other pertinent facts and circumstances.

(g) If, after compliance with the procedures in paragraphs (a) through (f) of this 49.402-3, the contracting officer determines that a termination for default is proper, the contracting officer shall issue a notice of termination stating—

(1) The contract number and date;

(2) The acts or omissions constituting the default;

(3) That the contractor's right to proceed further under the contract (or a specified portion of the contract) is terminated;

(4) That the supplies or services terminated may be purchased against the contractor's account, and that the contractor will be held liable for any excess costs;

(5) If the contracting officer has determined that the failure to perform is not excusable, that the notice of termination constitutes such decision, and that the contractor has the right to appeal such decision under the Disputes clause;

(6) That the Government reserves all rights and remedies provided by law or under the contract, in addition to charging excess costs; and

(7) That the notice constitutes a decision that the contractor is in default as specified and that the contractor has the right to appeal under the Disputes clause.

(h) The contracting officer shall make the same distribution of the termination notice as was made of the contract. A copy shall also be furnished to the contractor's surety, if any, when the notice is furnished to the contractor. The surety should be requested to advise if it desires to arrange for completion of the work. In addition, the contracting officer shall notify the disbursing officer to withhold further payments under the terminated contract, pending further advice, which should be furnished at the earliest practicable time.

(i) In the case of a construction contract, promptly after issuance of the termination notice, the contracting officer shall determine the manner in which the work is to be completed and whether the materials, appliances, and plant that are on the site will be needed.

(j) If the contracting officer determines before issuing the termination notice that the failure to perform is excusable, the contract shall not be terminated for default. If termination is in the Government's interest, the contracting officer may terminate the contract for the convenience of the Government.

(k) If the contracting officer has not been able to determine, before issuance of the notice of termination whether the contractor's failure to perform is excusable, the contracting officer shall make a written decision on that point as soon as practicable after issuance of the notice of termination. The decision shall be delivered promptly to the contractor with a notification that the contractor has the right to appeal as specified in the Disputes clause.

49.402-4 Procedure in lieu of termination for default.

The following courses of action, among others, are available to the contracting officer in lieu of termination for default when in the Government's interest:

(a) Permit the contractor, the surety, or the guarantor, to continue performance of the contract under a revised delivery schedule.

(b) Permit the contractor to continue performance of the contract by means of a subcontract or other business arrangement with an acceptable third party, provided the rights of the Government are adequately preserved.

(c) If the requirement for the supplies and services in the contract no longer exists, and the contractor is not liable to the Government for damages as provided in 49.402-7, execute a no-cost termination settlement agreement using the formats in 49.603-6 and 49.603-7 as a guide.

49.402-5 Memorandum by the contracting officer.

When a contract is terminated for default or a procedure authorized by 49.402-4 is followed, the contracting officer shall prepare a memorandum for the contract file explaining the reasons for the action taken.

49.402-6 Repurchase against contractor's account.

(a) When the supplies or services are still required after termination, the contracting officer shall repurchase the same or similar supplies or services against the contractor's account as soon as practicable. The contracting officer shall repurchase at as reasonable a price as practicable, considering the quality and delivery requirements. The contracting officer may repurchase a quantity in excess of the undelivered quantity terminated for default when the excess quantity is needed, but excess cost may not be charged against the defaulting contractor for more than the undelivered quantity terminated for default (including variations in quantity permitted by the terminated contract). Generally, the contracting officer will make a decision whether or not to repurchase before issuing the termination notice.

(b) If the repurchase is for a quantity not over the undelivered quantity terminated for default, the statutory requirements for formal advertising are inapplicable. However, the contracting officer shall use formal advertising procedures unless there is a good reason to negotiate. If the contracting officer decides to negotiate the repurchase contract, any appropriate negotiation authority in Subpart 15.2 may be used. If none of the negotiation authorities is used, the contracting officer shall cite the Default clause as the authority. If the repurchase is for a quantity over the undelivered quantity terminated for default, the contracting officer shall treat the entire quantity as a new acquisition.

(c) If repurchase is made at a price over the price of the supplies or services terminated, the contracting officer shall, after completion and final payment of the repurchase contract, make a written demand on the contractor for the total amount of the excess, giving consideration to any increases or decreases in other costs such as transportation, discounts, etc. If the contractor fails to make payment, the contracting officer shall follow the procedures in Subpart 32.6 for collecting contract debts due the Government.

49.402-7 Other damages.

(a) If a contract is terminated for default or if a course of action in lieu of termination for default is followed (see 49.402-4), the contracting officer shall promptly ascertain and make demand for any liquidated damages to which the Government is entitled under the contract. Under the contract clauses for liquidated damages at 52.212-4, these damages are in addition to any excess repurchase costs.

(b) If the Government has suffered any other ascertainable damages as a result of the contractor's default, the contracting officer shall, on the basis of legal advice, take appropriate action as prescribed in Subpart 32.6 to assert the Government's demand for the damages.

49.403 Termination of cost-reimbursement contracts for default.

(a) The right to terminate a cost-reimbursement contract for default is provided for in the Termination for Default or for Convenience of the Government clause at 52.249-6. A 10-day notice to the contractor before termination for default is required in every case by the clause.

(b) Settlement of a cost-reimbursement contract terminated for default is subject to the principles in Subparts 49.1 and 49.3 the same as when a contract is terminated for convenience, except that—

(1) The costs of preparing the contractor's settlement proposal are not allowable (see subparagraph (g)(3) of the clause); and

(2) The contractor is reimbursed the allowable costs, and an appropriate reduction is made in the total fee, if any, (see subparagraph (g)(4) of the clause).

(c) The contracting officer shall use the procedures in 49.402 to the extent appropriate in considering the termination for default of a cost-reimbursement contract. However, a cost-reimbursement contract does not contain any provision for recovery of excess repurchase costs after termination for default (but see paragraph (g) of the clause at 52.246-3 with respect to failure of the contractor to replace or correct defective supplies).

49.404 Surety-takeover agreements.

(a) The procedures in this section apply primarily, but not solely, to fixed-price construction contracts terminated for default.

(b) Because of the surety's liability for damages resulting from the contractor's default, the surety has certain rights and interests in the completion of the contract work and application of any undisbursed funds. Accordingly, the contracting officer shall carefully consider proposals by the surety concerning completion of the work. The contracting officer shall take action on the basis of the Government's interest, including the possible effect of the action upon the Government's rights against the surety.

(c) If the surety offers to complete the contract work, this should normally be permitted unless the contracting officer has reason to believe that the persons or firms proposed by the surety to complete the work are not competent and qualified and the interests of the Government would be substantially prejudiced.

(d) Because of the possibility of conflicting demands for unpaid prior earnings (retained percentages and unpaid progress estimates) of the defaulting contractor, the surety may condition its offer of completion upon the execution by the Government of a "takeover" agreement fixing the surety's rights to payment from those funds. In that event, the contracting officer may (but not before the effective date of termination) enter into a written agreement with the surety. The contracting officer should consider including in the agreement both the surety and the defaulting contractor in order to eliminate any disagreement concerning the contractor's residual rights, including assertions to unpaid prior earnings.

(e) The agreement shall provide for the surety to complete the work according to all the terms and conditions of the contract and for the Government to pay the surety the balance of the contract price unpaid at the time of default, but not in excess of the surety's costs and expenses, in the manner provided by the contract subject to the following conditions:

(1) Any unpaid earnings of the defaulting contractor, including retained percentages and progress estimates for work accomplished before termination, shall be subject to debts due the Government by the contractor, except to the extent that such unpaid earnings may be required to permit payment to the completing surety of its actual costs and expenses incurred in the completion of the work, exclusive of its payments and obligations under the payment bond given in connection with the contract.

(2) The agreement shall not waive or release the Government's right to liquidated damages for delays in completion of the work, except to the extent that they are excusable under the contract.

(3) If the contract proceeds have been assigned to a financing institution, the surety may not be paid from unpaid earnings, unless the assignee consents to the payment in writing.

(4) The surety shall not be paid any amount in excess of its total expenditures necessarily made in completing the work and discharging its liabilities under the payment bond of the defaulting contractor. Furthermore, payments to the surety to reimburse it for discharging its liabilities under the payment bond of the defaulting contractor shall be only on authority of—

(i) Mutual agreement between the Government, the defaulting contractor, and the surety;

(ii) Determination of the Comptroller General as to payee and amount; or

(iii) Order of a court of competent jurisdiction.

49.405 Completion by another contractor.

If the surety does not arrange for completion of the contract, the contracting officer normally will arrange for completion of the work by awarding a new contract based on the same plans and specifications. The new contract may be the result of formal advertising or negotiation, as appropriate under the circumstances. The contracting officer shall exercise reasonable diligence to obtain the lowest price available for completion.

49.406 Liquidation of liability.

The contract provides that the contractor and the surety are liable to the Government for resultant damages. The contracting officer shall use all retained percentages of progress payments previously made to the contractor and any progress payments due for work completed before the termination to liquidate the contractor's and the surety's liability to the Government. If the retained and unpaid amounts are insufficient, the contracting officer shall take steps to recover the additional sum from the contractor and the surety.

SUBPART 49.5—CONTRACT TERMINATION CLAUSES

49.501 General.

This subpart prescribes the principal contract termination clauses. In appropriate cases, agencies may authorize the use of special purpose clauses, if consistent with this regulation.

49.502 Termination for convenience of the Government.

(a) *Fixed-price contracts of $100,000 or less (short form).*

(1) *General use.* The contracting officer shall insert the clause at 52.249-1, Termination for Convenience of the Government (Fixed-Price) (Short Form), in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to be $100,000 or less, except (i) if use of the clause at 52.249-4, Termination for Convenience of the Government (Services) (Short Form) is appropriate, (ii) in contracts for research and development work with an educational or nonprofit institution on a no-profit basis, (iii) in contracts for architect-engineer services, or (iv) if one of the clauses prescribed or cited at 49.505(a), (b), or (e), is appropriate.

(2) *Dismantling and demolition.* If the contract is for dismantling, demolition, or removal of improvements, the contracting officer shall use the clause with its Alternate I.

(b) *Fixed-price contracts over $100,000.*

(1) (i) *General use.* The contracting officer shall insert the clause at 52.249-2, Termination for Convenience of the Government (Fixed-Price), in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to be over $100,000, except in contracts for (i) dismantling and demolition, (ii) research and development work with an educational or nonprofit institution on a

no-profit basis, or (iii) architect-engineer services; it shall not be used if the clause at 52.249-4, Termination for Convenience of the Government (Services) (Short Form), is appropriate (see 49.502(c)), or one of the clauses prescribed or cited at 49.505(a), (b), or (e), is appropriate.

(ii) *Construction.* If the contract is for construction, the contracting officer shall use the clause with its Alternate I.

(iii) *Partial payments.* If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate II. In such contracts for construction, the contracting officer shall use the clause with its Alternate III.

(2) *Dismantling and demolition.* The contracting officer shall insert the clause at 52.249-3, Termination for Convenience of the Government (Dismantling, Demolition, or Removal of Improvements) in solicitations and contracts for dismantling, demolition, or removal of improvements, when a fixed-price contract is contemplated and the contract amount is expected to be over $100,000. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate I.

(c) *Service contracts (short form).* The contracting officer shall insert the clause at 52.249-4, Termination for Convenience of the Government (Services) (Short Form), in solicitations and contracts for services, regardless of value, when a fixed-price contract is contemplated and the contracting officer determines that because of the kind of services required, the successful offeror will not incur substantial charges in preparation for and in carrying out the contract, and would, if terminated for the convenience of the Government, limit termination settlement charges to services rendered before the date of termination. Examples of services where this clause may be appropriate are contracts for rental of unreserved parking space, laundry and drycleaning, etc.

(d) *Research and development contracts.* The contracting officer shall insert the clause at 52.249-5, Termination for the Convenience of the Government (Educational and Other Nonprofit Institutions), in solicitations and contracts when either a fixed-price or cost-reimbursement contract is contemplated for research and development work with an educational or nonprofit institution on a no-profit or no-fee basis.

(e) *Subcontracts.* (1) *General use.* The prime contractor may find the clause at 52.249-1, Termination for Convenience of the Government (Fixed-Price) (Short Form), or at 52.249-2, Termination for Convenience of the Government (Fixed-Price), as appropriate, suitable for use in fixed-price subcontracts, except as noted in subparagraph (2) below; *provided*, that the relationship between the contractor and subcontractor is clearly indicated. Inapplicable conditions (e.g., paragraph (c)) in 52.249-2 should be deleted and the periods reduced for submitting the subcontractor's termination settlement proposal (e.g., 6 months), and for requesting an equitable price adjustment (e.g., 45 days).

(2) *Research and development.* The prime contractor may find the clause at 52.249-5, Termination for the Convenience of the Government (Educational and Other Nonprofit Institutions), suitable for use in subcontracts placed with educational or nonprofit institutions on a no-profit or no-fee basis; *provided*, that the relationship between the contractor and subcontractor is clearly indicated. Inapplicable conditions (e.g., paragraph (g)) should be deleted, the period for submitting the subcontractor's termination settlement proposal should be reduced (e.g., 6 months), the subcontract should be placed on a no-profit or no-fee basis, and the subcontract should incorporate or be negotiated on the basis of the cost principles in Part 31 of the Federal Acquisition Regulation.

49.503 Termination for convenience of the Government and default.

(a) *Cost-reimbursement contracts.*

(1) *General use.* The contracting officer shall insert the clause at 52.249-6, Termination (Cost-Reimbursement), in solicitations and contracts when a cost-reimbursement contract is contemplated, except in contracts for architect-engineer services and for research and development with an educational or nonprofit institution on a no-fee basis.

(2) *Construction.* If the contract is for construction, the contracting officer shall use the clause with its Alternate I.

(3) *Partial payments.* If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate II. In such contracts for construction, the contracting officer shall use the clause with its Alternate III.

(4) *Time-and-material and labor-hour contracts.* If the contract is a time-and-material or labor-hour contract, the contracting officer shall use the clause with its Alternate IV. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate V.

(b) *Fixed-price contracts.* The contracting officer shall insert the clause at 52.249-7, Termination (Fixed-Price Architect-Engineer), in solicitations and contracts for architect-engineer services, when a fixed-price contract is contemplated.

(c) *Subcontracts.* The prime contractor may find the clause at 52.249-6, Termination (Cost-Reimbursement), suitable for use in cost-reimbursement subcontracts; *provided*, that the relationship between the contractor and subcontractor is clearly indicated. Inapplicable conditions (e.g., paragraphs (d), (i) and (m)) should be deleted and the period for submitting the subcontractor's termination settlement proposal should be reduced (e.g., 6 months).

49.504 Termination of fixed-price contracts for default.

(a) (1) *Supplies and services.* The contracting officer shall insert the clause at 52.249-8, Default (Fixed-Price Supply and Service), in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may use the clause when the contract amount is not expected to exceed the small purchase limitation, if appropriate (e.g., if the acquisition involves items with a history of unsatisfactory quality).

(2) *Transportation.* If the contract is for transportation or transportation-related services, the contracting officer shall use the clause with its Alternate I.

(b) *Research and development.* The contracting officer shall insert the clause at 52.249-9, Default (Fixed-Price Research and Development), in solicitations and contracts for research and development when a fixed-price contract is contemplated and the

contract amount is expected to exceed the small purchase limitation, except those with educational or nonprofit institutions on a no-profit basis. The contracting officer may use the clause when the contract amount is not expected to exceed the small purchase limitation, if appropriate (e.g., if the contracting officer believes that key personnel essential to the work may be devoted to other programs).

(c) (1) *Construction.* The contracting officer shall insert the clause at 52.249-10, Default (Fixed-Price Construction), in solicitations and contracts for construction, when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may use the clause when the contract amount is not expected to exceed the small purchase limitation, if appropriate (e.g., if completion dates are essential).

(2) *Dismantling and demolition.* If the contract is for dismantling, demolition, or removal of improvements, the contracting officer shall use the clause with its Alternate I.

(3) *National emergencies.* If the contract is to be awarded during a period of national emergency, the contracting officer may use the clause (i) with its Alternate II when a fixed-price contract for construction is contemplated, or (ii) with its Alternate III when a contract for dismantling, demolition, or removal of improvements is contemplated.

49.505 Other termination clauses.

(a) *Facilities.* The contracting officer shall insert the clause at 52.249-11, Termination of Work (Consolidated Facilities or Facilities Acquisition), in consolidated facilities contracts and facilities acquisition contracts. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate I.

(b) *Personal service contracts.* The contracting officer shall insert the clause at 52.249-12, Termination (Personal Services), in solicitations and contracts for personal services (see Part 37).

(c) *Failure to perform.* The contracting officer shall insert the clause at 52.249-13, Failure to Perform, in facilities contracts, except facilities use contracts with nonprofit educational institutions.

(d) *Excusable delays.* The contracting officer shall insert the clause at 52.249-14, Excusable Delays, in solicitations and contracts for supplies, services, construction, and research and development on a fee basis, when a cost-reimbursement contract is contemplated. The contracting officer shall also insert the clause in time-and-material contracts, labor-hour contracts, consolidated facilities contracts, and facilities acquisition contracts.

(e) *Communication service contracts.* This regulation does not prescribe a clause for the cancellation or termination of orders under communication service contracts with common carriers because of special agency requirements that apply to these services. An appropriate clause, however, shall be prescribed at agency level, within those agencies contracting for these services.

SUBPART 49.6—CONTRACT TERMINATION FORMS AND FORMATS

49.601 Notice of termination for convenience.

(See 49.402-3(g) for notice of termination for default.)

49.601-1 Telegraphic notice.

(a) *Complete termination.* The following telegraphic notice is suggested for use if a supply contract is being completely terminated for convenience. If appropriately modified, the notice may be used for other than supply contracts.

DATE.....
XYZ Corporation
New York, NY 12345

Contract No. ..... is completely terminated under clause ....., effective ..... [*insert* "immediately" *or* "on ..... 19..", *or* "as soon as you have delivered, including prior deliveries, the following items:" (*list*)]. Immediately stop all work, terminate subcontracts, and place no further orders except to the extent [*insert if applicable* "necessary to complete items not terminated or"] that you or a subcontractor wish to retain and continue for your own account any work-in-process or other materials. Telegraph similar instructions to all subcontractors and suppliers. Detailed instructions follow.

.....
Contracting Officer

(b) *Partial termination.* The following telegraphic notice is suggested for use if a supply contract is being partially terminated for convenience. If appropriately modified, the notice may be used for other than supply contracts.

DATE.....
XYZ Corporation
New York, NY 12345

Contract No. ..... is partially terminated under clause ..... effective ..... [*insert* "immediately" *or* "on ....., 19.."]. Reduce items to be delivered as follows: [*insert instructions*]. Immediately stop all work, terminate subcontracts, and place no further orders except as necessary to perform the portion not terminated or that you or a subcontractor wish to retain and continue for your account any work-in-process or other materials. Telegraph similar instructions to all subcontractors and suppliers. Detailed instructions follow.

.....
Contracting Officer

49.601-2 Letter notice.

The following letter notice of termination is suggested for use if a contract for supplies is being terminated for convenience. With appropriate modifications, it may be used in terminating contracts for other than supplies and in terminating subcontracts. This notice shall be sent by certified mail, return receipt requested. If no prior telegraphic notice was issued, use the alternate notice that follows this notice.

NOTICE OF TERMINATION TO PRIME CONTRACTORS

[*At the top of the notice, set out all special details relating to the particular termination; e.g., name and address of company, contract number of terminated contract, items, etc.*]

(a) *Effective date of termination.* This confirms the Government's telegram to you dated ....., 19....., terminating ..... [*insert* "completely" *or* "in part"] Contract No. ..... (referred to as "the contract") for the Government's convenience under the clause entitled ..... [*insert title of appropriate termination clause*]. The termination is effective on the date and in the manner stated in the telegram.

(b) *Cessation of work and notification to immediate subcontractors.* You shall take the following steps:

(1) Stop all work, make no further shipments, and place no further orders relating to the contract, except for—

(i) The continued portion of the contract, if any;

(ii) Work-in-process or other materials that you may wish to retain for your own account; or

(iii) Work-in-process that the Contracting Officer authorizes you to continue (A) for safety precautions, (B) to clear or avoid damage to equipment, (C) to avoid immediate complete spoilage of work-in-process having a definite commercial value, or (D) to prevent any other undue loss to the Government. (If you believe this authorization is necessary or advisable, immediately notify the Contracting Officer by telephone or personal conference and obtain instructions.)

(2) Keep adequate records of your compliance with subparagraph (1) above showing the—

(i) Date you received the Notice of Termination;

(ii) Effective date of the termination; and

(iii) Extent of completion of performance on the effective date.

(3) Furnish notice of termination to each immediate subcontractor and supplier that will be affected by this termination. In the notice—

(i) Specify your Government contract number;

(ii) State whether the contract has been terminated completely or partially;

(iii) Provide instructions to stop all work, make no further shipments, place no further orders, and terminate all subcontracts under the contract, subject to the exceptions in subparagraph (1) above;

(iv) Provide instructions to submit any settlement proposal promptly; and

(v) Request that similar notices and instructions be given to its immediate subcontractors.

(4) Notify the Contracting Officer of all pending legal proceedings that are based on subcontracts or purchase orders under the contract, or in which a lien has been or may be placed against termination inventory to be reported to the Government. Also, promptly notify the Contracting Officer of any such proceedings that are filed after receipt of this Notice.

(5) Take any other action required by the Contracting Officer or under the Termination clause in the contract.

(c) *Termination inventory.* (1) As instructed by the Contracting Officer, transfer title and deliver to the Government all termination inventory of the following types or classes, including subcontractor termination inventory that you have the right to take: [*Contracting Officer insert proper identification or* "None"].

(2) To settle your proposal, it will be necessary to establish that all prime and subcontractor termination inventory has been properly accounted for. For detailed information, see Part 45.

(d) *Settlements with subcontractors.* You remain liable to your subcontractors and suppliers for proposals arising because of the termination of their subcontracts or orders. You are requested to settle these settlement proposals as promptly as possible. For purposes of reimbursement by the Government, settlements will be governed by the provisions of Part 49.

(e) *Completed end items.* (1) Notify the Contracting Officer of the number of items completed under the contract and still on hand and arrange for their delivery or other disposal (see 49.205).

(2) Invoice acceptable completed end items under the contract in the usual way and do not include them in the settlement proposal.

(f) *Patents.* If required by the contract, promptly forward the following to the Contracting Officer:

(1) Disclosure of all inventions, discoveries, and patent applications made in the performance of the contract.

(2) Instruments of license or assignment on all inventions, discoveries, and patent applications made in the performance of the contract.

(g) *Employees affected.* (1) If this termination, together with other outstanding terminations, will necessitate a significant reduction in your work force, you are urged to—

(i) Promptly inform the local State Employment Service of your reduction-in-force schedule in numbers and occupations, so that the Service can take timely action in assisting displaced workers;

(ii) Give affected employees maximum practical advance notice of the employment reduction and inform them of the facilities and services available to them through the local State Employment Service offices;

(iii) Advise affected employees to file applications with the State Employment Service to qualify for unemployment insurance, if necessary;

(iv) Inform officials of local unions having agreements with you of the impending reduction-in-force; and

(v) Inform the local Chamber of Commerce and other appropriate organizations which are prepared to offer practical assistance in finding employment for displaced workers of the impending reduction-in-force.

(2) If practicable, urge subcontractors to take similar actions to those described in subparagraph (1) above.

(h) *Administrative.* The contract administration office named in the contract will identify the Contracting Officer who will be in charge of the settlement of this termination and who will, upon request, provide the necessary settlement forms. Matters not covered by this notice should be brought to the attention of the undersigned.

(i) Please acknowledge receipt of this notice as provided below.

(Title)

(End of notice)

Alternate notice. If no prior telegraphic notice was issued, substitute the following paragraph (a) for paragraph (a) of the notice above:

(a) *Effective date of termination.* You are notified that Contract No. ..... (referred to as "the contract") is terminated ..... [*insert* "completely" *or* "in part"] for the Government's convenience under the clause entitled ..... [*insert title of appropriate termination clause*]. The termination is effective ..... [*insert either* "immediately upon receipt of this Notice" *or* "on ....., 19...," *or* "as soon as you have delivered, including prior deliveries, the following items:" (*list*)]. Reduce items to be delivered as follows: [*insert instructions*].

49.602 Forms for settlement of terminated contracts.

The standard forms listed below shall be used for settling terminated prime contracts. The forms at 49.602-1 and 49.602-2 may also be used for settling terminated subcontracts. Standard forms are illustrated in Subpart 53.3.

49.602-1 Termination settlement proposal forms.

(a) Standard Form 1435, Settlement Proposal (Inventory Basis), shall be used to submit settlement proposals resulting from the termination of fixed-price contracts if the proposals are computed on an inventory basis (see 49.206-2(a)).

(b) Standard Form 1436, Settlement Proposal (Total Cost Basis), shall be used to submit settlement proposals resulting from the termination of fixed-price contracts if the proposals are computed on a total cost basis (see 49.206-2(b)).

(c) Standard Form 1437, Settlement Proposal for Cost-Reimbursement Type Contracts, shall be used to submit settlement proposals resulting from the termination of cost-reimbursement contracts (see 49.302).

(d) Standard Form 1438, Settlement Proposal (Short Form), shall be used to submit settlement proposals resulting from the termination of fixed-price contracts if the total proposal is less than $10,000 (see 49.206-1(d)).

49.602-2 Inventory schedule forms.

The following forms shall be used to support settlement proposals submitted on the forms specified in 49.602-1(a), (b), and (c) (see 45.606):

(a) Standard Form 1426, Inventory Schedule A (Metals in Mill Product Form), and Standard Form 1427, Inventory Schedule A - Continuation Sheet (Metals in Mill Product Form).

(b) Standard Form 1428, Inventory Schedule B, and Standard Form 1429, Inventory Schedule B - Continuation Sheet (used for reporting raw materials, purchased parts, finished components, finished product, plant equipment, and miscellaneous inventory).

(c) Standard Form 1430, Inventory Schedule C - (Work-in-Process), and

Standard Form 1431, Inventory Schedule C - Continuation Sheet (Work-in-Process).

(d) Standard Form 1432, Inventory Schedule D (Special Tooling and Special Test Equipment), and Standard Form 1433, Inventory Schedule D - Continuation Sheet (Special Tooling and Special Test Equipment).

(e) Standard Form 1434, Termination Inventory Schedule E (Short Form for use with SF 1438 Only).

49.602-3 Schedule of accounting information.

Standard Form 1439, Schedule of Accounting Information, shall be filed in support of a settlement proposal unless the proposal is filed on Standard Form 1438, Settlement Proposal (Short Form) (see 49.206-1(e)).

49.602-4 Partial payments.

Standard Form 1440, Application for Partial Payment, shall be used to apply for partial payments (see 49.112-1).

49.602-5 Settlement agreement.

Standard Form 30 (SF 30), Amendment of Solicitation/Modification of Contract, shall be used to execute a settlement agreement (see 49.109-1).

49.603 Formats for termination for convenience settlement agreements.

The formats to be used for termination for convenience settlement agreements should be substantially as shown in this section (see 49.109). Termination contracting officers (TCO's) may, however, modify the contents of these agreements to conform with special termination clauses prescribed or authorized by their agencies (e.g., see 49.501 and 49.505(e)).

49.603-1 Fixed-price contracts—complete termination.

[*Insert the following in Block 14 of SF 30 for settlements of fixed-price contracts completely terminated.*]

(a) This supplemental agreement settles the settlement proposal resulting from the Notice of Termination dated ..... .

(b) The parties agree to the following:

(1) The Contractor certifies that all contract termination inventory (including scrap) has been retained or acquired by the Contractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits have been used in arriving at this agreement.

(2) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by this agreement, has furnished the Contractor a certificate stating (i) that all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and (ii) that the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(3) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(4) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Contractor has received, or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(5) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(6) (i) The Contractor has received $..... for work and services performed, or items delivered, under the completed portion of the contract. The Government confirms the right of the Contractor, subject to paragraph (7) below, to retain this sum and agrees that it constitutes a portion of the total amount to which the Contractor is entitled in settlement of the contract.

(ii) Further, the Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, the sum of $..... [*insert net amount of settlement*], arrived at by deducting from the sum of $..... [*for proposals on an inventory basis insert gross amount of settlement; for proposals on a total cost basis, insert gross amount of settlement less amount shown in subdivision (6)(i) above*], (A) the amount of $..... for all unliquidated partial or progress payments previously made to the Contractor or its assignee and all unliquidated advance payments (with any interest) and (B) the amount of $..... for all applicable property disposal credits [*insert if appropriate,* "and (C) the amount of $..... for all other amounts due the Government under this contract, except as provided in paragraph (7) below"].

(iii) The net settlement of $..... in subdivision (ii) above, together with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor for the complete termination of the contract and of all other demands and liabilities of the Contractor and the Government under the contract except as provided in paragraph (7) below.

(7) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved:

[*The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.*]

(i) All rights and liabilities, if any, of the parties, as to matters covered by and regulations made implementing 10 U.S.C. 2382, as amended, and any other renegotiation authority.

(ii) All rights of the Government to take the benefit of agreements or judgments affecting royalties paid or payable in connection with the performance of the contract.

(iii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, employment of aliens, and "officials not to benefit." [*If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress*

or Executive Orders, the suggested language should be appropriately modified.]

(iv) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(v) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(vi) All rights and liabilities of the parties under the contract relating to any contract termination inventory stored for the Government.

(vii) All rights and liabilities of the parties under agreements relating to the future care and disposition by the Contractor of Government-owned property remaining in the Contractor's custody.

(viii) All rights and liabilities of the parties relating to Government property furnished to the Contractor for the performance of this contract.

(ix) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, and covenants of indemnity.

(x) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

49.603-2 Fixed-price contracts—partial termination.

[*Insert the following in Block 14 of SF 30 for settlements of fixed-price contracts partially terminated.*]

(a) This supplemental agreement settles the settlement proposal resulting from the Notice of Termination dated ..... .

(b) The parties agree to the following:

(1) The terminated portion of the contract is as follows: [*specify the terminated portion clearly as to (i) item numbers, (ii) descriptions, (iii) quantity terminated, (iv) unit price of items, (v) total price of terminated items, and (vi) any other explanation necessary to avoid uncertainty or misunderstanding*].

(2) The Contractor certifies that all contract termination inventory (including scrap) has been retained or acquired by the Contractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits have been used in arriving at this agreement.

(3) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by this agreement, has furnished the Contractor a certificate stating (i) that all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and (ii) that the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(4) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(5) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Contractor has received, or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(6) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(7) (i) The Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, the sum of $..... [*insert net amount of settlement*], arrived at by deducting from $..... [*insert gross amount of settlement*], (A) the amount of $..... for all unliquidated partial or progress payments previously made to the Contractor or its assignee and all unliquidated advance payments (with any interest) applicable to the terminated portion of the contract and (B) the amount of $..... for all applicable property disposal credits.

(ii) The net settlement of $..... in subdivision (i) above, together with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor for the terminated portion of the contract, except as provided in subparagraph (8) below.

(iii) Upon payment of the net settlement of $....., all obligations of the Contractor to perform further work or services or to make further deliveries under the terminated portion of the contract and all obligations of the Government to make further payments or carry out other undertakings concerning the terminated portion of the contract shall cease; *provided*, that nothing in this agreement shall impair or affect any covenants, terms, or conditions of the contract relating to the completed or continued portion of this contract.

(8) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved:

[*The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.*]

(i) All rights and liabilities, if any, of the parties, as to matters covered by, and regulations made implementing 10 U.S.C. 2382, as amended, and any other renegotiation authority.

(ii) All rights of the Government to take the benefit of agreements or judgments affecting royalties paid or payable in connection with the performance of the contract.

(iii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees,

domestic articles, employment of aliens, and "officials not to benefit." [*If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.*]

(iv) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(v) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(vi) All rights and liabilities of the parties under the contract relating to any contract termination inventory stored for the Government.

(vii) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

49.603-3 Cost-reimbursement contracts—complete termination, if settlement includes cost.

[*Insert the following in Block 14 of SF 30 for settlement of cost-reimbursement contracts that are completely terminated, if settlement includes costs.*]

(a) This supplemental agreement settles the settlement proposal resulting from the Notice of Termination dated ..... .

(b) The parties agree to the following:

(1) The Contractor certifies that all contract termination inventory (including scrap) has been retained or acquired by the Contractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits have been used in arriving at this agreement.

(2) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by this agreement, has furnished the Contractor a certificate stating (i) that all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and (ii) that the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(3) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(4) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Contractor has received, or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(5) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(6) (i) The Contractor has received $..... for work and services performed, or articles delivered, under the contract before the effective date of termination. The Government confirms the right of the Contractor, subject to paragraph (7) below, to retain this sum and agrees that it constitutes a portion of the total amount to which the Contractor is entitled in complete and final settlement of the contract.

(ii) Further, the Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, the sum of $..... [*insert net amount of settlement*], arrived at by deducting from the sum of $..... [*insert gross amount of settlement less amount shown in subdivision (6)(i) above*] (A) the amount of $..... for all unliquidated partial or progress payments previously made to the Contractor or its assignee and all unliquidated advance payments (with any interest), (B) the amount of $..... for all applicable property disposal credits [*insert if appropriate,* "and (C) the amount of $..... for all other amounts due the Government under this contract, except as provided in paragraph (7) below."]

(iii) The net settlement of $..... in subdivision (ii) above, together with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor for the complete termination of the contract and of all other demands and liabilities of the Contractor and the Government under the contract, except as provided in paragraph (7) below.

(7) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved:

[*The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.*]

(i) All rights and liabilities, if any, of the parties, as to matters covered by, and regulations made implementing 10 U.S.C. 2382, as amended, and any other renegotiation authority.

(ii) All rights of the Government to take the benefit of agreements or judgments affecting royalties paid or payable in connection with the performance of the contract.

(iii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, employment of aliens, and "officials not to benefit." [*If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.*]

(iv) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against

patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(v) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(vi) All rights and liabilities of the parties under the contract relating to any contract termination inventory stored for the Government.

(vii) All rights and liabilities of the parties under agreements relating to the future care and disposition by the Contractor of Government-owned property remaining in the Contractor's custody.

(viii) All rights and liabilities of the parties relating to Government property furnished to the Contractor for the performance of this contract.

(ix) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, and covenants of indemnity.

(x) Unresolved demands or assertions by the Contractor against the Government for costs under General Accounting Office exceptions or other costs of the same nature that are excluded from the settlement without prejudice to the rights of either party, as follows: [*Insert amount and describe charges not waived.*]

(xi) Claims by the Contractor against the Government, when the Contractor's rights of reimbursement are disputed, that are excluded without prejudice to the rights of either party are as follows: [*Insert the amounts and describe the claims on which the Contracting Officer has made findings and has disallowed and on which the Contractor has taken, or intends to take, timely appeal.*]

(xii) Unresolved demands or assertions by the Contractor against the Government that are unknown in amount and involve costs alleged to be reimbursable under the contract are as follows: [*Insert the estimated amounts and describe the charges.*]

(xiii) Unknown amounts alleged by the Contractor against the Government, based upon responsibility of the Contractor to third parties that involve costs reimbursable under the contract.

(xiv) Debts due the Government by the Contractor that are based on refunds, rebates, credits, or other amounts not now known to the Government, with interest, now due or that may become due the Contractor from third parties, if the amounts arise out of transactions for which reimbursement has been made to the Contractor under the contract. The Contractor shall pay to the Government, within 30 days after receipt, any of these amounts that become due from any third party or any other source. Interest at the rate established by the Secretary of the Treasury under 50 U.S.C. (App.) 1215(b)(2) shall accrue and shall be paid to the Government on any amounts that remain unpaid after the 30-day period.

(xv) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

49.603-4 Cost-reimbursement contracts—complete termination, with settlement limited to fee.

[*Insert the following in Block 14 of SF 30 for settlement of cost-reimbursement contracts that are completely terminated, if settlement is limited to fee.*]

(a) This supplemental agreement settles the amount of fee due under the contract, terminated in its entirety by Notice of Termination dated ..... .

(b) The parties agree to the following:

(1) The Contractor has received $..... on account of its fee under the contract before the effective date of termination.

(2) The Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, $..... [*insert net amount to be paid on account of fee*]. This sum, with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor on account of its fee under the contract.

(3) The Contractor's allowable costs under the contract will be paid under the terms and conditions of the contract and Parts 31 and 49 of the Federal Acquisition Regulation.

[*Insert subparagraph (3) only if there are costs to be vouchered out (see 49.302) or if there are costs to be covered later by a separate settlement agreement.*]

(4) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved:

[*The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.*]

(i) All rights and liabilities, if any, of the parties, as to matters covered by, and regulations made implementing 10 U.S.C. 2382, as amended, and any other renegotiation authority.

(ii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, employment of aliens, and "officials not to benefit." [*If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.*]

(iii) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(iv) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(v) All rights and liabilities of the parties under agreements relating to the future care and disposition by the Contractor of Government-owned property remaining in the Contractor's custody.

(vi) All rights and liabilities of the parties relating to Government property furnished to, or acquired by, the Contractor for the performance of the contract.

(vii) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, and covenants of indemnity.

(viii) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

49.603-5 Cost-reimbursement contracts—partial termination.

[*Insert the following in Block 14 of SF 30, Amendment of Solicitation/Modification of Contract, for settlement agreements for cost-reimbursement contracts as a result of partial termination.*]

(a) This supplemental agreement settles the termination settlement proposal resulting from the Notice of Termination dated ..... .

(b) The parties agree as follows:

(1) The contract is amended by deleting the terminated portion as follows: [*specify the terminated portion clearly as to (i) item numbers, (ii) descriptions, (iii) quantity terminated, (iv) unit and total price of terminated items, and (v) any other explanation necessary to avoid uncertainty or misunderstanding*].

(2) The fee stated in the contract is decreased by $....., from $..... to $..... .

[*Insert, if appropriate,* "(3) The estimated cost of the contract is decreased by $....., from $..... to $....."."]

(c) The Contractor's allowable costs and earned fee, if any, for the terminated portion of the contract will continue to be reimbursed on SF 1034, Public Voucher for Purchase and Services Other Than Personal, under the applicable provisions of the contract and Part 31 of the Federal Acquisition Regulation.

(End of agreement)

49.603-6 No-cost settlement agreement—complete termination.

[*Insert the following in Block 14 of SF 30 if a no-cost settlement agreement, under a complete termination, is to be executed.*]

(a) This supplemental agreement ..... [*insert* "modifies the contract to reflect a no-cost settlement agreement with respect to the Notice of Termination dated ....." *or, if not previously terminated,* "terminates the contract in its entirety".]

(b) The parties agree as follows:

The Contractor unconditionally waives any charges against the Government because of the termination of the contract and, except as set forth below, releases it from all obligations under the contract or due to its termination. The Government agrees that all obligations under the contract are concluded, except as follows:

[*List reserved or excepted rights and liabilities. See 49.109-2 and 49.603-1(b)(7).*]

(End of agreement)

49.603-7 No-cost settlement agreement—partial termination.

[*Insert the following in Block 14 of SF 30 if a no-cost settlement agreement, under a partial termination, is to be executed.*]

(a) This supplemental agreement modifies the contract to reflect a no-cost settlement agreement with respect to the Notice of Termination dated ..... .

(b) The parties agree as follows:

(1) The terminated portion of the contract is as follows: [*Specify (i) item numbers, (ii) descriptions, (iii) quantity terminated, (iv) unit and total price of terminated items, and (v) any other explanation necessary to avoid uncertainty or misunderstanding.*]

(2) The Contractor unconditionally waives any charges against the Government arising under the terminated portion of the contract or by reason of its termination, including, without limitation, all obligations of the Government to make further payments or to carry out any further undertakings under the terminated portion of the contract. The Government acknowledges that the Contractor has no obligation to perform further work or services or to make further deliveries under the terminated portion of the contract. Nothing in this paragraph affects any other covenants, terms, or conditions of the contract. Under the terminated portion of the contract, the following rights and liabilities of the parties are reserved:

[*List reserved or excepted rights and liabilities. See 49.109-2 and 49.603-1(b)(7).*]

(End of agreement)

49.603-8 Fixed-price contracts—settlements with subcontractors only.

[*Insert the following in Block 14 of SF 30 for settlements of fixed-price contracts covering only settlements with subcontractors.*]

(a) This agreement settles that portion of the settlement proposal of the Contractor that is based upon termination of the following subcontracts entered into in performing this contract:

[*Insert a list of the terminated subcontracts included in this settlement.*]

(b) The parties agree to the following:

(1) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by the agreement, has furnished the Contractor a certificate stating (i) that all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and (ii) that the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(2) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(3) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Contractor has received or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(4) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(5) The Government agrees to pay the Contractor or its assignee, upon presentation of a proper invoice or voucher, $..... [*insert net amount of settlement*], which, together with the amount of $..... previously paid the Contractor as partial, progress, or advance payments, constitutes payment in full and complete settlement, except as provided in subparagraph (b)(6) below, of the amount due the Contractor for that portion of its settlement proposal that is based upon termination of the subcontracts listed above.

(6) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved: [*List reserved or excepted rights and liabilities. See 49.109-2 and 49.603-1(b)(7).*]

(End of agreement)

49.603-9 Settlement of reservations.

[*Insert the following in Block 14 of SF 30 for settlement of reservations.*]

(a) Supplemental Agreement No. ....., dated....., was executed to reflect the settlement of the termination of this contract. The supplemental agreement excepted from the settlement certain items described in the agreement including the items described in paragraph (b) below. This supplemental agreement settles those items listed in paragraph (b) below.

(b) The parties agree to the following:

(1) The Government agrees to pay the Contractor $..... for the following reserved or excepted items:* [*List items.*]

(2) The Contractor releases and forever discharges the Government from all liability and from all existing and future claims and demands that it may have under this contract, insofar as it pertains to the contract, for the items described in subparagraph (1) above.* [**When payment is due the Government, reverse the words "Government" and "Contractor" in subparagraphs (b)(1) and (b)(2).*]

(End of agreement)

49.604 Release of excess funds under terminated contracts.

The following format shall be used to recommend the release of excess funds under terminated contracts, except if the contracting office retains responsibility for settlement of the termination:

FROM: Termination Contracting Officer..... [address]

TO: Contracting office..... [address]

SUBJ: Terminated Contract No..... with.....[Contractor]

Refs:

(a) [*Cite termination notice and effective date.*]

(b) [*Cite prior letters releasing excess funds, if any.*]

1. Referenced termination notice, ... [*insert* "completely" *or* "partially"] terminated contract ..... .

2. Based on the best information available, it is estimated that the gross settlement cost will be $..... . The amount available for release as excess to the contract is $..... . Any payments previously made to the Contractor for terminated items have been considered in arriving at the above amounts.

[*If prior letters recommending release of excess funds are cited, use the following as paragraph 2:*

"The estimated settlement costs previously reported by reference (b) in the amount of $..... are revised. On the best evidence now available, it is estimated that the settlement costs will be $..... . The additional amount available for release is $....."."]

3. The related appropriations and amounts involved are:

Appropriations	Allocated Amounts

Copies to:
Paying Office
Accounting and Finance Office
Other

49.605 Request to settle subcontractor settlement proposals.

Contractors requesting authority to settle subcontractor settlement proposals shall furnish applicable information from the list below and any additional information required by the contracting officer:

(a) Name of contractor and address of principal office.

(b) Name and location of divisions of the applicant's plant for which authorization is requested.

(c) An explanation of the necessity and justification for the authorization requested.

(d) A full description of the applicant's organization for handling terminations, including the names of the officials in charge of processing and settling proposals.

(e) The number and dollar amount (estimated if necessary) of uncompleted contracts with Government agencies and the percentage applicable to each agency.

(f) The number and dollar amount (estimated if necessary) of uncompleted subcontracts under Government contracts and the percentage applicable to each agency.

(g) The extent of the applicant's experience in termination matters, including the handling of proposals of subcontractors.

(h) The approximate amount and general nature of terminations of the applicant currently in process.

(i) A statement that no other application has been made for any division of the applicant's plant covered by the application or, if one has been made, a full statement of the facts.

(j) The limit of authorization requested.

49.606 Granting subcontract settlement authorization.

Contracting officers shall use the following format when granting subcontract settlement authorization:

LETTER OF AUTHORIZATION

(a) Your request of ..... (date) is approved, and you are authorized, subject to the limitations of subsection 49.108-4 and those stated below, to settle, without further approval of the Government, all subcontracts and purchase orders terminated by you as a result of a Government contract being terminated or modified (1) for the convenience of the Government or (2) under any other circumstances that may require the Government to bear the cost of their settlement.

(b) This authorization does not extend to the disposition of Government-furnished material or articles completed but undelivered under the subcontract or purchase order, as these require screening and approval of disposal actions by the Government, except that allocable completed articles may be disposed of without Government approval or screening if the total amount (at subcontract price) when added to the amount of settlement (as computed below) does not exceed $..... [*insert limit of authorization being granted*].

(c) This authorization is subject to the following conditions and requirements:

(1) The amount of the subcontract termination settlement does not exceed $..... [*insert limit of authorization being granted*], computed as follows:

(i) Do not deduct advance or partial payments or credits for retention or other disposal of termination inventory allocated to the settlement proposal.

(ii) Deduct amounts payable for completed articles or work at the contract price or for the settlement of termination proposals of subcontractors (except those settlements that have not been approved by the Government).

(2) Any termination inventory involved has been disposed of under subsection 49.108-4, except that screening and Government approval of scrap and salvage determinations are not required.

(3) The Contracting Officer may incorporate into each Notice of Termination specific instructions about the disposition of specific items of termination inventory, or the Contracting Officer may, at any time before final settlement, issue specific instructions. These instructions will not affect any disposal action taken by you or your subcontractors before their receipt.

(4) The settlements made by you with your subcontractors and suppliers under this authorization, including sales, retention, or other dispositions of property involved in making these settlements, are reimbursable under Part 49 and the Termination clause of the contract, and do not require approval of the Contracting Officer.

(5) Any number of separate settlements of $..... [*insert limit of authorization granted*] or less may be made with a single subcontractor. Settlement proposals that would normally be included in a single proposal; e.g., those based on a series of separate orders for the same item under one contract, should be consolidated whenever possible and shall not be divided to bring them within the authorization.

(6) This authorization does not apply if a subcontractor or supplier is affiliated with you. For this purpose, you should consider a contractor to be affiliated with you if you are under common control or if there is any

common interest between you by reason of stock ownership, or otherwise, that is sufficient to create a reasonable doubt that the bargaining between you is completely at arm's length.

(7) A representative of this office will, from time to time, review the methods used in negotiating settlements with your subcontractors and will make a selective examination of the settlements made by you. If the review indicates that you are not adequately protecting the Government's interest, this delegation will be revoked.

(End of letter)

49.607 Delinquency notices.

The formats of the delinquency notices in this section may be used to satisfy the requirements of 49.402-3. All notices will be sent with proof of delivery requested. (See Subpart 12.5 for stop-work orders.)

(a) *Cure notice.* If a contract is to be terminated for default before the delivery date, a "Cure Notice" is required by the Default clause. Before using this notice, it must be ascertained that an amount of time equal to or greater than the period of "cure" remains in the contract delivery schedule or any extension to it. If the time remaining in the contract delivery schedule is not sufficient to permit a realistic "cure" period of 10 days or more, the "Cure Notice" should not be issued. The "Cure Notice" may be in the following format:

CURE NOTICE

You are notified that the Government considers your ..... [*specify the contractor's failure or failures*] a condition that is endangering performance of the contract. Therefore, unless this condition is cured within 10 days after receipt of this notice [*or insert any longer time that the Contracting Officer may consider reasonably necessary*], the Government may terminate for default under the terms and conditions of the ..... [*insert clause title*] clause of this contract.

(End of notice)

(b) *Show cause notice.* If the time remaining in the contract delivery schedule is not sufficient to permit a realistic "cure" period of 10 days or more, the following "Show Cause Notice" may be used. It should be sent immediately upon expiration of the delivery period.

SHOW CAUSE NOTICE

Since you have failed to ..... [*insert* "perform Contract No. ..... within the time required by its terms", *or* "cure the conditions endangering performance under Contract No. ..... as described to you in the Government's letter of ..... (date)"], the Government is considering terminating the contract under the provisions for default of this contract. Pending a final decision in this matter, it will be necessary to determine whether your failure to perform arose from causes beyond your control and without fault or negligence on your part. Accordingly, you are given the opportunity to present, in writing, any facts bearing on the question to ..... [*insert the name and complete address of the contracting officer*], within 10 days after receipt of this notice. Your failure to present any excuses within this time may be considered as an admission that none exist. Your attention is invited to the respective rights of the Contractor and the Government and the liabilities that may be invoked if a decision is made to terminate for default.

Any assistance given to you on this contract or any acceptance by the Government of delinquent goods or services will be solely for the purpose of mitigating damages, and it is not the intention of the Government to condone any delinquency or to waive any rights the Government has under the contract.

(End of notice)

PART 50—EXTRAORDINARY CONTRACTUAL ACTIONS

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

50.000 Scope of part.

This part prescribes policies and procedures for entering into, amending, or modifying contracts in order to facilitate the national defense under the extraordinary emergency authority granted by Pub. L. 85-804 as amended by Pub. L. 93-155 (50 U.S.C. 1431-1435), as amended, referred to in this part as "the Act," and Executive Order (EO) 10789, dated November 14, 1958, as amended, referred to in this part as "the Executive Order." It does not cover advance payments (see Subpart 32.4).

50.001 Definitions.

"Approving authority," as used in this part, means an agency official or contract adjustment board authorized to approve actions under the Act and Executive Order.

"Secretarial level," as used in this part, means a level at or above the level of a deputy assistant agency head, or a contract adjustment board.

SUBPART 50.1—GENERAL

50.101 Authority.

(a) The Act empowers the President to authorize agencies exercising functions in connection with the national defense to enter into, amend, and modify contracts, without regard to other provisions of law related to making, performing, amending, or modifying contracts, whenever the President considers that such action would facilitate the national defense.

(b) The Executive Order authorizes the heads of the following agencies to exercise the authority conferred by the Act and to delegate it to other officials within the agency: the Government Printing Office; the Federal Emergency Management Agency; the Tennessee Valley Authority; the National Aeronautics and Space Administration; the General Services Administration; the Defense, Army, Navy, Air Force, Treasury, Interior, Agriculture, Commerce, and Transportation Departments; the Department of Energy for functions transferred to that Department from other authorized agencies; and any other agency that may be authorized by the President.

50.102 Policy.

(a) The authority conferred by the Act may not (1) be used in a manner that encourages carelessness and laxity on the part of persons engaged in the defense effort or (2) be relied upon when other adequate legal authority exists within the agency.

(b) Actions authorized under the Act shall be accomplished as expeditiously as practicable, consistent with the care, restraint, and exercise of sound judgment appropriate to the use of such extraordinary authority.

(c) Certain kinds of relief previously available only under the Act; e.g.,

recission or reformation for mutual mistake, are now available under the authority of the Contract Disputes Act of 1978. In accordance with subparagraph (a)(2) above, Part 33 must be followed in preference to Part 50 for such relief. In case of doubt as to whether Part 33 applies, the contracting officer should seek legal advice.

50.103 Deviations.

Any deviations to this Part 50 shall not be effective for defense agencies until approved by the Secretary of Defense, and for civilian agencies until approved by the agency head.

50.104 Reports.

(a) The Act and Executive Order require that each agency listed in 50.101(b) shall submit to Congress annually by March 15 a report of actions taken on requests for relief, including indemnity, under the Act's authority.

(b) The report shall contain the information in subparagraph (1) below for all actions on approved requests, and in subparagraph (2) below for all requests denied. In addition, for each approved request that involves actual or potential cost to the Government in excess of $50,000, the report shall include the name of the contractor, the actual cost or estimated potential cost, a description of the property or services involved, and a statement of the circumstances justifying the action.

(1) For actions on approved requests, the report shall contain—

(i) The total number of requests, total dollar amount requested, and total dollar amount approved; and

(ii) By type of request (amendments without consideration, correction of mistakes, formalization of informal commitments, and other requests as appropriate), the number of requests, dollar amount requested, and dollar amount approved.

(2) For requests denied, the report shall contain—

(i) The total number of requests and total dollar amount requested; and

(ii) By type of request, the number of requests and dollar amount requested.

(c) The report should omit any information classified "Confidential" or higher.

(d) A request is not reportable until a Memorandum of Decision is issued approving or denying relief.

50.105 Records.

Agencies shall maintain complete records of all actions taken under this Part 50. For each request for relief processed, these records shall include, as a minimum—

(a) The contractor's request;

(b) All relevant memorandums, correspondence, affidavits, and other pertinent documents;

(c) The Memorandum of Decision (see 50.306 and 50.402); and

(d) A copy of the contractual document implementing an approved request.

SUBPART 50.2—DELEGATION OF AND LIMITATIONS ON EXERCISE OF AUTHORITY

50.201 Delegation of authority.

An agency head may delegate in writing authority under the Act and Executive Order, subject to the following limitations:

(a) Authority delegated shall be to a level high enough to ensure uniformity of action.

(b) Authority to approve requests to obligate the Government in excess of $50,000 may not be delegated below the secretarial level.

(c) Regardless of dollar amount, authority to approve any amendment without consideration that increases the contract price or unit price may not be delegated below the secretarial level, except in extraordinary cases or classes of cases when the agency head finds that special circumstances clearly justify such delegation.

(d) Regardless of dollar amount, authority to indemnify against unusually hazardous or nuclear risks, including extension of such indemnification to subcontracts, shall be exercised only by the Secretary or Administrator of the agency concerned, the Public Printer, or the Chairman of the Board of Directors of the Tennessee Valley Authority (see 50.403).

50.202 Contract adjustment boards.

An agency head may establish a contract adjustment board with authority to approve, authorize, and direct appropriate action under this Part 50 and to make all appropriate determinations and findings. The decisions of the board shall not be subject to appeal; however, the board may reconsider and modify, correct, or reverse its previous decisions. The board shall determine its own procedures and have authority to take all action necessary or appropriate to conduct its functions.

50.203 Limitations on exercise of authority.

(a) The Act is not authority for—

(1) Using a cost-plus-a-percentage-of-cost system of contracting;

(2) Making any contract that violates existing law limiting profit or fees;

(3) Negotiating contracts for supplies or services required by law to be acquired by formal advertising; or

(4) Waiving any bid bond, payment bond, performance bond, or other bond required by law.

(b) No contract, amendment, or modification shall be made under the Act's authority—

(1) Unless the approving authority finds that the action will facilitate the national defense;

(2) Unless other legal authority within the agency concerned is deemed to be lacking or inadequate;

(3) Except within the limits of the amounts appropriated and the statutory contract authorization (however, indemnification agreements authorized by an agency head (50.403) are not limited to amounts appropriated or to contract authorization); and

(4) That will obligate the Government for any amount over $25 million, unless the Senate and House Committees on Armed Services are notified in writing of the proposed obligation, 60 days of continuous session of Congress have passed since the transmittal of such notification, and neither House of Congress has adopted a resolution disapproving the obligation. However, this subparagraph (4) does not apply to indemnification agreements authorized under 50.403.

(c) No contract shall be amended or modified unless the contractor submits a request before all obligations (including final payment) under the contract have been discharged. No amendment or modification shall increase the contract price to an amount higher than the lowest rejected bid of any responsible bidder, if the contract was negotiated under 10 U.S.C. 2304(a)(15) or 41 U.S.C. 252(c)(14).

(d) No informal commitment shall be formalized unless—

(1) The contractor submits a written request for payment within 6 months after furnishing, or arranging to furnish, supplies or services in reliance upon the commitment; and

(2) The approving authority finds that, at the time the commitment was made, it was impracticable to use normal contracting procedures.

(e) The exercise of authority by officials below the secretarial level is subject to the following additional limitations:

(1) The action shall not—

(i) Release a contractor from performance of an obligation over $50,000;

(ii) Result in an increase in cost to the Government over $50,000;

(iii) Deal with, or directly affect, any matter that has been submitted to the General Accounting Office; or

(iv) Involve disposal of Government surplus property.

(2) Mistakes shall not be corrected by an action obligating the Government for over $1,000, unless the contracting officer receives notice of the mistake before final payment.

(3) The correction of a contract because of a mistake in its making shall not increase the original contract price to an amount higher than the next lowest responsive offer of a responsible offeror.

SUBPART 50.3—CONTRACT ADJUSTMENTS

50.300 Scope of subpart.

This subpart prescribes standards and procedures for processing contractors' requests for contract adjustment under the Act and Executive Order.

50.301 General.

The fact that losses occur under a contract is not sufficient basis for exercising the authority conferred by the Act. Whether appropriate action will facilitate the national defense is a judgment to be made on the basis of all of the facts of the case. Although it is impossible to predict or enumerate all the types of cases in which action may be appropriate, examples are included in 50.302 below. Even if all of the factors in any of the examples are present, other considerations may warrant denying a contractor's request for contract adjustment. The examples are not intended to exclude other cases in which the approving authority determines that the circumstances warrant action.

50.302 Types of contract adjustment.

50.302-1 Amendments without consideration.

(a) When an actual or threatened loss under a defense contract, however caused, will impair the productive ability of a contractor whose continued performance on any defense contract or whose continued operation as a source of supply is found to be essential to the national defense, the contract may be amended without consideration, but only to the extent necessary to avoid such impairment to the contractor's productive ability.

(b) When a contractor suffers a loss (not merely a decrease in anticipated profits) under a defense contract because of Government action, the character of the action will generally determine whether any adjustment in the contract will be made, and its extent. When the Government directs its action primarily at the contractor and acts in its capacity as the other contracting party, the contract may be adjusted in the interest of fairness. Thus, when Government action, while not creating any liability on the Government's part, increases performance cost and results in a loss to the contractor, fairness may make some adjustment appropriate.

50.302-2 Correcting mistakes.

(a) A contract may be amended or modified to correct or mitigate the effect of a mistake. The following are examples of mistakes that may make such action appropriate:

(1) A mistake or ambiguity consisting of the failure to express, or express clearly, in a written contract, the agreement as both parties understood it.

(2) A contractor's mistake so obvious that it was or should have been apparent to the contracting officer.

(3) A mutual mistake as to a material fact.

(b) Amending contracts to correct mistakes with the least possible delay normally will facilitate the national defense by expediting the contracting program and assuring contractors that mistakes will be corrected expeditiously and fairly

50.302-3 Formalizing informal commitments.

Under certain circumstances, informal commitments may be formalized to permit payment to persons who have taken action without a formal contract; for example, when a person, responding to an agency official's written or oral instructions and relying in good faith upon the official's apparent authority to issue them, has furnished or arranged to furnish supplies or services to the agency, or to a defense contractor or subcontractor, without formal contractual coverage. Formalizing commitments under such circumstances normally will facilitate the national defense by assuring such persons that they will be treated fairly and paid expeditiously.

50.303 Contractor requests.

A contractor seeking a contract adjustment shall submit a request in duplicate to the contracting officer or an authorized representative. The request, normally a letter, shall state as a minimum—

(a) The precise adjustment requested;

(b) The essential facts, summarized chronologically in narrative form;

(c) The contractor's conclusions based on these facts, showing, in terms of the considerations set forth in 50.301 and 50.302 above, when the contractor considers itself entitled to the adjustment; and

(d) Whether or not—

(1) All obligations under the contracts involved have been discharged;

(2) Final payment under the contracts involved has been made;

(3) Any proceeds from the request will be subject to assignment or other transfer, and to whom; and

(4) The contractor has sought the same, or a similar or related, adjustment from the General Accounting Office or any other part of the Government, or anticipates doing so.

50.304 Facts and evidence.

(a) *General.* When it is appropriate, the contracting officer or other agency official shall request the contractor to support any request made under 50.303 with any of the following information:

(1) A brief description of the contracts involved, the dates of execution and amendments, the items being acquired, the price or prices, the delivery schedules, and any special contract provisions relevant to the request.

(2) A history of performance indicating when work under the contracts or commitments began, the progress made to date, an exact statement of the contractor's remaining obligations, and the contractor's expectations regarding completion.

(3) A statement of payments received, due, and yet to be received or to become due, including advance and progress payments; amounts withheld by the Government; and information as to any obligations of the Government yet to be performed under the contracts.

(4) A detailed analysis of the request's monetary elements, including precisely how the actual or estimated dollar amount was determined and the effect of approval or denial on the contractor's profits before Federal income taxes.

(5) A statement of the contractor's understanding of why the request's subject matter cannot now, and could not at the time it arose, be disposed of under the contract terms.

(6) The best supporting evidence available to the contractor, including contemporaneous memorandums, correspondence, and affidavits.

(7) Relevant financial statements, cost analyses, or other such data, preferably certified by a certified public accountant, as necessary to support the request's monetary elements.

(8) A list of persons connected with the contracts who have factual knowledge of the subject matter, including, when possible, their names,

offices or titles, addresses, and telephone numbers.

(9) A statement and evidence of steps taken to reduce losses and claims to a minimum.

(10) Any other relevant statements or evidence that may be required.

(b) *Amendments without consideration—essentiality a factor.* When a request involves possible amendment without consideration, and essentiality to the national defense is a factor (50.302-1(a)), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances, and profit.

(2) A statement and evidence of the contractor's present estimate of total costs under the contracts involved if it is enabled to complete them, broken down between costs accrued to date and completion costs, and between costs paid and those owed.

(3) A statement and evidence of the contractor's estimate of the final price of the contracts, taking into account all known or contemplated escalation, changes, extras, and the like.

(4) A statement of any claims known or contemplated by the contractor against the Government involving the contracts, other than those stated in response to subparagraph (3) above.

(5) An estimate of the contractor's total profit or loss under the contracts if it is enabled to complete them at the estimated final contract price, broken down between profit or loss to date and completion profit or loss.

(6) An estimate of the contractor's total profit or loss from other Government business and all other sources, from the date of the first contract involved to the estimated completion date of the last contract involved.

(7) A statement of the amount of any tax refunds to date, and an estimate of those anticipated, for the period from the date of the first contract involved to the estimated completion date of the last contract involved.

(8) A detailed statement of efforts the contractor has made to obtain funds from commercial sources to enable contract completion.

(9) A statement of the minimum amount the contractor needs as an amendment without consideration to enable contract completion, and the detailed basis for that amount.

(10) An estimate of the time required to complete each contract if the request is granted

(11) A statement of the factors causing the loss under the contracts involved.

(12) A statement of the course of events anticipated if the request is denied.

(13) Balance sheets, preferably certified by a certified public accountant, (i) for the contractor's fiscal year immediately preceding the date of the first contract, (ii) for each subsequent fiscal year, (iii) as of the request date, and (iv) projected as of the completion date of all the contracts involved (assuming the contractor is enabled to complete them at the estimated final prices), together with income statements for annual periods subsequent to the date of the first balance sheet. Balance sheets and income statements should be both consolidated and broken down by affiliates. They should show all transactions between the contractor and its affiliates, stockholders, and partners, including loans to the contractor guaranteed by any stockholder or partner.

(14) A list of all salaries, bonuses, and other compensation paid or furnished to the principal officers or partners, and of all dividends and other withdrawals, and of all payments to stockholders in any form since the date of the first contract involved.

(c) *Amendments without consideration—essentiality not a factor.* When a request involves possible amendment without consideration because of Government action, and essentiality to the national defense is not a factor (50.302-1(b)), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) A clear statement of the precise Government action that the contractor considers to have caused a loss under the contract, with evidence to support each essential fact.

(2) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances, and profit.

(3) The estimated total loss under the contract, with detailed supporting analysis.

(4) The estimated loss resulting specifically from the Government action, with detailed supporting analysis.

(d) *Correcting mistakes.* When a request involves possible correction of a mistake (50.302-2), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) A statement and evidence of the precise error made, ambiguity existing, or misunderstanding arising, showing what it consists of, how it occurred, and the intention of the parties.

(2) A statement explaining when the mistake was discovered, when the contracting officer was given notice of it, and whether this notice was given before completion of work under, or the effective termination date of, the contract.

(3) An estimate of profit or loss under the contract, with detailed supporting analysis.

(4) An estimate of the increase in cost to the Government resulting from the adjustment requested, with detailed supporting analysis.

(e) *Formalizing informal commitments.* When a request involves possible formalizing of an informal commitment (50.302-3), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) Copies of any written instructions or assurances (or a sworn statement of any oral instructions or assurances) given the contractor, and identification of the Government official who gave them.

(2) A statement as to when the contractor furnished or arranged to furnish the supplies or services involved and to whom.

(3) Evidence that the contractor relied upon the instructions or assurances, with a full description of the circumstances that led to this reliance.

(4) Evidence that, when performing the work, the contractor expected to be compensated directly for it by the Government and did not anticipate recovering the costs in some other way.

(5) A cost breakdown supporting the amount claimed as fair compensation for the work performed.

(6) A statement and evidence of the impracticability of providing, in an appropriate contractual instrument, for the work performed.

50.305 Processing cases.

(a) In response to a contractor request made in accordance with 50.303, the contracting officer or an authorized representative shall make a thorough investigation to establish the facts necessary to decide a given case. Facts and evidence, including signed statements of material facts within the knowledge of individuals when documentary evidence is lacking, and audits if considered necessary to establish financial or cost facts, shall be obtained from contractor and Government personnel.

(b) When a case involves matters of interest to more than one Government agency, the interested agencies should maintain liaison with each other to determine whether joint action should be taken.

(c) When additional funds are required from another agency, the contracting agency may not approve adjustment requests before receiving advice that the funds will be available. The request for this advice shall give the contractor's name, the contract number, the amount of proposed relief, a brief description of the contract, and the accounting classification or fund citation. If the other agency makes additional funds available, the agency considering the adjustment request shall be solely responsible for any action taken on the request.

(d) When essentiality to the national defense is an issue (50.302-1(a)), agencies considering requests for amendment without consideration involving another agency shall obtain advice on the issue from the other agency before making the final decision. When this advice is received, the agency considering the request for amendment without consideration shall be responsible for taking whatever action is appropriate.

50.306 Disposition.

When approving or denying a contractor's request made in accordance with 50.303, the approving authority shall sign and date a Memorandum of Decision containing—

(a) The contractor's name and address, the contract identification, and the nature of the request;

(b) A concise description of the supplies or services involved;

(c) The decision reached and the actual cost or estimated potential cost involved, if any;

(d) A statement of the circumstances justifying the decision;

(e) Identification of any of the foregoing information classified "Confidential" or higher (instead of being included in the memorandum, such information may be set forth in a separate classified document referenced in the memorandum); and

(f) If some adjustment is approved, a statement in substantially the following form: "I find that the action authorized herein will facilitate the national defense."

50.307 Contract requirements.

(a) The Act and Executive Order require that every contract entered into, amended, or modified under this Part 50 shall contain—

(1) A citation of the Act and Executive Order;

(2) A brief statement of the circumstances justifying the action; and

(3) A recital of the finding that the action will facilitate the national defense.

(b) The authority in 50.101(a) shall not be used to omit from contracts, when otherwise required, the clauses at 52.203-5, Covenant Against Contingent Fees; 52.215-1, Examination of Records by Comptroller General; 52.222-6, Davis-Bacon Act; 52.222-9, Contract Work Hours and Safety Standards Act—Overtime Compensation—Construction; 52.222-10, Compliance with Copeland Regulations; 52.222-20, Walsh-Healy Public Contracts Act; 52.222-26, Equal Opportunity; and 52.232-23, Assignment of Claims.

SUBPART 50.4—RESIDUAL POWERS

50.400 Scope of subpart.

This subpart prescribes standards and procedures for exercising residual powers under the Act. The term "residual powers" includes all authority under the Act except (a) that covered by Subpart 50.3 and (b) the authority to make advance payments (see Subpart 32.4).

50.401 Standards for use.

Subject to the limitations in 50.203, residual powers may be used in accordance with the policies in 50.102 when necessary and appropriate, all circumstances considered. In authorizing the inclusion of the clause at 52.250-1, Indemnification Under Public Law 85-804, in a contract or subcontract, an agency head may require the indemnified contractor to provide and maintain financial protection of the type and amount determined appropriate. In deciding whether to approve use of the indemnification clause, and in determining the type and amount of financial protection the indemnified contractor is to provide and maintain, an agency head shall consider such factors as self-insurance, other proof of financial responsibility, workers' compensation insurance, and the availability, cost, and terms of private insurance. The approval and determination shall be final.

50.402 General.

(a) When approving or denying a proposal for the exercise of residual powers, the approving authority shall sign and date a Memorandum of Decision containing substantially the same information called for by 50.306.

(b) Every contract entered into, amended, or modified under residual powers shall comply with the requirements of 50.307.

50.403 Special procedures for unusually hazardous or nuclear risks.

50.403-1 Indemnification requests.

(a) Contractor requests for the indemnification clause to cover unusually hazardous or nuclear risks should be submitted to the contracting officer and shall include the following information:

(1) Identification of the contract for which the indemnification clause is requested.

(2) Identification and definition of the unusually hazardous or nuclear risks for which indemnification is requested, with a statement indicating how the contractor would be exposed to them.

(3) A statement, executed by a corporate official with binding contractual authority, of all insurance coverage applicable to the risks to be defined in the contract as unusually hazardous or nuclear, including—

(i) Names of insurance companies, policy numbers, and expiration dates;

(ii) A description of the types of insurance provided (including the extent to which the contractor is self-insured or intends to self-insure), with emphasis on identifying the risks insured against and the coverage extended to persons or property, or both;

(iii) Dollar limits per occurrence and annually, and any other limitation, for relevant segments of the total insurance coverage;

(iv) Deductibles, if any, applicable to losses under the policies;

(v) Any exclusions from coverage under such policies for unusually hazardous or nuclear risks; and

(vi) Applicable workers' compensation insurance coverage.

(4) The controlling or limiting factors for determining the amount of financial protection the contractor is to provide and maintain, with information regarding the availability, cost, and terms of additional insurance or other forms of financial protection.

(5) Whether the contractor's insurance program has been approved or accepted by any Government agency; and whether the contractor has an indemnification agreement covering similar risks under any other Government program, and, if so, a brief description of any limitations.

(6) If the contractor is a division or subsidiary of a parent corporation, (i) a statement of any insurance coverage of the parent corporation that bears on the risks for which the contractor seeks indemnification and (ii) a description of

the precise legal relationship between parent and subsidiary or division.

(b) If the dollar value of the contractor's insurance coverage varies by 10 percent or more from that stated in an indemnification request submitted in accordance with paragraph (a) above, or if other significant changes in insurance coverage occur after submission and before approval, the contractor shall immediately submit to the contracting officer a brief description of the changes.

50.403-2 Action on indemnification requests.

(a) The contracting officer, with assistance from legal counsel and cognizant program office personnel, shall review the indemnification request and ascertain whether it contains all required information. If the contracting officer, after considering the facts and evidence, denies the request, the contracting officer shall notify the contractor promptly of the denial and of the reasons for it. If recommending approval, the contracting officer shall forward the request (as modified, if necessary, by negotiation) through channels to the appropriate official specified in 50.201(d). The contracting officer's submission shall include all information submitted by the contractor and—

(1) All pertinent information regarding the proposed contract or program, including the period of performance, locations, and facilities involved;

(2) A definition of the unusually hazardous or nuclear risks involved in the proposed contract or program, with a statement that the parties have agreed to it;

(3) A statement by responsible authority that the indemnification action would facilitate the national defense;

(4) A statement that the contract will involve unusually hazardous or nuclear risks that could impose liability upon the contractor in excess of financial protection reasonably available;

(5) A statement that the contractor is complying with applicable Government safety requirements;

(6) A statement of whether the indemnification should be extended to subcontractors; and

(7) A description of any significant changes in the contractor's insurance coverage (see 50.403-1(b)) occurring since submission of the indemnification request.

(b) Approval of a request to include the indemnification clause in a contract shall be by a Memorandum of Decision executed by the appropriate official specified in 50.201(d).

(c) When use of the indemnification clause is approved under paragraph (b) above, the definition of unusually hazardous or nuclear risks (see subparagraph (a)(2) above) shall be incorporated into the contract, along with the clause.

(d) When approval is (1) authorized in the Memorandum of Decision and (2) justified by the circumstances, the contracting officer may approve the contractor's written request to provide for indemnification of subcontractors, using the same procedures as those required for contractors.

50.403-3 Contract clause.

The contracting officer shall insert the clause at 52.250-1, Indemnification Under Public Law 85-804, in contracts whenever the approving official determines that the contractor shall be indemnified against unusually hazardous or nuclear risks (also see 50.403-2(c)). In cost-reimbursement contracts, the contracting officer shall use the clause with its Alternate I.

PART 51—USE OF GOVERNMENT SOURCES BY CONTRACTORS

Sec.

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

51.000 Scope of part.

This part prescribes policies and procedures for the use by contractors of Government supply sources and interagency motor pool vehicles and related services.

SUBPART 51.1—CONTRACTOR USE OF GOVERNMENT SUPPLY SOURCES

51.100 Scope of subpart.

This subpart prescribes policies and procedures for the use of Government supply sources (see 51.102(c)) by contractors. In this subpart, the terms "contractors" and "contracts" include "subcontractors" and "subcontracts."

51.101 Policy.

(a) If it is in the Government's interest, and if supplies or services required in the performance of a Government contract are available from Government supply sources, contracting officers may authorize contractors to use these sources in performing—

(1) Government cost-reimbursement contracts; or

(2) Other types of negotiated contracts when the agency determines that a substantial dollar portion of the contractor's contracts are of a Government cost-reimbursement nature.

(b) Contractors with fixed-price Government contracts that require protection of security classified information may acquire security equipment through GSA sources (see 41 CFR 101-26.407).

51.102 Authorization to use Government supply sources.

(a) Before issuing an authorization to a contractor to use Government supply sources, the contracting officer shall place in the contract file a written finding supporting issuance of the authorization. The determination shall be based on, but not limited to, considerations of the following factors:

(1) The administrative cost of placing orders with Government supply sources and the program impact of delay factors, if any.

(2) The lower cost of items available through Government supply sources.

(3) Suitability of items available through Government supply sources.

(4) Delivery factors such as cost and time.

(5) Recommendations of the contractor.

(b) Authorizations to subcontractors shall be issued through, and with the approval of, the contractor.

(c) Upon deciding to authorize a contractor to use Government supply sources, the contracting officer shall request, in writing, as applicable—

(1) A FEDSTRIP activity address code, through the agency's central contact point for matters involving activity address codes, from the General Services Administration (GSA), FSR, Washington, DC 20406;

(2) A MILSTRIP activity address code from the appropriate Department of Defense (DOD) service point listed in Section 1 of the Introduction to the DOD Activity Address Directory;

(3) Approval for the contractor to use Veterans Administration (VA) supply sources from the Assistant Administrator for Supply Services (Code 90), Office of Supply Services, Veterans Administration, 810 Vermont Avenue NW, Washington, DC 20420;

(4) Approval for the contractor to acquire helium from the Department of the Interior, Bureau of Mines, Division of Helium Operations, Box H-4372, Herring Plaza, Amarillo, Texas 79101; or

(5) Approval from the appropriate agency for the contractor to use a Government supply source other than those identified in (1) through (4) above.

(d) Each request made under paragraph (c) above shall contain—

(1) The complete address(es) to which the contractor's mail, freight, and billing documents are to be directed;

(2) A copy of the contracting officer's letter of authorization to the contractor;

(3) The prime contract number(s); and

(4) The effective date and duration of each contract.

(e) In each authorization to the contractor, the contracting officer—

(1) Shall cite the contract number(s) involved;

(2) Shall, when practicable, limit the period of the authorization;

(3) Shall specify, as appropriate, that—

(i) When requisitioning from GSA or DOD, the contractor shall use FEDSTRIP or MILSTRIP, as appropriate, and include the activity address code assigned by GSA or DOD;

(ii) When requisitioning from the VA, the contractor should use FEDSTRIP or MILSTRIP, as appropriate, Optional Form 347, Order for Supplies or Services (see 53.302-347), or an agency-approved form; and

(iii) When placing orders for helium with the Bureau of Mines, the contractor shall reference the Federal contract number on the purchase order;

(4) May include any other limitations or conditions deemed necessary. For example, the contracting officer may—

(i) Authorize purchases from Government supply sources of any overhead supplies, but no production supplies;

(ii) Limit any authorization requirement to use Government sources to a specific dollar amount, thereby leaving the contractor free to make smaller purchases from other sources if so desired;

(iii) Restrict the authorization to certain facilities or to specific contracts; or

(iv) Provide specifically if vesting of title is to differ from other property acquired or otherwise furnished by the contractor for use under the contract; and

(5) Shall instruct the contractor to comply with the applicable policies and procedures prescribed in this subpart.

(f) After issuing the authorization, the authorizing agency shall be responsible for—

(1) Ensuring that contractors comply with the terms of their authorizations and that supplies and services obtained from Government supply sources are properly accounted for and properly used;

(2) Any indebtedness incurred for supplies or services and not satisfied by the contractor; and

(3) Submitting, in writing, to the appropriate Government sources, address changes of the contractor and deletions when contracts are completed or terminated.

51.103 Ordering from Government supply sources.

(a) Contractors placing orders under Federal Supply Schedules or Personal Property Rehabilitation Price Schedules shall follow the terms of the applicable schedule and authorization and include with each order—

(1) A copy of the authorization (unless a copy was previously furnished to the Federal Supply Schedule or Personal Property Rehabilitation Price Schedule contractor); and

(2) The following statement:

This order is placed under written authorization from.....dated..... In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract or Personal Property Rehabilitation Price Schedule contract, the latter will govern.

(b) If a Federal Supply Schedule contractor refuses to honor an order placed by a Government contractor under an agency authorization, the contracting agency shall report the circumstances to the General Services Administration, FFN, Washington, DC 20406.

(c) Contractors placing orders under nonmandatory schedule contracts and requirements contracts issued by GSA, Office of Information Resources Management, for automated data processing equipment, software and maintenance, communications equipment and supplies, and teleprocessing services shall follow the terms of the applicable contract and the procedures in 51.103(a)(1) and (2).

(d) Contractors placing orders for Government stock shall—

(1) Comply with the requirements of the contracting officer's authorization, using FEDSTRIP or MILSTRIP procedures, as appropriate;

(2) Use only the GSA Form 1948-A, Retail Services Shopping Plate, when ordering from GSA Self-Service Stores; and

(3) Order only those items required in the performance of their contracts.

51.104 Furnishing assistance to contractors.

After receiving an activity address code, the contracting officer will notify the appropriate GSA regional office or military activity, which will contact the contractor and—

(a) Provide initial copies of ordering information and instructions; and

(b) When necessary, assist the contractor in preparing and submitting, as appropriate—

(1) The initial FEDSTRIP or MILSTRIP requisitions, the Optional Form 347, or the agency-approved forms;

(2) A completed GSA Form 457, FSS Publications Mailing List Application, so that the contractor will automatically receive current copies of required publications; or

(3) A completed GSA Form 1947, Application for Retail Services Shopping Plate.

51.105 Payment for shipments.

GSA, DOD, and VA will not forward bills to contractors for supplies ordered from Government stock until after the supplies have been shipped. Receipt of billing is sufficient evidence to establish contractor liability and to provide a basis for payment. Contracting officers should direct their contractors to make payment promptly upon receipt of billings.

51.106 Title.

(a) Title to all property acquired by the contractor under the contracting officer's authorization shall vest in the parties as provided in the contract, unless specifically provided for otherwise.

(b) If contracts are with educational institutions and the Government Property clause at 52.245-2, Alternate II, or 52.245-5, Alternate I, is used, title to property having an acquisition cost of less than $1,000 shall vest in the contractor as provided in the clause. Agencies may provide higher thresholds, if appropriate.

51.107 Contract clause.

The contracting officer shall insert the clause at 52.251-1, Government Supply Sources, in solicitations and contracts when the contracting officer may authorize the contractor to acquire supplies or services from a Government

supply source. If a facilities contract is contemplated, the contracting officer shall use the clause with its Alternate I.

SUBPART 51.2—CONTRACTOR USE OF INTERAGENCY MOTOR POOL VEHICLES

51.200 Scope of subpart.

This subpart prescribes policies and procedures for the use by contractors of interagency motor pool vehicles and related services. In this subpart, the terms "contractors" and "contracts" include "subcontractors" and "subcontracts."

51.201 Policy.

(a) If it is in the Government's interest, the contracting officer may authorize cost-reimbursement contractors to obtain, for official purposes only, interagency motor pool vehicles and related services, including (1) fuel and lubricants, (2) vehicle inspection, maintenance, and repair, (3) vehicle storage, and (4) commercially rented vehicles for short-term use.

(b) Complete rebuilding of major components of contractor-owned or -leased equipment requires the approval of the contracting officer in each instance.

(c) Government contractors shall not be authorized to obtain interagency motor pool vehicles and related services for use in performance of any contract other than a cost-reimbursement contract, except as otherwise specifically approved by the Administrator of the General Services Administration at the request of the agency involved.

51.202 Authorization.

(a) The contracting officer may authorize a cost-reimbursement contractor to obtain interagency motor pool vehicles and related services, if the contracting officer has—

(1) Determined that the authorization will accomplish the agency's contractual objectives and effect demonstrable economies;

(2) Received evidence that the contractor has obtained motor vehicle liability insurance covering bodily injury and property damage, with limits of liability as required or approved by the agency, protecting the contractor and the Government against third-party claims arising from the ownership, maintenance, or use of a motor pool vehicle;

(3) Arranged for periodic checks to ensure that authorized contractors are using vehicles and related services exclusively under cost-reimbursement contracts;

(4) Ensured that contractors shall establish and enforce suitable penalties for their employees who use or authorize the use of Government vehicles for other than performance of Government contracts (see 41 CFR 101-39.602);

(5) Received a written statement that the contractor will assume, without the right of reimbursement from the Government, the cost or expense of any use of motor pool vehicles and services not related to the performance of the contract; and

(6) Considered any recommendations of the contractor.

(b) The authorization shall—

(1) Be in writing;

(2) Cite the contract number;

(3) Specify any limitations on the authority, including its duration, and any other pertinent information; and

(4) Instruct the contractor to comply with the applicable policies and procedures provided in this subpart.

(c) Authorizations to subcontractors shall be issued through, and with the approval of, the contractor.

(d) Contracting officers authorizing contractor use of interagency motor pool vehicles and related services subject their agencies to the responsibilities and liabilities provided in 41 CFR 101-39.8 regarding accidents and claims.

51.203 Means of obtaining service.

(a) Authorized contractors shall submit requests for interagency motor pool vehicles and related services in writing to the appropriate GSA regional Customer Service Bureau, Attention: Motor Equipment Activity; except that requests for more than five vehicles shall be submitted to General Services Administration, FTM, Washington, DC 20406, and not to the regions. Each request shall include the following:

(1) Two copies of the agency authorization to obtain vehicles and related services from GSA.

(2) The number of vehicles and related services required and period of use.

(3) A list of the contractor's employees who are authorized to request vehicles and related services.

(4) A listing of the make, model, and serial numbers of contractor-owned or -leased equipment authorized to be serviced.

(5) Billing instructions and address.

(b) Contractors requesting unusual quantities of vehicles should do so as far in advance as possible to facilitate availability.

51.204 Use of interagency motor pool vehicles and related services.

Contractors authorized to use interagency motor pool vehicles and related services shall comply with the requirements of 41 CFR 101-39 and the operator's packet furnished with each vehicle.

51.205 Contract clause.

The contracting officer shall insert the clause at 52.251-2, Interagency Motor Pool Vehicles and Related Services, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contracting officer may authorize the contractor to use interagency motor pool vehicles and related services.

SUBCHAPTER H—Clauses and Forms

PART 52—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

Sec.

shall be made public. No other contract for construction shall be awarded to that contractor, its subcontractors, or suppliers with which that contractor is associated or affiliated, within a period of 3 years after the findings are made public. (For debarment procedures, see Subpart 9.4.)

25.205 Solicitation provision and contract clause.

The contracting officer shall insert the clause at 52.225-5, Buy American Act—Construction Materials, in solicitations and contracts for construction inside the United States.

SUBPART 25.3—BALANCE OF PAYMENTS PROGRAM

25.300 Scope of subpart.

This subpart provides policies and procedures applicable to contracting for supplies, services, or construction for use outside the United States and provides for the use of excess or near-excess foreign currency. The Balance of Payments Program restrictions have been waived with respect to the acquisition in accordance with Subpart 25.4 of certain products under the Trade Agreements Act of 1979.

25.301 Definitions.

"Components" (see 25.101).

"Domestic end product" (see 25.101).

"Domestic offer" (see 25.101).

"Domestic services," as used in this subpart, means services performed in the United States. If services provided under a single contract are performed both inside and outside the United States, they shall be considered domestic if 25 percent or less of their total cost is attributable to services (including incidental supplies used in connection with these services) performed outside the United States.

"End product" (see 25.101).

"Foreign end product" (see 25.101).

"Foreign offer" (see 25.101).

"Foreign services," as used in this subpart, means services other than domestic services.

"United States" (see 25.101).

25.302 Policy.

(a) The Balance of Payments Program is an interim measure imposed to alleviate the impact of Government expenditures on the Nation's balance of international payments. The Balance of Payments Program differs from the Buy American Act in that the Buy American Act applies only to acquisitions for use inside the United States, while the Balance of Payments Program applies to acquisitions for use outside the United States.

(b) Foreign end products or services may be acquired for use outside the United States if any of the following conditions are met:

(1) The estimated cost of the product or service does not exceed the appropriate small purchase limitation in Part 13.

(2) Perishable subsistence items are required and the agency head, or a designee, determines that delivery from the United States would significantly impair their quality at the point of consumption.

(3) The agency head, or a designee, determines that a requirement can only be filled by a foreign end product or service, and that it is not feasible to forgo filling it or to provide a domestic substitute (see 25.108).

(4) The acquisition is for ice, books, utilities, communications, and other materials or services that, by their nature or as a practical matter, can only be acquired or performed in the country concerned and a U.S. Government capability does not exist.

(5) Subsistence items are required specifically for resale in overseas commissary stores.

(6) The acquisition of foreign end products or services is required by a treaty or executive agreement between governments.

(7) Petroleum supplies and their by-products as listed and defined in 25.108 are required.

(8) The end products or services are paid for with excess or near-excess foreign currencies (see 25.304).

(9) The end products or services are mined, produced, or manufactured in Panama and are required by and for the use of United States Forces in Panama.

(c) Contracts shall require use of domestic construction materials (see 25.201) for construction, repair, or maintenance of real property outside the United States, except when the cost of these materials (including transportation and handling costs) exceeds the cost of foreign construction materials by more than 50 percent. A differential greater than 50 percent may be used when specifically authorized by the agency head or a designee.

25.303 Procedures.

(a) *Solicitation of offers.* The procedures in this section apply to contracts for supplies and services when the exceptions in 25.302(b) do not apply. Solicitations shall state that information regarding articles, materials, supplies, and services excepted from these procedures is available to prospective contractors upon request. When quotations are obtained orally (see Part 13), vendors shall be informed that only domestic end products or services will be acceptable, except for those items that have been excepted or when the price for the foreign end products or services meets the evaluation criteria in paragraph (b) below.

(b) *Evaluation.* For purposes of evaluation, each foreign offer shall be adjusted by increasing it by 50 percent. If this procedure results in a tie between a foreign offer as evaluated and a domestic offer, the domestic offer shall be considered the successful offer. When this procedure results in the acquisition of foreign end products or services, the acquisition of domestic end products or services is thereby considered unreasonable in cost or inconsistent with the public interest.

25.304 Excess and near-excess foreign currencies.

(a) The United States holds currencies of the countries listed in paragraphs (e) and (f) below in amounts determined by the Secretary of the Treasury to be excess to the normal, or above the immediate (near-excess) requirements of the Government. Acquisitions of foreign end products, services, or construction paid for in excess or near-excess foreign currencies are an exception to the balance of payments restrictions in this subpart (see 25.302(b)(8)).

(b) Excess and near-excess foreign currencies shall be used whenever feasible in payment of contracts over $1 million performed wholly or partly in any of the listed countries. In some cases, award may be made to an offeror willing to accept payment, in whole or part, in excess or near-excess foreign currency, even though the offer, when compared to offers in United States dollars, is not the lowest received. Price differentials may be funded from excess or near-excess foreign currencies available without charge to agency appropriations, subject to Office of Management and Budget (OMB) Circular No. A-20, May 21, 1966.

(c) Before issuing solicitations for contracts to be performed wholly or partly in the listed countries, the contracting officer shall obtain a determination from the agency head, or a designee no lower than the head of the contracting activity, as to the feasibility of using excess or near-excess foreign currency. Agency officials shall consult with the Budget Review Division, Office of Management and Budget, and verify—

(1) The availability of excess or near-excess foreign currency;

(2) The feasibility of using that currency in payment of the contract;

48 CFR Ch. 1

Establishing the Federal Acquisition Regulation

Correction

In FR Doc. 83–25334 beginning on page 42102 in the issue of Monday, September 19, 1983 (Book 2), page 42482 was omitted and a duplicate of page 42282 was printed in its place. The correct text of page 42482 appears on the following page.

BILLING CODE 1505-01-M

Authority: 40 U.S.C. 486(c); Chapter 137, 10 U.S.C.; and 42 U.S.C. 2453(c).

52.000 Scope of part.

This part (a) gives instructions for using provisions and clauses in solicitations and/or contracts, (b) sets forth the solicitation provisions and contract clauses prescribed by this regulation, and (c) presents matrices listing the FAR provisions and clauses applicable to each principal contract type and/or purpose (e.g., fixed-price supply, cost-reimbursement research and development).

SUBPART 52.1—INSTRUCTIONS FOR USING PROVISIONS AND CLAUSES

52.100 Scope of subpart.

This subpart (a) gives instructions for using Part 52, including the explanation and use of provision and clause numbers, prescriptions, prefaces, and matrices; (b) prescribes procedures for incorporating, identifying, and modifying provisions and clauses in solicitations and contracts, and for using alternates; and (c) describes the derivation of FAR provisions and clauses.

52.101 Using Part 52.

(a) *Definitions.* "Alternate" means a substantive variation of a basic provision or clause prescribed for use in a defined circumstance. It (1) adds wording to, (2) deletes wording from, or (3) substitutes specified wording for a portion of the basic provision or clause. The alternate version of a provision or clause is the basic provision or clause as changed by the addition, deletion, or substitution (see 52.105(a)).

"Contract clause" or "clause" means a term or condition used in contracts or in both solicitations and contracts, and applying after contract award or both before and after award.

"Modification," as used in this subpart, means a minor change in the details of a provision or clause that is specifically authorized by the FAR and does not alter the substance of the provision or clause (see 52.104).

"Solicitation provision" or "provision" means a term or condition used only in solicitations and applying only before contract award.

"Substantially as follows" or "substantially the same as," when used in the prescription and preface of a provision or clause, means that authorization is granted to prepare and utilize a variation of that provision or clause to accommodate requirements that are peculiar to an individual acquisition; *provided*, that the variation includes the salient features of the FAR provision or clause, and is not inconsistent with the intent, principle, and substance of the FAR provision or

clause or related coverage of the subject matter.

(b) *Numbering.* (1) *FAR provisions and clauses.* Subpart 52.2 sets forth the texts of all FAR provisions and clauses, each in its own separate subsection. The subpart is arranged by subject matter, in the same order as, and keyed to, the parts of the FAR. Each FAR provision or clause is uniquely identified. All FAR provision and clause numbers begin with "52.2," since the texts of all FAR provisions and clauses appear in Subpart 52.2. The next two digits of the provision or clause number correspond to the number of the FAR subject part in which the provision or clause is prescribed. The FAR provision or clause number is then completed by a hyphen and a sequential number assigned within each section of Subpart 52.2. The following example illustrates the makeup of the FAR provision or clause number:

(2) *Provisions or clauses that supplement the FAR.*

(i) Provisions or clauses that supplement the FAR are—

(A) Prescribed and included in authorized agency acquisition regulations issued within an agency to satisfy the specific needs of the agency as a whole;

(B) Prescribed and included in a regulation issued by a suborganization of an agency to satisfy the needs of that particular suborganization; or

(C) Developed for use at a suborganizational level of an agency, not meant for repetitive use, but intended to meet the needs of an individual acquisiton and, thus, impractical to include in either an agency or suborganization acquisition regulation. (See 1.301(c).)

(ii) Supplemental provisions or clauses published in agency acquisition regulations shall be in full text and the prescription for the use of each shall be included. Supplemental provisions or clauses published in agency acquisition regulations shall be numbered in the same manner in which FAR provisions and clauses are numbered except that—

(A) If it is included in an agency acquisition regulation that is published in the Federal Register and is codified in Title 48, Code of Federal Regulations (48 CFR), the number shall be preceded by the chapter number within 48 CFR assigned by the CFR staff; and

(B) The sequential number shall be "70" or a higher number (see 1.303).

(iii) The sequential number at the end of the number of a provision or clause that supplements the FAR, like its counterpart at the end of any FAR provision or clause number, indicates the subsection location of the provision or clause in Subpart 52.2 of the agency acquisition regulation that contains its full text. If, for example, an agency acquisition regulation contains only one provision followed by only one clause supplementing the FAR in its section 52.236 (Construction and Architect-Engineer Contracts), then the sequential numbers would be "70" for the provision and "71" for the clause.

(c) *Prescriptions.* Each provision or clause in Subpart 52.2 is prescribed at that place in the FAR text where the subject matter of the provision or clause receives its primary treatment. The prescription includes all conditions, requirements, and instructions for using the provision or clause and its alternates, if any. The provision or clause may be referred to in other FAR locations.

(d) *Prefaces.* Within Subpart 52.2, each provision or clause is prefaced with (1) a cross-reference to the location in the FAR subject text that prescribes its use, and (2) directions for inserting it in solicitations and/or contracts.

(e) *Matrices.*

(1) Subpart 52.3 consists of a series of matrices, one for each principal type and/or purpose of contract (e.g., fixed-price supply, cost-reimbursement research and development). Each matrix lists the—

(i) Required solicitation provisions;

(ii) Required-when-applicable solicitation provisions;

(iii) Optional solicitation provisions;

(iv) Required contract clauses;

(v) Required-when-applicable contract clauses; and

(vi) Optional contract clauses.

(2) For each provision or clause listed, the matrix provides information on—

(i) Whether it may be incorporated by reference or is to be set forth in full text;

(ii) The section of the Uniform Contract Format (UCF) in which it is to be located, if it is used in an acquisition that is subject to the UCF;

(iii) Its number;

(iv) The citation of the FAR text that prescribes its use; and

(v) Its title.

(3) Since the matrices do not provide sufficient information to determine the applicability of a provision or clause in the "required-when-applicable" and "optional" categories, contracting officers shall refer to the FAR text (cited in the matrix) that prescribes its use.

(4) FAR matrices may be reproduced at agency levels, and at subordinate levels, for the purpose of supplementing them with agency-developed provisions and clauses. The resulting consolidated matrices may be included in agency acquisition regulations.

(f) *Dates.* Since they are subject to revision from time to time, all provisions, clauses, and alternates are dated: e.g., (DEC 1983). To avoid questions concerning which version of any provision, clause, or alternate is operative in any given solicitation or contract, its date shall be included whether it is incorporated by reference or in full text.

52.102 Incorporating provisions and clauses.

52.102-1 Incorporation by reference.

(a) Except as specified in 52.102-2, provisions and clauses may be incorporated by reference in solicitations and/or contracts if they are prescribed in—

(1) The FAR and are identified by a single asterisk in the matrices (see Subpart 52.3); or

(2) An agency acquisition regulation published by—

(i) The Secretary of Defense for use throughout the Department of Defense (DOD); or

(ii) The head of an agency outside the DOD for agency-wide use.

(b) The provisions and clauses referred to in 52.102-1(a) should be incorporated by reference to the maximum practical extent, rather than being incorporated in full text, even if they (1) are used with one or more alternates or on an optional basis, (2) are prescribed on a "substantially as follows" or "substantially the same as" basis; *provided*, that they are used verbatim, or (3) require modification or the insertion by the Government of fill-in material (see 52.104). However, the contracting officer, upon request, shall provide the full text of any provision or clause incorporated by reference.

(c) Provisions or clauses may not be incorporated by reference by being listed in the (1) provision at 52.252-3, Alterations in Solicitations, or (2) clause at 52.252-4, Alterations in Contract.

52.102-2 Incorporation in full text.

(a) A provision or clause shall be incorporated in solicitations and/or contracts in full text if it—

(1) Requires completion by the offeror or prospective contractor;

(2) Is a FAR provision or clause that will be used with an authorized deviation (see Subpart 1.4);

(3) Is a FAR provision or clause that is identified by a double asterisk (**) in the matrices (see Subpart 52.3);

(4) Is prescribed for use in an agency acquisition regulation published at levels below those specified in 52.102-1(a)(2);

(5) Is a special provision or clause of the type described in 52.101(b)(2)(i)(C);

(6) Will be used in a specific acquisition or class of acquisitions covered by a written determination of the chief of the contracting office to restrict the use of incorporation by reference for valid reasons; or

(7) Is prescribed on a "substantially as follows" or "substantially the same as" basis in the FAR or an agency acquisition regulation specified in 52.102-1(a)(2), but will not be used verbatim.

(b) Provisions and clauses of the type described in 52.101(b)(2)(i)(C), if developed by an organizational element below that of the agency headquarters level, shall be subject to agency oversight through the agency procedure required by 1.202.

52.103 Identification of provisions and clauses.

(a) Whenever any FAR provision or clause is used without deviation in a solicitation or contract, whether it is incorporated by reference or in full text, it shall be identified by number, title, and date. This identification shall also be used if the FAR provision or clause is used with an authorized deviation, except that the contracting officer shall then insert "(DEVIATION)" after the date. Solicited firms and contractors will be advised of the meaning of this insertion through the use of the (1) provision at 52.252-5, Authorized Deviations in Provisions, or (2) clause at 52.252-6, Authorized Deviations in Clauses. The above mentioned provision and clause are prescribed in 52.107(e) and (f).

(b) Any provision or clause that supplements the FAR whether it is incorporated by reference or in full text shall be clearly identified by number, title, date, and name of the regulation. When a supplemental provision or clause is used with an authorized deviation, insert "(DEVIATION)" after the name of the regulation.

(c) A provision or clause of the type described in 52.101(b)(2)(i)(C) shall be identified by the title, date, and the name of the agency or suborganization within the agency that developed it.

(d) Except for provisions or clauses covered by 52.103(c), the following hypothetical examples illustrate how a provision or clause that supplements the FAR shall be identified when it is incorporated in solicitations and/or contracts by reference or in full text:

(1) If Part 14 (Formal Advertising) of the X Agency Acquisition Regulation, published in the Federal Register and codified as Chapter 99 in 48 CFR, prescribes the use of a provision entitled "Bid Envelopes," dated October 1983, and that provision is sequentially the first provision or clause appearing in Section 52.214 of the X Agency Acquisition Regulation, then the identification of that provision shall be "9952.214-70—Bid Envelopes (OCT 1983)."

(2) Assume that Y, a major organizational element of the X Agency, is authorized to issue the Y Acquisition Regulation, which is not published in the Federal Register and codified in 48 CFR. If Part 36 (Construction and Architect-Engineer Contracts) of the Y Acquisition Regulation prescribes the use of a clause entitled "Refrigerated Display Cases," dated March 1983, pertaining to a specialized type of construction work, and that clause is sequentially the second provision or clause appearing in Section 52.236 of the Y Acquisition Regulation, then the identification of that clause shall be "52.236-71—Refrigerated Display Cases (MAR 1983)—Y Acquisition Regulation."

52.104 Procedures for modifying and completing provisions and clauses.

(a) Provisions and clauses shall not to be modified unless the FAR authorizes their modification. Any such authorizations are contained in the provision or clause preface in Subpart 52.2; for example—

(1) "In the following clause, the stated 60-day period may be varied from 30 to 90 days"; or

(2) "'Task Order' or other appropriate designation may be substituted for 'Schedule' wherever that word appears in the clause."

(b) When modifying provisions or clauses incorporated by reference, insert the changed wording directly below the title of the provision or clause identifying to the lowest level necessary (e.g., paragraph, sentence, word), to clearly indicate what is being modified.

(c) When modifying provisions or clauses incorporated in full text, modify the language directly by substituting the changed wording as permitted.

(d) When completing blanks in provisions or clauses incorporated by reference, insert the fill-in information directly below the title of the provision or clause identifying to the lowest level necessary to clearly indicate the blanks being filled in.

(e) When completing blanks in provisions or clauses incorporated in full text, insert the fill-in information in the blanks of the provision or clause.

52.105 Procedures for using alternates.

(a) A major variation in a provision or clause is accommodated by use of an alternate. All alternates to a given provision or clause are prescribed at the point in the FAR subject text where the provision or clause is itself prescribed. The alternates to each provision or clause are titled "Alternate I," "Alternate II," "Alternate III," and so on. In Subpart 52.2, the instructions for using these alternates appear after the basic provision or clause. A statement of the manner of and conditions for its use is given for each alternate. This statement shall be read in conjunction with the preface to the provision or clause.

(b) When an alternate is used, its date shall be cited along with the date of the basic provision or clause; e.g., 52.209-3 FIRST ARTICLE APPROVAL—CONTRACTOR TESTING (OCT 1983)—ALTERNATE I (DEC 1983).

(c) Under certain circumstances, a provision or clause may be used with two or more alternates. In these circumstances, each of the applicable alternates shall be cited, whether incorporated by reference or in full text; e.g., 52.209-3 FIRST ARTICLE APPROVAL—CONTRACTOR TESTING (OCT 1983)—ALTERNATE I (DEC 1983) AND ALTERNATE II (FEB 1984). However, under no circumstances may an alternate to a specific provision or clause be applied to any other provision or clause.

52.106 Derivations of FAR provisions and clauses.

(a) Nearly all FAR provisions and clauses have been derived from Defense Acquisition Regulation (DAR) and/or Federal Procurement Regulations (FPR) provisions and clauses. In order to enable the user of this regulation to understand the derivation, a notation has been added at the bottom of each FAR provision or clause underneath the words "(End of provision)" or "(End of clause)." The notation shows the nature of the derivation by one of the following codes:

"NM" means *new material* not in the DAR or FPR.

"R" means the FAR coverage is *rewritten* from the DAR, FPR, or other material from which it is derived.

"AV" means the FAR coverage repeats a provision or clause in the DAR, FPR, or other source *almost verbatim*. In the text of the provision or clause, titles of organizations, officials, or documents are changed or personal pronouns deleted. The language is substantially the same, with no substantive differences from that of the DAR, FPR, or other provision or clause from which it is derived.

"V" means the FAR coverage repeats a DAR, FPR, or other provision or clause *verbatim*.

(b) In addition, when the derivation is from the DAR or FPR, the citation (and date when appropriate) of the DAR or FPR provision or clause from which the FAR material is derived has been included. The acronyms DAR and FPR have not been used when citing these former provisions or clauses, since their citations are distinctive: DAR citations generally begin "7-" and are dated, while the FPR citations all begin "1-" and are undated.

(c) When a provision or clause is revised or the FAR reissued, the derivation notations will be deleted.

52.107 Provisions and clauses prescribed in Subpart 52.1.

(a) The contracting officer shall insert the provision at 52.252-1, Solicitation Provisions Incorporated by Reference, in solicitations in order to incorporate provisions by reference, and shall list each of these provisions by number, title, and date.

(b) The contracting officer shall insert the clause at 52.252-2, Clauses Incorporated by Reference, in solicitations and contracts in order to incorporate clauses by reference, and shall list each of these clauses by number, title, and date.

(c) The contracting officer shall insert the provision at 52.252-3, Alterations in Solicitation, in solicitations in order to revise or supplement, as necessary, other parts of the solicitation that apply to the solicitation phase only, except for any provision authorized for use with a deviation.

(d) The contracting officer shall insert the clause at 52.252-4, Alterations in Contract, in solicitations and contracts in order to revise or supplement, as necessary, other parts of the contract, or parts of the solicitations that apply to the contract phase, except for any clause authorized for use with a deviation.

(e) The contracting officer shall insert the provision at 52.252-5, Authorized Deviations in Provisions, in solicitations that include any FAR or supplemental provision with an authorized deviation. Whenever any FAR or supplemental provision is used with an authorized deviation, the contracting officer shall identify it by the same number, title, and date assigned to the provision when it is used without deviation. include regulation name for any supplemental provision, except that the contracting officer shall insert "(DEVIATION)" after the date of the provision.

(f) The contracting officer shall insert the clause at 52.252-6, Authorized Deviations in Clauses, in solicitations and contracts that include any FAR or supplemental clause with an authorized deviation. Whenever any FAR or supplemental clause is used with an authorized deviation, the contracting officer shall identify it by the same number, title, and date assigned to the clause when it is used without deviation. include regulation name for any supplemental clause, except that the contracting officer shall insert "(DEVIATION)" after the date of the clause.

SUBPART 52.2—TEXTS OF PROVISIONS AND CLAUSES

52.200 Scope of subpart.

This subpart sets forth the texts of all FAR provisions and clauses (see 52.101(b)(1)), and for each provision and clause, gives (a) a cross-reference to the location in the FAR that prescribes its use, and (b) directions for including it in solicitations and/or contracts.

52.201 [Reserved].

52.202-1 Definitions.

As prescribed in Subpart 2.2, insert the following clause in solicitations and contracts except when (a) a fixed-price research and development contract that is expected to be $2,500 or less is contemplated or (b) a purchase order is contemplated. Additional definitions may be included; *provided*, they are consistent with this clause and the Federal Acquisition Regulation.

DEFINITIONS (APR 1984)

(a) "Head of the agency" (also called "agency head") or "Secretary" means the Secretary (or Attorney General, Administrator, Governor, Chairperson, or other chief official, as appropriate) of the agency, including any deputy or assistant chief official of the agency, and, in the Department of Defense, the Under Secretary and any Assistant Secretary of the Departments of the Army, Navy, and Air Force and the Director and Deputy Director of Defense agencies; and the term "authorized representative" means any person, persons, or board (other than the Contracting Officer) authorized to act for the head of the agency or Secretary.

(b) "Contracting Officer" means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the Contracting Officer acting within the limits of their authority as delegated by the Contracting Officer.

(c) Except as otherwise provided in this contract, the term "subcontracts" includes, but is not limited to, purchase orders and changes and modifications to purchase orders under this contract.

(End of clause)
(R 7-103.1 1979 MAR)
(R 7-203.1)
(R 7-302.1)
(R 7-402.1)
(R 7-901.1)
(R 7-1902.1)
(R 7-1909.1)

Alternate I (APR 1984). If the contract is for personal services; construction; architect-engineer services; or dismantling, demolition, or removal of improvements, delete paragraph (c) of the basic clause.

(R 7-503.1)
(R 7-602.1 JUN 64)
(R 7-605.38)
(R 7.607.1)
(R 7-2101.1)
(R 1-7.602-1)

52.203-1 Officials Not to Benefit.

As prescribed in 3.102-2, insert the following clause in solicitations and contracts, except those related to agriculture that are exempted by 41 U.S.C. 22:

OFFICIALS NOT TO BENEFIT (APR 1984)

No member of or delegate to Congress, or resident commissioner, shall be admitted to any share or part of this contract, or to any benefit arising from it. However, this clause does not apply to this contract to the extent that this contract is made with a corporation for the corporation's general benefit.

(End of clause)
(R 7-103.19 1949 JUL)
(R 1-7.102-17)

52.203-2 Certificate of Independent Price Determination.

As prescribed in 3.103-1, insert the following provision in solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—

(a) The acquisition is to be made under the small purchase procedures in Part 13;

(b) The work is to be performed by foreign suppliers outside the United States, its possessions, and Puerto Rico;

(c) The solicitation is a request for technical proposals under two-step formal advertising procedures; or

(d) The solicitation is for utility services for which rates are set by law or regulation.

If the solicitation is a Request for Quotations, the terms "Quotation" and "Quoter" may be substituted for "Offeror" and "Offer."

CERTIFICATE OF INDEPENDENT PRICE DETERMINATION (APR 1984)

(a) The offeror certifies that—

(1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to (i) those prices, (ii) the intention to submit an offer, or (iii) the methods or factors used to calculate the prices offered;

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a formally advertised solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by the signatory that the signatory—

(1) Is the person in the offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to subparagraphs (a)(1) through (a)(3) above; or

(2) (i) Has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to subparagraphs (a)(1) through (a)(3) above ..... [*insert full name of person(s) in the offeror's organization responsible for determining the prices offered in this bid or proposal, and the title of his or her position in the offeror's organization*]:

(ii) As an authorized agent, does certify that the principals named in subdivision (b)(2)(i) above have not participated, and will not participate, in any action contrary to subparagraphs (a)(1) through (a)(3) above; and

(iii) As an agent, has not personally participated, and will not participate, in any action contrary to subparagraphs (a)(1) through (a)(3) above.

(c) If the offeror deletes or modifies subparagraph (a)(2) above, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

(End of provision)
(R 7-2003.1 1975 OCT)
(R 1-1.317)

52.203-3 Gratuities.

As prescribed in 3.202, insert the following clause in solicitations and contracts, except those for personal services and those between military departments or defense agencies and foreign governments that do not obligate any funds appropriated to the Department of Defense:

GRATUITIES (APR 1984)

(a) The right of the Contractor to proceed may be terminated by written notice if, after notice and hearing, the agency head or a designee determines that the Contractor, its agent, or another representative—

(1) Offered or gave a gratuity (e.g., an entertainment or gift) to an officer, official, or employee of the Government; and

(2) Intended, by the gratuity, to obtain a contract or favorable treatment under a contract.

(b) The facts supporting this determination may be reviewed by any court having lawful jurisdiction.

(c) If this contract is terminated under paragraph (a) above, the Government is entitled—

(1) To pursue the same remedies as in a breach of the contract; and

(2) In addition to any other damages provided by law, to exemplary damages of not less than 3 nor more than 10 times times the cost incurred by the Contractor in giving gratuities to the person concerned, as determined by the agency head or a designee. (This subparagraph (c)(2) is applicable only if this contract uses money appropriated to the Department of Defense.)

(d) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

(End of clause)
(R 7-104.16 1952 MAR)

52.203-4 Contingent Fee Representation and Agreement.

As prescribed in 3.404(b), insert the following provision in solicitations, except those excluded by subparagraphs 3.404(b)(1) through (b)(6). If the solicitation is a Request for Quotations, the terms "Quotation" and "Quoter" may be substituted for "Offeror" and "Offer."

CONTINGENT FEE REPRESENTATION AND AGREEMENT (APR 1984)

(a) *Representation.* The offeror represents that, except for full-time bona fide employees working solely for the offeror, the offeror—

[Note: The offeror must check the appropriate boxes. For interpretation of the representation, including the term "bona fide employee," see Subpart 3.4 of the Federal Acquisition Regulation.]

(1) ☐ has, ☐ has not employed or retained any person or company to solicit or obtain this contract; and

(2) ☐ has, ☐ has not paid or agreed to pay to any person or company employed or retained to solicit or obtain this contract any commission, percentage, brokerage, or other fee contingent upon or resulting from the award of this contract.

(b) *Agreement.* The offeror agrees to provide information relating to the above Representation as requested by the Contracting Officer and, when subparagraph (a)(1) or (a)(2) is answered affirmatively, to promptly submit to the Contracting Officer—

(1) A completed Standard Form 119, Statement of Contingent or Other Fees, (SF 119); or

(2) A signed statement indicating that the SF 119 was previously submitted to the same contracting office, including the date and applicable solicitation or contract number, and representing that the prior SF 119 applies to this offer or quotation.

(End of provision)
(R 7-2002.1 1974 APR)
(R 1-1.505)

52.203-5 Covenant Against Contingent Fees.

As prescribed in 3.404(c), insert the following clause in all solicitations and contracts.

COVENANT AGAINST CONTINGENT FEES (APR 1984)

(a) The Contractor warrants that no person or agency has been employed or retained to solicit or obtain this contract upon an angreement or understanding for a contingent fee, except a bona fide employee or agency. For breach or violation of this warranty, the Government shall have the right to annul this contract without liability or, in its discretion, to deduct from the contract price or consideration, or otherwise recover, the full amount of the contingent fee.

(b) "Bona fide agency," as used in this clause, means an established commercial or selling agency, maintained by a contractor for the purpose of securing business, that neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds itself out as being able to obtain any Government contract or contracts through improper influence.

"Bona fide employee," as used in this clause, means a person, employed by a contractor and subject to the contractor's supervision and control as to time, place, and manner of performance, who neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds out as being able to obtain any Government contract or contracts through improper influence.

"Contingent fee," as used in this clause, means any commission, percentage, brokerage, or other fee that is contingent

upon the success that a person or concern has in securing a Government contract.

"Improper influence," as used in this clause, means any influence that induces or tends to induce a Government employee or officer to give consideration or to act regarding a Government contract on any basis other than the merits of the matter.

(End of clause)
(R 7-103.20 1958 JAN)
(R 1-1.503)
(R 1-7.102-18)

52.204-1 Approval of Contract.

As prescribed in 4.103, insert the following clause in solicitations and contracts when agency procedures require written approval of the contract at a level above that of the contracting officer:

APPROVAL OF CONTRACT (APR 1984)

This contract is subject to the written approval of the agency official designated in the Schedule and shall not be binding until so approved.

(End of clause)
(R 7-105.2 1949 JUL)
(R 1-7.204-2)

52.204-2 Security Requirements.

As prescribed in 4.404(a), insert the following clause in solicitations and contracts when the contract may require access to classified information, unless the conditions specified in 4.404(d) apply:

SECURITY REQUIREMENTS (APR 1984)

(a) This clause applies to the extent that this contract involves access to information classified "Confidential," "Secret," or "Top Secret."

(b) The Contractor shall comply with (1) the Security Agreement (DD Form 441), including the *Department of Defense Industrial Security Manual For Safeguarding Classified Information* (DOD 5220.22-M), and (2) any revisions to that manual, notice of which has been furnished to the Contractor.

(c) If, subsequent to the date of this contract, the security classification or security requirements under this contract are changed by the Government and if the changes cause an increase or decrease in security costs or otherwise affect any other term or condition of this contract, the contract shall be subject to an equitable adjustment as if the changes were directed under the Changes clause of this contract.

(d) The Contractor agrees to insert terms that conform substantially to the language of this clause, including this paragraph (d) but excluding any reference to the Changes clause of this contract, in all subcontracts under this contract that involve access to classified information.

(End of clause)
(R 7-104.12 1971 APR)
(R
(R7-204.12 1971 APR)
(R 7-702.29 1973 APR)
(R 7-704.22 1976 JULY)
(R 7-902.3 1976 JULY)

Alternate I (APR 1984). If a cost contract for research and development with an educational institution is contemplated, add the following paragraphs (e), (f), and (g) to the basic clause:

(e) If a change in security requirements, as provided in paragraphs (b) and (c), results (1) in a change in the security classification of this contract or any of its elements from an unclassified status or a lower classification to a higher classification, or (2) in more restrictive area controls than previously required, the Contractor shall exert every reasonable effort compatible with the Contractor's established policies to continue the performance of work under the contract in compliance with the change in security classification or requirements. If, despite reasonable efforts, the Contractor determines that the continuation of work under this contract is not practicable because of the change in security classification or requirements, the Contractor shall notify the Contracting Officer in writing. Until resolution of the problem is made by the Contracting Officer, the Contractor shall continue safeguarding all classified material as required by this contract.

(f) After receiving the written notification, the Contracting Officer shall explore the circumstances surrounding the proposed change in security classification or requirements, and shall endeavor to work out a mutually satisfactory method whereby the Contractor can continue performance of the work under this contract.

(g) If, 15 days after receipt by the Contracting Officer of the notification of the Contractor's stated inability to proceed, (1) the application to this contract of the change in security classification or requirements has not been withdrawn or (2) a mutually satisfactory method for continuing performance of work under this contract has not been agreed upon, the Contractor may request the Contracting Officer to terminate the contract in whole or in part. The Contracting Officer shall terminate the contract in whole or in part, as may be appropriate, and the termination shall be deemed a termination under the terms of the Termination for the Convenience of the Government clause.

(R 7-402.24, clause paragraphs (e), (f), and (g) 1971 APR)

Alternate II (APR 1984). If employee identification is required for security or other reasons in a construction contract or architect-engineer contract, add the following paragraph (e) to the basic clause:

(e) The Contractor shall be responsible for furnishing to each employee and for requiring each employee engaged on the work to display such identification as may be approved and directed by the Contracting Officer. All prescribed identification shall immediately be delivered to the Contracting Officer, for cancellation upon the release of any employee. When required by the Contracting Officer, the Contractor shall obtain and submit fingerprints of all persons employed or to be employed on the project.

52.205 [Reserved].

52.206 [Reserved].

52.207-1 Notice of Cost Comparison (Advertised).

As prescribed in 7.305(a), when contracting by formal advertising, insert the following provision in solicitations issued for the purpose of comparing the costs of contractor and Government performance:

NOTICE OF COST COMPARISON (ADVERTISED) (APR 1984)

(a) This solicitation is part of a Government cost comparison to determine whether accomplishing the specified work under contract or by Government performance is more economical. If Government performance is determined to be more economical, this solicitation will be canceled and no contract will be awarded.

(b) The Government's cost estimate for performance by the Government will be based on the work statement in this solicitation and will be submitted by designated agency personnel to the Contracting Officer in a sealed envelope not later than the time set for bid opening. At the public bid opening, the Contracting Officer will open the bids and the envelope containing the cost estimate for Government performance and announce the result. This announcement will be based on an initial comparison of the cost of Government performance with the cost of contract performance, as indicated on the cost-comparison form. The abstract of bids, completed cost-comparison form, and detailed data supporting the cost estimate for Government performance will be made available to interested parties for review.

(c) ..... [*insert a number from 5 to 15, depending on the complexity of the matter (see 7.306(a)(1)(iv)*)] working days beginning with the date the documents are available to interested parties will be provided for this public review. The Government will not make a final determination either for contract or Government performance during this period. During this period, directly affected parties may file with the Contracting Officer written requests, based on specific objections, for administrative review of the cost-comparison result under the agency appeals procedure. The appeals procedure shall be used only to resolve questions concerning the calculation of the cost comparison and will not apply to decisions regarding selection of one bidder in preference to another. Agency determinations under the appeals procedure shall be final.

(d) After evaluation of bids and resolution of any requests under the appeals procedure, the Contracting Officer will either award a contract or cancel this solicitation. The

completed cost comparison analysis will be made available to interested parties.

(e) A cost estimate for Government performance is considered a bid for purposes of this solicitation's Late Modifications of Bids or Withdrawal of Bids provision, and a late modification that displaces an otherwise low cost estimate for Government performance shall not be considered.

(End of provision)
(R 7-2003.89(a) 1980 MAY)

52.207-2 Notice of Cost Comparison (Negotiated).

As prescribed in 7.305(b), when contracting by negotiation, insert the following provision in requests for proposals issued for the purpose of comparing the costs of contractor and Government performance:

NOTICE OF COST COMPARISON (NEGOTIATED) (APR 1984)

(a) This solicitation is part of a Government cost comparison to determine whether accomplishing the specified work under contract or by Government performance is more economical. If Government performance is determined to be more economical, this solicitation will be canceled and no contract will be awarded.

(b) The Government's cost estimate for performance by the Government will be based on the work statement in this solicitation and will be submitted by designated agency personnel to the Contracting Officer in a sealed envelope not later than the time set for receipt of initial proposals.

(c) After completion of proposal evaluation, negotiation, and selection of the most advantageous proposal, the Contracting Officer, in the presence of the preparer of the cost estimate for Government performance, will open the sealed cost-estimate envelope. These officials will make a cost comparison before public announcement. Depending on whether the cost-comparison result favors performance under contract or Government performance, the procedure in either subparagraph (1) or (2) following applies:

(1) If the result of the cost comparison favors performance under contract and administrative approval is obtained, the Contracting Officer will award a contract and publicly reveal the completed cost-comparison form showing the cost estimate for Government performance, its detailed supporting data, and the Contractor's name. However, this award is conditioned on the offer remaining the more economical alternative after (i) completion of a public review period of .....[*insert a numeral from 5 to 15, depending upon the complexity of the matter (see 7.306(b)(3))*] working days beginning with the date this information is available to interested parties and (ii) resolution of any requests for review under the agency appeals procedure (see paragraph (d) below). The Government assumes no liability for costs incurred during the periods specified in (i) and (ii). The Contracting Officer will then either notify the Contractor in writing that it may proceed with performance of the contract or will cancel the contract at no cost to the Government.

(2) If the result of the cost comparison favors Government performance, the Contracting Officer will publicly disclose this result, the completed cost-comparison form and its detailed supporting data, and the price of the offer most advantageous to the Government. After (i) completion of a public review period of .....[*insert a numeral from 5 to 15, depending upon the complexity of the matter (see 7.306(b)(3))*] working days beginning with the date this information is available to interested parties and (ii) resolution of any requests for review under the agency appeals procedure (see paragraph (d) below), the Contracting Officer will either cancel this solicitation or award a contract, as appropriate.

(d) The Government will not make a final determination either for contract or Government performance during the public review period. During this period, directly affected parties may file with the Contracting Officer written requests, based on specific objections, for administrative review of the cost-comparison result under the agency appeals procedure. This review will be completed within 30 days after the Contracting Officer receives the requests. The appeals procedure shall be used only to resolve questions concerning the calculation of the cost comparison and will not apply to questions concerning award to one offeror in preference to another. Agency determinations under the appeals procedure shall be final.

(e) A cost estimate for Government performance is considered a proposal for purposes of this solicitation's Late Submissions, Modifications, and Withdrawal of Proposals or Quotations provision, and a late modification that displaces an otherwise low cost estimate for Government performance shall not be considered.

(End of provision)
(R 7-2003.89(b) 1980 MAY)

52.207-3 Right of First Refusal of Employment.

As prescribed in 7.305(c), insert the following clause in solicitations issued for the purpose of making a cost comparison covering work currently being performed by the Government and in contracts that result from the solicitation:

RIGHT OF FIRST REFUSAL OF EMPLOYMENT (APR 1984)

The Contractor shall give Government employees displaced as a result of the conversion to contract performance the right of first refusal for employment openings under the contract in positions for which they are qualified, if that employment is consistent with post-Government employment conflict of interest standards.

(End of clause)
(R 7-104.104 1980 MAY)

52.208-1 Required Sources for Jewel Bearings and Related Items.

As prescribed in 8.203-1(a), insert the following clause in solicitations and contracts that may involve items (or any subassembly, component, or part of such items) in the Federal supply classes and groups listed in 8.203-1(b), except as provided in 8.203-1(a)(1) through (3):

REQUIRED SOURCES FOR JEWEL BEARINGS AND RELATED ITEMS (APR 1984)

(a) This clause applies only if supplies furnished under this contract contain jewel bearings or related items.

(b) "Jewel bearing," as used in this clause, means a piece of synthetic corundum (sapphire or ruby) of any shape, except a phonograph needle, that has one or more polished surfaces to provide supporting surfaces or low-friction contact areas for revolving, oscillating, or sliding parts in an instrument, mechanism, subassembly, or part. A jewel bearing may be unmounted or may be mounted into a ring or bushing. Examples are watch holes—olive, watch holes—straight, pallet stones, roller jewels (jewel pins), endstones (caps), vee (cone) jewels, instrument rings, cups, and double cups.

"Plant," as used in this clause, means the Government-owned, contractor-operated William Langer Plant, Rolla, North Dakota 58367 (Phone: 701-477-3193).

"Price list," as used in this clause, means the U.S. Government Jewel Bearing Price List, published periodically by the General Services Adminstration for jewel bearings produced by the Plant.

"Related item," as used in this clause, means a piece of synthetic corundum (sapphire or ruby), other than a jewel bearing, that (1) is made from material produced by the Verneuil flame fusion process, (2) has a geometric shape up to a maximum of 1 inch in any dimension, (3) requires extremely close tolerances and highly polished surfaces identical to those involved in manufacturing jewel bearings, and (4) is either mounted in a retaining or supporting structure or unmounted. Examples are window, nozzle, guide, knife edge, knife edge plate, insulator domed pin, slotted insulator, sphere, ring gauge, spacer, disc, valve seat, rod, vee groove, D-shaped insulator, and notched plate.

(c) All jewel bearings and related items required for the supplies to be furnished under this contract (or an equal quantity of the same type, size, and tolerances) shall be acquired from the following sources: jewel bearings from the Plant, unless the Plant declines or rejects the order; and related items from domestic manufacturers, including the Plant, if the items can be obtained from those sources. Sources other than the foregoing may be used if the foregoing sources decline or reject the order.

(1) Orders may be placed with the Plant for individual contracts, for a combination of contracts, or for stock. If the order is for an individual contract, the prime contract number shall be placed on it.

(2) Orders, and any supplements to orders, for items listed in the price list shall refer to the most recent price list and its date.

(3) Requests for quotations for items not listed in the price list should be accompanied by drawings and forwarded to the Plant as soon as possible to ensure prompt quotation or rejection of the order.

(d) At its option, the Plant may decline or reject all or part of a Contractor's or subcontractor's order. If the order is declined or rejected, the Contractor shall notify the contract administration office cognizant of this contract promptly in writing, enclosing a copy of the rejection notice. Unless the declination or rejection has been caused by current excessive and overdue Contractor indebtedness to the Plant as determined by the Plant, the Contracting Officer shall evaluate the impact and make an equitable adjustment in the contract price, in the delivery schedule, or in both, if one is warranted. This procedure shall also apply to orders for related items rejected by any other domestic manufacturer.

(e) The Contractor agrees to insert this clause, including this paragraph (e), and the prime contract number in every subcontract unless the Contractor has positive knowledge that the subassembly, component, or part being purchased does not contain jewel bearings or related items.

(End of clause)
(R 7-104.37 1977 NOV)
(R 1-1.319(e))

52.208-2 Jewel Bearings and Related Items Certificate.

As prescribed in 8.203-1(c), insert the following provision in solicitations that contain the clause at 52.208-1, Required Sources for Jewel Bearings and Related Items, except those for research and development:

JEWEL BEARINGS AND RELATED ITEMS CERTIFICATE (APR 1984)

(a) This is to certify that—

(1) Jewel bearings and/or related items, as defined in the Required Sources for Jewel Bearings and Related Items clause, will be incorporated into one or more items/will not be incorporated into any item [*delete one*] covered by this offer;

(2) Any jewel bearings required (or an equal quantity of the same type, size, and tolerances) will be ordered from the William Langer Plant, Rolla, North Dakota 58367, as provided in the Required Sources for Jewel Bearings and Related Items clause; and

(3) Any related items required (or an equal quantity of the same type, size, and tolerances) will be acquired from domestic manufacturers, including the Plant, if the items can be obtained from those sources.

(b) Attached to this certificate are estimates of the quantity, type, and size (including tolerances) of the jewel bearings and related items required, and identification of the components, subassemblies, or parts that require jewel bearings or related items.

(End of provision)
(R 1-2207.2 DPC 76-13 1977 NOV)
(R 1-2207.2(c)(3))

52.208-3 Conflicts.

As prescribed in 8.309(a), insert the following clause in solicitations and contracts for utility services:

CONFLICTS (APR 1984)

To the extent of any inconsistency between the terms of this contract and any schedule, rider, or exhibit incorporated in this contract by reference or otherwise, or any of the Contractor's rules and regulations, the terms of this contract shall control.

(End of clause)
(R S5-203.2(7) OCT 1974)
(AV 1-4.410-5(a)(10) FEB 1980)

52.208-4 Vehicle Lease Payments.

As prescribed in 8.1104(a), insert the following clause in solicitations and contracts for leasing motor vehicles, unless the motor vehicles are leased in foreign countries:

VEHICLE LEASE PAYMENTS (APR 1984)

(a) Upon the submission of proper invoices or vouchers, the Government shall pay rent for each vehicle at the rate(s) specified in this contract.

(b) Rent shall accrue from the beginning of this contract, or from the date each vehicle is delivered to the Government, whichever is later, and shall continue until the expiration of the contract term or the termination of this contract. However, rent shall accrue only for the period that each vehicle is in the possession of the Government.

(c) Rent shall not accrue for any vehicle that the Contracting Officer determines does not comply with the Condition of Leased Vehicles clause of this contract or otherwise does not comply with the requirements of this contract, until the vehicle is replaced or the defects are corrected.

(d) Rent shall not accrue for any vehicle during any period when the vehicle is unavailable or unusable as a result of the Contractor's failure to render services for the operation and maintenance of the vehicle as prescribed by this contract.

(e) Rent stated in monthly terms shall be prorated on the basis of 1/30th of the monthly rate for each day the vehicle is in the Government's possession. If this contract contains a mileage provision, the Government shall pay rent as provided in the Schedule.

(End of clause)
(R 7-1501.1 1967 APR)

52.208-5 Condition of Leased Vehicles.

As prescribed in 8.1104(b), insert the following clause in solicitations and contracts for leasing motor vehicles, unless the motor vehicles are leased in foreign countries:

CONDITION OF LEASED VEHICLES (APR 1984)

Each vehicle furnished under this contract shall be of good quality and in safe operating condition, and shall comply with the Federal Motor Vehicle Safety Standards (49 CFR 571) and State safety regulations applicable to the vehicle. The Government shall accept or reject the vehicles promptly after receipt. If the Contracting Officer determines that any vehicle furnished is not in compliance with this contract, the Contracting Officer shall promptly inform the Contractor in writing. If the Contractor fails to replace the vehicle or correct the defects as required by the Contracting Officer, the Government may (a) by contract or otherwise, correct the defect or arrange for the lease of a similar vehicle and shall charge or set off against the Contractor any excess costs occasioned thereby, or (b) terminate the contract under the Default clause of this contract.

(End of clause)
(R 7-1501.2 1967 APR)

52.208-6 Marking of Leased Vehicles.

As prescribed in 8.1104(c), insert the following clause in solicitations and contracts for leasing motor vehicles, unless the motor vehicles are leased in foreign countries:

MARKING OF LEASED VEHICLES (APR 1984)

(a) The Government may place nonpermanent markings or decals, identifying the using agency, on each side, and on the front and rear bumpers, of any motor vehicle leased under this contract. The Government shall use markings or decals that are removable without damage to the vehicle.

(b) The Contractor may use placards for temporary identification of vehicles except that the placards may not contain any references to the Contractor that may be construed as advertising or endorsement by the Government of the Contractor.

(End of clause)
(R 7-1501.5 1967 APR)

52.209-1 Qualified Products—End Items.

As prescribed in 9.206-2(a), insert the following provision in solicitations when acquiring qualified products as end items:

QUALIFIED PRODUCTS—END ITEMS (APR 1984)

(a) The Contracting Officer will make awards for end items requiring qualification only if the items are qualified for inclusion in the Qualified Products List (QPL) identified below. The item must be qualified at the time set for opening of bids, or the time of award of negotiated contracts, whether or not the item is actually included in the QPL. Offerors should contact the specification preparing activity (SPA) designated below to arrange for qualification of the products they intend to offer.

*QPL.....
SPA (Name).....
(Address).....

(b) Offerors shall insert the item name and the test number (if known) of each qualified product in the blank spaces below.

Item Name.....
Test Number.....

(c) Offerors of products that have been qualified, but not yet listed, shall submit evidence of qualification with their offers, in order to receive consideration. If this is a formally advertised acquisition and the qualified product offered is not identified, either above or elsewhere in the bid, the Contracting Officer will reject the bid.

(d) Any change in location or ownership of the plant where a previously qualified product was manufactured requires reevaluation of the qualification. The reevaluation must be accomplished before the bid opening date for advertised acquisitions and before the date of award for negotiated acquisitions. Failure of offerors to arrange for timely reevaluation shall preclude consideration of their offers.

(End of provision)
(R 7-2003.6 1974 APR)

*The Contracting Officer shall identify the QPL and the name and address of the SPA involved.

52.209-2 Qualified Products—Components of End Items.

As prescribed in 9.206-2(b), insert the following clause in solicitations and contracts, when acquiring qualified products as components of end items:

QUALIFIED PRODUCTS—COMPONENTS OF END ITEMS (APR 1984)

(a) If any of the end items to be acquired by the Government will contain one or more components that are qualified products, qualification of the components is required, (whether or not the components are actually included in the Qualified Products List (QPL)), before the Contractor awards any subcontract for the components. If the Contractor plans to manufacture the components, the Contractor shall have the components qualified before beginning to manufacture them. The components need not be qualified before manufacture of the prototype, preproduction model, or first article, for qualification testing.

(b) Unless required for interchangeability or compatibility, the Contractor shall not cite brand names from any QPL in any subcontract solicitation, but shall refer to the pertinent specification in order to obtain optimum competition.

(c) Delay resulting from the Contractor's awaiting qualification approval by the Government of a component shall not constitute excusable delay when a previously qualified component could have been acquired in time to meet the end item delivery schedule.

(d) Any change in location or ownership of the plant where a previously qualified product was manufactured requires reevaluation of the qualification. The reevaluation must be completed before the award of any subcontract for the components or before beginning the manufacture of the components.

(End of clause)
(R 7-2003.7 1969 DEC)

52.209-3 First Article Approval—Contractor Testing.

As prescribed in 9.308-1(a), insert the following clause in solicitations and contracts when a fixed-price contract is contemplated and it is intended that the contract require (a) first article approval and (b) that the contractor be required to conduct the first article test. As prescribed in 9.308-1(b), insert a clause substantially the same as the following clause in solicitations and contracts when a cost-reimbursement contract is contemplated and it is intended that the contract require (a) first article approval and (b) that the contractor be required to conduct the first article test.

FIRST ARTICLE APPROVAL—CONTRACTOR TESTING (APR 1984)

[*Contracting Officer shall insert details*]

(a) The Contractor shall test ..... unit(s) of Lot/Item ..... as specified in this contract. At least ..... calendar days before the beginning of first article tests, the Contractor shall notify the Contracting Officer, in writing, of the time and location of the testing so that the Government may witness the tests.

(b) The Contractor shall submit the first article test report within ..... calendar days from the date of this contract to ..... [*insert address of the Government activity to receive the report*] marked "FIRST ARTICLE TEST REPORT: Contract No. ....., Lot/Item No. ....." Within ..... calendar days after the Government receives the test report, the Contracting Officer shall notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the Contractor. A notice of disapproval shall cite reasons for the disapproval.

(c) If the first article is disapproved, the Contractor, upon Government request, shall repeat any or all first article tests. After each request for additional tests, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor, including any and all costs for additional tests following a disapproval. The Contractor shall then conduct the tests and deliver another report to the Government under the terms and conditions and within the time specified by the Government. The Government shall take action on this report within the time specified in paragraph (b) above. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule, or for any additional costs to the Government related to these tests.

(d) If the Contractor fails to deliver any first article report on time, or the Contracting Officer disapproves any first article, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract.

(e) Unless otherwise provided in the contract, and if the approved first article is not consumed or destroyed in testing, the Contractor may deliver the approved first article as part of the contract quantity if it meets all contract requirements for acceptance.

(f) If the Government does not act within the time specified in paragraph (b) or (c) above, the Contracting Officer shall, upon timely written request from the Contractor, equitably adjust under the Changes clause of this contract the delivery or performance dates and/or the contract price, and any other contractual term affected by the delay.

(g) Before first article approval, the acquisition of materials or components for, or the commencement of production of, the balance of the contract quantity is at the sole risk of the Contractor. Before first article approval, the costs thereof shall not be allocable to this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government.

(End of clause)
(R 7-104.55(a) 1974 APR)

Alternate I (APR 1984). If it is intended that the contractor be required to produce the first article and the production quantity at the same facility, add the following paragraph (h) to the basic clause:

(h) The Contractor shall produce both the first article and the production quantity at the same facility and shall submit a certification to this effect with each first article.

(R 7-104.55(a)(h) 1974 APR)

Alternate II (APR 1984). If it is necessary to authorize the contractor to purchase material or to commence production before first article approval, substitute the following paragraph (g) for paragraph (g) of the basic clause:

(g) Before first article approval, the Contracting Officer may, by written authorization, authorize the Contractor to acquire specific materials or components or to commence production to the extent essential to meet the delivery schedules. Until first article approval is granted, only costs for the first article and costs incurred under this authorization are allocable to this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government. If first article tests reveal deviations from contract requirements, the Contractor shall, at the location designated by the Government, make the required changes or replace all items produced under this contract at no change in the contract price.

(R 7-104.55(c) 1974 APR)

52.209-4 First Article Approval—Government Testing.

As prescribed in 9.308-2(a), insert the following clause in solicitations and contracts when a fixed-price contract is contemplated and it is intended that the contract require first article approval and that the Government will be responsible for conducting the first article test. As prescribed in 9.308-2(b), insert a clause substantially the same as the following clause in solicitations and contracts when a cost-reimbursement contract is contemplated and it is intended that the contract require first article approval and that the Government be responsible for conducting the first article test.

FIRST ARTICLE APPROVAL—GOVERNMENT TESTING (APR 1984)

[*Contracting Officer shall insert details*]

(a) The Contractor shall deliver ..... units(s) of Lot/Item ..... within ..... calendar days from the date of this contract to the Government at ..... [*insert name and address of the testing facility*] for first article tests. The shipping documentation shall contain this contract number and the Lot/Item identification. The characteristics that the first article must meet and the testing requirements are specified elsewhere in this contract.

(b) Within ..... calendar days after the Government receives the first article, the Contracting Officer shall notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the Contractor. A notice of disapproval shall cite reasons for the disapproval.

(c) If the first article is disapproved, the Contractor, upon Government request, shall submit an additional first article for testing. After each request, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor, including any and all costs for additional tests following a disapproval. The Contractor shall furnish any additional first article to the Government under the terms and conditions and within the time specified by the Government. The Government shall act on this first article within the time limit specified in paragraph (b) above. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule or for any additional costs to the Government related to these tests.

(d) If the Contractor fails to deliver any first article on time, or the Contracting Officer disapproves any first article, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract.

(e) Unless otherwise provided in the contract, the Contractor—

(1) May deliver the approved first article as a part of the contract quantity, provided it meets all contract requirements for acceptance and was not consumed or destroyed in testing; and

(2) Shall remove and dispose of any first article from the Government test facility at the Contractor's expense.

(f) If the Government does not act within the time specified in paragraph (b) or (c) above, the Contracting Officer shall, upon timely written request from the Contractor, equitably adjust under the Changes clause of this contract the delivery or performance dates and/or the contract price, and any other contractual term affected by the delay.

(g) The Contractor is responsible for providing operating and maintenance instructions, spare parts support, and repair of the first article during any first article test.

(h) Before first article approval, the acquisition of materials or components for, or the commencement of production of, the balance of the contract quantity is at the sole risk of the Contractor. Before first article approval, the costs thereof shall not be allocable to this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government.

(End of clause)

(R 7-104.55(b) 1977 APR)

Alternate I (APR 1984). If it is intended that the contractor be required to produce the first article and the production quantity at the same facility, add the following paragraph (i) to the basic clause:

(i) The Contractor shall produce both the first article and the production quantity at the same facility and shall submit a certification to this effect with each first article.

(R 7-104.55(b)(i) 1974 APR)

Alternate II (APR 1984). If it is necessary to authorize the contractor to purchase material or to commence production before first article approval, substitute the following paragraph (h) for paragraph (h) of the basic clause:

(h) Before first article approval, the Contracting Officer may, by written authorization, authorize the Contractor to acquire specific materials or components or to commence production to the extent essential to meet the delivery schedules. Until first article approval is granted, only costs for the first article and costs incurred under this authorization are allocable to this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government. If first article tests reveal deviations from contract requirements, the Contractor shall, at the location designated by the Government, make the required changes or replace all items produced under this contract at no change in the contract price.

(R 7-104.55(c) 1974 APR)

52.210-1 Availability of Specifications Listed in the Index of Federal Specifications and Standards.

As prescribed in 10.011(a), insert the following provision in solicitations that (a) are issued by civilian agency contracting offices and (b) cite specifications listed in the Index that are not furnished with solicitation:

AVAILABILITY OF SPECIFICATIONS LISTED IN THE INDEX OF FEDERAL SPECIFICATIONS AND STANDARDS (APR 1984)

(a) Single copies of specifications cited in this solicitation may be obtained by submitting a written request to the appropriate supply point listed below. The request must contain the title of the specification, its number, date, applicable amendment(s), and the solicitation or contract number. In case of urgency, telephone or telegraphic requests are acceptable. Voluntary standards listed in the Index are not available to offerors and contractors from the following Government sources and may be obtained from the organization responsible for their preparation, maintenance, or publication.

Region	Address/Telephone No.	Service Area
1	GSA Business Service Center John McCormack Post Office and Courthouse Boston, MA 02109 Telephone No. 617/223-2868	Connecticut, Maine, Vermont, New Hampshire, Massachusetts, and Rhode Island

(b) The Index of Federal Specifications and Standards may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(End of provision)
(NM)

52.210-2 Availability of Specifications Listed in the DOD Index of Specifications and Standards (DODISS).

As prescribed in 10.011(b), insert the following provision in solicitations that (a) are issued by DOD contracting offices and (b) cite specifications listed in the DODISS that are not furnished with the solicitation:

AVAILABILITY OF SPECIFICATIONS LISTED IN THE DOD INDEX OF SPECIFICATIONS AND STANDARDS (DODISS) (APR 1984)

Single copies of specifications cited in this solicitation may be obtained by submitting a written request to the supply point listed below. The request must contain the title of the specification, its number, date, applicable amendment(s), and the solicitation or contract number. In case of urgency, telephone or telegraphic requests are acceptable. Voluntary standards, which are not available to offerors and contractors from Government sources, may be obtained from the organization responsible for their preparation, maintenance, or publication.

Commanding Officer
U.S. Naval Publication and Forms Center
5801 Tabor Avenue
Philadelphia, PA 19120
Telex Number..... 834295
Western Union Number.... 710-670-1685
Telephone Number..... (215) 697-3321

(End of provision)
(R 1-1203.2)

52.210-3 Availability of Specifications Not Listed in the GSA Index of Federal Specifications and Standards.

As prescribed in 10.011(c), insert a provision substantially the same as the following in solicitations that cite specifications that are not listed in the Index and are not furnished with the solicitation, but may be obtained from a designated source:

AVAILABILITY OF SPECIFICATIONS NOT LISTED IN THE GSA INDEX OF FEDERAL SPECIFICATIONS AND STANDARDS (APR 1984)

The specifications cited in this solicitation may be obtained from:
(Activity).....
(Complete address).....
.....
.....
(Telephone number).....
(Person to be contacted).....

The request should identify the solicitation number and the specification requested by date, title, and number, as cited in the solicitation.

(End of provision)
(SS 7-2003.9(a) UNDATED)

52.210-4 Availability for Examination of Specifications Not Listed in the Index of Federal Specifications and Standards.

As prescribed in 10.011(d), insert a provision substantially the same as the following in solicitations that cite specifications that are not listed in the Index and are available for examination at a specified location:

AVAILABILITY FOR EXAMINATION OF SPECIFICATIONS NOT LISTED IN THE INDEX OF FEDERAL SPECIFICATIONS AND STANDARDS (APR 1984)

The specifications cited in this solicitation are not available for distribution. However, they may be examined at the following location(s):
(ACTIVITY).....
(COMPLETE ADDRESS).....
.....
.....
(TELEPHONE NUMBER).....
(PERSON TO BE CONTACTED).....
(TIME(S) FOR VIEWING).....

(End of provision)
(SS 7-2003.9(b) UNDATED)

52.210-5 New Material.

As prescribed in 10.011(e), insert the following clause in solicitations and contracts for supplies, unless, in the judgment of the contracting officer, the clause would serve no useful purpose. The contracting officer may insert the clause in solicitations and contracts for services that may involve incidental furnishing of parts.

NEW MATERIAL (APR 1984)

Unless this contract specifies otherwise, the Contractor represents that the supplies and components, including any former Government property identified under the Used or Reconditioned Material, Residual Inventory, and Former Government Surplus Property clause of this contract, are new, including recycled (not used or reconditioned) and are not of such age or so deteriorated as to impair their usefulness or safety. If the Contractor believes that furnishing used or reconditioned supplies or components will be in the Government's interest, the Contractor shall so notify the Contracting Officer in writing. The Contractor's notice shall include the reasons for the request along with a proposal for any consideration to the Government if the Contracting Officer authorizes the use of used or reconditioned supplies or components.

(End of clause)
(SS 7-104.48 1965 JAN)

52.210-6 Listing of Used or Reconditioned Material, Residual Inventory and Former Government Surplus Property.

As prescribed in 10.011(f), insert the following provision in solicitations for supplies, unless, in the judgment of the contracting officer, the provision would serve no useful purpose. The contracting officer may insert the provision in solicitations for services that may involve the incidental furnishing of parts.

LISTING OF USED OR RECONDITIONED MATERIAL, RESIDUAL INVENTORY AND FORMER GOVERNMENT SURPLUS PROPERTY (APR 1984)

(a) If the offeror proposes to furnish items or components which are used or reconditioned material, residual inventory resulting from terminated Government contracts, or former Government surplus property, the offeror shall provide the following information as an attachment to the offer: a complete description of the items or components; quantity; name of Government agency from which acquired; and date of acquisition, if applicable. No used, reconditioned, residual inventory, or former Government surplus property other than that listed on the attachment shall be furnished

under the resulting contract unless authorized in writing by the Contracting Officer.

(b) All items to be furnished under the resultant contract must comply with the terms and specifications contained in the contract.

(End of provision)
(R 7-104.49 1965 JAN)

52.210-7 Used or Reconditioned Material, Residual Inventory, and Former Government Surplus Property

As prescribed in 10.011(g), insert the following clause in solicitations and contracts for supplies, unless, in the judgment of the contracting officer, the clause would serve no useful purpose. The contracting officer may insert the clause in solicitations and contracts for services that may involve the incidental furnishing of parts.

USED OR RECONDITIONED MATERIAL, RESIDUAL INVENTORY, AND FORMER GOVERNMENT SURPLUS PROPERTY (APR 1984)

(a) The Contractor shall not furnish any item or component which is used or reconditioned material, residual inventory resulting from terminated Government contracts, or former Government surplus property, unless such item or component was listed in the applicable attachment to the offer and approved by the Contracting Officer or unless otherwise authorized in writing by the Contracting Officer.

(b) All items or components furnished under this contract shall comply with the terms and specifications contained in the contract.

(End of clause)
(R 7-104.49 1965 JAN)

52.211 [Reserved].

52.212-1 Time of Delivery.

As prescribed in 12.104(a)(2), the contracting officer may insert a clause substantially as follows in solicitations and contracts for supplies or services if the Government requires delivery by a particular time and the delivery schedule is to be based on the date of the contract:

TIME OF DELIVERY (APR 1984)

(a) The Government requires delivery to be made according to the following schedule:

REQUIRED DELIVERY SCHEDULE

[Contracting Officer insert specific details]

ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

The Government will evaluate equally, as regards time of delivery, offers that propose delivery of each quantity within the applicable delivery period specified above. Offers that propose delivery that will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. The Government reserves the right to award under either the required delivery schedule or the proposed delivery schedule, when an offeror offers an earlier delivery schedule than required above. If the offeror proposes no other delivery schedule, the required delivery schedule above will apply.

OFFEROR'S PROPOSED DELIVERY SCHEDULE

ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding five days for delivery of the award through the ordinary mails. If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

(End of clause)
(R 7-104.92(b) 1974 APR)
(R 1-1.316-5)
(R 1-1.316-4(c))

Alternate I (APR 1984). If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date of award, the contracting officer may substitute the following paragraph (b) for paragraph (b) of the basic clause. The time may be expressed by substituting "on or before"; "during the months ..."; or "not sooner than ... or later than ..." as headings for the third column of paragraph (a) the basic clause.

(b) The delivery dates or specific periods above are based on the assumption that the Government will make award by .....[*Contracting Officer insert date*]. Each delivery date in the delivery schedule above will be extended by the number of calendar days after the above date that the contract is in fact awarded. Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed or otherwise furnished to the successful offeror results in a binding contract. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails.

(R 7-104.92(e) 1974 APR)
(R 1-1.316-4(b)(1))

Alternate II (APR 1984). If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date the contractor will receive notice of award, the contracting officer may substitute the following paragraph (b) for paragraph (b) of the basic clause. The time may be expressed by substituting "within days after the date of receipt of a written notice of award" as the heading for the third column of paragraph (a) of the basic clause.

(b) The delivery dates or specific periods above are based on the assumption that the successful offeror will receive notice of award by .....[*Contracting Officer insert date*]. Each delivery date in the delivery schedule above will be extended by the number of calendar days after the above date that the Contractor receives notice of award; *provided*, that the Contractor promptly acknowledges receipt of notice of award.

(R 7-104.92(e)(2) 1974 APR)
(R 1-1.316-4(b)(2))

Alternate III (APR 1984). If the delivery schedule is to be based on the actual date the contractor receives a written notice of award, the contracting officer may delete paragraph (b) of the basic clause. The time may be expressed by substituting "within days after the date of receipt of a written notice of award" as the heading for the third column of paragraph (a) of the basic clause.

52.212-2 Desired and Required Time of Delivery.

As prescribed in 12.104(a)(3), the contracting officer may insert a clause substantially as follows in solicitations and contracts for supplies or services if the Government desires delivery by a certain time, but requires delivery by a specified later time, and the delivery schedule is to be based on the date of the contract:

DESIRED AND REQUIRED TIME OF DELIVERY (APR 1984)

(a) The Government desires delivery to be made according to the following schedule:

DESIRED DELIVERY SCHEDULE

[Contracting Officer insert specific details]

ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

If the offeror is unable to meet the desired delivery schedule, it may, without prejudicing evaluation of its offer, propose a delivery schedule below. However, the offeror's proposed delivery schedule must not extend the delivery period beyond the time for delivery in the Government's required delivery schedule as follows:

REQUIRED DELIVERY SCHEDULE

[Contracting Officer insert specific details

ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

Offers that propose delivery of a quantity under such terms or conditions that delivery will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. If the offeror proposes no other delivery schedule, the desired delivery schedule above will apply.

OFFEROR'S PROPOSED DELIVERY SCHEDULE

ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed or otherwise furnished to the successful offeror results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day the award is dated. Therefore, the offeror shall compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding five days for delivery of the award through the ordinary mails. If, as so computed, the offered delivery date is later than the required delivery date, the the offer will be considered nonresponsive and rejected.

(End of clause)
(R 7-104.92(c) 1974 APR)
(R 1-1.316-5(c))
(R 1-1.316-4(c))

Alternate I (APR 1984). If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date of award, the contracting officer may substitute the following paragraph (b) for paragraph (b) of the basic clause. The time may be expressed by substituting "on or before"; "during the months . . ."; or "not sooner than ..., or later than ..." as headings for the third column of paragraph (a) of the basic clause.

(b) The delivery dates or specific periods above are based on the assumption that the Government will make award by .....[*Contracting Officer insert date*]. Each delivery date in the delivery schedule above will be extended by the number of calendar days after the above date that the contract is in fact awarded. Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed or otherwise furnished to the successful offeror results in a binding contract. Therefore, the offeror shall compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails.

(R 7-104.92(e) 1974 APR)
(R 1-1.316-4(b)(1))

Alternate II (APR 1984). If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date the contractor receives notice of award, the contracting officer may substitute the following paragraph (b) for paragraph (b) of the basic clause. The time may be expressed by substituting "within days after the date of receipt of a written notice of award" as the heading of the third column of paragraph (a) of the basic clause.

(b) The delivery dates or specific periods above are based on the assumption that the successful offeror will receive notice of award by .....[*Contracting Officer insert date*]. Each delivery date in the delivery schedule above will be extended by the number of calendar days after the above date that the Contractor receives notice of award; *provided*, that the Contractor promptly acknowledges receipt of notice of award.

(R 7-104.92(e)(2) 1974 APR)
(R 1-1.316-4(b)(2))

Alternate III (APR 1984). If the delivery schedule is to be based on the actual date the contractor receives a written notice of award, the contracting officer may delete paragraph (b) of the basic clause. The time may be expressed by substituting "within days after the date of receipt of a written notice of award" as the heading of the third column of paragraph (a) of the basic clause.

52.212-3 Commencement, Prosecution, and Completion of Work.

As prescribed in 12.104(b), insert the following clause in solicitations and contracts when a fixed-price construction contract is contemplated. The clause may be changed to accommodate the issuance of orders under indefinite-delivery contracts for construction.

COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to (a) commence work under this contract within ..... *[Contracting Officer insert number]* calendar days after the date the Contractor receives the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than....*. The time stated for completion shall include final cleanup of the premises.

(End of clause)
(R 7-602.44(a) 1965 JAN)

*The Contracting Officer shall specify either a number of days after the date the contractor receives the notice to proceed, or a calendar date.

Alternate I (APR 1984). If the completion date is expressed as a specific calendar date, computed on the basis of the contractor receiving the notice to proceed by a certain day, add the following paragraph to the basic clause:

The completion date is based on the assumption that the successful offeror will receive the notice to proceed by..... *[Contracting Officer insert date]*. The completion date will be extended by the number of calendar days after the above date that the Contractor receives the notice to proceed, except to the extent that the delay in issuance of the notice to proceed results from the failure of the Contractor to execute the contract and give the required performance and payment bonds within the time specified in the offer.

(R 7-602.44(b) 1968 APR)

52.212-4 Liquidated Damages—Supplies, Services, or Research and Development.

As prescribed in 12.204(a), the contracting officer may insert the following clause in solicitations and contracts when a fixed-price contract is contemplated for supplies, services, or research and development (see 12.202):

LIQUIDATED DAMAGES—SUPPLIES, SERVICES, OR RESEARCH AND DEVELOPMENT (APR 1984)

(a) If the Contractor fails to deliver the supplies or perform the services within the time specified in this contract, or any extension, the Contractor shall, in place of actual damages, pay to the Government as fixed, agreed, and liquidated damages, for each calendar day of delay the sum of .....[*Contracting Officer insert amount*].

(b) Alternatively, if delivery or performance is so delayed, the Government may terminate this contract in whole or in part under the Termination for Default—Supplies and Services clause in this contract and in that event, the Contractor shall be liable for fixed, agreed, and liquidated damages accruing until the time the Government may reasonably obtain delivery or performance of similar supplies or

services. The liquidated damages shall be in addition to excess costs under the Termination clause.

(c) The Contractor shall not be charged with liquidated damages when the delay in delivery or performance arises out of causes beyond the control and without the fault or negligence of the Contractor as defined in the Termination for Default—Supplies and Services clause in this contract.

(End of clause)
(R 7-105.5 1969 AUG)

52.212-5 Liquidated Damages—Construction.

As prescribed in 12.204(b), the contracting officer may insert the following clause in solicitations and contracts for construction, except contracts on a cost-plus-fixed-fee basis (see 12.202):

LIQUIDATED DAMAGES—CONSTRUCTION (APR 1984)

(a) If the Contractor fails to complete the work within the time specified in the contract, or any extension, the Contractor shall pay to the Government as liquidated damages, the sum of .....[*Contracting Officer insert amount*] for each day of delay.

(b) If the Government terminates the Contractor's right to proceed, the resulting damage will consist of liquidated damages until such reasonable time as may be required for final completion of the work together with any increased costs occasioned the Government in completing the work.

(c) If the Government does not terminate the Contractor's right to proceed, the resulting damage will consist of liquidated damages until the work is completed or accepted.

(End of clause)
(R 7-602.5 1969 AUG)
(R 1-18.110(a))
(R 7-603.39 1965 JAN)
(R 1-8.709-1)

Alternate I (APR 1984). If different completion dates are specified in the contract for separate parts or stages of the work, revise paragraph (a) of the clause to state the amount of liquidated damages for delay of each separate part or stage of the work.

(R 7-603.39 1977 NOV)

52.212-6 Time Extensions.

As prescribed in 12.204(c), insert the following clause in solicitations and contracts for construction in which the clause at 52.212-5, Liquidated Damages—Construction, is used with its Alternate I:

TIME EXTENSIONS (APR 1984)

Notwithstanding any other provisions of this contract, it is mutually understood that the time extensions for changes in the work will depend upon the extent, if any, by which the changes cause delay in the completion of the various elements of construction. The change order granting the time extension may provide that the contract completion date will be extended only for those specific elements so delayed and that the remaining contract completion dates for all other portions of the work will not be altered and may further provide for an equitable readjustment of liquidated damages under the new completion schedule.

(End of clause)
(AV 7-603.36 1965 JAN)

52.212-7 Rated or Authorized Controlled Material Orders.

As prescribed in 12.304(a), insert the following provision in solicitations that will result in the placement of rated orders or authorized controlled material orders:

RATED OR AUTHORIZED CONTROLLED MATERIAL ORDERS (APR 1984)

Contracts or purchase orders to be awarded as a result of this solicitation shall be assigned a ☐ DX-rating; ☐ DO-rating; ☐ DMS allotment number in accordance with Defense Priorities System Regulation 1 and/or Defense Materials System Regulation 1. [*Contracting Officer check appropriate box or boxes*].

(End of provision)
(AV 7-2003.22 1974 APR)

52.212-8 Priorities, Allocations, and Allotments.

As prescribed in 12.304(b), insert the following clause in solicitations and contracts that are ratable, except for contracts under $2,500 that are not rated:

PRIORITIES, ALLOCATIONS, AND ALLOTMENTS (APR 1984)

The Contractor shall follow the provisions of Defense Materials System Regulation 1 or Defense Priorities System Regulation 1 [see 32A CFR 621-662] and all other applicable regulations and orders of the Office of Industrial Resource Administration, Department of Commerce, in obtaining controlled materials and other products and materials needed to fill this order.

(End of clause)
(R 7-104.18 1975 OCT)

52.212-9 Variation in Quantity.

As prescribed in 12.403(a), insert the following clause in solicitations and contracts when a fixed-price contract is contemplated for supplies, and for services that involve the furnishing of supplies:

VARIATION IN QUANTITY (APR 1984)

(a) A variation in the quantity of any item called for by this contract will not be accepted unless the variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified in paragraph (b) below.

(b) The permissible variation shall be limited to:

.....Percent increase [*Contracting Officer insert percentage*]

.....Percent decrease [*Contracting Officer insert percentage*]

This increase or decrease shall apply to .....*

(End of clause)
(R 7-103.4(a) 1949 JUL)
(R 7-103.4(b) 1965 APR)

*Contracting Officer shall insert in the blank the designation(s) to which the percentages apply, such as (1) the total contract quantity, (2) item 1 only, (3) each quantity specified in the delivery schedule, (4) the total item quantity for each destination, or (5) the total quantity of each item without regard to destination.

52.212-10 Delivery of Excess Quantities of $100 or Less.

As prescribed in 12.403(b), the contracting officer may insert the following clause in solicitations and contracts, when a fixed-price supply contract is contemplated.

DELIVERY OF EXCESS QUANTITIES OF $100 OR LESS (APR 1984)

The Contractor is responsible for the delivery of each item quantity within allowable variations, if any. If the Contractor delivers and the Government receives quantities of any item in excess of the quantity called for (after considering any allowable variation in quantity), such excess quantities will be treated as being delivered for the convenience of the Contractor. The Government may retain such excess quantities up to $100 in value without compensating the Contractor therefor, and the Contractor waives all right, title, or interests therein. Quantities in excess of $100 will, at the option of the Government, either be returned at the Contractor's expense or retained and paid for by the Government at the contract unit price.

(End of clause)
(V 7-104.103 1980 DEC)

52.212-11 Variation in Estimated Quantity.

As prescribed in 12.403(c), insert the following clause in solicitations and contracts when a fixed-price construction contract is contemplated that authorizes a variation in the estimated quantity of unit-priced items:

VARIATION IN ESTIMATED QUANTITY (APR 1984)

If the quantity of a unit-priced item in this contract is an estimated quantity and the actual quantity of the unit-priced item varies more than 15 percent above or below the estimated quantity, an equitable adjustment in the contract price shall be made upon demand of either party. The equitable adjustment shall be based upon any increase or decrease in costs due solely to the variation above 115 percent or below 85 percent of the estimated quantity. If the quantity variation is such as to cause an increase in the time necessary for completion, the Contractor may request, in writing, an extension of time, to be received by the Contracting Officer within 10 days from the beginning of the delay, or within such further

period as may be granted by the Contracting Officer before the date of final settlement of the contract. Upon the receipt of a written request for an extension, the Contracting Officer shall ascertain the facts and make an adjustment for extending the completion date as, in the judgement of the Contracting Officer, is justified.

(End of clause)
(R 7-603.27 1968 APR)

52.212-12 Suspension of Work.

As prescribed in 12.505(a), insert the following clause in solicitations and contracts when a fixed-price construction or architect-engineer contract is contemplated:

SUSPENSION OF WORK (APR 1984)

(a) The Contracting Officer may order the Contractor, in writing, to suspend, delay, or interrupt all or any part of the work of this contract for the period of time that the Contracting Officer determines appropriate for the convenience of the Government.

(b) If the performance of all or any part of the work is, for an unreasonable period of time, suspended, delayed, or interrupted (1) by an act of the Contracting Officer in the administration of this contract, or (2) by the Contracting Officer's failure to act within the time specified in this contract (or within a reasonable time if not specified), an adjustment shall be made for any increase in the cost of performance of this contract (excluding profit) necessarily caused by the unreasonable suspension, delay, or interruption, and the contract modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Contractor, or for which an equitable adjustment is provided for or excluded under any other term or condition of this contract.

(c) A claim under this clause shall not be allowed (1) for any costs incurred more than 20 days before the Contractor shall have notified the Contracting Officer in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from a suspension order), and (2) unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of the suspension, delay, or interruption, but not later than the date of final payment under the contract.

(End of clause)
(R 7-602.46 1968 FEB)

52.212-13 Stop-Work Order.

As prescribed in 12.505(b), when contracting by negotiation, the contracting officer may insert the following clause in solicitations and contracts for supplies, services, or research and development. The "90-day" period stated in the clause may be reduced to less than 90 days.

STOP-WORK ORDER (APR 1984)

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work order is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either—

(1) Cancel the stop-work order; or

(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if—

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts a claim for the adjustment within 30 days after the end of the period of work stoppage; *provided*, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim asserted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the conveninece of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

(End of clause)
(AV 7-105.3 1971 APR)

Alternate I (APR 1984). If this clause is inserted in a cost-reimbursement contract, substitute in paragraph (a)(2) the words "the Termination clause of this contract" for the words "the Default, or the Termination for Convenience of the Government clause of this contract." In paragraph (b) substitute the words "an equitable adjustment in the delivery schedule, the estimated cost, the fee, or a combination thereof, and in any other terms of the contract that may be affected" for the words "an equitable ajdustment in the delivery schedule or contract price, or both."

52.212-14 Stop-Work Order—Facilities.

As prescribed in 12.505(c), insert the following clause in solicitations and contracts when a facilities acquisition contract or a consolidated facilities contract is contemplated. The "90-day" period stated in the clause may be reduced to less than 90 days.

STOP-WORK ORDER—FACILITIES (APR 1984)

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the acquisition, construction, or installation work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall, at Government expense, immediately comply with its terms and take all reasonable steps to minimize the incurrence of cost allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work order is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either—

(1) Cancel the stop-work order; or

(2) Terminate the work covered by the order as provided in the Termination of Work clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery completion schedule, the estimated cost, or both, and the contract shall be modified, in writing, accordingly, if—

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts a claim for the adjustment within 30 days after the end of the period of work stoppage; *provided*, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim asserted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) An appropriate equitable adjustment may be made in any related contract of the Contractor that provides for adjustment and is affected by any stop-work order under this clause. The Government shall not be liable to the Contractor for damages or loss of profits because of a stop-work order issued under this clause.

(End of clause)
(AV 7-702.21(d) 1964 SEP)

52.212-15 Government Delay of Work.

As prescribed in 12.505(d), insert the following clause in solicitations and contracts when a fixed-price contract is contemplated for supplies other than commercial or modified-commercial items. The clause use is optional when a fixed-price contract is contemplated for services, or for supplies that are commercial or modified-commercial items.

GOVERNMENT DELAY OF WORK (APR 1984)

(a) If the performance of all or any part of the work of this contract is delayed or interrupted (1) by an act of the Contracting Officer in the administration of this contract that is not expressly or impliedly authorized by this contract, or (2) by a failure of the Contracting Officer to act within the time specified in this contract, or within a reasonable time if not specified, an adjustment (excluding profit) shall be made for any increase in the cost of performance of this contract caused by the delay or interruption and the contract shall be modified in writing accordingly. Adjustment shall also be made in the delivery or performance dates and any other contractual term or condition affected by the delay or interruption. However, no adjustment shall be made under this clause for any delay or interruption to the extent that performance would have been delayed or interrupted by any other cause, including the fault or negligence of the Contractor, or for which an adjustment is provided or excluded under any other term or condition of this contract.

(b) A claim under this clause shall not be allowed (1) for any costs incurred more than 20 days before the Contractor shall have notified the Contracting Officer in writing of the act or failure to act involved, and (2) unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of the delay or interruption, but not later than the day of final payment under the contract.

(End of clause)
(AV 7-104.77 1968 SEP)

52.213-1 Fast Payment Procedure.

As prescribed in 13.305, insert the following clause in solicitations and contracts when the conditions in 13.302 are applicable and it is intended that the fast payment procedure be used in the contract (in the case of BPA's, the contracting officer may elect to insert the clause either in the BPA or in orders under the BPA):

FAST PAYMENT PROCEDURE (APR 1984)

(a) *General.* Invoices will be paid on the basis of the Contractor's delivery to a post office or common carrier (or, in shipment by other means, to the point of first receipt by the Government).

(b) *Responsibility for supplies.* Title to the supplies shall vest in the Government upon delivery to a post office or common carrier for shipment to the specific destination. If shipment is by means other than Postal Service or common carrier, title to the supplies shall vest in the Government upon delivery to the point of first receipt by the Government. Notwithstanding any other provision of the contract, order, or blanket purchase agreement, the Contractor shall assume all responsibility and risk of loss for supplies (1) not received at destination, (2) damaged in transit, or (3) not conforming to purchase requirements. The Contractor shall either replace, repair, or correct those supplies promptly at the Contractor's expense, but only if instructions to do so are furnished by the Contracting Officer within 90 days from the date title to the supplies vests in the Government (180 days for overseas shipments).

(c) *Preparation of invoice.* (1) Upon delivery of supplies to a post office or common carrier, (or, in shipments by other means, the point of first receipt by the Government) the Contractor shall prepare an invoice as provided in this contract, order, or blanket purchase agreement. In addition, the invoice shall be prominently marked "FAST PAY".

(2) If the purchase price excludes the cost of transportation, the Contractor shall enter the prepaid shipping cost on the invoice as a separate item. The cost of parcel post insurance will not be paid by the Government. If transportation charges are separately stated on the invoice, the Contractor agrees to retain related paid freight bills or other transportation billings paid separately for a period of 3 years and to furnish the bills to the Government when requested for audit purposes.

(3) If this contract, order, or blanket purchase agreement requires the preparation of a receiving report on a prescribed form, the Contractor has the option of either preparing the receiving report on the prescribed form or including the following information on the invoice, in addition to that required in subparagraph (c)(1) above:

(i) A statement in prominent letters "NO RECEIVING REPORT PREPARED".

(ii) Shipment number.

(iii) Mode of shipment.

(iv) At line item level, (A) national stock number and/or manufacturer's part number, (B) unit of measure, (C) Ship-To Point, (D) Mark-For Point if in contract, and (E) FEDSTRIP/MILSTRIP document number if in contract.

(4) If this contract, order or blanket purchase agreement does not require preparation of a receiving report on a prescribed form, the invoice will include at the line item level information at the line item level in addition to that required in subparagraph (c)(1) above:

(i) Ship-To-Point.

(ii) Mark-For-Point.

(iii) FEDSTRIP/MILSTRIP document number if in contract, in addition to that required in subparagraph (c)(1) above.

(5) Where a receiving report is not required, a copy of the invoice will be included in each shipment.

(d) *Certification of invoice.* The Contractor agrees that the submission of an invoice to the Government for payment is a certification that the supplies for which the Government is being billed have been shipped or delivered in accordance with shipping instructions issued by the ordering officer, in the quantities shown on the invoice, and that the supplies are in the quantity and of the quality designated by the contract, order, or blanket purchase agreement.

(e) *Fast pay container identification.* All outer shipping containers shall be marked "FAST PAY".

(End of clause)
(R 7-104.84(a) 1981 MAY)
(R 7-104.84(b) 1981 MAY)

52.213-2 Invoices.

As prescribed in 13.507(c), insert the following clause in purchase orders that authorize advance payments (see 31 U.S.C. 530) for subscriptions or other charges for newspapers, magazines, periodicals, or other publications (i.e., any publication printed, microfilmed, photocopied, or magnetically or otherwise recorded for auditory or visual usage):

INVOICES (APR 1984)

The Contractor's invoices must be submitted before payment can be made. The Contractor will be paid on the basis of the invoice, which must state (a) the starting and ending dates of the subcription delivery, and (b) either that orders have been placed in effect for the addressees required, or that the orders will be placed in effect upon receipt of payment.

(End of clause)
(AV 7-2003.45 1974 APR)

52.213-3 Notice To Supplier.

As prescribed in 13.507(d), insert the following clause in unpriced purchase orders:

NOTICE TO SUPPLIER (APR 1984)

This is a firm order ONLY if your price does not exceed the maximum line item or total price in the Schedule. Submit invoices to the Contracting Officer. If you cannot perform in exact accordance with this order, WITHHOLD PERFORMANCE and notify the Contracting Officer immediately, giving your quotation.

(End of clause)
(AV 7-2003.46 1971 NOV)

52.214-1 Solicitation Definitions—Formal Advertising.

As prescribed in 14.201-6(b)(1), insert the following provision in all invitations for bids:

SOLICITATION DEFINITIONS—FORMAL ADVERTISING (APR 1984)

"Advertised," for purposes of this solicitation, includes small business restricted advertising and other types of restricted advertising.

"Offer" means "bid" in formal advertising.

"Solicitation" means an invitation for bids in formal advertising.

(End of provision)
(R SF 33A, Para 1, 1978 JAN)

52.214-2 Type of Business Organization—Formal Advertising

As prescribed in 14.201-6(b)(2), insert the following provision in all invitations for bids:

TYPE OF BUSINESS ORGANIZATION—FORMAL ADVERTISING (APR 1984)

The bidder, by checking the applicable box, represents that it operates as ☐ a corporation incorporated under the laws of the State of ....., ☐ an individual, ☐ a partnership, ☐ a nonprofit organization, or ☐ a joint venture.

(End of provision)
(R SF 33 Part 2, Para 5, 1978 JAN)
(R SF 19B, Para 4, 1976 JUN)

52.214-3 Acknowledgment of Amendments to Invitations for Bids.

As prescribed in 14.201-6(b)(3), insert the following provision in all invitations for bids:

ACKNOWLEDGMENT OF AMENDMENTS TO INVITATIONS FOR BIDS (APR 1984)

Bidders shall acknowledge receipt of any amendment to this solicitation (a) by signing and returning the amendment, (b) by identifying the amendment number and date in the space provided for this purpose on the form for submitting a bid, or (c) by letter or telegram. The Government must receive the acknowledgment by the time and at the place specified for receipt of bids.

(End of provision)
(R SF 33A, Para 4, 1978 JAN)

52.214-4 False Statements in Bids.

As prescribed in 14.201-6(b)(4), insert the following provision in all invitations for bids:

FALSE STATEMENTS IN BIDS (APR 1984)

Bidders must provide full, accurate, and complete information as required by this solicitation and its attachments. The penalty for making false statements in bids is prescribed in 18 U.S.C. 1001.

(End of provision)
(R 2-201(b)(Xiii))
(R 1-2.201(a)(11))

52.214-5 Submission of Bids.

As prescribed in 14.201-6(c)(1), insert the following provision in invitations for bids unless they are for construction that is not estimated to exceed $10,000. The use of this provision in invitations for bids for construction that is not estimated to exceed $10,000 is optional:

SUBMISSION OF BIDS (APR 1984)

(a) Bids and bid modifications shall be submitted in sealed envelopes or packages (1) addressed to the office specified in the solicitation and (2) showing the time specified for receipt, the solicitation number, and the name and address of the bidder.

(b) Telegraphic bids will not be considered unless authorized by the solicitation; however, bids may be modified or withdrawn by written or telegraphic notice, if such notice is received by the time specified for receipt of bids.

(End of provision)
(R SF 33A Para 5, 1978 JAN)

52.214-6 Explanation to Prospective Bidders.

As prescribed in 14.201-6(c)(2), insert the following provision in invitations for bids unless they are for construction that is not estimated to exceed $10,000. The use of this provision in invitations for bids for construction that is not estimated to exceed $10,000 is optional:

EXPLANATION TO PROSPECTIVE BIDDERS (APR 1984)

Any prospective bidder desiring an explanation or interpretation of the solicitation, drawings, specifications, etc., must request it in writing soon enough to allow a reply to reach all prospective bidders before the submission of their bids. Oral explanations or instructions given before the award of a contract will not be binding. Any information given a prospective bidder concerning a solicitation will be furnished promptly to all other prospective bidders as an amendment to the solicitation, if that information is necessary in submitting bids or if the lack of it would be prejudicial to other prospective bidders.

(End of provision)
(R SF 33A, Para 3, 1978 JAN)

52.214-7 Late Submissions, Modifications, and Withdrawals of Bids.

As prescribed in 14.201-6(c)(3), insert the following provision in invitations for bids unless they are for construction that is not estimated to exceed $10,000. The use of this provision in invitations for bids for construction that is not estimated to exceed $10,000 is optional:

LATE SUBMISSIONS, MODIFICATIONS, AND WITHDRAWALS OF BIDS (APR 1984)

(a) Any bid received at the office designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award is made and it—

(1) Was sent by registered or certified mail not later than the fifth calendar day before the date specified for receipt of bids (e.g., a bid submitted in response to a solicitation requiring receipt of bids by the 20th of the month must have been mailed by the 15th); or

(2) Was sent by mail (or was a telegraphic bid if authorized), and it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation.

(b) Any modification or withdrawal of a bid is subject to the same conditions as in paragraph (a) above.

(c) The only acceptable evidence to establish the date of mailing of a late bid, modification, or withdrawal sent either by registered or certified mail is the U.S. or Canadian Postal Service postmark on the wrapper or on the original receipt from the U.S. or Canadian Postal Service. If neither postmark shows a legible date, the bid, modification, or withdrawal shall be processed as if mailed late. "Postmark" means a printed, stamped, or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S. or Canadian Postal Service on the date of mailing. Therefore, bidders should request the postal clerks to place a hand cancellation bull's-eye postmark on both the receipt and the envelope or wrapper.

(d) The only acceptable evidence to establish the time of receipt at the Government installation is the time/date stamp of that installation on the bid wrapper or other documentary evidence of receipt maintained by the installation.

(e) Notwithstanding paragraph (a) above, a late modification of an otherwise successful bid that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(f) A bid may be withdrawn in person by a bidder or its authorized representative if, before the exact time set for receipt of bids, the identity of the person requesting withdrawal is established and that person signs a receipt for the bid.

(End of provision)
(R 7-2002.2 1979 MAR)
(R 1-2.201(a)(31))

52.214-8 Parent Company and Identifying Data.

As prescribed in 14.201-6(d), insert the following provision in invitations for bids unless they are for construction that is not estimated to exceed $10,000:

PARENT COMPANY AND IDENTIFYING DATA (APR 1984)

(a) A "parent" company, for the purpose of this provision, is one that owns or controls the activities and basic business policies of the bidder. To own the bidding company means that the parent company must own more than 50 percent of the voting rights in that company. A company may control a bidder as a parent even though not meeting the requirement for such ownership if the parent company is able to formulate, determine, or veto basic policy decisions of the offeror through the use of dominant minority voting rights, use of proxy voting, or otherwise.

(b) The bidder ☐ is, ☐ is not [*check applicable box*] owned or controlled by a parent company.

(c) If the bidder checked "is" in paragraph (b) above, it shall provide the following information:

Name and Main Office Address of Parent Company (Include Zip Code)	Parent Company's Employer's Identification Number

(d) If the bidder checked "is not" in paragraph (b) above, it shall insert its own Employer's Identification Number on the following line .....

(End of provision)
(R SF 33, Part 2, Para 6 1977 MAR)
(R SF 33A, Para 16 and 17 1969 MAR)

52.214-9 Failure to Submit Bid.

As prescribed in 14.201-6(e)(1), insert the following provision in invitations for bids except those for construction:

FAILURE TO SUBMIT BID (APR 1984)

Recipients of this solicitation not responding with a bid should not return this solicitation, unless it specifies otherwise. Instead, they should advise the issuing office by letter or postcard whether they want to receive future solicitations for similar requirements. If a recipient does not submit a bid and does not notify the issuing office that future solicitations are desired, the recipient's name may be removed from the applicable mailing list.

(End of provision)
(R SF 33A, Para 6, 1978 JAN)

52.214-10 Contract Award—Formal Advertising.

As prescribed in 14.201-6(e)(2), insert the following provision in invitations for bids except those for construction:

CONTRACT AWARD—FORMAL ADVERTISING (APR 1984)

(a) The Government will award a contract resulting from this solicitation to the responsible bidder whose bid conforming to the solicitation will be most advantageous to the Government, price and other factors, specified elsewhere in this solicitation, considered.

(b) The Government may (1) reject any or all bids, (2) accept other than the lowest bid, and (3) waive informalities or minor irregularities in bids received.

(c) The Government may accept any item or group of items of a bid, unless the bidder qualifies the bid by specific limitations. *Unless otherwise provided in the Schedule, bids may be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the bidder specifies otherwise in the bid.*

(d) A written award or acceptance of a bid mailed or otherwise furnished to the successful bidder within the time for acceptance specified in the bid shall result in a binding contract without further action by either party.

(End of provision)
(R SF 33A, Para 10, 1978 JAN)

52.214-11 Order of Precedence—Formal Advertising.

As prescribed in 14.201-6(f)(1), insert the following provision in invitations for bids to which the uniform contract format applies:

ORDER OF PRECEDENCE—FORMAL ADVERTISING (APR 1984)

Any inconsistency in this solicitation shall be resolved by giving precedence in the following order: (a) the Schedule (excluding the specifications); (b) representations and other instructions; (c) contract clauses; (d) other documents, exhibits, and attachments; and (e) the specifications.

(End of provision)
(R 7-2003.41 1973 APR)

52.214-12 Preparation of Bids.

As prescribed in 14.201-6(f)(2), insert the following provision in invitations for bids to which the uniform contract format applies:

PREPARATION OF BIDS (APR 1984)

(a) Bidders are expected to examine the drawings, specifications, Schedule, and all instructions. Failure to do so will be at the bidder's risk.

(b) Each bidder shall furnish the information required by the solicitation. The bidder shall sign the bid and print or type its name on the Schedule and each continuation sheet on which it makes an entry. Erasures or other changes must be initialed by the person signing the bid. Bids signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.

(c) For each item offered, bidders shall (1) show the unit price, including, unless otherwise specified, packaging, packing, and preservation and (2) enter the extended price for the quantity of each item offered in the "Amount" column of the Schedule. In case of discrepancy between a unit price and an extended price, the unit price will be presumed to be correct, subject, however, to correction to the same extent and in the same manner as any other mistake.

(d) Bids for supplies or services other than those specified will not be considered unless authorized by the solicitation.

(e) Bidders must state a definite time for delivery of supplies or for performance of services, unless otherwise specified in the solicitation.

(f) Time, if stated as a number of days, will include Saturdays, Sundays, and holidays.

(End of provision)
(R SF 33A, Para 2, 1978 JAN)

52.214-13 Telegraphic Bids.

As prescribed in 14.201-6(g), insert the following provision in invitations for bids if the contracting officer decides to authorize telegraphic bids:

TELEGRAPHIC BIDS (APR 1984)

(a) Bidders may submit telegraphic bids as responses to this solicitation. These responses must arrive at the place, and by the time, specified in the solicitation.

(b) Telegraphic bids shall refer to this solicitation and include the items or subitems, quantities, unit prices, time and place of delivery, all representations and other information required by this solicitation, and a statement of agreement with all the terms, conditions, and provisions of the invitation for bids.

(c) Telegraphic bids that fail to furnish required representations or information, or that reject any of the terms, conditions, and provisions of the solicitation, may be excluded from consideration.

(d) Bidders must promptly sign and submit complete copies of the bids in confirmation of their telegraphic bids.

(e) The term "telegraphic bids," as used in this provision, includes mailgrams.

(End of provision)
(R 7-2003.29 1964 MAR)

52.214-14 Place of Performance—Formal Advertising.

As prescribed in 14.201-6(h), insert the following provision in invitations for bids except those in which the place of performance is specified by the Government:

PLACE OF PERFORMANCE—FORMAL ADVERTISING (APR 1984)

(a) The bidder, in the performance of any contract resulting from this solicitation, ☐ intends, ☐ does not intend [*check applicable box*] to use one or more plants or facilities located at a different address from the address of the bidder as indicated in this bid.

(b) If the bidder checks "intends" in paragraph (a) above, it shall insert in the spaces provided below the required information:

Place of Performance (Street Address, City, County, State, Zip Code)	Name and Address of Owner and Operator of the Plant or Facility if Other than Bidder

(End of provision)
(R 2-201(a) Sec K (iv))
(R 1-2.201(b)(4))

52.214-15 Period for Acceptance of Bids.

As prescribed in 14.201-6(i), insert the following provision in invitations for bids (IFB's) that are not issued on Standard Form 33, Solicitation, Offer, and Award, except IFB's (1) for construction or (2) in which the Government specifies a minimum acceptance period:

PERIOD FOR ACCEPTANCE OF BIDS (APR 1984)

In compliance with the solicitation, the bidder agrees, if this bid is accepted within ..... calendar days (60 calendar days unless a different period is inserted by the bidder) from the date specified in the solicitation for

receipt of bids, to furnish any or all items upon which prices are bid at the price set opposite each item, delivered at the designated point(s), within the time specified in the Schedule.

(End of provision)
(R SF33 1977 MAR)

52.214-16 Minimum Bid Acceptance Period.

As prescribed in 14.201-6(j), insert the following provision in invitations for bids, except for construction, if the contracting officer determines that a minimum acceptance period must be specified:

MINIMUM BID ACCEPTANCE PERIOD (APR 1984)

(a) "Acceptance period," as used in this provision, means the number of calendar days available to the Government for awarding a contract from the date specified in this solicitation for receipt of bids.

(b) This provision supersedes any language pertaining to the acceptance period that may appear elsewhere in this solicitation.

(c) The Government requires a minimum acceptance period of ..... calendar days [*the Contracting Officer shall insert the number of days*].

(d) In the space provided immediately below, bidders may specify a longer acceptance period than the Government's minimum requirement.

The bidder allows the following acceptance period: ..... calendar days.

(e) A bid allowing less than the Government's minimum acceptance period will be rejected.

(f) The bidder agrees to execute all that it has undertaken to do, in compliance with its bid, if that bid is accepted in writing within (1) the acceptance period stated in paragraph (c) above or (2) any longer acceptance period stated in paragraph (d) above.

(End of provision)
(R 2-201(a) Sec. L(xvii) (A) and (B) 1975 MAR)
(R 2-201(b)(xii)(B) 1975 MAR)
(R 1-2.201(a)(15))

52.214-17 Affiliated Bidders.

As prescribed in 14.201-6(k), insert the following provision in invitations for bids if the contracting officer determines that disclosure of affiliated bidders is necessary to prevent practices prejudicial to fair and open competition, such as improper multiple bidding:

AFFILIATED BIDDERS (APR 1984)

(a) Business concerns are affiliates of each other when, either directly or indirectly, (1) one concern controls or has the power to control the other, or (2) a third party controls or has the power to control both.

(b) Each bidder shall submit with its bid an affidavit stating that it has no affiliates, or containing the following information:

(1) The names and addresses of all affiliates of the bidder.

(2) The names and addresses of all persons and concerns exercising control or ownership of the bidder and any or all of its affiliates, and whether they exercise such control or ownership as common officers, directors, stockholders holding controlling interest, or otherwise.

(End of clause)
(R 7-2003.12 1974 APR)

52.214-18 Preparation of Bids—Construction.

As prescribed in 14.201-6(l), insert the following provision in invitations for bids for construction work estimated to exceed $10,000. The use of this provision in invitations for bids for construction work that is not estimated to exceed $10,000 is optional:

PREPARATION OF BIDS—CONSTRUCTION (APR 1984)

(a) Bids must be (1) submitted on the forms furnished by the Government or on copies of those forms, and (2) manually signed. The person signing a bid must initial each erasure or change appearing on any bid form.

(b) The bid form may require bidders to submit bid prices for one or more items on various bases, including—

(1) Lump sum bidding;

(2) Alternate prices;

(3) Units of construction; or

(4) Any combination of subparagraphs (1) through (3) above.

(c) If the solicitation requires bidding on all items, failure to do so will disqualify the bid. If bidding on all items is not required, bidders should insert the words "no bid" in the space provided for any item on which no price is submitted.

(d) Alternate bids will not be considered unless this solicitation authorizes their submission.

(End of provision)
(R SF 22, Para 5, 1978 FEB)

52.214-19 Contract Award—Formal Advertising—Construction.

As prescribed in 14.201-6(m), insert the following provision in all invitations for bids for construction work that is estimated to exceed $10,000:

CONTRACT AWARD—FORMAL ADVERTISING—CONSTRUCTION (APR 1984)

(a) The Government will award a contract resulting from this solicitation to the responsible bidder whose bid, conforming to the solicitation, will be most advantageous to the Government, price and other factors considered.

(b) The Government may reject any or all bids, and waive informalities or minor irregularities in bids received.

(c) The Government may accept any item or combination of items, unless doing so is precluded by a restrictive limitation in the solicitation or the bid.

(End of provision)
(R SF 22, Para 10, 1978 FEB)

52.214-20 Bid Samples.

As prescribed in 14.201-6(o)(1), insert the following provision in invitations for bids if bid samples are required:

BID SAMPLES (APR 1984)

(a) "Bid samples" are item sample submissions required of bidders to show those characteristics of the offered products that cannot adequately be described by specifications or purchase descriptions (e.g., balance, facility of use, or pattern).

(b) Bid samples, required elsewhere in this solicitation, must be furnished as part of the bid and must be received by the time specified for receipt of bids. Failure to furnish samples on time will require rejection of the bid, except that a late sample sent by mail may be considered under the Late Submissions, Modifications, and Withdrawals of Bids provision of this solicitation.

(c) Bid samples will be tested or evaluated to determine compliance with all the characteristics listed for examination in this solicitation. Failure of these samples to conform to the required characteristics will require rejection of the bid. Products delivered under any resulting contract must conform to (1) the approved sample for the characteristics listed for test or evaluation and (2) the specifications for all other characteristics.

(d) Unless otherwise specified in the solicitation, bid samples shall be (1) submitted at no expense to the Government, and (2) returned at the bidder's request and expense, unless they are destroyed during preaward testing.

(End of provision)
(R 7-2003.30(a) 1974 APR)
(R 1-2.202-4))
(R 2-202.4 1980 OCT)
(R SF 33A 1978 JAN)

Alternate I (APR 1984). If it appears that the conditions in 14.202-4(f)(1) will apply and the contracting officer anticipates granting waivers thereunder, and if the nature of the required product *does not* necessitate limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, add the following paragraph (e) to the basic provision:

(e) At the discretion of the Contracting Officer, the requirement for furnishing bid samples may be waived for a bidder if (1) the bid states that the offered product is the same as a product offered by the bidder to the ..... [*as appropriate, the Contracting Officer shall designate the contracting office or an alternate activity or office*], and (2) the Contracting Officer determines that the previously offered product was accepted or tested and found to comply with specification and other requirements for technical acceptability conforming in every material respect with those in this solicitation.

(R 7-2003.30(b) 1974 APR)
(R 1-2.202-4)

Alternate II (APR 1984). If it appears that the conditions in 14.202-4(f)(1) will apply and the contracting officer anticipates granting waivers thereunder, and if the nature of the required product necessitates limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, add the following paragraph (e) to the basic provision:

(e) At the discretion of the Contracting Officer, the requirements for furnishing bid samples may be waived for a bidder if (1) the bid states that the offered product is the same as a product offered by the bidder to the ..... [*as appropriate, the Contracting Officer shall designate the contracting office or an alternate activity or office*] on a previous acquisition, (2) the Contracting Officer determines that the previously offered product was accepted or tested and found to comply with specification and other requirements for technical acceptability conforming in every material respect with those of this solicitation, and (3) the product offered under this solicitation will be produced under a resulting contract at the same plant in which the previously acquired or tested product was produced.

(R 7-2003.30(b) 1974 APR)

52.214-21 Descriptive Literature.

As prescribed in 14.201-6(p)(1), insert the following provision in invitations for bids if (a) descriptive literature is required to evaluate the technical acceptability of an offered product and (b) the required information will not be readily available unless it is submitted by bidders:

DESCRIPTIVE LITERATURE (APR 1984)

(a) "Descriptive literature" means information (e.g., cuts, illustrations, drawings, and brochures) that is submitted as part of a bid. Descriptive literature is required to establish, for the purpose of evaluation and award, details of the product offered that are specified elsewhere in the solicitation and pertain to significant elements such as (1) design; (2) materials; (3) components; (4) performance characteristics; and (5) methods of manufacture, assembly, construction, or operation. The term includes only information required to determine the technical acceptability of the offered product. It does not include other information such as that used in determining the responsibility of a prospective Contractor or for operating or maintaining equipment.

(b) Descriptive literature, required elsewhere in this solicitation, must be (1) identified to show the item(s) of the offer to which it applies and (2) received by the time specified in this solicitation for receipt of bids. Failure to submit descriptive literature on time will require rejection of the bid, except that late descriptive literature sent by mail may be considered under the Late Submissions, Modifications, and Withdrawals of Bids provision of this solicitation.

(c) The failure of descriptive literature to show that the product offered conforms to the requirements of this solicitation will require rejection of the bid.

(End of provision)
(R 7-2003.31(a) UNDATED)
(R 1-2.202-5(d))

Alternate I (APR 1984). If the possibility exists that the contracting officer may waive the requirement for furnishing descriptive literature for a bidder offering a previously supplied product that meets specification requirements of the current solicitation, add the following paragraphs (d) and (e).

(d) At the discretion of the Contracting Officer, the requirement for furnishing descriptive literature under this solicitation may be waived for any bidder that makes an affirmative representation in subparagraph (d)(1) below, if the Contracting Officer determines that the product supplied by the bidder under a prior contract meets the requirements of this solicitation.

(1) The bidder represents that it ☐ has, ☐ has not [*check applicable box*] supplied a product to the ..... [*as appropriate, the Contracting Officer shall designate the contracting office or an alternate activity or office*] under a prior contract that is the same as the product offered under this solicitation for which descriptive literature is required.

(2) If the bidder checked "has" in paragraph (d)(1) above, and seeks a waiver of the requirement for submitting descriptive literature, the bidder must fill in the following information:

Prior contract number .....
Date of prior contract.....
Contract line item number of product supplied .....
Name and address of government activity to which delivery was made.....
Date of final delivery of product supplied .....

(e) Bidders must submit bids on the basis of required descriptive literature or on the basis of a previously supplied product under paragraph (d) above. A bidder submitting a bid on one of these two bases may not elect to have its bid considered on the alternative basis after the time specified for receipt of bids. A bidder's request for a waiver under paragraph (d) above will be disregarded if that bidder has submitted the descriptive literature required under this solicitation.

(R 1-2003.31(b) UNDATED)
(R 2.202-5(e))

52.214-22 Evaluation of Bids for Multiple Awards.

As prescribed in 14.201-6(q), insert the following provision in invitations for bids when the contracting officer determines that multiple awards might be made if doing so is economically advantageous to the Government:

EVALUATION OF BIDS FOR MULTIPLE AWARDS (APR 1984)

In addition to other factors, bids will be evaluated on the basis of advantages and disadvantages to the Government that might result from making more than one award (multiple awards). It is assumed, for the purpose of evaluating bids, that $250 would be the administrative cost to the Government for issuing and administering each contract awarded under this solicitation, and individual awards will be for the items or combinations of items that result in the lowest aggregate cost to the Government, including the assumed administrative costs.

(End of provision)
(R 7-2003.23(b) 1982 AUG)

52.214-23 Late Submissions, Modifications, and Withdrawals of Technical Proposals under Two-Step Formal Advertising.

As prescribed in 14.201-6(r), insert the following provision in solicitations for technical proposals in step one of two-step formal advertising:

LATE SUBMISSIONS, MODIFICATIONS, AND WITHDRAWALS OF TECHNICAL PROPOSALS UNDER TWO-STEP FORMAL ADVERTISING (APR 1984)

(a) Any technical proposal under step one of two-step formal advertising received at the office designated in this solicitation after the exact time specified for receipt will not be considered unless it is received before the invitation for bids in step two is issued and it—

(1) Was sent by registered or certified mail not later than the 5th calendar day before the date specified for receipt of technical proposals (e.g., a technical proposal submitted in response to a solicitation requiring receipt of technical proposals by the 20th of the month must have been mailed by the 15th);

(2) Was sent (i) by mail, or (ii) if authorized, by telegram (including mailgram), and it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation; or

(3) Is the only technical proposal received.

(b) Any modification of a technical proposal is subject to the same conditions as in paragraph (a) above, except that the use of a telegram (or mailgram) is authorized.

(c) Technical proposals may be withdrawn by written notice or telegram (including mailgram) received at any time before the exact time set for receipt of bids under step two. Technical proposals may be withdrawn in person by the submitter or the submitter's authorized representative if, before the exact time set for receipt of bids in step two, the identity of the person requesting withdrawal is established and that person signs a receipt for the technical proposal.

(d) The only acceptable evidence to establish the date of mailing of a late technical proposal, modification, or withdrawal of a technical proposal sent either by registered or certified mail is the U.S. or Canadian Postal Service postmark on the wrapper or on the original receipt from the U.S. or Canadian Postal Service. If neither postmark shows a legible date, the technical

proposal, modification, or withdrawal of technical proposal shall be processed as if mailed late. "Postmark" means a printed, stamped, or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S. or Canadian Postal Service on the date of mailing. Therefore, submitters of technical proposals should request the postal clerks to place a hand cancellation bull's-eye postmark on both the receipt and the envelope or wrapper.

(e) The only acceptable evidence to establish the time of receipt at the Government installation is the time/date stamp of that installation on the proposal wrapper or other documentary evidence of receipt maintained by the installation.

(End of provision)
(R 7-2003.3 1979 MAR)

52.214-24 Multiple Technical Proposals.

As prescribed in 14.201-6(s), insert the following provision in solicitations for technical proposals in step one of two-step formal advertising if the contracting officer permits the submission of multiple proposals:

MULTIPLE TECHNICAL PROPOSALS (APR 1984)

In the first step of this two-step acquisition, solicited sources are encouraged to submit multiple technical proposals presenting different basic approaches. Each technical proposal submitted will be separately evaluated and the submitter will be notified as to its acceptability.

(End of provision)
(R 7-2003.36 1974 APR)
(R 1-2.502-1(a)(10))

52.214-25 Step Two of Two-Step Formal Advertising.

As prescribed in 14.201-6(t), insert the following provision in invitations for bids issued under step two of two-step formal advertising:

STEP TWO OF TWO-STEP FORMAL ADVERTISING (APR 1984)

(a) This invitation for bids is issued to initiate step two of two-step formal advertising under Subpart 14.5 of the Federal Acquisition Regulation.

(b) The only bids that the Contracting Officer may consider for award of a contract are those received from bidders that have submitted acceptable technical proposals in step one of this acquisition under .....[*the Contracting Officer shall insert the identification of the step-one request for technical proposals*].

(c) Any bidder that has submitted multiple technical proposals in step one of this acquisition may submit a separate bid on each technical proposal that was determined to be acceptable to the Government.

(End of provision)
(R 7-2003.37 1974 APR)
(R 1-2.503-2(b))

52.214-26 Audit—Formal Advertising.

As prescribed in 14.201-7(a), when contracting by formal advertising, insert the following clause in solicitations and contracts if the contract amount is expected to exceed $100,000:

AUDIT—FORMAL ADVERTISING (APR 1984)

(a) *Cost or pricing data.* If the Contractor has submitted cost or pricing data in connection with the pricing of any modification to this contract, unless the pricing was based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the Contracting Officer or a representative who is an employee of the Government shall have the right to examine and audit all books, records, documents, and other data of the Contractor (including computations and projections) related to negotiating, pricing or performing the modification, in order to evaluate the accuracy, completeness, and currency of the cost or pricing data. In the case of pricing any modification, the Comptroller General of the United States or a representative who is an employee of the Government shall have the same rights.

(b) *Availability.* The Contractor shall make available at its office at all reasonable times the materials described in paragraph (a) above, for examination, audit, or reproduction, until 3 years after final payment under this contract, or for any other period specified in Subpart 4.7 of the Federal Acquisition Regulation (FAR). FAR Subpart 4.7, Contractor Records Retention, in effect on the date of this contract, is incorporated by reference in its entirety and made a part of this contract.

(1) If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement.

(2) Records pertaining to appeals under the Disputes clause or to litigation or the settlement of claims arising under or relating to the performance of this contract shall be made available until disposition of such appeals, litigation, or claims.

(c) The Contractor shall insert a clause containing all the provisions of this clause, including this paragraph (c), in all subcontracts over $10,000 under this contract, altering the clause only as necessary to identify properly the contracting parties and the contracting office under the Government prime contract.

(End of clause)
(R 7-104.41(a) 1982 DEC)
(R 1-3.814-2(a))

52.214-27 Price Reduction for Defective Cost or Pricing Data—Modifications—Formal Advertising.

As prescribed in 14.201-7(b), when contracting by formal advertising, insert the following clause in solicitations and contracts if the contract amount is expected to exceed $500,000, unless a contract with a foreign government or an agency of that government is contemplated and the head of the contracting activity has waived the requirement for the inclusion of the clause:

PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA—MODIFICATIONS—FORMAL ADVERTISING (APR 1984)

(a) This clause shall become operative only for any modification to this contract involving aggregate increases and/or decreases in costs, plus applicable profits, of more than $500,000 except that this clause does not apply to any modification for which the price is—

(1) Based on adequate price competition;

(2) Based on established catalog or market prices of commercial items sold in substantial quantities to the general public; or

(3) Set by law or regulation.

(b) If any price, including profit, negotiated in connection with any modification under this clause, was increased by any significant amount because (1) the Contractor or a subcontractor furnished cost or pricing data that were not complete, accurate, and current as certified in its Certificate of Current Cost or Pricing Data, (2) a subcontractor or prospective subcontractor furnished the Contractor cost or pricing data that were not complete, accurate, and current as certified in the Contractor's Certificate of Current Cost or Pricing Data, or (3) any of these parties furnished data of any description that were not accurate, the price shall be reduced accordingly and the contract shall be modified to reflect the reduction. This right to a price reduction is limited to that resulting from defects in data relating to modifications for which this clause becomes operative under paragraph (a) above.

(c) Any reduction in the contract price under paragraph (b) above due to defective data from a prospective subcontractor that was not subsequently awarded the subcontract shall be limited to the amount, plus applicable overhead and profit markup, by which (1) the actual subcontract or (2) the actual cost to the Contractor, if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor; *provided*, that the actual subcontract price was not itself affected by defective cost or pricing data.

(End of clause)
(R 7-104.29(b) 1982 DEC)
(R 1-3.814-1(b))

52.214-28 Subcontractor Cost or Pricing Data—Modifications—Formal Advertising.

As prescribed in 14.201-7(c), when contracting by formal advertising, insert the following clause in solicitations and contracts if the contract amount is expected to exceed $500,000, unless a contract with a foreign government is contemplated and the head of the

contracting activity has waived the requirement for the inclusion of this clause:

SUBCONTRACTOR COST OR PRICING DATA—MODIFICATIONS—FORMAL ADVERTISING (APR 1984)

(a) The requirements of paragraphs (b) and (c) of this clause shall (1) become operative only for any modification to this contract involving aggregate increases and/or decreases in costs, plus applicable profits, expected to exceed $500,000 and (2) be limited to such modifications.

(b) Before awarding any subcontract expected to exceed $500,000 when entered into, or pricing any subcontract modification involving aggregate increases and/or decreases in costs, plus applicable profits, expected to exceed $500,000, the Contractor shall require the subcontractor to submit cost or pricing data (actually or by specific identification in writing), unless the price is—

(1) Based an adequate completion;

(2) Based on established catalog or market prices of commercial items sold in substantial quantities to the general public; or

(3) Set by law or regulation.

(c) The Contractor shall require the subcontractor to certify in substantially the form prescribed in subsection 15.804-4 of the Federal Acquisition Regulation that, to the best of its knowledge and belief, the data submitted under paragraph (b) above were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract modification.

(d) The Contractor shall insert the substance of this clause, including this paragraph (d), in each subcontract that exceeds $500,000 when entered into.

(End of clause)
(R 7-104.42(b) 1982 DEC)
(R 1-3.814-3(b))

52.215-1 Examination of Records by Comptroller General.

As prescribed in 15.106-1(b), when contracting by negotiation (including small business restricted advertising), insert the following clause in solicitations and contracts except when (a) making small purchases (see Part 13), (b) contracting for utility services at rates not exceeding those established to apply uniformly to the public, plus any applicable reasonable connection charge, or (c) making contracts with foreign contractors for which the agency head authorizes omission under Subpart 25.9:

EXAMINATION OF RECORDS BY COMPTROLLER GENERAL (APR 1984)

(a) This clause applies if this contract exceeds $10,000 and was entered into by negotiation.

(b) The Comptroller General of the United States or a duly authorized representative from the General Accounting Office shall, until 3 years after final payment under this contract or for any shorter period specified in Federal Acquisition Regulation (FAR) Subpart 4.7, Contractor Records Retention, have access to and the right to examine any of the Contractor's directly pertinent books, documents, papers, or other records involving transactions related to this contract.

(c) The Contractor agrees to include in first-tier subcontracts under this contract a clause to the effect that the Comptroller General or a duly authorized representative from the General Accounting Office shall, until 3 years after final payment under the subcontract or for any shorter period specified in FAR Subpart 4.7, have access to and the right to examine any of the subcontractor's directly pertinent books, documents, papers, or other records involving transactions related to the subcontract. "Subcontract," as used in this clause, excludes (1) purchase orders not exceeding $10,000 and (2) subcontracts or purchase orders for public utility services at rates established to apply uniformly to the public, plus any applicable reasonable connection charge.

(d) The periods of access and examination in paragraphs (b) and (c) above for records relating to (1) appeals under the Disputes clause, (2) litigation or settlement of claims arising from the performance of this contract, or (3) costs and expenses of this contract to which the Comptroller General or a duly authorized representative from the General Accounting Office has taken exception shall continue until such appeals, litigation, claims, or exceptions are disposed of.

(End of clause)
(R 7-104.15 1975 JUN)
(R 1-7.103-3)

52.215-2 Audit—Negotiation.

As prescribed in 15.106-2(b), when contracting by negotiation, insert the following clause in solicitations and contracts, unless the acquisition is a small purchase under Part 13:

AUDIT—NEGOTIATION (APR 1984)

(a) *Examination of costs.* If this is a cost-reimbursement, incentive, time-and-materials, labor-hour, or price-redeterminable contract, or any combination of these, the Contractor shall maintain—and the Contracting Officer or representatives of the Contracting Officer shall have the right to examine and audit—books, records, documents, and other evidence and accounting procedures and practices, sufficient to reflect properly all costs claimed to have been incurred or anticipated to be incurred in performing this contract. This right of examination shall include inspection at all reasonable times of the Contractor's plants, or parts of them, engaged in performing the contract.

(b) *Cost or pricing data.* If, pursuant to law, the Contractor has been required to submit cost or pricing data in connection with pricing this contract or any modification to this contract, the Contracting Officer or representatives of the Contracting Officer who are employees of the Government shall have the right to examine and audit all books, records, documents, and other data of the Contractor (including computations and projections) related to negotiating, pricing, or performing the contract or modification, in order to evaluate the accuracy, completeness, and currency of the cost or pricing data. The right of examination shall extend to all documents necessary to permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used.

(c) *Reports.* If the Contractor is required to furnish cost, funding, or performance reports, the Contracting Officer or representatives of the Contracting Officer who are employees of the Government shall have the right to examine and audit books, records, other documents, and supporting materials, for the purpose of evaluating (1) the effectiveness of the Contractor's policies and procedures to produce data compatible with the objectives of these reports and (2) the data reported.

(d) *Availability.* The Contractor shall make available at its office at all reasonable times the materials described in paragraphs (a) and (b) above, for examination, audit, or reproduction, until 3 years after final payment under this contract, or for any shorter period specified in Subpart 4.7, Contractor Records Retention, of the Federal Acquisition Regulation, or for any longer period required by statute or by other clauses of this contract. In addition—

(1) If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement; and

(2) Records relating to appeals under the Disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are disposed of.

(e) The Contractor shall insert a clause containing all the terms of this clause, including this paragraph (e), in all subcontracts over $10,000 under this contract, altering the clause only as necessary to identify properly the contracting parties and the Contracting Officer under the Government prime contract.

(End of clause)
(R 7-104.41(a) 1978 AUG)
(R 1-3.814-2(a))
(R 7-303.28)
(R 7-402.30)
(R 7-603.20)
(R 7-605.11)
(R 7-607.22)
(R 7-802.7)
(R 7-901.16)
(R 7-1702.15 1971 APR)
(R 7-1903.29)
(R 7-1909.24)
(R 7-2102.19)

Alternate I (APR 1984). In facilities contracts, add the following sentence at the end of paragraph (a) of the basic clause:

The obligations and rights specified in this paragraph shall extend to the use of, and charges for the use of, the facilities under this contract.

(R 7-104.41(b) 1978 AUG)
(R 7-702.48)
(R 7-703.41)
(R 7-704.33)

52.215-3 Solicitation for Information or Planning Purposes.

As prescribed in 15.405-2, insert the following provision on the face of each solicitation (other than those excluded by 15.401) issued for information or planning purposes:

SOLICITATION FOR INFORMATION OR PLANNING PURPOSES (APR 1984)

(a) The Government does not intend to award a contract on the basis of this solicitation or to otherwise pay for the information solicited except as provided in subsection 31.205-18, Bid and proposal (B&P) costs, of the Federal Acquisition Regulation.

(b) This solicitation is issued for the purpose of: [*state purpose*].

(End of provision)
(R 1-309)

52.215-4 Notice of Possible Standardization.

As prescribed in 15.407(b), upon the approval of chief of the contracting office (see 15.213(d)), the following provision may be inserted in requests for proposals, other than those excluded by 15.401 and those for information or planning purposes, for supplies that subsequently might be standardized for the applications specified in 15.213(b)(1) (see 14.201-6(n) regarding use of the provision in invitations for bids):

NOTICE OF POSSIBLE STANDARDIZATION (APR 1984)

If the supplies for which this solicitation has been issued are established as standard, future contracts for the required supplies may be negotiated under the authority of section 15.213 of the Federal Acquisition Regulation.

(End of provision)
(R 7-2003.38 1975 OCT)

52.215-5 Solicitation Definitions.

As prescribed 15.407(c)(1), insert the following provision in requests for proposals and requests for quotations:

SOLICITATION DEFINITIONS (APR 1984)

"Offer" means "proposal" in negotiation.

"Solicitation" means a request for proposals (RFP) or a request for quotations (RFQ) in negotiation.

(End of provision)
(R SF 33A, Para 1, 1978 JAN)

52.215-6 Type of Business Organization.

As prescribed in 15.407(c)(2), insert the following provision in requests for proposals and requests for quotations:

TYPE OF BUSINESS ORGANIZATION (APR 1984)

The offeror or quoter, by checking the applicable box, represents that it operates as ☐ a corporation incorporated under the laws of the State of ....., ☐ an individual, ☐ a partnership, ☐ a nonprofit organization, or ☐ a joint venture.

(End of provision)
(AV SF 33 1977 MAR)
(R SF 19B, Para 4, 1976 JUNE)

52.215-7 Unnecessarily Elaborate Proposals or Quotations.

As prescribed in 15.407(c)(3), insert the following provision in requests for proposals and requests for quotations:

UNNECESSARILY ELABORATE PROPOSALS OR QUOTATIONS (APR 1984)

Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to this solicitation are not desired and may be construed as an indication of the offeror's or quoter's lack of cost consciousness. Elaborate art work, expensive paper and bindings, and expensive visual and other presentation aids are neither necessary nor wanted.

(End of provision)
(AV 7-2003.40 1969 OCT)

52.215-8 Acknowledgment of Amendments to Solicitations.

As prescribed in 15.407(c)(4), insert the following provision in requests for proposals:

ACKNOWLEDGMENT OF AMENDMENTS TO SOLICITATIONS (APR 1984)

Offerors shall acknowledge receipt of any amendment to this solicitation (a) by signing and returning the amendment; (b) by identifying the amendment number and date in the space provided for this purpose on the form for submitting an offer; or (c) by letter or telegram. The Government must receive the acknowledgment by the time specified for receipt of offers.

(End of provision)
(R SF 33A Para 4, 1978 JAN)

52.215-9 Submission of Offers.

As prescribed in 15.407(c)(5), insert the following provision in requests for proposals:

SUBMISSION OF OFFERS (APR 1984)

(a) Offers and modifications thereof shall be submitted in sealed envelopes or packages (1) addressed to the office specified in the solicitation and (2) showing the time specified for receipt, the solicitation number, and the name and address of the offeror.

(b) Telegraphic offers will not be considered unless authorized by the solicitation; however, offers may be modified by written or telegraphic notice, if that notice is received by the time specified for receipt of offers.

(c) Item samples, if required, must be submitted within the time specified for receipt of offers. Unless otherwise specified in the solicitation, these samples shall be (1) submitted at no expense to the Government and (2) returned at the sender's request and expense, unless they are destroyed during preward testing.

(End of provision)
(R SF 33A Para 5, 1978 JAN)

52.215-10 Late Submissions, Modifications, and Withdrawals of Proposals.

As prescribed in 15.407(c)(6), insert the following provision in requests for proposals:

LATE SUBMISSIONS, MODIFICATIONS, AND WITHDRAWALS OF PROPOSALS (APR 1984)

(a) Any proposal received at the office designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award is made and it—

(1) Was sent by registered or certified mail not later than the fifth calendar day before the date specified for receipt of offers (e.g., an offer submitted in response to a solicitation requiring receipt of offers by the 20th of the month must have been mailed by the 15th);

(2) Was sent by mail (or telegram if authorized) and it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation; or

(3) Is the only proposal received.

(b) Any modification of a proposal or quotation, except a modification resulting from the Contracting Officer's request for "best and final" offer, is subject to the same conditions as in subparagraphs (a)(1) and (2) above.

(c) A modification resulting from the Contracting Officer's request for "best and final" offer received after the time and date specified in the request will not be considered unless received before award and the late receipt is due solely to mishandling by the Government after receipt at the Government installation.

(d) The only acceptable evidence to establish the date of mailing of a late proposal or modification sent either by registered or certified mail is the U.S. or Canadian Postal Service postmark on the wrapper or on the original receipt from the U.S. or Canadian Postal Service. If neither postmark shows a legible date, the proposal, quotation, or modification shall be processed as if mailed late. "Postmark" means a printed, stamped, or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S. or Canadian Postal Service on the date of mailing. Therefore, offerors or quoters should request the postal clerks to place a hand cancellation bull's-eye postmark on both the receipt and the envelope or wrapper.

(e) The only acceptable evidence to establish the time of receipt at the Government installation is the time/date stamp of that installation on the proposal wrapper or other documentary evidence of receipt maintained by the installation.

(f) Notwithstanding paragraph (a) above, a late modification of an otherwise successful

proposal that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(g) Proposals may be withdrawn by written notice or telegram (including mailgram) received at any time before award. Proposals may be withdrawn in person by an offeror or an authorized representative, if the representative's identity is made known and the representative signs a receipt for the proposal before award.

(End of provision)
(R 7-2002.4 1979 MAR)
(1-3.802.1)

52.215-11 Authorized Negotiators.

As prescribed in 15.407(c)(7), insert the following provision in all requests for proposals and requests for quotations:

AUTHORIZED NEGOTIATORS (APR 1984)

The offeror or quoter represents that the following persons are authorized to negotiate on its behalf with the Government in connection with this request for proposals or quotations: [*list names, titles, and telephone numbers of the authorized negotiators*].

(End of provision)
(R 3-501(b) Sec K (iv))

52.215-12 Restriction on Disclosure and Use of Data.

As prescribed in 15.407(c)(8), insert the following provision in requests for proposals and requests for quotations:

RESTRICTION ON DISCLOSURE AND USE OF DATA (APR 1984)

Offerors or quoters who include in their proposals or quotations data that they do not want disclosed to the public for any purpose or used by the Government except for evaluation purposes, shall—

(a) Mark the title page with the following legend:

"This proposal or quotation includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed—in whole or in part— for any purpose other than to evaluate this proposal or quotation. If, however, a contract is awarded to this offeror or quoter as a result of—or in connection with— the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [*insert numbers or other identification of sheets*]"; and

(b) Mark each sheet of data it wishes to restrict with the following legend:

"Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal or quotation."

(End of provision)
(R 3-501(b) Sec L (xxiv))

52.215-13 Preparation of Offers.

As prescribed in 15.407(d)(1), insert the following provision in requests for proposals other than those excluded by 15.401:

PREPARATION OF OFFERS (APR 1984)

(a) Offerors are expected to examine the drawings, specifications, Schedule, and all instructions. Failure to do so will be at the offeror's risk.

(b) Each offeror shall furnish the information required by the solicitation. The offeror shall sign the offer and print or type its name on the Schedule and each continuation sheet on which it makes an entry. Erasures or other changes must be initialed by the person signing the offer. Offers signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.

(c) For each item offered, offerors shall (1) show the unit price/cost, including, unless otherwise specified, packaging, packing, and preservation and (2) enter the extended price/cost for the quantity of each item offered in the "Amount" column of the Schedule. In case of discrepancy between a unit price/cost and an extended price/cost, the unit price/cost will be presumed to be correct, subject, however, to correction to the same extent and in the same manner as any other mistake.

(d) Offers for supplies or services other than those specified will not be considered unless authorized by the solicitation.

(e) Offerors must state a definite time for delivery of supplies or for performance of services, unless otherwise specified in the solicitation.

(f) Time, if stated as a number of days, will include Saturdays, Sundays, and holidays.

(End of provision)
(R SF 33A, Para 2, 1978 JAN)

52.215-14 Explanation to Prospective Offerors.

As prescribed in 15.407(d)(2), insert the following provision in requests for proposals other than those excluded by 15.401:

EXPLANATION TO PROSPECTIVE OFFERORS (APR 1984)

Any prospective offeror desiring an explanation or interpretation of the solicitation, drawings, specifications, etc., must request it in writing soon enough to allow a reply to reach all propsective offerors before the submission of their offers. Oral explanations or instructions given before the award of the contract will not be binding. Any information given to a prospective offeror concerning a solicitation will be furnished promptly to all other prospective offerors as an amendment of the solicitation, if that information is necessary in submitting offers or if the lack of it would be prejudicial to any other prospective offerors.

(End of provision)
(R SF 33A, Para 3, 1978 JAN)

52.215-15 Failure to Submit Offer.

As prescribed in 15.407(d)(3), insert the following provision in requests for proposals other than those excluded by 15.401:

FAILURE TO SUBMIT OFFER (APR 1984)

Recipients of this solicitation not responding with an offer should not return this solicitation, unless it specifies otherwise. Instead, they should advise the issuing office by letter or postcard whether they want to receive future solicitations for similar requirements. If a recipient does not submit an offer and does not notify the issuing office that future solicitations are desired, the recipient's name may be removed from the applicable mailing list.

(End of provision)
(R SF 33A, Para 6, 1978 JAN)

52.215-16 Contract Award.

As prescribed in 15.407(d)(4), insert the following provision in requests for proposals other than those excluded by 15.401:

CONTRACT AWARD (APR 1984)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, cost or price and other factors, specified elsewhere in this solicitation, considered.

(b) The Government may (1) reject any or all offers, (2) accept other than the lowest offer, and (3) waive informalities and minor irregularities in offers received.

(c) The Government may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the offeror's best terms from a cost or price and technical standpoint.

(d) The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. *Unless otherwise provided in the Schedule, offers may be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the offer.*

(e) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer, as provided in paragraph (d) above), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award. Negotiations conducted after receipt of an offer do not constitute a rejection or counteroffer by the Government.

(f) Neither financial data submitted with an offer, nor representations concerning facilities or financing, will form a part of the resulting contract. However, if the resulting contract contains a clause providing for price reduction for defective cost or pricing data, the contract price will be subject to reduction if cost or pricing data furnished is incomplete, inaccurate, or not current.

(End of provision)
(R SF 33A, Para 10, 1978 JAN)

52.215-17 Telegraphic Proposals.

As prescribed in 15.407(e), insert the following provision in requests for proposals that authorize telegraphic proposals or quotations:

TELEGRAPHIC PROPOSALS (APR 1984)

(a) Offerors or quoters may submit telegraphic responses to this solicitation. These responses must arrive in the contracting office by the time specified in this solicitation.

(b) Telegraphic responses shall refer to this solicitation and include the item or sub-items, quantities, unit prices, time and place of delivery, all representations and other information required by this solicitation, and a statement specifying the extent of agreement with all the terms, conditions, and provisions of the solicitation.

(c) Telegraphic responses that fail to furnish required representations or information, or that reject any of the terms, conditions and provisions of the solicitation, may be excluded from consideration.

(d) Offerors must promptly sign and submit complete copies of the proposals in confirmation of their telegraphic responses.

(e) The term "telegraphic responses," as used in the provision, includes mailgrams.

(End of provision)
(R 7-2003.29 1964 MAR)

52.215-18 Order of Precedence.

As prescribed in 15.407(f), insert the following provision in all requests for proposals to which the uniform contract format applies:

ORDER OF PRECEDENCE (APR 1984)

Any inconsistency in this solicitation shall be resolved by giving precedence in the following order: (a) the Schedule (excluding the specifications); (b) representations and other instructions; (c) contract clauses; (d) other documents, exhibits, and attachments; and (e) the specifications.

(End of provision)
(R 7-2003.41 1973 APR)

52.215-19 Period for Acceptance of Offer.

As prescribed in 15.407(g), insert the following provision in requests for proposals (other than those excluded by 15.401) that are not issued on SF 33 except those (a) for construction work or (b) in which the Government specifies a minimum acceptance period:

PERIOD FOR ACCEPTANCE OF OFFER (APR 1984)

In compliance with the solicitation, the offeror agrees, if this offer is accepted within.....calendar days (60 calendar days unless a different period is inserted by the offeror) from the date specified in the solicitation for receipt of offers, to furnish any or all items on which prices are offered at the price set opposite each item, delivered at the designated point(s), within the time specified in the Schedule.

(End of provision)
(R SF 33 1977 MAR)

52.215-20 Place of Performance.

As prescribed in 15.407(h), insert the following provision in requests for proposals, and in requests for quotations, other than those excluded by 15.401 and those for information or planning purposes, except those in which the place of performance is specified by the Government:

PLACE OF PERFORMANCE (APR 1984)

(a) The offeror or quoter, in the performance of any contract resulting from this solicitation, ☐ intends, ☐ does not intend (check applicable block) to use one or more plants or facilities located at a different address from the address of the offeror or quoter as indicated in this proposal or quotation.

(b) If the offeror or quoter checks "intends" in paragraph (a) above, it shall insert in the spaces provided below the required information:

Place of Performance (Street Address, City, County, State, Zip Code)	Name and Address of Owner and Operator of the Plant or Facility if Other than Offeror or Quoter

(End of provision)
(R 3-501(b) Sec K (viii))

52.215-21 Changes or Additions to Make-or-Buy Program.

As prescribed in 15.708, insert the following clause in solicitations and contracts when it is contemplated that a make-or-buy program will be incorporated in the contract:

CHANGES OR ADDITIONS TO MAKE-OR-BUY PROGRAM (APR 1984)

(a) The Contractor shall perform in accordance with the make-or-buy program incorporated in this contract. If the Contractor proposes to change the program, the Contractor shall, reasonably in advance of the proposed change, (1) notify the Contracting Officer in writing and (2) submit justification in sufficient detail to permit evaluation. Changes in the place of performance of any "make" items in the program are subject to this requirement.

(b) For items deferred at the time of negotiation of this contract for later addition to the program, the Contractor shall, at the earliest possible time, (1) notify the Contracting Officer of each proposed addition and (2) provide justification in sufficient detail to permit evaluation.

(c) Modification of the make-or-buy program to incorporate proposed changes or additions shall be effective upon the Contractor's receipt of the Contracting Officer's written approval.

(End of clause)
(R 7-204.20(a) 1967 APR)
(R 1-3.902-3)

Alternate I (APR 1984). If a less economical "make" or "buy" categorization is selected for one or more items of significant value when a fixed-price incentive contract is contemplated, add the following paragraph (d) to the basic clause:

(d) If the Contractor desires to reverse the categorization of "make" or "buy" for any item or items designated in the contract as subject to this paragraph, it shall (1) support its proposal with cost or pricing data to permit evaluation and (2), after approval is granted, promptly negotiate with the Contracting Officer an equitable reduction in the contract price in accordance with paragraph (k) of the Incentive Price Revision—Firm Target clause or paragraph (m) of the Incentive Price Revision—Successive Targets clause of this contract.

(R 7-204.20(b) 1967 APR)

Alternate II (APR 1984). If a less economical "make" or "buy" categorization is selected for one or more items of significant value when a cost-plus-incentive-fee contract is contemplated, add the following paragraph (d) to the basic clause:

(d) If the Contractor desires to reverse the categorization of "make" or "buy" for any item or items designated in the contract as subject to this paragraph, it shall (1) support its proposal with cost or pricing data to permit evaluation and (2), after approval is granted, promptly negotiate with the Contracting Officer an equitable reduction in the contract's total estimated cost and fee in accordance with paragraph (e) of the Incentive Fee clause.

(R 7-204.20(b) 1967 APR)

52.215-22 Price Reduction for Defective Cost or Pricing Data.

As prescribed in 15.804-8(a), when contracting by negotiation, insert the following clause in solicitations and contracts when it is contemplated that cost or pricing data will be required (see 15.804-2):

PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA (APR 1984)

(a) If any price, including profit or fee, negotiated in connection with this contract, or any cost reimbursable under this contract, was increased by any significant amount because (1) the Contractor or a subcontractor furnished cost or pricing data that were not complete, accurate, and current as certified in its Certificate of Current Cost or Pricing Data,

(2) a subcontractor or prospective subcontractor furnished the Contractor cost or pricing data that were not complete, accurate, and current as certified in the Contractor's Certificate of Current Cost or Pricing Data, or (3) any of these parties furnished data of any description that were not accurate, the price or cost shall be reduced accordingly and the contract shall be modified to reflect the reduction.

(b) Any reduction in the contract price under paragraph (a) above due to defective data from a prospective subcontractor that was not subsequently awarded the subcontract shall be limited to the amount, plus applicable overhead and profit markup, by which (1) the actual subcontract or (2) the actual cost to the Contractor, if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor; *provided*, that the actual subcontract price was not itself affected by defective cost or pricing data.

(End of clause)
(R 7-104.29(a) 1970 JAN)
(R 1-3.814-1(a))

52.215-23 Price Reduction for Defective Cost or Pricing Data—Modifications.

As prescribed in 15.804-8(b), when contracting by negotiation, insert the following clause in solicitations and contracts when (a) it is contemplated that cost or pricing data will be required (see 15.804-2) for the pricing of contract modifications, and (b) the clause prescribed in 15.804-8(a) has not been included. If the contract amount is expected to be $500,000 or less, the contracting officer shall reduce the dollar amounts specified in the clause, as appropriate.

PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA—MODIFICATIONS (APR 1984)

(a) This clause shall become operative only for any modification to this contract involving a pricing adjustment expected to exceed $500,000, except that this clause does not apply to any modification for which the price is—

(1) Based on adequate price competition;

(2) Based on established catalog or market prices of commercial items sold in substantial quantities to the general public; or

(3) Set by law or regulation.

(b) If any price, including profit or fee, negotiated in connection with any modification under this clause, or any cost reimbursable under this contract, was increased by any significant amount because (1) the Contractor or a subcontractor furnished cost or pricing data that were not complete, accurate, and current as certified in its Certificate of Current Cost or Pricing Data, (2) a subcontractor or prospective subcontractor furnished the Contractor cost or pricing data that were not complete, accurate, and current as certified in the Contractor's Certificate of Current Cost or Pricing Data, or (3) any of these parties furnished data of any description that were not accurate, the price or cost shall be reduced accordingly and the contract shall be modified to reflect the reduction. This right to a price reduction is limited to that resulting from defects in data relating to modifications for which this clause becomes operative under paragraph (a) above.

(c) Any reduction in the contract price under paragraph (b) above due to defective data from a prospective subcontractor that was not subsequently awarded the subcontract shall be limited to the amount, plus applicable overhead and profit markup, by which (1) the actual subcontract or (2) the actual cost to the Contractor, if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor; *provided*, that the actual subcontract price was not itself affected by defective cost or pricing data.

(End of clause)
(R 7-104.29(b) 1970 JAN)
(R 1-3.814-1(b))

52.215-24 Subcontractor Cost or Pricing Data.

As prescribed in 15.804-8(c), insert the following clause in solicitations and contracts when the clause prescribed in 15.804-8(a) is included. If the contract amount is expected to be $500,000 or less, the contracting officer shall reduce the dollar amounts specified in the clause, as appropriate.

SUBCONTRACTOR COST OR PRICING DATA (APR 1984)

(a) Before awarding any subcontract expected to exceed $500,000 when entered into, or before pricing any subcontract modification involving a pricing adjustment expected to exceed $500,000, the Contractor shall require the subcontractor to submit cost or pricing data (actually or by specific identification in writing), unless the price is—

(1) Based on adequate price competition;

(2) Based on established catalog or market prices of commercial items sold in substantial quantities to the general public; or

(3) Set by law or regulation.

(b) The Contractor shall require the subcontractor to certify in substantially the form prescribed in Subsection 15.804-4 of the Federal Acquisition Regulation (FAR) that, to the best of its knowledge and belief, the data submitted under paragraph (a) above were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract modification.

(c) In each subcontract that exceeds $500,000 when entered into, the Contractor shall insert either—

(1) The substance of this clause, including this paragraph (c), if paragraph (a) above requires submission of cost or pricing data for the subcontract; or

(2) The substance of the clause at FAR 52.215-25, Subcontractor Cost or Pricing Data—Modifications.

(End of clause)
(R 7-104.42(a) 1970 JAN)
(R 1-3.814-3(a))

52.215-25 Subcontractor Cost or Pricing Data—Modifications.

As prescribed in 15.804-8(d), insert the following clause in solicitations and contracts when the clause prescribed in 15.804-8(b) is included. If the contract amount is expected to be $500,000 or less, the contracting officer shall reduce the dollar amounts specified in the clause, as appropriate.

SUBCONTRACTOR COST OR PRICING DATA—MODIFICATIONS(APR 1984)

(a) The requirements of paragraphs (b) and (c) of this clause shall (1) become operative only for any modification to this contract involving a pricing adjustment expected to exceed $500,000 and (2) be limited to such modifications.

(b) Before awarding any subcontract expected to exceed $500,000 when entered into, or pricing any subcontract modification involving a pricing adjustment expected to exceed $500,000, the Contractor shall require the subcontractor to submit cost or pricing data (actually or by specific identification in writing), unless the price is—

(1) Based on adequate price competition;

(2) Based on established catalog or market prices of commercial items sold in substantial quantities to the general public; or

(3) Set by law or regulation.

(c) The Contractor shall require the subcontractor to certify in substantially the form prescribed in Subsection 15.804-4 of the Federal Acquisition Regulation (FAR) that, to the best of its knowledge and belief, the data submitted under paragraph (b) above were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract modification.

(d) The Contractor shall insert the substance of this clause, including this paragraph (d), in each subcontract that exceeds $500,000 when entered into.

(End of clause)
(R 7-104.42(b) 1970 JAN)
(R 1-3.814-3(b))

52.215-26 [Reserved].

52.215-27 [Reserved].

52.215-28 [Reserved].

52.215-29 [Reserved].

52.215-30 Facilities Capital Cost of Money.

As prescribed in 15.904, insert the following clause in solicitations and contracts when it is contemplated that the contract will be subject to the cost principles for contracts with commercial organizations, Subpart 31.2:

FACILITIES CAPITAL COST OF MONEY (APR 1984)

(a) Facilities capital cost of money will be an allowable cost under the contemplated contract, but only if the prospective contractor elects to claim it below. If the prospective contractor elects to claim this cost, the Waiver of Facilities Capital Cost of Money will be excluded from the contract. If the prospective contractor does not elect to claim this cost, the contract will include the Waiver of Facilities Capital Cost of Money.

(b) By including an item of proposed allowable cost in response to the solicitation, the prospective contractor will be deemed to have elected to claim facilities capital cost of money.

(End of clause)
(NM)

52.215-31 Waiver of Facilities Capital Cost of Money.

As prescribed in 15.904, insert the following clause in solicitations and contracts when it is contemplated that the contract will be subject to the cost principles for contracts with commercial organizations, Subpart 31.2:

WAIVER OF FACILITIES CAPITAL COST OF MONEY (APR 1984)

If the Contractor did not include facilities capital cost of money as a proposed allowable cost, it shall be deemend that the Contractor waived the right to claim it under this contract.

(End of clause)
(AV OFPP Policy Letter 80-7 1980 OCT)

52.216-1 Type of Contract.

As prescribed in 16.105, complete and insert the following provision in requests for proposals (RFP's) and requests for quotations (RFQ's), unless the solicitation is for (a) a small purchase (see Part 13) or (b) information or planning purposes 15.405).

TYPE OF CONTRACT (APR 1984)

The Government contemplates award of a .....
..... [*Contracting Officer insert specific type of contract*] contract resulting from this solicitation.

(End of provision)
(R 3-501(b) Sec L (iv))

52.216-2 Economic Price Adjustment—Standard Supplies.

As prescribed in 16.203-4(a), when contracting by negotiation, insert the following clause in solicitations and contracts when the conditions specified in 16.203-4(a)(1)(i) through (iii) apply (but see 16.203-4(a)(2)). The clause may be modified by increasing the 10-percent limit on aggregate increases specified in subparagraph (c)(1), upon approval by the chief of the contracting office.

ECONOMIC PRICE ADJUSTMENT—STANDARD SUPPLIES (APR 1984)

(a) The Contractor warrants that the unit price stated in the Schedule for ..... [*offeror insert Schedule line item number*] is not in excess of the Contractor's applicable established price in effect on the contract date for like quantites of the same item. The term "unit price" excludes any part of the price directly resulting from requirements for preservation, packaging, or packing beyond standard commercial practice. The term "established price" means a price that (1) is an established catalog or market price for a commercial item sold in substantial quantities to the general public, (2) meets the criteria of subsection 15.804-3 of the Federal Acquisition Regulation (FAR), and (3) is the net price after applying any standard trade discounts offered by the Contractor.

(b) The Contractor shall promptly notify the Contracting Officer of the amount and effective date of each decrease in any applicable established price. Each corresponding contract unit price shall be decreased by the same percentage that the established price is decreased. The decrease shall apply to those items delivered on and after the effective date of the decrease in the Contractor's established price, and this contract shall be modified accordingly. The Contractor shall certify (1) on each invoice that each unit price stated in it reflects all decreases required by this clause or (2) on the final invoice that all required price decreases have been applied as required by this clause.

(c) If the Contractor's applicable established price is increased after the contract date, the corresponding contract unit price shall be increased, upon the Contractor's written request to the Contracting Officer, by the same percentage that the established price is increased, and the contract shall be modified accordingly, subject to the following limitations:

(1) The aggregate of the increases in any contract unit price under this clause shall not exceed 10 percent of the original contract unit price.

(2) The increased contract unit price shall be effective (i) on the effective date of the increase in the applicable established price if the Contracting Officer receives the Contractor's written request within 10 days thereafter or (ii) if the written request is received later, on the date the Contracting Officer receives the request.

(3) The increased contract unit price shall not apply to quantities scheduled under the contract for delivery before the effective date of the increased contract unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause.

(4) No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price.

(5) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.

(d) During the time allowed for the cancellation provided for in subparagraph (c)(5) above, and thereafter if there is no cancellation, the Contractor shall continue deliveries according to the contract delivery schedule, and the Government shall pay for such deliveries at the contract unit price, increased to the extent provided by paragraph (c) above.

(End of clause)
(AV 7-106.3 1978 AUG)

52.216-3 Economic Price Adjustment—Semistandard Supplies.

As prescribed in 16.203-4(b), when contracting by negotiation, insert the following clause in solicitations and contracts when the conditions specified in 16.203-4(b)(1)(i) through (iii) apply (but see 16.203-4(b)(2)). The clause may be modified by increasing the 10-percent limit on aggregate increases specified in subparagraph (c)(1), upon approval by the chief of the contracting office.

ECONOMIC PRICE ADJUSTMENT—SEMISTANDARD SUPPLIES (APR 1984)

(a) The Contractor warrants that the supplies identified as line items ..... [*offeror insert Schedule line item number*] in the Schedule are, except for modifications required by the contract specifications, supplies for which it has an established price. The term "established price" means a price that (1) is an established catalog or market price for a commercial item sold in substantial quantities to the general public, (2) meets the criteria of subsection 15.804-3 of the Federal Acquisition Regulation (FAR), and (3) is the net price after applying any standard trade discounts offered by the Contractor. The Contractor further warrants that, as of the date of this contract, any difference between the unit prices stated in the contract for these line items and the Contractor's established prices for like quantities of the nearest commercial equivalents are due to compliance with contract specifications and with any contract requirements for preservation, packaging, and packing beyond standard commercial practice.

(b) The Contractor shall promptly notify the Contracting Officer of the amount and effective date of each decrease in any applicable established price. Each corresponding contract unit price (exclusive of any part of the unit price that reflects modifications resulting from compliance with specifications or with requirements for preservation, packaging, and packing beyond standard commercial practice) shall be decreased by the same percentage that the established price is decreased. The decrease shall apply to those items delivered on and after the effective date of the decrease in the Contractor's established price, and this contract shall be modified accordingly. The Contractor shall certify (1) on each invoice that each unit price stated in it reflects all decreases required by this clause or (2) in the

final invoice that all required price decreases have been applied as required by this clause.

(c) If the Contractor's applicable established price is increased after the contract date, the corresponding contract unit price (exclusive of any part of the unit price resulting from compliance with specifications or with requirements for preservation, packaging, and packing beyond standard commercial practice) shall be increased, upon the Contractor's written request to the Contracting Officer, by the same percentage that the established price is increased, and the contract shall be modified accordingly, subject to the following limitations:

(1) The aggregate of the increases in any contract unit price under this clause shall not exceed 10 percent of the original contract unit price.

(2) The increased contract unit price shall be effective (i) on the effective date of the increase in the applicable established price if the Contracting Officer receives the Contractor's written request within 10 days thereafter or (ii) if the written request is received later, on the date the Contracting Officer receives the request.

(3) The increased contract unit price shall not apply to quantities scheduled under the contract for delivery before the effective date of the increased contract unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause.

(4) No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price.

(5) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.

(d) During the time allowed for the cancellation provided for in subparagraph (c)(5) above, and thereafter if there is no cancellation, the Contractor shall continue deliveries according to the contract delivery schedule, and the Government shall pay for such deliveries at the contract unit price, increased to the extent provided by paragraph (c) above.

(End of clause)
(AV 7-106.4 1978 AUG)

52.216-4 Economic Price Adjustment—Labor and Material.

As prescribed in 16.203-4(c), when contracting by negotiation, insert a clause that is substantially the same as the following clause in solicitations and contracts when the conditions specified in 16.203-4(c)(1)(i) through (iv) apply (but see 16.203-4(c)(2)). The clause may be modified by increasing the 10-percent limit on aggregate increases specified in subparagraph (c)(4), upon approval by the chief of the contracting office.

ECONOMIC PRICE ADJUSTMENT—LABOR AND MATERIAL (APR 1984)

(a) The Contractor shall notify the Contracting Officer if, at any time during contract performance, the rates of pay for labor (including fringe benefits) or the unit prices for material shown in the Schedule either increase or decrease. The Contractor shall furnish this notice within 60 days after the increase or decrease, or within any additional period that the Contracting Officer may approve in writing, but not later than the date of final payment under this contract. The notice shall include the Contractor's proposal for an adjustment in the contract unit prices to be negotiated under paragraph (b) below, and shall include, in the form required by the Contracting Officer, supporting data explaining the cause, effective date, and amount of the increase or decrease and the amount of the Contractor's adjustment proposal.

(b) Promptly after the Contracting Officer receives the notice and data under paragraph (a) above, the Contracting Officer and the Contractor shall negotiate a price adjustment in the contract unit prices and its effective date. However, the Contracting Officer may postpone the negotiations until an accumulation of increases and decreases in the labor rates (including fringe benefits) and unit prices of material shown in the Schedule results in an adjustment allowable under subparagraph (c)(3) below. The Contracting Officer shall modify this contract (1) to include the price adjustment and its effective date and (2) to revise the labor rates (including fringe benefits) or unit prices of material as shown in the Schedule to reflect the increases or decreases resulting from the adjustment. The Contractor shall continue performance pending agreement on, or determination of, any adjustment and its effective date.

(c) Any price adjustment under this clause is subject to the following limitations:

(1) Any adjustment shall be limited to the effect on unit prices of the increases or decreases in the rates of pay for labor (including fringe benefits) or unit prices for material shown in the Schedule. There shall be no adjustment for (i) supplies or services for which the production cost is not affected by such changes, (ii) changes in rates or unit prices other than those shown in the Schedule, or (iii) changes in the quantities of labor or material used from those shown in the Schedule for each item.

(2) No upward adjustment shall apply to supplies or services that are required to be delivered or performed before the effective date of the adjustment, unless the Contractor's failure to deliver or perform according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence, within the meaning of the Default clause.

(3) There shall be no adjustment for any change in rates of pay for labor (including fringe benefits) or unit prices for material which would not result in a net change of at least 3 percent of the then-current total contract price. This limitation shall not apply, however, if, after final delivery of all contract line items, either party requests an adjustment under paragraph (b) above.

(4) The aggregate of the increases in any contract unit price made under this clause shall not exceed 10 percent of the original unit price. There is no percentage limitation on the amount of decreases that may be made under this clause.

(d) The Contractor shall include with the final invoice a certification that the Contractor either (1) has not experienced a decrease in rates of pay for labor (including fringe benefits) or unit prices for material shown in the Schedule or (2) has given notice of all such decreases in compliance with paragraph (a) above.

(e) The Contracting Officer may examine the Contractor's books, records, and other supporting data relevant to the cost of labor (including fringe benefits) and material during all reasonable times until the end of 3 years after the date of final payment under this contract or the time periods specified in Subpart 4.7 of the Federal Acquisition Regulation (FAR), whichever is earlier.

(End of clause)
(AV 7-107 1974 MAR)

52.216-5 Price Redetermination—Prospective.

As prescribed in 16.205-4, when contracting by negotiation, insert the following clause in solicitations and contracts when a fixed-price contract is contemplated and the conditions specified in 16.205-2 and 16.205-3(a) through (d) apply:

PRICE REDETERMINATION—PROSPECTIVE (APR 1984)

(a) *General.* The unit prices and the total price stated in this contract shall be periodically redetermined in accordance with this clause, except that (1) the prices for supplies delivered and services performed before the first effective date of price redetermination (see paragraph (c) below) shall remain fixed and (2) in no event shall the total amount paid under this contract exceed any ceiling price included in the contract.

(b) *Definition.* "Costs," as used in this clause, means allowable costs in accordance with Part 31 of the Federal Acquisition Regulation (FAR) in effect on the date of this contract.

(c) *Price redetermination periods.* For the purpose of price redetermination, performance of this contract is divided into successive periods. The first period shall extend from the date of the contract to ..... [see Note (1)] and the second and each succeeding period shall extend for ..... [*insert appropriate number*] months from the end of the last preceding period, except that the parties may agree to vary the length of the final period. The first day of the second and each succeeding period shall be the effective date of price redetermination for that period.

(d) *Data submission.* (1) Not more than ..... nor less than ..... [see Note (2)] days before the end of each redetermination period, except the last, the Contractor shall submit—

(i) Proposed prices for supplies that may be delivered or services that may be performed in the next succeeding period, and—

(A) An estimate and breakdown of the costs of these supplies or services on

Standard Form 1411, Contract Pricing Proposal Cover Sheet (or in any other form on which the parties may agree);

(B) Sufficient data to support the accuracy and reliability of this estimate; and

(C) An explanation of the differences between this estimate and the original (or last preceding) estimate for the same supplies or services; and

(ii) A statement of all costs incurred in performing this contract through the end of the ..... month [see Note (3)] before the submission of proposed prices, on Standard Form 1411, Contract Pricing Proposal Cover Sheet (or in any other form on which the parties may agree), with sufficient supporting data to disclose unit costs and cost trends for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary).

(2) The Contractor shall also submit, to the extent that it becomes available before negotiations on redetermined prices are concluded—

(i) Supplemental statements of costs incurred after the date stated in subdivision (d)(1)(ii) above for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary); and

(ii) Any other relevant data that the Contracting Officer may reasonably require.

(3) If the Contractor fails to submit the data required by subparagraphs (1) and (2) above, within the time specified, the Contracting Officer may suspend payments under this contract until the data are furnished. If it is later determined that the Government has overpaid the Contractor, the Contractor shall repay the excess to the Government immediately. Unless repaid within 30 days after the end of the data submittal period, the amount of the excess shall bear interest, computed from the date the data were due to the date of repayment, at the rate established in accordance with the Interest clause.

(e) *Price redetermination.* Upon the Contracting Officer's receipt of the data required by paragraph (d) above, the Contracting Officer and the Contractor shall promptly negotiate to redetermine fair and reasonable prices for supplies that may be delivered or services that may be performed in the period following the effective date of price redetermination.

(f) *Contract modifications.* Each negotiated redetermination of prices shall be evidenced by a modification to this contract, signed by the Contractor and the Contracting Officer, stating the redetermined prices that apply during the redetermination period.

(g) *Adjusting billing prices.* Pending execution of the contract modification (see paragraph (f) above), the Contractor shall submit invoices or vouchers in accordance with the billing prices stated in this contract. If at any time it appears that the then-current billing prices will be substantially greater than the estimated final prices, or if the Contractor submits data showing that the redetermined price will be substantially greater than the current billing prices, the parties shall negotiate an appropriate decrease or increase in billing prices. Any billing price adjustment shall be reflected in a contract modification and shall not affect the redetermination of prices under this clause. After the contract modification for price redetermination is executed, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the agreed-upon prices, and any requested additional payments, refunds, or credits shall be made promptly.

(h) *Quarterly limitation on payments statement.* This paragraph (h) applies only during periods for which firm prices have not been established.

(1) Within 45 days after the end of the quarter of the Contractor's fiscal year in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and for each quarter thereafter, the Contractor shall submit to the contract administration office (with a copy to the contracting office and the cognizant contract auditor) a statement, cumulative from the beginning of the contract, showing—

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government and for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for, and properly allocable solely to, the supplies delivered (or services performed) and accepted by the Government and for which final prices have not been established;

(iii) The portion of the total interim profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (h)) that is in direct proportion to the supplies delivered (or services performed) and accepted by the Government and for which final prices have not been established; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments).

(2) The statement required by subparagraph (1) above need not be submitted for any quarter for which either no costs are to be reported under subdivision (1)(ii) above, or revised billing prices have been established in accordance with paragraph (g) above, and do not exceed the existing contract price, the Contractor's price-redetermination proposal, or a price based on the most recent quarterly statement, whichever is least.

(3) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount under subdivision (1)(iv) above exceeds the sum due the Contractor, as computed in accordance with subdivisions (1)(i), (ii), and (iii) above, the Contractor shall immediately refund or credit to the Government the amount of this excess. The Contractor may, when appropriate, reduce this refund or credit by the amount of any applicable tax credits due the Contractor under 26 U.S.C. 1481 and by the amount of previous refunds or credits effected under this clause. If any portion of the excess has been applied to the liquidation of progress payments, then that portion may, instead of being refunded, be added to the unliquidated progress payment account, consistent with the Progress Payments clause. The Contractor shall provide complete details to support any claimed reductions in refunds.

(4) If the Contractor fails to submit the quarterly statement within 45 days after the end of each quarter and it is later determined that the Government has overpaid the Contractor, the Contractor shall repay the excess to the Government immediately. Unless repaid within 30 days after the end of the statement submittal period, the amount of the excess shall bear interest, computed from the date the quarterly statement was due to the date of repayment, at the rate established in accordance with the Interest clause.

(i) *Subcontracts.* No subcontract placed under this contract may provide for payment on a cost-plus-a-percentage-of-cost basis. The Contractor shall—

(1) Insert in each price redetermination or incentive price revision subcontract the substance of paragraph (h) above, and of this paragraph (i), modified to omit mention of the Government and to reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that part of subparagraph (h)(3) above relating to tax credits; and

(2) Include in each cost-reimbursement subcontract a requirement that each lower-tier price redetermination or incentive price revision subcontract contain the substance of paragraph (h) above, and this paragraph (i), modified as required by subparagraph (1) above.

(j) *Disagreements.* If the Contractor and the Contracting Officer fail to agree upon redetermined prices for any price redetermination period within 60 days (or within such other period as the parties agree) after the date on which the data required by paragraph (d) above are to be submitted, the Contracting Officer shall promptly issue a decision in accordance with the Disputes clause. For the purpose of paragraphs (f), (g), and (h) above, and pending final settlement of the disagreement on appeal, by failure to appeal, or by agreement, this decision shall be treated as an executed contract modification. Pending final settlement, price redetermination for subsequent periods, if any, shall continue to be negotiated as provided in this clause.

(k) *Termination.* If this contract is terminated, prices shall continue to be established in accordance with this clause for (1) completed supplies and services accepted by the Government and (2) those supplies and services not terminated under a partial termination. All other elements of the termination shall be resolved in accordance with other applicable clauses of this contract.

(End of clause)

(AV 7-109.2(b) 1980 FEB)

NOTES:

(1) Express in terms of units delivered, or as a date; but in either case the period should end on the last day of a month.

(2) Insert the numbers of days chosen so that the Contractor's submission will be late enough to reflect recent cost experience

(taking into account the Contractor's accounting system), but early enough to permit review, audit (if necessary), and negotiation before the start of the prospective period.

(3) Insert "first," except that "second" may be inserted if necessary to achieve compatibility with the Contractor's accounting system.

52.216-6 Price Redetermination—Retroactive.

As prescribed in 16.206-4, when contracting by negotiation, insert the following clause in solicitations and contracts when a fixed-price contract is contemplated and the conditions specified in 16.206-2 and 16.206-3(a) through (d) apply:

PRICE REDETERMINATION—RETROACTIVE (APR 1984)

(a) *General.* The unit price and the total price stated in this contract shall be redetermined in accordance with this clause, but in no event shall the total amount paid under this contract exceed ..... [*insert dollar amount of ceiling price*].

(b) *Definition.* "Costs," as used in this clause, means allowable costs in accordance with Part 31 of the Federal Acquisition Regulation (FAR) in effect on the date of this contract.

(c) *Data submission.* (1) Within ..... [*Contracting Officer insert number of days*] days after delivery of all supplies to be delivered and completion of all services to be performed under this contract, the Contractor shall submit—

(i) Proposed prices;

(ii) A statement on Standard Form 1411, Contract Pricing Proposal Cover Sheet, or in any other form on which the parties agree, of all costs incurred in performing this contract; and

(iii) Any other relevant data that the Contracting Officer may reasonably require.

(2) If the Contractor fails to submit the data required by subparagraph (1) above within the time specified, the Contracting Officer may suspend payments under this contract until the data are furnished. If it is later determined that the Government has overpaid the Contractor, the excess shall be repaid to the Government immediately. Unless repaid within 30 days after the end of the data submittal period, the amount of the excess shall bear interest, computed from the date the data were due to the date of repayment, at the rate established in accordance with the Interest clause.

(d) *Price determination.* Upon the Contracting Officer's receipt of the data required by paragraph (c) above, the Contracting Officer and the Contractor shall promptly negotiate to redetermine fair and reasonable prices for supplies delivered and services performed by the Contractor under this contract.

(e) *Contract modification.* The negotiated redetermination of price shall be evidenced by a modification to this contract, signed by the Contractor and the Contracting Officer.

(f) *Adjusting billing prices.* Pending execution of the contract modification (see paragraph (e) above), the Contractor shall submit invoices or vouchers in accordance with billing prices stated in this contract. If at any time it appears that the then-current billing prices will be substantially greater than the estimated final prices, or if the Contractor submits data showing that the redetermined prices will be substantially greater than the current billing prices, the parties shall negotiate an appropriate decrease or increase in billing prices. Any billing price adjustment shall be reflected in a contract modification and shall not affect the redetermination of prices under this clause. After the contract modification for price redetermination is executed, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the agreed-upon prices, and any resulting additional payments, refunds, or credits shall be made promptly.

(g) *Quarterly limitation on payments statement.* This paragraph (g) shall apply until final price redetermination under this contract has been completed.

(1) Within 45 days after the end of the quarter of the Contractor's fiscal year in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and for each quarter thereafter, the Contractor shall submit to the contract administration office (with a copy to the contracting office and the cognizant contract auditor), a statement, cumulative from the beginning of the contract, showing—

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government and for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for, and properly allocable solely to, the supplies delivered (or services performed) and accepted by the Government and for which final prices have not been established;

(iii) The portion of the total interim profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (g)) that is in direct proportion to the supplies delivered (or services performed) and accepted by the Government and for which final prices have not been established; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments).

(2) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount under subdivision (1)(iv) above exceeds the sum due the Contractor, as computed in accordance with subdivisions (i), (ii), and (iii) above, the Contractor shall immediately refund or credit to the Government the amount of this excess. The Contractor may, when appropriate, reduce this refund or credit by the amount of any applicable tax credits due the contractor under 26 U.S.C. 1481 and by the amount of previous refunds or credits effected under this clause. If any portion of the excess has been applied to the liquidation of progress payments, then that portion may, instead of being refunded, be added to the unliquidated progress payment account, consistent with the Progress Payments clause. The Contractor shall provide complete details to support any claimed reduction in refunds.

(3) If the Contractor fails to submit the quarterly statement within 45 days after the end of each quarter and it is later determined that the Government has overpaid the Contractor, the Contractor shall repay the excess to the Government immediately. Unless repaid within 30 days after the end of the statement submittal period, the amount of the excess shall bear interest, computed from the date the quarterly statement was due to the date of repayment, at the rate established in accordance with the Interest clause.

(h) *Subcontracts.* No subcontract placed under this contract may provide for payment on a cost-plus-a-percentage-of-cost basis. The Contractor shall—

(1) Insert in each price redetermination or incentive price revision subcontract the substance of paragraph (g) above, and of this paragraph (h), modified to omit mention of the Government and to reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that part of subparagraph (g)(2) above relating to tax credits; and

(2) Include in each cost-reimbursement subcontract a requirement that each lower-tier price redetermination or incentive price revision subcontract contain the substance of paragraph (g) above, and of this paragraph (h) modified as required by subparagraph (1) above.

(i) *Disagreements.* If the Contractor and the Contracting Officer fail to agree upon redetermined prices within 60 days (or within such other period as the parties agree) after the date on which the data required by paragraph (c) above are to be submitted, the Contracting Officer shall promptly issue a decision in accordance with the Disputes clause. For the purpose of paragraphs (e), (f), and (g) above, and pending final settlement of the disagreement on appeal, by failure to appeal, or by agreement, this decision shall be treated as an executed contract modification.

(j) *Termination.* If this contract is terminated before price redetermination, prices shall be established in accordance with this clause for completed supplies and services not terminated. All other elements of the termination shall be resolved in accordance with other applicable clauses of this contract.

(End of clause)

(AV 7-109.3(b) 1980 FEB)

52.216-7 Allowable Cost and Payment.

As prescribed in 16.307(a), insert the following clause in solicitations and contracts when a cost-reimbursement contract (other than a facilities contract) is contemplated. If the contract is with an educational institution, modify the clause by deleting from paragraph (a) the words "Subpart 31.2" and substituting for them "Subpart 31.3." If the contract is with a State or local government, modify the clause by deleting from paragraph (a) the words

"Subpart 31.2" and substituting for them "Subpart 31.6."

ALLOWABLE COST AND PAYMENT
(APR 1984)

(a) *Invoicing.* The Government shall make payments to the Contractor when requested as work progresses, but (except for small business concerns) not more often than once every 2 weeks, in amounts determined to be allowable by the Contracting Officer in accordance with Subpart 31.2 of the Federal Acquisition Regulation (FAR) in effect on the date of this contract and the terms of this contract. The Contractor may submit to an authorized representative of the Contracting Officer, in such form and reasonable detail as the representative may require, an invoice or voucher supported by a statement of the claimed allowable cost for performing this contract.

(b) *Reimbursing costs.* (1) For the purpose of reimbursing allowable costs (except as provided in subparagraph (2) below, with respect to pension, deferred profit sharing, and employee stock ownership plan contributions), the term "costs" includes only—

(i) Those recorded costs that, at the time of the request for reimbursement, the Contractor has paid by cash, check, or other form of actual payment for items or services purchased directly for the contract;

(ii) When the Contractor is not delinquent in paying costs of contract performance in the ordinary course of business, costs incurred, but not necessarily paid, for—

(A) Materials issued from the Contractor's inventory and placed in the production process for use on the contract;

(B) Direct labor;

(C) Direct travel;

(D) Other direct in-house costs; and

(E) Properly allocable and allowable indirect costs, as shown in the records maintained by the Contractor for purposes of obtaining reimbursement under Government contracts; and

(iii) The amount of progress payments that have been paid to the Contractor's subcontractors under similar cost standards.

(2) Contractor contributions to any pension, profit-sharing, or employee stock ownership plan funds that are paid quarterly or more often may be included in indirect costs for payment purposes; *provided*, that the Contractor pays the contribution to the fund within 30 days after the close of the period covered. Payments made 30 days or more after the close of a period shall not be included until the Contractor actually makes the payment. Accrued costs for such contributions that are paid less often than quarterly shall be excluded from indirect costs for payment purposes until the Contractor actually makes the payment.

(3) Notwithstanding the audit and adjustment of invoices or vouchers under paragraph (g) below, allowable indirect costs under this contract shall be obtained by applying indirect cost rates established in accordance with paragraph (d) below.

(4) Any statements in specifications or other documents incorporated in this contract by reference designating performance of services or furnishing of materials at the Contractor's expense or at no cost to the Government shall be disregarded for purposes of cost-reimbursement under this clause.

(c) *Small business concerns.* A small business concern may be paid more often than every 2 weeks and may invoice and be paid for recorded costs for items or services purchased directly for the contract, even though the concern has not yet paid for those items or services.

(d) *Final indirect cost rates.* (1) Final annual indirect cost rates and the appropriate bases shall be established in accordance with Subpart 42.7 of the Federal Acquisition Regulation (FAR) in effect for the period covered by the indirect cost rate proposal.

(2) The Contractor shall, within 90 days after the expiration of each of its fiscal years, or by a later date approved by the Contracting Officer, submit to the cognizant Contracting Officer responsible for negotiating its final indirect cost rates and, if required by agency procedures, to the cognizant audit activity proposed final indirect cost rates for that period and supporting cost data specifying the contract and/or subcontract to which the rates apply. The proposed rates shall be based on the Contractor's actual cost experience for that period. The appropriate Government representative and Contractor shall establish the final indirect cost rates as promptly as practical after receipt of the Contractor's proposal.

(3) The Contractor and the appropriate Government representative shall execute a written understanding setting forth the final indirect cost rates. The understanding shall specify (i) the agreed-upon final annual indirect cost rates, (ii) the bases to which the rates apply, (iii) the periods for which the rates apply, (iv) any specific indirect cost items treated as direct costs in the settlement, and (v) the affected contract and/or subcontract, identifying any with advance agreements or special terms and the applicable rates. The understanding shall not change any monetary ceiling, contract obligation, or specific cost allowance or disallowance provided for in this contract. The understanding is incorporated into this contract upon execution.

(4) Failure by the parties to agree on a final annual indirect cost rate shall be a dispute within the meaning of the Disputes clause.

(e) *Billing rates.* Until final annual indirect cost rates are established for any period, the Government shall reimburse the Contractor at billing rates established by the Contracting Officer or by an authorized representative (the cognizant auditor), subject to adjustment when the final rates are established. These billing rates—

(1) Shall be the anticipated final rates; and

(2) May be prospectively or retroactively revised by mutual agreement, at either party's request, to prevent substantial overpayment or underpayment.

(f) *Quick-closeout procedures.* When the Contractor and Contracting Officer agree, the quick-closeout procedures of Subpart 42.7 of the FAR may be used.

(g) *Audit.* At any time or times before final payment, the Contracting Officer may have the Contractor's invoices or vouchers and statements of cost audited. Any payment may be (1) reduced by amounts found by the Contracting Officer not to constitute allowable costs or (2) adjusted for prior overpayments or underpayments.

(h) *Final payment.* (1) The Contractor shall submit a completion invoice or voucher, designated as such, promptly upon completion of the work, but no later than one year (or longer, as the Contracting Officer may approve in writing) from the completion date. Upon approval of that invoice or voucher, and upon the Contractor's compliance with all terms of this contract, the Government shall promptly pay any balance of allowable costs and that part of the fee (if any) not previously paid.

(2) The Contractor shall pay to the Government any refunds, rebates, credits, or other amounts (including interest, if any) accruing to or received by the Contractor or any assignee under this contract, to the extent that those amounts are properly allocable to costs for which the Contractor has been reimbursed by the Government. Reasonable expenses incurred by the Contractor for securing refunds, rebates, credits, or other amounts shall be allowable costs if approved by the Contracting Officer. Before final payment under this contract, the Contractor and each assignee whose assignment is in effect at the time of final payment shall execute and deliver—

(i) An assignment to the Government, in form and substance satisfactory to the Contracting Officer, of refunds, rebates, credits, or other amounts (including interest, if any) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(ii) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, except—

(A) Specified claims stated in exact amounts, or in estimated amounts when the exact amounts are not known;

(B) Claims (including reasonable incidental expenses) based upon liabilities of the Contractor to third parties arising out of the performance of this contract; *provided*, that the claims are not known to the Contractor on the date of the execution of the release, and that the Contractor gives notice of the claims in writing to the Contracting Officer within 6 years following the release date or notice of final payment date, whichever is earlier; and

(C) Claims for reimbursement of costs, including reasonable incidental expenses, incurred by the Contractor under the patent clauses of this contract, excluding, however, any expenses arising from the Contractor's indemnification of the Government against patent liability.

(R 1-7.402-3(a) and (b)(1) and (3))
(R 1-7.403-9)

52.216-8 Fixed Fee.

As prescribed in 16.307(b), insert the following clause in solicitations and contracts when a cost-plus-fixed-fee contract (other than a facilities contract or a construction contract) is contemplated.

FIXED FEE (APR 1984)

(a) The Government shall pay the Contractor for performing this contract the fixed fee specified in the Schedule.

(b) Payment of the fixed fee shall be made as specified in the Schedule; *provided*, that after payment of 85 percent of the fixed fee, the Contracting Officer may withhold further payment of fee until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed 15 percent of the total fixed fee or $100,000, whichever is less.

52.216-9 Fixed Fee—Construction.

As prescribed in 16.307(c), insert the following clause in solicitations and contracts when a cost-plus-fixed-fee construction contract is contemplated:

FIXED FEE—CONSTRUCTION (APR 1984)

(a) The Government shall pay to the Contractor for performing this contract the fixed fee specified in the Schedule.

(b) Payment of the fixed fee shall be made in installments based upon the percentage of completion of the work as determined from estimates submitted to and approved by the Contracting Officer, but subject to the withholding provisions of paragraph (c) below.

(c) After the payment of 85 percent of the fixed fee, the Contracting Officer may withhold further payment of fee until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed 15 percent of the total fixed fee or $100,000, whichever is less.

(End of clause)
(R 7-203.4(a) 1978 SEP)
(R 7-605.5)

52.216-10 Incentive Fee.

As prescribed in 16.307(d), insert the following clause in solicitations and contracts when a cost-plus-incentive-fee contract (other than a facilities contract) is contemplated:

INCENTIVE FEE (APR 1984)

(a) *General.* The Government shall pay the Contractor for performing this contract a fee determined as provided in this contract.

(b) *Target cost and target fee.* The target cost and target fee specified in the Schedule are subject to adjustment if the contract is modified in accordance with paragraph (d) below.

(1) "Target cost," as used in this contract, means the estimated cost of this contract as initially negotiated, adjusted in accordance with paragraph (d) below.

(2) "Target fee," as used in this contract, means the fee initially negotiated on the assumption that this contract would be performed for a cost equal to the estimated cost initially negotiated, adjusted in accordance with paragraph (d) below.

(c) *Withholding of payment.* Normally, the Government shall pay the fee to the Contractor as specified in the Schedule. However, when the Contracting Officer considers that performance or cost indicates that the Contractor will not achieve target, the Government shall pay on the basis of an appropriate lesser fee. When the Contractor demonstrates that performance or cost clearly indicates that the Contractor will earn a fee significantly above the target fee, the Government may, at the sole discretion of the Contracting Officer, pay on the basis of an appropriate higher fee. After payment of 85 percent of the applicable fee, the Contracting Officer may withhold further payment of fee until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed 15 percent of the applicable fee or $100,000, whichever is less.

(d) *Equitable adjustments.* When the work under this contract is increased or decreased by a modification to this contract or when any equitable adjustment in the target cost is authorized under any other clause, equitable adjustments in the target cost, target fee, minimum fee, and maximum fee, as appropriate, shall be stated in a supplemental agreement to this contract.

(e) *Fee payable.* (1) The fee payable under this contract shall be the target fee increased by ..... [*Contracting Officer insert Contractor's participation*] cents for every dollar that the total allowable cost is less than the target cost or decreased by ..... [*Contracting Officer insert Contractor's participation*] cents for every dollar that the total allowable cost exceeds the target cost. In no event shall the fee be greater than ..... [*Contracting Officer insert percentage*] percent or less than ..... [*Contracting Officer insert percentage*] percent of the target cost.

(2) The fee shall be subject to adjustment, to the extent provided in paragraph (d) above, and within the minimum and maximum fee limitations in subparagraph (1) above, when the total allowable cost is increased or decreased as a consequence of (i) payments made under assignments or (ii) claims excepted from the release as required by paragraph (h)(2) of the Allowable Cost and Payment clause.

(3) If this contract is terminated in its entirety, the portion of the target fee payable shall not be subject to an increase or decrease as provided in this paragraph. The termination shall be accomplished in accordance with other applicable clauses of this contract.

(4) For the purpose of fee adjustment, "total allowable cost" shall not include allowable costs arising out of—

(i) Any of the causes covered by the Excusable Delays clause to the extent that they are beyond the control and without the fault or negligence of the Contractor or any subcontractor;

(ii) The taking effect, after negotiating the target cost, of a statute, court decision, written ruling, or regulation that results in the Contractor's being required to pay or bear the burden of any tax or duty or rate increase in a tax or duty;

(iii) Any direct cost attributed to the Contractor's involvement in litigation as required by the Contracting Officer pursuant to a clause of this contract, including furnishing evidence and information requested pursuant to the Notice and Assistance Regarding Patent and Copyright Infringement clause;

(iv) The purchase and maintenance of additional insurance not in the target cost and required by the Contracting Officer, or claims for reimbursement for liabilities to third persons pursuant to the Insurance—Liability to Third Persons clause;

(v) Any claim, loss, or damage resulting from a risk for which the Contractor has been relieved of liability by the Government Property clause; or

(vi) Any claim, loss, or damage resulting from a risk defined in the contract as unusually hazardous or as a nuclear risk and against which the Government has expressly agreed to indemnify the Contractor.

(5) All other allowable costs are included in "total allowable cost" for fee adjustment in accordance with this paragraph (e), unless otherwise specifically provided in this contract.

(f) *Contract modification.* The total allowable cost and the adjusted fee determined as provided in this clause shall be evidenced by a modification to this contract signed by the Contractor and Contracting Officer.

(g) *Inconsistencies.* In the event of any language inconsistencies between this clause and provisioning documents or Government options under this contract, compensation for spare parts or other supplies and services ordered under such documents shall be determined in accordance with this clause.

(End of clause)
(R 7-203.4(b) 1979 MAR)
(R 7-203.4(c)(6) and (9))

52.216-11 Cost Contract—No Fee.

As prescribed in 16.307(e), insert the following clause in solicitations and contracts when a cost-reimbursement contract is contemplated that provides no fee and is not a cost-sharing contract or a facilities contract. This clause may be modified by substituting "$10,000" in lieu of "$100,000" as the maximum reserve in paragraph (b) if the Contractor is a nonprofit organization.

COST CONTRACT—NO FEE (APR 1984)

(a) The Government shall not pay the Contractor a fee for performing this contract.

(b) After payment of 80 percent of the total estimated cost shown in the Schedule, the Contracting Officer may withhold further payment of allowable cost until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed one percent of the total estimated cost shown in the Schedule or $100,000, whichever is less.

(End of clause)
(R 7-203.4(a) 1978 SEP)
(R 7-203.4(c)(4) and (9))
(R 7-402.3(c)(5)(ii), (iii), and (7))
(R 7-1909.4)
(R 1-7.402-3(b))

Alternate I (APR 1984). In a contract for research and development with an educational institution or a nonprofit organization, for which the contracting officer has determined that withholding of a portion of allowable costs is not required, delete paragraph (b) of the basic clause.

(R 7-203.4(a) 1978 SEP)
(R 7-402.3(c)(8))

52.216-12 Cost-Sharing Contract—No Fee.

As prescribed in 16.307(f), insert the following clause in solicitations and contracts when a cost-sharing contract (other than a facilities contract) is contemplated. This clause may be modified by substituting "$10,000" in lieu of "$100,000" as the maximum reserve in paragraph (b) if the contract is with a nonprofit organization.

COST-SHARING CONTRACT—NO FEE (APR 1984)

(a) The Government shall not pay to the Contractor a fee for performing this contract.

(b) After paying 80 percent of the Government's share of the total estimated cost of performance shown in the Schedule, the Contracting Officer may withhold further payment of allowable cost until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed one percent of the Government's share of the total estimated cost shown in the Schedule or $100,000, whichever is less.

(End of clause)
(R 7-203.4(a) 1978 SEP)
(R 7-203.4(c)(4) and (9))
(R 7-402.3(c)(5), (6) and (7))
(R 1-7.402-3(b))

Alternate I (APR 1984). In a contract for research and development with an educational institution, for which the contracting officer has determined that withholding of a portion of allowable cost is not required, delete paragraph (b) of the basic clause.

(R 7-402.3(c)(8))

52.216-13 Allowable Cost and Payment—Facilities.

As prescribed in 16.307(g), insert the following clause in solicitations and contracts when a consolidated facilities contract or a cost-reimbursement facilities acquisition contract (see 45.302-6) is contemplated:

ALLOWABLE COST AND PAYMENT—FACILITIES (APR 1984)

(a) *General.* (1) For the performance of any work, duty, or obligation specified in this contract to be at Government expense, the Government shall pay the Contractor all allowable costs as determined by the Contracting Officer in accordance with the contract terms and section 31.106 of the Federal Acquisition Regulation (FAR) in effect on the contract date.

(2) Except as otherwise specifically provided in this contract, the failure of this contract to provide for reimbursement does not preclude the Contractor from including, as part of the price or cost under any other Government contract or subcontract, an allocable portion of the costs incurred for any work, duty, or obligation performed under this contract, but not reimbursable under it.

(b) *Invoicing.* The Government shall make payments to the Contractor when requested once each month. The Contractor may submit to an authorized representative of the Contracting Officer, in such form and reasonable detail as the representative may require, an invoice or voucher supported by a statement of the claimed allowable cost for the performance of this contract.

(c) *Negotiated indirect costs.* Notwithstanding the audit and adjustment of invoices or vouchers under paragraph (f) below, allowable indirect costs under this contract shall be obtained by applying final indirect cost rates established as follows:

(1) Final annual indirect cost rates and the appropriate bases shall be established in accordance with Subpart 42.7 of the FAR in effect for the period covered by the indirect cost rate proposal.

(2) The Contractor shall, within 90 days after the expiration of each of its fiscal years, or by a later date approved by the Contracting Officer, submit to the Contracting Officer and to the cognizant audit activity proposed final indirect cost rates for that period and supporting cost and data specifying the contract and/or subcontract to which the rates apply. The proposed rates shall be based on the Contractor's actual cost experience for that period. The appropriate Government representative and the Contractor shall establish the final indirect cost rates as promptly as practical after receipt of the contractor's proposal. The Contractor shall submit an executed Certificate of Current Cost or Pricing Data (in the form prescribed by subsection 15.804-4 of the FAR) applicable to the data furnished in connection with the final indirect cost rates.

(3) The Contractor and the appropriate Government representative shall execute a written understanding setting forth the final indirect cost rates. The understanding shall specify (i) the agreed-upon final annual indirect cost rates, (ii) the bases to which the rates apply, (iii) the periods for which the rates apply, (iv) any specific indirect cost items treated as direct costs in the settlement, and (v) the affected contract and/or subcontract, identifying any with advance agreements or special terms and the applicable rates. The understanding shall not change any monetary ceiling, contract obligation, or specific cost allowance or disallowance provided for in this contract. The understanding is incorporated into this contract upon execution.

(4) Failure by the parties to agree on a final annual indirect cost rate shall be a dispute within the meaning of the Disputes clause.

(d) *Billing rates.* Until final annual indirect cost rates are established for any period, the Government shall reimburse the Contractor at billing rates established by the Contracting Officer or by an authorized representative (the cognizant auditor), subject to adjustment when the final rates are established. These billing rates—

(1) Shall be the anticipated final rates; and

(2) May be prospectively or retroactively revised by mutual agreement, at either party's request, to prevent substantial overpayment or underpayment.

(e) *Quick-closeout procedures.* When the Contractor and Contracting Officer agree, the quick-closeout procedures of Subpart 42.7 of the FAR may be used.

(f) *Audit.* At any time or times before final payment, the Contracting Officer may have the Contractor's invoices or vouchers and statements of cost audited. Any payment may be (1) reduced by amounts found by the Contracting Officer not to constitute allowable costs or (2) adjusted for prior overpayments or underpayments.

(g) *Assignments and releases.* The Contractor shall pay to the Government any refunds, rebates, credits, or other amounts (including interest, if any) accruing to or received by the Contractor or any assignee under this contract, to the extent that those amounts are properly allocable to costs for which the Contractor has been reimbursed by the Government. Reasonable expenses incurred by the Contractor for securing refunds, rebates, credits, or other amounts shall be allowable costs if approved by the Contracting Officer. Before final payment under this contract, the Contractor and each assignee shall execute and deliver—

(1) An assignment to the Government, in form and substance satisfactory to the Contracting Officer, of refunds, rebates,

credits, or other amounts (including interest, if any) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(2) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, except—

(i) Specified claims stated in exact amounts, or in estimated amounts when the exact amounts are not known;

(ii) Claims (including reasonable incidental expenses) based upon liabilities of the Contractor to third parties arising out of performance of this contract; *provided* that the claims are not known to the Contractor on the date of the execution of the release, and that the Contractor gives notice of the claims in writing to the Contracting Officer within 6 years following the release date or notice of final payment date, whichever is earlier; and

(iii) Claims for reimbursement of costs, including related expenses, incurred by the Contractor under the patent clauses of this contract, excluding, however, any expenses arising from the Contractor's indemnification of the Government against patent liability.

(End of clause)
(R 7-702.10 1978 AUG)

Alternate I (APR 1984). If the contract is for facilities acquisition, and the Contracting Officer considers it appropriate, add the following paragraphs (g) and (h) to the basic clause, and redesignate paragraph (g) of the basic clause as paragraph (i):

(g) *Withholding.* After payment of 80 percent of the total estimated cost shown in the Schedule, the Contracting Officer may withhold payment of allowable costs until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed one percent of the total estimated cost shown in the Schedule or $100,000, whichever is less.

(h) *Final Payment.* The Contractor shall submit a completion invoice or voucher, designated as such, no later than one year (or longer, as the Contracting Officer may approve in writing) from the completion date. Upon approval of the invoice or voucher, and upon the Contractor's compliance with all terms of this contract, the Government shall promptly pay any balance of allowable costs not previously paid.

(R 7-702.10 1978 AUG)
(R 7-703.9)

52.216-14 Allowable Cost and Payment—Facilities Use.

As prescribed in 16.307(h), insert the following clause in solicitations and contracts when a facilities use contract is contemplated:

ALLOWABLE COST AND PAYMENT—FACILITIES USE (APR 1984)

(a) For the performance of any work, duty, or obligations specified in this contract to be at Government expense, the Government shall pay the Contractor all allowable costs as determined by the Contracting Officer in accordance with the contract terms and section 31.106 of the Federal Acquisition Regulation (FAR) in effect on the contract date.

(b) Except as otherwise specifically provided in this contract, the failure of this contract to provide for reimbursement does not preclude the Contractor from including, as part of the price or cost under any other Government contract or subcontract, an allocable portion of the costs incurred for any work, duty, or obligation performed under this contract, but not reimbursed under it.

(End of clause)
(R 7-704.3 1965 JUL)

52.216-15 Predetermined Indirect Cost Rates.

As prescribed in 16.307(i), insert the following clause in solicitations and contracts when a cost-reimbursement research and development contract with an educational institution is contemplated and predetermined indirect cost rates are to be used. If the contract is a facilities contract, modify paragraph (c) by deleting the words "Subpart 31.3" and substituting for them "section 31.106".

PREDETERMINED INDIRECT COST RATES (APR 1984)

(a) Notwithstanding the Allowable Cost and Payment clause of this contract, the allowable indirect costs under this contract shall be obtained by applying predetermined indirect cost rates to bases agreed upon by the parties, as specified below.

(b) Not later than 90 days after the expiration of the Contractor's fiscal year, the Contractor shall submit to the cognizant Contracting Officer under Subpart 42.7 of the Federal Acquisition Regulation (FAR) and, if required by agency procedures, to the cognizant Government audit activity, proposed predetermined indirect cost rates and supporting cost data. The proposed rate shall be based on the Contractor's actual cost experience during that fiscal year. Negotiations of predetermined indirect cost rates shall begin as soon as practical after receipt of the contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with FAR Subpart 31.3 in effect on the date of this contract.

(d) Predetermined rate agreements in effect on the date of this contract shall be incorporated into the contract Schedule. The Contracting Officer and Contractor shall negotiate rates for subsequent periods and execute a written indirect cost rate agreement setting forth the results. The agreement shall specify (1) the agreed-upon predetermined indirect cost rates, (2) the bases to which the rates apply, (3) the fiscal year (unless the parties agree to a different period) for which the rates apply, and (4) the specific items treated as direct costs or any changes in the items previously agreed to be direct costs. The indirect cost rate agreement shall not change any monetary ceiling, contract obligation, or specific cost allowance or disallowance provided for in this contract. The agreement is incorporated into this contract upon execution.

(e) Pending establishment of predetermined indirect cost rates for any fiscal year (or other period agreed to by the parties), the Contractor shall be reimbursed either at the rates fixed for the previous fiscal year (or other period) or at billing rates acceptable to the Contracting Officer, subject to appropriate adjustment when the final rates for that period are established.

(f) Any failure by the parties to agree on any predetermined indirect cost rates under this clause shall not be considered a dispute within the meaning of the Disputes clause. If for any fiscal year (or other period specified in the Schedule) the parties fail to agree to predetermined indirect cost rates, the allowable indirect costs shall be obtained by applying final indirect cost rates established in accordance with the Allowable Cost and Payment clause.

(g) Allowable indirect costs for the period from the beginning of performance until the end of the Contractor's fiscal year shall be obtained using the predetermined indirect cost rates and the bases shown in the Schedule.

(End of clause)
(R 7-403.9 1978 AUG)

52.216-16 Incentive Price Revision—Firm Target.

As prescribed in 16.405(a), insert the following clause in solicitations and contracts when a fixed-price incentive (firm target) contract is contemplated. For items to be subject to incentive price revision, show in the contract Schedule the target cost, target profit, and target price for each item.

INCENTIVE PRICE REVISION—FIRM TARGET (APR 1984)

(a) *General.* The supplies or services identified in the Schedule as Items ..... [*Contracting Officer insert Schedule line item numbers*] are subject to price revision in accordance with this clause; *provided*, that in no event shall the total final price of these items exceed the ceiling price of ..... dollars ($.....). Any supplies or services that are to be (1) ordered separately under, or otherwise added to, this contract and (2) subject to price revision in accordance with the terms of this clause shall be identified as such in a modification to this contract.

(b) *Definition.* "Costs," as used in this clause, means allowable costs in accordance with Part 31 of the Federal Acquisition Regulation (FAR) in effect on the date of this contract.

(c) *Data submission.* (1) Within ..... [*Contracting Officer insert number of days*] days after the end of the month in which the Contractor has delivered the last unit of supplies and completed the services specified by item number in paragraph (a) above, the Contractor shall submit on Standard Form 1411 or in any other form on which the parties agree—

(i) A detailed statement of all costs incurred up to the end of that month in performing all work under the items;

(ii) An estimate of costs of further performance, if any, that may be necessary to complete performance of all work under the items;

(iii) A list of all residual inventory and an estimate of its value; and

(iv) Any other relevant data that the Contracting Officer may reasonably require.

(2) If the Contractor fails to submit the data required by subparagraph (1) above within the time specified and it is later determined that the Government has overpaid the Contractor, the Contractor shall repay the excess to the Government immediately. Unless repaid within 30 days after the end of the data submittal period, the amount of the excess shall bear interest, computed from the date the data were due to the date of repayment, at the rate established in accordance with the Interest clause.

(d) *Price revision.* Upon the Contracting Officer's receipt of the data required by paragraph (c) above, the Contracting Officer and the Contractor shall promptly establish the total final price of the items specified in (a) above by applying to final negotiated cost an adjustment for profit or loss, as follows:

(1) On the basis of the information required by paragraph (c) above, together with any other pertinent information, the parties shall negotiate the total final cost incurred or to be incurred for supplies delivered (or services performed) and accepted by the Government and which are subject to price revision under this clause.

(2) The total final price shall be established by applying to the total final negotiated cost an adjustment for profit or loss, as follows:

(i) If the total final negotiated cost is equal to the total target cost, the adjustment is the total target profit.

(ii) If the total final negotiated cost is greater than the total target cost, the adjustment is the total target profit, less ..... [*Contracting Officer insert percent*] percent of the amount by which the total final negotiated cost exceeds the total target cost.

(iii) If the final negotiated cost is less than the total target cost, the adjustment is the total target profit plus ..... [*Contracting Officer insert percent*] percent of the amount by which the total final negotiated cost is less than the total target cost.

(e) *Contract modification.* The total final price of the items specified in paragraph (a) above shall be evidenced by a modification to this contract, signed by the Contractor and the Contracting Officer. This price shall not be subject to revision, notwithstanding any changes in the cost of performing the contract, except to the extent that—

(1) The parties may agree in writing, before the determination of total final price, to exclude specific elements of cost from this price and to a procedure for subsequent disposition of those elements; and

(2) Adjustments or credits are explicitly permitted or required by this or any other clause in this contract.

(f) *Adjusting billing prices.* (1) Pending execution of the contract modification (see paragraph (e) above), the Contractor shall submit invoices or vouchers in accordance with billing prices as provided in this paragraph. The billing prices shall be the target prices shown in this contract.

(2) If at any time it appears from information provided by the contractor under subparagraph (g)(2) below that the then-current billing prices will be substantially greater than the estimated final prices, the parties shall negotiate a reduction in the billing prices. Similarly, the parties may negotiate an increase in billing prices by any or all of the difference between the target prices and the ceiling price, upon the Contractor's submission of factual data showing that final cost under this contract will be substantially greater than the target cost.

(3) Any billing price adjustment shall be reflected in a contract modification and shall not affect the determination of the total final price under paragraph (d) above. After the contract modification establishing the total final price is executed, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the total final price, and any resulting additional payments, refunds, or credits shall be made promptly.

(g) *Quarterly limitation on payments statement.* This paragraph (g) shall apply until final price revision under this contract has been completed.

(1) Within 45 days after the end of each quarter of the Contractor's fiscal year in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and for each quarter thereafter, the Contractor shall submit to the contract administration office (with a copy to the contracting office and the cognizant contract auditor) a statement, cumulative from the beginning of the contract, showing—

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government and for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for, and properly allocable solely to, the supplies delivered (or services performed) and accepted by the Government and for which final prices have not been established;

(iii) The portion of the total target profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (g)) that is in direct proportion to the supplies delivered (or services performed) and accepted by the Government and for which final prices have not been established—increased or decreased in accordance with subparagraph (d)(2) above, when the amount stated under subdivision (ii), immediately above, differs from the aggregate target costs of the supplies or services; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments).

(2) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount under subdivision (1)(iv) above exceeds the sum due the Contractor, as computed in accordance with subdivisions (1)(i), (ii), and (iii) above, the Contractor shall immediately refund or credit to the Government the amount of this excess. The Contractor may, when appropriate, reduce this refund or credit by the amount of any applicable tax credits due the Contractor under 26 U.S.C. 1481 and by the amount of previous refunds or credits effected under this clause. If any portion of the excess has been applied to the liquidation of progress payments, then that portion may, instead of being refunded, be added to the unliquidated progress payment account consistent with the Progress Payments clause. The Contractor shall provide complete details to support any claimed reductions in refunds.

(3) If the Contractor fails to submit the quarterly statement within 45 days after the end of each quarter and it is later determined that the Government has overpaid the Contractor, the Contractor shall repay the excess to the Government immediately. Unless repaid within 30 days after the end of the statement submittal period, the amount of the excess shall bear interest, computed from the date the quarterly statement was due to the date of repayment, at the rate established in accordance with the Interest clause.

(h) *Subcontracts.* No subcontract placed under this contract may provide for payment on a cost-plus-a-percentage-of-cost basis. The Contractor shall—

(1) Insert in each price redetermination or incentive price revision subcontract the substance of paragraph (g), above, and of this paragraph (h), modified to omit mention of the Government and to reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that part of subparagraph (g)(2) above relating to tax credits; and

(2) Include in each cost-reimbursement subcontract a requirement that each lower-tier price redetermination or incentive price revision subcontract contain the substance of paragraph (g) above and of this paragraph (h), modified as required by subparagraph (1) above.

(i) *Disagreements.* If the Contractor and the Contracting Officer fail to agree upon the total final price within 60 days (or within such other period as the Contracting Officer may specify) after the date on which the data required by paragraph (c) above are to be submitted, the Contracting Officer shall promptly issue a decision in accordance with the Disputes clause.

(j) *Termination.* If this contract is terminated before the total final price is established, prices of supplies or services subject to price revision shall be established in accordance with this clause for (1) completed supplies and services accepted by the Government and (2) those supplies and services not terminated under a partial termination. All other elements of the termination shall be resolved in accordance with other applicable clauses of this contract.

(k) *Equitable adjustment under other clauses.* If an equitable adjustment in the contract price is made under any other clause of this contract before the total final price is established, the adjustment shall be made in the total target cost and may be made in the maximum dollar limit on the total final price, the total target profit, or both. If the

adjustment is made after the total final price is established, only the total final price shall be adjusted.

(l) *Exclusion from target price and total final price.* If any clause of this contract provides that the contract price does not or will not include an amount for a specific purpose, then neither any target price nor the total final price includes or will include any amount for that purpose.

(m) *Separate reimbursement.* If any clause of this contract expressly provides that the cost of performance of an obligation shall be at Government expense, that expense shall not be included in any target price or in the total final price, but shall be reimbursed separately.

(n) *Taxes.* As used in the Federal, State, and Local Taxes clause or in any other clause that provides for certain taxes or duties to be included in, or excluded from, the contract price, the term "contract price" includes the total target price or, if it has been established, the total final price. When any of these clauses requires that the contract price be increased or decreased as a result of changes in the obligation of the Contractor to pay or bear the burden of certain taxes or duties, the increase or decrease shall be made in the total target price or, if it has been established, in the total final price, so that it will not affect the Contractor's profit or loss on this contract.

(End of clause)
(R 7-108.1 1980 FEB)

Alternate I (APR 1984). If the contract calls for supplies or services to be ordered under a provisioning document or Government option and the prices are to be subject to the incentive price revision described in the basic clause, add the following paragraph (o) to the basic clause:

(o) *Provisioning and options.* Parts, other supplies, or services that are to be furnished under this contract on the basis of a provisioning document or Government option shall be subject to price revision in accordance with this clause. Any prices established for these parts, other supplies, or services under a provisioning document or Government option shall be treated as target prices. Target cost and profit covering these parts, other supplies, or services may be established separately, in the aggregate, or in any combination, as the parties may agree.

(R 7-108.1 1980 FEB)

52.216-17 Incentive Price Revision—Successive Targets.

As prescribed in 16.405(b), insert the following clause in solicitations and contracts when a fixed-price incentive (successive target) contract is contemplated. For items to be subject to incentive price revision, show in the contract Schedule the initial target cost, initial target profit, and initial target price for each item.

INCENTIVE PRICE REVISION—SUCCESSIVE TARGETS (APR 1984)

(a) *General.* The supplies or services identified in the Schedule as Items ..... [*Contracting Officer insert line item numbers*] are subject to price revision in accordance with this clause; *provided*, that in no event shall the total final price of these items exceed the ceiling price of ..... dollars ($.....). The prices of these items shown in the Schedule are the initial target prices, which include an initial target profit of .....[*Contracting Officer insert percent*] percent of the initial target cost. Any supplies or services that are to be (1) ordered separately under, or otherwise added to, this contract and (2) subject to price revision in accordance with this clause shall be identified as such in a modification to this contract.

(b) *Definition.* "Costs," as used in this clause, means allowable costs in accordance with Part 31 of the Federal Acquisition Regulation (FAR) in effect on the date of this contract.

(c) *Submitting data for establishing the firm fixed price or a final profit adjustment formula.* (1) Within ..... [*Contracting Officer insert number of days*] days after the end of the month in which the Contractor has completed .... [see Note 1], the Contractor shall submit the following data:

(i) A proposed firm fixed price or total firm target price for supplies delivered and to be delivered and services performed and to be performed.

(ii) A detailed statement of all costs incurred in the performance of this contract through the end of the month specified above, on Standard Form 1411 (or in any other form on which the parties may agree), with sufficient supporting data to disclose unit costs and cost trends for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary).

(iii) An estimate of costs of all supplies delivered and to be delivered and all services performed and to be performed under this contract, using the statement of costs incurred plus an estimate of costs to complete performance, on Standard Form 1411 (or in any other form on which the parties may agree), together with—

(A) Sufficient data to support the accuracy and reliability of the estimate; and

(B) An explanation of the differences between this estimate and the original estimate used to establish the initial target prices.

(2) The Contractor shall also submit, to the extent that it becomes available before negotiations establishing the total firm price are concluded—

(i) Supplemental statements of costs incurred after the end of the month specified in subparagraph (1) above for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary); and

(ii) Any other relevant data that the Contracting Officer may reasonably require.

(3) If the Contractor fails to submit the data required by subparagraphs (1) and (2) above within the time specified and it is later determined that the Government has overpaid the Contractor, the Contractor shall repay the excess to the Government immediately. Unless repaid within 30 days after the end of the data submittal period, the amount of the excess shall bear interest, computed from the date the data were due to the date of repayment, at the rate established in accordance with the Interest clause.

(d) *Establishing firm fixed price or final profit adjustment formula.* Upon the Contracting Officer's receipt of the data required by paragraph (c) above the Contracting Officer and the Contractor shall promptly establish either a firm fixed price or a profit adjustment formula for determining final profit, as follows:

(1) The parties shall negotiate a total firm target cost, based upon the data submitted under paragraph (c) above.

(2) If the total firm target cost is more than the total initial target cost, the total initial target profit shall be decreased. If the total firm target cost is less than the total initial target cost, the total initial target profit shall be increased. The initial target profit shall be increased or decreased by ..... percent [see Note 2] of the difference between the total initial target cost and the total firm target cost. The resulting amount shall be the total firm target profit; *provided*, that in no event shall the total firm target profit be less than .... percent or more than .... percent [*Contracting Officer insert percents*] of the total initial target cost.

(3) If the total firm target cost plus the total firm target profit represent a reasonable price for performing that part of the contract subject to price revision under this clause, the parties may agree on a firm fixed price, which shall be evidenced by a contract modification signed by the Contractor and the Contracting Officer.

(4) Failure of the parties to agree to a firm fixed price shall not constitute a dispute under the Disputes clause. If agreement is not reached, or if establishment of a firm fixed price is inappropriate, the Contractor and the Contracting Officer shall establish a profit adjustment formula under which the total final price shall be established by applying to the total final negotiated cost an adjustment for profit or loss, determined as follows:

(i) If the total final negotiated cost is equal to the total firm target cost, the adjustment is the total firm target profit.

(ii) If the total final negotiated cost is greater than the total firm target cost, the adjustment is the total firm target profit, less ..... percent of the amount by which the total final negotiated cost exceeds the total firm target cost.

(iii) If the total final negotiated cost is less than the total firm target cost, the adjustment is the total firm target profit, plus ..... percent of the amount by which the total final negotiated cost is less than the total firm target cost.

(iv) The total firm target cost, total firm target profit, and the profit adjustment formula for determining final profit shall be evidenced by a modification to this contract signed by the Contractor and the Contracting Officer.

(e) *Submitting data for final price revision.* Unless a firm fixed price has been

established in accordance with paragraph (d) above within ..... [*Contracting Officer insert number of days*] days after the end of the month in which the Contractor has delivered the last unit of supplies and completed the services specified by item number in paragraph (a) above, the Contractor shall submit on Standard Form 1411 (or in any other form on which the parties agree)—

(1) A detailed statement of all costs incurred up to the end of that month in performing all work under the items;

(2) An estimate of costs of further performance, if any, that may be necessary to complete performance of all work under the items;

(3) A list of all residual inventory and an estimate of its value; and

(4) Any other relevant data that the Contracting Officer may reasonably require.

(f) *Final price revision.* Unless a firm fixed price has been agreed to in accordance with paragraph (d) above, the Contractor and the Contracting Officer shall, promptly after submission of the data required by paragraph (e) above, establish the total final price, as follows:

(1) On the basis of the information required by paragraph (e) above, together with any other pertinent information, the parties shall negotiate the total final cost incurred or to be incurred for the supplies delivered (or services performed) and accepted by the Government and which are subject to price revision under this clause.

(2) The total final price shall be established by applying to the total final negotiated cost an adjustment for final profit or loss determined as agreed upon under subparagraph (d)(4) above.

(g) *Contract modification.* The total final price of the items specified in paragraph (a) above shall be evidenced by a modification to this contract, signed by the Contractor and the Contracting Officer. This price shall not be subject to revision, notwithstanding any changes in the cost of performing the contract, except to the extent that—

(1) The parties may agree in writing, before the determination of total final price, to exclude specific elements of cost from this price and to a procedure for subsequent disposition of these elements; and

(2) Adjustments or credits are explicitly permitted or required by this or any other clause in this contract.

(h) *Adjustment of billing prices.* (1) Pending execution of the contract modification (see paragraph (e) above), the Contractor shall submit invoices or vouchers in accordance with billing prices as provided in this paragraph. The billing prices shall be the initial target prices shown in this contract until firm target prices are established under paragraph (d) above. When established, the firm target prices shall be used as the billing prices.

(2) If at any time it appears from information provided by the contractor under subparagraph (i)(1) below that the then-current billing prices will be substantially greater than the estimated final prices, the parties shall negotiate a reduction in the billing prices. Similarly, the parties may negotiate an increase in billing prices by any or all of the difference between the target prices and the ceiling price, upon the Contractor's submission of factual data showing that the final cost under this contract will be substantially greater than the target cost.

(3) Any adjustment of billing prices shall be reflected in a contract modification and shall not affect the determination of any price under paragraph (d) or (f) above. After the contract modification establishing the total final price is executed, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the total final price, and any resulting additional payments, refunds, or credits shall be made promptly.

(i) *Quarterly limitation on payments statement.* This paragraph (i) shall apply until a firm fixed price or a total final price is established under subparagraph (d)(3) or (f)(2).

(1) Within 45 days after the end of each quarter of the Contractor's fiscal year in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and for each quarter thereafter, the Contractor shall submit to the contract administration office (with a copy to the contracting office and the cognizant contract auditor) a statement, cumulative from the beginning of the contract, showing—

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government and for which final prices have been established;

(ii) The total cost (estimated to the extent necessary) reasonably incurred for, and properly allocable solely to, the supplies delivered (or sevices performed) and accepted by the Government and for which final prices have not been established;

(iii) The portion of the total interim profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (i)) that is in direct proportion to the supplies delivered (or services performed) and accepted by the Government and for which final prices have not been established—increased or decreased in accordance with subparagraph (d)(4) above when the amount stated under subdivision (ii), immediately above, differs from the aggregate firm target costs of the supplies or services; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments).

(2) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount under subdivision (1)(iv) above exceeds the sum due the Contractor, as computed in accordance with subdivisions (1)(i), (ii), and (iii) above, the Contractor shall immediately refund or credit to the Government the amount of this excess. The Contractor may, when appropriate, reduce this refund or credit by the amount of any applicable tax credits due the Contractor under 26 U.S.C. 1481 and by the amount of previous refunds or credits effected under this clause. If any portion of the excess has been applied to the liquidation of progress payments, then that portion may, instead of being refunded, be added to the unliquidated progress payment account consistent with the Progress Payments clause. The Contractor shall provide complete details to support any claimed reductions in refunds.

(3) If the Contractor fails to submit the quarterly statement within 45 days after the end of each quarter and it is later determined that the Government has overpaid the Contractor, the Contractor shall repay the excess to the Government immediately. Unless repaid within 30 days after the end of the statement submittal period, the amount of the excess shall bear interest, computed from the date the quarterly statement was due to the date of repayment, at the rate established in accordance with the Interest clause.

(j) *Subcontracts.* No subcontract placed under this contract may provide for payment on a cost-plus-a-percentage-of-cost basis. The Contractor shall—

(1) Insert in each price redetermination or incentive price revision subcontract the substance of paragraph (i) above, and of this paragraph (j), modified to omit mention of the Government and to reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that part of subparagraph (i)(2) above relating to tax credits; and

(2) Include in each cost-reimbursement subcontract a requirement that each lower-tier price redetermination or incentive price revision subcontract contain the substance of paragraph (i) above, and of this paragraph (j), modified as required by subparagraph (j)(1), immediately above.

(k) *Disagreements.* If the Contractor and the Contracting Officer fail to agree upon (1) a total firm target cost and a final profit adjustment formula or (2) a total final price, within 60 days (or within such other period as the Contracting Officer may specify) after the date on which the data required in paragraphs (c) and (e) above are to be submitted, the Contracting Officer shall promptly issue a decision in accordance with the Disputes clause.

(l) *Termination.* If this contract is terminated before the total final price is established, prices of supplies or services subject to price revision shall be established in accordance with this clause for (1) completed supplies and services accepted by the Government and (2) those supplies or services not terminated under a partial termination. All other elements of the termination shall be resolved in accordance with other applicable clauses of this contract.

(m) *Equitable adjustments under other clauses.* If an equitable adjustment in the contract price is made under any other clause of this contract before the total final price is established, the adjustment shall be made in the total target cost and may be made in the maximum dollar limit on the total final price, the total target profit, or both. If the adjustment is made after the total final price is established, only the total final price shall be adjusted.

(n) *Exclusion from target price and total final price.* If any clause of this contract provides that the contract price does not or will not include an amount for a specific purpose, then neither any target price nor the

total final price includes or will include any amount for that purpose.

(o) *Separate reimbursement.* If any clause of this contract expressly provides that the cost of performance of an obligation shall be at Government expense, that expense shall not be included in any target price or in the total final price, but shall be reimbursed separately.

(p) *Taxes.* As used in the Federal, State, and Local Taxes clause or in any other clause that provides for certain taxes or duties to be included in, or excluded from, the contract price, the term "contract price" includes the total target price or, if it has been established, the total final price. When any of these clauses requires that the contract price be increased or decreased as a result of changes in the obligation of the Contractor to pay or bear the burden of certain taxes or duties, the increase or decrease shall be made in the total target price or, if it has been established, in the total final price, so that it will not affect the Contractor's profit or loss on this contract.

(End of clause)
(R 7-108.2 1980 FEB)

NOTES:
(1) The degree of completion may be based on a percentage of contract performance or any other reasonable basis.
(2) The language may be changed to describe a negotiated adjustment pattern under which the extent of adjustment is not the same for all levels of cost variation.

Alternate I (APR 1984). If the contract calls for supplies or services to be ordered under a provisioning document or Government option and the prices are to be subject to the incentive price revision described in the basic clause, add the following paragraph (q) to the basic clause:

(q) *Provisioning and options.* Parts, other supplies, or services that are to be furnished under this contract on the basis of a provisioning document or Government option shall be subject to price revision in accordance with this clause. Any prices established for these parts, other supplies, or services under a provisioning document or Government option shall be treated as initial target prices, or target prices as agreed upon and stipulated in the pricing document supporting the provisioning or added items. Initial or firm target costs and profits and final prices covering these parts, other supplies, or services may be established separately, in the aggregate, or in any combination, as the parties may agree.

(R 7-108.2 1980 FEB)

52.216-18 Ordering.

As prescribed in 16.505(a), insert the following clause in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated:

ORDERING (APR 1984)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders by the individuals or activities designated in the Schedule. Such orders may be issued from ..... through ..... [*insert dates*].

(b) All delivery orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order and this contract, the contract shall control.

(c) If mailed, a delivery order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally or by written telecommunications only if authorized in the Schedule.

(End of clause)
(R 7-1101 1968 JUN)

52.216-19 Delivery-Order Limitations.

As prescribed in 16.505(b), insert a clause substantially the same as follows in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated:

DELIVERY-ORDER LIMITATIONS (APR 1984)

(a) *Minimum order.* When the Government requires supplies or services covered by this contract in an amount of less than ..... [*insert dollar figure or quantity*], the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) *Maximum order.* The Contractor is not obligated to honor—

(1) Any order for a single item in excess of ..... [*insert dollar figure or quantity*];

(2) Any order for a combination of items in excess of ..... [*insert dollar figure or quantity*]; or

(3) A series of orders from the same ordering office within ..... days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within ..... days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)
(R 7-1102.1(a) 1965 AUG)
(R 7-1102.2(a))
(R 7-1102.3(a))

52.216-20 Definite Quantity.

As prescribed in 16.505(c), insert the following clause in solicitations and contracts when a definite-quantity contract is contemplated.

DEFINITE QUANTITY (APR 1984)

(a) This is a definite-quantity, indefinite-delivery contract for the supplies or services specified, and effective for the period stated, in the Schedule.

(b) The Government shall order the quantity of supplies or services specified in the Schedule, and the Contractor shall furnish them when ordered. Delivery or performance shall be at locations designated in orders issued in accordance with the Ordering clause and the Schedule.

(c) Except for any limitations on quantities in the Delivery-Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that time shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; *provided*, that the Contractor shall not be required to make any deliveries under this contract after ..... [*insert date*].

(End of clause)
(R 7-1102.1(b) 1965 AUG)

52.216-21 Requirements.

As prescribed in 16.505(d), insert the following clause in solicitations and contracts when a requirements contract is contemplated:

REQUIREMENTS (APR 1984)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Delivery-Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; *provided*, that the Contractor shall not be required to make any deliveries under this contract after ..... [insert date].

(End of clause)
(R 7-1102.2(b) 1966 OCT)

Alternate I (APR 1984). If the requirements contract is for nonpersonal services and related supplies and covers estimated requirements that exceed a specific Government activity's internal capability to produce or perform, substitute the following paragraph (c) for paragraph (c) of the basic clause:

(c) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all of that activity's requirements for supplies and services specified in the Schedule that exceed the quantities that the activity may itself furnish within its own capabilities.

(R 7-1102.2(b)(1) 1966 OCT)

Alternate II (APR 1984). If the requirements contract includes subsistence for both Government use and resale in the same Schedule, and similar products may be acquired on a brand-name basis, add the following paragraph (g) to the basic clause:

(g) The requirements referred to in this contract are for items to be manufactured according to Government specifications. Notwithstanding anything to the contrary stated in the contract, the Government may acquire similar products by brand name from other sources for resale.

(R 7-1102.2(b)(2) 1966 OCT)

Alternate III (APR 1984). If the requirements contract involves a partial small business or labor surplus area set-aside, substitute the following paragraph (c) for paragraph (c) of the basic clause:

(c) The Government's requirements for each item or subitem of supplies or services described in the Schedule are being purchased through one non-set-aside contract and one set-aside contract. Therefore, the Government shall order from each Contractor approximately one-half of the total supplies or services specified in the Schedule that are required to be purchased by the specified Government activity or activities. The Government may choose between the set-aside Contractor and the non-set-aside Contractor in placing any particular order. However, the Government shall allocate successive orders, in accordance with its delivery requirements, to maintain as close a ratio as is reasonably practicable between the total quantities ordered from the two Contractors.

(R 7-1102.2(b)(4) 1966 OCT)

Alternate IV (APR 1984). If the contract includes subsistence for both Government use and resale in the same Schedule and similar products may be acquired on a brand-name basis and the contract also involves a partial small business or labor surplus area set-aside, substitute the following paragraph (c) for paragraph (c) of the basic clause and add the following paragraph (g) to the basic clause:

(c) The Government's requirements for each item or subitem of supplies or services described in the Schedule are being purchased through one non-set-aside contract and one set-aside contract. Therefore, the Government shall order from each Contractor approximately one-half of the total supplies or services specified in the Schedule that are required to be purchased by the specified Government activity or activities. The Government may choose between the set-aside Contractor and the non-set-aside Contractor in placing any particular order. However, the Government shall allocate successive orders, in accordance with its delivery requirements, to maintain as close a ratio as is reasonably practicable between the total quantities ordered from the two Contractors.

(g) The requirements referred to in this contract are for items to be manufactured according to the Government specifications. Notwithstanding anything to the contrary stated in the contract, the Government may acquire similar products by brand name from other sources for resale.

(R 7-1102.2(b) 1966 OCT)

52.216-22 Indefinite Quantity.

As prescribed in 16.505(e), insert the following clause in solicitations and contracts when an indefinite-quantity contract is contemplated:

INDEFINITE QUANTITY (APR 1984)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Delivery-Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; *provided*, that the Contractor shall not be required to make any deliveries under this contact after ..... [*insert date*].

(End of clause)
(R 7-1102.3(b) 1965 AUG)

52.216-23 Execution and Commencement of Work.

As prescribed in 16.603-4(b)(1), insert the following clause in solicitations and contracts when a letter contract is contemplated, except that it may be omitted from letter contracts awarded on SF 26:

EXECUTION AND COMMENCEMENT OF WORK (APR 1984)

The Contractor shall indicate acceptance of this letter contract by signing three copies of the contract and returning them to the Contracting Officer not later than ..... [*insert date*]. Upon acceptance by both parties, the Contractor shall proceed with performance of the work, including purchase of necessary materials.

(End of clause)
(R 7-802.2 1964 MAR)

52.216-24 Limitation of Government Liability.

As prescribed in 16.603-4(b)(2), insert the following clause in solicitations and contracts when a letter contract is contemplated:

LIMITATION OF GOVERNMENT LIABILITY (APR 1984)

(a) In performing this contract, the Contractor is not authorized to make expenditures or incur obligations exceeding ..... dollars.

(b) The maximum amount for which the Government shall be liable if this contract is terminated is ..... dollars.

(End of clause)
(R 7-802.3 1967 OCT)

52.216-25 Contract Definitization.

As prescribed in 16.603-4(b)(3), insert the following clause in solicitations and contracts when a letter contract is contemplated. If, at the time of entering into the letter contract, the contracting officer knows that the definitive contract will be based on adequate price competition or will otherwise meet the

criteria of 15.804-3 for not requiring submission of cost or pricing data, the words "and cost or pricing data" may be deleted from paragraph (a) of the clause.

CONTRACT DEFINITIZATION (APR 1984)

(a) A ..... *[insert specific type of contract]* definitive contract is contemplated. The Contractor agrees to begin promptly negotiating with the Contracting Officer the terms of a definitive contract that will include (1) all clauses required by the Federal Acquisition Regulation (FAR) on the date of execution of the letter contract, (2) all clauses required by law on the date of execution of the definitive contract, and (3) any other mutually agreeable clauses, terms, and conditions. The Contractor agrees to submit a ..... [*insert specific type of proposal (e.g., fixed-price or cost-and-fee)*] proposal and cost or pricing data supporting its proposal.

(b) The schedule for definitizing this contract is *[insert target date for definitization of the contract and dates for submission of proposal, beginning of negotiations, and, if appropriate, submission of make-or-buy and subcontracting plans and cost or pricing data]*:

.....

.....

.....

.....

(c) If agreement on a definitive contract to supersede this letter contract is not reached by the target date in paragraph (b) above, or within any extension of it granted by the Contracting Officer, the Contracting Officer may, with the approval of the head of the contracting activity, determine a reasonable price or fee in accordance with Subpart 15.8 and Part 31 of the FAR, subject to Contractor appeal as provided in the Disputes clause. In any event, the Contractor shall proceed with completion of the contract, subject only to the Limitation of Government Liability clause.

(1) After the Contracting Officer's determination of price or fee, the contract shall be governed by—

(i) All clauses required by the FAR on the date of execution of this letter contract for either fixed-price or cost-reimbursement contracts, as determined by the Contracting Officer under this paragraph (c);

(ii) All clauses required by law as of the date of the Contracting Officer's determination; and

(iii) Any other clauses, terms, and conditions mutually agreed upon.

(2) To the extent consistent with subparagraph (c)(1) above, all clauses, terms, and conditions included in this letter contract shall continue in effect, except those that by their nature apply only to a letter contract.

(End of clause)

(R 7-802.5(a) 1969 DEC)

Alternate I (APR 1984). In letter contracts awarded on the basis of price competition, add the following paragraph (d) to the basic clause:

(d) The definitive contract resulting from this letter contract will include a negotiated ..... *[insert "price ceiling" or "firm fixed price"]* in no event to exceed ..... *[insert the proposed price upon which the award was based]*.

(R 7-802.5(b) 1969 DEC)

52.216-26 Payments of Allowable Costs Before Definitization.

As prescribed in 16.603-4(c), insert the following clause in solicitations and contracts if a cost-reimbursement definitive contract is contemplated, unless the acquisition involves conversion, alteration, or repair of ships:

PAYMENTS OF ALLOWABLE COSTS BEFORE DEFINITIZATION (APR 1984)

(a) *Reimbursement rate.* Pending the placing of the definitive contract referred to in this letter contract, the Government shall promptly reimburse the Contractor for all allowable costs under this contract at the following rates:

(1) One hundred percent of approved costs representing progress payments to subcontractors under fixed-price subcontracts; *provided*, that the Government's payments to the Contractor shall not exceed 80 percent of the allowable costs of those subcontractors.

(2) One hundred percent of approved costs representing cost-reimbursement subcontracts; *provided*, that the Government's payments to the Contractor shall not exceed 85 percent of the allowable costs of those subcontractors.

(3) Eighty-five percent of all other approved costs.

(b) *Limitation of reimbursement.* To determine the amounts payable to the Contractor under this letter contract, the Contracting Officer shall determine allowable costs in accordance with the applicable cost principles in Part 31 of the Federal Acquisition Regulation (FAR). The total reimbursement made under this paragraph shall not exceed 85 percent of the maximum amount of the Government's liability, as stated in this contract.

(c) *Invoicing.* Payments shall be made promptly to the Contractor when requested as work progresses, but (except for small business concerns) not more often than every 2 weeks, in amounts approved by the Contracting Officer. The Contractor may submit to an authorized representative of the Contracting Officer, in such form and reasonable detail as the representative may require, an invoice or voucher supported by a statement of the claimed allowable cost incurred by the Contractor in the performance of this contract.

(d) *Allowable costs.* For the purpose of determining allowable costs, the term "costs" includes—

(1) Those recorded costs that result, at the time of the request for reimbursement, from payment by cash, check, or other form of actual payment for items or services purchased directly for the contract;

(2) When the Contractor is not delinquent in payment of costs of contract performance in the ordinary course of business, costs incurred, but not necessarily paid, for—

(i) Materials issued from the Contractor's stores inventory and placed in the production process for use on the contract;

(ii) Direct labor;

(iii) Direct travel;

(iv) Other direct in-house costs; and

(v) Properly allocable and allowable indirect costs as shown on the records maintained by the Contractor for purposes of obtaining reimbursement under Government contracts; and

(3) The amount of progress payments that have been paid to the Contractor's subcontractors under similar cost standards.

(e) *Small business concerns.* A small business concern may receive more frequent payments than every 2 weeks and may invoice and be paid for recorded costs for items or services purchased directly for the contract, even though it has not yet paid for such items or services.

(f) *Audit.* At any time before final payment, the Contracting Officer may have the Contractor's invoices or vouchers and statements of costs audited. Any payment may be (1) reduced by any amounts found by the Contracting Officer not to constitute allowable costs or (2) adjusted for overpayments or underpayments made on preceding invoices or vouchers.

(End of clause)

(R 7-802.4(a) 1972 MAY)

52.217-1 Limitation of Price and Contractor Obligations.

As prescribed in 17.105(a)(1), insert the following clause in solicitations and contracts when a multiyear contract is contemplated.

LIMITATION OF PRICE AND CONTRACTOR OBLIGATIONS (APR 1984)

(a) Funds available for performance are described in the Schedule. The amount of funds available at award is not considered sufficient for the performance required for any program year other than the first program year. When additional funds are available for the full requirements of the next succeeding program year, the Contracting Officer shall, not later than the date specified in the Schedule (unless a later date is agreed to), so notify the Contractor in writing. The Contracting Officer shall also modify the amount of funds described in the Schedule as available for contract performance. This procedure shall apply for each successive program year.

(b) The Government is not obligated to the Contractor for any amount over that described in the Schedule as available for contract performance.

(c) The Contractor is not obligated to incur costs for the performance required for any program year after the first unless and until written notification is received from the Contracting Officer of an increase in availability of funds. If so notified, the Contractor's obligation shall increase only to the extent contract performance is required for the additional program year for which funds are made available.

(d) If this contract is terminated under the "Termination for Convenience of the

Government" clause, "total contract price" in that clause means the amount available for performance of this contract, as in paragraph (a) above, plus the amount established as the cancellation ceiling. "Work under the contract" in that clause means the work under program year requirements for which funds have been made available. If the contract is terminated for default, the Government's rights under this contract shall apply to the entire multiyear requirements.

(e) Notification to the Contractor of an increase or decrease in the funds available for performance of this contract under another clause (e.g., an "Option" or "Changes" clause) shall not constitute the notification contemplated by paragraph (a) of this clause.

(End of clause)

52.217-2 Cancellation of Items.

As prescribed in 17.105(a)(2), insert the following clause in solicitations and contracts when a multiyear contract is contemplated.

CANCELLATION OF ITEMS (APR 1984)

(a) "Cancellation," as used in this clause, means that the Government is canceling its requirements for all items in program years subsequent to that in which notice of cancellation is provided. Cancellation shall occur, by the date or within the time period specified in the Schedule, (unless a later date is agreed to) if the Contracting Officer (1) notifies the Contractor that funds are not available for contract performance for any subsequent program year or (2) fails to notify the Contractor that funds are available for performance of the succeeding program year requirement.

(b) Except for cancellation under this clause or termination under the "Default" clause, any reduction by the Contracting Officer in the requirements of this contract shall be considered a termination under the "Termination for Convenience of the Government" clause.

(c) If cancellation under this clause occurs, the Contractor will be paid a cancellation charge not over the cancellation ceiling specified in the Schedule as applicable at the time of cancellation.

(d) The cancellation charge will cover only (1) costs (i) incurred by the prime contractor and/or subcontractor, (ii) reasonably necessary for performance of the contract, and (iii) that would have been equitably amortized in the unit prices for the entire multiyear contract period but, because of the cancellation, are not so amortized, and (2) a reasonable profit on the costs.

(e) The cancellation charge shall be computed and the claim made for it as if the claim were being made under the "Termination for Convenience of the Government" clause of this contract. The Contractor shall submit the claim promptly but no later than 1 year from the date (1) of notification of the nonavailability of funds, or (2) specified in the Schedule by which notification of the availability of additional funds for the next succeeding program year is required to be issued, whichever is earlier, unless extensions in writing are granted by the Contracting Officer.

(f) The Contractor's claim may include—

(1) Reasonable nonrecurring costs (see FAR 15.8) which are applicable to and normally would have been amortized in all items to be furnished under the multiyear requirements;

(2) Allocable portions of the costs of facilities acquired or established for the conduct of the work, to the extent that it is impracticable for the Contractor to use the facilities in its commercial work and if the costs are not charged to the contract through overhead or otherwise depreciated;

(3) Costs incurred for the assembly, training, and transportation to and from the job site of a specialized work force; and

(4) Costs not amortized by the unit price solely because the cancellation had precluded anticipated benefits of Contractor or subcontractor learning.

(g) The claim shall not include—

(1) Labor, material, or other expenses incurred by the Contractor or subcontractors for performance of the canceled work;

(2) Any cost already paid to the Contractor;

(3) Anticipated profit on the canceled work; or

(4) For service contracts, the remaining useful commercial life of facilities. "Useful commercial life" means the commercial utility of the facilities rather than their physical life with due consideration given to such factors as location of facilities, their specialized nature, and obsolescence.

(h) This contract may include an "Option" clause with the period for exercising the option limited to the date in the contract for notification that funds are available for the next succeeding program year. If so, the Contractor agrees not to include in the price for option quantities any costs of a startup or nonrecurring nature, that have been fully provided for in the unit prices of the firm quantities of the program years. The Contractor further agrees that the prices offered for option quantities will reflect only those recurring costs, and a reasonable profit necessary to furnish the additional option quantities.

(i) Quantities added to the original contract through the "Option" clause of this contract shall be included in the quantity canceled for the purpose of computing allowable cancellation charges.

(End of clause)

Alternate I (APR 1984). If a multiyear modified requirements contract is awarded for more than 1 program year, substitute the following paragraph (a) for paragraph (a) of the basic clause, delete paragraph (b) of the basic clause, and redesignate the remaining paragraphs accordingly:

(a) As used herein, the term "cancellation" means that the Government is cancelling, pursuant to this clause, its anticipated requirements for items as set forth in the schedule for all program years subsequent to that in which notice of cancellation is provided. Such cancellation shall occur if, by the date of within the time period specified in the schedule or such further time as may be agreed to, the Contracting Officer (1) notifies the Contractor that funds will not be available for contract performance for any subsequent program year or (2) fails to notify the Contractor that funds will be available for performance of a requirement for the succeeding program year. "Cancellation" shall also be deemed to have occurred if, upon expiration of the final program year, the Government has failed to order the specified items in quantities up to the aggregate Best Estimated Quantity set forth in the Schedule. Following cancellation under this clause of any program year(s), the Government shall not be obligated to issue nor the Contractor to accept any further orders under this contract.

(R 1-322.8)

52.217-3 Evaluation Exclusive of Options.

As prescribed in 17.208(a), insert a provision substantially the same as the following in solicitations when the solicitation includes an option clause and does not include one of the provisions prescribed in 17.208(b) or (c):

EVALUATION EXCLUSIVE OF OPTIONS (APR 1984)

The Government will evaluate offers for award purposes by including only the price for the basic requirement; i.e., options will not be included in the evaluation for award purposes.

(End of provision)
(R 1-1504(a))

52.217-4 Evaluation of Options Exercised at Time of Contract Award.

As prescribed in 17.208(b), insert a provision substantially the same as the following in solicitations when the solicitation includes an option clause and an option may be exercised at the time of contract award:

EVALUATION OF OPTIONS EXERCISED AT TIME OF CONTRACT AWARD (APR 1984)

The Government will evaluate the total price for the basic requirement together with any option(s) exercised at the time of award.

(End of provision)
(R 7-2003.11(a))
(AV 1-1.1508-1(a))

52.217-5 Evaluation of Options.

As prescribed in 17.208(c)(1), insert a provision substantially the same as the following in solicitations when the solicitation contains an option clause; an option is not to be exercised at the time of contract award; a firm-fixed-price contract, a fixed-price contract with economic price adjustment, or another type of contract as approved under agency procedures is contemplated; and a determination has been made as specified in 17.206(a):

EVALUATION OF OPTIONS (APR 1984)

(a) The Government will evaluate offers for award purposes by adding the total price for

all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

(b) The Government may reject an offer as nonresponsive if it is materially unbalanced as to prices for the basic requirement and the option quantities. An offer is unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated for other work.

(End of provision)
(R 7-2003.11(b))
(AV 1-1.1508-1(b))

Alternate I (APR 1984). If all conditions specified in 17.208(c)(1) apply, except that a fixed-price incentive contract is contemplated, and the conditions specified in 17.206(b) apply, substitute the following paragraph (a) for paragraph (a) of the basic provision:

(a) The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The offeror's target cost for the basic requirement and option(s) is the price of the basic requirement and the option(s) for evaluation purposes. Evaluation of options will not obligate the Government to exercise the option(s).

(R 7-2003.11(c) 1974 APR)
(R 1-1.1508-1(c))

52.217-6 Option for Increased Quantity.

As prescribed in 17.208(d), insert a clause substantially the same as the following in solicitations and contracts, other than those for services, when the inclusion of an option is appropriate (see 17.200 and 17.202) and the option quantity is expressed as a percentage of the basic contract quantity or as an additional quantity of a specific line item:

OPTION FOR INCREASED QUANTITY (APR 1984)

The Government may increase the quantity of supplies called for in the Schedule at the unit price specified. The Contracting Officer may exercise the option by written notice to the Contractor within the period specified in the Schedule. Delivery of the added items shall continue at the same rate as the like items called for under the contract, unless the parties otherwise agree.

(End of clause)
(AV 7-104.27(a))
(V 1-1.1508-2(a))

52.217-7 Option for Increased Quantity—Separately Priced Line Item.

As prescribed in 17.208(e), insert a clause substantially the same as the following in solicitations and contracts, other than those for services, when the inclusion of an option is appropriate (see 17.200 and 17.202) and the option is identified as a separately priced line item having the same nomenclature as a corresponding basic contract line item:

OPTION FOR INCREASED QUANTITY—SEPARATELY PRICED LINE ITEM (APR 1984)

The Government may require the delivery of the numbered line item, identified in the Schedule as an option item, in the quantity and at the price stated in the Schedule. The Contracting Officer may exercise the option by written notice to the Contractor within the period specified in the Schedule. Delivery of added items shall continue at the same rate that like items are called for under the contract, unless the parties otherwise agree.

(End of clause)
(AV 7-104.27(b))
(AV 1-1.1508-2(b))

52.217-8 Option to Extend Services.

As prescribed in 17.208(f), insert a clause substantially the same as the following in solicitations and contracts for services when the inclusion of an option is appropriate (see 17.200 and 17.202) unless the conditions specified in 17.208(g) apply:

OPTION TO EXTEND SERVICES (APR 1984)

The Government may require continued performance of any services within the limits and at the rates stated in the Schedule. The Contracting Officer may exercise the option by written notice to the Contractor within the period specified in the Schedule.

(End of clause)
(R 7-1903.22))
(V 1-1.1508-2(c))

52.217-9 Option to Extend the Term of the Contract—Services.

As prescribed in 17.208(g), insert a clause substantially the same as the following in solicitations and contracts for services when the inclusion of an option is appropriate (see 17.200 and 17.202) and it is necessary to include in the contract a requirement that the Government shall give the contractor a preliminary written notice of its intent to extend the contract, a stipulation that an extension of the contract includes an extension of the option, and/or a specified limitation on the total duration of the contract:

OPTION TO EXTEND THE TERM OF THE CONTRACT—SERVICES (APR 1984)

(a) The Government may extend the term of this contract by written notice to the Contractor within the time specified in the Schedule; *provided*, that the Government shall give the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option provision.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed ..... (months)(years).

(End of clause)
(R 7-104.27(c))
R 1-1.1508-2(d))

52.218 [Reserved].

52.219-1 Small Business Concern Representation.

As prescribed in 19.304(a), insert the following provision in solicitations when the contract is to be performed inside the United States, its territories or possessions, Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia:

SMALL BUSINESS CONCERN REPRESENTATION (APR 1984)

The offeror represents and certifies as part of its offer that it ☐ is, ☐ is not a small business concern and that ☐ all, ☐ not all supplies to be furnished will be manufactured or produced by a small business concern in the United States, its possessions, or Puerto Rico. "Small business concern," as used in this provision, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the size standards in this solicitation.

(End of provision)
(R 3-501(b)(3), Part IV, Section K, (i)(A) 1979 SEP)

52.219-2 Small Disadvantaged Business Concern Representation.

As prescribed in 19.304(b), insert the following provision in solicitations (other than those for small purchases), when the contract is to be performed inside the United States, its territories or possessions, Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia:

SMALL DISADVANTAGED BUSINESS CONCERN REPRESENTATION (APR 1984)

(a) *Representation.* The offeror represents that it ☐ is, ☐ is not a small disadvantaged business concern.

(b) *Definitions.*

"Asian-Indian American," as used in this provision, means a United States citizen whose origins are in India, Pakistan, or Bangladesh.

"Asian-Pacific American," as used in this provision, means a United States citizen whose origins are in Japan, China, the Philippines, Vietnam, Korea, Samoa, Guam, the U.S. Trust Territory of the Pacific Islands, the Northern Mariana Islands, Laos, Cambodia, or Taiwan.

"Native Americans," as used in this provision, means American Indians, Eskimos, Aleuts, and native Hawaiians.

"Small business concern," as used in this provision, means a concern, including its affiliates, that is independently owned and

operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria and size standards in 13 CFR 121.

"Small disadvantaged business concern," as used in this provision, means a small business concern that (1) is at least 51 percent owned by one or more individuals who are both socially and economically disadvantaged, or a publicly owned business having at least 51 percent of its stock owned by one or more socially and economically disadvantaged individuals and (2) has its management and daily business controlled by one or more such individuals.

(c) *Qualified groups.* The offeror shall presume that socially and economically disadvantaged individuals include Black Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, Asian-Indian Americans, and other individuals found to be qualified by the SBA under 13 CFR 124.1.

(End of provision)
(R 7-2003.74 1980 AUG)
(R 3-501(b)(3), Part IV, Section K, (i)(B) 1980 AUG)

52.219-3 Women-Owned Small Business Representation.

As prescribed in 19.304(c), insert the following provision in solicitations (other than those for small purchases), when the contract is to be performed inside the United States, its territories or possessions, Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia:

WOMEN-OWNED SMALL BUSINESS REPRESENTATION (APR 1984)

(a) *Representation.* The offeror represents that it ☐ is, ☐ is not a women-owned small business concern.

(b) *Definitions.*

"Small business concern," as used in this provision, means a concern, including its affiliates, that is independently owned and operated, not dominate in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria and size standards in 13 CFR 121.

"Women-owned," as used in this provision, means a small business that is at least 51 percent owned by a woman or women who are U.S. citizens and who also control and operate the business.

(End of provision)
(R FPR Temp. Reg 48 1978 DEC)

52.219-4 Notice of Small Business-Small Purchase Set-Aside.

As prescribed in 19.508(a), insert the following provision in each written solicitation of quotations or offers to provide supplies and/or services when (a) the contract is to be performed inside the United States, its territories or possessions, Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia, (b) the contract amount is expected to be $10,000 or less, and (c) the acquisition is subject to small purchase procedures; unless purchase on an unrestricted basis is appropriate, as specified in 13.105(d):

NOTICE OF SMALL BUSINESS-SMALL PURCHASE SET-ASIDE (APR 1984)

Quotations under this acquisition are solicited from small business concerns only. Any acquisition resulting from this solicitation will be from a small business concern. Quotations received from concerns that are not small businesses shall not be considered and shall be rejected.

(End of provision)
(R 7-2003.32 1980 AUG)

52.219-5 Notice of Total Small Business-Labor Surplus Area Set-Aside.

As prescribed in 19.508(b) and except for the Department of Defense, insert the following clause in solicitations and contracts involving total small business-labor surplus area set-asides:

NOTICE OF TOTAL SMALL BUSINESS-LABOR SURPLUS AREA SET-ASIDE (APR 1984)

(a) *Definitions.*

"Labor surplus area," as used in this clause, means a geographical area identified by the Department of Labor as an area of labor surplus.

"Labor surplus area concern," as used in this clause, means a concern that, together with its first-tier subcontractors, will perform substantially in labor surplus areas.

"Perform substantially in labor surplus areas," as used in this clause, means that the costs incurred under the contract on account of manufacturing, production, and performance of services in labor surplus areas exceed 50 percent of the contract price.

"Small business concern," as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria and size standards in 13 CFR 121.

(b) *General.* (1) Offers are solicited from small business concerns that are also labor surplus area concerns. Offers received from concerns that are not small business-labor surplus area concerns shall be considered nonresponsive and will be rejected.

(2) Any award resulting from this solicitation will be made to a small business-labor surplus area concern.

(c) *Agreement.* (1) The offeror agrees that, if awarded a contract as a small business-labor surplus area concern, it will take the following actions:

(i) Perform the contract, or cause it to be performed, substantially in areas classified as labor surplus areas at the time of award or performance. However, if an area selected by the offeror is no longer classified as a labor surplus area at the time of performance, the offeror will make an effort to select another area for performance that is classified at the time as a labor surplus area.

(ii) If the contract exceeds $10,000, submit a report to the Contracting Officer within 30 days after the date of award (or a longer period of time, if prescribed by the Contracting Officer) that contains the following information:

(A) The dollar amount of the contract.

(B) Identification of each labor surplus area in which contract (and first-tier subcontract) performance is taking or will take place.

(C) The total costs incurred and the total costs to be incurred under the contract on account of manufacturing, production, and performance of services in each of the labor surplus areas by (*1*) the prime Contractor and (*2*) first-tier subcontractors.

(D) The total dollar amount attributable to performance in labor surplus areas.

(2) A manufacturer or regular dealer submitting an offer in its own name agrees to furnish, in performing the contract, only end items manufactured or produced by small business concerns inside the United States, its territories and possessions, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia. However, this requirement does not apply in connection with construction or service contracts.

(End of clause)
(R 1-1.706-5(d))

52.219-6 Notice of Total Small Business Set-Aside.

As prescribed in 19.508(c), insert the following clause in solicitations and contracts involving total small business set-asides:

NOTICE OF TOTAL SMALL BUSINESS SET-ASIDE (APR 1984)

(a) *Definition.*

"Small business concern," as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the size standards in this solicitation.

(b) *General.* (1) Offers are solicited only from small business concerns. Offers received from concerns that are not small business concerns shall be considered nonresponsive and will be rejected.

(2) Any award resulting from this solicitation will be made to a small business concern.

(c) *Agreement.* A manufacturer or regular dealer submitting an offer in its own name agrees to furnish, in performing the contract, only end items manufactured or produced by small business concerns inside the United States, its territories and possessions, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia. However, this requirement does not apply in connection with construction or service contracts.

(End of clause)
(R 7-2003.2 1972 JUL)
(R 1-1.706-5(e))

52.219-7 Notice of Partial Small Business Set-Aside.

As prescribed in 19.508(d), insert the following clause in solicitations and contracts involving partial small business set-asides:

NOTICE OF PARTIAL SMALL BUSINESS SET-ASIDE (APR 1984)

(a) *Definitions.*

"Labor surplus area," as used in this clause, means a geographical area identified by the Department of Labor as an area of labor surplus.

"Labor surplus area concern," as used in this clause, means a concern that, together with its first-tier subcontractors, will perform substantially in labor surplus areas.

"Perform substantially in labor surplus areas," as used in this clause, means that the costs incurred under the contract on account of manufacturing, production, and performance of services in labor surplus areas exceed 50 percent of the contract price.

"Small business concern," as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the size standards in this solicitation.

(b) *General.* (1) A portion of this requirement, identified elsewhere in this solicitation, has been set aside for award to one or more small business concerns.

(2) Offers on the non-set-aside portion will be evaluated first and award will be made on that portion in accordance with the provisions of this solicitation.

(3) The set-aside portion will be awarded at the highest unit price(s) in the contract(s) for the non-set-aside portion, adjusted to reflect transportation and other costs appropriate for the selected contractor(s).

(4) (i) The contractor(s) for the set-aside portion will be selected from among the small business concerns that submitted responsive offers on the non-set-aside portion. These concerns fall into two groups:

(A) Group 1 — Small business concerns that are also labor surplus area concerns.

(B) Group 2 — Other small business concerns.

(ii) Negotiations will be conducted with the concern in Group 1 that submitted the lowest responsive offer on the non-set-aside portion. If the negotiations are not successful or if only part of the set-aside portion is awarded to that concern, negotiations will be conducted with the concern that submitted the second-lowest responsive offer on the non-set-aside portion. This process will continue, first with concerns in Group 1 and then with concerns in Group 2, until a contract or contracts are awarded for the entire set-aside portion.

(5) The Government reserves the right to not consider token offers or offers designed to secure an unfair advantage over other offerors eligible for the set-aside portion.

(c) *Agreement.* (1) The offeror agrees that, if awarded a contract as a small business-labor surplus area concern, it will perform the contract, or cause it to be performed, substantially in areas classified as labor surplus areas at the time of award or performance of this contract. However, if an area selected by the offeror is no longer classified as a labor surplus area at the time of performance, the offeror will make an effort to select another area for performance that is classified at the time as a labor surplus area.

(2) The offeror agrees that, if awarded a contract that exceeds $10,000, it will submit a report to the Contracting Officer within 30 days after the date of award (or a longer period of time, if prescribed by the Contracting Officer) that contains the following information:

(i) The dollar amount of the contract.

(ii) Identification of each labor surplus area in which contract (and subcontract) performance is taking or will take place.

(iii) The total costs incurred and the total costs to be incurred under the contract on account of manufacturing, production, and performance of services in each of the labor surplus areas by (A) the prime Contractor and (B) first-tier subcontractors.

(iv) The total dollar amount attributable to performance in labor surplus areas.

(3) A manufacturer or regular dealer submitting an offer in its own name agrees to furnish, in performing the contract, only end items manufactured or produced by small business concerns inside the United States, its territories and possessions, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia. However, this requirement does not apply in connection with construction or service contracts.

(End of clause)
(R 7-2003.3(a) 1978 JUN)
(R 1-1.706-6(c))

52.219-8 Utilization of Small Business Concerns and Small Disadvantaged Business Concerns.

As prescribed in 19.708(a), insert the following clause in solicitations and contracts when the contract amount is expected to be over $10,000, unless—

(a) A personal services contract (see 37.104) is contemplated; or

(b) The contract, together with all its subcontracts, is to be performed entirely outside of any State, territory, or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

UTILIZATION OF SMALL BUSINESS CONCERNS AND SMALL DISADVANTAGED BUSINESS CONCERNS (APR 1984)

(a) It is the policy of the United States that small business concerns and small business concerns owned and controlled by socially and economically disadvantaged individuals shall have the maximum practicable opportunity to participate in performing contracts let by any Federal agency.

(b) The Contractor hereby agrees to carry out this policy in the awarding of subcontracts to the fullest extent consistent with efficient contract performance. The Contractor further agrees to cooperate in any studies or surveys as may be conducted by the United States Small Business Administration or the awarding agency of the United States as may be necessary to determine the extent of the Contractor's compliance with this clause.

(c) As used in this contract, the term "small business concern" shall mean a small business as defined pursuant to section 3 of the Small Business Act and relevant regulations promulgated pursuant thereto. The term "small business concern owned and controlled by socially and economically disadvantaged individuals" shall mean a small business concern—

(1) Which is at least 51 percent owned by one or more socially and economically disadvantaged individuals; or, in the case of any publicly owned business, at least 51 per centum of the stock of which is owned by one or more socially and economically disadvantaged individuals; and

(2) Whose management and daily business operations are controlled by one or more of such individuals.

The Contractor shall presume that socially and economically disadvantaged individuals include Black Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, Asian-Indian Americans and other minorities, or any other individual found to be disadvantaged by the Administration pursuant to section 8(a) of the Small Business Act.

(d) Contractors acting in good faith may rely on written representations by their subcontractors regarding their status as either a small business concern or a small business concern owned and controlled by socially and economically disadvantaged individuals.

(End of clause)
(R 7-104.14(a) 1980 AUG)
(V FPR Temp. Reg. 50 1979 JUN and its Supplement 2 1980 MAY)

52.219-9 Small Business and Small Disadvantaged Business Subcontracting Plan.

As prescribed in 19.708(b), when contracting by negotiation, insert the following clause in solicitations and contracts that (a) offer subcontracting possibilities, (b) are expected to exceed $500,000 ($1,000,000 for construction of any public facility), and (c) are required to include the clause at 52.219-8, Utilization of Small Business Concerns and Small Disadvantaged Business Concerns, unless the acquisition has been set aside for small business or is to be accomplished under the 8(a) program.

SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS SUBCONTRACTING PLAN (APR 1984)

(a) This clause does not apply to small business concerns.

(b) "Commercial product," as used in this clause, means a product in regular production that is sold in substantial quantities to the general public and/or industry at established catalog or market prices. It also means a product which, in the opinion of the Contracting Officer, differs only insignificantly from the Contractor's commercial product.

"Subcontract," as used in this clause, means any agreement (other than one involving an employer-employee relationship) entered into by a Federal Government prime Contractor or subcontractor calling for supplies or services required for performance of the contract or subcontract.

(c) The offeror, upon request by the Contracting Officer, shall submit and negotiate a subcontracting plan, where applicable, which addresses separately subcontracting with small business concerns and small disadvantaged business concerns and which shall be included in and made a part of the resultant contract. The subcontracting plan shall be negotiated within the time specified by the Contracting Officer. Failure to submit and negotiate the subcontracting plan shall make the offeror ineligible for award of a contract.

(d) The offeror's subcontracting plan shall include the following:

(1) Goals, expressed in terms of percentages of total planned subcontracting dollars, for the use of small business concerns and small disadvantaged business concerns as subcontractors. The offeror shall include all subcontracts that contribute to contract performance, and may include a proportionate share of products and services that are normally allocated as indirect costs.

(2) A statement of—

(i) Total dollars planned to be subcontracted;

(ii) Total dollars planned to be subcontracted to small business concerns; and

(iii) Total dollars planned to be subcontracted to small disadvantaged business concerns.

(3) A description of the principal types of supplies and services to be subcontracted, and an identification of the types planned for subcontracting to (i) small business concerns and (ii) small disadvantaged business concerns.

(4) A description of the method used to develop the subcontracting goals in (1) above.

(5) A description of the method used to identify potential sources for solicitation purposes (e.g., existing company source lists, the Procurement Automated Source System (PASS) of the Small Business Administration, the National Minority Purchasing Council Vendor Information Service, the Research and Information Division of the Minority Business Development Agency in the Department of Commerce, or small and small disadvantaged business concerns trade associations).

(6) A statement as to whether or not the offeror included indirect costs in establishing subcontracting goals, and a description of the method used to determine the proportionate share of indirect costs to be incurred with (i) small business concerns and (ii) small disadvantaged business concerns.

(7) The name of the individual employed by the offeror who will administer the offeror's subcontracting program, and a description of the duties of the individual.

(8) A description of the efforts the offeror will make to assure that small business concerns and small disadvantaged business concerns have an equitable opportunity to compete for subcontracts.

(9) Assurances that the offeror will include the clause in this contract entitled "Utilization of Small Business Concerns and Small Disadvantaged Business Concerns" in all subcontracts that offer further subcontracting opportunities, and that the offeror will require all subcontractors (except small business concerns) who receive subcontracts in excess of $500,000 ($1,000,000 for construction of any public facility), to adopt a plan similar to the plan agreed to by the offeror.

(10) Assurances that the offeror will (i) cooperate in any studies or surveys as may be required, (ii) submit periodic reports in order to allow the Government to determine the extent of compliance by the offeror with the subcontracting plan, (iii) submit Standard Form (SF) 294, Subcontracting Report for Individual Contracts, and/or SF 295, Summary Subcontract Report, in accordance with the instructions on the forms, and (iv) ensure that its subcontractors agree to submit Standard Forms 294 and 295.

(11) A recitation of the types of records the offeror will maintain to demonstrate procedures that have been adopted to comply with the requirements and goals in the plan, including establishing source lists; and a description of its efforts to locate small and small disadvantaged business concerns and award subcontracts to them. The records shall include at least the following (on a plant-wide or company-wide basis, unless otherwise indicated):

(i) Source lists, guides, and other data that identify small and small disadvantaged business concerns.

(ii) Organizations contacted in an attempt to locate sources that are small or small disadvantaged business concerns.

(iii) Records on each subcontract solicitation resulting in an award of more than $100,000, indicating (A) whether small business concerns were solicited and if not, why not, (B) whether small disadvantaged business concerns were solicited and if not, why not, and (C) if applicable, the reason award was not made to a small business concern.

(iv) Records of any outreach efforts to contact (A) trade associations, (B) business development organizations, and (C) conferences and trade fairs to locate small and small disadvantaged business sources.

(v) Records of internal guidance and encouragement provided to buyers through (A) workshops, seminars, training, etc., and (B) monitoring performance to evaluate compliance with the programs's requirements.

(vi) On a contract-by-contract basis, records to support award data submitted by the offeror to the Government, including the name, address, and business size of each subcontractor. Contractors having company or division-wide annual plans need not comply with this requirement.

(e) In order to effectively implement this plan to the extent consistent with efficient contract performance, the Contractor shall perform the following functions:

(1) Assist small business and small disadvantaged business concerns by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation by such concerns. Where the Contractor's lists of potential small business and small disadvantaged subcontractors are excessively long, reasonable effort shall be made to give all such small business concerns an opportunity to compete over a period of time.

(2) Provide adequate and timely consideration of the potentialities of small business and small disadvantaged business concerns in all "make-or-buy" decisions.

(3) Counsel and discuss subcontracting opportunities with representatives of small and small disadvantaged business firms.

(f) A master subcontracting plan on a plant or division-wide basis which contains all the elements required by (d) above, except goals, may be incorporated by reference as a part of the subcontracting plan required of the offeror by this clause; *provided*, (1) the master plan has been approved, (2) the offeror provides copies of the approved master plan and evidence of its approval to the Contracting Officer, and (3) goals and any deviations from the master plan deemed necessary by the Contracting Officer to satisfy the requirements of this contract are set forth in the individual subcontracting plan.

(g) (1) If a commercial product is offered, the subcontracting plan required by this clause may relate to the offeror's production generally, for both commercial and noncommercial products, rather than solely to the Government contract. In these cases, the offeror shall, with the concurrence of the Contracting Officer, submit one company-wide or division-wide annual plan.

(2) The annual plan shall be reviewed for approval by the agency awarding the offeror its first prime contract requiring a subcontracting plan during the fiscal year, or by an agency satisfactory to the Contracting Officer.

(3) The approved plan shall remain in effect during the offeror's fiscal year for all of the offeror's commercial products.

(h) Prior compliance of the offeror with other such subcontracting plans under previous contracts will be considered by the Contracting Officer in determining the responsibility of the offeror for award of the contract.

(i) The failure of the Contractor or subcontractor to comply in good faith with (1) the clause of this contract entitled "Utilization of Small Business Concerns and Small Disadvantaged Business Concerns," or (2) an approved plan required by this clause, shall be a material breach of the contract.

(End of clause)
(R 7-104.14(b) 1980 AUG)
(R 7-104.14(c) 1980 AUG)
(R FPR Temp. Reg. 50 1979 JUN and its Supplement 2 1980 MAY)

Alternate I (APR 1984). When contracting by formal advertising rather than by negotiation, substitute the following paragraph (c) for paragraph (c) of the basic clause:

(c) The apparent low bidder, upon request by the Contracting Officer, shall submit a subcontracting plan, where applicable, which addresses separately subcontracting with small business concerns and small disadvantaged business concerns, and which shall be included in and made part of the resultant contract. The subcontracting plan shall be submitted within the time specified by the Contracting Officer. Failure to submit the subcontracting plan shall make the bidder ineligible for the award of a contract.

(R 7-104.14(b) 1980 AUG)
(R 7-104.14(c) 1980 AUG)
(R FPR Temp. Reg 50 1979 JUN and its Supplement 2 1980 MAY)

52.219-10 Incentive Subcontracting Program for Small and Small Disadvantaged Business Concerns.

As prescribed in 19.708(c)(1), the contracting officer may, when contracting by negotiation, insert in solicitations and contracts a clause substantially as follows when a subcontracting plan is required (see 19.702(a)(2)), and inclusion of a monetary incentive is, in the judgment of the contracting officer, necessary to increase subcontracting opportunities for small and disadvantaged business concerns, and is commensurate with the efficient and economical performance of the contract; unless the condition in 19.708(c)(3) is applicable. The contracting officer may vary the terms of the clause as specified in 19.708(c)(2).

INCENTIVE SUBCONTRACTING PROGRAM FOR SMALL AND SMALL DISADVANTAGED BUSINESS CONCERNS(APR 1984)

(a) Of the total dollars it plans to spend under subcontracts, the Contractor has committed itself in its subcontracting plan to try to award a certain percentage to small business concerns and a certain percentage to small disadvantaged business concerns.

(b) If the Contractor exceeds its subcontracting goals in performing this contract, it will receive ..... [*insert the appropriate number between 0 and 10*] percent of the dollars in excess of each goal in the plan, unless the Contracting Officer determines that the excess was not due to the Contractor's efforts (e.g., a subcontractor cost overrun caused the actual subcontract amount to exceed that estimated in the subcontracting plan, or the award of subcontracts that had been planned but had not been disclosed in the subcontracting plan during contract negotiations). Determinations made under this paragraph are not subject to the Disputes clause.

(c) If this is a cost-plus-fixed-fee contract, the sum of the fixed fee and the incentive fee earned under this contract may not exceed the limitations in Subpart 15.9 of the Federal Acquisition Regulation.

(End of clause)
(R 7-104.14(d) 1979 JUL)
(R FPR Temp. Reg. 50 1979 JUN)

52.219-11 Special 8(a) Contract Conditions.

As prescribed in 19.809-2(a), insert the following clause in contracts between the Small Business Administration (SBA) and a contracting agency when the acquisition is accomplished using 8(a) procedures:

SPECIAL 8(a) CONTRACT CONDITIONS (APR 1984)

The Small Business Administration (SBA) agrees to the following:

(a) To furnish the supplies or services set forth in this contract according to the specifications and the terms and conditions hereof by subcontracting with an eligible concern pursuant to the provisions of section 8(a) of the Small Business Act, as amended (15 U.S.C. 637(a)).

(b) That in the event SBA does not award a subcontract for all or a part of the work hereunder, this contract may be terminated either in whole or in part without cost to either party.

(c) Delegates to the ..... [*insert name of contracting agency*] the responsibility for administering the subcontract to be awarded hereunder with complete authority to take any action on behalf of the Government under the terms and conditions of the subcontract; *provided, however,* that the ..... [*insert name of contracting agency*] shall give advance notice to the SBA before it issues a final notice terminating the right of a subcontractor to proceed with further performance, either in whole or in part, under the subcontract for default or for the convenience of the Government.

(d) That payments to be made under any subcontract awarded under this contract will be made directly to the subcontractor by the ..... [*insert name of contracting agency*].

(e) That the subcontractor awarded a subcontract hereunder shall have the right of appeal from decisions of the Contracting Officer cognizable under the "Disputes" clause of said subcontract.

(End of clause)
(AV FPR 1-1.713-3(d)(1))

52.219-12 Special 8(a) Subcontract Conditions.

As prescribed in 19.809-2(b), insert the following clause in contracts between Small Business Administration and its 8(a) subcontractors:

SPECIAL 8(a) SUBCONTRACT CONDITIONS (APR 1984)

(a) The Small Business Administration (SBA) has entered into Contract No. ..... [*insert number of contract*] with the ..... [*insert name of contracting agency*] to furnish the supplies or services as described therein. A copy of the contract is attached hereto and made a part hereof.

(b) The ..... [*insert name of subcontractor*], hereafter referred to as the subcontractor, agrees and acknowledges as follows:

(1) That it will, for and on behalf of the SBA, fulfill and perform all of the requirements of Contract No. ..... [*insert number of contract*] for the consideration stated therein and that it has read and is familiar with each and every part of the contract.

(2) That the SBA has delegated responsibility for the administration of this subcontract to the ..... [*insert name of contracting agency*] with complete authority to take any action on behalf of the Government under the terms and conditions of this subcontract.

(3) That it will not subcontract the performance of any of the requirements of this subcontract to any lower tier subcontractor without the prior written approval of the SBA and the designated Contracting Officer of the ..... [*insert name of contracting agency*].

(c) Payments, including any progress payments under this subcontract, will be made directly to the subcontractor by the ..... [*insert name of contracting agency*].

(End of clause)
(AV 1-1.713-3(e)(1))

52.219-13 Utilization of Women-Owned Small Businesses.

As prescribed in 19.902, insert the following clause in solicitations and contracts when the contract amount is expected to be over the small purchase threshold, unless (a) the contract is to be performed entirely outside the United States, its possessions, Puerto Rico, and the Trust Territory of the Pacific Islands, or (b) a personal services contract is contemplated:

UTILIZATION OF WOMEN-OWNED SMALL BUSINESSES (APR 1984)

(a) "Women-owned small businesses," as used in this clause, means businesses that are at least 51 percent owned by women who are United States citizens and who also control and operate the business.

"Control," as used in this clause, means exercising the power to make policy decisions.

"Operate," as used in this clause, means being actively involved in the day-to-day management of the business.

(b) It is the policy of the United States that women-owned small businesses shall have the maximum practicable opportunity to participate in performing contracts awarded by any Federal agency.

(c) The Contractor agrees to use its best efforts to give women-owned small businesses the maximum practicable opportunity to participate in the subcontracts it awards to the fullest extent consistent with the efficient performance of its contract.

(End of clause)
(7-104.52 1980 AUG)
(FPR Temp. Reg. 54 1980 MAY)

52.220-1 Preference for Labor Surplus Area Concerns.

As prescribed in 20.103(b), insert the following clause in solicitations and contracts that (a) exceed the appropriate small purchase limitation in Part 13 and (b) are not set aside for labor surplus area concerns:

PREFERENCE FOR LABOR SURPLUS AREA CONCERNS (APR 1984)

(a) This acquisition is not a set aside for labor surplus area (LSA) concerns. However, the offeror's status as such a concern may affect (1) entitlement to award in case of tie offers or (2) offer evaluation in accordance with the Buy American Act clause of this solicitation. In order to determine whether the offeror is entitled to a preference under (1) or (2) above, the offeror must identify, below, the LSA in which the costs to be incurred on account of manufacturing or production (by the offeror or the first-tier subcontractors) amount to more than 50 percent of the contract price.

.....

.....

(b) Failure to identify the locations as specified above will preclude consideration of the offeror as an LSA concern. If the offeror is awarded a contract as an LSA concern and would not have otherwise qualified for award, the offeror shall perform the contract or cause the contract to be performed in accordance with the obligations of an LSA concern.

(End of clause)
(R 7-2003.13 1978 JUN)

52.220-2 Notice of Total Labor Surplus Area Set-Aside.

As prescribed in 20.202, insert the following clause in solicitations and contracts estimated to exceed the appropriate small purchase limitation in Part 13 that are totally set aside for labor surplus area concerns:

NOTICE OF TOTAL LABOR SURPLUS AREA SET-ASIDE (APR 1984)

(a) *General.* Offers are solicited from concerns that will agree to perform as labor surplus area (LSA) concerns. This action is based on the Small Business Act (15 U.S.C. 644(d), (e), and (f)) and Defense Manpower Policy No. 4B (44 CFR 331). Offers received from concerns that do not agree to perform as LSA concerns will be considered nonresponsive.

(b) *Definitions.* "Labor surplus area," as used in this clause, means a geographical area identified by the Department of Labor in accordance with 20 CFR 654, Subpart A, as an area of concentrated unemployment or underemployment or an area of labor surplus.

"Labor surplus area concern," as used in this clause, means a concern that together with its first-tier subcontractors will perform substantially in labor surplus areas. Performance is substantially in labor surplus areas if the costs incurred under the contract on account of manufacturing, production, or performance of appropriate services in labor surplus areas exceed 50 percent of the contract price.

(c) *Agreement.* The offeror agrees that, if awarded a contract as an LSA concern, the offeror will—

(1) Perform the contract, or cause it to be performed, substantially in areas classified as LSA's at the time of award or at the time of performance; and

(2) Submit to the Contracting Officer within 30 days after the award of the contract (if it exceeds the appropriate small purchase limitation in Part 13 of the Federal Acquisition Requlation) or such longer time as prescribed by the Contracting Officer, a report containing the following information:

REPORT ON PERFORMANCE IN LABOR SURPLUS AREAS

(a) Amount of the contract: ..... $.....

(b) Costs incurred or to be incurred by the prime Contractor under the contract on account of production, manufacturing, or appropriate services performed in the following labor surplus areas:

	Labor surplus area	*Cost*
(1)	.....	$.....
(2)	.....	$.....
(3)	.....	$.....
(4)	.....	$.....

(c) Costs incurred or to be incurred by first-tier subcontractors on account of production, manufacturing, or appropriate services performed in the following labor surplus areas:

	Labor surplus area	*Cost*
(1)	.....	$.....
(2)	.....	$.....
(3)	.....	$.....
(4)	.....	$.....
(d)	Total of (b) and (c):	$.....

(End of clause)
(R 1-1.804-1(c))

52.220-3 Utilization of Labor Surplus Area Concerns.

As prescribed in 20.302(a), insert the following clause in solicitations and contracts when it is estimated that the contract will exceed the appropriate small purchase limitation in Part 13. See 20.302(a)(1) through (2) for exceptions:

UTILIZATION OF LABOR SURPLUS AREA CONCERNS (APR 1984)

(a) *Applicability.* This clause is applicable if this contract exceeds the appropriate small purchase limitation in Part 13 of the Federal Acquisition Regulation.

(b) *Policy.* It is the policy of the Government to award contracts to concerns that agree to perform substantially in labor surplus areas (LSA's) when this can be done consistent with the efficient performance of the contract and at prices no higher than are obtainable elsewhere. The Contractor agrees to use its best efforts to place subcontracts in accordance with this policy.

(c) *Order of preference.* In complying with paragraph (b) above and with paragraph (c) of the clause of this contract entitled Utilization of Small Business Concerns and Small Disadvantaged Business Concerns, the Contractor shall observe the following order of preference in awarding subcontracts: (1) small business concerns that are LSA concerns, (2) other small business concerns, and (3) other LSA concerns.

(d) *Definitions.* "Labor surplus area," as used in this clause, means a geographical area identified by the Department of Labor in accordance with 20 CFR 654, Subpart A, as an area of concentrated unemployment or underemployment or an area of labor surplus.

"Labor surplus area concern," as used in this clause, means a concern that together with its first-tier subcontractors will perform substantially in labor surplus areas. Performance is substantially in labor surplus areas if the costs incurred under the contract on account of manufacturing, production, or performance of appropriate services in labor surplus areas exceed 50 percent of the contract price.

(End of clause)
(R 1-1.805-3(a))
(R 7-104.20(a) 1981 May)

52.220-4 Labor Surplus Area Subcontracting Program.

As prescribed in 20.302(b), insert the following clause in solicitations and contracts that (a) may exceed $500,000, (b) contain the clause at 52.220-3, Utilization of Labor Surplus Area Concerns, and (c) in the opinion of the contracting officer, offer substantial subcontracting possibilities. In addition, the contracting officer shall urge contractors, that will receive negotiated contracts that may not exceed $500,000 but that meet the criteria in (b) and (c) above, to accept this clause:

LABOR SURPLUS AREA SUBCONTRACTING PROGRAM (APR 1984)

(a) See the Utilization of Labor Surplus Area Concerns clause of this contract for applicable definitions.

(b) The Contractor agrees to establish and conduct a program to encourage labor surplus area (LSA) concerns to compete for subcontracts within their capabilities when the subcontracts are consistent with the efficient performance of the contract at prices no higher than obtainable elsewhere. The Contractor shall—

(1) Designate a liaison officer who will (i) maintain liaison with authorized representatives of the Government on LSA matters, (ii) supervise compliance with the Utilization of Labor Surplus Area Concerns

clause, and (iii) administer the Contractor's labor surplus area subcontracting program;

(2) Provide adequate and timely consideration of the potentialities of LSA concerns in all make-or-buy decisions;

(3) Ensure that LSA concerns have an equitable opportunity to compete for subcontracts, particularly by arranging solicitations, time for the preparation of offers, quantities, specifications, and delivery schedules so as to facilitate the participation of LSA concerns;

(4) Include the Utilization of Labor Surplus Area Concerns clause in subcontracts that offer substantial LSA subcontracting opportunities; and

(5) Maintain records showing (i) the procedures adopted and (ii) the Contractor's performance, to comply with this clause. The records will be kept available for review by the Government until the expiration of 1 year after the award of this contract, or for such longer period as may be required by any other clause of this contract or by applicable law or regulations.

(c) The Contractor further agrees to insert in any related subcontract that may exceed $500,000 and that contains the Utilization of Labor Surplus Area Concerns clause, terms that conform substantially to the language of this clause, including this paragraph (c), and to notify the Contracting Officer of the names of subcontractors.

(End of clause)
(R1-1.805-3(b))
(R 7-104.20(b) 1978 JUN)

52.221 [Reserved].

52.222-1 Notice to the Government of Labor Disputes.

As prescribed in 22.103-5(a), insert the following clause in solicitations and contracts that involve programs or requirements that have been designated under 22.101-1(e):

NOTICE TO THE GOVERNMENT OF LABOR DISPUTES (APR 1984)

(a) If the Contractor has knowledge that any actual or potential labor dispute is delaying or threatens to delay the timely performance of this contract, the Contractor shall immediately give notice, including all relevant information, to the Contracting Officer.

(b) The Contractor agrees to insert the substance of this clause, including this paragraph (b), in any subcontract to which a labor dispute may delay the timely performance of this contract; except that each subcontract shall provide that in the event its timely performance is delayed or threatened by delay by any actual or potential labor dispute, the subcontractor shall immediately notify the next higher tier subcontractor or the prime Contractor, as the case may be, of all relevant information concerning the dispute.

(End of clause)
(R 7-203.27 1967 JUN)
(AV 7-104.4 1958 SEP)
(AV 7-603.1 1958 SEP)

52.222-2 Payment for Overtime Premiums.

As prescribed in 22.103-5(b), insert the following clause in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract amount is expected to be over $100,000; unless (a) a cost-reimbursement contract for operation of vessels is contemplated, or (b) a cost-plus-incentive-fee contract that will provide a swing from the target fee of at least plus or minus 3 percent and a contractor's share of at least 10 percent is contemplated.

PAYMENT FOR OVERTIME PREMIUMS (APR 1984)

(a) The use of overtime is authorized under this contract if the overtime premium cost does not exceed *..... In addition to this dollar ceiling, overtime is permitted only for work—

(1) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(2) By indirect-labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(3) To perform tests, industrial processes, laboratory procedures, loading or unloading of transportation conveyances, and operations in flight or afloat that are continuous in nature and cannot reasonably be interrupted or completed otherwise; or

(4) That will result in lower overall costs to the Government.

(b) Any request for estimated overtime premiums that exceeds the amount specified above shall include all estimated overtime for contract completion and shall—

(1) Identify the work unit; e.g., department or section in which the requested overtime will be used, together with present workload, staffing, and other data of the affected unit sufficient to permit the Contracting Officer to evaluate the necessity for the overtime;

(2) Demonstrate the effect that denial of the request will have on the contract delivery or performance schedule;

(3) Identify the extent to which approval of overtime would affect the performance or payments in connection with other Government contracts, together with identification of each affected contract; and

(4) Provide reasons why the required work cannot be performed by using multishift operations or by employing additional personnel.

*Insert either "zero" or the dollar amount agreed to during negotiations.

(End of clause)
(R 7-203.27 1967 JUN)

52.222-3 Convict Labor.

As prescribed in 22.202, insert the following clause in solicitations and contracts when the contract is to be performed in any State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, or the Trust Territory of the Pacific Islands; unless—

(a) The contract will be subject to the Walsh-Healey Public Contracts Act (see Subpart 22.6), which contains a separate prohibition against the employment of convict labor;

(b) The supplies or services are to be purchased from Federal Prison Industries, Inc. (see Subpart 8.6); or

(c) The acquisition involves the purchase, from any State prison, of finished supplies that may be secured in the open market or from existing stocks, as distinguished from supplies requiring special fabrication.

CONVICT LABOR (APR 1984)

The Contractor agrees not to employ any person undergoing sentence of imprisonment in performing this contract except as provided by 18 U.S.C. 4082(c)(2) and Executive Order 11755, December 29, 1973.

(End of clause)
(R 7-104.17 1975 OCT)
(R 7-607.12 1975 OCT)
(R 1-12.204)

52.222-4 Contract Work Hours and Safety Standards Act—Overtime Compensation—General.

As prescribed in 22.305(a), insert the following clause in solicitations and contracts (including, for this purpose, basic ordering and blanket purchase agreements) when the contract may require or involve the employment of laborers, mechanics, helpers, apprentices, trainees, watchmen, guards, firefighters, or fireguards, except as provided in 22.305(a)(1) through (7):

CONTRACT WORK HOURS AND SAFETY STANDARDS ACT—OVERTIME COMPENSATION—GENERAL (APR 1984)

This contract, to the extent that it is of a character specified in the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333) (the Act), is subject to the following terms and all other applicable provisions and exceptions of the Act and the regulations of the Secretary of Labor.

(a) *Overtime requirements.* A Contractor or subcontractor shall not require or permit any laborer or mechanic to work in excess of 8 hours in any calendar day, or 40 hours in any workweek, on any part of the contract work subject to the Act; *unless*, the laborer or mechanic receives compensation at a rate not less than 1 ½ times the basic rate of pay for

all hours worked in excess of 8 hours in any calendar day, or 40 hours in any workweek, whichever produces the greater amount of overtime.

(b) *Violation, liability for unpaid wages, and liquidated damages.* If the terms of paragraph (a) above are violated, the Contractor and any subcontractor responsible for the violation shall be liable to any affected employee for unpaid wages. In addition, the Contractor and subcontractor shall be liable to the United States for liquidated damages. These damages are computed for each individual laborer or mechanic at $10 for each calendar day on which the employee was required or permitted to be employed in violation of paragraph (a) above.

(c) *Withholding for unpaid wages and liquidated damages.* The Contracting Officer may withhold from the Contractor, from any moneys payable on account of work performed by the Contractor or subcontractor, such amounts as may administratively be determined to be necessary to satisfy any liabilities of the Contractor or subcontractor for unpaid wages and liquidated damages as provided in paragraph (b) above.

(d) *Subcontracts.* The Contractor and subcontractor shall insert paragraphs (a) through (d) of this clause in all subcontracts.

(e) *Records.* The Contractor shall maintain payroll records containing the information specified in 29 CFR 516.2(a). These records shall be preserved for 3 years from contract completion. The contractor will make the records available for inspection by authorized representatives of the ..... [*Contracting Officer insert the name of agency*] and the Department of Labor, and will permit such representatives to interview employees during working hours on the job.

(End of clause)
(R 7-103.16(a) 1971 NOV)
(R 7-607.11 1972 APR)
(R 1-12.303)

52.222-5 Contract Work Hours and Safety Standards Act—Overtime Compensation—Firefighters and Fireguards.

As prescribed in 22.305(b), insert the following clause in solicitations and contracts if (a) firefighters or fireguards are to be employed and (b) the clause prescribed in 22.305(a) is required.

CONTRACT WORK HOURS AND SAFETY STANDARDS ACT—OVERTIME COMPENSATION—FIREFIGHTERS AND FIREGUARDS (APR 1984)

A workday consisting of a fixed and recurring 24-hour period commencing at the same time on each calendar day may be used instead of the calendar day in applying the daily overtime provisions of the Act to the employment of firefighters or fireguards if—

(a) The employment is under a platoon system requiring these employees to remain in excess of 8 hour per day at their post of duty in a standby or on-call status;

(b) The use of the alternate 24-hour day was agreed upon between the employer and employees or their authorized representatives before performance of the work; and

(c) In applying the daily and weekly overtime requirements of the Act in any particular workweek of any employee whose established workweek begins at a time of the calendar day different from the time when the agreed 24-hour day commences, the hours worked in excess of 8 hours in any 24-hour day are counted in the established workweek (of 168 hours commencing at the same time each week) in which hours are actually worked.

(End of clause)
(R 7-103.16(b) 1974 APR)

52.222-6 [Reserved].

52.222-7 [Reserved].

52.222-8 [Reserved].

52.222-17 [Reserved].

52.222-18 [Reserved].

52.222-19 Walsh-Healey Public Contracts Act Representation.

As prescribed in 22.610(a), insert the following provision in solicitations that will result in contracts covered by the Act. If the solicitation is a Request for Quotation, the terms "quoter" and "quote" may be substituted for "offeror" and "offer".

WALSH-HEALEY PUBLIC CONTRACTS ACT REPRESENTATION (APR 1984)

The offeror represents as a part of this offer that the offeror is ☐ or is not ☐ a regular dealer in, or is ☐ or is not ☐ a manufacturer of, the supplies offered.

(End of provision)
(41 CFR 50-201.1)

52.222-20 Walsh-Healey Public Contracts Act.

As prescribed in 22.610(b), insert the following clause in solicitations and contracts covered by the Act:

WALSH-HEALEY PUBLIC CONTRACTS ACT (APR 1984)

If this contract is for the manufacture or furnishing of materials, supplies, articles or equipment in an amount that exceeds or may exceed $10,000, and is subject to the Walsh-Healey Public Contracts Act, as amended (41 U.S.C. 35-45), the following terms and conditions apply:

(a) All representations and stipulations required by the Act and regulations issued by the Secretary of Labor (41 CFR Chapter 50) are incorporated by reference. These representations and stipulations are subject to all applicable rulings and interpretations of the Secretary of Labor that are now, or may hereafter, be in effect.

(b) All employees whose work relates to this contract shall be paid not less than the minimum wage prescribed by regulations issued by the Secretary of Labor (41 CFR 50-202.2). Learners, student learners, apprentices, and handicapped workers may be employed at less than the prescribed minimum wage (see 41 CFR 50-202.3) to the same extent that such employment is permitted under Section 14 of the Fair Labor Standards Act (41 U.S.C. 40).

(R 7-103.17 1958 JAN)
(R 1-12.605)

52.222-21 Certification of Nonsegregated Facilities.

As prescribed in 22.810(a)(1), insert the following provision in solicitations when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, and the contract amount is expected to exceed $10,000:

CERTIFICATION OF NONSEGREGATED FACILITIES (APR 1984)

(a) "Segregated facilities," as used in this provision, means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees, that are segregated by explicit directive or are in fact segregated on the basis of race, color, religion, or national origin because of habit, local custom, or otherwise.

(b) By the submission of this offer, the offeror certifies that it does not and will not maintain or provide for its employees any segregated facilities at any of its establishments, and that it does not and will not permit its employees to perform their services at any location under its control where segregated facilities are maintained. The offeror agrees that a breach of this certification is a violation of the Equal Opportunity clause in the contract.

(c) The offeror further agrees that (except where it has obtained identical certifications from proposed subcontractors for specific time periods) it will—

(1) Obtain identical certifications from proposed subcontractors before the award of subcontracts under which the subcontractor will be subject to the Equal Opportunity clause;

(2) Retain the certifications in the files; and

(3) Forward the following notice to the proposed subcontractors (except if the proposed subcontractors have submitted

identical certifications for specific time periods):

NOTICE TO PROSPECTIVE SUBCONTRACTORS OF REQUIREMENT FOR CERTIFICATIONS OF NONSEGREGATED FACILITIES.

A Certification of Nonsegregated Facilities must be submitted before the award of a subcontract under which the subcontractor will be subject to the Equal Opportunity clause. The certification may be submitted either for each subcontract or for all subcontracts during a period (i.e., quarterly, semiannually, or annually).

NOTE: The penalty for making false statements in offers is prescribed in 18 U.S.C. 1001.

(End of provision)
(R 7-2003.14(b)(1)(A) 1970 AUG)
(R 1-12.803-10(d))

52.222-22 Previous Contracts and Compliance Reports.

As prescribed in 22.810(a)(2), insert the following provision in solicitations when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity:

PREVIOUS CONTRACTS AND COMPLIANCE REPORTS (APR 1984)

The offeror represents that—

(a) It ☐ has, ☐ has not participated in a previous contract or subcontract subject either to the Equal Opportunity clause of this solicitation, the clause originally contained in Section 310 of Executive Order No. 10925, or the clause contained in Section 201 of Executive Order No. 11114;

(b) It ☐ has, ☐ has not, filed all required compliance reports; and

(c) Representations indicating submission of required compliance reports, signed by proposed subcontractors, will be obtained before subcontract awards.

(End of provision)
(R 7-2003.14(b)(1)(B) 1973 APR)

52.222-23 Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity.

As prescribed in 22.810(b), insert the following provision in solicitations for construction when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, and the amount is expected to be in excess of $10,000:

NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY (APR 1984)

(a) The offeror's attention is called to the Equal Opportunity clause and the Affirmative Action Compliance Requirements for Construction clause of this solicitation.

(b) The goals for minority and female participation, expressed in percentage terms for the Contractor's aggregate workforce in each trade on all construction work in the covered area, are as follows:

Goals for minority participation for each trade	Goals for female participation for each trade
[*Contracting Officer shall insert goals*]	[*Contracting Officer shall insert goals*]

These goals are applicable to all the Contractor's construction work performed in the covered area. If the Contractor performs construction work in a geographical area located outside of the covered area, the Contractor shall apply the goals established for the geographical area where the work is actually performed. Goals are published periodically in the Federal Register in notice form, and these notices may be obtained from any Office of Federal Contract Compliance Programs office.

(c) The Contractor's compliance with Executive Order 11246, as amended, and the regulations in 41 CFR 60-4 shall be based on (1) its implementation of the Equal Opportunity clause, (2) specific affirmative action obligations required by the clause entitled "Affirmative Action Compliance Requirements for Construction," and (3) its efforts to meet the goals. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade. The Contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor, or from project to project, for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, Executive Order 11246, as amended, and the regulations in 41 CFR 60-4. Compliance with the goals will be measured against the total work hours performed.

(d) The Contractor shall provide written notification to the Director, Office of Federal Contract Compliance Programs, within 10 working days following award of any construction subcontract in excess of $10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the—

(1) Name, address, and telephone number of the subcontractor;

(i) Employer identification number of the subcontractor;

(2) Estimated dollar amount of the subcontract;

(3) Estimated starting and completion dates of the subcontract; and

(4) Geographical area in which the subcontract is to be performed.

(e) As used in this Notice, and in any contract resulting from this solicitation, the "covered area" is ..... [*Contracting Officer shall insert description of the geographical areas where the contract is to be performed, giving the State, county, and city*].

(End of provision)
(R 7-2003.14(d) 1978 SEP)

52.222-24 Preaward On-Site Equal Opportunity Compliance Review.

As prescribed in 22.810(c), insert the following provision in solicitations, other than those for construction, when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, and the amount is expected to be for $1 million or more:

PREAWARD ON-SITE EQUAL OPPORTUNITY COMPLIANCE REVIEW (APR 1984)

An award in the amount of $1 million or more will not be made under this solicitation unless the offeror and each of its known first-tier subcontractors (to whom it intends to award a subcontract of $1 million or more) are found, on the basis of a compliance review, to be able to comply with the provisions of the Equal Opportunity clause of this solicitation.

(End of provision)
(R 7-2003.14(a) 1970 AUG)
(R 1-12.803-9)

52.222-25 Affirmative Action Compliance.

As prescribed in 22.810(d), insert the following provision in solicitations, other than those for construction, when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity:

AFFIRMATIVE ACTION COMPLIANCE (APR 1984)

The offeror represents that (a) it ☐ has developed and has on file, ☐ has not developed and does not have on file, at each establishment, affirmative action programs required by the rules and regulations of the Secretary of Labor (41 CFR 60-1 and 60-2), or (b) it ☐ has not previously had contracts subject to the written affirmative action programs requirement of the rules and regulations of the Secretary of Labor.

(End of provision)
(R 7-2003.14(b) 1979 SEP)
(R 1-12.805-4)

52.222-26 Equal Opportunity.

As prescribed in 22.810(e), insert the following clause in solicitations and contracts (see 22.802) unless all of the terms of the clause are exempt from the requirements of EO 11246 (see 22.807(a)):

EQUAL OPPORTUNITY (APR 1984)

(a) If, during any 12-month period (including the 12 months preceding the award of this contract), the Contractor has been or is awarded nonexempt Federal contracts and/or subcontracts that have an aggregate value in excess of $10,000, the Contractor shall comply with subparagraphs (b)(1) through (11) below. Upon request, the Contractor shall provide information necessary to determine the applicability of this clause.

(b) During performing this contract, the Contractor agrees as follows:

(1) The Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin.

(2) The Contractor shall take affirmative action to ensure that applicants are employed, and that employees are treated

during employment, without regard to their race, color, religion, sex, or national origin. This shall include, but not be limited to, (i) employment, (ii) upgrading, (iii) demotion, (iv) transfer, (v) recruitment or recruitment advertising, (vi) layoff or termination, (vii) rates of pay or other forms of compensation, and (viii) selection for training, including apprenticeship.

(3) The Contractor shall post in conspicuous places available to employees and applicants for employment the notices to be provided by the Contracting Officer that explain this clause.

(4) The Contractor shall, in all solicitations or advertisement for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(5) The Contractor shall send, to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, the notice to be provided by the Contracting Officer advising the labor union or workers' representative of the Contractor's commitments under this clause, and post copies of the notice in conspicuous places available to employees and applicants for employment.

(6) The Contractor shall comply with Executive Order 11246, as amended, and the rules, regulations, and orders of the Secretary of Labor.

(7) The Contractor shall furnish to the contracting agency all information required by Executive Order 11246, as amended, and by the rules, regulations, and orders of the Secretary of Labor. Standard Form 100 (EEO-1), or any successor form, is the prescribed form to be filed within 30 days following the award, unless filed within 12 months preceding the date of award.

(8) The Contractor shall permit access to its books, records, and accounts by the contracting agency or the Office of Federal Contract Compliance Programs (OFCCP) for the purposes of investigation to ascertain the Contractor's compliance with the applicable rules, regulations, and orders.

(9) If the OFCCP determines that the Contractor is not in compliance with this clause or any rule, regulation, or order of the Secretary of Labor, this contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts, under the procedures authorized in Executive Order 11246, as amended. In addition, sanctions may be imposed and remedies invoked against the Contractor as provided in Executive Order 11246, as amended, the rules, regulations, and orders of the Secretary of Labor, or as otherwise provided by law.

(10) The Contractor shall include the terms and conditions of subparagraph (b)(1) through (11) of this clause in every subcontract or purchase order that is not exempted by the rules, regulations, or orders of the Secretary of Labor issued under Executive Order 11246, as amended, so that these terms and conditions will be binding upon each subcontractor or vendor.

(11) The Contractor shall take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing these terms and conditions, including sanctions for noncompliance; *provided*, that if the Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of any direction, the Contractor may request the United States to enter into the litigation to protect the interests of the United States.

(c) Notwithstanding any other clause in this contract, disputes relative to this clause will be governed by the procedures in 41 CFR 60-1.1.

(End of clause)
(R 7-103.18 1978 SEP)
(R 1-12.803-2)
(R 7-607.13 1978 SEP)

Alternate I (APR 1984). If one or more, but not all, of the terms of the clause are exempt from the requirements of EO 11246 (see 22.807(a)), the contracting officer shall add the following as a preamble to the clause:

Notice. The following terms of this clause are waived for this contract:
.....[*Contracting Officer shall list terms*].

52.222-27 Affirmative Action Compliance Requirements for Construction.

As prescribed in 22.810(f), insert the following clause in solicitations and contracts for construction that will include the clause at 52.222-26, Equal Opportunity, and the amount of the contract is expected to be in excess of $10,000:

AFFIRMATIVE ACTION COMPLIANCE REQUIREMENTS FOR CONSTRUCTION (APR 1984)

(a) *Definitions.*

"Covered area," as used in this clause, means the geographical area described in the solicitation for this contract.

"Director," as used in this clause, means Director, Office of Federal Contract Compliance Programs (OFCCP), United States Department of Labor, or any person to whom the Director delegates authority.

"Employer indentification number," as used in this clause, means the Federal Social Security number used on the employer's quarterly federal tax return, U.S. Treasury Department Form 941.

"Minority," as used in this clause, means—

(1) American Indian or Alaskan Native (all persons having origins in any of the original peoples of North America and maintaining identifiable tribal affiliations through membership and participation or community identification).

(2) Asian and Pacific Islander (all persons having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands); and

(3) Black (all persons having origins in any of the black African racial groups not of Hispanic origin);

(4) Hispanic (all persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race);

(b) If the Contractor, or a subcontractor at any tier, subcontracts a portion of the work involving any construction trade, each such subcontract in excess of $10,000 shall include this clause and the Notice containing the goals for minority and female participation stated in the solicitation for this contract.

(c) If the Contractor is participating in a Hometown Plan (41 CFR 60-4) approved by the U.S. Department of Labor in a covered area, either individually or through an association, its affirmative action obligations on all work in the plan area (including goals) shall comply with the plan for those trades that have unions participating in the plan. Contractors must be able to demonstrate participation in, and compliance with, the provisions of the plan. Each Contractor or subcontractor participating in an approved plan is also required to comply with its obligations under the Equal Opportunity clause, and to make a good faith effort to achieve each goal under the plan in each trade in which it has employees. The overall good-faith performance by other Contractors or subcontractors toward a goal in an approved plan does not excuse any Contractor's or subcontractor's failure to make good-faith efforts to achieve the plan's goals.

(d) The Contractor shall implement the affirmative action procedures in subparagraphs (g)(1) through (16) of this clause. The goals stated in the solicitation for this contract are expressed as percentages of the total hours of employment and training of minority and female utilization that the Contractor should reasonably be able to achieve in each construction trade in which it has employees in the covered area. If the Contractor performs construction work in a geographical area located outside of the covered area, it shall apply the goals established for the geographical area where that work is actually performed. The Contractor is expected to make substantially uniform progress toward its goals in each craft.

(e) Neither the terms and conditions of any collective bargaining agreement, nor the failure by a union with which the Contractor has a collective bargaining agreement, to refer minorities or women shall excuse the Contractor's obligations under this clause, Executive Order 11246, as amended, or the regulations thereunder.

(f) In order for the nonworking training hours of apprentices and trainees to be counted in meeting the goals, apprentices and trainees must be employed by the Contractor during the training period, and the Contractor must have made a commitment to employ the apprentices and trainees at the completion of their training, subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U.S. Department of Labor.

(g) The Contractor shall take affirmative action to ensure equal employment opportunity. The evaluation of the Contractor's compliance with this clause shall be based upon its effort to achieve maximum results from its actions. The Contractor shall document these efforts fully and implement affirmative action steps at least as extensive as the following:

(1) Ensure a working environment free of harassment, intimidation, and coercion at all sites and in all facilities where the Contractor's employees are assigned to work. The Contractor, if possible, will assign two or more women to each construction project. The Contractor shall ensure that foremen, superintendents, and other onsite supervisory personnel are aware of and carry out the Contractor's obligation to maintain such a working environment, with specific attention to minority or female individuals working at these sites or facilities.

(2) Establish and maintain a current list of sources for minority and female recruitment. Provide written notification to minority and female recruitment sources and community organizations when the Contractor or its unions have employment opportunities available, and maintain a record of the organizations' responses.

(3) Establish and maintain a current file of the names, addresses, and telephone numbers of each minority and female off-the-street applicant, referrals of minorities or females from unions, recruitment sources, or community organizations, and the action taken with respect to each individual. If an individual was sent to the union hiring hall for referral and not referred back to the Contractor by the union or, if referred back, not employed by the Contractor, this shall be documented in the file, along with whatever additional actions the Contractor may have taken.

(4) Immediately notify the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred back to the Contractor a minority or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor's efforts to meet its obligations.

(5) Develop on-the-job training opportunities and/or participate in training programs for the area that expressly include minorities and women, including upgrading programs and apprenticeship and trainee programs relevant to the Contractor's employment needs, especially those programs funded or approved by the Department of Labor. The Contractor shall provide notice of these programs to the sources compiled under subparagraph (g)(2) above.

(6) Disseminate the Contractor's equal employment policy by—

(i) Providing notice of the policy to unions and to training, recruitment, and outreach programs, and requesting their cooperation in assisting the Contractor in meeting its contract obligations;

(ii) Including the policy in any policy manual and in collective bargaining agreements;

(iii) Publicizing the policy in the company newspaper, annual report, etc.;

(iv) Reviewing the policy with all management personnel and with all minority and female employees at least once a year; and

(v) Posting the policy on bulletin boards accessible to employees at each location where construction work is performed.

(7) Review, at least annually, the Contractor's equal employment policy and affirmative action obligations with all employees having responsibility for hiring, assignment, layoff, termination, or other employment decisions. Conduct review of this policy with all onsite supervisory personnel before initiating construction work at a job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.

(8) Disseminate the Contractor's equal employment policy externally by including it in any advertising in the news media, specifically including minority and female news media. Provide written notification to, and discuss this policy with, other Contractors and subcontractors with which the Contractor does or anticipates doing business.

(9) Direct recruitment efforts, both oral and written, to minority, female, and community organizations, to schools with minority and female students, and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than 1 month before the date for acceptance of applications for apprenticeship or training by any recruitment source, send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.

(10) Encourage present minority and female employees to recruit minority persons and women. Where reasonable, provide after-school, summer, and vacation employment to minority and female youth both on the site and in other areas of the Contractor's workforce.

(11) Validate all tests and other selection requirements where required under 41 CFR 60-3.

(12) Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities. Encourage these employees to seek or to prepare for, through appropriate training, etc., opportunities for promotion.

(13) Ensure that seniority practices job classifications, work assignments, and other personnel practices do not have a discriminatory effect by continually monitoring all personnel and employment-related activities to ensure that the Contractor's obligations under this contract are being carried out.

(14) Ensure that all facilities and company activities are nonsegregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

(15) Maintain a record of solicitations for subcontracts for minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.

(16) Conduct a review, at least annually, of all supervisors' adherence to and performance under the Contractor's equal employment policy and affirmative action obligations.

(h) The Contractor is encouraged to participate in voluntary associations that may assist in fulfilling one or more of the affirmative action obligations contained in subparagraphs (g)(1) through (16). The efforts of a contractor association, joint contractor-union, contractor-community, or similar group of which the contractor is a member and participant may be asserted as fulfilling one or more of its obligations under subparagraphs (g)(1) through (16), provided the Contractor—

(1) Actively participates in the group;

(2) Makes every effort to ensure that the group has a positive impact on the employment of minorities and women in the industry;

(3) Ensures that concrete benefits of the program are reflected in the Contractor's minority and female workforce participation;

(4) Makes a good-faith effort to meet its individual goals and timetables; and

(5) Can provide access to documentation that demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation to comply is the Contractor's, and failure of such a group to fulfill an obligation shall not be a defense for the Contractor's noncompliance.

(i) A single goal for minorities and a separate single goal for women shall be established. The Contractor is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women, both minority and nonminority. Consequently, the Contractor may be in violation of Executive Order 11246, as amended, if a particular group is employed in a substantially disparate manner.

(j) The Contractor shall not use goals or affirmative action standards to discriminate against any person because of race, color, religion, sex, or national origin.

(k) The Contractor shall not enter into any subcontract with any person or firm debarred from Government contracts under Executive Order 11246, as amended.

(l) The Contractor shall carry out such sanctions and penalties for violation of this clause and of the Equal Opportunity clause, including suspension, termination, and cancellation of existing subcontracts, as may be imposed or ordered under Executive Order 11246, as amended, and its implementing regulations, by the OFCCP. Any failure to carry out these sanctions and penalties as ordered shall be a violation of this clause and Executive Order 11246, as amended.

(m) The Contractor in fulfilling its obligations under this clause shall implement affirmative action procedures at least as extensive as those prescribed in paragraph (g) above, so as to achieve maximum results from its efforts to ensure equal employment opportunity. If the Contractor fails to comply with the requirements of Executive Order 11246, as amended, the implementing regulations, or this clause, the Director shall take action as prescribed in 41 CFR 60-4.8.

(n) The Contractor shall designate a responsible official to—

(1) Monitor all employment-related activity to ensure that the Contractor's equal employment policy is being carried out;

(2) Submit reports as may be required by the Government; and

(3) Keep records that shall at least include for each employee the name, address, telephone number, construction trade, union affiliation (if any), employee identification number, social security number, race, sex, status (e.g., mechanic, apprentice, trainee, helper, or laborer), dates of changes in status, hours worked per week in the indicated trade, rate of pay, and locations at which the work was performed. Records shall be maintained in an easily understandable and retrievable form; *however*, to the degree that existing records satisfy this requirement, separate records are not required to be maintained.

(o) Nothing contained herein shall be construed as a limitation upon the application of other laws that establish different standards of compliance or upon the requirements for the hiring of local or other area residents (e.g., those under the Public Works Employment Act of 1977 and the Community Development Block Grant Program).

(End of clause)
(R 7-603.60 1978 SEP)

52.222-28 Equal Opportunity Preaward Clearance of Subcontracts.

As prescribed in 22.810(g), insert the following clause in solicitations and contracts when the amount of the contract is expected to be for $1 million or more and includes the clause prescribed in paragraphs (a), (c), or (e) of 44.204:

EQUAL OPPORTUNITY PREAWARD CLEARANCE OF SUBCONTRACTS (APR 1984)

Notwithstanding the clause of this contract entitled "Subcontractors," the Contractor shall not enter into a first-tier subcontract for an estimated or actual amount of $1 million or more without obtaining in writing from the Contracting Officer a clearance that the proposed subcontractor is in compliance with equal opportunity requirements and therefore is eligible for award.

(End of clause)
(AV 7-104.22 1971 OCT)

52.222-29 Notification of Visa Denial.

As prescribed in 22.810(h), insert the following clause in contracts that will include the clause at 52.222-26, Equal Opportunity, if the Contractor is required to perform in or on behalf of a foreign country:

NOTIFICATION OF VISA DENIAL (APR 1984)

It is a violation of Executive Order 11246, as amended, for a Contractor to refuse to employ any applicant or not to assign any person hired in the United States, on the basis that the individual's race, color, religion, sex, or national origin is not compatible with the policies of the country where the work is to be performed or for whom the work will be performed (41 CFR 60-1.10). The Contractor agrees to notify the Department of State, Washington, DC, Attention: Director, Bureau of Politico-Military Affairs, and the Director, Office of Federal Contract Compliance Programs, when it has knowledge of any employee or potential employee being denied an entry visa to a country in which the Contractor is required to perform this contract, and it believes the denial is attributable to the race, color, religion, sex, or national origin of the employee or potential employee.

(End of clause)
(AV 7-2003.14(c) 1978 SEP)

52.222-30 [Reserved].

52.222-31 [Reserved].

52.222-32 [Reserved].

52.222-33 [Reserved].

52.222-34 [Reserved].

52.222-35 Affirmative Action for Special Disabled and Vietnam Era Veterans.

As prescribed in 22.1308, insert the following clause in solicitations and contracts when the contract is for $10,000 or more or is expected to amount to $10,000 or more (see 22.1308(a) for exceptions):

AFFIRMATIVE ACTION FOR SPECIAL DISABLED AND VIETNAM ERA VETERANS (APR 1984)

(a) *Definitions.*

"Appropriate office of the State employment service system," as used in this clause, means the local office of the Federal-State national system of public employment offices assigned to serve the area where the employment opening is to be filled, including the District of Columbia, Guam, Puerto Rico, Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands.

"Openings that the Contractor proposes to fill from within its own organization," as used in this clause, means employment openings for which no one outside the Contractor's organization (including any affiliates, subsidiaries, and the parent companies) will be considered and includes any openings that the Contractor proposes to fill from regularly established "recall" lists.

"Openings that the Contractor proposes to fill under a customary and traditional employer-union hiring arrangement," as used in this clause, means employment openings that the Contractor proposes to fill from union halls, under their customary and traditional employer-union hiring relationship.

"Suitable employment openings," as used in this clause—

(1) Includes, but is not limited to, openings that occur in jobs categorized as—

(i) Production and nonproduction;

(ii) Plant and office;

(iii) Laborers and mechanics;

(iv) Supervisory and nonsupervisory;

(v) Technical; and

(vi) Executive, administrative, and professional positions compensated on a salary basis of less than $25,000 a year; and

(2) Includes full-time employment, temporary employment of over 3 days, and part-time employment, but not openings that the Contractor proposes to fill from within its own organization or under a customary and traditional employer-union hiring arrangement, nor openings in an educational institution that are restricted to students of that institution.

(b) *General.* (1) Regarding any position for which the employee or applicant for employment is qualified, the Contractor shall not discriminate against the individual because the individual is a special disabled or Vietnam Era veteran. The Contractor agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified special disabled and Vietnam Era veterans without discrimination based upon their disability or veterans' status in all employment practices such as—

(i) Employment;

(ii) Upgrading;

(iii) Demotion or transfer;

(iv) Recruitment;

(v) Advertising;

(vi) Layoff or termination;

(vii) Rates of pay or other forms of compensation; and

(viii) Selection for training, including apprenticeship.

(2) The Contractor agrees to comply with the rules, regulations, and relevant orders of the Secretary of Labor (Secretary) issued under the Vietnam Era Veterans' Readjustment Assistance Act of 1972 (the Act), as amended.

(c) *Listing openings.* (1) The Contractor agrees to list all suitable employment openings existing at contract award or occurring during contract performance, at an appropriate office of the State employment service system in the locality where the opening occurs. These openings include those occurring at any Contractor facility, including one not connected with performing this contract. An independent corporate affiliate is exempt from this requirement.

(2) State and local government agencies holding Federal contracts of $10,000 or more shall also list all their suitable openings with the appropriate office of the State employment service.

(3) The listing of suitable employment openings with the State employment service system is required at least concurrently with using any other recruitment source or effort and involves the obligations of placing a bona fide job order, including accepting referrals of veterans and nonveterans. This listing does not require hiring any particular job applicant or hiring from any particular group of job applicants and is not intended to relieve the Contractor from any requirements of Executive orders or regulations concerning nondiscrimination in employment.

(4) Whenever the Contractor becomes contractually bound to the listing terms of this clause, it shall advise the State employment service system, in each State where it has establishments, of the name and location of each hiring location in the State. As long as the Contractor is contractually bound to these terms and has so advised the State system, it need not advise the State system of subsequent contracts. The Contractor may advise the State system

when it is no longer bound by this contract clause.

(5) Under the most compelling circumstances, an employment opening may not be suitable for listing, including situations when (i) the Government's needs cannot reasonably be supplied, (ii) listing would be contrary to national security, or (iii) the requirement of listing would not be in the Government's interest.

(d) *Applicability.* (1) This clause does not apply to the listing of employment openings which occur and are filled outside the 50 states, the District of Columbia, Puerto Rico, Guam, Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands.

(2) The terms of paragraph (c) above of this clause do not apply to openings that the Contractor proposes to fill from within its own organization or under a customary and traditional employer-union hiring arrangement. This exclusion does not apply to a particular opening once an employer decides to consider applicants outside of its own organization or employer-union arrangement for that opening.

(e) *Postings.* (1) The Contractor agrees to post employment notices stating (i) the Contractor's obligation under the law to take affirmative action to employ and advance in employment qualified special disabled veterans and veterans of the Vietnam era, and (ii) the rights of applicants and employees.

(2) These notices shall be posted in conspicuous places that are available to employees and applicants for employment. They shall be in a form prescribed by the Director, Office of Federal Contract Compliance Programs, Department of Labor (Director), and provided by or through the Contracting Officer.

(3) The Contractor shall notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the Contractor is bound by the terms of the Act, and is committed to take affirmative action to employ, and advance in employment, qualified special disabled and Vietnam Era veterans.

(f) *Noncompliance.* If the Contractor does not comply with the requirements of this clause, appropriate actions may be taken under the rules, regulations, and relevant orders of the Secretary issued pursuant to the Act.

(g) *Subcontracts.* The Contractor shall include the terms of this clause in every subcontract or purchase order of $10,000 or more unless exempted by rules, regulations, or orders of the Secretary. The Contractor shall act as specified by the Director to enforce the terms, including action for noncompliance.

(End of clause)
(R 7-103.27 1976 JUL)
(R FPR Temp. Reg. 39)

Alternate I (APR 1984). As prescribed in 22.1308(b), if the agency head waives one or more (but not all) of the terms of the clause in accordance with 22.1303(a) or 22.1303(b), add the following as a preamble to the clause:

Notice: The following term(s) of this clause are waived for this contract: [*List term(s)*].
(R 12-1402(d))

52.222-36 Affirmative Action for Handicapped Workers.

As prescribed in 22.1408, insert the following clause in solicitations and contracts that exceed $2,500 or are expected to exceed $2,500. See 22.1408(a) for exceptions.

AFFIRMATIVE ACTION FOR HANDICAPPED WORKERS (APR 1984)

(a) *General.* (1) Regarding any position for which the employee or applicant for employment is qualified, the Contractor shall not discriminate against any employee or applicant because of physical or mental handicap. The Contractor agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified handicapped individuals without discrimination based upon their physical or mental handicap in all employment practices such as—

(i) Employment;
(ii) Upgrading;
(iii) Demotion or transfer;
(iv) Recruitment;
(v) Advertising;
(vi) Layoff or termination;
(vii) Rates of pay or other forms of compensation; and
(viii) Selection for training, including apprenticeship.

(2) The Contractor agrees to comply with the rules, regulations, and relevant orders of the Secretary of Labor (Secretary) issued under the Rehabilitation Act of 1973 (29 U.S.C. 793) (the Act), as amended.

(b) *Postings.* (1) The Contractor agrees to post employment notices stating (i) the Contractor's obligation under the law to take affirmative action to employ and advance in employment qualified handicapped individuals and (ii) the rights of applicants and employees.

(2) These notices shall be posted in conspicuous places that are available to employees and applicants for employment. They shall be in a form prescribed by the Director, Office of Federal Contract Compliance Programs, Department of Labor (Director), and provided by or through the Contracting Officer.

(3) The Contractor shall notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the Contractor is bound by the terms of Section 503 of the Act and is committed to take affirmative action to employ, and advance in employment, qualified physically and mentally handicapped individuals.

(c) *Noncompliance.* If the Contractor does not comply with the requirements of this clause, appropriate actions may be taken under the rules, regulations, and relevant orders of the Secretary issued pursuant to the Act.

(d) *Subcontracts.* The Contractor shall include the terms of this clause in every subcontract or purchase order in excess of $2,500 unless exempted by rules, regulations, or orders of the Secretary. The Contractor shall act as specified by the Director to enforce the terms, including action for noncompliance.

(End of clause)
(R 7-103.28 1976 MAY)
(R FPR Temp. Reg. 38)

Alternate I (APR 1984). As prescribed in 22.1408(b), when the agency head waives one or more (but not all) of the terms of the clause in accordance with 22.1403(a) or 22.1403(b), add the following as a preamble to the clause:

Notice: The following term(s) of this clause are waived for this contract: [*List term(s)*].
(R 12.1302(d))

52.222-37 [Reserved].

52.222-38 [Reserved].

52.222-39 [Reserved].

52.222-40 Service Contract Act of 1965—Contracts of $2,500 or Less.

As prescribed in 22.1005, insert the following clause in solicitations and contracts when the contract amount is expected to be $2,500 or less and the Service Contract Act of 1965 is applicable. With respect to Blanket Purchase Agreements and Basic Ordering Agreements, the amount to be compared to the dollar threshold is the total dollar amount of orders reasonably anticipated to be placed in a 1-year period.

SERVICE CONTRACT ACT OF 1965—CONTRACTS OF $2,500 OR LESS (APR 1984)

Except to the extent that an exemption, variation, or tolerance would apply under 29 CFR Part 4.6 if this contract were in excess of $2,500, the Contractor and any subcontractor shall pay all employees working on the contract not less than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 201-206). All regulations and interpretations of the Service Contract Act of 1965 expressed in 29 CFR Part 4 are hereby incorporated by reference in this contract.

(End of clause)
(R 7-1903.41(b) 1968 SEP)
(AV 1-12.904-2)

52.222-41 Service Contract Act of 1965.

As prescribed in 22.1006(a), insert the following clause in solicitations and contracts when the contract is subject to the Service Contract Act of 1965 and is (a) for over $2,500 or (b) for an indefinite dollar amount and the contracting officer expects the contract amount will exceed $2,500 during any 12-month period. With respect to Blanket Purchase Agreements and Basic Ordering Agreements, the amount to be compared to the dollar threshold is the total dollar amount of orders reasonably

anticipated to be placed in a 1-year period.

SERVICE CONTRACT ACT OF 1965 (APR 1984)

(a) *Definitions.* "Act," as used in this clause, means the Service Contract Act of 1965, as amended (41 U.S.C. 351-358).

"Contractor," as used in this clause, means the prime Contractor or any subcontractor at any tier.

"Service employee," as used in this clause, means any person (other than a person employed in a bona fide executive, administrative, or professional capacity as defined in 29 CFR 541) engaged in performing a Government contract not exempted under 41 U.S.C. 356, the principal purpose of which is to furnish services in the United States, as defined in section 22.1001 of the Federal Acquisition Regulation. It includes all such persons regardless of the actual or alleged contractual relationship between them and a contractor.

(b) *Applicability.* To the extent that the Act applies, this contract is subject to the following provisions and to all other applicable provisions of the Act and regulations of the Secretary of Labor (29 CFR 4). All interpretations of the Act in Subpart C of 29 CFR 4 are incorporated in this contract by reference. This clause does not apply to contracts or subcontracts administratively exempted by the Secretary of Labor or exempted by 41 U.S.C. 356, as interpreted in Subpart C of 29 CFR 4.

(c) *Compensation.* (1) The Contractor shall pay not less than the minimum wage and shall furnish fringe benefits to each service employee under this contract in accordance with the wages and benefits determined by the Secretary of Labor or the Secretary's authorized representative, as specified in any attachment to this contract.

(2) If there is an attachment, the Contractor shall classify any class of service employees not listed in it, but to be employed under this contract. The classification shall provide a reasonable relationship to those listed in the attachment. The Contractor shall pay that class wages and fringe benefits determined by agreement of the interested parties: the contracting agency, the Contractor, and the employees who will perform the contract or their representatives. If the interested parties do not agree, the Contracting Officer shall submit the question, with a recommendation, for final determination by the Office of Government Contract Wage Standards, Wage and Hour Division, Employment Standards Administration (ESA), Department of Labor. Failure to pay such employees the compensation agreed upon by the interested parties or finally determined by ESA is a contract violation.

(3) If the term of this contract is more than 1 year, the minimum wages and fringe benefits required for service employees under this contract shall be subject to adjustment after 1 year and not less often than once every 2 years, under wage determinations issued by ESA.

(4) The Contractor can discharge the obligation to furnish fringe benefits specified in the attachment or determined under subparagraph (c)(2) above by furnishing any equivalent combinations of bona fide fringe benefits, or by making equivalent or differential cash payments, in accordance with Subparts B and C of 29 CFR 4.

(d) *Minimum wage.* In the absence of a minimum wage attachment for this contract, the Contractor shall not pay any service or other employees performing this contract less than the minimum wage specified by section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 206). Nothing in this clause shall relieve the Contractor of any other legal or contractual obligation to pay a higher wage to any employee.

(e) *Successor contracts.* If this contract succeeds a contract subject to the Act under which substantially the same services were furnished and service employees were paid wages and fringe benefits provided for in a collective bargaining agreement, then, in the absence of a minimum wage attachment to this contract, the Contractor may not pay any service employee performing this contract less than the wages and benefits, including those accrued and any prospective increases, provided for under that agreement. No contractor may be relieved of this obligation unless the limitations of 29 CFR 4.1c(b) apply or unless the Secretary of Labor or the Secretary's authorized representative—

(1) Determines that the agreement under the predecessor contract was not the result of arms-length negotiations; or

(2) Finds, after a hearing under 29 CFR 4.10, that the wages and benefits provided for by that agreement vary substantially from those prevailing for similar services in the locality.

(f) *Notification to employees.* The Contractor shall notify each service employee commencing work on this contract of the minimum wage and any fringe benefits required to be paid, or shall post a notice of these wages and benefits in a prominent and accessible place at the worksite, using such poster as may be provided by the Department of Labor.

(g) *Safe and sanitary working conditions.* The Contractor shall not permit services called for by this contract to be performed in buildings or surroundings or under working conditions provided by or under the control or supervision of the Contractor that are unsanitary, hazardous, or dangerous to the health or safety of service employees. The Contractor shall comply with the safety and health standards applied under 29 CFR Part 1925.

(h) *Records.* The Contractor shall maintain for 3 years from the completion of the work, and make available for inspection and transcription by authorized ESA representatives, a record of the following:

(1) For each employee subject to the Act—

(i) Name and address;

(ii) Work classification or classifications, rate or rates of wages and fringe benefits provided, rate or rates of payments in lieu of fringe benefits, and total daily and weekly compensation;

(iii) Daily and weekly hours worked; and

(iv) Any deductions, rebates, or refunds from total daily or weekly compensation.

(2) For those classes of service employees not included in any wage determination attached to this contract, wage rates or fringe benefits determined by the interested parties or by ESA under the terms of paragraph (c) of this clause. A copy of the report required by paragraph (k) of this clause will fulfill this requirement.

(i) *Withholding of payments and termination of contract.* The Contracting Officer shall withhold from the prime Contractor under this or any other Government contract with the prime contractor any sums the Contracting Officer, or an appropriate officer of the Labor Department, decides may be necessary to pay underpaid employees. Additionally, any failure to comply with the requirements of this clause may be grounds for termination for default.

(j) *Subcontracts.* The Contractor agrees to insert this clause in all subcontracts.

(k) *Contractor's report.* (1) If there is a wage determination attachment to this contract and any classes of service employees not listed on it are to be employed under the contract, the Contractor shall report promptly to the Contracting Officer the wages to be paid and the fringe benefits to be provided each of these classes, when determined under paragraph (c) of this clause.

(2) If wages to be paid or fringe benefits to be furnished any service employees under the contract are covered in a collective bargaining agreement effective at any time when the contract is being performed, the prime Contractor shall provide to the Contracting Officer a copy of the agreement and full information on the application and accrual of wages and benefits (including any prospective increases) to service employees working on the contract. The prime Contractor shall report when contract performance begins, in the case of agreements then in effect, and shall report subsequently effective agreements, provisions, or amendments promptly after they are negotiated.

(l) *Variations, tolerances, and exemptions involving employment.* Notwithstanding any of the provisions in paragraphs (c) through (k) of this clause, the following employees may be employed in accordance with the following variations, tolerances, and exemptions authorized by the Secretary of Labor:

(1) (i) In accordance with regulations issued under Section 14 of the Fair Labor Standards Act of 1938 by the Administrator of the Wage and Hour Division, ESA (29 CFR 520, 521, 524, and 525), apprentices, student-learners, and workers whose earning capacity is impaired by age or by physical or mental deficiency or injury, may be employed at wages lower than the minimum wages otherwise required by section 2(a)(1) or 2(b)(1) of the Service Contract Act, without diminishing any fringe benefits or payments in lieu of these benefits required under section 2(a)(2) of the Act.

(ii) The Administrator will issue certificates under the Act for employing apprentices, student-learners, handicapped persons, or handicapped clients of sheltered workshops not subject to the Fair Labor Standards Act of 1938, or subject to different minimum rates of pay under the two acts, authorizing appropriate rates of minimum

wages, but without changing requirements concerning fringe benefits or supplementary cash payments in lieu of these benefits.

(iii) The Administrator may also withdraw, annul, or cancel such certificates under 29 CFR 525 and 528.

(2) An employee engaged in an occupation in which the employee customarily and regularly receives more than $30 a month in tips may have the amount of these tips credited by the employer against the minimum wage required by section 2(a)(1) or section 2(b)(1) of the Act, in accordance with regulations in 29 CFR 531. However, the amount of credit shall not exceed 40 percent of the minimum rate specified in section 6(a)(1) of the Fair Labor Standards Act of 1938 as amended.

(End of clause)
(R 7-1903.41(a) 1977 OCT)
(R 1-12.904-1)

52.222-42 Statement of Equivalent Federal Wage Rates.

As prescribed in 22.1006(b), insert the following clause in solicitations and contracts when the contract amount is expected to be over $2,500 and the Service Contract Act of 1965 is applicable:

STATEMENT OF EQUIVALENT FEDERAL WAGE RATES (APR 1984)

In compliance with the Service Contract Act of 1965, as amended, and the regulations of the Secretary of Labor (29 CFR Part 4), this clause identifies the classes of service employees expected to be employed under the contract and states the wages and fringe benefits payable to each if they were employed by the contracting agency subject to the provisions of 5 U.S.C. 5341 or 5332.

THIS CLAUSE IS FOR INFORMATION ONLY; IT IS NOT A WAGE DETERMINATION

	Hourly Compensation		
Employee Class	Wages	Fringe Benefits	Total

(End of clause)
(R 7-2003.84 1979 SEP)
(R 1-12.904-1(l))

52.222-43 Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiyear and Option Contracts).

As prescribed in 22.1006(c)(1), insert the following clause in solicitations and contracts when the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, and is a multiyear contract or is a contract with options to renew (note that the adjustments under subparagraphs (c)(2) and (3) of the clause may apply to the base period as well as to subsequent periods):

FAIR LABOR STANDARDS ACT AND SERVICE CONTRACT ACT—PRICE ADJUSTMENT (MULTIYEAR AND OPTION CONTRACTS)(APR 1984)

(a) The Contractor warrants that the prices in this contract do not include any allowance for any contingency to cover increased costs for which adjustment is provided under this clause.

(b) The minimum prevailing wage determination, including fringe benefits, issued under the Service Contract Act of 1965 (41 U.S.C. 351-358), by the Administrator, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, current at the beginning of each renewal option period, shall apply to any renewal of this contract. When no such determination has been made applicable to this contract, then the current Federal minimum wage as established by section 6(a)(1) of the Fair Labor Standards Act of 1938 (29 U.S.C. 206) shall apply to any renewal of this contract.

(c) The contract price or contract unit price labor rates will be adjusted to reflect increases or decreases by the Contractor in wages or fringe benefits of employees working on this contract to comply with—

(1) The Department of Labor determination of minimum prevailing wages and fringe benefits applicable at the beginning of the renewal option period;

(2) An increased or decreased wage determination otherwise applied to the contract by operation of law; or

(3) An amendment to the Fair Labor Standards Act of 1938 that is enacted subsequent to award of this contract, affects the minimum wage, and becomes applicable to this contract under law.

(d) Any such adjustment will be limited to increases or decreases in wages or fringe benefits as described in paragraph (c) above, and to the concomitant increases or decreases in social security and unemployment taxes and workers's compensation insurance; it shall not otherwise include any amount for general and administrative costs, overhead, or profits.

(e) The Contractor shall notify the Contracting Officer of any increase claimed under this clause within 30 days after the effective date of the wage change, unless this period is extended by the Contracting Officer in writing. The Contractor shall promptly notify the Contracting Officer of any decrease under this clause, but nothing in the clause shall preclude the Government from asserting a claim within the period permitted by law. The notice shall contain a statement of the amount claimed and any relevant supporting data that the Contracting Officer may reasonably require. Upon agreement of the parties, the contract price or contract unit price labor rates shall be modified in writing. The Contractor shall continue performance pending agreement on or determination of any such adjustment and its effective date.

(f) The Contracting Officer or an authorized representative shall, until the expiration of 3 years after final payment under the contract, have access to and the right to examine any directly pertinent books, documents, papers, and records of the Contractor.

(End of clause)
(R 7-1905(b) 1975 MAY)

52.222-44 Fair Labor Standards Act and Service Contract Act—Price Adjustment.

As prescribed in 22.1006(c)(2), insert the following clause in solicitations and contracts when the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, and is *not* a multiyear contract or is *not* a contract with options to renew:

FAIR LABOR STANDARDS ACT AND SERVICE CONTRACT ACT—PRICE ADJUSTMENT (APR 1984)

(a) The Contractor warrants that the prices in this contract do not include any allowance for any contingency to cover increased costs for which adjustment is provided under this clause.

(b) The contract price or contract unit price labor rates will be adjusted to reflect increases or decreases by the Contractor in wages or fringe benefits of employees working on this contract to comply with—

(1) An increased or decreased wage determination applied to this contract by operation of law; or

(2) An amendment to the Fair Labor Standards Act of 1938 that is enacted subsequent to award of this contract, affects the minimum wage, and becomes applicable to this contract under law.

(c) Any such adjustment will be limited to increases or decreases in wages or fringe benefits as described in paragraph (b) above, and to the concomitant increases or decreases in social security and unemployment taxes and workers' compensation insurance; it shall not otherwise include any amount for general and administrative costs, overhead, or profits.

(d) The Contractor shall notify the Contracting Officer of any increase claimed under this clause within 30 days after the effective date of the wage change, unless this period is extended by the Contracting Officer in writing. The Contractor shall promptly notify the Contracting Officer of any decrease under this clause, but nothing in the clause shall preclude the Government from asserting a claim within the period permitted by law. The notice shall contain a statement of the amount claimed and any relevant supporting data that the Contracting Officer may reasonably require. Upon agreement of the parties, the contract price or contract unit price labor rates shall be modified in writing. The Contractor shall continue performance pending agreement on or determination of any such adjustment and its effective date.

(e) The Contracting Officer or an authorized representative shall, until the expiration of 3 years after final payment under the contract, have access to and the right to examine any directly pertinent books, documents, papers, and records of the Contractor.

(End of clause)
(R 7-1905(c) 1975 MAY)

52.222-45 Notice of Compensation for Professional Employees.

As prescribed in 22.1103, insert the following provision in solicitations for negotiated service contracts when the contract amount is expected to exceed $250,000 and the service to be provided will require meaningful numbers of professional employees:

NOTICE OF COMPENSATION FOR PROFESSIONAL EMPLOYEES (APR 1984)

Note the provisions relating to evaluation of compensation for professional employees set forth elsewhere in this solicitation. Failure to comply with these provisions may constitute sufficient cause to justify rejection of a proposal. The total compensation plan required to be submitted by the offeror will be viewed as being within the purview of Public Law 87-653 (10 U.S.C. 2306(f)) and in accordance with Federal Acquisition Regulation 15.802(a).

(End of provision)
(AV 7-2003.78 1978 JUN)

52.222-46 Evaluation of Compensation for Professional Employees.

As prescribed in 22.1103, insert the following provision in solicitations for negotiated service contracts when the contract amount is expected to exceed $250,000 and the service to be provided will require meaningful numbers of professional employees:

EVALUATION OF COMPENSATION FOR PROFESSIONAL EMPLOYEES (APR 1984)

(a) Recompetition of service contracts may in some cases result in lowering the compensation (salaries and fringe benefits) paid or furnished professional employees. This lowering can be detrimental in obtaining the quality of professional services needed for adequate contract performance. It is therefore in the Government's best interest that professional employees, as defined in 29 CFR 541, be properly and fairly compensated. As a part of their proposals, offerors will submit a total compensation plan setting forth salaries and fringe benefits proposed for the professional employees who will work under the contract. The Government will evaluate the plan to assure that it reflects a sound management approach and understanding of the contract requirements. This evaluation will include an assessment of the offeror's ability to provide uninterrupted high-quality work. The professional compensation proposed will be considered in terms of its impact upon recruiting and retention, its realism, and its consistency with a total plan for compensation. Supporting information will include data, such as recognized national and regional compensation surveys and studies of professional, public and private organizations, used in establishing the total compensation structure.

(b) The compensation levels proposed should reflect a clear understanding of work to be performed and should indicate the capability of the proposed compensation structure to obtain and keep suitably qualified personnel to meet mission objectives. The salary rates or ranges must take into account differences in skills, the complexity of various disciplines, and professional job difficulty. Additionally, proposals envisioning compensation levels lower than those of predecessor contractors for the same work will be evaluated on the basis of maintaining program continuity, uninterrupted high-quality work, and availability of required competent professional service employees. Offerors are cautioned that lowered compensation for essentially the same professional work may indicate lack of sound management judgment and lack of understanding of the requirement.

(c) The Government is concerned with the quality and stability of the work force to be employed on this contract. Professional compensation that is unrealistically low or not in reasonable relationship to the various job categories, since it may impair the Contractor's ability to attract and retain competent professional service employees, may be viewed as evidence of failure to comprehend the complexity of the contract requirements.

(End of provision)
(R 7-2003.79 1978 JUN)

52.223-1 Clean Air and Water Certification.

As prescribed in 23.105(a), insert the following provision in solicitations containing the clause at 52.223-2, Clean Air and Water.

CLEAN AIR AND WATER CERTIFICATION (APR 1984)

The Offeror certifies that—

(a) Any facility to be used in the performance of this proposed contract is ☐ is not ☐ listed on the Environmental Protection Agency List of Violating Facilities;

(b) The Offeror will immediately notify the Contracting Officer, before award, of the receipt of any communication from the Administrator, or a designee, of the Environmental Protection Agency, indicating that any facility that the Offeror proposes to use for the performance of the contract is under consideration to be listed on the EPA List of Violating Facilities; and

(c) The Offeror will include a certification substantially the same as this certification, including this paragraph (c), in every nonexempt subcontract.

(End of provision)
(AV 7-2003.71 1977 JUN)
(AV 1-1.2302-1)

52.223-2 Clean Air and Water.

As prescribed in 23.105(b), insert the following clause in solicitations and contracts to which Subpart 23.1 applies (see 23.101) if (a) the contract is expected to exceed $100,000; (b) the contracting officer believes that orders under an indefinite quantity contract in any year will exceed $100,000; or (c) a facility to be used has been the subject of a conviction under the applicable portion of the Air Act (42 U.S.C. 7413(c)(1)) or the Water Act (33 U.S.C. 1319(c)) and is listed by EPA as a violating facility; and (d) the acquisition is not otherwise exempt under 23.104.

CLEAN AIR AND WATER (APR 1984)

(a) "Air Act," as used in this clause, means the Clean Air Act (42 U.S.C. 7401 et seq.).

"Clean air standards," as used in this clause, means—

(1) Any enforceable rules, regulations, guidelines, standards, limitations, orders, controls, prohibitions, work practices, or other requirements contained in, issued under, or otherwise adopted under the Air Act or Executive Order 11738;

(2) An applicable implementation plan as described in section 110(d) of the Air Act (42 U.S.C. 7410(d));

(3) An approved implementation procedure or plan under section 111(c) or section 111(d) of the Air Act (42 U.S.C. 7411(c) or (d)); or

(4) An approved implementation procedure under section 112(d) of the Air Act (42 U.S.C. 7412(d)).

"Clean water standards," as used in this clause, means any enforceable limitation, control, condition, prohibition, standard, or other requirement promulgated under the Water Act or contained in a permit issued to a discharger by the Environmental Protection Agency or by a State under an approved program, as authorized by section 402 of the Water Act (33 U.S.C. 1342), or by local government to ensure compliance with pretreatment regulations as required by section 307 of the Water Act (33 U.S.C. 1317).

"Compliance," as used in this clause, means compliance with—

(1) Clean air or water standards; or

(2) A schedule or plan ordered or approved by a court of competent jurisdiction, the Environmental Protection Agency, or an air or water pollution control agency under the requirements of the Air Act or Water Act and related regulations.

"Facility," as used in this clause, means any building, plant, installation, structure, mine, vessel or other floating craft, location, or site of operations, owned, leased, or supervised by a Contractor or subcontractor, used in the performance of a contract or subcontract. When a location or site of operations includes more than one building, plant, installation, or structure, the entire location or site shall be deemed a facility except when the Administrator, or a designee, of the Environmental Protection Agency, determines that independent facilities are collocated in one geographical area.

"Water Act," as used in this clause, means Clean Water Act (33 U.S.C. 1251 et seq.).

(b) The Contractor agrees—

(1) To comply with all the requirements of section 114 of the Clean Air Act (42 U.S.C. 7414) and section 308 of the Clean Water Act (33 U.S.C. 1318) relating to inspection, monitoring, entry, reports, and information, as well as other requirements specified in section 114 and section 308 of the Air Act and

the Water Act, and all regulations and guidelines issued to implement those acts before the award of this contract;

(2) That no portion of the work required by this prime contract will be performed in a facility listed on the Environmental Protection Agency List of Violating Facilities on the date when this contract was awarded unless and until the EPA eliminates the name of the facility from the listing;

(3) To use best efforts to comply with clean air standards and clean water standards at the facility in which the contract is being performed; and

(4) To insert the substance of this clause into any nonexempt subcontract, including this subparagraph (b)(4).

(End of clause)
(R 7-103.29 1975 OCT)
(R 1-1.2302)

52.223-3 Hazardous Material Identification and Material Safety Data.

As prescribed in 23.303, insert the following clause in solicitations and contracts when it is contemplated that the contract will require the delivery of hazardous materials as defined in Appendix A of Federal Standard No. 313A, or on the advice of the Government's technical representative that the contract will involve exposure to hazardous materials in any manner; e.g., performance of work, use, handling, manufacturing, packaging, transportation, storage, inspection, and disposal.

HAZARDOUS MATERIAL IDENTIFICATION AND MATERIAL SAFETY DATA (APR 1984)

(a) The Contractor agrees to submit a Material Safety Data Sheet (Department of Labor Form OSHA-20), as prescribed in Federal Standard No. 313A, for all hazardous material 5 days before delivery of the material, whether or not listed in Appendix A of the Standard. This obligation applies to all materials delivered under this contract which will involve exposure to hazardous materials or items containing these materials.

(b) "Hazardous material," as used in this clause, is as defined in Federal Standard No. 313A, in effect on the date of this contract.

(c) Neither the requirements of this clause nor any act or failure to act by the Government shall relieve the Contractor of any responsibility or liability for the safety of Government, Contractor, or subcontractor personnel or property.

(d) The Contractor shall comply with applicable Federal, state, and local laws, codes, ordinances, and regulations (including the obtaining of licenses and permits) in connection with hazardous material.

(e) The Government's rights in data furnished under this contract with respect to hazardous material are as follows:

(1) To use, duplicate, and disclose any data to which this clause is applicable. The purposes of this right are to (i) apprise personnel of the hazards to which they may be exposed in using, handling, packaging, transporting, or disposing of hazardous materials; (ii) obtain medical treatment for those affected by the material; and (iii) have others use, duplicate, and disclose the data for the Government for these purposes.

(2) To use, duplicate, and disclose data furnished under this clause, in accordance with subparagraph (e)(1) above, in precedence over any other clause of this contract providing for rights in data.

(3) That the Government is not precluded from using similar or identical data acquired from other sources.

(4) That the data shall not be duplicated, disclosed, or released outside the Government, in whole or in part for any acquisition or manufacturing purpose, if the following legend is marked on each piece of data to which this clause applies—

"This is furnished under United States Government Contract No. ..... and shall not be used, duplicated, or disclosed for any acquisition or manufacturing purpose without the permission of ..... This legend shall be marked on any reproduction of this data."

(End of legend)

(5) That the Contractor shall not place the legend or any other restrictive legend on any data which (i) the Contractor or any subcontractor previously delivered to the Government without limitations or (ii) should be delivered without limitations under the conditions specified in the Federal Acquisition Regulation in the clause at 52.227-18, Rights in Data.

(f) The Contractor shall insert this clause, including this paragraph (f), with appropriate changes in the designation of the parties, in subcontracts at any tier (including purchase designations or purchase orders) under this contract involving hazardous material.

(End of clause)
(R 7-104.98 1977 OCT)

52.223-4 Recovered Material Certification.

As prescribed in 23.405, insert the following provision in solicitations that incorporate specifications requiring the use of recovered materials.

RECOVERED MATERIAL CERTIFICATION (APR 1984)

The offeror certifies, by signing this offer, that recovered materials, as defined in section 23.402 of the Federal Acquisition Regulation, will be used as required by the applicable specifications.

(End of provision)
(AV 7-2003.82 1979 MAR)
(AV 1-1.2504)

52.224-1 Privacy Act Notification.

As prescribed in 24.104, insert the following clause in solicitations and contracts, when the design, development, or operation of a system of records on individuals is required to accomplish an agency function:

PRIVACY ACT NOTIFICATION (APR 1984)

The Contractor will be required to design, develop, or operate a system of records on individuals, to accomplish an agency function subject to the Privacy Act of 1974, Public Law 93-579, December 31, 1974 (5 U.S.C. 552a) and applicable agency regulations. Violation of the Act may involve the imposition of criminal penalties.

(End of clause)
(R 7-2003.72 1975 NOV)
(R 1-1.327-5(b))

52.224-2 Privacy Act.

As prescribed in 24.104, insert the following clause in solicitations and contracts, when the design, development, or operation of a system of records on individuals is required to accomplish an agency function:

PRIVACY ACT (APR 1984)

(a) The Contractor agrees to—

(1) Comply with the Privacy Act of 1974 (the Act) and the agency rules and regulations issued under the Act in the design, development, or operation of any system of records on individuals to accomplish an agency function when the contract specifically identifies—

(i) The systems of records; and

(ii) The design, development, or operation work that the contractor is to perform;

(2) Include the Privacy Act notification contained in this contract in every solicitation and resulting subcontract and in every subcontract awarded without a solicitation, when the work statement in the proposed subcontract requires the design, development, or operation of a system of records on individuals that is subject to the Act; and

(3) Include this clause, including this subparagraph (3), in all subcontracts awarded under this contract which requires the design, development, or operation of such a system of records.

(b) In the event of violations of the Act, a civil action may be brought against the agency involved when the violation concerns the design, development, or operation of a system of records on individuals to accomplish an agency function, and criminal penalties may be imposed upon the officers or employees of the agency when the violation concerns the operation of a system of records on individuals to accomplish an agency function. For purposes of the Act, when the contract is for the operation of a system of records on individuals to accomplish an agency function, the Contractor and any employee of the Contractor is considered to be an employee of the agency.

(c) (1) "Operation of a system of records," as used in this clause, means performance of any of the activities associated with maintaining the system of records, including the collection, use, and dissemination of records.

(2) "Record," as used in this clause, means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, education, financial transactions, medical history, and criminal or employment history and that contains the person's name, or the identifying number, symbol, or other identifying particular assigned to the

individual, such as a fingerprint or voiceprint or a photograph.

(3) "System of records on individuals," as used in this clause means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

(End of clause)
(AV 7-104.96 1975 NOV)
(AV 1-1.327-5(c))

52.225-1 Buy American Certificate.

As prescribed in 25.109(a), insert the following provision in solicitations for the acquisition of supplies, or for services involving the furnishing of supplies, for use within the United States, except for acquisitions made under the Trade Agreements Act of 1979, as specified in Subpart 25.4:

BUY AMERICAN CERTIFICATE (APR 1984)

The offeror certifies that each end product, except those listed below, is a domestic end product (as defined in the clause entitled "Buy American Act—Supplies"), and that components of unknown origin are considered to have been mined, produced, or manufactured outside the United States.

Excluded End Products	Country of Origin

(List as necessary)

Offerors may obtain from the contracting officer lists of articles, materials, and supplies excepted from the Buy American Act (listed at 25.108 of the Federal Acquisition Regulation).

(End of provision)
(R 7-2003.47 1969 NOV)
(R 1-6.104-3)

52.225-2 Waiver of Buy American Act for Civil Aircraft and Related Articles.

As prescribed in 25.109(c), insert the following provision in solicitations for the acquisition of civil aircraft and related articles:

WAIVER OF BUY AMERICAN ACT FOR CIVIL AIRCRAFT AND RELATED ARTICLES (APR 1984)

(a) "Civil aircraft and related articles," as used in this provision, means—

(1) All aircraft other than aircraft to be purchased for use by the Department of Defense or the U.S. Coast Guard;

(2) The engines (and parts and components for incorporation into the engines) of these aircraft;

(3) Any other parts, components, and subassemblies for incorporation into the aircraft; and

(4) Any ground flight simulators, and parts and components of these simulators, for use with respect to the aircraft, whether to be used as original or replacement equipment in the manufacture, repair, maintenance, rebuilding, modification, or conversion of the aircraft, and without regard to whether the aircraft or articles receive duty-free treatment under section 601(a)(2) of the Trade Agreements Act of 1979.

(b) The U.S. Trade Representative has waived applying of the Buy American Act to the acquisition of civil aircraft and related articles (as defined in paragraph (a) above) of countries or instrumentalities that are parties to the Agreement on Trade in Civil Aircraft. As of January 1, 1981, those countries and instrumentalities include Austria, Canada, the European Economic Community (Belgium, Denmark, the Federal Republic of Germany, France, Greece, Ireland, Italy, Luxembourg, the Netherlands, and the United Kingdom), Japan, Norway, Romania, Sweden, and Switzerland.

(c) For the purpose of this waiver, an article is a product of a country or instrumentality only if—

(1) It is wholly the growth, product, or manufacture of that country or instrumentality; or

(2) In the case of an article that consists in whole or in part of materials from another country or instrumentality, it has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed.

(d) The waiver is subject to modification or withdrawal by the U.S. Trade Representative.

(End of provision)
(R 1-6.601-1)

52.225-3 Buy American Act—Supplies.

As prescribed in 25.109(d), insert the following clause in solicitations and contracts for the acquisition of supplies, or for services involving the furnishing of supplies, for use within the United States, except for acquisitions made under subparagraph (a)(3) of the Trade Agreements Act of 1979, as specified in Subpart 25.4:

BUY AMERICAN ACT—SUPPLIES (APR 1984)

(a) The Buy American Act (41 U.S.C. 10) provides that the Government give preference to domestic end products.

"Components," as used in this clause, means those articles, materials, and supplies incorporated directly into the end products.

"Domestic end product," as used in this clause, means (1) an unmanufactured end product mined or produced in the United States, or (2) an end product manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind as the products referred to in subparagraphs (b)(2) or (3) of this clause shall be treated as domestic. Scrap generated, collected, and prepared for processing in the United States is considered domestic.

"End products," as used in this clause, means those articles, materials, and supplies to be acquired for public use under this contract.

(b) The Contractor shall deliver only domestic end products, except those—

(1) For use outside the United States;

(2) That the Government determines are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality;

(3) For which the agency determines that domestic preference would be inconsistent with the public interest; or

(4) For which the agency determines the cost to be unreasonable.

(The foregoing requirements are administered in accordance with Executive Order No. 10582, dated December 17, 1954, as amended, and Subpart 25.1 of the Federal Acquisition Regulation.)

(End of clause)
(R 7-104.3 1964 MAY)
(R 1-6.104-5)

52.225-4 [Reserved].

52.225-5 Buy American Act—Construction Materials.

As prescribed in 25.205, insert the following clause in solicitations and contracts for construction inside the United States:

BUY AMERICAN ACT—CONSTRUCTION MATERIALS (APR 1984)

(a) The Buy American Act (41 U.S.C. 10) provides that the Government give preference to domestic construction material.

"Components," as used in this clause, means those articles, materials, and supplies incorporated directly into construction materials.

"Construction materials," as used in this clause, means articles, materials, and supplies brought to the construction site for incorporation into the building or work.

"Domestic construction material," as used in this clause, means (1) an unmanufactured construction material mined or produced in the United States, or (2) a construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind as the construction materials determined to be unavailable pursuant to subparagraph 25.202(a)(3) of the Federal Acquisition Regulation (FAR) shall be treated as domestic.

(b) The Contractor agrees that only domestic construction material will be used by the Contractor, subcontractors, materialmen, and suppliers in the performance of this contract, except for foreign construction materials, if any, listed in this contract.

(The foregoing requirements are administered in accordance with Executive Order No. 10582, dated December 17, 1954, as amended, and Subpart 25.2 of the FAR).

(End of clause)
(R 7-602.20 1966 OCT)
(R 1-6.104-5)
(R 1-18.605)

52.225-6 Balance of Payments Program Certificate.

As prescribed in 25.305(a), insert the following provision in solicitations for supplies or services for use outside the United States, unless one or more of the exceptions in 25.302(b) applies or the acquisition is made under the Trade Agreements Act of 1979 (see Subpart 25.4):

BALANCE OF PAYMENTS PROGRAM CERTIFICATE (APR 1984)

(a) The offeror hereby certifies that each end product or service, except the end products or services listed below, is a domestic end product or service (as defined in the clause entitled "Balance of Payments Program") and that components of unknown origin have been considered to have been mined, produced, or manufactured outside the United States.

Excluded End Products or Services

Line Item No.	Country of Origin

(List as necessary)

(b) Offers will be evaluated by giving a certain preference to domestic end products or services over foreign end products or services. Evaluation will be in accordance with paragraph 25.303(b) of the Federal Acquisition Regulation.

(End of provision)
(R 7-2003.47 1969 NOV)

52.225-7 Balance of Payments Program.

As prescribed in 25.305(c), insert the following clause in solicitations and contracts for acquiring supplies or services for use outside the United States, unless one or more of the exceptions in 25.302(b) applies or the acquisition is made under the Trade Agreeements Act of 1979 (see Subpart 25.4):

BALANCE OF PAYMENTS PROGRAM (APR 1984)

(a) This clause implements the Balance of Payments Program by providing a preference for domestic end products or services over foreign end products or services.

"Components," as used in this clause, means those articles, materials, and supplies directly incorporated into the end products.

"Domestic end product," as used in this clause, means—

(1) An unmanufactured end product mined or produced in the United States; or

(2) An end product manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind as those that the agency determines are not mined, produced, or manufactured in the United States in sufficient reasonably available commercial quantities of a satisfactory quality shall be treated as domestic. Components of unknown origin shall be considered foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic.

"Domestic services," as used in this clause, means services performed in the United States. If services provided under a single contract are performed both in and outside the United States, they shall be considered domestic if 25 percent or less of their total cost is attributable to services (including incidental supplies used in connection with these services) performed outside the United States.

"End product," as used in this clause, means an article, material, or supply acquired for public use under this contract.

"Foreign end product," as used in this clause, means a product other than a domestic end product.

(b) The contractor agrees that there will be delivered under this contract only domestic end products or services unless, in its offer, it specified delivery of foreign end products or services in the provision entitled "Balance of Payments Program Certificate." An offer based on supplying a foreign end product or service, if accepted, will permit the contractor to supply a product or service without regard to the requirements of this clause.

(c) Offers will be evaluated in accordance with paragraph 25.303(b) of the Federal Acquisition Regulation.

(End of clause)
(R 7-104.3)

52.225-8 Buy American Act—Trade Agreements Act—Balance of Payments Program Certificate.

As prescribed in 25.407(a)(1), insert the following provision in solicitations for supplies, except as specified in 25.403:

BUY AMERICAN ACT—TRADE AGREEMENTS ACT—BALANCE OF PAYMENTS PROGRAM CERTIFICATE (APR 1984)

(a) The offeror hereby certifies that each end product, except those listed in paragraph (b) below, is a domestic end product (as defined in the clause entitled "Buy American Act—Trade Agreements Act—Balance of Payments Program") and that components of unknown origin have been considered to have been mined, produced, or manufactured outside the United States or a designated country as defined in section 25.401 of the Federal Acquisition Regulation.

(b) Excluded End Products:

Line Item Number	Country of Origin

(List as necessary)

(c) Offers will be evaluated by giving certain preferences to domestic end products and designated country end products over other end products. In order to obtain these preferences in the evaluation of each excluded end product, offerors must identify and certify below those excluded end products that are designated country end products. Offerors must certify by inserting the applicable line item numbers in the following:

The offeror certifies that the following supplies qualify as "designated country end products" as that term is defined in the clause entitled "Buy American Act—Trade Agreements Act—Balance of Payments Program":

.....

(Insert line item numbers)

(d) Offers will be evaluated in accordance with Part 25 of the Federal Acquisition Regulation.

(End of provision)
(R 7-2003.47 1980 OCT)
(R 1-6.1609)

52.225-9 Buy American Act—Trade Agreements Act—Balance of Payments Program.

As prescribed in 25.407(a)(2), insert the following clause in solicitations and contracts for supplies, except as specified in 25.403:

BUY AMERICAN ACT—TRADE AGREEMENTS ACT—BALANCE OF PAYMENTS PROGRAM (APR 1984)

(a) This clause implements the Buy American Act (41 U.S.C. 10), the Trade Agreements Act of 1979 (19 U.S.C. 2501-2582), and the Balance of Payments Program by providing a preference for domestic end products over foreign end products, except for certain foreign end products which meet the requirements for classification as designated country end products.

"Components," as used in this clause, means those articles, materials, and supplies incorporated directly into the end products.

"Designated country end product," as used in this clause, means an article that (1) is wholly the growth, product, or manufacture of the designated country (as defined in section 25.401 of the Federal Acquisition Regulation (FAR)), or (2) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed that of the product itself. It does not include service contracts as such.

"Domestic end product," as used in this clause, means (1) an unmanufactured end product mined or produced in the United States, or (2) an end product manufactured in the United States, if the cost of its

components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. A component shall also be considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind (i) determined by the Government to be not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality, or (ii) to which the agency head concerned has determined that it would be inconsistent with the public interest to apply the restrictions of the Buy American Act.

"End products," as used in this clause, means those articles, materials, and supplies to be acquired under this contract for public use.

"Foreign end product," as used in this clause, means an end product other than a domestic end product.

(b) The Contractor agrees to deliver under this contract only domestic end products unless, in its offer, it specifies delivery of foreign end products in the provision entitled "Buy American Act—Trade Agreements Act—Balance of Payments Program Certificate." An offer certifying that a designated country end product will be supplied requires the contractor to supply a designated country end product or, at the contractor's option, a domestic end product. Contractors may not supply an end product with a total value of $196,000 or more from a country listed at paragraph 25.402(b) of the FAR.

(c) Offers will be evaluated in accordance with the policies and procedures of Part 25 of the FAR.

(End of clause)
(R 7-104.3(b) 1981 JAN)
(R 1-6.104-5 as amended by 1-6.1611)

52.225-10 Duty-Free Entry.

As prescribed in 25.605(a), insert the following clause in solicitations and contracts over $100,000 that provide for, or anticipate furnishing to the Government, supplies to be imported into the customs territory of the United States. As prescribed in 25.605(b), the clause may be used in contracts of $100,000 or less if such action is consistent with the policy in 25.602. When used in contracts of $100,000 or less, paragraphs (b)(1) and (i)(2) shall be modified to reduce the dollar figure.

DUTY-FREE ENTRY (APR 1984)

(a) Except as otherwise approved by the Contracting Officer, no amount is or will be included in the contract price for any duties on supplies specifically identified in the Schedule to be accorded duty-free entry.

(b) Except for supplies listed in the Schedule to be accorded duty-free entry, and except as provided under any other clause of this contract or in paragraph (c) below, the following procedures apply:

(1) The Contractor shall notify the Contracting Officer in writing of any purchase of foreign supplies (including, without limitation, raw materials, components, and intermediate assemblies) in excess of $10,000 that are to be imported into the customs territory of the United States for delivery to the Government or for incorporation into end items to be delivered under this contract. The notice shall be furnished to the Contracting Officer at least 20 days before the importation and shall identify (i) the foreign supplies, (ii) the estimated amount of duty, and (iii) the country of origin.

(2) If the Contracting Officer determines that these supplies should be entered duty-free, the Contracting Officer shall notify the Contractor within 10 days.

(3) Except as otherwise approved by the Contracting Officer, the contract price shall be reduced by (or the allowable cost shall not include) the amount of duty that would be payable if the supplies were not entered duty-free.

(c) Paragraph (b) above shall not apply to purchases of foreign supplies if (1) they are identical in nature with items purchased by the Contractor or any subcontractor in connection with its commercial business and (2) segregation of these supplies to ensure use only on Government contracts containing duty-free entry provisions is not economical or feasible.

(d) The Contractor warrants that all supplies for which duty-free entry is to be claimed are intended to be delivered to the Government or incorporated into the end items to be delivered under this contract, and that duty shall be paid to the extent that these supplies, or any portion of them, are diverted to non-Governmental use, other than as scrap or salvage or as a result of a competitive sale authorized by the Contracting Officer.

(e) The Government agrees to execute any required duty-free entry certificates for items specified in this contract or approved by the Contracting Officer and to assist the Contractor in obtaining duty-free entry of the supplies.

(f) All shipping documents covering the supplies to be entered duty-free shall consign the shipments to the contracting agency in care of the Contractor and shall include the delivery address of the Contractor (or contracting agency, if appropriate). The documents shall bear the following information:

(1) Government prime contract number.

(2) Identification of carrier.

(3) The notation "UNITED STATES GOVERNMENT, ... [agency]..... Duty-free entry to be claimed pursuant to Item No(s)..... [*from Tariff Schedules*]..... Tariff Schedules of the United States (19 U.S.C. 1202). Upon arrival of shipment at port of entry, District Director of Customs, please release shipment under 19 CFR 142 and notify ..... [*cognizant contract administration office*] ..... for execution of Customs Forms 7501 and 7501-A and any required duty-free entry certificates."

(4) Gross weight in pounds (if freight is based on space tonnage, state cubic feet in addition to gross shipping weight).

(5) Estimated value in United States dollars.

(g) The Contractor agrees to instruct the foreign supplier to consign the shipment as specified in (f) above, to mark all packages with the words "UNITED STATES GOVERNMENT" and the title of the contracting agency, and to accompany the shipment with at least two copies of the bill of lading (or other shipping document) for use by the District Director of Customs at the port of entry.

(h) The Contractor agrees to notify in writing the cognizant contract administration office immediately upon notification from the Contracting Officer that duty-free entry will be accorded (or, if the duty-free supplies were listed in the contract Schedule, upon award by the Contractor to the overseas supplier). The notice shall identify (1) the foreign supplies, (2) the country of origin, (3) the contract number, and (4) the scheduled delivery date(s).

(i) The Contractor agrees to insert the substance of this clause in any subcontract under which—

(1) There will be imported into the customs territory of the United States supplies identified in the Schedule as supplies to be accorded duty-free entry; or

(2) Other foreign supplies in excess of $10,000 may be imported into the customs territory of the United States.(

End of clause)
(R 7-104.31(a) 1971 FEB)
(R 7-104.31(b) 1971 FEB)
(R 7-2003.49 1965 DEC)

52.225-11 Certain Communist Areas.

As prescribed in 25.704, insert the following clause in solicitations and contracts for supplies, services, or construction if acceptance is to take place outside the United States, its possessions, or Puerto Rico:

CERTAIN COMMUNIST AREAS (APR 1984)

(a) Unless advance written approval of the Contracting Officer is obtained, the Contractor shall not acquire for use in the performance of this contract—

(1) Any supplies or services originating from sources within the Communist areas of North Korea, Vietnam, Cambodia, or Cuba; or

(2) Any supplies that are or were located in or transported from or through North Korea, Vietnam, Cambodia, or Cuba.

(b) The Contractor agrees to insert the provisions of this clause, including this paragraph (b), in all subcontracts hereunder.

(End of clause)
(R 7-103.15 1977 SEP)

52.226 [Reserved].

52.227 [Reserved].

52.228-1 Bid Guarantee.

As prescribed in 28.101-3(b), insert the following clause in solicitations and contracts that contain a requirement for a bid guarantee. A clause substantially

the same as this may be used for negotiated contracts.

BID GUARANTEE (APR 1984)

(a) Failure to furnish a bid guarantee in the proper form and amount, by the time set for opening of bids, may be cause for rejection of the bid.

(b) The offeror (bidder) shall furnish a bid guarantee in the form of a firm commitment, such as a bid bond, postal money order, certified check, cashier's check, irrevocable letter of credit, or, under Treasury Department regulations, certain bonds or notes of the United States. The Contracting Officer will return bid guarantees, other than bid bonds, (1) to unsuccessful bidders as soon as practicable after the opening of bids, and (2) to the successful bidder upon execution of contractual documents and bonds (including any necessary coinsurance or reinsurance agreements), as required by the bid as accepted.

(c) If the successful bidder, upon acceptance of its bid by the Government within the period specified for acceptance, fails to execute all contractual documents or give a bond(s) as required by the solicitation within the time specified, the Contracting Officer may terminate the contract for default.

(d) Unless otherwise specified in the bid, the bidder will (1) allow 60 days for acceptance of its bid and (2) give bond within 10 days after receipt of the forms by the bidder.

(e) In the event the contract is terminated for default, the bidder is liable for any cost of acquiring the work that exceeds the amount of its bid, and the bid guarantee is available to offset the difference.

(End of clause)
(R 1-10.103-3)
(R 7-2003.25 1964 JUN)

52.228-2 Additional Bond Security.

As prescribed in 28.106-4, insert the following clause in solicitations and contracts when bonds are required:

ADDITIONAL BOND SECURITY (APR 1984)

The Contractor shall promptly furnish additional security required to protect the Government and persons supplying labor or materials under this contract if—

(a) Any surety upon any bond furnished with this contract becomes unacceptable to the Government;

(b) Any surety fails to furnish reports on its financial condition as required by the Government; or

(c) The contract price is increased so that the penal sum of any bond becomes inadequate in the opinion of the Contracting Officer.

(End of clause)
(R 1-7.103-2)
(R 1-7.602-17)
(R 7-103.9 1949 JUL)
(R 7-602.17 1976 OCT)

52.228-3 Workers' Compensation Insurance (Defense Base Act).

As prescribed in 28.309(a), insert the following clause in solicitations and contracts when the Defense Base Act applies (see 28.305) and (a) the contract will be a public-work contract performed outside the United States; or (b) the contract will be approved or financed under the Foreign Assistance Act of 1961 (Pub. L. 87-195) and is not excluded by 28.305(b)(2):

WORKERS' COMPENSATION INSURANCE (DEFENSE BASE ACT) (APR 1984)

The Contractor shall (a) provide, before commencing performance under this contract, such workers' compensation insurance or security as the Defense Base Act (42 U.S.C. 1651 et seq.) requires and (b) continue to maintain it until performance is completed. The Contractor shall insert, in all subcontracts under this contract to which the Defense Base Act applies, a clause similar to this clause (including this sentence) imposing upon those subcontractors this requirement to comply with the Defense Base Act.

(End of clause)
(R 7-104.2(a) 1960 JAN)
(R 1-10.402(a))

52.228-4 Workers' Compensation and War-Hazard Insurance Overseas.

As prescribed in 28.309(b), insert the following clause in solicitations and contracts when the contract will be a public-work contract performed outside the United States and the Secretary of Labor waives the applicability of the Defense Base Act (see 28.305(d)):

WORKERS' COMPENSATION AND WAR-HAZARD INSURANCE OVERSEAS (APR 1984)

(a) This paragraph applies if the Contractor employs any person who, but for a waiver granted by the Secretary of Labor, would be subject to workers' compensation insurance under the Defense Base Act (42 U.S.C. 1651 et seq.). On behalf of employees for whom the applicability of the Defense Base Act has been waived, the Contractor shall (1) provide, before commencing performance under this contract, at least that workers' compensation insurance or the equivalent as the laws of the country of which these employees are nationals may require and (2) continue to maintain it until performance is completed. The Contractor shall insert, in all subcontracts under this contract to which the Defense Base Act would apply but for the waiver, a clause similar to this paragraph (a) (including this sentence) imposing upon those subcontractors this requirement to provide such workers' compensation insurance coverage.

(b) This paragraph applies if the Contractor or any subcontractor under this contract employs any person who, but for a waiver granted by the Secretary of Labor, would be subject to the War Hazards Compensation Act (42 U.S.C. 1701 et seq.). On behalf of employees for whom the applicability of the Defense Base Act (and hence that of the War Hazards Compensation Act) has been waived, the Contractor shall, subject to reimbursement as provided elsewhere in this contract, afford the same protection as that provided in the War Hazards Compensation Act, except that the level of benefits shall conform to any law or international agreement controlling the benefits to which the employees may be entitled. In all other respects, the standards of the War Hazards Compensation Act shall apply; e.g., the definition of war-hazard risks (injury, death, capture, or detention as the result of a war hazard as defined in the Act), proof of loss, and exclusion of benefits otherwise covered by workers' compensation insurance or the equivalent. Unless the Contractor elects to assume directly the liability to subcontractor employees created by this clause, the Contractor shall insert, in all subcontracts under this contract to which the War Hazards Compensation Act would apply but for the waiver, a clause similar to this paragraph (b) (including this sentence) imposing upon those subcontractors this requirement to provide war-hazard benefits.

(End of clause)
(R 7-104.2(b) 1968 JUL)

52.228-5 Insurance—Work on a Government Installation.

As prescribed in 28.310, insert the following clause in solicitations and contracts when a fixed-price contract is contemplated, the contract amount is expected to be over the appropriate small purchase limitation in Part 13, and the contract will require work on a Government installation, unless (a) only a small amount of work is required on the Government installation (e.g., a few brief visits per month); or (b) all work on the Government installation is to be performed outside the United States, its possessions, and Puerto Rico. The contracting officer may insert the following clause in solicitations and contracts described in (a) and (b) above if it is in the Government's interest to do so.

INSURANCE—WORK ON A GOVERNMENT INSTALLATION (APR 1984)

(a) The Contractor shall, at its own expense, provide and maintain during the entire performance period of this contract at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.

(b) Before commencing work under this contract, the Contractor shall certify to the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any

cancellation or any material change adversely affecting the Government's interest shall not be effective (1) for such period as the laws of the State in which this contract is to be performed prescribe or (2) until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

(c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. At least 5 days before entry of each such subcontractor's personnel on the Government installation, the Contractor shall furnish (or ensure that there has been furnished) to the Contracting Officer a current certificate of insurance, meeting the requirements of paragraph (b) above, for each such subcontractor.

(End of clause)
(R 7-104.65 1977 JAN)
(R 7-603.10 1977 JAN)
(R 1-7.303-46)

52.228-6 Insurance—Immunity From Tort Liability.

As prescribed in 28.311-1, insert the following provision in solicitations for research and development when a cost-reimbursement contract is contemplated, unless the head of the contracting activity waives the requirement for use of the clause at 52.228-7, Insurance—Liability to Third Persons:

INSURANCE—IMMUNITY FROM TORT LIABILITY (APR 1984)

If the offeror is partially or totally immune from tort liability to third persons as a State agency or as a charitable institution, and includes in its offer a representation to that effect, the clause at 52.228-7, Insurance—Liability to Third Persons, will be included in the contract.

(a) With its Alternate I, if the offeror represents that it is partially immune from tort liability to third persons as a State agency or as a charitable institution; or

(b) With its Alternate II, if the offeror represents that it is totally immune from tort liability to third persons as a State agency or as a charitable institution.

(End of provision)
(NM)

52.228-7 Insurance—Liability to Third Persons.

As prescribed in 28.311-2, insert the following clause in solicitations and contracts, other than construction contracts and those for architect-engineer services, when a cost-reimbursement contract is contemplated unless the head of the contracting activity waives the requirement for use of the clause:

INSURANCE—LIABILITY TO THIRD PERSONS (APR 1984)

(a) (1) Except as provided in subparagraph (2) immediately following, or in paragraph (h) of this clause (if the clause has a paragraph (h)), the Contractor shall provide and maintain workers' compensation, employer's liability, comprehensive general liability (bodily injury), comprehensive automobile liability (bodily injury and property damage) insurance, and such other insurance as the Contracting Officer may require under this contract.

(2) The Contractor may, with the approval of the Contracting Officer, maintain a self-insurance program; *provided* that, with respect to workers' compensation, the Contractor is qualified pursuant to statutory authority.

(3) All insurance required by this paragraph shall be in a form and amount and for those periods as the Contracting Officer may require or approve and with insurers approved by the Contracting Officer.

(b) The Contractor agrees to submit for the Contracting Officer's approval, to the extent and in the manner required by the Contracting Officer, any other insurance that is maintained by the Contractor in connection with the performance of this contract and for which the Contractor seeks reimbursement.

(c) Except as provided in paragraph (h) of this clause (if the clause has a paragraph (h)), the Contractor shall be reimbursed—

(1) For that portion (i) of the reasonable cost of insurance allocable to this contract and (ii) required or approved under this clause; and

(2) For certain liabilities (and expenses incidental to such liabilities) to third persons not compensated by insurance or otherwise without regard to and as an exception to the limitation of cost or the limitation of funds clause of this contract. These liabilities must arise out of the performance of this contract, whether or not caused by the negligence of the Contractor or of the Contractor's agents, servants, or employees, and must be represented by final judgments or settlements approved in writing by the Government. These liabilities are for—

(i) Loss of or damage to property (other than property owned, occupied, or used by the Contractor, rented to the Contractor, or in the care, custody, or control of the Contractor); or

(ii) Death or bodily injury.

(d) The Government's liability under paragraph (c) of this clause is subject to the availability of appropriated funds at the time a contingency occurs. Nothing in this contract shall be construed as implying that the Congress will, at a later date, appropriate funds sufficient to meet deficiencies.

(e) The Contractor shall not be reimbursed for liabilities (and expenses incidental to such liabilities)—

(1) For which the Contractor is otherwise responsible under the express terms of any clause specified in the Schedule or elsewhere in the contract;

(2) For which the Contractor has failed to insure or to maintain insurance as required by the Contracting Officer; or

(3) That result from willful misconduct or lack of good faith on the part of any of the Contractor's directors, officers, managers, superintendents, or other representatives who have supervision or direction of—

(i) All or substantially all of the Contractor's business;

(ii) All or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed; or

(iii) A separate and complete major industrial operation in connection with the performance of this contract.

(f) The provisions of paragraph (e) of this clause shall not restrict the right of the Contractor to be reimbursed for the cost of insurance maintained by the Contractor in connection with the performance of this contract, other than insurance required in accordance with this clause; *provided*, that such cost is allowable under the Allowable Cost and Payment clause of this contract.

(g) If any suit or action is filed or any claim is made against the Contractor, the cost and expense of which may be reimbursable to the Contractor under this contract, and the risk of which is then uninsured or is insured for less than the amount claimed, the Contractor shall—

(1) Immediately notify the Contracting Officer and promptly furnish copies of all pertinent papers received;

(2) Authorize Government representatives to collaborate with counsel for the insurance carrier in settling or defending the claim when the amount of the liability claimed exceeds the amount of coverage; and

(3) Authorize Government representatives to settle or defend the claim and to represent the Contractor in or to take charge of any litigation, if required by the Government, when the liability is not insured or covered by bond. The Contractor may, at its own expense, be associated with the Government representatives in any such claim or litigation.

(End of clause)
(R 7-203.22 1966 DEC)
(R 1-7.204-5)

Alternate I (APR 1984). If the solicitation includes the provision at 52.228-6, Insurance—Immunity from Tort Liability, and the successful offeror represents in the offer that the offeror is *partially* immune from tort liability as a State agency or as a charitable institution, add the following paragraph (h) to the basic clause:

(h) Notwithstanding paragraphs (a) and (c) of this clause—

(1) The Government does not assume any liability to third persons, nor will the Government reimburse the Contractor for its liability to third persons, with respect to loss due to death, bodily injury, or damage to property resulting in any way from the performance of this contract or any subcontract under this contract; and

(2) The Contractor need not provide or maintain insurance coverage as required by paragraph (a) of this clause; *provided*, that the Contractor may obtain any insurance coverage deemed necessary, subject to approval by the Contracting Officer as to form, amount, and duration. The Contractor

shall be reimbursed for the cost of such insurance and, to the extent provided in paragraph (c) of this clause, for liabilities to third persons for which the Contractor has obtained insurance coverage as provided in this paragraph, but for which such coverage is insufficient in amount.

(End of clause)
(R 1-7.404-9(a))
(R 7-402.26 1962 SEP)

Alternate II (APR 1984). If the solicitation includes the provision at 52.228-6, Insurance—Immunity from Tort Liability, and the successful offeror represents in the offer that the offeror is *totally* immune from tort liability as a State agency or as a chartiable institution, substitute the following paragraphs (a) and (b) for paragraphs (a) through (g) of the basic clause:

(a) The Government does not assume any liability to third persons, nor will the Government reimburse the Contractor for its liability to third persons, with respect to loss due to death, bodily injury, or damage to property resulting in any way from the performance of this contract or any subcontract under this contract.

(b) If any suit or action is filed, or if any claim is made against the Contractor, the cost and expense of which may be reimbursable to the Contractor under this contract, the Contractor shall immediately notify the Contracting Officer and promptly furnish copies of all pertinent papers received by the Contractor. The Contractor shall, if required by the Government, authorize Government representatives to settle or defend the claim and to represent the Contractor in or take charge of any litigation. The Contractor may, at its own expense, be associated with the Government representatives in any such claim or litigation.

(End of clause)
(R 7-402.26(b) 1960 OCT)
(R 1-7.404-9(b))

52.228-8 Liability and Insurance—Leased Motor Vehicles.

As prescribed in 28.312, insert the following clause in solicitation and contracts for the leasing of motor vehicles (see Subpart 8.11):

LIABILITY AND INSURANCE—LEASED MOTOR VEHICLES (APR 1984)

(a) The Government shall be responsible for loss of or damage to—

(1) Leased vehicles, except for (i) normal wear and tear and (ii) loss or damage caused by the negligence of the Contractor, its agents, or employees; and

(2) Property of third persons, or the injury or death of third persons, if the Government is liable for such loss, damage, injury, or death under the Federal Tort Claims Act (28 U.S.C. 2671-2680)

(b) The Contractor shall be liable for, and shall indemnify and hold harmless the Government against, all actions or claims for loss of or damage to property or the injury or death of persons, resulting from the fault, negligence, or wrongful act or omission of the Contractor, its agents, or employees.

(c) The Contractor shall provide and maintain insurance covering its liabilities under paragraph (b) of this clause, in amounts of at least $200,000 per person and $500,000 per occurrence for death or bodily injury and $20,000 per occurrence for property damage or loss.

(d) Before commencing work under this contract, the Contractor shall certify to the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the interests of the Government shall not be effective (1) for such period as the laws of the State in which this contract is to be performed prescribe or (2) until 30 days after written notice to the Contracting Officer, whichever period is longer. The policies shall exclude any claim by the insurer for subrogation against the Government by reason of any payment under the policies.

(e) The Contractor warrants that the contract price includes no cost for insurance or contingency to cover losses, damage, injury, or death for which the Government is responsible under paragraph (a) of this clause.

(End of clause)
(R 7-1501.4 1977 JAN)

52.228-9 Cargo Insurance.

As prescribed in 28.313(a), insert the following clause in solicitations and contracts for transportation or for transportation-related services, except when freight is shipped under rates subject to released or declared value:

CARGO INSURANCE (APR 1984)

(a) The Contractor, at the Contractor's expense, agrees to provide and maintain, during the continuance of this contract, cargo liability insurance of $..... per vehicle to cover the value of property on each vehicle and of $.... to cover the total value of the property in the shipment.

(b) All insurance shall be written on companies acceptable to .....[*insert name of contracting agency*], and policies shall include such terms and conditions as required by ..... [*insert name of contracting agency*]. As evidence of insurance maintained, a complete duplicate certified copy of the cargo liability insurance policy or policies shall be furnished to ..... [*insert name of contracting agency*]. Evidence of acceptable cargo insurance shall be furnished before commencing operations under this contract.

(c) Each cargo insurance policy shall include the following statement:

It is a condition of this policy that the Company shall furnish—

(1) Written notice to ..... [*insert name of contracting agency*], at the address shown on the face sheet of this contract, 30 days in advance of the effective date of any reduction in, or cancellation of, this policy; and

(2) A complete duplicate certified copy of any renewal policy to ..... [*insert name of contracting agency*] not less than 15 days prior to the expiration of any current policy on file with .....[*insert name of contracting agency*].

(End of clause)
(R 1-19.702-5)

52.228-10 Vehicular and General Public Liability Insurance.

As prescribed in 28.313(b), insert a clause substantially the same as the following in solicitations and contracts for transportation or for transportation-related services when the contracting officer determines that vehicular liability or general public liability insurance required by law is not sufficient:

VEHICULAR AND GENERAL PUBLIC LIABILITY INSURANCE (APR 1984)

(a) The Contractor, at the Contractor's expense, agrees to maintain, during the continuance of this contract, vehicular liability and general public liability insurance with limits of liability for (1) bodily injury of not less than $..... for each person and $..... for each occurrence and (2) property damage of not less than $..... for each accident and $..... in the aggregate.

(b) The Contractor also agrees to maintain workers' compensation and other legally required insurance with respect to the Contractor's own employees and agents.

(End of clause)
(R 1-19.702-5)

52.229-1 State and Local Taxes.

As prescribed in 29.401-1, insert the following clause in solicitations and contracts for leased equipment, when a fixed-price indefinite-delivery contract is contemplated, the contract will be performed wholly or partly within the United States, its possessions, or Puerto Rico, and the place or places of delivery are not known at the time of contracting:

STATE AND LOCAL TAXES (APR 1984)

Notwithstanding the terms of the Federal, State, and Local Taxes clause, the contract price excludes all State and local taxes levied on or measured by the contract or sales price of the services or completed supplies furnished under this contract. The Contractor shall state separately on its invoices taxes excluded from the contract price, and the Government agrees either to pay the amount of the taxes to the Contractor or provide evidence necessary to sustain an exemption[.

End of clause)
(R 41 CFR 5A-11.401-71)
(R GSA Form 2891)

52.229-2 North Carolina State and Local Sales and Use Tax.

As prescribed in 29.401-2, insert the following clause in solicitations and contracts for construction to be performed in North Carolina:

NORTH CAROLINA STATE AND LOCAL SALES AND USE TAX (APR 1984)

(a) "Materials," as used in this clause, means building materials, supplies, fixtures, and equipment that become a part of or are annexed to any building or structure erected, altered, or repaired under this contract.

(b) If this is a fixed-price contract, the contract price includes North Carolina State and local sales and use taxes to be paid on materials, notwithstanding any other provision of this contract. If this is a cost-reimbursement contract, any North Carolina State and local sales and use taxes paid by the Contractor on materials shall constitute an allowable cost under this contract.

(c) At the time specified in paragraph (d) below, the Contractor shall furnish the Contracting Officer certified statements setting forth the cost of the materials purchased from each vendor and the amount of North Carolina State and local sales and use taxes paid. In the event the Contractor makes several purchases from the same vendor, the certified statement shall indicate the invoice numbers, the inclusive dates of the invoices, the total amount of the invoices, and the North Carolina State and local sales and use taxes paid. The statement shall also include the cost of any tangible personal property withdrawn from the Contractor's warehouse stock and the amount of North Carolina State and local sales or use tax paid on this property by the Contractor. Any local sales or use taxes included in the Contractor's statements must be shown separately from the State sales or use taxes. The Contractor shall furnish any additional information the Commissioner of Revenue of the State of North Carolina may require to substantiate a refund claim for sales or use taxes. The Contractor shall also obtain and furnish to the Contracting Officer similar certified statements by its subcontractors.

(d) If this contract is completed before the next October 1, the certified statements to be furnished pursuant to paragraph (c) above shall be submitted within 60 days after completion. If this contract is not completed before the next October 1, the certified statements shall be submitted on or before November 30 of each year and shall cover taxes paid during the 12-month period that ended the preceding September 30.

(e) The certified statements to be furnished pursuant to paragraph (c) above shall be in the following form:

I hereby certify that during the period ..... to ..... [*insert dates*], ... [*insert name of Contractor or subcontractor*] paid North Carolina State and local sales and use taxes aggregating $..... (State) and $..... (local), with respect to building materials, supplies, fixtures, and equipment that have become a part of or annexed to a building or structure erected, altered, or repaired by ..... [*insert name of Contractor or subcontractor*] for the United States of America, and that the vendors from whom the property was purchased, the dates and numbers of the invoices covering the purchases, the total amount of the invoices of each vendor, the North Carolina State and local sales and use taxes paid on the property (shown separately), and the cost of property withdrawn from warehouse stock and North Carolina State and local sales or use taxes paid on this property are as set forth in the attachments.

(End of clause)

(V 7-602.27 1977 JAN)

Alternate I(APR 1984). If the requirement is for vessel repair to be performed in North Carolina, substitute the following paragraph (a) for paragraph (a) of the basic clause:

(a) "Materials," as used in this clause, means materials, supplies, fixtures, and equipment that become a part of or are annexed to any vessel altered or repaired under this contract.

(R 7-602.27 1977 JAN)

52.229-3 Federal, State, and Local Taxes.

As prescribed in 29.401-3, insert the following clause in solicitations and contracts if the contract is to be performed wholly or partly within the United States, its possessions, or Puerto Rico (a) when contracting by formal advertising, unless the requirement is for construction and the contract amount is expected to be less than the applicable small purchase limitation in Part 13, or (b) when contracting by negotiation, if a fixed-price contract is contemplated and the contract amount is expected to be over the applicable small purchase limitation in Part 13, unless the clause at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), is included in the contract:

FEDERAL, STATE, AND LOCAL TAXES (APR 1984)

(a) "Contract date," as used in this clause, means the date set for bid opening or, if this is a negotiated contract or a modification, the effective date of this contract or modification.

"All applicable Federal, State, and local taxes and duties," as used in this clause, means all taxes and duties, in effect on the contract date, that the taxing authority is imposing and collecting on the transactions or property covered by this contract.

"After-imposed Federal tax," as used in this clause, means any new or increased Federal excise tax or duty, or tax that was exempted or excluded on the contract date but whose exemption was later revoked or reduced during the contract period, on the transactions or property covered by this contract that the Contractor is required to pay or bear as the result of legislative, judicial, or administrative action taking effect after the contract date. It does not include social security tax or other employment taxes.

"After-relieved Federal tax," as used in this clause, means any amount of Federal excise tax or duty, except social security or other employment taxes, that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial, or administrative action taking effect after the contract date.

(b) The contract price includes all applicable Federal, State, and local taxes and duties.

(c) The contract price shall be increased by the amount of any after-imposed Federal tax, provided the Contractor warrants in writing that no amount for such newly imposed Federal excise tax or duty or rate increase was included in the contract price, as a contingency reserve or otherwise.

(d) The contract price shall be decreased by the amount of any after-relieved Federal tax.

(e) The contract price shall be decreased by the amount of any Federal excise tax or duty, except social security or other employment taxes, that the Contractor is required to pay or bear, or does not obtain a refund of, through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer.

(f) No adjustment shall be made in the contract price under this clause unless the amount of the adjustment exceeds $100.

(g) The Contractor shall promptly notify the Contracting Officer of all matters relating to any Federal excise tax or duty that reasonably may be expected to result in either an increase or decrease in the contract price and shall take appropriate action as the Contracting Officer directs.

(h) The Government shall, without liability, furnish evidence appropriate to establish exemption from any Federal, State, or local tax when the Contractor requests such evidence and a reasonable basis exists to sustain the exemption.

(End of clause)

(R 7-103.10(a) 1971 NOV)

(R 1-11.401-1(c))

52.229-4 Federal, State, and Local Taxes (Noncompetitive Contract).

As prescribed in 29.401-4, insert the following clause in fixed-price noncompetitive negotiated contracts over the applicable small purchase limitation in Part 13 to be performed wholly or partly within the United States, its possessions, or Puerto Rico when the contracting officer is satisfied (a) that the contract price does not include contingencies for State and local taxes and (b) that, unless the clause is used, the contract price will include such contingencies. When the following clause is included in a contract, the contracting officer shall ensure that the contract does not include the clause at 52.229-3, Federal, State, and Local Taxes.

FEDERAL, STATE, AND LOCAL TAXES (NONCOMPETITIVE CONTRACT) (APR 1984)

(a) "Contract date," as used in this clause, means the effective date of this contract and, for any modification to this contract, the effective date of the modification.

"All applicable Federal, State, and local taxes and duties," as used in this clause, means all taxes and duties, in effect on the contract date, that the taxing authority is

imposing and collecting on the transactions or property covered by this contract.

"After-imposed tax," as used in this clause, means any new or increased Federal, State, or local tax or duty, or tax that was excluded on the contract date but whose exclusion was later revoked or amount of exemption reduced during the contract period, other than an excepted tax, on the transactions or property covered by this contract that the Contractor is required to pay or bear as the result of legislative, judicial, or administrative action taking effect after the contract date.

"After-relieved tax," as used in this clause, means any amount of Federal, State, or local tax or duty, other than an excepted tax, that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial, or administrative action taking effect after the contract date.

"Excepted tax," as used in this clause, means social security or other employment taxes, net income and franchise taxes, excess profits taxes, capital stock taxes, transportation taxes, unemployment compensation taxes, and property taxes. "Excepted tax" does not include gross income taxes levied on or measured by sales or receipts from sales, property taxes assessed on completed supplies covered by this contract, or any tax assessed on the Contractor's possession of, interest in, or use of property, title to which is in the Government.

(b) Unless otherwise provided in this contract, the contract price includes all applicable Federal, State, and local taxes and duties.

(c) The contract price shall be increased by the amount of any after-imposed tax, or of any tax or duty specifically excluded from the contract price by a term or condition of this contract that the Contractor is required to pay or bear, including any interest or penalty, if the Contractor states in writing that the contract price does not include any contingency for such tax and if liability for such tax, interest, or penalty was not incurred through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer.

(d) The contract price shall be decreased by the amount of any after-relieved tax. The Government shall be entitled to interest received by the Contractor incident to a refund of taxes to the extent that such interest was earned after the Contractor was paid by the Government for such taxes. The Government shall be entitled to repayment of any penalty refunded to the Contractor to the extent that the penalty was paid by the Government.

(e) The contract price shall be decreased by the amount of any Federal, State, or local tax, other than an excepted tax, that was included in the contract price and that the Contractor is required to pay or bear, or does not obtain a refund of, through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer.

(f) No adjustment shall be made in the contract price under this clause unless the amount of the adjustment exceeds $100.

(g) The Contractor shall promptly notify the Contracting Officer of all matters relating to Federal, State, and local taxes and duties that reasonably may be expected to result in either an increase or decrease in the contract price and shall take appropriate action as the Contracting Officer directs. The contract price shall be equitably adjusted to cover the costs of action taken by the Contractor at the direction of the Contracting Officer, including any interest, penalty, and reasonable attorneys' fees.

(h) The Government shall furnish evidence appropriate to establish exemption from any Federal, State, or local tax when (1) the Contractor requests such exemption and states in writing that it applies to a tax excluded from the contract price and (2) a reasonable basis exists to sustain the exemption.

(End of clause)
(R 7-103.10(b) 1960 JUL)
(R 1-11.401-2(d))

52.229-5 Taxes—Contracts Performed in U.S. Possessions or Puerto Rico.

As prescribed in 29.401-5, insert the following clause in solicitations and contracts that include the clause at 52.229-3, Federal, State, and Local Taxes, or 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract):

TAXES—CONTRACTS PERFORMED IN U.S. POSSESSIONS OR PUERTO RICO (APR 1984)

The term "local taxes," as used in the Federal, State, and local taxes clause of this contract, includes taxes imposed by a possession of the United States or by Puerto Rico.

(End of clause)
(AV 7-103.10(c) 1963 NOV)
(AV 1-11.401-3(a))

52.229-6 Taxes—Foreign Fixed-Price Contracts.

As prescribed in 29.402-1(a), insert the following clause in solicitations and contracts when a fixed-price contract is contemplated and the contract is to be performed wholly or partly in a foreign country, unless it is contemplated that the contract will be with a foreign government:

TAXES—FOREIGN FIXED-PRICE CONTRACTS (APR 1984)

(a) To the extent that this contract provides for furnishing supplies or performing services outside the United States, its possessions, and Puerto Rico, this clause applies in lieu of any Federal, State, and local taxes clause of the contract.

(b) "Contract date," as used in this clause, means the date set for bid opening or, if this is a negotiated contract or a modification, the effective date of this contract or modification.

"Country concerned," as used in this clause, means any country, other than the United States, its possessions, and Puerto Rico, in which expenditures under this contract are made.

"Tax" and "taxes," as used in this clause, include fees and charges for doing business that are levied by the government of the country concerned or by its political subdivisions.

"All applicable taxes and duties," as used in this clause, means all taxes and duties, in effect on the contract date, that the taxing authority is imposing and collecting on the transactions or property covered by this contract, pursuant to written ruling or regulation in effect on the contract date.

"After-imposed tax," as used in this clause, means any new or increased tax or duty, or tax that was exempted or excluded on the contract date but whose exemption was later revoked or reduced during the contract period, other than excepted tax, on the transactions or property covered by this contract that the Contractor is required to pay or bear as the result of legislative, judicial, or administrative action taking effect after the contract date.

"After-relieved tax," as used in this clause, means any amount of tax or duty, other than an excepted tax, that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear, or for which the Contractor obtains a refund, as the result of legislative, judicial, or administrative action taking effect after the contract date.

"Excepted tax," as used in this clause, means social security or other employment taxes, net income and franchise taxes, excess profits taxes, capital stock taxes, transportation taxes, unemployment compensation taxes, and property taxes. "Excepted tax" does not include gross income taxes levied on or measured by sales or receipts from sales, property taxes assessed on completed supplies covered by this contract, or any tax assessed on the Contractor's possession of, interest in, or use of property, title to which is in the U.S. Government.

(c) Unless otherwise provided in this contract, the contract price includes all applicable taxes and duties, except taxes and duties that the Government of the United States and the government of the country concerned have agreed shall not be applicable to expenditures in such country by or on behalf of the United States.

(d) The contract price shall be increased by the amount of any after-imposed tax or of any tax or duty specifically excluded from the contract price by a provision of this contract that the Contractor is required to pay or bear, including any interest or penalty, if the Contractor states in writing that the contract price does not include any contingency for such tax and if liability for such tax, interest, or penalty was not incurred through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer or to comply with the provisions of paragraph (i) below.

(e) The contract price shall be decreased by the amount of any after-relieved tax, including any interest or penalty. The Government of the United States shall be

entitled to interest received by the Contractor incident to a refund of taxes to the extent that such interest was earned after the Contractor was paid by the Government of the United States for such taxes. The Government of the United States shall be entitled to repayment of any penalty refunded to the Contractor to the extent that the penalty was paid by the Government.
